

CODE OF FEDERAL REGULATIONS

Title 26

Internal Revenue

Part 1 (§§ 1.170 to 1.300)

Revised as of April 1, 2017

Containing a codification of documents
of general applicability and future effect

As of April 1, 2017

Published by the Office of the Federal Register
National Archives and Records Administration
as a Special Edition of the Federal Register

U.S. GOVERNMENT OFFICIAL EDITION NOTICE

Legal Status and Use of Seals and Logos

The seal of the National Archives and Records Administration (NARA) authenticates the Code of Federal Regulations (CFR) as the official codification of Federal regulations established under the Federal Register Act. Under the provisions of 44 U.S.C. 1507, the contents of the CFR, a special edition of the Federal Register, shall be judicially noticed. The CFR is prima facie evidence of the original documents published in the Federal Register (44 U.S.C. 1510).

It is prohibited to use NARA's official seal and the stylized Code of Federal Regulations logo on any republication of this material without the express, written permission of the Archivist of the United States or the Archivist's designee. Any person using NARA's official seals and logos in a manner inconsistent with the provisions of 36 CFR part 1200 is subject to the penalties specified in 18 U.S.C. 506, 701, and 1017.

Use of ISBN Prefix

This is the Official U.S. Government edition of this publication and is herein identified to certify its authenticity. Use of the 0-16 ISBN prefix is for U.S. Government Publishing Office Official Editions only. The Superintendent of Documents of the U.S. Government Publishing Office requests that any reprinted edition clearly be labeled as a copy of the authentic work with a new ISBN.

this volume use title,
part and section num-
ber. Thus, 26 CFR
1.170-0 refers to title 26,
part 1, section 170-0.*

Explanation

The Code of Federal Regulations is a codification of the general and permanent rules published in the Federal Register by the Executive departments and agencies of the Federal Government. The Code is divided into 50 titles which represent broad areas subject to Federal regulation. Each title is divided into chapters which usually bear the name of the issuing agency. Each chapter is further subdivided into parts covering specific regulatory areas.

Each volume of the Code is revised at least once each calendar year and issued on a quarterly basis approximately as follows:

Title 1 through Title 16.....	as of January 1
Title 17 through Title 27.....	as of April 1
Title 28 through Title 41.....	as of July 1
Title 42 through Title 50.....	as of October 1

The appropriate revision date is printed on the cover of each volume.

LEGAL STATUS

The contents of the Federal Register are required to be judicially noticed (44 U.S.C. 1507). The Code of Federal Regulations is prima facie evidence of the text of the original documents (44 U.S.C. 1510).

HOW TO USE THE CODE OF FEDERAL REGULATIONS

The Code of Federal Regulations is kept up to date by the individual issues of the Federal Register. These two publications must be used together to determine the latest version of any given rule.

To determine whether a Code volume has been amended since its revision date (in this case, April 1, 2017), consult the “List of CFR Sections Affected (LSA),” which is issued monthly, and the “Cumulative List of Parts Affected,” which appears in the Reader Aids section of the daily Federal Register. These two lists will identify the Federal Register page number of the latest amendment of any given rule.

EFFECTIVE AND EXPIRATION DATES

Each volume of the Code contains amendments published in the Federal Register since the last revision of that volume of the Code. Source citations for the regulations are referred to by volume number and page number of the Federal Register and date of publication. Publication dates and effective dates are usually not the same and care must be exercised by the user in determining the actual effective date. In instances where the effective date is beyond the cut-off date for the Code a note has been inserted to reflect the future effective date. In those instances where a regulation published in the Federal Register states a date certain for expiration, an appropriate note will be inserted following the text.

OMB CONTROL NUMBERS

The Paperwork Reduction Act of 1980 (Pub. L. 96-511) requires Federal agencies to display an OMB control number with their information collection request.

Many agencies have begun publishing numerous OMB control numbers as amendments to existing regulations in the CFR. These OMB numbers are placed as close as possible to the applicable recordkeeping or reporting requirements.

PAST PROVISIONS OF THE CODE

Provisions of the Code that are no longer in force and effect as of the revision date stated on the cover of each volume are not carried. Code users may find the text of provisions in effect on any given date in the past by using the appropriate List of CFR Sections Affected (LSA). For the convenience of the reader, a “List of CFR Sections Affected” is published at the end of each CFR volume. For changes to the Code prior to the LSA listings at the end of the volume, consult previous annual editions of the LSA. For changes to the Code prior to 2001, consult the List of CFR Sections Affected compilations, published for 1949-1963, 1964-1972, 1973-1985, and 1986-2000.

“[RESERVED]” TERMINOLOGY

The term “[Reserved]” is used as a place holder within the Code of Federal Regulations. An agency may add regulatory information at a “[Reserved]” location at any time. Occasionally “[Reserved]” is used editorially to indicate that a portion of the CFR was left vacant and not accidentally dropped due to a printing or computer error.

INCORPORATION BY REFERENCE

What is incorporation by reference? Incorporation by reference was established by statute and allows Federal agencies to meet the requirement to publish regulations in the Federal Register by referring to materials already published elsewhere. For an incorporation to be valid, the Director of the Federal Register must approve it. The legal effect of incorporation by reference is that the material is treated as if it were published in full in the Federal Register (5 U.S.C. 552(a)). This material, like any other properly issued regulation, has the force of law.

What is a proper incorporation by reference? The Director of the Federal Register will approve an incorporation by reference only when the requirements of 1 CFR part 51 are met. Some of the elements on which approval is based are:

- (a) The incorporation will substantially reduce the volume of material published in the Federal Register.
- (b) The matter incorporated is in fact available to the extent necessary to afford fairness and uniformity in the administrative process.
- (c) The incorporating document is drafted and submitted for publication in accordance with 1 CFR part 51.

What if the material incorporated by reference cannot be found? If you have any problem locating or obtaining a copy of material listed as an approved incorporation by reference, please contact the agency that issued the regulation containing that incorporation. If, after contacting the agency, you find the material is not available, please notify the Director of the Federal Register, National Archives and Records Administration, 8601 Adelphi Road, College Park, MD 20740-6001, or call 202-741-6010.

CFR INDEXES AND TABULAR GUIDES

A subject index to the Code of Federal Regulations is contained in a separate volume, revised annually as of January 1, entitled CFR INDEX AND FINDING AIDS. This volume contains the Parallel Table of Authorities and Rules. A list of CFR titles, chapters, subchapters, and parts and an alphabetical list of agencies publishing in the CFR are also included in this volume.

An index to the text of “Title 3—The President” is carried within that volume. The Federal Register Index is issued monthly in cumulative form. This index is based on a consolidation of the “Contents” entries in the daily Federal Register.

A List of CFR Sections Affected (LSA) is published monthly, keyed to the revision dates of the 50 CFR titles.

REPUBLICATION OF MATERIAL

There are no restrictions on the republication of material appearing in the Code of Federal Regulations.

INQUIRIES

For a legal interpretation or explanation of any regulation in this volume, contact the issuing agency. The issuing agency’s name appears at the top of odd-numbered pages.

For inquiries concerning CFR reference assistance, call 202-741-6000 or write to the Director, Office of the Federal Register, National Archives and Records Administration, 8601 Adelphi Road, College Park, MD 20740-6001 or e-mail fedreg.info@nara.gov.

SALES

The Government Publishing Office (GPO) processes all sales and distribution of the CFR. For payment by credit card, call toll-free, 866-512-1800, or DC area, 202-512-1800, M-F 8 a.m. to 4 p.m. e.s.t. or fax your order to 202-512-2104, 24 hours a day. For payment by check, write to: US Government Publishing Office – New Orders, P.O. Box 979050, St. Louis, MO 63197-9000.

ELECTRONIC SERVICES

The full text of the Code of Federal Regulations, the LSA (List of CFR Sections Affected), The United States Government Manual, the Federal Register, Public Laws, Public Papers of the Presidents of the United States, Compilation of Presidential Documents and the Privacy Act Compilation are available in electronic format via www.ofr.gov. For more information, contact the GPO Customer Contact Center, U.S. Government Publishing Office. Phone 202-512-1800, or 866-512-1800 (toll-free). E-mail, ContactCenter@gpo.gov.

The Office of the Federal Register also offers a free service on the National Archives and Records Administration’s (NARA) World Wide Web site for public law numbers, Federal Register finding aids, and related information. Connect to NARA’s web site at www.archives.gov/federal-register.

The e-CFR is a regularly updated, unofficial editorial compilation of CFR material and Federal Register amendments, produced by the Office of the Federal Register and the Government Publishing Office. It is available at www.ecfr.gov.

OLIVER A. POTTS,
Director,
Office of the Federal Register.
April 1, 2017.

THIS TITLE

Title 26—INTERNAL REVENUE is composed of twenty-two volumes. The contents of these volumes represent all current regulations issued by the Internal Revenue Service, Department of the Treasury, as of April 1, 2017. The first fifteen volumes comprise part 1 (Subchapter A—Income Tax) and are arranged by sections as follows: §§ 1.0–1.60; §§ 1.61–1.139; §§ 1.140–1.169; §§ 1.170–1.300; §§ 1.301–1.400; §§ 1.401–1.409; §§ 1.410–1.440; §§ 1.441–1.500; §§ 1.501–1.640; §§ 1.641–1.850; §§ 1.851–1.907; §§ 1.908–1.1000; §§ 1.1001–1.1400; §§ 1.1401–1.1550; and § 1.1551 to end of part 1. The sixteenth volume containing parts 2–29, includes the remainder of subchapter A and all of Subchapter B—Estate and Gift Taxes. The last six volumes contain parts 30–39 (Subchapter C—Employment Taxes and Collection of Income Tax at Source); parts 40–49; parts 50–299 (Subchapter D—Miscellaneous Excise Taxes); parts 300–499 (Subchapter F—Procedure and Administration); parts 500–599 (Subchapter G—Regulations under Tax Conventions); and part 600 to end (Subchapter H—Internal Revenue Practice).

The OMB control numbers for Title 26 appear in § 602.101 of this chapter. For the convenience of the user, § 602.101 appears in the Finding Aids section of the volumes containing parts 1 to 599.

For this volume, Michele Bugenhagen was Chief Editor. The Code of Federal Regulations publication program is under the direction of John Hyrum Martinez, assisted by Stephen J. Frattini.

- 1.263(c)-1 Intangible drilling and development costs in the case of oil and gas wells.
- 1.263(e)-1 Expenditures in connection with certain railroad rolling stock.
- 1.263(f)-1 Reasonable repair allowance.
- 1.263A-0 Outline of regulations under section 263A.
- 1.263A-1 Uniform capitalization of costs.
- 1.263A-2 Rules relating to property produced by the taxpayer.
- 1.263A-3 Rules relating to property acquired for resale.
- 1.263A-4 Rules for property produced in a farming business.
- 1.263A-5 Exception for qualified creative expenses incurred by certain free-lance authors, photographers, and artists. [Reserved]
- 1.263A-6 Rules for foreign persons. [Reserved]
- 1.263A-7 Changing a method of accounting under section 263A.
- 1.263A-8 Requirement to capitalize interest.
- 1.263A-9 The avoided cost method.
- 1.263A-10 Unit of property.
- 1.263A-11 Accumulated production expenditures.
- 1.263A-12 Production period.
- 1.263A-13 Oil and gas activities.
- 1.263A-14 Rules for related persons.
- 1.263A-15 Effective dates, transitional rules, and anti-abuse rule.
- 1.264-1 Premiums on life insurance taken out in a trade or business.
- 1.264-2 Single premium life insurance, endowment, or annuity contracts.
- 1.264-3 Effective date; taxable years ending after March 1, 1954, subject to the Internal Revenue Code of 1939.
- 1.264-4 Other life insurance, endowment, or annuity contracts.
- 1.265-1 Expenses relating to tax-exempt income.
- 1.265-2 Interest relating to tax-exempt income.
- 1.265-3 Nondeductibility of interest relating to exempt-interest dividends.
- 1.266-1 Taxes and carrying charges chargeable to capital account and treated as capital items.
- 1.267(a)-1 Deductions disallowed.
- 1.267(a)-2T Temporary regulations; questions and answers arising under the Tax Reform Act of 1984 (temporary).
- 1.267(a)-3 Deduction of amounts owed to related foreign persons.
- 1.267(b)-1 Relationships.
- 1.267(c)-1 Constructive ownership of stock.
- 1.267(d)-1 Amount of gain where loss previously disallowed.
- 1.267(d)-2 Effective/applicability dates.
- 1.267(f)-1 Controlled groups.
- 1.268-1 Items attributable to an unharvested crop sold with the land.
- 1.269-1 Meaning and use of terms.
- 1.269-2 Purpose and scope of section 269.
- 1.269-3 Instances in which section 269(a) disallows a deduction, credit, or other allowance.
- 1.269-4 Power of district director to allocate deduction, credit, or allowance in part.
- 1.269-5 Time of acquisition of control.
- 1.269-6 Relationship of section 269 to section 382 before the Tax Reform Act of 1986.
- 1.269-7 Relationship of section 269 to sections 382 and 383 after the Tax Reform Act of 1986.
- 1.269B-1 Stapled foreign corporations.
- 1.270-1 Limitation on deductions allowable to individuals in certain cases.
- 1.271-1 Debts owed by political parties.
- 1.272-1 Expenditures relating to disposal of coal or domestic iron ore.
- 1.273-1 Life or terminable interests.
- 1.274-1 Disallowance of certain entertainment, gift and travel expenses.

Pt. 1

26 CFR Ch. I (4-1-17 Edition)

1.274-2 Disallowance of deductions for certain expenses for entertainment, amusement, recreation, or travel.

COMPUTATION OF TAXABLE INCOME (CONTINUED)

ITEMIZED DEDUCTIONS FOR INDIVIDUALS AND CORPORATIONS (CONTINUED)

§ 1.170-0 Effective dates.

Except as otherwise provided in this section, the provisions of section 170 and §§1.170-1 through 1.170-3 are applicable to contributions paid in taxable years beginning before January 1, 1970, and all references therein to sections of the Code are to sections of the Internal Revenue Code of 1954 prior to the amendments made by section 201(a) of the Tax Reform Act of 1969 (83 Stat. 549). Except as otherwise provided therein, §§1.170A through 1.170A-11 are applicable to contributions paid in taxable years beginning after December 31, 1969. In a case where a provision in §§1.170A through 1.170A-11 is applicable to a contribution paid in a taxable year beginning before January 1, 1970, such provision shall apply to the contribution and §§1.170-1 through 1.170-3 shall not apply to the contribution.

[T.D. 7207, 37 FR 20767, Oct. 5, 1972]

§ 1.170-1 Charitable, etc., contributions and gifts; allowance of deduction (before amendment by Tax Reform Act of 1969).

(a) *In general*—(1) *General rule.* Any charitable contribution (as defined in section 170(c)) actually paid during the taxable year is allowable as a deduction in computing taxable income, regardless of the method of accounting employed or when pledged. In addition, contributions by corporations may under certain circumstances be deductible even though not paid during the taxable year (see §1.170-3), and subject to the provisions of section 170(b)(5) and paragraph (g) of §1.170-2, certain excess charitable contributions made by individuals in taxable years beginning after December 31, 1963, shall be treated as paid in certain succeeding taxable years. The deduction is subject to the limitations of section 170(b) (see §§1.170-2 and 1.170-3) and is subject to verification by the district director. For rules relating to the determination of, and the deduction for, amounts paid to maintain certain students as members of the taxpayer's household and

treated under section 170(d) as paid for the use of an organization described in section 170(c) (2), (3), or (4), see paragraph (f) of § 1.170-2. For a special rule relating to the computation of the amount of the deduction with respect to a contribution of section 1245 or section 1250 property, see section 170(e).

(2) *Information required in support of deductions for taxable years beginning before January 1, 1964.* In connection with claims for deductions for charitable contributions paid in taxable years beginning before January 1, 1964, taxpayers shall state in their income tax returns the name and address of each organization to which a contribution was made and the amount and approximate date of the actual payment of each contribution. Any deduction for charitable contribution must be substantiated, when required by the district director, by a statement from the organization to which the contribution was made indicating whether the organization is a domestic organization, the name and address of the contributor, the amount of the contribution, and the date of its actual payment, and by such other information as the district director may deem necessary.

(3) *Information required in support of deductions for taxable years beginning after December 31, 1963—(i) In general.* In connection with claims for deductions for charitable contributions paid in taxable years beginning after December 31, 1963, taxpayers shall state in their income tax returns the name of each organization to which a contribution was made and the amount and date of the actual payment of each contribution. If a contribution is made in property other than money, the taxpayer shall state the kind of property contributed (for example, used clothing, paintings, securities) and shall state the method utilized in determining the fair market value of the property at the time the contribution was made. In any case in which a taxpayer makes numerous cash contributions to an organization during the taxable year, the taxpayer may state the total cash payments made to such organization during the taxable year in lieu of listing each cash contribution and the date of payment.

(ii) *Contribution by individual of property other than money.* If an individual taxpayer makes a charitable contribution of an item of property other than money and claims a deduction in excess of \$200 in respect of his contribution of such item, he shall attach to his income tax return a statement setting forth the following information with respect to such item:

(a) The name and address of the organization to which the contribution was made.

(b) The date of the actual contribution.

(c) A description of the property in sufficient detail to identify the particular property contributed including, in the case of tangible property, the physical condition of the property at the time of contribution. In the case of securities, the name of the issuer, the type of security, and whether or not such security is regularly traded on a stock exchange or in an over-the-counter market.

(d) The manner (for example, by purchase, gift, bequest, inheritance, exchange, etc.) and the approximate date of acquisition of the property by the taxpayer. If the property was created, produced, or manufactured by the taxpayer, the approximate date the property was substantially completed.

(e) The fair market value of the property at the time the contribution was made, showing the method utilized in determining the fair market value. (If the valuation was determined by appraisal, a copy of the signed report of the appraiser should be submitted.)

(f) In the case of property (not including securities) held by the taxpayer for a period less than five years immediately preceding the date on which the contribution was made, the cost or other basis, adjusted as provided by section 1016. If available, the cost or other basis, adjusted as provided by section 1016, of property (not including securities) held for a period of five years or more prior to the time of contribution should be submitted.

(g) In the case of section 1245 or section 1250 property, the reduction by reason of section 170(e) in the amount of the charitable contribution taken into account under section 170.

(h) The terms of any agreement or understanding entered into by or on behalf of the taxpayer relating to the use, sale, or disposition of the property contributed. For example, there must be attached to the income tax return of an individual taxpayer the terms of any agreement or understanding which restricts the donee's right to dispose of the donated property (either temporarily or permanently) or which reserves to, or confers upon, anyone other than the donee organization (or an organization participating with such organization in cooperative fund raising) any right to the income from such property, to the possession of the property (including the right to vote securities), to acquire such property by purchase or otherwise, or to designate who shall have such income, possession, or right to acquire. Notwithstanding the above, it will not be necessary to set forth the terms of any agreement or understanding which merely earmarks contributed property for a particular charitable use, such as the use of donated furniture in the reading room of the donee organization's library.

(i) The total amount claimed as a deduction for the taxable year due to the contribution of the property. If less than the entire interest in the property is contributed during the taxable year, the amount claimed as a deduction in any prior year or years for contributions of other interests in such property, the name and address of each organization to which any such contribution was made, the place where the property (if tangible property) is located or kept and the name of the person having actual possession of the property, if other than the organization to which the property giving rise to the deduction was contributed.

(iii) *Statement from donee organization.* Any deduction for a charitable contribution must be substantiated, when required by the district director, by a statement from the organization to which the contribution was made indicating whether the organization is a domestic organization, the name and address of the contributor, the amount of the contribution, the date of actual receipt of the contribution, and such other information as the district direc-

tor may deem necessary. If the contribution includes an item of property (other than money or securities which are regularly traded on a stock exchange or in an over-the-counter market) which the donee deems to have a fair market value in excess of \$200 at the time of receipt, such statement shall also indicate for each such item its location if retained by the organization, the amount received by the organization on any sale of the property and the date of sale, or in case of other disposition of the property, the method of disposition.

(b) *Time of making contribution.* Ordinarily a contribution is made at the time delivery is effected. In the case of a check, the unconditional delivery (or mailing) of a check which subsequently clears in due course will constitute an effective contribution on the date of delivery (or mailing). If a taxpayer unconditionally delivers (or mails) a properly endorsed stock certificate to a charitable donee or the donee's agent, the gift is completed on the date of delivery (or mailing, provided that such certificate is received in the ordinary course of the mails). If the donor delivers the certificate to his bank or broker as the donor's agent, or to the issuing corporation or its agent, for transfer into the name of the donee, the gift is completed on the date the stock is transferred on the books of the corporation. For rules relating to a contribution consisting of a future interest in tangible personal property, see paragraph (d)(2) of this section.

(c) *Contribution in property—(1) General rules.* If a contribution is made in property other than money, the amount of the deduction is determined by the fair market value of the property at the time of the contribution. The fair market value is the price at which the property would change hands between a willing buyer and a willing seller, neither being under any compulsion to buy or sell and both having reasonable knowledge of relevant facts. If the contribution is made in property of a type which the taxpayer sells in the course of his business, the fair market value is the price which the taxpayer would have received if he had sold the contributed property in the lowest usual market in which he customarily

sells, at the time and place of the contribution (and in the case of a contribution of goods in quantity, in the quantity contributed). The usual market of a manufacturer or other producer consists of the wholesalers or other distributors to or through whom he customarily sells, unless he sells only at retail in which event it is his retail customers. If a donor makes a charitable contribution of, for example, stock in trade at a time when he could not reasonably have been expected to realize its usual selling price, the value of the gift is not the usual selling price but is the amount for which the quantity of merchandise contributed would have been sold by the donor at the time of the contribution. Costs and expenses incurred in the year of contribution in producing or acquiring the contributed property are not deductible and are not a part of the cost of goods sold. Similarly, to the extent that costs and expenses incurred in a prior taxable year in producing or acquiring the contributed property are reflected in the cost of goods sold in the year of contribution, cost of goods sold must be reduced by such costs and expenses. Transfers of property to an organization described in section 170(c) which bear a direct relationship to the taxpayer's business and which are made with a reasonable expectation of financial return commensurate with the amount of the transfer may constitute allowable deductions as trade or business expenses rather than as charitable contributions. See section 162 and the regulations thereunder.

(2) *Reduction for certain interest.* (i) With respect to charitable contributions made after December 31, 1957, section 170(b)(4) requires that the amount of the charitable deduction be reduced for certain interest to the extent necessary to avoid the reduction of the same amount both as an interest deduction under section 163 and as a deduction for charitable contributions under section 170. The reduction is to be determined in accordance with subdivisions (ii) and (iii) of this subparagraph.

(ii) With respect to charitable contributions made after December 31, 1957, in determining the amount to be taken into account as a charitable con-

tribution for purposes of section 170, the amount determined without regard to section 170(b)(4) or this subparagraph shall be reduced by the amount of interest which has been paid (or is to be paid) by the taxpayer, which is attributable to any liability connected with the contribution, and which is attributable to any period of time after the making of the contribution. The deduction otherwise allowable for charitable contributions under section 170 is required to be reduced pursuant to section 170(b)(4) only if, in connection with a charitable contribution, a liability is assumed by the recipient of the contribution or by any other person, or if the charitable contribution is of property which is subject to a liability. Thus, if the contribution is made in property and the transfer is conditioned upon the assumption of a liability by the donee or by some other person, any interest paid (or to be paid) by the taxpayer, attributable to the liability, and with respect to a period after the making of the contribution, will serve to reduce the amount that may be taken into account as a charitable contribution for purposes of section 170. The adjustment referred to in this subdivision must also be made where the contributed property is subject to a liability and the value of the property reflects the payment by the donor of interest with respect to a period of time after the making of the contribution.

(iii) If, in connection with the charitable contribution, after December 31, 1957, of a bond, a liability is assumed by the recipient or by any other person, or if the bond is subject to a liability, then, in determining the amount to be taken into account as a charitable contribution under section 170, the amount determined without regard to section 170(b)(4) or this subparagraph shall, without regard to whether any reduction may be required by subdivision (ii) of this subparagraph, also be reduced for interest which has been paid (or is to be paid) by the taxpayer on indebtedness incurred or continued to purchase or carry such bond, and which is attributable to any period before the making of the contribution. However, the reduction referred to in this subdivision shall be made only to

the extent that such reduction does not exceed the interest (including bond discount and other interest equivalent) receivable on the bond, and attributable to any period before the making of the contribution which is not, by reason of the taxpayer's method of accounting, includible in the taxpayer's gross income for any taxable year. For purposes of section 170(b)(4) and this subdivision the term *bond* means any bond, debenture, note, or certificate or other evidence of indebtedness.

(iv) The provisions of this subparagraph may be illustrated by the following examples:

Example 1. A, an individual using the cash receipts and disbursements method of accounting, on January 1, 1960, contributed to a charitable organization real estate having a fair market value of \$10,000. In connection with the contribution the charitable organization assumed an indebtedness of \$8,000 which A had incurred. A has prepaid two years' interest on that indebtedness (for 1960 and 1961) amounting to \$960, and has taken an interest deduction of \$960 for such amount. The amount of the gift, determined without regard to this subparagraph, is \$2,960 (\$10,000 less \$8,000, the outstanding indebtedness, plus \$960, the amount of prepaid interest). In determining the amount of the deduction for charitable contributions, the value of the gift (\$2,960) must be reduced by \$960 to eliminate from the computation of such deduction that portion thereof for which A has been allowed an interest deduction.

Example 2. On January 1, 1960, B, an individual using the cash receipts and disbursements method of accounting, purchased for \$9,600 a 5½ percent \$10,000, 20-year M Corporation bond, the interest on which was payable semiannually on June 30 and December 31. The M Corporation had issued the bond on January 1, 1950, at a discount of \$720 from the principal amount. On December 1, 1960, B donated the bond to a charitable organization, and, in connection with the contribution, the charitable organization assumed an indebtedness of \$7,000 which B had incurred to purchase and carry the bond. During the calendar year 1960 B paid accrued interest of \$330 on the indebtedness for the period from January 1 to December 1, 1960, and has taken an interest deduction of \$330 for such amount. No portion of the bond discount of \$36 a year (\$720 divided by 20 years) has been included in B's income, and of the \$550 of annual interest receivable on the bond, he included in income only the June 30 payment of \$275. The market value of the bond on the date of the contribution was \$9,902. Such value reflects a proportionate

part of the original bond discount (\$9,280 plus \$393, or \$9,673) and of interest receivable of \$229 which had accrued from July 1 to December 1, 1960. The amount of the charitable contribution determined without regard to this subparagraph is \$2,902 (\$9,902, the value of the property on the date of gift, less \$7,000, the amount of the liability assumed by the charitable organization). In determining the amount of the allowable deduction for charitable contributions, the value of the gift (\$2,902) must be reduced to eliminate from the deduction that portion thereof for which B has been allowed an interest deduction. Although the amount of such interest deduction was \$330, the reduction required by this subparagraph is limited to \$262, since the reduction is not in excess of the amount of interest income on the bond (\$229 of accrued interest plus \$33, the amount of bond discount attributable to the eleven-month period B held the bond).

(3) *Reduction for depreciable property.*

(i) With respect to a charitable contribution of section 1245 property (as defined in section 1245(a)(3)), or section 1250 property (as defined in section 1250(c)), section 170(e) requires that the amount of the charitable contribution taken into account under section 170 shall be reduced by the amount which would have been treated (but was not actually treated) as gain to which section 1245(a)(1) or 1250(a) (relating to gain from dispositions of depreciable property) applies if the property contributed had been sold at its fair market value (determined at the time of such contribution).

(ii) Section 170(e) applies to charitable contributions of section 1245 property in taxable years beginning after December 31, 1962, except that in respect of section 1245 property which is an elevator or escalator section 170(e) applies to charitable contributions after December 31, 1963. Section 170(e) applies to charitable contributions of section 1250 property after December 31, 1963.

(iii) The provisions of this subparagraph may be illustrated by the following example:

Example. Jones contributes to a charitable organization section 1245 property which has an adjusted basis of \$10,000, a recomputed basis (as defined in section 1245 (a)(2)) of \$14,000, and a fair market value of \$17,000. If Jones had instead sold the property at its fair market value, he would have recognized gain under section 1245(a)(1) of \$4,000. See paragraph (b) of § 1.1245-1. Under section

§ 1.170-1

26 CFR Ch. I (4-1-17 Edition)

170(e), the amount of the charitable contribution taken into account under section 170 is reduced by \$4,000. Accordingly, the amount of the charitable contribution is \$13,000 (\$17,000 minus \$4,000).

(d) *Transfers of income and future interests*—(1) *In general.* A deduction may be allowed for a contribution of an interest in the income from property or an interest in the remainder (but see subparagraph (2) of this paragraph for rules relating to transfers, after December 31, 1963, of future interests in tangible personal property). The income or remainder interest shall be valued according to the tables referred to in paragraph (d) of §1.170-2. For rules with respect to certain transfers to a trust, see paragraph (d) of §1.170-2.

(2) *Future interests in tangible personal property.* (i) Except as otherwise provided in subdivision (iii) of this subparagraph, a contribution consisting of a transfer, after December 31, 1963, in a taxable year ending after such date, of a future interest in tangible personal property shall be treated as made only when:

(a) All intervening interests in, and rights to the actual possession or enjoyment of, the property have expired, or

(b) Are held by persons other than the taxpayer or those standing in a relationship to the taxpayer described in section 267(b) and the regulations thereunder (relating to losses, expenses, and interest with respect to transactions between related taxpayers).

Section 170(f) and this subparagraph have no application in respect of a transfer of an undivided present interest in property. For example, a contribution of an undivided one-quarter interest in a painting with respect to which the donee is entitled to possession during three months of each year shall be treated as made upon the receipt by the donee of a formally executed and acknowledged deed of gift. Section 170(f) and this subparagraph have no application in respect of a transfer of a future interest in intangible personal property or in real property. However, a fixture which is intended to be severed from real property shall be treated as tangible personal

property. For example, a contribution of a future interest in a chandelier which is attached to a building is considered a contribution which consists of a future interest in tangible personal property if the transferor intends that it be detached from the building at or prior to the time when the charitable organization's right to possession or enjoyment of the chandelier is to commence. For purposes of section 170(f) and this subparagraph, the term *future interest* has generally the same meaning as it has when used in section 2503, relating to taxable gifts, see §25.2503-3 of Part 25 of this chapter (Gift Tax Regulations), and such term includes reversions, remainders, and other interests or estates, whether vested or contingent, and whether or not supported by a particular interest or estate, which are limited to commence in use, possession or enjoyment at some future date or time. The term *future interest* includes situations in which a donor purports to give tangible personal property to a charitable organization, but has an understanding, arrangement, agreement, etc. (whether written or oral) with the charitable organization which has the effect of reserving to, or retaining in, such donor a right to the use, possession, or enjoyment of the property.

(ii) The provisions of subdivision (i) of this subparagraph may be illustrated by the following examples:

Example 1. On December 31, 1964, A, an individual who reports his income on the calendar year basis, conveys by deed of gift to a museum title to a painting, but reserves to himself the right to the use, possession, and enjoyment of the painting during his lifetime. At the time of the gift the value of the painting is \$90,000. Since the contribution consists of a future interest in tangible personal property in which the donor has retained an intervening interest, no contribution is considered as having been made in 1964.

Example 2. Assume the same facts as in *Example 1* except that on December 31, 1965, A relinquishes all of his right to the use, possession, and enjoyment of the painting and delivers the painting to the museum. Assuming that the value of the painting has increased to \$95,000, A is treated as having made a charitable contribution of \$95,000 in 1965.

Example 3. Assume the same facts as *Example 1* except A dies without relinquishing his

right to the use, possession, and enjoyment of the painting. Since A did not relinquish his right to the use, possession, and enjoyment of the property during his life, A is treated as not having made a charitable contribution of the painting for income tax purposes.

Example 4. Assume the same facts as in *Example 1* except A, on December 31, 1965, transfers his interest in the painting to his son, B. Since the relationship between A and B is one described in section 267(b), no contribution of the remainder interest in the painting is considered as having been made in 1965.

Example 5. Assume the same facts as in *Example 4*. Also assume that on December 31, 1966, B conveys the interest measured by A's life to the museum. B has made a charitable contribution of the present interest in the painting conveyed to the museum (i.e., the life interest measured by A's life expectancy in 1966 valued according to paragraph (f), Table 1, of § 20.2031-7 of Part 20 of this chapter (Estate Tax Regulations)). In addition, since all intervening interests in, and rights to the actual possession or enjoyment of the property, have expired, a charitable contribution of the remainder interest is treated as having been made by A in 1966. Such remainder interest shall also be valued according to paragraph (f), Table 1, of § 20.2031-7 of Part 20 of this chapter (Estate Tax Regulations)).

(iii) Section 209(f)(3) of the Revenue Act of 1964 (78 Stat. 47) provides an exception to the rule set forth in section 170(f). Pursuant to the exception, section 170(f) and subdivision (i) of this subparagraph shall not apply in the case of a transfer of a future interest in tangible personal property made after December 31, 1963, and before July 1, 1964, where:

(a) The sole intervening interest or right is a nontransferable life interest reserved by the donor, or

(b) In the case of a joint gift by husband and wife, the sole intervening interest or right is a nontransferable life interest reserved by the donors which expires not later than the death of whichever of such donors dies later.

For purposes of the preceding sentence, the right to make a transfer of the reserved life interest to the donee of the future interest shall not be treated as making a life interest transferable.

(e) *Transfers subject to a condition or a power.* If as of the date of a gift a transfer for charitable purposes is dependent upon the performance of some act or

the happening of a precedent event in order that it might become effective, no deduction is allowable unless the possibility that the charitable transfer will not become effective is so remote as to be negligible. If an interest passes to or is vested in charity on the date of the gift and the interest would be defeated by the performance of some act or the happening of some event, the occurrence of which appeared to have been highly improbable on the date of the gift, the deduction is allowable. The deduction is not allowed in the case of a transfer in trust conveying a present interest in income if by reason of all the conditions and circumstances surrounding the transfer it appears that the charity may not receive the beneficial enjoyment of the interest. For example, assume that assets placed in trust consist of stock in a corporation the fiscal policies of which are controlled by the donor and his family, that the trustees and remaindermen are likewise members of the donor's family, and that the governing instrument contains no adequate guarantee of the requisite income to the charitable organization. Under such circumstances, no deduction will be allowed. Similarly, if the trustees were not members of the donor's family but had no power to sell or otherwise dispose of closely held stock, or otherwise insure the requisite enjoyment of income to the charitable organization, no deduction would be allowed.

(f) *Exceptions.* (1) This section does not apply to contributions by estates and trusts (see section 642(c)). For disallowance of certain charitable deductions otherwise allowable under section 170, see sections 503(e) and 681(b)(5) (relating to organizations engaged in prohibited transactions). For disallowance of deductions for contributions to or for the use of communist controlled organizations, see section 11(a) of the Internal Security Act of 1950, as amended (50 U.S.C. 790). For denial of deduction for charitable contributions as trade or business expenses and rules with respect to treatment of payments to organizations other than those described in section 170(c), see section 162 and the regulations thereunder.

(2) No deduction shall be allowed under section 170 for amounts paid to an organization:

(i) A substantial part of the activities of which is carrying on propaganda, or otherwise attempting, to influence legislation, or

(ii) Which participates in or intervenes in any political campaign on behalf of any candidate for public office. For purposes of determining whether an organization is attempting to influence legislation or is engaging in political activities, see section 501(c)(3) and the regulations thereunder. Moreover, no deduction shall be allowed under section 170 for expenditures for lobbying purposes, promotion or defeat of legislation, etc. See also the regulations under section 162.

(3) No deduction for charitable contributions is allowed in computing the taxable income of a common trust fund or of a partnership. See sections 584(d) and 703(a)(2)(D). However, a partner's distributive share of charitable contributions actually paid by a partnership during its taxable year may be allowed as a deduction in the partner's separate return for his taxable year with or within which the taxable year of the partnership ends, to the extent that the aggregate of his share of the partnership contributions and his own contributions does not exceed the limitations in section 170 (b). In the case of a nonresident alien individual, or a citizen of the United States entitled to the benefits of section 931, see sections 873(c), 876, and 931.

[T.D. 6500, 25 FR 11402, Nov. 26, 1960, as amended by T.D. 6605, 27 FR 8094, Aug. 15, 1962; T.D. 6785, 29 FR 18499, Dec. 29, 1964; T.D. 6832, 30 FR 8574, July 7, 1965; T.D. 6900, 31 FR 14633, Nov. 17, 1966; T.D. 7084, 36 FR 266, Jan. 8, 1971; T.D. 7207, 37 FR 20768, Oct. 4, 1972]

§ 1.170-2 Charitable deductions by individuals; limitations (before amendment by Tax Reform Act of 1969).

(a) *In general.* (1) A deduction is allowable to an individual under section 170 only for charitable contributions actually paid during the taxable year, regardless of when pledged and regardless of the method of accounting employed by the taxpayer in keeping his books and records. A contribution to

an organization described in section 170(c) is deductible even though some portion of the funds of the organization may be used in foreign countries for charitable or educational purposes. The deduction by an individual for charitable contributions under section 170 is limited generally to 20 percent of the taxpayer's adjusted gross income (computed without regard to any net operating loss carryback to the taxable year under section 172). If a husband and wife make a joint return, the deduction for contributions is the aggregate of the contributions made by the spouses, and the limitation in section 170(b) is based on the aggregate adjusted gross income of the spouses. The 20-percent limitation applies to amounts contributed during the taxable year "to or for the use of" those recipients described in section 170(c), including amounts treated under section 170(d) as paid for the use of an organization described in section 170(c) (2), (3), or (4). See paragraph (f) of this section. The limitation is computed without regard to contributions qualifying for the additional 10-percent deduction. For examples of the application of the 10- and 20-percent limitation, see paragraph (b)(5) of this section. For special rules reducing amount of certain charitable deductions, see paragraph (c)(2) of § 1.170-1.

(2) No deduction is allowable for contribution of services. However, unreimbursed expenditures made incident to the rendition of services to an organization contributions to which are deductible may constitute a deductible contribution. For example, the cost of a uniform without general utility which is required to be worn in performing donated services is deductible. Similarly, out-of-pocket transportation expenses necessarily incurred in rendering donated services are deductible. Reasonable expenditures for meals and lodging necessarily incurred while away from home in the course of rendering donated services also are deductible. For the purposes of this section, the phrase *while away from home* has the same meaning as that phrase is used for purposes of section 162.

(3)(i) In the case of an annuity or portion thereof purchased from an organization described in section 170(c), there

shall be allowed as a deduction the excess of the amount paid over the value at the time of purchase of the annuity or portion purchased.

(ii) The value of the annuity or portion is the value of the annuity determined in accordance with section 101(b) and the regulations thereunder.

(b) *Additional 10-percent deduction*—(1) *In general.* In addition to the deduction which may be allowed for contributions subject to the general 20-percent limitation, an individual may deduct charitable contributions made during the taxable year to the organizations specified in section 170(b)(1)(A) to the extent that such contributions in the aggregate do not exceed 10 percent of his adjusted gross income (computed without regard to any net operating loss carryback to the taxable year under section 172). The additional 10-percent deduction may be allowed with respect to contributions to:

(i) A church or a convention or association of churches,

(ii) An educational organization referred to in section 503(b)(2) and defined in subparagraph (3)(i) of this paragraph,

(iii) A hospital referred to in section 503(b)(5) and defined in subparagraph (4)(i) of this paragraph,

(iv) Subject to certain conditions and limitations set forth in subparagraph (4)(ii) of this paragraph, and for taxable years beginning after December 31, 1955, a medical research organization referred to in section 503(b)(5),

(v) Subject to certain limitations and conditions set forth in subparagraph (3)(ii) of this paragraph, and for taxable years beginning after December 31, 1960, an organization referred to in section 503(b)(3) which is organized and operated for the benefit of certain State and municipal colleges and universities,

(vi) For taxable years beginning after December 31, 1963, a governmental unit referred to in section 170(c)(1), and

(vii) Subject to certain limitations and conditions set forth in subparagraph (5) of this paragraph, and for taxable years beginning after December 31, 1963, an organization referred to in section 170(c)(2).

To qualify for the additional 10-percent deduction the contributions must be

made “to”, and not merely “for the use of”, one of the specified organizations. A contribution to an organization referred to in section 170(c)(2) (other than an organization specified in subdivisions (i) through (vi) of this subparagraph) which, for taxable years beginning after December 31, 1963, is not “publicly supported” under the rules of subparagraph (5) of this paragraph will not qualify for the additional 10-percent deduction even though such organization makes the contribution available to an organization which is specified in section 170(b)(1)(A). The computation of this additional deduction is not necessary unless the total contributions paid during the taxable year are in excess of the general 20-percent limitation. Where the total contributions exceed the 20-percent limitation, the taxpayer should first ascertain the amount of charitable contributions subject to the 10-percent limitation, and any excess over the 10-percent limitation should then be added to all other contributions and limited by the 20-percent limitation. For provisions relating to a carryover of certain charitable contributions made by individuals, see paragraph (g) of this section.

(2) *Church.* For definition of *church*, see the regulations under section 511.

(3) *Educational organization and organizations for the benefit of certain State and municipal colleges and universities*—

(i) *Educational organization.* An *educational organization* within the meaning of section 170(b)(1)(A) is one whose primary function is the presentation of formal instruction and which normally maintains a regular faculty and curriculum and normally has a regularly enrolled body of pupils or students in attendance at the place where its educational activities are regularly carried on. The term, therefore, includes institutions such as primary, secondary, preparatory, or high schools, and colleges and universities. It includes Federal, State, and other public-supported schools which otherwise come within the definition. It does not include organizations engaged in both educational and noneducational activities unless the latter are merely incidental to and growing out of the educational activities. A recognized university which incidentally operates a

museum or sponsors concerts is an educational organization. However, the operation of a school by a museum does not necessarily qualify the museum as an educational organization. A gift to an educational institution through an alumni association or a class organization, which acts simply as a fund-raising or collection agency through which gifts may be made currently to the institution, is a gift to the educational organization if the entire gift inures to its benefit, but not if any part of it inures to the general or operating fund of the agency. Similarly, a gift to one or more educational institutions through an association of educational institutions will be considered a gift to the institutions if it inures entirely to their benefit.

(ii) *Organizations for the benefit of certain State and municipal colleges and universities.* (a) For taxable years beginning after December 31, 1960, gifts made to an organization referred to in section 503(b)(3) organized and operated exclusively to receive, hold, invest, and administer property and to make expenditures to or for the benefit of certain colleges and universities, may be taken into account in computing the additional 10-percent limitation. The phrase *expenditures to or for the benefit of certain colleges and universities* includes expenditures made for any one or more of the normally accepted functions of colleges and universities, for example, for the acquisition and maintenance of real property comprising part of the campus area, the erection of or participation in the erection of college or university buildings, scholarships, libraries, student loans, and the acquisition and maintenance of equipment and furnishings used for or in conjunction with normally accepted functions of colleges and universities.

(b) The recipient organization must be one which normally receives a substantial portion of its support from the United States or any State or political subdivision thereof or from direct or indirect contributions from the general public, or from a combination of two or more of such sources. An example of an indirect contribution from the public would be the receipt by the organization of its share of the proceeds of an annual collection campaign of a com-

munity chest, community fund, or united fund.

(c) The college or university (including land grant colleges and universities) to be benefited must be an educational organization referred to in section 170(b)(1)(A)(ii) and subdivision (i) of this subparagraph; and must be an agency or instrumentality of a State or political subdivision thereof, or must be owned or operated by a State or political subdivision thereof or by an agency or instrumentality of one or more States or political subdivisions.

(4) *Hospital and medical research organization*—(i) *Hospital.* The term *hospital*, as used in section 170(b)(1)(A), means an organization the principal purposes or functions of which are the providing of hospital or medical care. The term includes Federal and State hospitals otherwise coming within the definition but does not include medical education organizations, or medical research organizations. See, however, subdivision (ii) of this subparagraph, relating to contributions to certain medical research organizations for taxable years beginning after December 31, 1955. A rehabilitation institution or an outpatient clinic may qualify as a hospital if its principal purposes or functions are the providing of hospital or medical care. The term *hospital* does not include convalescent homes or homes for children or the aged, nor does the term include institutions whose principal purposes or functions are to train handicapped individuals to pursue some vocation.

(ii) *Certain medical research organizations.* (a) For taxable years beginning after December 31, 1955, certain charitable contributions made to certain medical research organizations may be taken into account in computing the additional 10-percent limitation. To be so taken into account the charitable contribution must be made to a medical research organization that is directly engaged in the continuous active conduct of medical research in conjunction with a hospital (as defined in subdivision (i) of this subparagraph), and, during the calendar year in which the contribution is made, the organization must be committed to spend the contribution for such active conduct of

medical research before January 1 of the fifth calendar year beginning after the date the contribution is made.

(b) As used in section 170(b)(1)(A) and this subparagraph, the term *medical research organization* means an organization the principal purpose or function of which is to engage in medical research. Medical research may be defined as the conduct of investigations, experiments, and studies to discover, develop, or verify knowledge relating to the causes, diagnosis, treatment, prevention, or control of physical or mental diseases and impairments of man. To qualify as a medical research organization, the organization must have the appropriate equipment and professional personnel necessary to carry out its principal function.

(c) The organization must, at the time of the contribution, be directly engaged in the continuous active conduct of medical research in conjunction with a hospital described in subdivision (i) of this subparagraph. The organization need not be formally affiliated with a hospital to be considered engaged in the active conduct of medical research in conjunction with a hospital, but it must be physically connected, or closely associated, with a hospital. In any case, there must be a joint effort on the part of the research organization and the hospital pursuant to an understanding that the two organizations shall maintain continuing close cooperation in the active conduct of medical research. For example, the necessary joint effort will normally be found to exist if the activities of the medical research organization are carried on in space located within or adjacent to a hospital provided that the organization is permitted to utilize the facilities (including equipment, case studies, etc.) of the hospital on a continuing basis in the active conduct of medical research. A medical research organization which is closely associated, in the manner described above, with a particular hospital or particular hospitals, may be considered to be pursuing research in conjunction with a hospital if the necessary joint effort is supported by substantial evidence of the close cooperation of the members of the research organization and the staff of the particular hospital or hos-

pitals. The active participation in medical research by the staff of the particular hospital or hospitals will be considered as evidence of the requisite joint effort. If the organization's primary purpose is to disburse funds to other organizations for the conduct of research by them, or, if the organization's primary purpose is to extend research grants or scholarships to others, it is not directly engaged in the active conduct of medical research, and contributions to such an organization may not be taken into account for purposes of the additional 10-percent limitation.

(d) A charitable contribution to a medical research organization may be taken into account in computing the additional 10-percent limitation only if the organization is committed to spend such contribution for medical research in conjunction with a hospital on or before the first day of the fifth calendar year which begins after the date the contribution is made. The organization's commitment that the contribution will be spent within the prescribed time only for the prescribed purposes must be legally enforceable. A promise in writing to the donor in consideration of his making a contribution that such contribution will be so spent within the prescribed time will constitute a commitment. The expenditure of contributions received for plant, facilities, or equipment, used solely for medical research purposes shall ordinarily be considered to be an expenditure for medical research for purposes of section 170(b) and this section. If a contribution is made in other than money, it shall be considered spent for medical research if the funds from the proceeds of a disposition thereof are spent by the organization within the five-year period for medical research; or, if such property is of such a kind that it is used on a continuing basis directly in connection with such research, it shall be considered spent for medical research in the year in which it is first so used.

(5) *Corporation, trust, or community chest, fund, or foundation*—(i) *In general.* (a) For taxable years beginning after December 31, 1963, gifts made to a corporation, trust, or community chest,

fund, or foundation, referred to in section 170(c)(2) (other than an organization specified in subparagraph (1) (i) through (vi) of this paragraph), may be taken into account in computing the additional 10-percent limitation, provided the organization is a “publicly supported” organization. For purposes of this subparagraph, an organization is “publicly supported” if it normally receives a substantial part of its support from a governmental unit referred to in section 170(c)(1) or from direct or indirect contributions from the general public.

(b) An important factor in determining whether an organization normally receives a substantial part of its support from “direct or indirect contributions from the general public” is the extent to which the organization derives its support from or through voluntary contributions made by persons representing the general public. Except in unusual situations (particularly in the case of newly created organizations), an organization is not “publicly supported” if it receives contributions only from the members of a single family or from a few individuals.

(i) *Special rules and meaning of terms.*

(a) For purposes of this subparagraph, the term *support*, except as otherwise provided in (b) of this subdivision (ii), means all forms of support including (but not limited to) contributions received by the organization, investment income (such as, interest, rents, royalties, and dividends), and net income from unrelated business activities whether or not such activities are carried on regularly as a trade or business.

(b) The term *support* does not include:

(1) Any amounts received from the exercise or performance by an organization of its charitable, educational, or other purpose or function constituting the basis for its exemption under section 501(a). In general, such amounts include amounts received from any activity the conduct of which is substantially related to the furtherance of such purpose or function (other than through the production of income).

(2) Any gain upon the sale or exchange of property which would be considered under any section of the Code as gain from the sale or exchange of a capital asset.

(3) Contributions of services for which a deduction is not allowable.

(c) The term *support from a governmental unit* includes:

(1) Any amounts received from a governmental unit including donations or contributions and amounts received in connection with a contract entered into with a governmental unit for the performance of services or in connection with a government research grant, provided such amounts are not excluded from the term *support* under (b) of this subdivision (ii). For purposes of (b)(1) of this subdivision (ii), an amount paid by a governmental unit to an organization is not received from the exercise or performance of its charitable, educational, or other purpose or function constituting the basis for its exemption under section 501(a) if the purpose of the payment is to enable the organization to provide a service to, or maintain a facility for, the direct benefit of the public, as, for example, the maintenance of library facilities which are open to the public.

(2) Tax revenues levied for the benefit of the organization and either paid to or expended on behalf of the organization.

(3) The value of services or facilities (exclusive of services or facilities generally furnished, without charge, to the public) furnished by a governmental unit to the organization without charge, as, for example, where a city pays the salaries of personnel used to guard a museum, art gallery, etc., or provides, rent free, the use of a building. However, the term does not include the value of any exemption from Federal, State, or local tax or any similar benefit.

(d) The term *indirect contributions from the general public* includes contributions received by the organization from organizations which normally receive a substantial part of their support from direct contributions from the general public.

(iii) *Determination of whether organization is “publicly supported”*—(a) *In general.* No single test which would be appropriate in every case may be prescribed for determining whether a corporation, trust, or community chest, fund, or foundation, referred to in section 170(c)(2), is “publicly supported”.

Internal Revenue Service, Treasury

§ 1.170-2

For example, since the statutory test is whether the organization normally receives a substantial part of its support from the prescribed sources, a test which would be appropriate in the case of an organization which has been in operation for a number of years would not necessarily be appropriate in the case of a newly established organization. The determination of whether an organization is "publicly supported" depends on the facts and circumstances in each case. Thus, although a "mechanical test" is set forth in (b) of this subdivision (iii), such test is not an exclusive test. Accordingly, an organization which does not qualify as a "publicly supported" organization by application of the "mechanical test" may qualify as a "publicly supported" organization on the basis of the facts and circumstances in its case. For provisions relating to the facts and circumstances test, see (c) of this subdivision (iii).

(b) *Mechanical test.* An organization will be considered to be a "publicly supported" organization for its current taxable year and the taxable year immediately succeeding its current year, if, for the four taxable years immediately preceding the current taxable year, the total amount of the support which the organization receives from governmental units, from donations made directly or indirectly by the general public, or from a combination of these sources equals 33⅓ percent or more of the total support of the organization for such four taxable years. The rule in the preceding sentence does not apply if there are substantial changes in the organization's character, purposes, or methods of operation in the current year, and does not apply in respect of the immediately succeeding taxable year if such changes occur in such year. In determining whether the 33⅓-percent-of-support test is met, contributions by an individual, trust, or corporation shall be taken into account only to the extent that the total amount of the contributions by any such individual, trust, or corporation during the four-taxable-year period does not exceed 1 percent of the organization's total support for such four taxable years. In applying the 1-percent limitation, all contributions made by a

donor and by any person or persons standing in a relationship to the donor which is described in section 267(b) and the regulations thereunder shall be treated as made by one person. The 1-percent limitation shall not apply to support from governmental units referred to in section 170(c)(1) or to contributions from "publicly supported" organizations. A national organization which carries out its purposes through local chapters with which it has an identity of aims and purposes may, for purposes of determining whether the organization and the local chapters meet the mechanical test, make the computation on an aggregate basis.

Example. For the years 1964 through 1967, X, an organization referred to in section 170(c)(2), received support (as defined in subdivision (ii) of this subparagraph) of \$600,000 from the following sources:

Investment income	\$300,000
City Y (a governmental unit referred to in section 170(c)(1))	40,000
United Fund (an organization referred to in section 170(c)(2) which is "publicly supported") ...	40,000
Contributions	220,000
Total support	600,000

For the years 1964 through 1967, X received in excess of 33⅓ percent of its support from a governmental unit referred to in section 170(c)(1) and from direct and indirect contributions from the general public computed as follows:

33⅓ percent of total support	\$200,000
Support from a governmental unit referred to in section 170(c)(1)	40,000
Indirect contributions from the general public (United Fund)	40,000
Contributions by various donors (no one donor having made contributions which total in excess of \$6,000—1 percent of total support)	50,000
12 contributions (each in excess of \$6,000—1 percent of total support) 12 × \$6,000	72,000
202,000	

Since the amount of X's support from governmental units referred to in section 170(c)(1) and from direct and indirect contributions from the general public in the years 1964 through 1967 is in excess of 33⅓ percent of X's total support for such four taxable years, X is considered a "publicly supported" organization with respect to contributions made to it during 1968 and 1969 without regard to whether X receives 33⅓ percent of its support during 1968 or 1969 from such sources (assuming that there are no substantial changes in X's character, purposes, or methods of operation).

(c) Facts and circumstances test. (1) A corporation, trust, or community chest, fund or foundation referred to in section 170(c)(2) which does not qualify as a “publicly supported” organization under the mechanical test described in (b) of this subdivision (iii) (including an organization which has not been in existence for a sufficient length of time to make such test applicable) may be a “publicly supported” organization on the basis of the facts and circumstances in its case.

(2) The facts and circumstances which are relevant and the weight to be accorded such facts and circumstances may differ in certain cases depending, for example, on the nature of the organization and the period of time it has been in existence. However, under no circumstances will an organization which normally receives substantially all of its contributions (directly or indirectly) from the members of a single family or from a few individuals qualify as a “publicly supported” organization.

(3) For purposes of the facts and circumstances test the most important consideration is the organization’s source of support. An organization will be considered a “publicly supported” organization if it is constituted so as to attract substantial support from contributions, directly or indirectly, from a representative number of persons in the community or area in which it operates. In determining what is a “representative number of persons,” consideration must be given to the type of organization and whether or not the organization limits its activities to a special field which can be expected to appeal to a limited number of persons. An organization is so constituted if, for example, it establishes that it does in fact receive substantial support from contributions from a representative number of persons; that pursuant to its organizational structure and method of operation it makes bona fide solicitations for broad based public support, or, in the case of a newly created organization, that its organizational structure and method of operation are such as to require bona fide solicitations for broad based public support; that it receives substantial support from a community chest or

similar public federated fund raising organization, such as a United Fund or United Appeal; or that it has a substantial number of members (in relation to the community it serves, the nature of its activities, and its total support) who pay annual membership dues.

(4) Although primary consideration will be given to the source of an organization’s support, other relevant factors may be taken into account in determining whether or not the organization is of a public nature, such as:

(i) Whether the organization has a governing body (whether designated in the organization’s bylaws, certificate of incorporation, deed of trust, etc., as a Board of Directors, Board of Trustees, etc.) which is comprised of public officials, of individuals chosen by public officials acting in their capacity as such, or of citizens broadly representative of the interests and views of the public. This characteristic does not exist if the membership of an organization’s governing body is such as to indicate that it represents the personal or private interests of a limited number of donors to the organization (or persons standing in a relationship to such donors which is described in section 267(b) and the regulations thereunder), rather than the interests of the community or the general public.

(ii) Whether the organization annually or more frequently makes available to the public financial reports or, in the case of a newly created organization, is constituted so as to require such reporting. For this purpose an information or other return made pursuant to a requirement of a governmental unit shall not be considered a financial report. An organization shall be considered as making financial reports of its operations available to the public if it publishes a financial report in a newspaper which is widely circulated in the community in which the organization operates or if it makes a bona fide dissemination of a brochure containing a financial report.

(iii) If the organization is of a type which generally holds open to the public its buildings (as in the case of a museum) or performances conducted by it (as in the case of a symphonic orchestra), whether the organization actually follows such practice, or, in the case of

a newly created organization, is so organized as to require that its facilities be open to the public.

(5) The application of this subdivision (c) may be illustrated by the following examples:

Example 1. M, a community trust, is an organization referred to in section 170(c)(2). In 1950, M was organized in the X Community by several leading trusts and financial institutions with the purpose of serving permanently the educational and charitable needs of the X Community by providing a means by which the public may establish funds or make gifts of various amounts to established funds which are administered as an aggregate fund with provision for distribution of income and, in certain cases, principal for educational or charitable purposes by a single impartial committee. The M Organization, by distribution of pamphlets to the public through participating trustee banks, actively solicits members of the X Community and other concerned parties to establish funds within the trust or to contribute to established funds within the trust. Under the declaration of trust, a contributor to a fund may suggest or request (but not require) that his contribution be used in respect of his preferred charitable, educational, or other benevolent purpose, and distributions of the income from the fund, and in certain cases the principal, will be made by the Distribution Committee with regard to such request unless changing conditions make such purpose unnecessary, undesirable, impractical, or impossible in which case income and (where the contributor has so specified) principal will be distributed by the Distribution Committee in order to promote the public welfare more effectively. Where a contributor has not expressed a desire as to a charitable, educational, or other benevolent purpose, the Distribution Committee will distribute the entire annual income from the fund to such a purpose agreed upon by such committee. The Distribution Committee is composed of representatives of the community chosen one each by the X Bar Association, the X Medical Society, the mayor of X Community, the judge of the highest X Court, and the president of the X College, and two representatives chosen by the participating trustee banks. There are a number of separate funds within the trust administered by several participating banks. M has consistently distributed or used its entire annual income for projects with purposes described in section 170(c)(2)(B) from which members of the public may benefit or to other organizations described in section 170(b)(1)(A) which so distribute or use such income. Through its participating trustee banks, M annually makes available to the public a brochure containing a financial

statement of its operations including a list of all receipts and disbursements. Under the facts and circumstances, M is a “publicly supported” organization.

Example 2. Assume the same facts as in *Example 1* except that M has been in existence for only one year and only two contributors have established funds within the trust. The Distribution Committee has been chosen and is required by the governing declaration of trust to make annual distribution of the entire income of the trust to projects with purposes described in section 170(c)(2)(B) from which members of the public may benefit or to other organizations described in section 170(b)(1)(A) which so distribute or use such income. The declaration of trust and other governing instruments require (1) that the M Community Trust actively solicit contributions from members of the X Community through dissemination of literature and other public appeals, and (2) that it make available to the members of the X Community, annual financial reports of its operations. Under the facts and circumstances, M is a “publicly supported” organization.

Example 3. N, an art museum, is an organization referred to in section 170(c)(2). In 1930, N was founded in Y City by the members of a single family to collect, preserve, interpret, and display to the public important works of art. N is governed by a self-perpetuating Board of Trustees limited by the governing instruments to a maximum membership of 20 individuals. The original board consisted almost entirely of members of the founding family. Since 1945, members of the founding family or persons standing in a relationship to the members of such family described in section 267(b) have annually constituted less than one-fifth of the Board of Trustees. The remaining board members are citizens of Y City from a variety of professions and occupations who represent the interests and views of the people of Y City in the activities carried on by the organization rather than the personal or private interests of the founding family. N solicits contributions from the general public and for each of its four most recent taxable years has received total contributions in small sums (less than \$100) in excess of \$10,000. For N's four most recent taxable years, investment income from several large endowment funds has constituted 75 percent of its total support. N normally expends a substantial part of its annual income for purposes described in section 170(c)(2)(B). N has, for the entire period of its existence, been open to the public and more than 300,000 people (from the Y City and elsewhere) have visited the museum in each of its four most recent taxable years. N annually publishes a financial report of its operation in the Y City newspaper. Under the facts and circumstances, N museum is a “publicly supported” organization.

§ 1.170-2

26 CFR Ch. I (4-1-17 Edition)

Example 4. In 1960, the O Philharmonic Orchestra was organized in Z City through the combined efforts of a local music society and a local women's club to present to the public a wide variety of musical programs intended to foster music appreciation in the community. O is an organization referred to in section 170(c)(2). The orchestra is composed of professional musicians who are paid by the association. Twelve performances, open to the public, are scheduled each year. The admission charge for each of these performances is \$3. In addition, several performances are staged annually without charge. In each of its four most recent taxable years, O has received separate contributions of \$10,000 from A, B, C, and D (not members of a single family) and support of \$5,000 from the Z Community Chest, a public federated fund raising organization operating in Z City. O is governed by a Board of Directors comprised of five individuals. A faculty member of a local college, the president of a local music society, the head of a local banking institution, a prominent doctor, and a member of the governing body of the local Chamber of Commerce currently serve on the Board and represent the interests and views of the community in the activities carried on by O. O annually files a financial report with Z City which makes such report available for public inspection. Under the facts and cir-

cumstances, O is a "publicly supported" organization.

Example 5. P is a newly created organization of a type referred to in section 170 (c)(2). P's charter requires that its governing body be selected by public officials and by public organizations representing the community in which it operates. Pursuant to P's charter, a continuing fund raising campaign which will encompass the entire community has been planned. P's charter requires that its entire annual income be distributed to or used for projects with purposes described in section 170(c)(2)(B) and that it make available to the public annual financial reports of its operations. By reason of the express provisions of P's charter relating to its organizational structure and prescribed methods of operation, P is a "publicly supported" organization.

(6) *Examples.* The application of the special 10-percent limitation and the general 20-percent limitation on contributions by individuals may be illustrated by the following examples:

Example 1. A, an individual, reports his income on the calendar year basis and for the year 1957 has an adjusted gross income of \$10,000. During 1957 he made the following charitable contributions:

1. Contributions qualifying for the additional 10-percent deduction under section 170(b)(1)(A)	\$2,400	
2. Other charitable contributions	700	
3. Total contributions paid	3,100	
		Deductible contributions
4. Contributions qualifying for the additional 10-percent deduction under section 170(b)(1)(A)	2,400	
5. Special limitation under section 170(b)(1)(A): 10 percent of adjusted gross income	1,000	
6. Deductible amount: line 4 or line 5, whichever is the lesser		\$1,000
7. Excess of line 4 over line 5	1,400	
8. Add: Other charitable contributions	700	
9. Contributions subject to the general 20-percent limitation under section 170(b)(1)(B)	2,100	
10. Limitation under section 170(b)(1)(B): 20 percent of the adjusted gross income	2,000	
11. Deductible amount: line 9 or line 10, whichever is the lesser		2,000
12. Contributions not deductible	100	
13. Total deduction for contributions		3,000

Example 2. B, an individual, reports his income on the calendar year basis and for the year 1957 has an adjusted gross income of

\$10,000. During 1957 he made the following charitable contributions:

1. Contributions qualifying for the additional 10-percent deduction under section 170(b)(1)(A)	\$700
2. Other charitable contributions	2,400
3. Total contributions paid	3,100
4. Contributions qualifying for the additional 10-percent deduction under section 170(b)(1)(A)	700
5. Limitation described in section 170(b)(1)(A): 10 percent of the adjusted gross income	1,000

Internal Revenue Service, Treasury

§ 1.170-2

6. Deductible amount: line 4 or line 5, whichever is the lesser		\$700
7. Excess of line 4 over line 5	0	
8. Add: Other charitable contributions	2,400	
9. Contributions subject to the general 20-percent limitation under section 170(b)(1)(B)	2,400	
10. Limitation under section 170(b)(1)(B): 20 percent of the adjusted gross income	2,000	
11. Deductible amount: line 9 or line 10, whichever is the lesser		2,000
12. Contributions not deductible	400	
13. Total deduction for contributions		2,700

(c) *Unlimited deduction for individuals*—(1) *In general.* (i) The deduction for charitable contributions made by an individual is not subject to the 10- and 20-percent limitations of section 170(b) if in the taxable year and each of 8 of the 10 preceding taxable years the sum of his charitable contributions paid during the year, plus his payments during the year on account of Federal income taxes, is more than 90 percent of his taxable income for the year (or net income, in years governed by the Internal Revenue Code of 1939). In determining the applicability of the 10- and 20-percent limitations of section 170(b) for taxable years beginning after December 31, 1957, there may be substituted, in lieu of the amount of income tax paid during any year, the amount of income tax paid in respect of such year, provided that any amount so included for the year in respect of which payment was made shall not be included for any other year. For the purpose of the first sentence of this paragraph, taxable income under the 1954 Code is determined without regard to the deductions for charitable contributions under section 170, for personal exemptions under section 151, or for a net operating loss carryback under section 172. On the other hand, for this purpose net income under the 1939 Code is computed without the benefit only of the deduction for charitable contributions. See section 120 of the Internal Revenue Code of 1939. The term *income tax* as used in section 170(b)(1)(C) means only Federal income taxes, and does not include the taxes imposed on self-employment income, on employees under the Federal Insurance Contributions Act, and on railroad employees and their representatives under the Railroad Retirement Tax Act by Chapters 2, 21, and 22, re-

spectively, or corresponding provisions of the Internal Revenue Code of 1939. For purposes of section 170(b)(1)(C) and this paragraph, the amount of income tax paid during a taxable year shall be determined (except as provided in subdivision (ii) of this subparagraph) by including all payments made by the taxpayer during such taxable year on account of his Federal income taxes (whether for the taxable year or for preceding taxable years). Such payments would include any amount paid during the taxable year as estimated tax (exclusive of any portion of such amount for taxable years beginning after December 31, 1966, which is attributable to the self-employment tax imposed by chapter (2) for that year, payment of the final installment of estimated tax (exclusive of any portion of such installment, for taxable years beginning after December 31, 1966, which is attributable to the self-employment tax imposed by chapter 2) for the preceding taxable year, final payment for the preceding taxable year, and any payment of a deficiency for an earlier taxable year, to the extent that such payments do not exceed the tax for the taxable year for which payment is made. Any payment of income tax with respect to which the taxpayer receives a refund or credit shall be reduced by the amount of such refund or credit. Any such refund or credit shall be applied against the most recent payments for the taxable year in respect of which the refund or credit arose.

(ii) For any taxable year beginning after December 31, 1957, the applicability of the 10- and 20-percent limitations of section 170(b) may be determined either with reference to the income tax paid during the year or any prior year, or with reference to the income tax paid in respect of any such

year or prior years. The 90-percent test of section 170(b)(1)(C) may be applied for the taxable year, or for any one or more of the preceding 10 taxable years, by taking into account the income taxes paid in respect of that year or years, and for the balance of the 10 years by taking into account the income tax payments made during those years. Thus, a taxable year which qualifies under either of the two permissible methods shall be considered as a qualifying year irrespective of whether the taxable year begins before or after December 31, 1957. However, a particular income tax payment may only be taken into account once, either with respect to the year of liability or for the year of payment.

(2) *Joint returns*—(i) *Joint return for current taxable year*. If a husband and wife make a joint return for any taxable year, their deduction for charitable contributions is not subject to the 10- and 20-percent limitations of section 170(b), if, under the rules of subparagraph (1) of this paragraph, in the taxable year and in each of 8 of the 10 preceding taxable years (regardless of whether separate or joint returns were filed), the aggregate charitable contributions of both spouses paid during the year, plus their aggregate payments during the year on account of Federal income taxes (or, if the taxable year begins after December 31, 1957, the aggregate tax paid in respect of such taxable year or any preceding taxable year) exceed 90 percent of their aggregate taxable incomes for the year.

(ii) *Separate return by spouse or by unremarried widow or widower*. If a spouse, or the unremarried widow or widower of a deceased spouse, makes a separate return for any taxable year, his deduction for charitable contributions is not subject to the 10- and 20-percent limitations of section 170(b), if, under the rules of subparagraph (1) of this paragraph, in the taxable year and each of 8 of the 10 preceding taxable years:

(a) For which the taxpayer filed a joint return with his spouse, either their aggregate charitable contributions and payments of Federal income taxes made during the taxable year (or if the taxable year begins after December 31, 1957, made in respect of such

taxable year or any preceding taxable year) exceed 90 percent of their aggregate taxable income for that year, or the taxpayer's separate charitable contributions and payments of Federal income taxes allocable to his separate income and made during the taxable year (or if the taxable year begins after December 31, 1957, made in respect of such taxable year or any preceding taxable year) exceed 90 percent of his separate taxable income for that year, and (b) For which the taxpayer did not file a joint return with his spouse, the aggregate of his charitable contributions and payments of Federal income taxes made during the taxable year (or, if the taxable year begins after December 31, 1957, the payments of income taxes made in respect of such taxable year or any preceding taxable year) exceeds 90 percent of his taxable income for that year.

For the purpose of the preceding sentence, the word *spouse* does not include a spouse from whom the taxpayer has been divorced.

(iii) *Joint return with former spouse for prior taxable year*. A divorced or remarried taxpayer who filed a joint return for a prior taxable year with a former spouse shall, for purposes of applying this paragraph, be treated in the same manner as if he had filed a separate return for such prior taxable year, and as if his Federal income tax liability and taxable income for such prior taxable year were his allocable portions of the joint tax liability and combined taxable income, respectively, for such year.

(iv) *Allocation*. Whenever it is necessary to allocate the joint tax liability or the combined taxable income, or both, for a taxable year for which a joint return was filed, a computation shall be made for the taxpayer and for his spouse or former spouse showing for each of them the Federal income taxes and taxable income which would be determined if separate returns had been filed by them for such taxable year. The joint tax liability and combined taxable income for such taxable year shall then be allocated proportionately to the income taxes and taxable income, respectively, so computed. Whenever it is necessary to determine

the separate payments made by a taxpayer in respect of a joint tax liability, the amount paid by him during the taxable year as estimated tax (exclusive of any portion of such amount for taxable years beginning after December 31, 1966, which is attributable to the self-employment tax imposed by Chapter 2) for that year shall be included to the extent it does not exceed his allocable portion of the joint tax under Chapter 1 (exclusive of tax under section 56) for the taxable year, and any amount paid by him for a prior year (whether as the final installment of estimated tax—exclusive of any portion of such installment, for taxable years beginning after December 31, 1966, which is attributable to the self-employment tax imposed by Chapter 2—for the preceding taxable year, or a final payment for the preceding year, or the payment of a deficiency for an earlier year) shall be included to the extent such amount, when added to amounts previously paid by him for such prior year, does not exceed his allocable portion of the joint tax liability for the prior year.

(d) *Denial of deduction in case of certain transfers in trust*—(1) *Reversionary interest in grantor*. No charitable deduction will be allowed for the value of any interest in property transferred to a trust after March 9, 1954, if the grantor at the time of the transfer has a reversionary interest in the corpus or income and the value of such reversionary interest exceeds 5 percent of the total value on which the charitable deduction would, but for section 170(b)(1)(D), be determined. For purposes of this paragraph, the term *reversionary interest* means a possibility that after the possession or enjoyment of property or its income has been obtained by a charitable donee, the property or its income may revert in the grantor or his estate, or may be subject to a power exercisable by the grantor or a nonadverse party (within the meaning of section 672 (b)), or both, to revert in, or return to or for the benefit of, the grantor or his estate the property or income therefrom. An interest of the grantor which, in any event, will terminate before the ripening of the assured charitable gift for which a deduction is claimed is not considered a re-

versionary interest for purposes of this section. For example, assume that a taxpayer conveyed property to a trust under the terms of which the income is payable to the taxpayer's wife for her life, and, if she predeceases him, to him for his life, and after the death of both the property is to be transferred to a charitable organization.

(2) *Valuation of interests*. The present value of the remainder interest in the property, taking into account the value of the life estates reserved to the taxpayer and his wife, may be allowed as a charitable deduction. Where the corpus of the trust is to return to the grantor after a number of years certain, the value of the reversionary interest at the time of the transfer may be computed by the use of tables showing the present value at $3\frac{1}{2}$ percent a year, compounded annually, of \$1 payable at the end of a number of years certain. See paragraph (f), Table II, of § 20.2031-7 of this chapter (Estate Tax Regulations). Where the value of a reversionary interest is dependent upon the continuation or termination of the life of one or more persons, it must be determined on the basis of Table 38 of United States Life Tables and Actuarial Tables 1939-1941, published by the United States Department of Commerce, Bureau of the Census, and interest at the rate of $3\frac{1}{2}$ percent a year, compounded annually. See paragraph (f), Table I, of § 20.2031-7 of this chapter (Estate Tax Regulations) for valuations based on one life, and "Actuarial Values for Estate and Gift Tax" (Internal Revenue Service Publication No. 11, Rev. 5-59) for values based on more than one life. In an actual case (not merely hypothetical), the grantor or his legal representative may, upon request, obtain the information necessary to determine such a value from the district director with whom the grantor files his return. The request must be accompanied by a statement showing the date of birth of each person the duration of whose life may affect the value of the reversionary interest and by copies of the instruments relevant to the transfer.

(e) *Fiscal years and short taxable years ending after March 9, 1954, subject to the Internal Revenue Code of 1939*. Pursuant to section 7851(a)(1)(C) of the Internal

Revenue Code of 1954, the regulations prescribed in paragraph (d) of this section, to the extent that they relate to transfers in trust occurring after March 9, 1954, shall apply to all taxable years ending after March 9, 1954, even though those years may be subject to the Internal Revenue Code of 1939.

(f) *Amounts paid to maintain certain students as members of the taxpayer's household*—(1) *In General.* (i) For taxable years beginning after December 31, 1959, the term *charitable contribution* includes amounts paid by the taxpayer during the taxable year to maintain certain students as members of his household which, under the provisions of section 170(d) and this paragraph, are treated as amounts paid for the use of an organization described in section 170(c) (2), (3), or (4), and such amounts, to the extent they do not exceed the limitations under section 170(d)(2) and paragraph (f)(2) of this section, are deductible contributions under section 170. In order for such amounts to be so treated, the student must be an individual who is neither a dependent (as defined in section 152) of the taxpayer nor related to the taxpayer in a manner described in any of the paragraphs (1) through (8) of section 152(a), and such individual must be a member of the taxpayer's household pursuant to a written agreement between the taxpayer and an organization described in section 170(c) (2), (3), or (4) to implement a program of the organization to provide educational opportunities for pupils or students placed in private homes by such organization. Furthermore, such amounts must be paid to maintain such individual during the period in the taxable year he is a member of the taxpayer's household and is a full-time pupil or student in the twelfth or any lower grade at an educational institution (as defined in section 151(e)(4)) located in the United States. Amounts paid outside of the period (but within the taxable year) for expenses necessary for the maintenance of the student during the period will qualify for the charitable deduction if the other limitation requirements of the section are met.

(ii) For purposes of paragraph (i) of this section, amounts treated as charitable contributions include only those

amounts actually paid by the taxpayer during the taxable year which are directly attributable to the maintenance of the student while he is a member of the taxpayer's household and is attending school on a full-time basis. This would include amounts paid to ensure the well-being of the individual and to carry out the purpose for which the individual was placed in the taxpayer's home. For example, a deduction would be allowed for amounts paid for books, tuition, food, clothing, transportation, medical and dental care, and recreation for the individual. Amounts treated as charitable contributions under this paragraph do not include amounts which the taxpayer would have expended had the student not been in the household. They would not include, for example, amounts paid in connection with the taxpayer's home for taxes, insurance, interest on a mortgage, repairs, etc. Moreover, such amounts do not include any depreciation sustained by the taxpayer in maintaining such student or students in his household, nor do they include the value of any services rendered on behalf of such student or students by the taxpayer or any member of the taxpayer's household.

(iii) For purposes of section 170(d) and this paragraph, an individual will be considered to be a full-time pupil or student at an educational institution only if he is enrolled for a course of study (prescribed for a full-time student) at such institution and is attending classes on a full-time basis. Nevertheless, such individual may be absent from school due to special circumstances and still be considered to be in full-time attendance. Periods during the regular school term when the school is closed for holidays, such as Christmas and Easter, and for periods between semesters are treated as periods during which the pupil or student is in full-time attendance at the school. Also, absences during the regular school term due to illness of such individual shall not prevent him from being considered as a full-time pupil or student. Similarly, absences from the taxpayer's household due to special circumstances will not disqualify the student as a member of the household. Summer vacations between regular

school terms are not considered periods of school attendance.

(iv) As in the case of other charitable deductions, any deduction claimed for amounts described in section 170(d) and this paragraph which are treated as charitable contributions under section 170(c) is subject to verification by the district director. When claiming a deduction for such amounts, the taxpayer should submit a copy of his agreement with the organization sponsoring the individual placed in the taxpayer's household together with a summary of the various items for which amounts were paid to maintain such individual, and a statement as to the date the individual became a member of the household and the period of his attendance at school and the name and location of such school. Substantiation of amounts claimed must be supported by adequate records of the amounts actually paid. Due to the nature of certain items, such as food, a record of amounts spent for all members of the household, with an equal portion thereof allocated to each member, will be acceptable.

(2) *Limitations.* Section 170(d) and this paragraph shall apply to amounts paid during the taxable year only to the extent that the amounts paid in maintaining each pupil or student do not exceed \$50 multiplied by the number of full calendar months in the taxable year that the pupil or student is maintained in accordance with the provisions of this paragraph. For purposes of such limitation, if 15 or more days of a calendar month fall within the period to which the maintenance of such pupil or student relates, such month is considered as a full calendar month. To the extent that such amounts qualify as charitable contributions under section 170(c), the aggregate of such amounts plus other contributions made during the taxable year is deductible under section 170, subject to the 20-percent limitation provided in section 170(b)(1)(B). Also, see § 1.170-2(a)(1).

(3) *Compensation or reimbursement.* Amounts paid during the taxable year to maintain a pupil or student as a member of the taxpayer's household, as provided in paragraph (f)(1) of this section, shall not be taken into account under section 170(d) of this paragraph,

if the taxpayer receives any money or other property as compensation or reimbursement for any portion of such amounts. The taxpayer will not be denied the benefits of section 170(d) if he prepays an extraordinary or non-recurring expense, such as a hospital bill or vacation trip, at the request of the individual's parents or the sponsoring organization and is reimbursed for such prepayment. The value of services performed by the pupil or student in attending to ordinary chores of the household will not generally be considered to constitute compensation or reimbursement. However, if the pupil or student is taken into the taxpayer's household to replace a former employee of the taxpayer or gratuitously to perform substantial services for the taxpayer, the facts and circumstances may warrant a conclusion that the taxpayer received reimbursement for maintaining the pupil or student.

(4) *No other amount allowed as deduction.* Except to the extent that amounts described in section 170(d) and this paragraph are treated as charitable contributions under section 170(c) and, therefore, deductible under section 170(a), no deduction is allowed for any amount paid to maintain an individual, as a member of the taxpayer's household, in accordance with the provisions of section 170(d) and this paragraph.

(5) *Examples.* Application of the provisions of this paragraph may be illustrated by the following examples:

Example 1. The X organization is an organization described in section 170(c)(2) and is engaged in a program under which a number of European children are placed in the homes of United States residents in order to further the children's high school education. In accordance with the provisions of subparagraph (1) of this paragraph, the taxpayer, A, who reports his income on the calendar year basis, agreed with X to take two of the children, and they were placed in the taxpayer's home on January 2, 1960, where they remained until January 21, 1961, during which time they were fully maintained by the taxpayer. The children enrolled at the local high school for the full course of study prescribed for tenth grade students and attended the school on a full-time basis for the spring semester starting January 18, 1960, and ending June 3, 1960, and for the fall semester starting September 1, 1960, and ending January 13, 1961. The total cost of food

paid by A in 1960 for himself, his wife, and the two children amounted to \$1,920, or \$40 per month for each member of the household. Since the children were actually full-time students for only 8½ months during 1960, the amount paid for food for each child during that period amounted to \$340. Other amounts paid during the 8½ month period for each child for laundry, lights, water, recreation, and school supplies amounted to \$160. Thus, the amounts treated under section 170(d) and this paragraph as paid for the use of X would, with respect to each child, total \$500 (\$340 + \$160), or a total for both children of \$1,000, subject to the limitations of subparagraph (2) of this paragraph. Since, for purposes of such limitations, the children were full-time students for only 8 full calendar months during 1960 (less than 15 days in January 1960), the taxpayer may treat only \$800 as a charitable contribution made in 1960, that is, \$50 multiplied by the 8 full calendar months, or \$400 paid for the maintenance of each child. Neither the excess payments nor amounts paid to maintain the children during the period before school opened and for the period in summer between regular school terms is taken into account by reason of section 170(d). Also, because the children were full-time students for less than 15 days in January 1961 (although maintained in the taxpayer's household for 21 days), amounts paid to maintain the children during 1961 would not qualify as a charitable contribution.

Example 2. A religious organization described in section 170(c)(2) has a program for providing educational opportunities for children it places in private homes. In order to implement the program, the taxpayer, H, who resides with his wife, son, and daughter of high school age in a town in the United States, signs an agreement with the organization to maintain a girl sponsored by the organization as a member of his household while the child attends the local high school for the regular 1960-61 school year. The child is a full-time student at the school during the school year starting September 6, 1960, and ending June 6, 1961, and is a member of the taxpayer's household during that period. Although the taxpayer pays \$200 during the school period falling in 1960, and \$240 during the school period falling in 1961, to maintain the child, he cannot claim either amount as a charitable contribution because the child's parents, from time to time during the school year, send butter, eggs, meat, and vegetables to H to help defray the expenses of maintaining the child. This is considered property received as reimbursement under subparagraph (3) of this paragraph. Had her parents not contributed the food, the fact that the child, in addition to the normal chores she shared with the taxpayer's daughter, such as cleaning their own rooms and helping with the shopping and cooking, was responsible for the family laundry and for the heavy clean-

ing of the entire house while the taxpayer's daughter had no comparable responsibilities would also preclude a claim for a charitable deduction. These substantial gratuitous services are considered property received as reimbursement under subparagraph (3) of this paragraph.

Example 3. A taxpayer resides with his wife in a city in the eastern United States. He agrees, in writing, with a fraternal society described in section 170(c)(4) to accept a child selected by the society for maintenance by him as a member of his household during 1961 in order that the child may attend the local grammar school as a part of the society's program to provide elementary education for certain children selected by it. The taxpayer maintains the child, who has as his principal place of abode the home of the taxpayer, and is a member of the taxpayer's household, during the entire year 1961. The child is a full-time student at the local grammar school for 9 full calendar months during the year. Under the agreement, the society pays the taxpayer \$30 per month to help maintain the child. Since the \$30 per month is considered as compensation or reimbursement to the taxpayer for some portion of the maintenance paid on behalf of the child, no amounts paid with respect to such maintenance can be treated as amounts paid in accordance with section 170(d). In the absence of the \$30 per month payments, if the child qualifies as a dependent of the taxpayer under section 152(a)(9), that fact would also prevent the maintenance payments from being treated as charitable contributions paid for the use of the fraternal society.

(g) *Charitable contributions carryover of individuals*—(1) *Computation of excess charitable contributions made in contribution year.* Subject to certain conditions and limitations, the excess of:

(i) The amount of the charitable contributions made by an individual in a taxable year beginning after December 31, 1963 (hereinafter in this paragraph referred to as the "contribution year"), to organizations specified in section 170(b)(1)(A) (see paragraph (b) of this section), over

(ii) Thirty percent of his adjusted gross income (computed without regard to any net operating loss carryback to such year under section 172) for such contribution year, shall be treated as a charitable contribution paid by him to an organization specified in section 170(b)(1)(A) and paragraph (b) of this section, relating to the additional 10-percent deduction, in each of the 5 taxable years immediately succeeding the contribution year in order of time. (For

provisions requiring a reduction of such excess, see subparagraph (5) of this paragraph.) The provisions of this subparagraph apply even though the taxpayer elects under section 144 to take the standard deduction in the contribution year instead of itemizing the deductions (other than those specified in sections 62 and 151) allowable in computing taxable income for the contribution year. No excess charitable contribution carryover shall be allowed with respect to contributions "for the use of" rather than "to" organizations described in section 170(b)(1)(A) and paragraph (b) of this section or with respect to contributions made "to" or "for the use of" organizations which are not described in such sections. The provisions of section 170(b)(5) and this paragraph are not applicable in the case of estates or trusts, see section 642(c), relating to deductions for amounts paid or permanently set aside for a charitable purpose, and the regulations thereunder. The provisions of this subparagraph may be illustrated by the following examples:

Example 1. Assume that H and W (husband and wife) have adjusted gross income for 1964 of \$50,000 and for 1965 of \$40,000 and file a joint return for each year. Assume further that in 1964 they contribute \$16,500 to a church and \$1,000 to X (an organization not referred to in section 170(b)(1)(A)) and in 1965 contribute \$11,000 to the church and \$400 to X. They may claim a charitable contribution deduction of \$15,000 in 1964, and the excess of \$16,500 (contribution to the church) over \$15,000 (30 percent of adjusted gross income) or \$1,500 constitutes a charitable contribution carryover which shall be treated as a charitable contribution paid by them to an organization referred to in section 170(b)(1)(A) in each of the 5 succeeding taxable years in order of time. No carryover is allowed with respect to the \$1,000 contribution made to X in 1964. Since 30 percent of their adjusted gross income for 1965 (\$12,000) exceeds the charitable contributions of \$11,000 made by them in 1965 to organizations referred to in section 170(b)(1)(A) (computed without regard to section 170(b)(5) and this paragraph) the portion of the 1964 carryover equal to such excess of \$1,000 (\$12,000 minus \$11,000) is treated, pursuant to the provisions of subparagraph (2) of this paragraph, as paid to a section 170(b)(1)(A) organization in 1965; the remaining \$500 constitutes an unused charitable contribution carryover. No carryover is allowed with respect to the \$400 contribution made to X in 1965.

Example 2. Assume the same facts as in *Example 1* except that H and W have adjusted gross income for 1965 of \$42,000. Since 30 percent of their adjusted gross income for 1965 (\$12,600) exceeds by \$1,600 the charitable contribution of \$11,000 made by them in 1965 to organizations referred to in section 170(b)(1)(A) (computed without regard to section 170(b)(5) and this paragraph), the full amount of the 1964 carryover of \$1,500 is treated, pursuant to the provisions of subparagraph (2) of this paragraph, as paid to a section 170(b)(1)(A) organization in 1965. They may also claim a charitable contribution of \$100 (\$12,600 - \$12,500 (\$11,000 + \$1,500)) with respect to the gift to X in 1965. No carryover is allowed with respect to the \$300 (\$400 - \$100) of the contribution to X which is not deductible in 1965.

(2) *Determination of amount treated as paid in taxable years succeeding contribution year.* Notwithstanding the provisions of subparagraph (1) of this paragraph, the amount of the excess computed in accordance with the provisions of subparagraphs (1) and (5) of this paragraph which is to be treated as paid in any one of the 5 taxable years immediately succeeding the contribution year to an organization specified in section 170(b)(1)(A) shall not exceed the lesser of the amount computed under subdivision (i) or (ii) of this subparagraph:

(i) The amount by which (a) 30 percent of the taxpayer's adjusted gross income for such succeeding taxable year (computed without regard to any net operating loss carryback to such succeeding taxable year under section 172) exceeds (b) the sum of (1) the charitable contributions actually made (computed without regard to the provisions of section 170(b)(5) and this paragraph) by the taxpayer in such succeeding taxable year to organizations referred to in section 170(b)(1)(A), and (2) the charitable contributions made to organizations referred to in section 170(b)(1)(A) in taxable years (excluding any taxable year beginning before January 1, 1964) preceding the contribution year which, pursuant to the provisions of section 170(b)(5) and this paragraph, are treated as having been paid to an organization referred to in section 170(b)(1)(A) in such succeeding year.

(ii) In the case of the first taxable year succeeding the contribution year, the amount of the excess charitable contribution in the contribution year,

§ 1.170-2

26 CFR Ch. I (4-1-17 Edition)

computed under subparagraphs (1) and (5) of this paragraph. In the case of the second, third, fourth, and fifth succeeding taxable years, the portion of the excess charitable contribution in the contribution year (computed under subparagraphs (1) and (5) of this paragraph) which has not been treated as paid to a section 170(b)(1)(A) organization in a year intervening between the contribution year and such succeeding taxable year.

If a taxpayer, in any one of the four taxable years succeeding a contribution year, elects under section 144 to take the standard deduction in the amount provided for in section 141 instead of itemizing the deductions (other than those specified in sections 62 and 151) allowable in computing taxable income, there shall be treated as paid (but not allowable as a deduction) in the standard deduction year the amount determined under subdivision (i) or (ii) of this subparagraph, which-

ever is the lesser. The provisions of this subparagraph may be illustrated by the following examples:

Example 1. Assume that B has adjusted gross income for 1966 of \$20,000 and for 1967 of \$30,000. Assume further that in 1966 B contributed \$8,000 to a church and in 1967 he contributes \$7,500 to the church. B may claim a charitable contribution deduction of \$6,000 in 1966, and the excess of \$8,000 (contribution to the church) over \$6,000 (30 percent of B's adjusted gross income) or \$2,000 constitutes a charitable contribution carryover which shall be treated as a charitable contribution paid by B to an organization referred to in section 170(b)(1)(A) in the 5 taxable years succeeding 1966 in order of time. (B made no excess contributions in 1964 or 1965 which should be treated as paid in years succeeding 1964 or 1965.) B may claim a charitable contribution deduction of \$9,000 in 1967. Such \$9,000 consists of the \$7,500 contribution to the church in 1967 and \$1,500 carried over from 1966 and treated as a charitable contribution paid to a section 170(b)(1)(A) organization in 1967. The \$1,500 contribution treated as paid in 1967 is computed as follows:

1966 excess contributions		\$2,000
30 percent of B's adjusted gross income for 1967		9,000
Less:		
Contributions actually made in 1967 to section 170(b)(1)(A) organizations	\$7,500	
Contributions made to section 170(b)(1)(A) organizations in taxable years prior to 1966 treated as having been paid in 1967	0	7,500
		<u>1,500</u>
Amount of 1966 excess treated as paid in 1967—the lesser of \$2,000 (1966 excess contributions) or \$1,500 (30 percent of adjusted gross income for 1967 (\$9,000) over the section 170(b)(1)(A) contributions actually made in 1967 (\$7,500) and the section 170(b)(1)(A) contributions made in years prior to 1966 treated as having been paid in 1967 (0))		<u>1,500</u>

If the excess contributions made by B in 1966 had been \$1,000 instead of \$2,000, then, for purposes of this example, the amount of the 1966 excess treated as paid in 1967 would be \$1,000 rather than \$1,500.

Example 2. Assume the same facts as in *Example 1*, and, in addition, that B has adjusted gross income for 1968 of \$10,000 and for 1969 of \$20,000. Assume further with respect to 1968 that B elects under section 144 to take the standard deduction in computing taxable income and that his actual contributions to organizations specified in section 170(b)(1)(A) are \$300. Assume further with respect to 1969, that B itemizes his deductions which include a \$5,000 contribution to a church. B's deductions for 1968 are not increased by reason of the \$500 available as a charitable contribution carryover from 1966 (excess contributions made in 1966 (\$2,000) less the amount of such excess treated as paid in 1967 (\$1,500))

since B elected to take the standard deduction in 1968. However, for purposes of determining the amount of the excess charitable contributions made in 1966 which is available as a carryover to 1969, B is required to treat such \$500 as a charitable contribution paid in 1968—the lesser of \$500 or \$2,700 (30 percent of adjusted gross income (\$3,000) over contributions actually made in 1968 to section 170(b)(1)(A) organizations (\$300)). Therefore, even though the \$5,000 contribution made by B in 1969 to a church does not amount to 30 percent of B's adjusted gross income for 1969 (30 percent of \$20,000 = \$6,000), B may claim a charitable contribution deduction of only the \$5,000 actually paid in 1969 since the entire excess charitable contribution made in 1966 (\$2,000) has been treated as paid in 1967 (\$1,500) and 1968 (\$500).

Example 3. Assume the following factual situation for C who itemizes his deductions

Internal Revenue Service, Treasury

§ 1.170-2

in computing taxable income for each of the years set forth in the example:

	1964	1965	1966	1967	1968
Adjusted gross income	\$10,000	\$7,000	\$15,000	\$10,000	\$9,000
Contributions to section 170(b)(1)(A) organizations (no other contributions)	4,000	3,000	5,000	1,000	1,500
Allowable charitable contributions deductions computed without regard to carryover of contributions	3,000	2,100	4,500	1,000	1,500
Excess contributions for taxable year to be treated as paid in 5 succeeding taxable years	1,000	900	500	0	0

Since C's contributions in 1967 and 1968 to section 170(b)(1)(A) organizations are less than 30 percent of his adjusted gross income for such years, the excess contributions for 1964, 1965, and 1966 are treated as having been paid to section 170(b)(1)(A) organizations in 1967 and 1968 as follows:

1967			
Contribution year	Total excess	Less: Amount treated as paid in year prior to 1967	Available charitable contribution carryovers
1964	\$1,000	0	\$1,000
1965	900	0	900
1966	500	0	500
			<u>2,400</u>
30 percent of B's adjusted gross income for 1967			3,000
Less: Charitable contributions made in 1967 to section 170(b)(1)(A) organizations			1,000
			<u>2,000</u>
Amount of excess contributions treated as paid in 1967—the lesser of \$2,400 (available carryovers to 1967) or \$2,000 (excess of 30 percent of adjusted gross income (\$3,000) over contributions actually made in 1967 to section 170(b)(1)(A) organizations (\$1,000))			2,000
1968			
Contribution year	Total excess	Less: Amount treated as paid in year prior to 1968	Available charitable contribution carryovers
1964	\$1,000	\$1,000	0
1965	900	900	0
1966	500	100	\$400
1967	0	0	0
			<u>400</u>
30 percent of B's adjusted gross income for 1968			2,700
Less: Charitable contributions made in 1968 to section 170(b)(1)(A) organizations			1,500

1968			
Contribution year	Total excess	Less: Amount treated as paid in year prior to 1968	Available charitable contribution carryovers
			1,200
Amount of excess contributions treated as paid in 1968—the lesser of \$400 (available carryovers to 1968) or \$1,200 (30 percent of adjusted gross income \$2,700) over contributions actually made in 1968 to section 170(b)(1)(A) organizations (\$1,500)			400

(3) *Effect of net operating loss carryback to contribution year.* The amount of the excess contribution for a contribution year (computed as provided in subparagraphs (1) and (5) of this paragraph) shall not be increased because a net operating loss carryback is available as a deduction in the contribution year. In addition, in determining (under the provisions of section 172(b)(2)) the amount of the net operating loss for any year subsequent to the contribution year which is a carryback or carryover to taxable years succeeding the contribution year, the amount of contributions made to organizations referred to in section 170(b)(1)(A) shall be limited to the amount of such contributions which did not exceed 30 percent of the donor's adjusted gross income (computed without regard to any net operating loss carryback or any of the modifications referred to in section 172(d)) for the contribution year.

(4) *Effect of net operating loss carryback to taxable years succeeding the contribution year.* The amount of the charitable contribution from a preceding taxable year which is treated as paid (as provided in subparagraph (2) of

this paragraph) in a current taxable year (hereinafter referred to in this subparagraph as the “deduction year”) shall not be reduced because a net operating loss carryback is available as a deduction in the deduction year. In addition, in determining (under the provisions of section 172(b)(2)) the amount of the net operating loss for any year subsequent to the deduction year which is a carryback or carryover to taxable years succeeding the deduction year, the amount of contributions made to organizations referred to in section 170(b)(1)(A) in the deduction year shall be limited to the amount of such contributions which were actually made in such year and those which were treated as paid in such year which did not exceed 30 percent of the donor’s adjusted gross income (computed without regard to any net operating loss carryback or any of the modifications referred to in section 172(d)) for the deduction year.

(5) *Reduction of excess contributions.*

An individual having a net operating loss carryover from a prior taxable year which is available as a deduction in a contribution year must apply the special rule of section 170(b)(5)(B) and this subparagraph in computing the excess described in subparagraph (1) of this paragraph for such contribution year. In determining the amount of excess charitable contributions that shall be treated as paid in each of the 5 taxable years succeeding the contribution year, the excess charitable contributions described in such subparagraph (1) must be reduced by the amount by which such excess reduces taxable income (for purposes of determining the portion of a net operating loss which shall be carried to taxable years succeeding the contribution year under the second sentence of section 172(b)(2)) and increases the net operating loss which is carried to a succeeding taxable year. In reducing taxable income under the second sentence of section 172(b)(2), an individual who has made charitable contributions in the contribution year to both organizations specified in section 170(b)(1)(A) (see paragraph (b) of this section) and to organizations not so specified must first deduct contributions made to the section 170(b)(1)(A) organizations from his adjusted gross income computed with-

out regard to his net operating loss deduction before any of the contributions made to organizations not specified in section 170(b)(1)(A) may be deducted from such adjusted gross income. Thus, if the excess of the contributions made in the contribution year to organizations specified in section 170(b)(1)(A) over the amount deductible in such contribution year is utilized to reduce taxable income (under the provisions of section 172(b)(2)) for such year, thereby serving to increase the amount of the net operating loss carryover to a succeeding year or years, no part of the excess charitable contributions made in such contribution year shall be treated as paid in any of the 5 immediately succeeding taxable years. If only a portion of the excess charitable contributions is so used, the excess charitable contributions will be reduced only to that extent. The provisions of this subparagraph may be illustrated by the following examples:

Example 1. B, an individual, reports his income on the calendar year basis and for the year 1964 has adjusted gross income (computed without regard to any net operating loss deduction) of \$50,000. During 1964 he made charitable contributions in the amount of \$20,000 all of which were to organizations specified in section 170(b)(1)(A). B has a net operating loss carryover from 1963 of \$50,000. In the absence of the net operating loss deduction B would have been allowed a deduction for charitable contributions of \$15,000. After the application of the net operating loss deduction, B is allowed no deduction for charitable contributions, and there is (before applying the special rule of section 170(b)(5)(B) and this subparagraph) a tentative excess charitable contribution of \$20,000. For purposes of determining the net operating loss which remains to be carried over to 1965, B computes his taxable income for his prior taxable year, 1964, under section 172(b)(2) by deducting the \$15,000 charitable contribution. After the \$50,000 net operating loss carryover is applied against the \$35,000 of taxable income for 1964 (computed in accordance with section 172(b)(2), assuming no deductions other than the charitable contribution deduction are applicable in making such computation), there remains a \$15,000 net operating loss carryover to 1965. Since the application of the net operating loss carryover of \$50,000 from 1963 reduces the 1964 adjusted gross income (for purposes of determining 1964 tax liability) to zero, no part of the \$20,000 of charitable contributions in that year is deductible under section 170(b)(1). However, in determining the

amount of the excess charitable contributions which shall be treated as paid in taxable years 1965, 1966, 1967, 1968, 1969, the \$20,000 must be reduced by the portion thereof (\$15,000) which was used to reduce taxable income for 1964 (as computed for purposes of the second sentence of section 172(b)(2)) and which thereby served to increase the net operating loss carryover to 1965 from zero to \$15,000.

Example 2. Assume the same facts as in *Example 1*, except that B's total contributions of \$20,000 made during 1964 consisted of \$15,000 to organizations specified in section 170(b)(1)(A) and \$5,000 to organizations not so specified. Under these facts there is a tentative excess charitable contribution of \$15,000, rather than \$20,000 as in *Example 1*. For purposes of determining the net operating loss which remains to be carried over to 1965, B computes his taxable income for his prior taxable year, 1964, under section 172(b)(2) by deducting the \$15,000 of charitable contributions made to organizations specified in section 170(b)(1)(A). Since the excess charitable contribution of \$15,000 determined in accordance with subparagraph (1) of this paragraph was used to reduce taxable income for 1964 (as computed for purposes of the second sentence of section 172(b)(2)) and thereby served to increase the net operating loss carryover to 1965 from zero to \$15,000, no part of such excess charitable contributions made in the contribution year shall be treated as paid in any of the five immediately succeeding taxable years. No carryover is allowed with respect to the \$5,000 of charitable contributions made in 1964 to organizations not specified in section 170(b)(1)(A).

(6) *Change in type of return filed*—(i) *From joint return to separate returns.* If a husband and wife—

(a) Make a joint return for a contribution year and compute an excess charitable contribution for such year in accordance with the provisions of subparagraphs (1) and (5) of this paragraph, and

(b) Make separate returns for one or more of the 5 taxable years immediately succeeding such contribution year, any excess charitable contribution for the contribution year which is unused at the beginning of the first such taxable year for which separate returns are filed shall be allocated between the husband and wife. For purposes of the allocation, a computation shall be made of the amount of any excess charitable contribution which each spouse would have computed in accordance with subparagraphs (1) and (5) of this paragraph if separate returns

(rather than a joint return) had been filed for the contribution year. The portion of the total unused excess charitable contribution for the contribution year allocated to each spouse shall be an amount which bears the same ratio to such unused excess charitable contribution as such spouse's excess contribution (based on the separate return computation) bears to the total excess contributions of both spouses (based on the separate return computation). To the extent that a portion of the amount allocated to either spouse in accordance with the foregoing provisions of this subdivision is not treated in accordance with the provisions of subparagraph (2) of this paragraph as a charitable contribution paid to an organization specified in section 170(b)(1)(A) in the taxable year in which a separate return or separate returns are filed, each spouse shall for purposes of subparagraph (2) of this paragraph treat his respective unused portion as the available charitable contributions carryover to the next succeeding taxable year in which the joint excess charitable contribution may be treated as paid in accordance with subparagraph (1) of this paragraph. If such husband and wife make a joint return in one of the five taxable years immediately succeeding the contribution year with respect to which a joint excess charitable contribution is computed and following the first succeeding year in which such husband and wife filed a separate return or separate returns, the amounts allocated to each spouse in accordance with this subdivision for such first year reduced by the portion of such amounts treated as paid to an organization specified in section 170(b)(1)(A) in such first year and in any taxable year intervening between such first year and the succeeding taxable year in which the joint return is filed shall be aggregated for purposes of determining the amount of the available charitable contributions carryover to such succeeding taxable year. The provisions of this subdivision (i) may be illustrated by the following example:

Example. H and W file joint returns for 1964, 1965, and 1966, and in 1967 they file separate returns. In each such year H and W itemize

§ 1.170-2

their deductions in computing taxable income. Assume the following factual situation with respect to H and W for 1964:

	H	W	Joint return
Adjusted gross income	\$50,000	\$40,000	\$90,000
Contributions to section 170(b)(1)(A) organization (no other contributions)	27,000	20,000	47,000
Allowable charitable contribution deductions	15,000	12,000	27,000
Excess contributions for taxable year to be treated as paid in 5 succeeding taxable years	12,000	8,000	20,000

The joint excess charitable contribution of \$20,000 is to be treated as having been paid to a section 170(b)(1)(A) organization in the five succeeding taxable years. Assume that in 1965, the portion of such excess treated as paid by H and W is \$3,000 and that in 1966, the portion of such excess treated as paid is \$7,000. Thus, the unused portion of the excess charitable contribution made in the contribution year is \$10,000 (\$20,000 less \$3,000 (amount treated as paid in 1965) and \$7,000 (amount treated as paid in 1966)). Since H and W file separate returns in 1967, \$6,000 of such \$10,000 is allocable to H and \$4,000 is allocable to W. Such allocation is computed as follows:

\$12,000 (excess charitable contributions made by H (based on separate return computation) in 1964)/\$20,000 (total excess charitable contributions made by H and W (based on separate return computation) in 1964) \times \$10,000 = \$6,000

\$8,000 (excess charitable contributions made by W (based on separate return computation) in 1964)/\$20,000 (total excess charitable contributions made by H and W (based on separate return computation) in 1964) \times \$10,000 = \$4,000

In 1967 H has adjusted gross income of \$70,000 and he contributes \$14,000 to an organization specified in section 170(b)(1)(A). In 1967 W has adjusted gross income of \$50,000, and she contributes \$10,000 to an organization specified in section 170(b)(1)(A). H may claim a charitable contribution deduction of \$20,000 in 1967, and W may claim a charitable contribution deduction of \$14,000 in 1967. H's \$20,000 deduction consists of the \$14,000 contribution to the section 170(b)(1)(A) organization in 1967 and \$6,000 carried over from 1964 and treated as a charitable contribution paid to a section 170(b)(1)(A) organization in 1967. W's \$14,000 deduction consists of the \$10,000 contribution made to a section 170(b)(1)(A) organization in 1967 and \$4,000 carried over from 1964 and treated as a charitable contribution paid to a section 170(b)(1)(A) organization in 1967.

26 CFR Ch. I (4-1-17 Edition)

nization in 1967. The \$6,000 contribution treated as paid in 1967 by H, and the \$4,000 contribution treated as paid in 1967 by W are computed as follows:

	H	W
Available charitable contribution carryover (see computations above)	\$6,000	\$4,000
30-percent of adjusted gross income	21,000	15,000
Contributions made in 1967 to section 170(b)(1)(A) organization (no other contributions)	14,000	10,000
Amount of allowable deduction unused	7,000	5,000
Amount of excess contributions treated as paid in 1967—the lesser of \$6,000 (available carryover of H to 1967) or \$7,000 (excess of 30 percent of adjusted gross income (\$21,000) over contributions actually made in 1967 to section 170(b)(1)(A) organizations (\$14,000))	6,000	
The lesser of \$4,000 (available carryover of W to 1967) or \$5,000 (excess of 30 percent of adjusted gross income (\$15,000) over contributions actually made in 1967 to section 170(b)(1)(A) organizations (\$10,000))		4,000

(ii) *From separate returns to joint return and remarried taxpayers.* If in the case of a husband and wife:

(a) Either or both of the spouses make a separate return for a contribution year and compute an excess charitable contribution for such year in accordance with the provisions of subparagraphs (1) and (5) of this paragraph, and

(b) Such husband and wife make a joint return for one or more of the taxable years immediately succeeding such contribution year, the excess charitable contribution of the husband and wife for the contribution year which is unused at the beginning of the first taxable year for which a joint return is filed shall be aggregated for purposes of determining the portion of such unused charitable contribution which shall be treated in accordance with subparagraph (2) of this paragraph as a charitable contribution paid to an organization specified in section 170(b)(1)(A). The provisions of this subdivision are also applicable in the case of two single individuals who are subsequently married and file a joint return. A remarried taxpayer who filed a joint return with a former spouse in a contribution year with respect to which an

excess charitable contribution was computed and who in any one of the five taxable years immediately succeeding such contribution year files a joint return with his (or her) present spouse shall treat the unused portion of such excess charitable contribution allocated to him (or her) in accordance with subdivision (i) of this subparagraph in the same manner as the unused portion of an excess charitable contribution computed in a contribution year in which he filed a separate return for purposes of determining the amount which in accordance with subparagraph (2) of this paragraph shall be treated as paid to an organization specified in section 170(b)(1)(A) in such succeeding year.

(iii) *Unused excess charitable contribution of deceased spouse.* In case of the death of one spouse, any unused portion of an excess charitable contribution which is allocable (in accordance with subdivision (i) of this subparagraph) to such spouse shall not be treated as paid in the taxable year in which such death occurs or in any subsequent taxable year except on a separate return made for the deceased spouse by a fiduciary for the taxable year which ends with the date of death or on a joint return for the taxable year in which such death occurs. The application of this subdivision may be illustrated by the following example:

Example. Assume the same facts as in the example in subdivision (i) of this subparagraph except that H dies in 1966 and W files a separate return for 1967. W made a joint return for herself and H for 1966. In that example, the unused excess charitable contribution as of January 1, 1967, was \$10,000, \$6,000 of which was allocable to H and \$4,000 to W. No portion of the \$6,000 allocable to H may be treated as paid by W or any other person in 1967 or any subsequent year.

(7) *Information required in support of a deduction of an amount treated as paid.* If, in a taxable year, a deduction is claimed in respect of an excess charitable contribution which, in accordance with the provisions of subparagraph (2) of this paragraph, is treated (in whole or in part) as paid in such taxable year, the taxpayer shall attach to his return a statement showing:

(i) The year (or years) in which the excess charitable contributions were made (the contribution year or years),

(ii) The excess charitable contributions made in each contribution year,

(iii) The portion of such excess (or each such excess) treated as paid in accordance with subparagraph (2) of this paragraph in any taxable year intervening between the contribution year and the taxable year for which the return is made, and

(iv) Such other information as the return or the instructions relating thereto may require.

[T.D. 6500, 25 FR 11402, Nov. 26, 1960, as amended by T.D. 6605, 27 FR 8096, Aug. 15, 1962; T.D. 6639, 28 FR 1762, Feb. 26, 1963; T.D. 6732, 29 FR 6280, May 13, 1964; T.D. 6900, 31 FR 14634, Nov. 17, 1966; T.D. 7207, 37 FR 20768, Oct. 4, 1972; T.D. 7427, 41 FR 34026, Aug. 12, 1976]

§ 1.170-3 Contributions or gifts by corporations (before amendment by Tax Reform Act of 1969).

(a) *In general.* The deduction by a corporation in any taxable year for charitable contributions, as defined in section 170(c), is limited to 5 percent of its taxable income for the year computed without regard to:

(1) The deduction for charitable contributions,

(2) The special deductions for corporations allowed under part VIII (except section 248), subchapter B, chapter 1 of the Code,

(3) Any net operating loss carryback to the taxable year under section 172,

(4) The special deduction for Western Hemisphere trade corporations under section 922, and

(5) Any capital loss carryback to the taxable year under section 1212(a)(1).

A contribution by a corporation to a trust, chest, fund, or foundation organized and operated exclusively for religious, charitable, scientific, literary, or educational purposes or for the prevention of cruelty to children or animals is deductible only if the contribution is to be used in the United States or its possessions for those purposes. See section 170(c)(2). For the purposes of section 170, amounts excluded from the gross income of a corporation under section 114 (relating to sports programs conducted for the American

National Red Cross) are not to be considered contributions or gifts. For reduction or disallowance of certain charitable, etc., deductions, see paragraphs (c)(2), (e), and (f) of § 1.170-1.

(b) *Election by corporations on an accrual method.* A corporation reporting its taxable income on an accrual method may elect to have a charitable contribution (as defined in section 170 (c)) considered as paid during the taxable year, if payment is actually made on or before the fifteenth day of the third month following the close of the year and if, during the year, the board of directors authorized the contribution. The election must be made at the time the return for the taxable year is filed, by reporting the contribution on the return. There shall be attached to the return when filed a written declaration that the resolution authorizing the contribution was adopted by the board of directors during the taxable year, and the declaration shall be verified by a statement signed by an officer authorized to sign the return that it is made under the penalties of perjury. There shall also be attached to the return when filed a copy of the resolution of the board of directors authorizing the contribution.

(c) *Charitable contributions carryover of corporations*—(1) *Contributions made in taxable years beginning before January 1, 1962.* Subject to the rules set forth in subparagraph (3) of this paragraph, any contributions made by a corporation in a taxable year (hereinafter in this paragraph referred to as the contribution year) subject to the Code beginning before January 1, 1962, in excess of the amount deductible in such contribution year under the 5-percent limitation of section 170(b)(2) are deductible in each of the two succeeding taxable years in order of time, but only to the extent of the lesser of the following amounts:

(i) The excess of the maximum amount deductible for the succeeding year under the 5-percent limitation of section 170(b)(2) over the contributions made in that year; and

(ii) In the case of the first taxable year succeeding the contribution year, the amount of the excess contributions; and, in the case of the second taxable year succeeding the contribu-

tion year, the portion of the excess contributions not deductible in the first succeeding taxable year.

The application of the rules in this subparagraph may be illustrated by the following example:

Example. A corporation which reports its income on the calendar year basis makes a charitable contribution of \$10,000 in June 1961, anticipating taxable income for 1961 of \$200,000. Its actual taxable income (without regard to any deduction for charitable contributions) for 1961 is only \$50,000 and the charitable deduction for that year is limited to \$2,500 (5 percent of \$50,000). The excess charitable contribution not deductible in 1961 (\$7,500) represents a carryover potentially available as a deduction in the two succeeding taxable years. The corporation has taxable income (without regard to any deduction for charitable contributions) of \$150,000 in 1962 and makes a charitable contribution of \$2,500 in that year. For 1962, the corporation may deduct as a charitable contribution the amount of \$7,500 (5 percent of \$150,000). This amount consists first of the \$2,500 contribution made in 1962, and \$5,000 of the \$7,500 carried over from 1961. The remaining \$2,500 carried over from 1961 and not allowable as a deduction in 1962 because of the 5-percent limitation may be carried over to 1963. The corporation has taxable income (without regard to any deduction for charitable contributions) of \$100,000 in 1963 and makes a charitable contribution of \$3,000. For 1963, the corporation may deduct under section 170 the amount of \$5,000 (5 percent of \$100,000). This amount consists first of the \$3,000 contributed in 1963, and \$2,000 of the \$2,500 carried over from 1961 to 1963. The remaining \$500 of the carryover from 1961 is not allowable as a deduction in any year because of the 2-year limitation with respect to excess contributions made in taxable years beginning before January 1, 1962.

(2) *Contributions made in taxable years beginning after December 31, 1961.* Subject to the rules set forth in subparagraph (3) of this paragraph, any contributions made by a corporation in a taxable year (hereinafter in this paragraph referred to as the contribution year) beginning after December 31, 1961, in excess of the amount deductible in such contribution year under the 5-percent limitation of section 170(b)(2) are deductible in each of the five succeeding taxable years in order of time, but only to the extent of the lesser of the following amounts:

(i) The excess of the maximum amount deductible for such succeeding

taxable year under the 5-percent limitation of section 170(b)(2) over the sum of the contributions made in that year plus the aggregate of the excess contributions which were made in taxable years before the contribution year and which are deductible under this paragraph in such succeeding taxable year; or

(ii) In the case of the first taxable year succeeding the contribution year, the amount of the excess contributions, and in the case of the second, third, fourth, or fifth taxable years succeeding the contribution year, the portion of the excess contributions not deductible under this subparagraph for any taxable year intervening between the contribution year and such succeeding taxable year.

The application of the rules of this subparagraph may be illustrated by the following example:

Example. A corporation which reports its income on the calendar year basis makes a charitable contribution of \$20,000 in June 1964, anticipating taxable income for 1964 of \$400,000. Its actual taxable income (without regard to any deduction for charitable contributions) for 1964 is only \$100,000 and the charitable deduction for that year is limited to \$5,000 (5 percent of \$100,000). The excess charitable contribution not deductible in 1964 (\$15,000) represents a carryover potentially available as a deduction in the five succeeding taxable years. The corporation has taxable income (without regard to any deduction for charitable contributions) of \$150,000 in 1965 and makes a charitable contribution of \$5,000 in that year. For 1965 the corporation may deduct as a charitable contribution the amount of \$7,500 (5 percent of \$150,000). This amount consists first of the \$5,000 contribution made in 1965, and \$2,500 carried over from 1964. The remaining \$12,500 carried over from 1964 and not allowable as a deduction for 1965 because of the 5-percent limitation may be carried over to 1966. The corporation has taxable income (without regard to any deduction for charitable contributions) of \$200,000 in 1966 and makes a charitable contribution of \$5,000. For 1966, the corporation may deduct the amount of \$10,000 (5 percent of \$200,000). This amount consists first of the \$5,000 contributed in 1966, and \$5,000 of the \$12,500 carried over from 1964 to 1966. The remaining \$7,500 of the carryover from 1964 is available for purposes of computing the charitable contributions carryover from 1964 to 1967, 1968, and 1969.

(3) *Reduction of excess contributions.* A corporation having a net operating loss

carryover (or carryovers) must apply the special rule of section 170(b)(3) and this subparagraph before computing under subparagraph (1) or (2) of this paragraph the charitable contributions carryover for any taxable year subject to the Internal Revenue Code of 1954. In determining the amount of charitable contributions that may be deducted in accordance with the rules set forth in subparagraph (1) or (2) of this paragraph in taxable years succeeding the contribution year, the excess of contributions made by a corporation in the contribution year over the amount deductible in such year must be reduced by the amount by which such excess reduces taxable income (for purposes of determining the net operating loss carryover under the second sentence of section 172(b)(2) and increases a net operating loss carryover to a succeeding taxable year. Thus, if the excess of the contributions made in a taxable year over the amount deductible in the taxable year is utilized to reduce taxable income (under the provisions of section 172(b)(2)) for such year, thereby serving to increase the amount of the net operating loss carryover to a succeeding year or years, no charitable contributions carryover will be allowed. If only a portion of the excess charitable contributions is so used, the charitable contributions carryover will be reduced only to that extent. The application of the rules of this subparagraph may be illustrated by the following example:

Example. A corporation which reports its income on the calendar year basis makes a charitable contribution of \$10,000 during the taxable year 1960. Its taxable income for 1960 is \$80,000 (computed without regard to any net operating loss deduction and computed in accordance with section 170(b)(2) without regard to any deduction for charitable contributions). The corporation has a net operating loss carryover from 1959 of \$80,000. In the absence of the net operating loss deduction the corporation would have been allowed a deduction for charitable contributions of \$4,000 (5 percent of \$80,000). After the application of the net operating loss deduction the corporation is allowed no deduction for charitable contributions, and there is a tentative charitable contribution carryover of \$10,000. For purposes of determining the net operating loss carryover to 1961 the corporation computes its taxable income for its prior taxable year 1960 under section 172(b)(2)

§ 1.170A-1

26 CFR Ch. I (4-1-17 Edition)

by deducting the \$4,000 charitable contribution. Thus, after the \$80,000 net operating loss carryover is applied against the \$76,000 of taxable income for 1960 (computed in accordance with section 172(b)(2)), there remains a \$4,000 net operating loss carryover to 1961. Since the application of the net operating loss carryover of \$80,000 from 1959 reduces the taxable income for 1960 to zero, no part of the \$10,000 of charitable contributions in that year is deductible under section 170(b)(2). However, in determining the amount of the allowable charitable contributions carryover to the taxable years 1961 and 1962, the \$10,000 must be reduced by the portion thereof (\$4,000) which was used to reduce taxable income for 1960 (as computed for purposes of the second sentence of section 172(b)(2)) and which thereby served to increase the net operating loss carryover to 1961 from zero to \$4,000.

(4) *Year contribution is made.* For purposes of this paragraph, contributions made by a corporation in a contribution year include contributions which, in accordance with the provisions of section 170(a)(2) and paragraph (b) of this section, are considered as paid during such contribution year.

(5) *Effect of net operating loss carryback to contribution year.* The amount of the excess contribution for a contribution year (computed as provided in this paragraph) shall not be increased because a net operating loss carryback is available as a deduction in the contribution year. In addition, in determining (under the provisions of section 172(b)(2)) the amount of the net operating loss for any year subsequent to the contribution year which is a carryback or carryover to taxable years succeeding the contribution year, the amount of contributions shall be limited to the maximum amount deductible under the 5-percent limitation of section 170(b)(2) (computed without regard to any net operating loss carryback or any of the modifications referred to in section 172(d)) for the contribution year.

(6) *Effect of net operating loss carryback to taxable years succeeding the contribution year.* The amount of the charitable contribution from a preceding taxable year which is deductible (as provided in this paragraph) in a current taxable year (hereinafter referred to in this subparagraph as the “deduction year”) shall not be reduced because a net operating loss carryback

is available as a deduction in the deduction year. In addition, in determining (under the provisions of section 172(b)(2)) the amount of the net operating loss for any year subsequent to the deduction year which is a carryback or a carryover to taxable years succeeding the deduction year, the amount of contributions shall be limited to the maximum amount deductible under the 5-percent limitation of section 170(b)(2) (computed without regard to any net operating loss carryback or any of the modifications referred to in section 172(d)) for the deduction year.

[T.D. 6500, 25 FR 11402, Nov. 26, 1960, as amended by T.D. 6605, 27 FR 8096, Aug. 15, 1962; T.D. 6900, 31 FR 14640, Nov. 17, 1966; T.D. 7207, 37 FR 20768, Oct. 4, 1972]

§ 1.170A-1 Charitable, etc., contributions and gifts; allowance of deduction.

(a) *Allowance of deduction.* Any charitable contribution, as defined in section 170(c), actually paid during the taxable year is allowable as a deduction in computing taxable income irrespective of the method of accounting employed or of the date on which the contribution is pledged. However, charitable contributions by corporations may under certain circumstances be deductible even though not paid during the taxable year as provided in section 170(a)(2) and § 1.170A-11. For rules relating to recordkeeping and return requirements in support of deductions for charitable contributions (whether by an itemizing or nonitemizing taxpayer) see § 1.170A-13. The deduction is subject to the limitations of section 170(b) and § 1.170A-8 or § 1.170A-11. Subject to the provisions of section 170(d) and §§ 1.170A-10 and 1.170A-11, certain excess charitable contributions made by individuals and corporations shall be treated as paid in certain succeeding taxable years. For provisions relating to direct charitable deductions under section 63 by nonitemizers, see section 63 (b)(1)(C) and (i) and section 170(i). For rules relating to the determination of, and the deduction for, amounts paid to maintain certain students as members of the taxpayer's household and treated under section 170(g) as paid for the use of an organization described in

section 170(c) (2), (3), or (4), see § 1.170A-2. For the reduction of any charitable contributions for interest on certain indebtedness, see section 170(f)(5) and § 1.170A-3. For a special rule relating to the computation of the amount of the deduction with respect to a charitable contribution of certain ordinary income or capital gain property, see section 170(e) and §§ 1.170A-4 and 1.170A-4A. For rules for postponing the time for deduction of a charitable contribution of a future interest in tangible personal property, see section 170(a)(3) and § 1.170A-5. For rules with respect to transfers in trust and of partial interests in property, see section 170(e), section 170(f) (2) and (3), §§ 1.170A-4, 1.170A-6, and 1.170A-7. For definition of the term *section 170(b)(1)(A) organization*, see § 1.170A-9. For valuation of a remainder interest in real property, see section 170(f)(4) and the regulations thereunder. The deduction for charitable contributions is subject to verification by the district director.

(b) *Time of making contribution.* Ordinarily, a contribution is made at the time delivery is effected. The unconditional delivery or mailing of a check which subsequently clears in due course will constitute an effective contribution on the date of delivery or mailing. If a taxpayer unconditionally delivers or mails a properly endorsed stock certificate to a charitable donee or the donee's agent, the gift is completed on the date of delivery or, if such certificate is received in the ordinary course of the mails, on the date of mailing. If the donor delivers the stock certificate to his bank or broker as the donor's agent, or to the issuing corporation or its agent, for transfer into the name of the donee, the gift is completed on the date the stock is transferred on the books of the corporation. For rules relating to the date of payment of a contribution consisting of a future interest in tangible personal property, see section 170(a)(3) and § 1.170A-5.

(c) *Value of a contribution in property.*

(1) If a charitable contribution is made in property other than money, the amount of the contribution is the fair market value of the property at the time of the contribution reduced as provided in section 170(e)(1) and para-

graph (a) of § 1.170A-4, or section 170(e)(3) and paragraph (c) of § 1.170A-4A.

(2) The fair market value is the price at which the property would change hands between a willing buyer and a willing seller, neither being under any compulsion to buy or sell and both having reasonable knowledge of relevant facts. If the contribution is made in property of a type which the taxpayer sells in the course of his business, the fair market value is the price which the taxpayer would have received if he had sold the contributed property in the usual market in which he customarily sells, at the time and place of the contribution and, in the case of a contribution of goods in quantity, in the quantity contributed. The usual market of a manufacturer or other producer consists of the wholesalers or other distributors to or through whom he customarily sells, but if he sells only at retail the usual market consists of his retail customers.

(3) If a donor makes a charitable contribution of property, such as stock in trade, at a time when he could not reasonably have been expected to realize its usual selling price, the value of the gift is not the usual selling price but is the amount for which the quantity of property contributed would have been sold by the donor at the time of the contribution.

(4) Any costs and expenses pertaining to the contributed property which were incurred in taxable years preceding the year of contribution and are properly reflected in the opening inventory for the year of contribution must be removed from inventory and are not a part of the cost of goods sold for purposes of determining gross income for the year of contribution. Any costs and expenses pertaining to the contributed property which are incurred in the year of contribution and would, under the method of accounting used, be properly reflected in the cost of goods sold for such year are to be treated as part of the costs of goods sold for such year. If costs and expenses incurred in producing or acquiring the contributed property are, under the method of accounting used, properly deducted under section 162 or other section of the Code, such costs and expenses will be allowed

§ 1.170A-1

as deductions for the taxable year in which they are paid or incurred whether or not such year is the year of the contribution. Any such costs and expenses which are treated as part of the cost of goods sold for the year of contribution, and any such costs and expenses which are properly deducted under section 162 or other section of the Code, are not to be treated under any section of the Code as resulting in any basis for the contributed property. Thus, for example, the contributed property has no basis for purposes of determining under section 170(e)(1)(A) and paragraph (a) of § 1.170A-4 the amount of gain which would have been recognized if such property had been sold by the donor at its fair market value at the time of its contribution. The amount of any charitable contribution for the taxable year is not to be reduced by the amount of any costs or expenses pertaining to the contributed property which was properly deducted under section 162 or other section of the Code for any taxable year preceding the year of the contribution. This subparagraph applies only to property which was held by the taxpayer for sale in the course of a trade or business. The application of this subparagraph may be illustrated by the following examples:

Example 1. In 1970, A, an individual using the calendar year as the taxable year and the accrual method of accounting, contributed to a church property from inventory having a fair market value of \$600. The closing inventory at the end of 1969 properly included \$400 of costs attributable to the acquisition of such property, and in 1969 A properly deducted under section 162 \$50 of administrative and other expenses attributable to such property. Under section 170(e)(1)(A) and paragraph (a) of § 1.170A-4, the amount of the charitable contribution allowed for 1970 is \$400 (\$600 - [\$600 - \$400]). Pursuant to this subparagraph, the cost of goods sold to be used in determining gross income for 1970 may not include the \$400 which was included in opening inventory for that year.

Example 2. The facts are the same as in *Example 1* except that the contributed property was acquired in 1970 at a cost of \$400. The \$400 cost of the property is included in determining the cost of goods sold for 1970, and \$50 is allowed as a deduction for that year under section 162. A is not allowed any deduction under section 170 for the contributed property, since under section 170(e)(1)(A) and paragraph (a) of § 1.170A-4 the amount of the

charitable contribution is reduced to zero (\$600 - [\$600 - \$0]).

Example 3. In 1970, B, an individual using the calendar year as the taxable year and the accrual method of accounting, contributed to a church property from inventory having a fair market value of \$600. Under § 1.471-3(c), the closing inventory at the end of 1969 properly included \$450 costs attributable to the production of such property, including \$50 of administrative and other indirect expenses which, under his method of accounting, was properly added to inventory rather than deducted as a business expense. Under section 170(e)(1)(A) and paragraph (a) of § 1.170A-4, the amount of the charitable contribution allowed for 1970 is \$450 (\$600 - [\$600 - \$450]). Pursuant to this subparagraph, the cost of goods sold to be used in determining gross income for 1970 may not include the \$450 which was included in opening inventory for that year.

Example 4. The facts are the same as in *Example 3* except that the contributed property was produced in 1970 at a cost of \$450, including \$50 of administrative and other indirect expenses. The \$450 cost of the property is included in determining the cost of goods sold for 1970. B is not allowed any deduction under section 170 for the contributed property, since under section 170(e)(1)(A) and paragraph (a) of § 1.170A-4 the amount of the charitable contribution is reduced to zero (\$600 - [\$600 - \$0]).

Example 5. In 1970, C, a farmer using the cash method of accounting and the calendar year as the taxable year, contributed to a church a quantity of grain which he had raised having a fair market value of \$600. In 1969, C paid expenses of \$450 in raising the property which he properly deducted for such year under section 162. Under section 170(e)(1)(A) and paragraph (a) of § 1.170A-4, the amount of the charitable contribution in 1970 is reduced to zero (\$600 - [\$600 - \$0]). Accordingly, C is not allowed any deduction under section 170 for the contributed property.

Example 6. The facts are the same as in *Example 5* except that the \$450 expenses incurred in raising the contributed property were paid in 1970. The result is the same as in *Example 5*, except the amount of \$450 is deductible under section 162 for 1970.

(5) Transfers of property to an organization described in section 170(c) which bear a direct relationship to the taxpayer's trade or business and which are made with a reasonable expectation of financial return commensurate with the amount of the transfer may constitute allowable deductions as trade or business expenses rather than as charitable contributions. See section 162 and the regulations thereunder.

26 CFR Ch. I (4-1-17 Edition)

(d) *Purchase of an annuity.* (1) In the case of an annuity or portion thereof purchased from an organization described in section 170(c), there shall be allowed as a deduction the excess of the amount paid over the value at the time of purchase of the annuity or portion purchased.

(2) The value of the annuity or portion is the value of the annuity determined in accordance with paragraph (e)(1)(iii) (b)(2) of § 1.101-2.

(3) For determining gain on any such transaction constituting a bargain sale, see section 1011(b) and § 1.1011-2.

(e) *Transfers subject to a condition or power.* If as of the date of a gift a transfer for charitable purposes is dependent upon the performance of some act or the happening of a precedent event in order that it might become effective, no deduction is allowable unless the possibility that the charitable transfer will not become effective is so remote as to be negligible. If an interest in property passes to, or is vested in, charity on the date of the gift and the interest would be defeated by the subsequent performance of some act or the happening of some event, the possibility of occurrence of which appears on the date of the gift to be so remote as to be negligible, the deduction is allowable. For example, A transfers land to a city government for as long as the land is used by the city for a public park. If on the date of the gift the city does plan to use the land for a park and the possibility that the city will not use the land for a public park is so remote as to be negligible, A is entitled to a deduction under section 170 for his charitable contribution.

(f) *Special rules applicable to certain contributions.* (1) See section 14 of the Wild and Scenic Rivers Act (Pub. L. 90-542, 82 Stat. 918) for provisions relating to the claim and allowance of the value of certain easements as a charitable contribution under section 170.

(2) For treatment of gifts accepted by the Secretary of State or the Secretary of Commerce, for the purpose of organizing and holding an international conference to negotiate a Patent Corporation Treaty, as gifts to or for the use of the United States, see section 3 of joint resolution of December 24, 1969 (Pub. L. 91-160, 83 Stat. 443).

(3) For treatment of gifts accepted by the Secretary of the Department of Housing and Urban Development, for the purpose of aiding or facilitating the work of the Department, as gifts to or for the use of the United States, see section 7(k) of the Department of Housing and Urban Development Act (42 U.S.C. 3535), as added by section 905 of Pub. L. 91-609 (84 Stat. 1809).

(g) *Contributions of services.* No deduction is allowable under section 170 for a contribution of services. However, unreimbursed expenditures made incident to the rendition of services to an organization contributions to which are deductible may constitute a deductible contribution. For example, the cost of a uniform without general utility which is required to be worn in performing donated services is deductible. Similarly, out-of-pocket transportation expenses necessarily incurred in performing donated services are deductible. Reasonable expenditures for meals and lodging necessarily incurred while away from home in the course of performing donated services also are deductible. For the purposes of this paragraph, the phrase *while away from home* has the same meaning as that phrase is used for purposes of section 162 and the regulations thereunder.

(h) *Payment in exchange for consideration—*(1) *Burden on taxpayer to show that all or part of payment is a charitable contribution or gift.* No part of a payment that a taxpayer makes to or for the use of an organization described in section 170(c) that is in consideration for (as defined in § 1.170A-13(f)(6)) goods or services (as defined in § 1.170A-13(f)(5)) is a contribution or gift within the meaning of section 170(c) unless the taxpayer—

(i) Intends to make a payment in an amount that exceeds the fair market value of the goods or services; and

(ii) Makes a payment in an amount that exceeds the fair market value of the goods or services.

(2) *Limitation on amount deductible—*(i) *In general.* The charitable contribution deduction under section 170(a) for a payment a taxpayer makes partly in consideration for goods or services may not exceed the excess of—

(A) The amount of any cash paid and the fair market value of any property

§ 1.170A-1

26 CFR Ch. I (4-1-17 Edition)

(other than cash) transferred by the taxpayer to an organization described in section 170(c); over

(B) The fair market value of the goods or services the organization provides in return.

(ii) *Special rules.* For special limits on the deduction for charitable contributions of ordinary income and capital gain property, see section 170(e) and §§ 1.170A-4 and 1.170A-4A.

(3) *Certain goods or services disregarded.* For purposes of section 170(a) and paragraphs (h)(1) and (h)(2) of this section, goods or services described in § 1.170A-13(f)(8)(i) or § 1.170A-13(f)(9)(i) are disregarded.

(4) *Donee estimates of the value of goods or services may be treated as fair market value—(i) In general.* For purposes of section 170(a), a taxpayer may rely on either a contemporaneous written acknowledgment provided under section 170(f)(8) and § 1.170A-13(f) or a written disclosure statement provided under section 6115 for the fair market value of any goods or services provided to the taxpayer by the donee organization.

(ii) *Exception.* A taxpayer may not treat an estimate of the value of goods or services as their fair market value if the taxpayer knows, or has reason to know, that such treatment is unreasonable. For example, if a taxpayer knows, or has reason to know, that there is an error in an estimate provided by an organization described in section 170(c) pertaining to goods or services that have a readily ascertainable value, it is unreasonable for the taxpayer to treat the estimate as the fair market value of the goods or services. Similarly, if a taxpayer is a dealer in the type of goods or services provided in consideration for the taxpayer's payment and knows, or has reason to know, that the estimate is in error, it is unreasonable for the taxpayer to treat the estimate as the fair market value of the goods or services.

(5) *Examples.* The following examples illustrate the rules of this paragraph (h).

Example 1. Certain goods or services disregarded. Taxpayer makes a \$50 payment to Charity B, an organization described in section 170(c), in exchange for a family membership. The family membership entitles

Taxpayer and members of Taxpayer's family to certain benefits. These benefits include free admission to weekly poetry readings, discounts on merchandise sold by B in its gift shop or by mail order, and invitations to special events for members only, such as lectures or informal receptions. When B first offers its membership package for the year, B reasonably projects that each special event for members will have a cost to B, excluding any allocable overhead, of \$5 or less per person attending the event. Because the family membership benefits are disregarded pursuant to § 1.170A-13(f)(8)(i), Taxpayer may treat the \$50 payment as a contribution or gift within the meaning of section 170(c), regardless of Taxpayer's intent and whether or not the payment exceeds the fair market value of the goods or services. Furthermore, any charitable contribution deduction available to Taxpayer may be calculated without regard to the membership benefits.

Example 2. Treatment of good faith estimate at auction as the fair market value. Taxpayer attends an auction held by Charity C, an organization described in section 170(c). Prior to the auction, C publishes a catalog that meets the requirements for a written disclosure statement under section 6115(a) (including C's good faith estimate of the value of items that will be available for bidding). A representative of C gives a copy of the catalog to each individual (including Taxpayer) who attends the auction. Taxpayer notes that in the catalog C's estimate of the value of a vase is \$100. Taxpayer has no reason to doubt the accuracy of this estimate. Taxpayer successfully bids and pays \$500 for the vase. Because Taxpayer knew, prior to making her payment, that the estimate in the catalog was less than the amount of her payment, Taxpayer satisfies the requirement of paragraph (h)(1)(i) of this section. Because Taxpayer makes a payment in an amount that exceeds that estimate, Taxpayer satisfies the requirements of paragraph (h)(1)(ii) of this section. Taxpayer may treat C's estimate of the value of the vase as its fair market value in determining the amount of her charitable contribution deduction.

Example 3. Good faith estimate not in error. Taxpayer makes a \$200 payment to Charity D, an organization described in section 170(c). In return for Taxpayer's payment, D gives Taxpayer a book that Taxpayer could buy at retail prices typically ranging from \$18 to \$25. D provides Taxpayer with a good faith estimate, in a written disclosure statement under section 6115(a), of \$20 for the value of the book. Because the estimate is within the range of typical retail prices for the book, the estimate contained in the written disclosure statement is not in error. Although Taxpayer knows that the book is sold for as much as \$25, Taxpayer may treat the estimate of \$20 as the fair market value of

Internal Revenue Service, Treasury

§ 1.170A-1

the book in determining the amount of his charitable contribution deduction.

(i) [Reserved]

(j) *Exceptions and other rules.* (1) The provisions of section 170 do not apply to contributions by an estate; nor do they apply to a trust unless the trust is a private foundation which, pursuant to section 642(c)(6) and § 1.642(c)-4, is allowed a deduction under section 170 subject to the provisions applicable to individuals.

(2) No deduction shall be allowed under section 170 for a charitable contribution to or for the use of an organization or trust described in section 508(d) or 4948(c)(4), subject to the conditions specified in such sections and the regulations thereunder.

(3) For disallowance of deductions for contributions to or for the use of communist controlled organizations, see section 11(a) of the Internal Security Act of 1950, as amended (50 U.S.C. 790).

(4) For denial of deductions for charitable contributions as trade or business expenses and rules with respect to treatment of payments to organizations other than those described in section 170(c), see section 162 and the regulations thereunder.

(5) No deduction shall be allowed under section 170 for amounts paid to an organization:

(i) Which is disqualified for tax exemption under section 501(c)(3) by reason of attempting to influence legislation, or

(ii) Which participates in, or intervenes in (including the publishing or distribution of statements), any political campaign on behalf of or in opposition to any candidate for public office. For purposes of determining whether an organization is attempting to influence legislation or is engaging in political activities, see sections 501(c)(3), 501(h), 4911 and the regulations thereunder.

(6) No deduction shall be allowed under section 170 for expenditures for lobbying purposes, the promotion or defeat of legislation, etc. See also the regulations under sections 162 and 4945.

(7) No deduction for charitable contributions is allowed in computing the taxable income of a common trust fund or of a partnership. See sections 584(d)(3) and 703(a)(2)(D). However, a

partner's distributive share of charitable contributions actually paid by a partnership during its taxable year may be allowed as a deduction in the partner's separate return for his taxable year with or within which the taxable year of the partnership ends, to the extent that the aggregate of his share of the partnership contributions and his own contributions does not exceed the limitations in section 170(b).

(8) For charitable contributions paid by a nonresident alien individual or a foreign corporation, see § 1.170A-4(b)(5) and sections 873, 876, 877, and 882(c), and the regulations thereunder.

(9) Charitable contributions paid by bona fide residents of a section 931 possession as defined in § 1.931-1(c)(1) or Puerto Rico are deductible only to the extent allocable to income that is not excluded under section 931 or 933. For the rules for allocating deductions for charitable contributions, see the regulations under section 861.

(10) For carryover of excess charitable contributions in certain corporate acquisitions, see section 381(c)(19) and the regulations thereunder.

(11) No deduction shall be allowed under section 170 for out-of-pocket expenditures on behalf of an eligible organization (within the meaning of § 1.501(h)-2(b)(1)) if the expenditure is made in connection with influencing legislation (within the meaning of section 501(c)(3) or § 56.4911-2), or in connection with the payment of the organization's tax liability under section 4911. For the treatment of similar expenditures on behalf of other organizations see paragraph (h)(6) of this section.

(k) *Effective/applicability date.* In general this section applies to contributions made in taxable years beginning after December 31, 1969. Paragraph (j)(11) of this section, however, applies only to out-of-pocket expenditures made in taxable years beginning after December 31, 1976. In addition, paragraph (h) of this section applies only to payments made on or after December 16, 1996. However, taxpayers may rely on the rules of paragraph (h) of this section for payments made on or after January 1, 1994. Paragraph (j)(9) of this

§ 1.170A-2

26 CFR Ch. I (4-1-17 Edition)

section is applicable for taxable years ending after April 9, 2008.

(68A Stat. 58, 26 U.S.C. 170(a)(1); 68A Stat. 917, 26 U.S.C. 7805)

[T.D. 7207, 37 FR 20771, Oct. 4, 1972, as amended by T.D. 7340, 40 FR 1238, Jan. 7, 1975; T.D. 7807, 47 FR 4510, Feb. 1, 1982; T.D. 8002, 49 FR 50666, Dec. 31, 1984; T.D. 8308, 55 FR 35587, Aug. 31, 1990; T.D. 8690, 61 FR 65951, Dec. 16, 1996; T.D. 9194, 70 FR 18928, Apr. 11, 2005; T.D. 9391, 73 FR 19358, Apr. 9, 2008]

§ 1.170A-2 Amounts paid to maintain certain students as members of the taxpayer's household.

(a) *In general.* (1) The term *charitable contributions* includes amounts paid by the taxpayer during the taxable year to maintain certain students as members of his household which, under the provisions of section 170(h) and this section, are treated as amounts paid for the use of an organization described in section 170(c) (2), (3), or (4), and such amounts, to the extent they do not exceed the limitations under section 170(h)(2) and paragraph (b) of this section, are contributions deductible under section 170. In order for such amounts to be so treated, the student must be an individual who is neither a dependent (as defined in section 152) of the taxpayer nor related to the taxpayer in a manner described in any of the paragraphs (1) through (8) of section 152(a), and such individual must be a member of the taxpayer's household pursuant to a written agreement between the taxpayer and an organization described in section 170(c) (2), (3), or (4) to implement a program of the organization to provide educational opportunities for pupils or students placed in private homes by such organization. Furthermore, such amounts must be paid to maintain such individual during the period in the taxable year he is a member of the taxpayer's household and is a full-time pupil or student in the 12th or any lower grade at an educational institution, as defined in section 151(e)(4) and § 1.151-3, located in the United States. Amounts paid outside of such period, but within the taxable year, for expenses necessary for the maintenance of the student during the period will qualify for the charitable contributions deduction

if the other limitation requirements of the section are met.

(2) For purposes of subparagraph (1) of this paragraph, amounts treated as charitable contributions include only those amounts actually paid by the taxpayer during the taxable year which are directly attributable to the maintenance of the student while he is a member of the taxpayer's household and is attending an educational institution on a full-time basis. This would include amounts paid to insure the well-being of the individual and to carry out the purpose for which the individual was placed in the taxpayer's home. For example, a deduction under section 170 would be allowed for amounts paid for books, tuition, food, clothing, transportation, medical and dental care, and recreation for the individual. Amounts treated as charitable contributions under this section do not include amounts which the taxpayer would have expended had the student not been in the household. They would not include, for example, amounts paid in connection with the taxpayer's home for taxes, insurance, interest on a mortgage, repairs, etc. Moreover, such amounts do not include any depreciation sustained by the taxpayer in maintaining such student or students in his household, nor do they include the value of any services rendered on behalf of such student or students by the taxpayer or any member of the taxpayer's household.

(3) For purposes of section 170(h) and this section, an individual will be considered to be a full-time pupil or student at an educational institution only if he is enrolled for a course of study prescribed for a full-time student at such institution and is attending classes on a full-time basis. Nevertheless, such individual may be absent from school due to special circumstances and still be considered to be in full-time attendance. Periods during the regular school term when the school is closed for holidays, such as Christmas and Easter, and for periods between semesters are treated as periods during which the pupil or student is in full-time attendance at the school. Also, absences during the regular school term due to illness of such individual

shall not prevent him from being considered as a full-time pupil or student. Similarly, absences from the taxpayer's household due to special circumstances will not disqualify the student as a member of the household. Summer vacations between regular school terms are not considered periods of school attendance.

(4) When claiming a deduction for amounts described in section 170(h) and this section, the taxpayer must submit with his return a copy of his agreement with the organization sponsoring the individual placed in the taxpayer's household, together with a summary of the various items for which amounts were paid to maintain such individual, and a statement as to the date the individual became a member of the household and the period of his full-time attendance at school and the name and location of such school. Substantiation of amounts claimed must be supported by adequate records of the amounts actually paid. Due to the nature of certain items, such as food, a record of amount spent for all members of the household, with an equal portion thereof allocated to each member, will be acceptable.

(b) *Limitations.* Section 170(h) and this section shall apply to amounts paid during the taxable year only to the extent that the amounts paid in maintaining each pupil or student do not exceed \$50 multiplied by the number of full calendar months in the taxable year that the pupil or student is maintained in accordance with the provisions of this section. For purposes of such limitation if 15 or more days of a calendar month fall within the period to which the maintenance of such pupil or student relates, such month is considered as a full calendar month. To the extent that such amounts qualify as charitable contributions under section 170(c), the aggregate of such amounts plus other contributions made during the taxable year for the use of an organization described in section 170(c) is deductible under section 170 subject to the limitation provided in section 170(b)(1)(B) and paragraph (c) of § 1.170A-8.

(c) *Compensation or reimbursement.* Amounts paid during the taxable year to maintain a pupil or student as a

member of the taxpayer's household as provided in paragraph (a) of this section, shall not be taken into account under section 170(h) and this section, if the taxpayer receives any money or other property as compensation or reimbursement for any portion of such amounts. The taxpayer will not be denied the benefits of section 170(h) if he prepays an extraordinary or non-recurring expense such as a hospital bill or vacation trip, at the request of the individual's parents or the sponsoring organization and is reimbursed for such prepayment. The value of services performed by the pupil or student in attending to ordinary chores of the household will generally not be considered to constitute compensation or reimbursement. However, if the pupil or student is taken into the taxpayer's household to replace a former employee of the taxpayer or gratuitously to perform substantial services for the taxpayer, the facts and circumstances may warrant a conclusion that the taxpayer received reimbursement for maintaining the pupil or student.

(d) *No other amount allowed as deduction.* Except to the extent that amounts described in section 170(h) and this section are treated as charitable contributions under section 170(c) and, therefore, deductible under section 170(a), no deduction is allowed for any amount paid to maintain an individual, as a member of the taxpayer's household, in accordance with the provisions of section 170(h) and this section.

(e) *Illustrations.* The application of this section may be illustrated by the following examples:

Example 1. The X organization is an organization described in section 170(c)(2) and is engaged in a program under which a number of European children are placed in the homes of U.S. residents in order to further the children's high school education. In accordance with paragraph (a) of this section, the taxpayer, A, who reports his income on the calendar year basis, agreed with X to take two of the children, and they were placed in the taxpayer's home on January 2, 1970, where they remained until January 21, 1971, during which time they were fully maintained by the taxpayer. The children enrolled at the local high school for the full course of study prescribed for 10th grade students and attended the school on a full-time basis for the spring semester starting January 18, 1970,

§ 1.170A-3

26 CFR Ch. I (4-1-17 Edition)

and ending June 3, 1970, and for the fall semester starting September 1, 1970, and ending January 13, 1971. The total cost of food paid by A in 1970 for himself, his wife, and the two children amounted to \$1,920, or \$40 per month for each member of the household. Since the children were actually full-time students for only 8½ months during 1970, the amount paid for food for each child during that period amounted to \$340. Other amounts paid during the 8 1/2-month period for each child for laundry, lights, water, recreation, and school supplies amounted to \$160. Thus, the amounts treated under section 170(h) and this section as paid for the use of X would, with respect to each child, total \$500 (\$340 + \$160), or a total for both children of \$1,000, subject to the limitations of paragraph (b) of this section. Since, for purposes of such limitations, the children were full-time students for only 8 full calendar months during 1970 (less than 15 days in January 1970), the taxpayer may treat only \$800 as a charitable contribution made in 1970, that is, \$50 multiplied by the 8 full calendar months, or \$400 paid for the maintenance of each child. Neither the excess payments nor amounts paid to maintain the children during the period before school opened and for the period in summer between regular school terms is taken into account by reason of section 170(h). Also, because the children were full-time students for less than 15 days in January 1971 (although maintained in the taxpayer's household for 21 days), amounts paid to maintain the children during 1971 would not qualify as a charitable contribution.

Example 2. A religious organization described in section 170(c)(2) has a program for providing educational opportunities for children it places in private homes. In order to implement the program, the taxpayer, H, who resides with his wife, son, and daughter of high school age in a town in the United States, signs an agreement with the organization to maintain a girl sponsored by the organization as a member of his household while the child attends the local high school for the regular 1970-71 school year. The child is a full-time student at the school during the school year starting September 6, 1970, and ending June 6, 1971, and is a member of the taxpayer's household during that period. Although the taxpayer pays \$200 during the school period falling in 1970, and \$240 during the school period falling in 1971, to maintain the child, he cannot claim either amount as a charitable contribution because the child's parents, from time to time during the school year, send butter, eggs, meat, and vegetables to H to help defray the expenses of maintaining the child. This is considered property received as reimbursement under paragraph (c) of this section. Had her parents not contributed the food, the fact that the child, in addition to the normal chores she shared with the taxpayer's daughter, such as cleaning

their own rooms and helping with the shopping and cooking, was responsible for the family laundry and for the heavy cleaning of the entire house while the taxpayer's daughter had no comparable responsibilities would also preclude a claim for a charitable contributions deduction. These substantial gratuitous services are considered property received as reimbursement under paragraph (c) of this section.

Example 3. A taxpayer resides with his wife in a city in the eastern United States. He agrees, in writing, with a fraternal society described in section 170(c)(4) to accept a child selected by the society for maintenance by him as a member of his household during 1971 in order that the child may attend the local grammar school as a part of the society's program to provide elementary education for certain children selected by it. The taxpayer maintains the child, who has as his principal place of abode the home of the taxpayer, and is a member of the taxpayer's household, during the entire year 1971. The child is a full-time student at the local grammar school for 9 full calendar months during the year. Under the agreement, the society pays the taxpayer \$30 per month to help maintain the child. Since the \$30 per month is considered as compensation or reimbursement to the taxpayer for some portion of the maintenance paid on behalf of the child, no amounts paid with respect to such maintenance can be treated as amounts paid in accordance with section 170(h). In the absence of the \$30 per month payments, if the child qualifies as a dependent of the taxpayer under section 152(a)(9), that fact would also prevent the maintenance payments from being treated as charitable contributions paid for the use of the fraternal society.

(f) *Effective date.* This section applies only to contributions paid in taxable years beginning after December 31, 1969.

[T.D. 7207, 37 FR 20774, Oct. 4, 1972]

§ 1.170A-3 Reduction of charitable contribution for interest on certain indebtedness.

(a) *In general.* Section 170(f)(5) requires that the amount of a charitable contribution be reduced for certain interest to the extent necessary to avoid the deduction of the same amount both as an interest deduction under section 163 and as a deduction for charitable contributions under section 170. The reduction is to be determined in accordance with paragraphs (b) and (c) of this section.

(b) *Interest attributable to postcontribution period.* In determining

the amount to be taken into account as a charitable contribution for purposes of section 170, the amount determined without regard to section 170(f)(5) or this section shall be reduced by the amount of interest which has been paid, or is to be paid, by the taxpayer, which is attributable to any liability connected with the contribution, and which is attributable to any period of time after the making of the contribution. The deduction otherwise allowable for charitable contributions under section 170 is required to be reduced pursuant to section 170(f)(5) and this section only if, in connection with a charitable contribution, a liability is assumed by the recipient of the contribution or by any other person or if the charitable contribution is of property which is subject to a liability. Thus, if a charitable contribution is made in property and the transfer is conditioned upon the assumption of a liability by the donee or by some other person, the contribution must be reduced by the amount of any interest which has been paid, or will be paid, by the taxpayer, which is attributable to the liability, and which is attributable to any period after the making of the contribution. The adjustment referred to in this paragraph must also be made where the contributed property is subject to a liability and the value of the property reflects the payment by the donor of interest with respect to a period of time after the making of the contribution.

(c) *Interest attributable to precontribution period.* If, in connection with the charitable contribution of a bond, a liability is assumed by the recipient or by any other person, or if the bond is subject to a liability, then, in determining the amount to be taken into account as a charitable contribution under section 170, the amount determined without regard to section 170(f)(5) and this section shall, without regard to whether any reduction may be required by paragraph (b) of this section, also be reduced for interest which has been paid, or is to be paid, by the taxpayer on indebtedness incurred or continued to purchase or carry such bond, and which is attributable to any period before the making of the contribution. However, the re-

duction referred to in this paragraph shall be made only to the extent that such reduction does not exceed the interest (including bond discount and other interest equivalent) receivable on the bond, and attributable to any period before the making of the contribution which is not, by reason of the taxpayer's method of accounting, includible in the taxpayer's gross income for any taxable year. For purposes of section 170(f)(5) and this section the term *bond* means any bond, debenture, note, or certificate or other evidence of indebtedness.

(d) *Illustrations.* The application of this section may be illustrated by the following examples:

Example 1. On January 1, 1970, A, a cash basis taxpayer using the calendar year as the taxable year, contributed to a charitable organization real estate having a fair market value and adjusted basis of \$10,000. In connection with the contribution the charitable organization assumed an indebtedness of \$8,000 which A had incurred. On December 31, 1969, A prepaid one year's interest on that indebtedness for 1970, amounting to \$960, and took an interest deduction of \$960 for such amount. The amount of the gift, determined without regard to this section, is \$2,960 (\$10,000 less \$8,000, the outstanding indebtedness, plus \$960, the amount of prepaid interest). In determining the amount of the deduction for the charitable contribution, the value of the gift (\$2,960) must be reduced by \$960 to eliminate from the computation of such deduction that portion thereof for which A has been allowed an interest deduction.

Example 2. (a) On January 1, 1970, B, an individual using the cash receipts and disbursements method of accounting, purchased for \$9,950 a 5½ percent \$10,000, 20-year M Corporation bond, the interest on which was payable semiannually on June 30 and December 31. The M Corporation had issued the bond on January 1, 1960, at a discount of \$720 from the principal amount. On December 1, 1970, B donated the bond to a charitable organization, and, in connection with the contribution, the charitable organization assumed an indebtedness of \$7,000 which B had incurred to purchase and carry the bond.

(b) During the calendar year 1970 B paid accrued interest of \$330 on the indebtedness for the period from January 1, 1970, to December 1, 1970, and has taken an interest deduction of \$330 for such amount. No portion of the bond discount of \$36 a year (\$720 divided by 20 years) has been included in B's income, and of the \$550 of annual interest receivable on the bond, he included in income only the June 30, 1970, payment of \$275.

§ 1.170A-4

26 CFR Ch. I (4-1-17 Edition)

(c) The market value of the bond on December 1, 1970, was \$9,902. Such value includes \$229 of interest receivable which had accrued from July 1 to December 1, 1970.

(d) The amount of the charitable contribution determined without regard to this section is \$2,902 (\$9,902, the value of the property on the date of gift, less \$7,000, the amount of the liability assumed by the charitable organization). In determining the amount of the allowable deduction for charitable contributions, the value of the gift (\$2,902) must be reduced to eliminate from the deduction that portion thereof for which B has been allowed an interest deduction. Although the amount of such interest deduction was \$330, the reduction required by this section is limited to \$262, since the reduction is not in excess of the amount of interest income on the bond (\$229 of accrued interest plus \$33, the amount of bond discount attributable to the 11-month period B held the bond).

(e) *Effective date.* This section applies only to contributions paid in taxable years beginning after December 31, 1969.

[T.D. 7207, 37 FR 20775, Oct. 4, 1972]

§ 1.170A-4 Reduction in amount of charitable contributions of certain appreciated property.

(a) *Amount of reduction.* Section 170(e)(1) requires that the amount of the charitable contribution which would be taken into account under section 170(a) without regard to section 170(e) shall be reduced before applying the percentage limitations under section 170(b):

(1) In the case of a contribution by an individual or by a corporation of ordinary income property, as defined in paragraph (b)(1) of this section, by the amount of gain (hereinafter in this section referred to as ordinary income) which would have been recognized as gain which is not long-term capital gain if the property had been sold by the donor at its fair market value at the time of its contribution to the charitable organization,

(2) In the case of a contribution by an individual of section 170(e) capital gain property, as defined in paragraph (b)(2) of this section, by 50 percent of the amount of gain (hereinafter in this section referred to as long-term capital gain) which would have been recognized as long-term capital gain if the property had been sold by the donor at its fair market value at the time of its

contribution to the charitable organization, and

(3) In the case of a contribution by a corporation of section 170(e) capital gain property, as defined in paragraph (b)(2) of this section, by 62½ percent of the amount of gain (hereinafter in this section referred to as long-term capital gain) which would have been recognized as long-term capital gain if the property had been sold by the donor at its fair market value at the time of its contribution to the charitable organization.

Section 170(e)(1) and this paragraph do not apply to reduce the amount of the charitable contribution where, by reason of the transfer of the contributed property, ordinary income or capital gain is recognized by the donor in the same taxable year in which the contribution is made. Thus, where income or gain is recognized under section 453(d) upon the transfer of an installment obligation to a charitable organization, or under section 454(b) upon the transfer of an obligation issued at a discount to such an organization, or upon the assignment of income to such an organization, section 170(e)(1) and this paragraph do not apply if recognition of the income or gain occurs in the same taxable year in which the contribution is made. Section 170(e)(1) and this paragraph apply to a charitable contribution of an interest in ordinary income property or section 170(e) capital gain property which is described in paragraph (b) of § 1.170A-6, or paragraph (b) of § 1.170A-7. For purposes of applying section 170(e)(1) and this paragraph it is immaterial whether the charitable contribution is made “to” the charitable organization or whether it is made “for the use of” the charitable organization. See § 1.170A-8(a)(2).

(b) *Definitions and other rules.* For purposes of this section:

(1) *Ordinary income property.* The term *ordinary income property* means property any portion of the gain on which would not have been long term capital gain if the property had been sold by the donor at its fair market value at the time of its contribution to the charitable organization. Such term includes, for example, property held by the donor primarily for sale to customers in the ordinary course of his

trade or business, a work of art created by the donor, a manuscript prepared by the donor, letters and memorandums prepared by or for the donor, a capital asset held by the donor for not more than 1 year (6 months for taxable years beginning before 1977; 9 months for taxable years beginning in 1977), and stock described in section 306(a), 341(a), or 1248(a) to the extent that, after applying such section, gain on its disposition would not have been long-term capital gain. The term does not include an income interest in respect of which a deduction is allowed under section 170(f)(2)(B) and paragraph (c) of § 1.170A-6.

(2) *Section 170(e) capital gain property.* The term *section 170(e) capital gain property* means property any portion of the gain on which would have been treated as long-term capital gain if the property had been sold by the donor at its fair market value at the time of its contribution to the charitable organization and which:

(i) Is contributed to or for the use of a private foundation, as defined in section 509(a) and the regulations thereunder, other than a private foundation described in section 170(b)(1)(E),

(ii) Constitutes tangible personal property contributed to or for the use of a charitable organization, other than a private foundation to which subdivision (i) of this subparagraph applies, which is put to an unrelated use by the charitable organization within the meaning of subparagraph (3) of this paragraph, or

(iii) Constitutes property not described in subdivision (i) or (ii) of this subparagraph which is 30-percent capital gain property to which an election under paragraph (d)(2) of § 1.170A-8 applies.

For purposes of this subparagraph a fixture which is intended to be severed from real property shall be treated as tangible personal property.

(3) *Unrelated use—(i) In general.* The term *unrelated use* means a use which is unrelated to the purpose or function constituting the basis of the charitable organization's exemption under section 501 or, in the case of a contribution of property to a governmental unit, the use of such property by such unit for other than exclusively public purposes.

For example, if a painting contributed to an educational institution is used by that organization for educational purposes by being placed in its library for display and study by art students, the use is not an unrelated use; but if the painting is sold and the proceeds used by the organization for educational purposes, the use of the property is an unrelated use. If furnishings contributed to a charitable organization are used by it in its offices and buildings in the course of carrying out its functions, the use of the property is not an unrelated use. If a set or collection of items of tangible personal property is contributed to a charitable organization or governmental unit, the use of the set or collection is not an unrelated use if the donee sells or otherwise disposes of only an insubstantial portion of the set or collection. The use by a trust of tangible personal property contributed to it for the benefit of a charitable organization is an unrelated use if the use by the trust is one which would have been unrelated if made by the charitable organization.

(ii) *Proof of use.* For purposes of applying subparagraph (2)(ii) of this paragraph, a taxpayer who makes a charitable contribution of tangible personal property to or for the use of a charitable organization or governmental unit may treat such property as not being put to an unrelated use by the donee if:

(a) He establishes that the property is not in fact put to an unrelated use by the donee, or

(b) At the time of the contribution or at the time the contribution is treated as made, it is reasonable to anticipate that the property will not be put to an unrelated use by the donee. In the case of a contribution of tangible personal property to or for the use of a museum, if the object donated is of a general type normally retained by such museum or other museums for museum purposes, it will be reasonable for the donor to anticipate, unless he has actual knowledge to the contrary, that the object will not be put to an unrelated use by the donee, whether or not the object is later sold or exchanged by the donee.

(4) *Property used in trade or business.* For purposes of applying subparagraphs (1) and (2) of this paragraph, property which is used in the trade or business, as defined in section 1231(b), shall be treated as a capital asset, except that any gain in respect of such property which would have been recognized if the property had been sold by the donor at its fair market value at the time of its contribution to the charitable organization shall be treated as ordinary income to the extent that such gain would have constituted ordinary income by reason of the application of section 617 (d)(1), 1245(a), 1250(a), 1251(c), 1252(a), or 1254(a).

(5) *Nonresident alien individuals and foreign corporations.* The reduction in the case of a nonresident alien individual or a foreign corporation shall be determined by taking into account the gain which would have been recognized and subject to tax under chapter 1 of the Code if the property had been sold or disposed of within the United States by the donor at its fair market value at the time of its contribution to the charitable organization. However, the amount of such gain which would have been subject to tax under section 871(a) or 881 (relating to gain not effectively connected with the conduct of a trade or business within the United States) if there had been a sale or other disposition within the United States shall be treated as long-term capital gain. Thus, a charitable contribution by a nonresident alien individual or a foreign corporation of property the sale or other disposition of which within the United States would have resulted in gain subject to tax under section 871(a) or 881 will be reduced only as provided in section 170(e)(1)(B) and paragraph (a)(2) or (3) of this section, but only if the property contributed is described in subdivision (i), (ii), or (iii) of subparagraph (2) of this paragraph. A charitable contribution by a nonresident alien individual or a foreign corporation of property the sale or other disposition of which within the United States would have resulted in gain subject to tax under section 871(a) or 881 will in no case be reduced under section 170(e)(1)(A) and paragraph (a)(1) of this section.

(c) *Allocation of basis and gain*—(1) *In general.* Except as provided in subparagraph (2) of this paragraph:

(i) If a taxpayer makes a charitable contribution of less than his entire interest in appreciated property, whether or not the transfer is made in trust, as, for example, in the case of a transfer of appreciated property to a pooled income fund described in section 642(c)(5) and § 1.642(c)-5, and is allowed a deduction under section 170 for a portion of the fair market value of such property, then for purposes of applying the reduction rules of section 170(e)(1) and this section to the contributed portion of the property the taxpayer's adjusted basis in such property at the time of the contribution shall be allocated under section 170(e)(2) between the contributed portion of the property and the noncontributed portion.

(ii) The adjusted basis of the contributed portion of the property shall be that portion of the adjusted basis of the entire property which bears the same ratio to the total adjusted basis as the fair market value of the contributed portion of the property bears to the fair market value of the entire property.

(iii) The ordinary income and the long-term capital gain which shall be taken into account in applying section 170(e)(1) and paragraph (a) of this section to the contributed portion of the property shall be the amount of gain which would have been recognized as ordinary income and long-term capital gain if such contributed portion had been sold by the donor at its fair market value at the time of its contribution to the charitable organization.

(2) *Bargain sale.* (i) Section 1011(b) and § 1.1011-2 apply to bargain sales of property to charitable organizations. For purposes of applying the reduction rules of section 170(e)(1) and this section to the contributed portion of the property in the case of a bargain sale, there shall be allocated under section 1011(b) to the contributed portion of the property that portion of the adjusted basis of the entire property that bears the same ratio to the total adjusted basis as the fair market value of the contributed portion of the property bears to the fair market value of the

entire property. For purposes of applying section 170(e)(1) and paragraph (a) of this section to the contributed portion of the property in such a case, there shall be allocated to the contributed portion the amount of gain that is not recognized on the bargain sale but that would have been recognized if such contributed portion had been sold by the donor at its fair market value at the time of its contribution to the charitable organization.

(ii) The term *bargain sale*, as used in this subparagraph, means a transfer of property which is in part a sale or exchange of the property and in part a charitable contribution, as defined in section 170(c), of the property.

(3) *Ratio of ordinary income and capital gain.* For purposes of applying subparagraphs (1)(iii) and (2)(i) of this paragraph, the amount of ordinary income (or long-term capital gain) which would have been recognized if the contributed portion of the property had been sold by the donor at its fair market value at the time of its contribution shall be that amount which bears the same ratio to the ordinary income (or long-term capital gain) which would have been recognized if the entire property had been sold by the donor at its fair market value at the time of its contribution as (i) the fair market value of the contributed portion at such time bears to (ii) the fair market value of the entire property at such time. In the case of a bargain sale, the fair market value of the contributed portion for purposes of subdivision (i) is the amount determined by subtracting from the fair market value of the entire property the amount realized on the sale.

(4) *Donee's basis of property acquired.* The adjusted basis of the contributed portion of the property, as determined under subparagraph (1) or (2) of this paragraph, shall be used by the donee in applying to the contributed portion such provisions as section 514(a)(1), relating to adjusted basis of debt-financed property; section 1015(a), relating to basis of property acquired by gift; section 4940(c)(4), relating to capital gains and losses in determination of net investment income; and section 4942(f)(2)(B), relating to net short-term capital gain in determination of tax on

failure to distribute income. The fair market value of the contributed portion of the property at the time of the contribution shall not be used by the donee as the basis of such contributed portion.

(d) *Illustrations.* The application of this section may be illustrated by the following examples:

Example 1. (a) On July 1, 1970, C, an individual, makes the following charitable contributions, all of which are made to a church except in the case of the stock (as indicated):

Property	Fair market value	Adjusted basis	Recognized gain sold
Ordinary income property	\$50,000	\$35,000	\$15,000
Property which, if sold, would produce long-term capital gain:			
(1) Stock held more than 6 months contributed to—			
(i) A church	25,000	21,000	4,000
(ii) A private foundation not described in section 170(b)(1)(E)	15,000	10,000	5,000
(2) Tangible personal property held more than 6 months (put to unrelated use by church)	12,000	6,000	6,000
Total	102,000	72,000	30,000

(b) After making the reductions required by paragraph (a) of this section, the amount of charitable contributions allowed (before application of section 170(b) limitations) is as follows:

Property	Fair market value	Reduction	Contribution allowed
Ordinary income property	\$50,000	\$15,000	\$35,000
Property which, if sold, would produce long-term capital gain:			
(1) Stock contributed to:			
(i) The church	25,000	25,000
(ii) The private foundation	15,000	2,500	12,500
(2) Tangible personal property	12,000	3,000	9,000
Total	102,000	20,500	81,500

(c) If C were a corporation, rather than an individual, the amount of charitable contributions allowed (before application of section 170(b) limitation) would be as follows:

Property	Fair market value	Reduction	Contribution allowed
Ordinary income property	\$50,000	\$15,000	\$35,000

§ 1.170A-4

26 CFR Ch. I (4-1-17 Edition)

Property	Fair market value	Reduction	Contribution allowed
Property which, if sold, would produce long-term capital gain:			
(1) Stock contributed to:			
(i) The church	25,000		25,000
(ii) The private foundation	15,000	3,125	11,875
(2) Tangible personal property	12,000	3,750	8,250
Total	102,000	21,875	80,125

Example 2. On March 1, 1970, D, an individual, contributes to a church intangible property to which section 1245 applies which has a fair market value of \$60,000 and an adjusted basis of \$10,000. At the time of the contribution D has used the property in his business for more than 6 months. If the property had been sold by D at its fair market value at the time of its contribution, it is assumed that under section 1245 \$20,000 of the gain of \$50,000 would have been treated as ordinary income and \$30,000 would have been long-term capital gain. Under paragraph (a)(1) of this section, D's contribution of \$60,000 is reduced by \$20,000.

Example 3. The facts are the same as in *Example 2* except that the property is contributed to a private foundation not described in section 170(b)(1)(E). Under paragraph (a) (1) and (2) of this section, D's contribution is reduced by \$35,000 (100 percent of the ordinary income of \$20,000 and 50 percent of the long-term capital gain of \$30,000).

Example 4. (a) In 1971, E, an individual calendar-year taxpayer, contributes to a church stock held for more than 6 months which has a fair market value of \$90,000 and an adjusted basis of \$10,000. In 1972, E also contributes to a church stock held for more than 6 months which has a fair market value of \$20,000 and an adjusted basis of \$10,000. E's contribution base for 1971 is \$200,000; and for 1972, is \$150,000. E makes no other charitable contributions for these 2 taxable years.

(b) For 1971 the amount of the contribution which may be taken into account under section 170(a) is limited by section 170(b)(1)(D)(i) to \$60,000 (\$200,000 × 30%), and A is allowed a deduction for \$60,000. Under section 170(b)(1)(D)(ii), E has a \$30,000 carryover to 1972 of 30-percent capital gain property, as defined in paragraph (d)(3) of § 1.170A-8. For 1972 the amount of the charitable contributions deduction is \$45,000 (total contributions of \$50,000 [\$30,000 + \$20,000] but not to exceed 30% of \$150,000).

(c) Assuming, however, that in 1972 E elects under section 170(b)(1)(D)(iii) and paragraph (d)(2) of § 1.170A-8 to have section 170(e)(1)(B) apply to his contributions and carryovers of 30-percent capital gain property, he must apply section 170(d)(1) as if section 170(e)(1)(B) had applied to the contribu-

tion for 1971. If section 170 (e)(1)(B) had applied in 1971 to his contributions of 30-percent capital gain property, E's contribution would have been reduced from \$90,000 to \$50,000, the reduction of \$40,000 being 50 percent of the gain of \$80,000 (\$90,000 - \$10,000) which would have been recognized as long-term capital gain if the property had been sold by E at its fair market value at the time of its contribution to the church. Accordingly, by taking the election into account, E has no carryover of 30-percent capital gain property to 1972 since the charitable contributions deduction of \$60,000 allowed for 1971 in respect of that property exceeds the reduced contribution of \$50,000 for 1971 which may be taken into account by reason of the election. The charitable contributions deduction of \$60,000 allowed for 1971 is not reduced by reason of the election.

(d) Since by reason of the election E is allowed under paragraph (a)(2) of this section a charitable contributions deduction for 1972 of \$15,000 (\$20,000 - [(\$20,000 - \$10,000) × 50%]) and since the \$30,000 carryover from 1971 is eliminated, it would not be to E's advantage to make the election under section 170(b)(1)(D)(iii) in 1972.

Example 5. In 1970, F, an individual calendar-year taxpayer, sells to a church for \$4,000 ordinary income property with a fair market value of \$10,000 and an adjusted basis of \$4,000. F's contribution base for 1970 is \$20,000, and F makes no other charitable contributions in 1970. Thus, F makes a charitable contribution to the church of \$6,000 (\$10,000 - \$4,000 amount realized), which is 60% of the value of the property. The amount realized on the bargain sale is 40% (\$4,000/\$10,000) of the value of the property. In applying section 1011(b) to the bargain sale, adjusted basis in the amount of \$1,600 (\$4,000 adjusted basis × 40%) is allocated under § 1.1011-2(b) to the noncontributed portion of the property, and F recognizes \$2,400 (\$4,000 amount realized less \$1,600 adjusted basis) of ordinary income. Under paragraphs (a)(1) and (c)(2)(i) of this section, F's contribution of \$6,000 is reduced by \$3,600 (\$6,000 - [\$4,000 adjusted basis × 60%]) (i.e., the amount of ordinary income that would have been recognized on the contributed portion had the property been sold). The reduced contribution of \$2,400 consists of the portion (\$4,000 × 60%) of the adjusted basis not allocated to the noncontributed portion of the property. That is, the reduced contribution consists of the portion of the adjusted basis allocated to the contributed portion. Under sections 1012 and 1015(a) the basis of the property to the church is \$6,400 (\$4,000 + \$2,400).

Example 6. In 1970, G, an individual calendar-year taxpayer, sells to a church for \$6,000 ordinary income property with a fair market value of \$10,000 and an adjusted basis of \$4,000. G's contribution base for 1970 is

\$20,000, and G makes no other charitable contributions in 1970. Thus, G makes a charitable contribution to the church of \$4,000 (\$10,000 - \$6,000 amount realized), which is 40% of the value of the property. The amount realized on the bargain sale is 60% (\$6,000 / \$10,000) of the value of the property. In applying section 1011(b) to the bargain sale, adjusted basis in the amount of \$2,400 (\$4,000 adjusted basis \times 60%) is allocated under § 1.1011-2(b) to the noncontributed portion of the property, and G recognizes \$3,600 (\$6,000 amount realized less \$2,400 adjusted basis) of ordinary income. Under paragraphs (a)(1) and (c)(2)(i) of this section, G's contribution of \$4,000 is reduced by \$2,400 (\$4,000 - [\$4,000 adjusted basis \times 40%]) (i.e., the amount of ordinary income that would have been recognized on the contributed portion had the property been sold). The reduced contribution of \$1,600 consist of the portion (\$4,000 \times 40%) of the adjusted basis not allocated to the noncontributed portion of the property. That is, the reduced contribution consists of the portion of the adjusted basis allocated to the contributed portion. Under sections 1012 and 1015(a) the basis of the property to the church is \$7,600 (\$6,000 + \$1,600).

Example 7. In 1970, H, an individual calendar-year taxpayer, sells to a church for \$2,000 stock held for not more than 6 months which has an adjusted basis of \$4,000 and a fair market value of \$10,000. H's contribution base for 1970 is \$20,000, and H makes no other charitable contributions in 1970. Thus, H makes a charitable contribution to the church of \$8,000 (\$10,000 - \$2,000 amount realized), which is 80% of the value of the property. The amount realized on the bargain sale is 20% (\$2,000 / \$10,000) of the value of the property. In applying section 1011(b) to the bargain sale, adjusted basis in the amount of \$800 (\$4,000 adjusted basis \times 20%) is allocated under § 1.1011-2(b) to the noncontributed portion of the property, and H recognizes \$1,200 (\$2,000 amount realized less \$800 adjusted basis) of ordinary income. Under paragraphs (a)(1) and (c)(2)(i) of this section, H's contribution of \$8,000 is reduced by \$4,800 (\$8,000 - [\$4,000 adjusted basis \times 80%]) (i.e., the amount of ordinary income that would have been recognized on the contributed portion had the property been sold). The reduced contribution of \$3,200 consists of the portion (\$4,000 \times 80%) of the adjusted basis not allocated to the noncontributed portion of the property. That is, the reduced contribution consists of the portion of the adjusted basis allocated to the contributed portion. Under sections 1012 and 1015(a) the basis of the property to the church is \$5,200 (\$2,000 + \$3,200).

Example 8. In 1970, F, an individual calendar-year taxpayer, sells for \$4,000 to a private foundation not described in section 170(b)(1)(E) property to which section 1245 applies which has a fair market value of \$10,000

and an adjusted basis of \$4,000. F's contribution base for 1970 is \$20,000, and F makes no other charitable contributions in 1970. At the time of the bargain sale, F has used the property in his business for more than 6 months. Thus F makes a charitable contribution of \$6,000 (\$10,000 - \$4,000 amount realized), which is 60% of the value of the property. The amount realized on the bargain sale is 40% (\$4,000/\$10,000) of the value of the property. If the property had been sold by F at its fair market value at the time of its contribution, it is assumed that under section 1245 \$4,000 of the gain of \$6,000 (\$10,000 - \$4,000 adjusted basis) would have been treated as ordinary income and \$2,000 would have been long-term capital gain. In applying section 1011(b) to the bargain sale, adjusted basis in the amount of \$1,600 (\$4,000 adjusted basis \times 40%) is allocated under § 1.1011-2(b) to the noncontributed portion of the property, and F's recognized gain of \$2,400 (\$4,000 amount realized less \$1,600 adjusted basis) consists of \$1,600 (\$4,000 \times 40%) of ordinary income and \$800 (\$2,000 \times 40%) of long-term capital gain. Under paragraphs (a) and (c)(2)(i) of this section, F's contribution of \$6,000 is reduced by \$3,000 (the sum of \$2,400 (\$4,000 \times 60%) of ordinary income and \$600 ([\$2,000 \times 60%] \times 50%) of long-term capital gain) (i.e., the amount of gain that would have been recognized on the contributed portion had the property been sold). The reduced contribution of \$3,000 consists of \$2,400 (\$4,000 \times 60%) of adjusted basis and \$600 ([\$2,000 \times 60%] \times 50%) of long-term capital gain not used as a reduction under paragraph (a)(2) of this section. Under sections 1012 and 1015(a) the basis of the property to the private foundation is \$6,400 (\$4,000 + \$2,400).

Example 9. On January 1, 1970, A, an individual, transfers to a charitable remainder annuity trust described in section 664 (d)(1) stock which he has held for more than 6 months and which has a fair market value of \$250,000 and an adjusted basis of \$50,000, an irrevocable remainder interest in the property being contributed to a private foundation not described in section 170(b)(1)(E). The trusts provides that an annuity of \$12,500 a year is payable to A at the end of each year for 20 years. By reference to § 20.2031-7A(c) of this chapter (Estate Tax Regulations) the figure in column (2) opposite 20 years is 11.4699. Therefore, under § 1.664-2 the fair market value of the gift of the remainder interest to charity is \$106,626.25 (\$250,000 - [\$12,500 \times 11.4699]). Under paragraph (c)(1)(ii) of this section, the adjusted basis allocated to the contributed portion of the property is \$21,325.25 (\$50,000 \times \$106,626.25/\$250,000). Under paragraphs (a)(2) and (c)(1) of this section, A's contribution is reduced by \$42,650.50 (50 percent \times [\$106,626.25 - \$21,325.25]) to \$63,975.75 (\$106,626.25 - \$42,650.50). If, however, the irrevocable remainder interest in the property had been contributed to a section 170(b)(1)(A)

§ 1.170A-4A

26 CFR Ch. I (4-1-17 Edition)

organization, A's contribution of \$106,626.25 would not be reduced under paragraph (a) of this section.

Example 10. (a) On July 1, 1970, B, a calendar-year individual taxpayer, sells to a church for \$75,000 intangible property to which section 1245 applies which has a fair market value of \$250,000 and an adjusted basis of \$75,000. Thus, B makes a charitable contribution to the church of \$175,000 (\$250,000 - \$75,000 amount realized), which is 70% (\$175,000/\$250,000) of the value of the property, the amount realized on the bargain sale is 30% (\$75,000/\$250,000) of the value of the property. At the time of the bargain sale, B has used the property in his business for more than 6 months. B's contribution base for 1970 is \$500,000, and B makes no other charitable contributions in 1970. If the property had been sold by B at its fair market value at the time of its contribution, it is assumed that under section 1245 \$105,000 of the gain of \$175,000 (\$250,000 - \$75,000 adjusted basis) would have been treated as ordinary income and \$70,000 would have been long-term capital gain. In applying section 1011(b) to the bargain sale, adjusted basis in the amount of \$22,500 (\$75,000 adjusted basis × 30%) is allocated under § 1.1011-2(b) to the noncontributed portion of the property and B's recognized gain of \$52,500 (\$75,000 amount realized less \$22,500 adjusted basis) consists of \$31,500 (\$105,000 × 30%) of ordinary income and \$21,000 (\$70,000 × 30%) of long term capital gain.

(b) Under paragraphs (a)(1) and (c)(2)(i) of this section B's contribution of \$175,000 is reduced by \$73,500 (\$105,000 × 70%) (i.e., the amount of ordinary income that would have been recognized on the contributed portion had the property been sold). The reduced contribution of \$101,500 consists of \$52,500 [\$75,000 × 70%] of adjusted basis allocated to the contributed portion of the property and \$49,000 [\$70,000 × 70%] of long-term capital gain allocated to the contributed portion. Under sections 1012 and 1015(a) the basis of the property to the church is \$127,500 (\$75,000 + \$52,500).

(e) *Effective date.* This section applies only to contributions paid after December 31, 1969, except that, in the case of a charitable contribution of a letter, memorandum, or property similar to a letter or memorandum, it applies to contributions paid after July 25, 1969.

[T.D. 7207, 37 FR 20776, Oct. 4, 1972; 37 FR 22982, Oct. 27, 1972, as amended by T.D. 7728, 45 FR 72650, Nov. 3, 1980; T.D. 7807, 47 FR 4510, Feb. 1, 1982; T.D. 8176, 53 FR 5569, Feb. 25, 1988; T.D. 8540, 59 FR 30102, June 10, 1994]

§ 1.170A-4A Special rule for the deduction of certain charitable contributions of inventory and other property.

(a) *Introduction.* Section 170(e)(3) provides a special rule for the deduction of certain qualified contributions of inventory and certain other property. To be treated as a "qualified contribution", a contribution must meet the restrictions and requirements of section 170(e)(3)(A) and paragraph (b) of this section. Paragraph (b)(1) of this section describes the corporations whose contributions may be subject to this section, the exempt organizations to which these contributions may be made, and the kinds of property which may be contributed. Under paragraph (b)(2) of this section, the use of the property must be related to the purpose or function constituting the ground for the exemption of the organization to which the contribution is made. Also, the property must be used for the care of the ill, needy, or infants. Under paragraph (b)(3) of this section, the recipient organization may not, except as there provided, require or receive in exchange money, property, or services for the transfer or use of property contributed under section 170(e)(3). Under paragraph (b)(4) of this section, the recipient organization must provide the contributing taxpayer with a written statement representing that the organization intends to comply with the restrictions set forth in paragraph (b) (2) and (3) of this section on the use and transfer of the property. Under paragraph (b)(5) of this section, the contributed property must conform to any applicable provisions of the Federal Food, Drug, and Cosmetic Act (as amended), and the regulations thereunder, at the date of contribution and for the immediately preceding 180 days. Paragraph (c) of this section provides the rules for determining the amount of reduction of the charitable contribution under section 170(e)(3). In general, the amount of the reduction is equal to one-half of the amount of gain (other than gain described in paragraph (d) of this section) which would not have been long-term capital gain if the property had been sold by the donor-taxpayer at fair market value at the

date of contribution. If, after this reduction, the amount of the deduction would be more than twice the basis of the contributed property, the amount of the deduction is accordingly further reduced under paragraph (c)(1) of this section. The basis of contributed property which is inventory is determined under paragraph (c)(2) of this section, and the donor's cost of goods sold for the year of contribution must be adjusted under paragraph (c)(3) of this section. Under paragraph (d) of this section, a deduction is not allowed for any amount which, if the property had been sold by the donor-taxpayer, would have been gain to which the recapture provisions of section 617, 1245, 1250, 1251, or 1252 would have applied. For purposes of section 170(e)(3) the rules of § 1.170A-4 apply where not inconsistent with the rules of this section.

(b) *Qualified contributions*—(1) *In general*. A contribution of property qualifies under section 170(e)(3) of this section only if it is a charitable contribution:

(i) By a corporation, other than a corporation which is an electing small business corporation within the meaning of section 1371(b);

(ii) To an organization described in section 501(c)(3) and exempt under section 501(a), other than a private foundation, as defined in section 509(a), which is not an operating foundation, as defined in section 4942(j)(e);

(iii) Of property described in section 1221 (1) or (2);

(iv) Which contribution meets the restrictions and requirements of paragraph (b) (2) through (5) of this section.

(2) *Restrictions on use of contributed property*. In order for the contribution to qualify under this section, the contributed property is subject to the following restrictions in use. If the transferred property is used or transferred by the donee organization (or by any subsequent transferee that furnished to the donee organization the written statement described in paragraph (b)(4)(ii) of this section) in a manner inconsistent with the requirements of subdivision (i) or (ii) of this paragraph (b)(2) or the requirements of paragraph (b)(3) of this section, the donor's deduction is reduced to the amount allowable under section 170 of the regula-

tions thereunder, determined without regard to section 170(e)(3) of this section. If, however, the donor establishes that, at the time of the contribution, the donor reasonably anticipated that the property would be used in a manner consistent with those requirements, then the donor's deduction is not reduced.

(i) *Requirement of use for exempt purpose*. The use of the property must be related to the purpose or function constituting the ground for exemption under section 501(c)(3) of the organization to which the contribution is made. The property may not be used in connection with any activity which gives rise to unrelated trade or business income, as defined in sections 512 and 513 and the regulations thereunder.

(ii) *Requirement of use for care of the ill, needy, or infants*—(A) *In general*. The property must be used for the care of the ill, needy, or infants, as defined in this subdivision (ii). The property itself must ultimately either be transferred to (or for the use of) the ill, needy, or infants for their care or be retained for their care. No other person may use the contributed property except as incidental to primary use in the care of the ill, needy, or infants. The organization may satisfy the requirement of this subdivision by transferring the property to a relative, custodian, parent or guardian of the ill or needy individual or infant, or to any other individual if it makes a reasonable effort to ascertain that the property will ultimately be used primarily for the care of the ill or needy individual, or infant, and not for the primary benefit of any other person. The recipient organization may transfer the property to another exempt organization within the jurisdiction of the United States which meets the description contained in paragraph (b)(1)(ii) of this section, or to an organization not within the jurisdiction of the United States that, but for the fact that it is not within the jurisdiction of the United States, would be described in paragraph (b)(1)(ii) of this section. If an organization transfers the property to another organization, the transferring organization must obtain a written statement from the transferee organization as set forth in paragraph (b)(4) of this section. If

the property is ultimately transferred to, or used for the benefit of, ill or needy persons, or infants, not within the jurisdiction of the United States, the organization which so transfers the property outside the jurisdiction of the United States must necessarily be a corporation. See section 170(c)(2) and § 1.170A-11(a). For purposes of this subdivision, if the donee-organization charges for its transfer of contributed property (other than a fee allowed by paragraph (b)(3)(ii) of this section), the requirement of this subdivision is not met. See paragraph (b)(3) of this section.

(B) *Definition of the ill.* An ill person is a person who requires medical care within the meaning of § 1.213-1(e). Examples of ill persons include a person suffering from physical injury, a person with a significant impairment of a bodily organ, a person with an existing handicap, whether from birth or later injury, a person suffering from malnutrition, a person with a disease, sickness, or infection which significantly impairs physical health, a person partially or totally incapable of self-care (including incapacity due to old age). A person suffering from mental illness is included if the person is hospitalized or institutionalized for the mental disorder, or, although the person is non-hospitalized or noninstitutionalized, if the person's mental illness constitutes a significant health impairment.

(C) *Definition of care of the ill.* Care of the ill means alleviation or cure of an existing illness and includes care of the physical, mental, or emotional needs of the ill.

(D) *Definition of the needy.* A needy person is a person who lacks the necessities of life, involving physical, mental, or emotional well-being, as a result of poverty or temporary distress. Examples of needy persons include a person who is financially impoverished as a result of low income and lack of financial resources, a person who temporarily lacks food or shelter (and the means to provide for it), a person who is the victim of a natural disaster (such as fire or flood), a person who is the victim of a civil disaster (such as a civil disturbance), a person who is temporarily not self-sufficient as a result of a sudden and severe personal or fam-

ily crisis (such as a person who is the victim of a crime of violence or who has been physically abused), a person who is a refugee or immigrant and who is experiencing language, cultural, or financial difficulties, a minor child who is not self-sufficient and who is not cared for by a parent or guardian, and a person who is not self-sufficient as a result of previous institutionalization (such as a former prisoner or a former patient in a mental institution).

(E) *Definition of care of the needy.* Care of the needy means alleviation or satisfaction of an existing need. Since a person may be needy in some respects and not needy in other respects, care of the needy must relate to the particular need which causes the person to be needy. For example, a person whose temporary need arises from a natural disaster may need temporary shelter and food but not recreational facilities.

(F) *Definition of infant.* An infant is a minor child (as determined under the laws of the jurisdiction in which the child resides).

(G) *Definition of care of an infant.* Care of an infant means performance of parental functions and provision for the physical, mental, and emotional needs of the infant.

(3) *Restrictions on Transfer of contributed property*—(i) *In general.* Except as otherwise provided in subdivision (ii) of this paragraph (b)(3), a contribution will not qualify under this section, if the donee-organization or any transferee of the donee-organization requires or receives any money, property, or services for the transfer or use of property contributed under section 170(e)(3). For example, if an organization provides temporary shelter for a fee, and also provides free meals to ill or needy individuals, or infants using food contributed under this section the contribution of food is subject to this section (if the other requirements of this section are met). However, the fee charged by the organization for the shelter may not be increased merely because meals are served to the ill or needy individuals or infants.

(ii) *Exception.* A contribution may qualify under this section if the donee-organization charges a fee to another

organization in connection with its transfer of the donated property, if:

(A) The fee is small or nominal in relation to the value of the transferred property and is not determined by this value; and

(B) The fee is designed to reimburse the donee-organization for its administrative, warehousing, or other similar costs.

For example, if a charitable organization (such as a food bank) accepts surplus food to distribute to other charities which give the food to needy persons, a small fee may be charged to cover administrative, warehousing, and other similar costs. This fee may be charged on the basis of the total number of pounds of food distributed to the transferee charity but not on the basis of the value of the food distributed. The provisions of this subdivision (ii) do not apply to a transfer of donated property directly from an organization to ill or needy individuals, or infants.

(4) *Requirement of a written statement*—(i) *Furnished to taxpayer*. In the case of any contribution made on or after March 3, 1982, the donee-organization must furnish to the taxpayer a written statement which:

(A) Describes the contributed property, stating the date of its receipt;

(B) Represents that the property will be used in compliance with section 170(e)(3) and paragraphs (b) (2) and (3) of this section;

(C) Represents that the donee-organization meets the requirements of paragraph (b)(1)(ii) of this section; and

(D) Represents that adequate books and records will be maintained, and made available to the Internal Revenue Service upon request.

The written statement must be furnished within a reasonable period after the contribution, but not later than the date (including extensions) by which the donor is required to file a United States corporate income tax return for the year in which the contribution was made. The books and records described in (D) of this subdivision (i) need not trace the receipt and disposition of specific items of donated property if they disclose compliance with the requirements by reference to aggregate quantities of donated property. The books and records are ade-

quate if they reflect total amounts received and distributed (or used), and outline the procedure used for determining that the ultimate recipient of the property is an ill or needy individual, or infant. However, the books and records need not reflect the names of the ultimate individual recipients or the property distributed to (or used by) each one.

(ii) *Furnished to transferring organization*. If an organization that received a contribution under this section transfers the contributed property to another organization on or after March 3, 1982, the transferee organization must furnish to the transferring organization a written statement which contains the information required in paragraph (b)(4)(i) (A), (B) and (D) of this section. The statement must also represent that the transferee organization meets the requirements of paragraph (b)(1)(ii) of this section (or, in the case of a transferee organization which is a foreign organization not within the jurisdiction of the United States, that, but for such fact, the organization would meet the requirements of paragraph (b)(1)(ii) of this section). The written statement must be furnished within a reasonable period after the transfer.

(5) *Requirement of compliance with the Federal Food, Drug, and Cosmetic Act*—(i) *In general*. With respect to property contributed under this section which is subject to the Federal Food, Drug, and Cosmetic Act (as amended), and regulations thereunder, the contributed property must comply with the applicable provisions of that Act and regulations thereunder at the date of the contribution and for the immediately preceding 180 days. In the case of specific items of contributed property not in existence for the entire period of 180 days immediately preceding the date of contribution, the requirement of this paragraph (b)(5) is considered met if the contributed property complied with that Act and the regulations thereunder during the period of its existence and at the date of contribution and if, for the 180 day period prior to contribution other property (if any) held by the taxpayer at any time during that period, which property was fungible with the contributed property, complied with that Act

and the regulations thereunder during the period held by the taxpayer.

(ii) *Example.* The rule of this paragraph (b)(5) may be illustrated by the following example.

Example. Corporation X a grocery store, contributes 12 crates of navel oranges. The oranges were picked and placed in the grocery store's stock two weeks prior to the date of contribution. The contribution satisfies the requirements of this paragraph (b)(5) if X complied with the Act and regulations thereunder for 180 days prior to the date of contribution with respect to all navel oranges in stock during that period.

(c) *Amount of reduction—(1) In general.* Section 170(e)(3)(B) requires that the amount of the charitable contribution subject to this section which would be taken into account under section 170(a), without regard to section 170(e), must be reduced before applying the percentage limitations under section 170(b). The amount of the first reduction is equal to one-half of the amount of gain which would not have been long-term capital gain if the property had been sold by the donor-taxpayer at its fair market value on the date of its contribution, excluding, however, any amount described in paragraph (d) of this section. If the amount of the charitable contribution which remains after this reduction exceeds twice the basis of the contributed property, then the amount of the charitable contribution is reduced a second time to an amount which is equal to twice the amount of the basis of the property.

(2) *Basis of contributed property which is inventory.* For the purposes of this section, notwithstanding the rules of § 1.170A-1(c)(4), the basis of contributed property which is inventory must be determined under the donor's method of accounting for inventory for purposes of United States income tax. The donor must use as the basis of the contributed item the inventoriable carrying cost assigned to any similar item not included in closing inventory. For example, under the LIFO dollar value method of accounting for inventory, where there has been an invasion of a prior year's layer, the donor may choose to treat the item contributed as having a basis of the unit's cost with reference to the layer(s) of prior

year(s) cost or with reference to the current year cost.

(3) *Adjustment to cost of goods sold.* Notwithstanding the rules of § 1.170A-1(c)(4), the donor of the property which is inventory contributed under this section must make a corresponding adjustment to cost of goods sold by decreasing the cost of goods sold by the lesser of the fair market value of the contributed item or the amount of basis determined under paragraph (c)(2) of this section.

(4) *Examples.* The rules of this paragraph (c) may be illustrated by the following examples:

Example 1. During 1978 corporation X, a calendar year taxpayer, makes a qualified contribution of women's coats which were section 1221(1) property. The fair market value of the property at the date of contribution is \$1,000, and the basis of the property is \$200. The amount of the charitable contribution which would be taken into account under section 170(a) is the fair market value (\$1,000). The amount of gain which would not have been long-term capital gain if the property had been sold is \$800 (\$1,000 - \$200). The amount of the contribution is reduced by one-half the amount which would not have been capital gain if the property had been sold (\$800/2 = \$400).

After this reduction, the amount of the contribution which may be taken into account is \$600 (\$1,000 - \$400). A second reduction is made in the amount of the charitable contribution because this amount (as first reduced to \$600) is more than \$400 which is an amount equal to twice the basis of the property. The amount of the further reduction is \$200 [\$600 - (2 × \$200)], and the amount of the contribution as finally reduced is \$400 [\$1,000 - (\$400 + \$200)]. X would also have to decrease its cost of goods sold for the year of contribution by \$200.

Example 2. Assume the same facts as set forth in *Example 1* except that the basis of the property is \$600. The amount of the first reduction is \$200 ((\$1,000 - \$600)/2).

As reduced, the amount of the contribution which may be taken into account is \$800 (\$1,000 - \$200). There is no second reduction because \$800 is less than \$1,200 which is twice the basis of the property. However, X would have to decrease its cost of goods sold for the year of contribution by \$600.

(d) *Recapture excluded.* A deduction is not allowed under section 170(e)(3) or this section for any amount which, if the property had been sold by the donor-taxpayer on the date of its contribution for an amount equal to its fair market value, would have been

treated as ordinary income under section 617, 1245, 1250, 1251, or 1252. Thus, before making either reduction required by section 170(e)(3)(B) and paragraph (c) of this section, the fair market value of the contributed property must be reduced by the amount of gain that would have been recognized (if the property had been sold) as ordinary income under section 617, 1245, 1250, 1251, or 1252.

(e) *Effective date.* This section applies to qualified contributions made after October 4, 1976.

[T.D. 7807, 47 FR 4510, Feb. 1, 1982, as amended by T.D. 7962, 49 FR 27317, July 3, 1984]

§ 1.170A-5 Future interests in tangible personal property.

(a) *In general.* (1) A contribution consisting of a transfer of a future interest in tangible personal property shall be treated as made only when all intervening interests in, and rights to the actual possession or enjoyment of, the property:

- (i) Have expired, or
- (ii) Are held by persons other than the taxpayer or those standing in a relationship to the taxpayer described in section 267(b) and the regulations thereunder, relating to losses, expenses, and interest with respect to transactions between related taxpayers.

(2) Section 170(a)(3) and this section have no application in respect of a transfer of an undivided present interest in property. For example, a contribution of an undivided one-quarter interest in a painting with respect to which the donee is entitled to possession during 3 months of each year shall be treated as made upon the receipt by the donee of a formally executed and acknowledged deed of gift. However, the period of initial possession by the donee may not be deferred in time for more than 1 year.

(3) Section 170(a)(3) and this section have no application in respect of a transfer of a future interest in intangible personal property or in real property. However, a fixture which is intended to be severed from real property shall be treated as tangible personal property. For example, a contribution of a future interest in a chandelier which is attached to a building is con-

sidered a contribution which consists of a future interest in tangible personal property if the transferor intends that it be detached from the building at or prior to the time when the charitable organization's right to possession or enjoyment of the chandelier is to commence.

(4) For purposes of section 170(a)(3) and this section, the term *future interest* has generally the same meaning as it has when used in section 2503 and § 25.2503-3 of this chapter (Gift Tax Regulations); it includes reversions, remainders, and other interests or estates, whether vested or contingent, and whether or not supported by a particular interest or estate, which are limited to commence in use, possession, or enjoyment at some future date or time. The term *future interest* includes situations in which a donor purports to give tangible personal property to a charitable organization, but has an understanding, arrangement, agreement, etc., whether written or oral, with the charitable organization which has the effect of reserving to, or retaining in, such donor a right to the use, possession, or enjoyment of the property.

(5) In the case of a charitable contribution of a future interest to which section 170(a)(3) and this section apply the other provisions of section 170 and the regulations thereunder are inapplicable to the contribution until such time as the contribution is treated as made under section 170(a)(3).

(b) *Illustrations.* The application of this section may be illustrated by the following examples:

Example 1. On December 31, 1970, A, an individual who reports his income on the calendar year basis, conveys by deed of gift to a museum title to a painting, but reserves to himself the right to the use, possession, and enjoyment of the painting during his lifetime. It is assumed that there was no intention to avoid the application of section 170(f)(3)(A) by the conveyance. At the time of the gift the value of the painting is \$90,000. Since the contribution consists of a future interest in tangible personal property in which the donor has retained an intervening interest, no contribution is considered to have been made in 1970.

Example 2. Assume the same facts as in *Example 1* except that on December 31, 1971, A relinquishes all of his right to the use, possession, and enjoyment of the painting and

§ 1.170A-6

26 CFR Ch. I (4-1-17 Edition)

delivers the painting to the museum. Assuming that the value of the painting has increased to \$95,000, A is treated as having made a charitable contribution of \$95,000 in 1971 for which a deduction is allowable without regard to section 170(f)(3)(A).

Example 3. Assume the same facts as in *Example 1* except A dies without relinquishing his right to the use, possession, and enjoyment of the painting. Since A did not relinquish his right to the use, possession, and enjoyment of the property during his life, A is treated as not having made a charitable contribution of the painting for income tax purposes.

Example 4. Assume the same facts as in *Example 1* except A, on December 31, 1971, transfers his interest in the painting to his son, B, who reports his income on the calendar year basis. Since the relationship between A and B is one described in section 267(b), no contribution of the remainder interest in the painting is considered to have been made in 1971.

Example 5. Assume the same facts as in *Example 4*. Also assume that on December 31, 1972, B conveys to the museum the interest measured by A's life. B has made a charitable contribution of the present interest in the painting conveyed to the museum. In addition, since all intervening interests in, and rights to the actual possession or enjoyment of the property, have expired, a charitable contribution of the remainder interest is treated as having been made by A in 1972 for which a deduction is allowable without regard to section 170(f)(3)(A). Such remainder interest is valued according to § 20.2031-7A(c) of this chapter (estate tax regulations), determined by subtracting the value of B's interest measured by A's life expectancy in 1972, and B receives a deduction in 1972 for the life interest measured by A's life expectancy and valued according to Table A(1) in such section.

Example 6. On December 31, 1970, C, an individual who reports his income on the calendar year basis, transfers a valuable painting to a pooled income fund described in section 642(c)(5), which is maintained by a university. C retains for himself for life an income interest in the painting, the remainder interest in the painting being contributed to the university. Since the contribution consists of a future interest in tangible personal property in which the donor has retained an intervening interest, no charitable contribution is considered to have been made in 1970.

Example 7. On January 15, 1972, D, an individual who reports his income on the calendar year basis, transfers a capital asset held for more than 6 months consisting of a valuable painting to a pooled income fund described in section 642(c)(5), which is maintained by a university, and creates an income interest in such painting for E for life. E is an individual not standing in a relation-

ship to D described in section 267(b). The remainder interest in the property is contributed by D to the university. The trustee of the pooled income fund puts the painting to an unrelated use within the meaning of paragraph (b)(3) of § 1.170A-4. Accordingly, D is allowed a deduction under section 170 in 1972 for the present value of the remainder interest in the painting, after reducing such amount under section 170 (e)(1)(B)(i) and paragraph (a)(2) of § 1.170A-4. This reduction in the amount of the contribution is required since under paragraph (b)(3) of that section the use by the pooled income fund of the painting is a use which would have been an unrelated use if it had been made by the university.

(c) *Effective date.* This section applies only to contributions paid in taxable years beginning after December 31, 1969.

[T.D. 7207, 37 FR 20779, Oct. 4, 1972, as amended by T.D. 8540, 59 FR 30102, June 10, 1994]

§ 1.170A-6 Charitable contributions in trust.

(a) *In general.* (1) No deduction is allowed under section 170 for the fair market value of a charitable contribution of any interest in property which is less than the donor's entire interest in the property and which is transferred in trust unless the transfer meets the requirements of paragraph (b) or (c) of this section. If the donor's entire interest in the property is transferred in trust and is contributed to a charitable organization described in section 170(c), a deduction is allowed under section 170. Thus, if on July 1, 1972, property is transferred in trust with the requirement that the income of the trust be paid for a term of 20 years to a church and thereafter the remainder be paid to an educational organization described in section 170(b)(1)(A), a deduction is allowed for the value of such property. See section 170(f)(2) and (3)(B), and paragraph (b)(1) of § 1.170A-7.

(2) A deduction is allowed without regard to this section for a contribution of a partial interest in property if such interest is the taxpayer's entire interest in the property, such as an income interest or a remainder interest. If, however, the property in which such partial interest exists was divided in order to create such interest and thus avoid section 170(f)(2), the deduction

will not be allowed. Thus, for example, assume that a taxpayer desires to contribute to a charitable organization the reversionary interest in certain stocks and bonds which he owns. If the taxpayer transfers such property in trust with the requirement that the income of the trust be paid to his son for life and that the reversionary interest be paid to himself and immediately after creating the trust contributes the reversionary interest to a charitable organization, no deduction will be allowed under section 170 for the contribution of the taxpayer's entire interest consisting of the reversionary interest in the trust.

(b) *Charitable contribution of a remainder interest in trust*—(1) *In general.* No deduction is allowed under section 170 for the fair market value of a charitable contribution of a remainder interest in property which is less than the donor's entire interest in the property and which the donor transfers in trust unless the trust is:

(i) A pooled income fund described in section 642(c)(5) and § 1.642(c)-5,

(ii) A charitable remainder annuity trust described in section 664(d)(1) and § 1.664-2, or

(iii) A charitable remainder unitrust described in section 664(d)(2) and § 1.664-3.

(2) *Value of a remainder interest.* The fair market value of a remainder interest in a pooled income fund shall be computed under § 1.642(c)-6. The fair market value of a remainder interest in a charitable remainder annuity trust shall be computed under § 1.664-2. The fair market value of a remainder interest in a charitable remainder unitrust shall be computed under § 1.664-4. However, in some cases a reduction in the amount of a charitable contribution of the remainder interest may be required. See section 170(e) and § 1.170A-4.

(c) *Charitable contribution of an income interest in trust*—(1) *In general.* No deduction is allowed under section 170 for the fair market value of a charitable contribution of an income interest in property which is less than the donor's entire interest in the property and which the donor transfers in trust unless the income interest is either a guaranteed annuity interest or a

unitrust interest, as defined in paragraph (c)(2) of this section, and the grantor is treated as the owner of such interest for purposes of applying section 671, relating to grantors and others treated as substantial owners. See section 4947(a)(2) for the application to such income interests in trust of the provisions relating to private foundations and section 508(e) for rules relating to provisions required in the governing instruments.

(2) *Definitions.* For purposes of this paragraph:

(i) *Guaranteed annuity interest.* (A) An income interest is a "guaranteed annuity interest" only if it is an irrevocable right pursuant to the governing instrument of the trust to receive a guaranteed annuity. A guaranteed annuity is an arrangement under which a determinable amount is paid periodically, but not less often than annually, for a specified term of years or for the life or lives of certain individuals, each of whom must be living at the date of transfer and can be ascertained at such date. Only one or more of the following individuals may be used as measuring lives: the donor, the donor's spouse, and an individual who, with respect to all remainder beneficiaries (other than charitable organizations described in section 170, 2055, or 2522), is either a lineal ancestor or the spouse of a lineal ancestor of those beneficiaries. A trust will satisfy the requirement that all noncharitable remainder beneficiaries are lineal descendants of the individual who is the measuring life, or that individual's spouse, if there is less than a 15% probability that individuals who are not lineal descendants will receive any trust corpus. This probability must be computed, based on the current applicable Life Table contained in § 20.2031-7, at the time property is transferred to the trust taking into account the interests of all primary and contingent remainder beneficiaries who are living at that time. An interest payable for a specified term of years can qualify as a guaranteed annuity interest even if the governing instrument contains a savings clause intended to ensure compliance with a rule against perpetuities. The savings clause must utilize a period for vesting

of 21 years after the deaths of measuring lives who are selected to maximize, rather than limit, the term of the trust. The rule in this paragraph that a charitable interest may be payable for the life or lives of only certain specified individuals does not apply in the case of a charitable guaranteed annuity interest payable under a charitable remainder trust described in section 664. An amount is determinable if the exact amount which must be paid under the conditions specified in the governing instrument of the trust can be ascertained as of the date of transfer. For example, the amount to be paid may be a stated sum for a term of years, or for the life of the donor, at the expiration of which it may be changed by a specified amount, but it may not be redetermined by reference to a fluctuating index such as the cost of living index. In further illustration, the amount to be paid may be expressed in terms of a fraction or percentage of the cost of living index on the date of transfer.

(B) An income interest is a guaranteed annuity interest only if it is a guaranteed annuity interest in every respect. For example, if the income interest is the right to receive from a trust each year a payment equal to the lesser of a sum certain or a fixed percentage of the net fair market value of the trust assets, determined annually, such interest is not a guaranteed annuity interest.

(C) Where a charitable interest is in the form of a guaranteed annuity interest, the governing instrument of the trust may provide that income of the trust which is in excess of the amount required to pay the guaranteed annuity interest shall be paid to or for the use of a charitable organization. Nevertheless, the amount of the deduction under section 170(f)(2)(B) shall be limited to the fair market value of the guaranteed annuity interest as determined under paragraph (c)(3) of this section. For a rule relating to treatment by the grantor of any contribution made by the trust in excess of the amount required to pay the guaranteed annuity interest, see paragraph (d)(2)(ii) of this section.

(D) If the present value on the date of transfer of all the income interests for

a charitable purpose exceeds 60 percent of the aggregate fair market value of all amounts in the trust (after the payment of liabilities), the income interest will not be considered a guaranteed annuity interest unless the governing instrument of the trust prohibits both the acquisition and the retention of assets which would give rise to a tax under section 4944 if the trustee had acquired such assets. The requirement in this subdivision (D) for a prohibition in the governing instrument against the retention of assets which would give rise to a tax under section 4944 if the trustee had acquired the assets shall not apply to a transfer in trust made on or before May 21, 1972.

(E) Where a charitable interest in the form of a guaranteed annuity interest is transferred after May 21, 1972, the charitable interest generally is not a guaranteed annuity interest if any amount may be paid by the trust for a private purpose before the expiration of all the charitable annuity interests. There are two exceptions to this general rule. First, the charitable interest is a guaranteed annuity interest if the amount payable for a private purpose is in the form of a guaranteed annuity interest and the trust's governing instrument does not provide for any preference or priority in the payment of the private annuity as opposed to the charitable annuity. Second, the charitable interest is a guaranteed annuity interest if under the trust's governing instrument the amount that may be paid for a private purpose is payable only from a group of assets that are devoted exclusively to private purposes and to which section 4947(a)(2) is inapplicable by reason of section 4947(a)(2)(B). For purposes of this paragraph (c)(2)(i)(E), an amount is not paid for a private purpose if it is paid for an adequate and full consideration in money or money's worth. See § 53.4947-1(c) of this chapter for rules relating to the inapplicability of section 4947(a)(2) to segregated amounts in a split-interest trust.

(F) For rules relating to certain governing instrument requirements and to the imposition of certain excise taxes where the guaranteed annuity interest is in trust and for rules governing payment of private income interests by a

split-interest trust, see section 4947(a)(2) and (b)(3)(A), and the regulations thereunder.

(ii) *Unitrust interest.* (A) An income interest is a “unitrust interest” only if it is an irrevocable right pursuant to the governing instrument of the trust to receive payment, not less often than annually of a fixed percentage of the net fair market value of the trust assets, determined annually. In computing the net fair market value of the trust assets, all assets and liabilities shall be taken into account without regard to whether particular items are taken into account in determining the income of the trust. The net fair market value of the trust assets may be determined on any one date during the year or by taking the average of valuations made on more than one date during the year, provided that the same valuation date or dates and valuation methods are used each year. Where the governing instrument of the trust does not specify the valuation date or dates, the trustee shall select such date or dates and shall indicate his selection on the first return on Form 1041 which the trust is required to file. Payments under a unitrust interest may be paid for a specified term of years or for the life or lives of certain individuals, each of whom must be living at the date of transfer and can be ascertained at such date. Only one or more of the following individuals may be used as measuring lives: the donor, the donor’s spouse, and an individual who, with respect to all remainder beneficiaries (other than charitable organizations described in section 170, 2055, or 2522), is either a lineal ancestor or the spouse of a lineal ancestor of those beneficiaries. A trust will satisfy the requirement that all noncharitable remainder beneficiaries are lineal descendants of the individual who is the measuring life, or that individual’s spouse, if there is less than a 15% probability that individuals who are not lineal descendants will receive any trust corpus. This probability must be computed, based on the current applicable Life Table contained in § 20.2031-7, at the time property is transferred to the trust taking into account the interests of all primary and contingent remainder beneficiaries who are living

at that time. An interest payable for a specified term of years can qualify as a unitrust interest even if the governing instrument contains a savings clause intended to ensure compliance with a rule against perpetuities. The savings clause must utilize a period for vesting of 21 years after the deaths of measuring lives who are selected to maximize, rather than limit, the term of the trust. The rule in this paragraph that a charitable interest may be payable for the life or lives of only certain specified individuals does not apply in the case of a charitable unitrust interest payable under a charitable remainder trust described in section 664.

(B) An income interest is a unitrust interest only if it is a unitrust interest in every respect. For example, if the income interest is the right to receive from a trust each year a payment equal to the lesser of a sum certain or a fixed percentage of the net fair market value of the trust assets, determined annually, such interest is not a unitrust interest.

(C) Where a charitable interest is in the form of a unitrust interest, the governing instrument of the trust may provide that income of the trust which is in excess of the amount required to pay the unitrust interest shall be paid to or for the use of a charitable organization. Nevertheless, the amount of the deduction under section 170(f)(2)(B) shall be limited to the fair market value of the unitrust interest as determined under paragraph (c)(3) of this section. For a rule relating to treatment by the grantor of any contribution made by the trust in excess of the amount required to pay the unitrust interest, see paragraph (d)(2)(ii) of this section.

(D) Where a charitable interest is in the form of a unitrust interest, the charitable interest generally is not a unitrust interest if any amount may be paid by the trust for a private purpose before the expiration of all the charitable unitrust interests. There are two exceptions to this general rule. First, the charitable interest is a unitrust interest if the amount payable for a private purpose is in the form of a unitrust interest and the trust’s governing instrument does not provide for

any preference or priority in the payment of the private unitrust interest as opposed to the charitable unitrust interest. Second, the charitable interest is a unitrust interest if under the trust's governing instrument the amount that may be paid for a private purpose is payable only from a group of assets that are devoted exclusively to private purposes and to which section 4947(a)(2) is inapplicable by reason of section 4947(a)(2)(B). For purposes of this paragraph (c)(2)(ii)(D), an amount is not paid for a private purpose if it is paid for an adequate and full consideration in money or money's worth. See § 53.4947-1(c) of this chapter for rules relating to the inapplicability of section 4947(a)(2) to segregated amounts in a split-interest trust.

(E) For rules relating to certain governing instrument requirements and to the imposition of certain excise taxes where the unitrust interest is in trust and for rules governing payment of private income interests by a split-interest trust, see section 4947(a)(2) and (b)(3)(A), and the regulations thereunder.

(3) *Valuation of income interest.* (i) The deduction allowed by section 170(f)(2)(B) for a charitable contribution of a guaranteed annuity interest is limited to the fair market value of such interest on the date of contribution, as computed under § 20.2031-7 or, for certain prior periods, 20.2031-7A of this chapter (Estate Tax Regulations).

(ii) The deduction allowed under section 170(f)(2)(B) for a charitable contribution of a unitrust interest is limited to the fair market value of the unitrust interest on the date of contribution. The fair market value of the unitrust interest shall be determined by subtracting the present value of all interests in the transferred property other than the unitrust interest from the fair market value of the transferred property.

(iii) If by reason of all the conditions and circumstances surrounding a transfer of an income interest in property in trust it appears that the charity may not receive the beneficial enjoyment of the interest, a deduction will be allowed under paragraph (c)(1) of this section only for the minimum amount it is evident the charity will

receive. The application of this subdivision may be illustrated by the following examples:

Example 1. In 1972, B transfers \$20,000 in trust with the requirement that M Church be paid a guaranteed annuity interest (as defined in subparagraph (2)(i) of this paragraph) of \$4,000, payable annually at the end of each year for 9 years, and that the residue revert to himself. Since the fair market value of an annuity of \$4,000 a year for a period of 9 years, as determined under § 20.2031-7A(c) of this chapter, is \$27,206.80 ($\$4,000 \times 6.8017$), it appears that M will not receive the beneficial enjoyment of the income interest. Accordingly, even though B is treated as the owner of the trust under section 673, he is allowed a deduction under subparagraph (1) of this paragraph for only \$20,000, which is the minimum amount it is evident M will receive.

Example 2. In 1975, C transfers \$40,000 in trust with the requirement that D, an individual, and X Charity be paid simultaneously guaranteed annuity interests (as defined in subparagraph (2)(i) of this paragraph) of \$5,000 a year each, payable annually at the end of each year, for a period of 5 years and that the remainder be paid to C's children. The fair market value of two annuities of \$5,000 each a year for a period of 5 years is \$42,124 ($[\$5,000 \times 4.2124] \times 2$), as determined under § 20.2031-7A(c) of this chapter. The trust instrument provides that in the event the trust fund is insufficient to pay both annuities in a given year, the trust fund will be evenly divided between the charitable and private annuitants. The deduction under subparagraph (1) of this paragraph with respect to the charitable annuity will be limited to \$20,000, which is the minimum amount it is evident X will receive.

Example 3. In 1975, D transfers \$65,000 in trust with the requirement that a guaranteed annuity interest (as defined in subparagraph (2)(i) of this paragraph) of \$5,000 a year, payable annually at the end of each year, be paid to Y Charity for a period of 10 years and that a guaranteed annuity interest (as defined in subparagraph (2)(i) of this paragraph) of \$5,000 a year, payable annually at the end of each year, be paid to W, his wife, aged 62, for 10 years or until her prior death. The annuities are to be paid simultaneously, and the remainder is to be paid to D's children. The fair market value of the private annuity is \$33,877 ($\$5,000 \times 6.7754$), as determined pursuant to § 20.2031-7A(c) of this chapter and by the use of factors involving one life and a term of years as published in Publication 723A (12-70). The fair market value of the charitable annuity is \$36,800.50 ($\$5,000 \times 7.3601$), as determined under § 20.2031-7A(c) of this chapter. It is not evident from the governing instrument of the trust or

Internal Revenue Service, Treasury

§ 1.170A-6

from local law that the trustee would be required to apportion the trust fund between the wife and charity in the event the fund were insufficient to pay both annuities in a given year. Accordingly, the deduction under subparagraph (1) of this paragraph with respect to the charitable annuity will be limited to \$31,123 (\$65,000 less \$33,877 [the value of the private annuity]), which is the minimum amount it is evident Y will receive.

(iv) See paragraph (b)(1) of § 1.170A-4 for rule that the term *ordinary income property* for purposes of section 170(e) does not include an income interest in respect of which a deduction is allowed under section 170(f)(2)(B) and this paragraph.

(4) *Recapture upon termination of treatment as owner.* If for any reason the donor of an income interest in property ceases at any time before the termination of such interest to be treated as the owner of such interest for purposes of applying section 671, as for example, where he dies before the termination of such interest, he shall for purposes of this chapter be considered as having received, on the date he ceases to be so treated, an amount of income equal to (i) the amount of any deduction he was allowed under section 170 for the contribution of such interest reduced by (ii) the discounted value of all amounts which were required to be, and actually were, paid with respect to such interest under the terms of trust to the charitable organization before the time at which he ceases to be treated as the owner of the interest. The discounted value of the amounts described in subdivision (ii) of this subparagraph shall be computed by treating each such amount as a contribution of a remainder interest after a term of years and valuing such amount as of the date of contribution of the income interest by the donor, such value to be determined under § 20.2031-7 of this chapter consistently with the manner in which the fair market value of the income interest was determined pursuant to subparagraph (3)(i) of this paragraph. The application of this subparagraph will not be construed to disallow a deduction to the trust for amounts paid by the trust to the charitable organization after the time at which the donor ceased to be treated as the owner of the trust.

(5) *Illustrations.* The application of this paragraph may be illustrated by the following examples:

Example 1. On January 1, 1971, A contributes to a church in trust a 9-year irrevocable income interest in property. Both A and the trust report income on a calendar year basis. The fair market value of the property placed in trust is \$10,000. The trust instrument provides that the church will receive an annuity of \$500, payable annually at the end of each year for 9 years. The income interest is a guaranteed annuity interest as defined in subparagraph (2)(i) of this paragraph; upon termination of such interest the residue of the trust is to revert to A. By reference to § 20.2031-7A(c) of this chapter, it is found that the figure in column (2) opposite 9 years is 6.8017. The present value of the annuity is therefore \$3,400.85 (\$500 × 6.8017). The present value of the income interest and A's charitable contribution for 1971 is \$3,400.85.

Example 2. (a) On January 1, B contributes to a church in trust a 9-year irrevocable income interest in property. Both B and the trust report income on a calendar year basis. The fair market value of the property placed in trust is \$10,000. The trust instrument provides that the trust will pay to the church at the end of each year for 9 years 5 percent of the fair market value of all property in the trust at the beginning of the year. The income interest is a unitrust interest as defined in subparagraph (2)(ii) of this paragraph; upon termination of such interest the residue of the trust is to revert to B.

(b) The section 7520 rate at the time of the transfer was 6.0 percent. By reference to Table F(6.0) in § 1.664-4(e)(6), the adjusted payout rate is 4.717% (5% × 0.943396). The present value of the reversion is \$6,473.75, computed by reference to Table D in § 1.664-4(e)(6), as follows:

Factor at 4.6 percent for 9 years	0.654539
Factor at 4.8 percent for 9 years642292
Difference012247
Interpolation adjustment:	

$$4.717\% - 4.6\% / 0.2\% = \times / 0.012247 \\ \times = 0.007164$$

Factor at 4.6 percent for 9 years654539
Less: Interpolation adjustment007164
Interpolated factor647375
Present value of reversion (\$10,000 × 0.647375)	\$6,473.75

(c) The present value of the income interest and B's charitable contribution is \$3,526.25 (\$10,000 - \$6,473.75).

Example 3. (a) On January 1, 1971, C contributes to a church in trust a 9-year irrevocable income interest in property. Both C and the trust report income on a calendar year basis. The fair market value of the property placed in trust is \$10,000. The trust

§ 1.170A-6

26 CFR Ch. I (4-1-17 Edition)

instrument provides that the church will receive an annuity of \$500, payable annually at the end of each year for 9 years. The income interest is a guaranteed annuity interest as defined in subparagraph (2)(i) of this paragraph; upon termination of such interest the residue of the trust is to revert to C. C's charitable contribution for 1971 is \$3,400.85, determined as provided in *Example 1*. The trust earns income of \$600 in 1971, \$400 in 1972, and \$500 in 1973, all of which is taxable

to C under section 671. The church is paid \$500 at the end of 1971, 1972, and 1973, respectively. On December 31, 1973, C dies and ceases to be treated as the owner of the income interest under section 673.

(b) Pursuant to subparagraph (4) of this paragraph, the discounted value as of January 1, 1971, of the amounts paid to the church by the trust is \$1,336.51, determined by reference to column (4) of § 20.2031-7A(c) of this chapter, as follows:

Annuity Payment date	Amount paid	Years from Jan. 1, 1971, to payment date	Discount factor	Discount value as of Jan. 1, 1971
Dec. 31, 1971	\$500	1	0.943396	\$471.70
Dec. 31, 1972	500	2	.889996	445.00
Dec. 31, 1973	500	3	.839619	419.81
Total discounted value				1,336.51

(c) Pursuant to subparagraph (4) of this paragraph, there must be included in C's gross income for 1973 the amount of \$2,064.34 (\$3,400.85 less \$1,336.51).

(d) For deduction by the trust for amounts paid to the church after December 31, 1973, see section 642(c)(1) and the regulations thereunder.

(d) *Denial of deduction for certain contributions by a trust.* (1) If by reason of section 170(f)(2)(B) and paragraph (c) of this section a charitable contributions deduction is allowed under section 170 for the fair market value of an income interest transferred in trust, neither the grantor of the income interest, the trust, nor any other person shall be allowed a deduction under section 170 or any other section for the amount of any charitable contribution made by the trust with respect to, or in fulfillment of, such income interest.

(2) Section 170(f)(2)(C) and subparagraph (1) of this paragraph shall not be construed, however, to:

(i) Disallow a deduction to the trust, pursuant to section 642(c)(1) and the regulations thereunder, for amounts paid by the trust after the grantor ceases to be treated as the owner of the income interest for purposes of applying section 671 and which are not taken into account in determining the amount of recapture under paragraph (c)(4) of this section, or

(ii) Disallow a deduction to the grantor under section 671 and § 1.671-2(c) for a charitable contribution made

by the trust in excess of the contribution required to be made by the trust under the terms of the trust instrument with respect to, or in fulfillment of, the income interest.

(3) Although a deduction for the fair market value of an income interest in property which is less than the donor's entire interest in the property and which the donor transfers in trust is disallowed under section 170 because such interest is not a guaranteed annuity interest, or a unitrust interest, as defined in paragraph (c)(2) of this section, the donor may be entitled to a deduction under section 671 and § 1.671-2(c) for any charitable contributions made by the trust if he is treated as the owner of such interest for purposes of applying section 671.

(e) *Effective date.* This section applies only to transfers in trust made after July 31, 1969. In addition, the rule in paragraphs (c)(2)(i)(A) and (ii)(A) of this section that guaranteed annuity interests and unitrust interests, respectively, may be payable for a specified term of years or for the life or lives of only certain individuals applies to transfers made on or after April 4, 2000. If a transfer is made to a trust on or after April 4, 2000 that uses an individual other than one permitted in paragraphs (c)(2)(i)(A) and (ii)(A) of this section, the trust may be reformed to satisfy this rule. As an alternative to reformation, rescission may be

available for a transfer made on or before March 6, 2001. See § 25.2522(c)-3(e) of this chapter for the requirements concerning reformation or possible rescission of these interests.

[T.D. 7207, 37 FR 20780, Oct. 5, 1972; 37 FR 22982, Oct. 27, 1972, as amended by T.D. 7340, 40 FR 1238, Jan. 7, 1975; T.D. 7955, 49 FR 19975, May 11, 1984; T.D. 8540, 59 FR 30102, June 10, 1994; T.D. 8819, 64 FR 23189, 23228, Apr. 30, 1999; 64 FR 33196, June 22, 1999; T.D. 8923, 66 FR 1041, Jan. 5, 2001; T.D. 9068, 68 FR 40131, July 7, 2003]

§ 1.170A-7 Contributions not in trust of partial interests in property.

(a) *In general.* (1) In the case of a charitable contribution, not made by a transfer in trust, of any interest in property which consists of less than the donor's entire interest in such property, no deduction is allowed under section 170 for the value of such interest unless the interest is an interest described in paragraph (b) of this section. See section 170(f)(3)(A). For purposes of this section, a contribution of the right to use property which the donor owns, for example, a rent-free lease, shall be treated as a contribution of less than the taxpayer's entire interest in such property.

(2)(i) A deduction is allowed without regard to this section for a contribution of a partial interest in property if such interest is the taxpayer's entire interest in the property, such as an income interest or a remainder interest. Thus, if securities are given to A for life, with the remainder over to B, and B makes a charitable contribution of his remainder interest to an organization described in section 170(c), a deduction is allowed under section 170 for the present value of B's remainder interest in the securities. If, however, the property in which such partial interest exists was divided in order to create such interest and thus avoid section 170(f)(3)(A), the deduction will not be allowed. Thus, for example, assume that a taxpayer desires to contribute to a charitable organization an income interest in property held by him, which is not of a type described in paragraph (b)(2) of this section. If the taxpayer transfers the remainder interest in such property to his son and immediately thereafter contributes the income interest to a charitable organiza-

tion, no deduction shall be allowed under section 170 for the contribution of the taxpayer's entire interest consisting of the retained income interest. In further illustration, assume that a taxpayer desires to contribute to a charitable organization the reversionary interest in certain stocks and bonds held by him, which is not of a type described in paragraph (b)(2) of this section. If the taxpayer grants a life estate in such property to his son and immediately thereafter contributes the reversionary interest to a charitable organization, no deduction will be allowed under section 170 for the contribution of the taxpayer's entire interest consisting of the reversionary interest.

(ii) A deduction is allowed without regard to this section for a contribution of a partial interest in property if such contribution constitutes part of a charitable contribution not in trust in which all interests of the taxpayer in the property are given to a charitable organization described in section 170(c). Thus, if on March 1, 1971, an income interest in property is given not in trust to a church and the remainder interest in the property is given not in trust to an educational organization described in section 170(b)(1)(A), a deduction is allowed for the value of such property.

(3) A deduction shall not be disallowed under section 170(f)(3)(A) and this section merely because the interest which passes to, or is vested in, the charity may be defeated by the performance of some act or the happening of some event, if on the date of the gift it appears that the possibility that such act or event will occur is so remote as to be negligible. See paragraph (e) of § 1.170A-1.

(b) *Contributions of certain partial interests in property for which a deduction is allowed.* A deduction is allowed under section 170 for a contribution not in trust of a partial interest which is less than the donor's entire interest in property and which qualifies under one of the following subparagraphs:

(1) *Undivided portion of donor's entire interest.* (i) A deduction is allowed under section 170 for the value of a charitable contribution not in trust of an undivided portion of a donor's entire

interest in property. An undivided portion of a donor's entire interest in property must consist of a fraction or percentage of each and every substantial interest or right owned by the donor in such property and must extend over the entire term of the donor's interest in such property and in other property into which such property is converted. For example, assuming that in 1967 B has been given a life estate in an office building for the life of A and that B has no other interest in the office building, B will be allowed a deduction under section 170 for his contribution in 1972 to charity of a one-half interest in such life estate in a transfer which is not made in trust. Such contribution by B will be considered a contribution of an undivided portion of the donor's entire interest in property. In further illustration, assuming that in 1968 C has been given the remainder interest in a trust created under the will of his father and C has no other interest in the trust, C will be allowed a deduction under section 170 for his contribution in 1972 to charity of a 20-percent interest in such remainder interest in a transfer which is not made in trust. Such contribution by C will be considered a contribution of an undivided portion of the donor's entire interest in property. If a taxpayer owns 100 acres of land and makes a contribution of 50 acres to a charitable organization, the charitable contribution is allowed as a deduction under section 170. A deduction is allowed under section 170 for a contribution of property to a charitable organization whereby such organization is given the right, as a tenant in common with the donor, to possession, dominion, and control of the property for a portion of each year appropriate to its interest in such property. However, for purposes of this subparagraph a charitable contribution in perpetuity of an interest in property not in trust where the donor transfers some specific rights and retains other substantial rights will not be considered a contribution of an undivided portion of the donor's entire interest in property to which section 170(f)(3)(A) does not apply. Thus, for example, a deduction is not allowable for the value of an immediate and perpetual gift not in trust of an inter-

est in original historic motion picture films to a charitable organization where the donor retains the exclusive right to make reproductions of such films and to exploit such reproductions commercially.

(ii) With respect to contributions made on or before December 17, 1980, for purposes of this subparagraph a charitable contribution of an open space easement in gross in perpetuity shall be considered a contribution of an undivided portion of the donor's entire interest in property to which section 170(f)(3)(A) does not apply. For this purpose an easement in gross is a mere personal interest in, or right to use, the land of another; it is not supported by a dominant estate but is attached to, and vested in, the person to whom it is granted. Thus, for example, a deduction is allowed under section 170 for the value of a restrictive easement gratuitously conveyed to the United States in perpetuity whereby the donor agrees to certain restrictions on the use of his property, such as, restrictions on the type and height of buildings that may be erected, the removal of trees, the erection of utility lines, the dumping of trash, and the use of signs. For the deductibility of a qualified conservation contribution, see § 1.170A-14.

(2) *Partial interests in property which would be deductible in trust.* A deduction is allowed under section 170 for the value of a charitable contribution not in trust of a partial interest in property which is less than the donor's entire interest in the property and which would be deductible under section 170(f)(2) and § 1.170A-6 if such interest had been transferred in trust.

(3) *Contribution of a remainder interest in a personal residence.* A deduction is allowed under section 170 for the value of a charitable contribution not in trust of an irrevocable remainder interest in a personal residence which is not the donor's entire interest in such property. Thus, for example, if a taxpayer contributes not in trust to an organization described in section 170(c) a remainder interest in a personal residence and retains an estate in such property for life or for a term of years, a deduction is allowed under section

170 for the value of such remainder interest not transferred in trust. For purposes of section 170(f)(3)(B)(i) and this subparagraph, the term *personal residence* means any property used by the taxpayer as his personal residence even though it is not used as his principal residence. For example, the taxpayer's vacation home may be a personal residence for purposes of this subparagraph. The term *personal residence* also includes stock owned by a taxpayer as a tenant-stockholder in a cooperative housing corporation (as those terms are defined in section 216(b) (1) and (2)) if the dwelling which the taxpayer is entitled to occupy as such stockholder is used by him as his personal residence.

(4) *Contribution of a remainder interest in a farm.* A deduction is allowed under section 170 for the value of a charitable contribution not in trust of an irrevocable remainder interest in a farm which is not the donor's entire interest in such property. Thus, for example, if a taxpayer contributes not in trust to an organization described in section 170(c) a remainder interest in a farm and retains an estate in such farm for life or for a term of years, a deduction is allowed under section 170 for the value of such remainder interest not transferred in trust. For purposes of section 170(f)(3)(B)(i) and this subparagraph, the term *farm* means any land used by the taxpayer or his tenant for the production of crops, fruits, or other agricultural products or for the sustenance of livestock. The term *livestock* includes cattle, hogs, horses, mules, donkeys, sheep, goats, captive fur-bearing animals, chickens, turkeys, pigeons, and other poultry. A farm includes the improvements thereon.

(5) *Qualified conservation contribution.* A deduction is allowed under section 170 for the value of a qualified conservation contribution. For the definition of a qualified conservation contribution, see § 1.170A-14.

(c) *Valuation of a partial interest in property.* Except as provided in § 1.170A-14, the amount of the deduction under section 170 in the case of a charitable contribution of a partial interest in property to which paragraph (b) of this section applies is the fair market value of the partial interest at the time of

the contribution. See § 1.170A-1(c). The fair market value of such partial interest must be determined in accordance with § 20.2031-7, of this chapter (Estate Tax Regulations), except that, in the case of a charitable contribution of a remainder interest in real property which is not transferred in trust, the fair market value of such interest must be determined in accordance with section 170(f)(4) and § 1.170A-12. In the case of a charitable contribution of a remainder interest in the form of a remainder interest in a pooled income fund, a charitable remainder annuity trust, or a charitable remainder unitrust, the fair market value of the remainder interest must be determined as provided in paragraph (b)(2) of § 1.170A-6. However, in some cases a reduction in the amount of a charitable contribution of the remainder interest may be required. See section 170(e) and paragraph (a) of § 1.170A-4.

(d) *Illustrations.* The application of this section may be illustrated by the following examples:

Example 1. A, an individual owning a 10-story office building, donates the rent-free use of the top floor of the building for the year 1971 to a charitable organization. Since A's contribution consists of a partial interest to which section 170(f)(3)(A) applies, he is not entitled to a charitable contributions deduction for the contribution of such partial interest.

Example 2. In 1971, B contributes to a charitable organization an undivided one-half interest in 100 acres of land, whereby as tenants in common they share in the economic benefits from the property. The present value of the contributed property is \$50,000. Since B's contribution consists of an undivided portion of his entire interest in the property to which section 170(f)(3)(B) applies, he is allowed a deduction in 1971 for his charitable contribution of \$50,000.

Example 3. In 1971, D loans \$10,000 in cash to a charitable organization and does not require the organization to pay any interest for the use of the money. Since D's contribution consists of a partial interest to which section 170(f)(3)(A) applies, he is not entitled to a charitable contributions deduction for the contribution of such partial interest.

(e) *Effective date.* This section applies only to contributions made after July 31, 1969. The deduction allowable under § 1.170A-7(b)(1)(ii) shall be available

§ 1.170A-8

26 CFR Ch. I (4-1-17 Edition)

only for contributions made on or before December 17, 1980. Except as otherwise provided in § 1.170A-14(g)(4)(ii), the deduction allowable under § 1.170A-7(b)(5) shall be available for contributions made on or after December 18, 1980.

(83 Stat. 544, 26 U.S.C. 170(f)(4); 83 Stat. 560, 26 U.S.C. 642(c)(5); 68A Stat. 917, 26 U.S.C. 7805)

[T.D. 7207, 37 FR 20782, Oct. 4, 1972; 37 FR 22982, Oct. 27, 1972, as amended by T.D. 7955, 49 FR 19975, May 11, 1984; T.D. 8069, 51 FR 1498, Jan. 14, 1986; T.D. 8540, 59 FR 30102, June 10, 1994]

§ 1.170A-8 Limitations on charitable deductions by individuals.

(a) *Percentage limitations*—(1) *In general.* An individual's charitable contributions deduction is subject to 20-, 30-, and 50-percent limitations unless the individual qualifies for the unlimited charitable contributions deduction under section 170(b)(1)(C). For a discussion of these limitations and examples of their application, see paragraphs (b) through (f) of this section. If a husband and wife make a joint return, the deduction for contributions is the aggregate of the contributions made by the spouses, and the limitations in section 170(b) and this section are based on the aggregate contribution base of the spouses. A charitable contribution by an individual to or for the use of an organization described in section 170(c) may be deductible even though all, or some portion, of the funds of the organization may be used in foreign countries for charitable or educational purposes.

(2) *“To” or “for the use of” defined.* For purposes of section 170, a contribution of an income interest in property, whether or not such contributed interest is transferred in trust, for which a deduction is allowed under section 170(f)(2)(B) or (3)(A) shall be considered as made “for the use of” rather than “to” the charitable organization. A contribution of a remainder interest in property, whether or not such contributed interest is transferred in trust, for which a deduction is allowed under section 170(f)(2)(A) or (3)(A), shall be considered as made “to” the charitable organization except that, if such interest is transferred in trust and, pursuant to the terms of the trust instrument, the

interest contributed is, upon termination of the predecessor estate, to be held in trust for the benefit of such organization, the contribution shall be considered as made “for the use of” such organization. Thus, for example, assume that A transfers property to a charitable remainder annuity trust described in section 664(d)(1) which is required to pay to B for life an annuity equal to 5 percent of the initial fair market value of the property transferred in trust. The trust instrument provides that after B's death the remainder interest in the trust is to be transferred to M Church or, in the event M Church is not an organization described in section 170(c) when the amount is to be irrevocably transferred to such church, to an organization which is described in section 170(c) at that time. The contribution by A of the remainder interest shall be considered as made “to” M Church. However, if in the trust instrument A had directed that after B's death the remainder interest is to be held in trust for the benefit of M Church, the contribution shall be considered as made “for the use of” M Church. This subparagraph does not apply to the contribution of a partial interest in property, or of an undivided portion of such partial interest, if such partial interest is the donor's entire interest in the property and such entire interest was not created to avoid section 170(f)(2) or (3)(A). See paragraph (a)(2) of § 1.170A-6 and paragraphs (a)(2)(i) and (b)(1) of § 1.170A-7.

(b) *50-percent limitation.* An individual may deduct charitable contributions made during a taxable year to any one or more section 170(b)(1)(A) organizations, as defined in § 1.170A-9, to the extent that such contributions in the aggregate do not exceed 50 percent of his contribution base, as defined in section 170(b)(1)(F) and paragraph (e) of this section, for the taxable year. However, see paragraph (d) of this section for a limitation on the amount of charitable contributions of 30-percent capital gain property. To qualify for the 50-percent limitation the contributions must be made “to,” and not merely “for the use of,” one of the specified organizations. A contribution to an organization referred to in section 170(c)(2), other than a section 170(b)(1)(A) organization, will

not qualify for the 50-percent limitation even though such organization makes the contribution available to an organization which is a section 170(b)(1)(A) organization. For provisions relating to the carryover of contributions in excess of 50-percent of an individual's contribution base see section 170(d)(1) and paragraph (b) of § 1.170A-10.

(c) *20-percent limitation.* (1) An individual may deduct charitable contributions made during a taxable year:

(i) To any one or more charitable organizations described in section 170(c) other than section 170(b)(1)(A) organizations, as defined in § 1.170A-9, and,

(ii) For the use of any charitable organization described in section 170(c), to the extent that such contributions in the aggregate do not exceed the lesser of the limitations under subparagraph (2) of this paragraph.

(2) For purposes of subparagraph (1) of this paragraph the limitations are:

(i) 20 percent of the individual's contribution base, as defined in paragraph (e) of this section, for the taxable year, or

(ii) The excess of 50 percent of the individual's contribution base, as so defined, for the taxable year over the total amount of the charitable contributions allowed under section 170(b)(1)(A) and paragraph (b) of this section, determined by first reducing the amount of such contributions under section 170(e)(1) and paragraph (a) of § 1.170A-4 but without applying the 30-percent limitation under section 170(b)(1)(D)(i) and paragraph (d)(1) of this section.

However, see paragraph (d) of this section for a limitation on the amount of charitable contributions of 30-percent capital gain property. If an election under section 170(b)(1)(D)(iii) and paragraph (d)(2) of this section applies to any contributions of 30-percent capital gain property made during the taxable year or carried over to the taxable year, the amount allowed for the taxable year under paragraph (b) of this section with respect to such contributions for purposes of applying subdivision (ii) of this subparagraph shall be the reduced amount of such contributions determined by applying paragraph (d)(2) of this section.

(d) *30-percent limitation—(1) In general.* An individual may deduct charitable contributions of 30-percent capital gain property, as defined in subparagraph (3) of this paragraph, made during a taxable year to or for the use of any charitable organization described in section 170(c) to the extent that such contributions in the aggregate do not exceed 30-percent of his contribution base, as defined in paragraph (e) of this section, subject, however, to the 50- and 20-percent limitations prescribed by paragraphs (b) and (c) of this section. For purposes of applying the 50-percent and 20-percent limitations described in paragraphs (b) and (c) of this section, charitable contributions of 30-percent capital gain property paid during the taxable year, and limited as provided by this subparagraph, shall be taken into account after all other charitable contributions paid during the taxable year. For provisions relating to the carryover of certain contributions of 30-percent capital gain property in excess of 30-percent of an individual's contribution base, see section 170(b)(1)(D)(ii) and paragraph (c) of § 1.170A-10.

(2) *Election by an individual to have section 170(e)(1)(B) apply to contributions—(i) In general.* (A) An individual may elect under section 170(b)(1)(D)(iii) for any taxable year to have the reduction rule of section 170(e)(1)(B) and paragraph (a) of § 1.170A-4 apply to all his charitable contributions of 30-percent capital gain property made during such taxable year or carried over to such taxable year from a taxable year beginning after December 31, 1969. If such election is made such contributions shall be treated as contributions of section 170(e) capital gain property in accordance with paragraph (b)(2)(iii) of § 1.170A-4. The election may be made with respect to contributions of 30-percent capital gain property carried over to the taxable year even though the individual has not made any contribution of 30-percent capital gain property in such year. If such an election is made, section 170(b)(1)(D) (i) and (ii) and subparagraph (1) of this paragraph shall not apply to such contributions made during such year. However, such contributions must be reduced as required

§ 1.170A-8

26 CFR Ch. I (4-1-17 Edition)

under section 170(e)(1)(B) and paragraph (a) of § 1.170A-4.

(B) If there are carryovers to such taxable year of charitable contributions of 30-percent capital gain property made in preceding taxable years beginning after December 31, 1969, the amount of such contributions in each such preceding year shall be reduced as if section 170(e)(1)(B) had applied to them in the preceding year and shall be carried over to the taxable year and succeeding taxable years under section 170(d)(1) and paragraph (b) of § 1.170A-10 as contributions of property other than 30-percent capital gain property. For purposes of applying the immediately preceding sentence, the percentage limitations under section 170(b) for the preceding taxable year and for any taxable years intervening between such year and the year of the election shall not be redetermined and the amount of any deduction allowed for such years under section 170 in respect of the charitable contributions of 30-percent capital gain property in the preceding taxable year shall not be redetermined. However, the amount of the deduction so allowed under section 170 in the preceding taxable year must be subtracted from the reduced amount of the charitable contributions made in such year in order to determine the excess amount which is carried over from such year under section 170(d)(1). If the amount of the deduction so allowed in the preceding taxable year equals or exceeds the reduced amount of the charitable contributions, there shall be no carryover from such year to the year of the election.

(C) An election under this subparagraph may be made for each taxable year in which charitable contributions of 30-percent capital gain property are made or to which they are carried over under section 170(b)(1)(D)(ii). If there are also carryovers under section 170(d)(1) to the year of the election by reason of an election made under this subparagraph for a previous taxable year, such carryovers under section 170(d)(1) shall not be redetermined by reason of the subsequent election.

(ii) *Husband and wife making joint return.* If a husband and wife make a joint return of income for a contribution year and one of the spouses elects

under this subparagraph in a later year when he files a separate return, or if a spouse dies after a contribution year for which a joint return is made, any excess contribution of 30-percent capital gain property which is carried over to the election year from the contribution year shall be allocated between the husband and wife as provided in paragraph (d)(4) (i) and (iii) of § 1.170A-10. If a husband and wife file separate returns in a contribution year, any election under this subparagraph in a later year when a joint return is filed shall be applicable to any excess contributions of 30-percent capital gain property of either taxpayer carried over from the contribution year to the election year. The immediately preceding sentence shall also apply where two single individuals are subsequently married and file a joint return. A remarried individual who filed a joint return with his former spouse for a contribution year and thereafter files a joint return with his present spouse shall treat the carryover to the election year as provided in paragraph (d)(4)(ii) of § 1.170A-10.

(iii) *Manner of making election.* The election under subdivision (i) of this subparagraph shall be made by attaching to the income tax return for the election year a statement indicating that the election under section 170(b)(1)(D)(iii) and this subparagraph is being made. If there is a carryover to the taxable year of any charitable contributions of 30-percent capital gain property from a previous taxable year or years, the statement shall show a recomputation, in accordance with this subparagraph and § 1.170A-4, of such carryover, setting forth sufficient information with respect to the previous taxable year or any intervening year to show the basis of the recomputation. The statement shall indicate the district director, or the director of the internal revenue service center, with whom the return for the previous taxable year or years was filed, the name or names in which such return or returns were filed, and whether each such return was a joint or separate return.

(3) *30-percent capital gain property defined.* If there is a charitable contribution of a capital asset which, if it were sold by the donor at its fair market

value at the time of its contribution, would result in the recognition of gain all, or any portion, of which would be long-term capital gain and if the amount of such contribution is not required to be reduced under section 170(e)(1)(B) and § 1.170A-4(a)(2), such capital asset shall be treated as "30-percent capital gain property" for purposes of section 170 and the regulations thereunder. For such purposes any property which is property used in the trade or business, as defined in section 1231(b), shall be treated as a capital asset. However, see paragraph (b)(4) of § 1.170A-4. For the treatment of such property as section 170(e) capital gain property, see paragraph (b)(2)(iii) of § 1.170A-4.

(e) *Contribution base defined.* For purposes of section 170 the term *contribution base* means adjusted gross income under section 62, computed without regard to any net operating loss carryback to the taxable year under section 172. See section 170(b)(1)(F).

(f) *Illustrations.* The application of this section may be illustrated by the following examples:

Example 1. B, an individual, reports his income on the calendar-year basis and for 1970 has a contribution base of \$100,000. During 1970 he makes charitable contributions of \$70,000 in cash, of which \$40,000 is given to section 170(b)(1)(A) organizations and \$30,000 is given to other organizations described in section 170(c). Accordingly, B is allowed a charitable contributions deduction of \$50,000 (50% of \$100,000), which consists of the \$40,000 contributed to section 170(b)(1)(A) organizations and \$10,000 of the \$30,000 contributed to the other organizations. Under paragraph (c) of this section, only \$10,000 of the \$30,000 contributed to the other organizations is allowed as a deduction since such contribution of \$30,000 is allowed to the extent of the lesser of \$20,000 (20% of \$100,000) or \$10,000 ([50% of \$100,000] - \$40,000 (contributions allowed under section 170(b)(1)(A) and paragraph (b) of this section)). Under section 170(b)(1)(D)(ii) and (d)(1) and § 1.170A-10, B is not allowed a carryover to 1971 or to any other taxable year for any of the \$20,000 (\$30,000 - \$10,000) not deductible under section 170(b)(1)(B) and paragraph (c) of this section.

Example 2. C, an individual, reports his income on the calendar-year basis and for 1970 has a contribution base of \$100,000. During 1970 he makes charitable contributions of \$40,000 in 30-percent capital gain property to section 170(b)(1)(A) organizations and of \$30,000 in cash to other organizations de-

scribed in section 170(c). The 20-percent limitation in section 170(b)(1)(B) and paragraph (c) of this section is applied before the 30-percent limitation in section 170(b)(1)(D)(i) and paragraph (d) of this section; accordingly section 170(b)(1)(B)(ii) limits the deduction for the \$30,000 cash contribution to \$10,000 ([50% of \$100,000] - \$40,000). The amount of the contribution of 30-percent capital gain property is limited by section 170(b)(1)(D)(i) and paragraph (d) of this section to \$30,000 (30% of \$100,000). Accordingly, C's charitable contributions deduction for 1970 is limited to \$40,000 (\$10,000 + \$30,000). Under section 170(b)(1)(D)(ii) and paragraph (c) of § 1.170A-10, C is allowed a carryover to 1971 of \$10,000 (\$40,000 - \$30,000) in respect of his contributions of 30-percent capital gain property. C is not allowed a carryover to 1971 or to any other taxable year for any of the \$20,000 cash (\$30,000 - \$10,000) not deductible under section 170(b)(1)(B) and paragraph (c) of this section.

Example 3. (a) D, an individual, reports his income on the calendar-year basis and for 1970 has a contribution base of \$100,000. During 1970 he makes charitable contributions of \$70,000 in cash, of which \$40,000 is given to section 170(b)(1)(A) organizations and \$30,000 is given to other organizations described in section 170(c). During 1971 D makes charitable contributions to a section 170(b)(1)(A) organization of \$12,000, consisting of cash of \$1,000 and \$11,000 in 30-percent capital gain property. His contribution base for 1971 is \$10,000.

(b) For 1970, D is allowed a charitable contributions deduction of \$50,000 (50% of \$100,000), which consists of the \$40,000 contributed to section 170(b)(1)(A) organizations and \$10,000 of the \$30,000 contributed to the other organizations. Under paragraph (c) of this section, only \$10,000 of the \$30,000 contributed to the other organizations is allowed as a deduction since such contribution of \$30,000 is allowed to the extent of the lesser of \$20,000 (20% of \$100,000) or \$10,000 ([50% of \$100,000] - \$40,000 (contributions allowed under section 170(b)(1)(A) and paragraph (b) of this section)). D is not allowed a carryover to 1971 or to any other taxable year for any of the \$20,000 (\$30,000 - \$10,000) not deductible under section 170(b)(1)(B) and paragraph (c) of this section.

(c) For 1971, D is allowed a charitable contributions deduction of \$4,000, consisting of \$1,000 cash and \$3,000 of the 30-percent capital gain property (30% of \$10,000). Under section 170(b)(1)(D)(ii) and paragraph (c) of § 1.170A-10, D is allowed a carryover to 1972 of \$8,000 (\$11,000 - \$3,000) in respect of his contribution of 30-percent capital gain property in 1971.

Example 4. (a) E, an individual, reports his income on the calendar-year basis and for 1970 has a contribution base of \$100,000. During 1970 he makes charitable contributions of \$70,000 in cash, of which \$40,000 is given to

§ 1.170A-8

26 CFR Ch. I (4-1-17 Edition)

section 170(b)(1)(A) organizations and \$30,000 is given to other organizations described in section 170(c). During 1971 E makes charitable contributions to a section 170(b)(1)(A) organization of \$14,000 consisting of cash of \$3,000 and \$11,000 in 30-percent capital gain property. His contribution base for 1971 is \$10,000.

(b) For 1970, E is allowed a charitable contributions deduction of \$50,000 (50% of \$100,000), which consists of the \$40,000 contributed to section 170(b)(1)(A) organizations and \$10,000 of the \$30,000 contributed to the other organizations. Under paragraph (c) of this section, only \$10,000 of the \$30,000 contributed to the other organizations is allowed as a deduction since such contribution of \$30,000 is allowed to the extent of the lesser of \$20,000 (20% of \$100,000) or (\$10,000 [50% of \$100,000]—\$40,000 (contributions allowed under section 170(b)(1)(A) and paragraph (b) of this section)). E is not allowed a carryover to 1971 or to any other taxable year for any of the \$20,000 (\$30,000—\$10,000) not deductible under section 170(b)(1)(B) and paragraph (c) of this section.

(c) For 1971, E is allowed a charitable contributions deduction of \$5,000 (50% of \$10,000), consisting of \$3,000 cash and \$2,000 of the \$3,000 (30% of \$10,000) 30-percent capital gain property which is taken into account. This result is reached because, as provided in section 170(b)(1)(D)(i) and paragraph (d)(1) of this section, cash contributions are taken into account before charitable contributions of 30-percent capital gain property. Under section 170(b)(1)(D)(ii) and (d)(1) and paragraphs (b) and (c) of § 1.170A-10, E is allowed a carryover of \$9,000 [(\$11,000—\$3,000) plus [\$6,000—\$5,000]] to 1972 in respect of his contribution of 30-percent capital gain property in 1971.

Example 5. In 1970, C, a calendar-year individual taxpayer, contributes to section 170(b)(1)(A) organizations the amount of \$8,000, consisting of \$3,000 in cash and \$5,000 in 30-percent capital gain property. In 1970, C also makes charitable contributions of \$8,500 in 30 percent capital gain property to other organizations described in section 170(c). C's contribution base for 1970 is \$20,000. The 20-percent limitation in section 170(b)(1)(B) and paragraph (c) of this section is applied before the 30-percent limitation in section 170(b)(1)(D)(i) and paragraph (d) of this section; accordingly, section 170(b)(1)(B)(ii) limits the deduction for the \$8,500 of contributions to the other organizations described in section 170(c) to \$2,000 ([50% of \$20,000]—[\$3,000 + \$5,000]). However, the total amount of contributions of 30-percent capital gain property which is allowed as a deduction for 1970 is limited by section 170(b)(1)(D)(i) and paragraph (d) of this section to \$6,000 (30% of \$20,000), consisting of the \$5,000 contribution to the section 170(b)(1)(A) organizations and \$1,000 of the

contributions to the other organizations described in section 170(c). Accordingly C is allowed a charitable contributions deduction for 1970 of \$9,000, which consists of \$3,000 cash and \$6,000 of the \$13,500 of 30-percent capital gain property. C is not allowed to carryover to 1971 or any other year the remaining \$7,500 because his contributions of 30-percent capital gain property for 1970 to section 170(b)(1)(A) organizations amount only to \$5,000 and do not exceed \$6,000 (30% of \$20,000). Thus, the requirement of section 170(b)(1)(D)(ii) is not satisfied.

Example 6. During 1971, D, a calendar-year individual taxpayer, makes a charitable contribution to a church of \$8,000, consisting of \$5,000 in cash and \$3,000 in 30-percent capital gain property. For such year, D's contribution base is \$10,000. Accordingly, D is allowed a charitable contributions deduction for 1971 of \$5,000 (50% of \$10,000) of cash. Under section 170(d)(1) and paragraph (b) of § 1.170A-10, D is allowed a carryover to 1972 of his \$3,000 contribution of 30-percent capital gain property, even though such amount does not exceed 30 percent of his contribution base for 1971.

Example 7. In 1970, E, a calendar-year individual taxpayer, makes a charitable contribution to a section 170(b)(1)(A) organization in the amount of \$10,000, consisting of \$8,000 in 30-percent capital gain property and of \$2,000 (after reduction under section 170(e)) in other property. E's contribution base of 1970 is \$20,000. Accordingly, E is allowed a charitable contributions deduction for 1970 of \$8,000, consisting of the \$2,000 of property the amount of which was reduced under section 170(e) and \$6,000 (30% of \$20,000) of the 30-percent capital gain property. Under section 170(b)(1)(D)(ii) and paragraph (c) of § 1.170A-10, E is allowed to carryover to 1971 \$2,000 (\$8,000—\$6,000) of his contribution of 30-percent capital gain property.

Example 8. (a) In 1972, F, calendar-year individual taxpayer, makes a charitable contribution to a church of \$4,000, consisting of \$1,000 in cash and \$3,000 in 30-percent capital gain property. In addition, F makes a charitable contribution in 1972 of \$2,000 in cash to an organization described in section 170(c)(4). F also has a carryover from 1971 under section 170(d)(1) of \$5,000 (none of which consists of contributions of 30-percent capital gain property) and a carryover from 1971 under section 170(b)(1)(D)(ii) of \$6,000 of contributions of 30-percent capital gain property. F's contribution base for 1972 is \$11,000.

Accordingly, F is allowed a charitable contributions deduction for 1972 of \$5,500 (50% of \$11,000), which consists of \$1,000 cash contributed in 1972 to the church, \$3,000 of 30-percent capital gain property contributed in 1972 to the church, and \$1,500 (carryover of \$5,000 but not to exceed [\$5,500—(\$1,000 + \$3,000)]) of the carryover from 1971 under section 170(d)(1).

(b) No deduction is allowed for 1972 for the contribution in that year of \$2,000 cash to the section 170(c)(4) organization since section 170(b)(1)(B)(ii) and paragraph (c) of this section limit the deduction for such contribution to \$0 ([50% of \$11,000] - [\$1,000 + \$1,500 + \$3,000]). Moreover, F is not allowed a carryover to 1973 or to any other year for any of such \$2,000 cash contributed to the section 170(c)(4) organization.

(c) Under section 170(d)(1) and paragraph (b) of § 1.170A-10, F is allowed a carryover to 1973 from 1971 of \$3,500 (\$5,000 - \$1,500) of contributions of other than 30-percent capital gain property. Under section 170(b)(1)(D)(ii) and paragraph (c) of § 1.170A-10, F is allowed a carryover to 1973 from 1971 of \$6,000 (\$6,000 - \$0 of such carryover treated as paid in 1972) of contributions of 30-percent capital gain property. The portion of such \$6,000 carryover from 1971 which is treated as paid in 1972 is \$0 ([50% of \$11,000] - [\$4,000 contributions to the church in 1972 plus \$1,500 of section 170(d)(1) carryover treated as paid in 1972]).

Example 9. (a) In 1970, A, a calendar-year individual taxpayer, makes a charitable contribution to a church of 30-percent capital gain property having a fair market value of \$60,000 and an adjusted basis of \$10,000. A's contribution base for 1970 is \$50,000, and he makes no other charitable contributions in that year. A does not elect for 1970 under paragraph (d)(2) of this section to have section 170(e)(1)(B) apply to such contribution. Accordingly, under section 170(b)(1)(D)(i) and paragraph (d) of this section, A is allowed a charitable contributions deduction for 1970 of \$15,000 (30% of \$50,000). Under section 170(b)(1)(D)(ii) and paragraph (c) of § 1.170A-10, A is allowed a carryover to 1971 of \$45,000 (\$60,000 - \$15,000) for his contribution of 30-percent capital gain property.

(b) In 1971, A makes a charitable contribution to a church of 30-percent capital gain property having a fair market value of \$11,000 and an adjusted basis of \$10,000. A's contribution base for 1971 is \$60,000, and he makes no other charitable contributions in that year. A elects for 1971 under paragraph (d)(2) of this section to have section 170(e)(1)(B) and § 1.170A-4 apply to his contribution of \$11,000 in that year and to his carryover of \$45,000 from 1970. Accordingly, he is required to recompute his carryover from 1970 as if section 170(e)(1)(B) had applied to his contribution of 30-percent capital gain property in that year.

(c) If section 170(e)(1)(B) had applied in 1970 to his contribution of 30-percent capital gain property, A's contribution would have been reduced from \$60,000 to \$35,000, the reduction of \$25,000 being 50 percent of the gain of \$50,000 (\$60,000 - \$10,000) which would have been recognized as long-term capital gain if the property had been sold by A at its fair market value at the time of the contribution

in 1970. Accordingly, by taking the election under paragraph (d)(2) of this section into account, A has a recomputed carryover to 1971 of \$20,000 (\$35,000 - \$15,000) of his contribution of 30-percent capital gain property in 1970. However, A's charitable contributions deduction of \$15,000 allowed for 1970 is not recomputed by reason of the election.

(d) Pursuant to the election for 1971, the contribution of 30-percent capital gain property for 1971 is reduced from \$11,000 to \$10,500, the reduction of \$500 being 50 percent of the gain of \$1,000 (\$11,000 - \$10,000) which would have been recognized as long-term capital gain if the property had been sold by A at its fair market value at the time of its contribution in 1971.

(e) Accordingly, A is allowed a charitable contributions deduction for 1971 of \$30,000 (total contributions of \$30,500 [\$20,000 + \$10,500] but not to exceed 50% of \$60,000).

(f) Under section 170(d)(1) and paragraph (b) of § 1.170A-10, A is allowed a carryover of \$500 (\$30,500 - \$30,000) to 1972 and the 3 succeeding taxable years. The \$500 carryover, which by reason of the election is no longer treated as a contribution of 30-percent capital gain property, is treated as carried over under paragraph (b) of § 1.170A-10 from 1970 since in 1971 current year contributions are deducted before contributions which are carried over from preceding taxable years.

Example 10. The facts are the same as in *Example 9* except that A also makes a charitable contribution in 1971 of \$2,000 cash to a private foundation not described in section 170(b)(1)(E) and that A's contribution base for that year is \$62,000, instead of \$60,000. Accordingly, A is allowed a charitable contributions deduction for 1971 of \$31,000, determined in the following manner. Under section 170(b)(1)(A) and paragraph (b) of this section, A is allowed a charitable contributions deduction for 1971 of \$30,500, consisting of \$10,500 of property contributed to the church in 1971 and of \$20,000 (carryover of \$20,000 but not to exceed [(\$62,000 × 50%) - \$10,500]) of contributions of property carried over to 1971 under section 170(d)(1) and paragraph (b) of § 1.170A-10. Under section 170(b)(1)(B) and paragraph (c) of this section, A is allowed a charitable contributions deduction for 1971 of \$500 ([50% of \$62,000] - [\$10,500 + \$20,000]) of cash contributed to the private foundation in that year. A is not allowed a carryover to 1972 or to any other taxable year for any of the \$1,500 (\$2,000 - \$500) cash not deductible in 1971 under section 170(b)(1)(B) and paragraph (c) of this section.

Example 11. The facts are the same as in *Example 9* except that A's contribution base for 1970 is \$120,000. Thus, before making the election under paragraph (d)(2) of this section for 1971, A is allowed a charitable contributions deduction for 1970 of \$36,000 (30% of \$120,000) and is allowed a carryover to 1971 of \$24,000 (\$60,000 - \$36,000). By making the

§ 1.170A-8

election for 1971, A is required to recompute the carryover from 1970, which is reduced from \$24,000 to zero, since the charitable contributions deduction of \$36,000 allowed for 1970 exceeds the reduced \$35,000 contribution for 1970 which may be taken into account by reason of the election for 1971. Accordingly, A is allowed a deduction for 1971 of \$10,500 and is allowed no carryover to 1972, since the reduced contribution for 1971 (\$10,500) does not exceed the limitation of \$30,000 (50% of \$60,000) for 1971 which applies under section 170(d)(1) and paragraph (b) of § 1.170A-10. A's charitable contributions deduction of \$36,000 allowed for 1970 is not recomputed by reason of the election. Thus, it is not to A's advantage to make the election under paragraph (d)(2) of this section.

Example 12. (a) B, an individual, reports his income on the calendar-year basis and for 1970 has a contribution base of \$100,000. During 1970 he makes charitable contributions of \$70,000, consisting of \$50,000 in 30-percent capital gain property contributed to a church and \$20,000 in cash contributed to a private foundation not described in section 170(b)(1)(E). For 1971, B's contribution base is \$40,000, and in that year he makes a charitable contribution of \$5,000 in cash to such private foundation. During the years involved B makes no other charitable contributions.

(b) The amount of the contribution of 30-percent capital gain property which may be taken into account for 1970 is limited by section 170(b)(1)(D)(i) and paragraph (d) of this section to \$30,000 (30% of \$100,000). Accordingly, under section 170(b)(1)(A) and paragraph (b) of this section B is allowed a deduction for 1970 of \$30,000 of 30-percent capital gain property (contribution of \$30,000 but not to exceed \$50,000 [50% of \$100,000]). No deduction is allowed for 1970 for the contribution in that year of \$20,000 of cash to the private foundation since section 170(b)(1)(B)(ii) and paragraph (c) of this section limit the deduction for such contribution to \$0 ([50% of \$100,000] - \$50,000, the amount of the contribution of 30-percent capital gain property).

(c) Under section 170(b)(1)(D)(ii) and paragraph (c) of § 1.170A-10, B is allowed a carryover to 1971 of \$20,000 (\$50,000 - [30% of \$100,000]) of his contribution in 1970 of 30-percent capital gain property. B is not allowed a carryover to 1971 or to any other taxable year for any of the \$20,000 cash contribution in 1970 which is not deductible under section 170(b)(1)(B) and paragraph (c) of this section.

(d) The amount of the contribution of 30-percent capital gain property which may be taken into account for 1971 is limited by section 170(b)(1)(D)(i) and paragraph (d) of this section to \$12,000 (30% of \$40,000).

Accordingly, under section 170(b)(1)(A) and paragraph (b) of this section B is allowed a deduction for 1971 of \$12,000 of 30-percent cap-

26 CFR Ch. I (4-1-17 Edition)

ital gain property (contribution of \$12,000 but not to exceed \$20,000 [50% of \$40,000]). No deduction is allowed for 1971 for the contribution in that year of \$5,000 of cash to the private foundation, since section 170(b)(1)(B)(ii) and paragraph (c) of this section limit the deduction for such contribution to \$0 ([50% of \$40,000] - \$20,000 carryover of 30-percent capital gain property from 1970).

(e) Under section 170(b)(1)(D)(ii) and paragraph (c) of § 1.170A-10, B is allowed a carryover to 1972 of \$8,000 (\$20,000 - [30% of \$40,000]) of his contribution in 1970 of 30-percent capital gain property. B is not allowed a carryover to 1972 or to any other taxable year for any of the \$5,000 cash contribution for 1971 which is not deductible under section 170(b)(1)(B) and paragraph (c) of this section.

Example 13. D, an individual, reports his income on the calendar-year basis and for 1970 has a contribution base of \$100,000. On March 1, 1970, he contributes to a church intangible property to which section 1245 applies which has a fair market value of \$60,000 and an adjusted basis of \$10,000. At the time of the contribution D has used the property in his business for more than 6 months. If the property had been sold by D at its fair market value at the time of its contribution, it is assumed that under section 1245 \$20,000 of the gain of \$50,000 would have been treated as ordinary income and \$30,000 would have been long-term capital gain. Since the property contributed is ordinary income property within the meaning of paragraph (b)(1) of § 1.170A-4, D's contribution of \$60,000 is reduced under paragraph (a)(1) of such section to \$40,000 (\$60,000 - \$20,000 ordinary income). However, since the property contributed is also 30-percent capital gain property within the meaning of paragraph (d)(3) of this section, D's deduction for 1970 is limited by section 170(b)(1)(D)(i) and paragraph (d) of this section to \$30,000 (30% of \$100,000). Under section 170(b)(1)(D)(ii) and paragraph (c) of § 1.170A-10, D is allowed to carry over to 1971 \$10,000 (\$40,000 - \$30,000) of his contribution of 30-percent capital gain property.

Example 14. C, an individual, reports his income on the calendar-year basis and for 1970 has a contribution base of \$50,000. During 1970 he makes charitable contributions to a church of \$57,000, consisting of \$2,000 cash and of 30-percent capital gain property with a fair market value of \$55,000 and an adjusted basis of \$15,000. In addition, C contributes \$3,000 cash in 1970 to a private foundation not described in section 170(b)(1)(E). For 1970, C elects under paragraph (d)(2) of this section to have section 170(e)(1)(B) and § 1.170A-4(a) apply to his contribution of property to the church. Accordingly, for 1970 C's contribution of property to the church is reduced from \$55,000 to \$35,000, the reduction of \$20,000 being 50 percent of the gain of \$40,000

Internal Revenue Service, Treasury

§ 1.170A-9

(\$55,000 - \$15,000) which would have been recognized as long-term capital gain if the property had been sold by C at its fair market value at the time of its contribution to the church. Under section 170(b)(1)(A) and paragraph (b) of this section, C is allowed a charitable contributions deduction for 1970 of \$25,000 ($[\$2,000 + \$35,000]$ but not to exceed $[\$50,000 \times 50\%]$). Under section 170(d)(1) and paragraph (b) of § 1.170A-10, C is allowed a carryover from 1970 to 1971 of \$12,000 ($\$37,000 - \$25,000$). No deduction is allowed for 1970 for the contribution in that year of \$3,000 cash to the private foundation since section 170(b)(1)(B) and paragraph (c) of this section limit the deduction for such contribution to the smaller of \$10,000 ($\$50,000 \times 20\%$) or \$0 ($[\$50,000 \times 50\%] - \$25,000$). C is not allowed a carryover from 1970 for any of the \$3,000 cash contribution in that year which is not deductible under section 170(b)(1)(B) and paragraph (c) of this section.

Example 15. (a) D, an individual, reports his income on the calendar-year basis and for 1970 has a contribution base of \$100,000. During 1970 he makes a charitable contribution to a church of 30-percent capital gain property with a fair market value of \$40,000 and an adjusted basis of \$21,000. In addition, he contributes \$23,000 cash in 1970 to a private foundation not described in section 170(b)(1)(E). For 1970, D elects under paragraph (d)(2) of this section to have section 170(e)(1)(B) and § 1.170A-4(a) apply to his contribution of property to the church. Accordingly, for 1970 D's contribution of property to the church is reduced from \$40,000 to \$30,500, the reduction of \$9,500 being 50 percent of the gain of \$19,000 ($\$40,000 - \$21,000$) which would have been recognized as long-term capital gain if the property had been sold by D at its fair market value at the time of its contribution to the church. Under section 170(b)(1)(A) and paragraph (b) of this section, D is allowed a charitable contributions deduction for 1970 of \$30,500 for the property contributed to the church. In addition, under section 170(b)(1)(B) and paragraph (c) of this section D is allowed a deduction of \$19,500 for the cash contributed to the private foundation, since such contribution of \$23,000 is allowed to the extent of the lesser of \$20,000 (20% of \$100,000) or \$19,500 ($[\$100,000 \times 50\%] - \$30,500$). D is not allowed a carryover to 1971 or to any other taxable year for any of the \$3,500 ($\$23,000 - \$19,500$) of cash not deductible under section 170(b)(1)(B) and paragraph (c) of this section.

(b) If D had not made the election under paragraph (d)(2) of this section for 1970, his deduction for 1970 under section 170(a) for the \$40,000 contribution of property to the church would have been limited by section 170(b)(1)(D)(i) and paragraph (d) of this section to \$30,000 (30% of \$100,000), and under section 170(b)(1)(D)(ii) and paragraph (c) of § 1.170A-10 he would have been allowed a car-

ryover to 1971 of \$10,000 ($\$40,000 - \$30,000$) for his contribution of such property. In addition, he would have been allowed under section 170(b)(1)(B)(ii) and paragraph (c) of this section for 1970 a charitable contributions deduction of \$10,000 ($[\$100,000 \times 50\%] - \$40,000$) for the cash contributed to the private foundation. In such case, D would not have been allowed a carryover to 1971 or to any other taxable year for any of the \$13,000 ($\$23,000 - \$10,000$) of cash not deductible under section 170(b)(1)(B) and paragraph (c) of this section.

(g) *Effective date.* This section applies only to contributions paid in taxable years beginning after December 31, 1969.

[T.D. 7207, 37 FR 20783, Oct. 4, 1972; 37 FR 22982, Oct. 27, 1972]

§ 1.170A-9 Definition of section 170(b)(1)(A) organization.

(a) The term *section 170(b)(1)(A) organization* as used in the regulations under section 170 means any organization described in paragraphs (b) through (j) of this section, effective with respect to taxable years beginning after December 31, 1969, except as otherwise provided. Section 1.170-2(b) shall continue to be applicable with respect to taxable years beginning prior to January 1, 1970. The term *one or more organizations described in section 170(b)(1)(A) (other than clauses (vii) and (viii))* as used in sections 507 and 509 of the Internal Revenue Code (Code) and the regulations means one or more organizations described in paragraphs (b) through (f) of this section, except as modified by the regulations under part II of subchapter F of chapter 1 or under chapter 42.

(b) *Church or a convention or association of churches.* An organization is described in section 170(b)(1)(A)(i) if it is a church or a convention or association of churches.

(c) *Educational organization and organizations for the benefit of certain State and municipal colleges and universities—*
(1) *Educational organization.* An educational organization is described in section 170(b)(1)(A)(ii) if its primary function is the presentation of formal instruction and it normally maintains a regular faculty and curriculum and normally has a regularly enrolled body of pupils or students in attendance at

the place where its educational activities are regularly carried on. The term includes institutions such as primary, secondary, preparatory, or high schools, and colleges and universities. It includes Federal, State, and other public-supported schools which otherwise come within the definition. It does not include organizations engaged in both educational and noneducational activities unless the latter are merely incidental to the educational activities. A recognized university which incidentally operates a museum or sponsors concerts is an educational organization within the meaning of section 170(b)(1)(A)(ii). However, the operation of a school by a museum does not necessarily qualify the museum as an educational organization within the meaning of this subparagraph.

(2) *Organizations for the benefit of certain State and municipal colleges and universities.* (i) An organization is described in section 170(b)(1)(A)(iv) if it meets the support requirements of subdivision (ii) of this subparagraph and is organized and operated exclusively to receive, hold, invest, and administer property and to make expenditures to or for the benefit of a college or university which is an organization described in subdivision (iii) of this subparagraph. The phrase “expenditures to or for the benefit of a college or university” includes expenditures made for any one or more of the normal functions of colleges and universities such as the acquisition and maintenance of real property comprising part of the campus area; the erection of, or participation in the erection of, college or university buildings; the acquisition and maintenance of equipment and furnishings used for, or in conjunction with, normal functions of colleges and universities; or expenditures for scholarships, libraries and student loans.

(ii) To qualify under section 170(b)(1)(A)(iv), the organization receiving the contribution must normally receive a substantial part of its support from the United States or any State or political subdivision thereof or from direct or indirect contributions from the general public, or from a combination of two or more of such sources. For such purposes, the term “support” does not include income received in the ex-

ercise or performance by the organization of its charitable, educational, or other purpose or function constituting the basis for its exemption under section 501(a). An example of an indirect contribution from the public is the receipt by the organization of its share of the proceeds of an annual collection campaign of a community chest, community fund, or united fund. In determining the amount of support received by such organization with respect to a contribution of property which is subject to reduction under section 170(e), the fair market value of the property shall be taken into account.

(iii) The college or university (including a land grant college or university) to be benefited must be an educational organization referred to in section 170(b)(1)(A)(ii) and subparagraph (1) of this paragraph which is an agency or instrumentality of a State or political subdivision thereof, or which is owned or operated by a State or political subdivision thereof or by an agency or instrumentality of one or more States or political subdivisions.

(d) *Hospitals and medical research organizations*—(1) *Hospitals.* An organization (other than one described in paragraph (d)(2) of this section) is described in section 170(b)(1)(A)(iii) if—

- (i) It is a hospital; and
- (ii) Its principal purpose or function is the providing of medical or hospital care or medical education or medical research.

(A) The term *hospital* includes—

- (1) Federal hospitals; and
- (2) State, county, and municipal hospitals which are instrumentalities of governmental units referred to in section 170(c)(1) and otherwise come within the definition. A rehabilitation institution, outpatient clinic, or community mental health or drug treatment center may qualify as a “hospital” within the meaning of paragraph (d)(1)(i) of this section if its principal purpose or function is the providing of hospital or medical care. For purposes of this paragraph (d)(1)(ii), the term *medical care* shall include the treatment of any physical or mental disability or condition, whether on an inpatient or outpatient basis, provided the cost of such treatment is deductible under section 213 by the person

treated. An organization, all the accommodations of which qualify as being part of a “skilled nursing facility” within the meaning of 42 U.S.C. 1395x(j), may qualify as a “hospital” within the meaning of paragraph (d)(1)(i) of this section if its principal purpose or function is the providing of hospital or medical care. For taxable years ending after June 28, 1968, the term *hospital* also includes cooperative hospital service organizations which meet the requirements of section 501(e) and § 1.501(e)-1.

(B) The term *hospital* does not, however, include convalescent homes or homes for children or the aged, nor does the term include institutions whose principal purpose or function is to train handicapped individuals to pursue some vocation. An organization whose principal purpose or function is the providing of medical education or medical research will not be considered a “hospital” within the meaning of paragraph (d)(1)(i) of this section, unless it is also actively engaged in providing medical or hospital care to patients on its premises or in its facilities, on an inpatient or outpatient basis, as an integral part of its medical education or medical research functions. See, however, paragraph (d)(2) of this section with respect to certain medical research organizations.

(2) *Certain medical research organizations*—(i) *Introduction*. A medical research organization is described in section 170(b)(1)(A)(iii) if the principal purpose or functions of such organization are medical research and if it is directly engaged in the continuous active conduct of medical research in conjunction with a hospital. In addition, for purposes of the 50 percent limitation of section 170(b)(1)(A) with respect to a contribution, during the calendar year in which the contribution is made such organization must be committed to spend such contribution for such research before January 1 of the fifth calendar year which begins after the date such contribution is made. An organization need not receive contributions deductible under section 170 to qualify as a medical research organization and such organization need not be committed to spend amounts to which the limitation of section 170(b)(1)(A)

does not apply within the 5-year period referred to in this paragraph (d)(2)(i). However, the requirement of continuous active conduct of medical research indicates that the type of organization contemplated in this paragraph (d)(2) is one which is primarily engaged directly in the continuous active conduct of medical research, as compared to an inactive medical research organization or an organization primarily engaged in funding the programs of other medical research organizations. As in the case of a hospital, since an organization is ordinarily not described in section 170(b)(1)(A)(iii) as a hospital unless it functions primarily as a hospital, similarly a medical research organization is not so described unless it is primarily engaged directly in the continuous active conduct of medical research in conjunction with a hospital. Accordingly, the rules of this paragraph (d)(2) shall only apply with respect to such medical research organizations.

(ii) *General rule*. An organization (other than a hospital described in paragraph (d)(1) of this section) is described in section 170(b)(1)(A)(iii) only if within the meaning of this paragraph (d)(2):

(A) The principal purpose or functions of such organization are to engage primarily in the conduct of medical research; and

(B) It is primarily engaged directly in the continuous active conduct of medical research in conjunction with a hospital which is—

(1) Described in section 501(c)(3);

(2) A Federal hospital; or

(3) An instrumentality of a governmental unit referred to in section 170(c)(1).

(C) In order for a contribution to such organization to qualify for purposes of the 50 percent limitation of section 170(b)(1)(A), during the calendar year in which such contribution is made or treated as made, such organization must be committed (within the meaning of paragraph (d)(2)(viii) of this section) to spend such contribution for such active conduct of medical research before January 1 of the fifth calendar year beginning after the date such contribution is made. For the

meaning of the term “medical research” see paragraph (d)(2)(iii) of this section. For the meaning of the term “principal purpose or functions” see paragraph (d)(2)(iv) of this section. For the meaning of the term “primarily engaged directly in the continuous active conduct of medical research” see paragraph (d)(2)(v) of this section. For the meaning of the term “medical research in conjunction with a hospital” see paragraph (d)(2)(vii) of this section.

(iii) *Definition of medical research.* *Medical research* means the conduct of investigations, experiments, and studies to discover, develop, or verify knowledge relating to the causes, diagnosis, treatment, prevention, or control of physical or mental diseases and impairments of man. To qualify as a medical research organization, the organization must have or must have continuously available for its regular use the appropriate equipment and professional personnel necessary to carry out its principal function. Medical research encompasses the associated disciplines spanning the biological, social and behavioral sciences. Such disciplines include chemistry (biochemistry, physical chemistry, bioorganic chemistry, etc.), behavioral sciences (psychiatry, physiological psychology, neurophysiology, neurology, neurobiology, and social psychology, etc.), biomedical engineering (applied biophysics, medical physics, and medical electronics, for example, developing pacemakers and other medically related electrical equipment), virology, immunology, biophysics, cell biology, molecular biology, pharmacology, toxicology, genetics, pathology, physiology, microbiology, parasitology, endocrinology, bacteriology, and epidemiology.

(iv) *Principal purpose or functions.* An organization must be organized for the principal purpose of engaging primarily in the conduct of medical research in order to be an organization meeting the requirements of this paragraph (d)(2). An organization will normally be considered to be so organized if it is expressly organized for the purpose of conducting medical research and is actually engaged primarily in the conduct of medical research. Other facts and circumstances, however, may

indicate that an organization does not meet the principal purpose requirement of this paragraph (d)(2)(iv) even where its governing instrument so expressly provides. An organization that otherwise meets all of the requirements of this paragraph (d)(2) (including this paragraph (d)(2)(iv)) to qualify as a medical research organization will not fail to so qualify solely because its governing instrument does not specifically state that its principal purpose is to conduct medical research.

(v) *Primarily engaged directly in the continuous active conduct of medical research—*(A) In order for an organization to be primarily engaged directly in the continuous active conduct of medical research, the organization must either devote a substantial part of its assets to, or expend a significant percentage of its endowment for, such purposes, or both. Whether an organization devotes a substantial part of its assets to, or makes significant expenditures for, such continuous active conduct depends upon the facts and circumstances existing in each specific case. An organization will be treated as devoting a substantial part of its assets to, or expending a significant percentage of its endowment for, such purposes if it meets the appropriate test contained in paragraph (d)(2)(v)(B) of this section. If an organization fails to satisfy both of such tests, in evaluating the facts and circumstances, the factor given most weight is the margin by which the organization failed to meet such tests. Some of the other facts and circumstances to be considered in making such a determination are—

(1) If the organization fails to satisfy the tests because it failed to properly value its assets or endowment, then upon determination of the improper valuation it devotes additional assets to, or makes additional expenditures for, such purposes, so that it satisfies such tests on an aggregate basis for the prior year in addition to such tests for the current year;

(2) The organization acquires new assets or has a significant increase in the value of its securities after it had developed a budget in a prior year based on the assets then owned and the then current values;

(3) The organization fails to make expenditures in any given year because of the interrelated aspects of its budget and long-term planning requirements, for example, where an organization prematurely terminates an unsuccessful program and because of long-term planning requirements it will not be able to establish a fully operational replacement program immediately; and

(4) The organization has as its objective to spend less than a significant percentage in a particular year but make up the difference in the subsequent few years, or to budget a greater percentage in an earlier year and a lower percentage in a later year.

(B) For purposes of this section, an organization which devotes more than one half of its assets to the continuous active conduct of medical research will be considered to be devoting a substantial part of its assets to such conduct within the meaning of paragraph (d)(2)(v)(A) of this section. An organization which expends funds equaling 3.5 percent or more of the fair market value of its endowment for the continuous active conduct of medical research will be considered to have expended a significant percentage of its endowment for such purposes within the meaning of paragraph (d)(2)(v)(A) of this section.

(C) Engaging directly in the continuous active conduct of medical research does not include the disbursing of funds to other organizations for the conduct of research by them or the extending of grants or scholarships to others. Therefore, if an organization's primary purpose is to disburse funds to other organizations for the conduct of research by them or to extend grants or scholarships to others, it is not primarily engaged directly in the continuous active conduct of medical research.

(vi) *Special rules.* The following rules shall apply in determining whether a substantial part of an organization's assets are devoted to, or its endowment is expended for, the continuous active conduct of medical research activities:

(A) An organization may satisfy the tests of paragraph (d)(2)(v)(B) of this section by meeting such tests either for a computation period consisting of the immediately preceding taxable

year, or for the computation period consisting of the immediately preceding four taxable years. In addition, for taxable years beginning in 1970, 1971, 1972, 1973, and 1974, if an organization meets such tests for the computation period consisting of the first four taxable years beginning after December 31, 1969, an organization will be treated as meeting such tests, not only for the taxable year beginning in 1974, but also for the preceding four taxable years. Thus, for example, if a calendar year organization failed to satisfy such tests for a computation period consisting of 1969, 1970, 1971, and 1972, but on the basis of a computation period consisting of the years 1970 through 1973, it expended funds equaling 3.5 percent or more of the fair market value of its endowment for the continuous active conduct of medical research, such organization will be considered to have expended a significant percentage of its endowment for such purposes for the taxable years 1970 through 1974. In applying such tests for a four-year computation period, although the organization's expenditures for the entire four-year period shall be aggregated, the fair market value of its endowment for each year shall be summed, even though, in the case of an asset held throughout the four-year period, the fair market value of such an asset will be counted four times. Similarly, the fair market value of an organization's assets for each year of a four-year computation period shall be summed.

(B) Any property substantially all the use of which is "substantially related" (within the meaning of section 514(b)(1)(A)) to the exercise or performance of the organization's medical research activities will not be treated as part of its endowment.

(C) The valuation of assets must be made with commonly accepted methods of valuation. A method of valuation made in accordance with the principles stated in the regulations under section 2031 constitutes an acceptable method of valuation. Assets may be valued as of any day in the organization's taxable year to which such valuation applies, provided the organization follows a consistent practice of valuing such asset as of such date in all

taxable years. For purposes of paragraph (d)(2)(v) of this section, an asset held by the organization for part of a taxable year shall be taken into account by multiplying the fair market value of such asset by a fraction, the numerator of which is the number of days in such taxable year that the organization held such asset and the denominator of which is the number of days in such taxable year.

(vii) *Medical research in conjunction with a hospital.* The organization need not be formally affiliated with a hospital to be considered primarily engaged directly in the continuous active conduct of medical research in conjunction with a hospital, but in any event there must be a joint effort on the part of the research organization and the hospital pursuant to an understanding that the two organizations will maintain continuing close cooperation in the active conduct of medical research. For example, the necessary joint effort will normally be found to exist if the activities of the medical research organization are carried on in space located within or adjacent to a hospital, the organization is permitted to utilize the facilities (including equipment, case studies, etc.) of the hospital on a continuing basis directly in the active conduct of medical research, and there is substantial evidence of the close cooperation of the members of the staff of the research organization and members of the staff of the particular hospital or hospitals. The active participation in medical research by members of the staff of the particular hospital or hospitals will be considered to be evidence of such close cooperation. Because medical research may involve substantial investigation, experimentation and study not immediately connected with hospital or medical care, the requisite joint effort will also normally be found to exist if there is an established relationship between the research organization and the hospital which provides that the cooperation of appropriate personnel and the use of facilities of the particular hospital or hospitals will be required whenever it would aid such research.

(viii) *Commitment to spend contributions.* The organization's commitment

that the contribution will be spent within the prescribed time only for the prescribed purposes must be legally enforceable. A promise in writing to the donor in consideration of his making a contribution that such contribution will be so spent within the prescribed time will constitute a commitment. The expenditure of contributions received for plant, facilities, or equipment, used solely for medical research purposes (within the meaning of paragraph (d)(2)(ii) of this section), shall ordinarily be considered to be an expenditure for medical research. If a contribution is made in other than money, it shall be considered spent for medical research if the funds from the proceeds of a disposition thereof are spent by the organization within the five-year period for medical research; or, if such property is of such a kind that it is used on a continuing basis directly in connection with such research, it shall be considered spent for medical research in the year in which it is first so used. A medical research organization will be presumed to have made the commitment required under this paragraph (d)(2)(viii) with respect to any contribution if its governing instrument or by-laws require that every contribution be spent for medical research before January 1 of the fifth year which begins after the date such contribution is made.

(ix) *Organizational period for new organizations.* A newly created organization, for its "organizational" period, shall be considered to be primarily engaged directly in the continuous active conduct of medical research in conjunction with a hospital within the meaning of paragraphs (d)(2)(v) and (d)(2)(vii) of this section if during such period the organization establishes to the satisfaction of the Commissioner that it reasonably can be expected to be so engaged by the end of such period. The information to be submitted shall include detailed plans showing the proposed initial medical research program, architectural drawings for the erection of buildings and facilities to be used for medical research in accordance with such plans, plans to assemble a professional staff and detailed projections showing the timetable for the expected accomplishment of the

foregoing. The “organizational” period shall be that period which is appropriate to implement the proposed plans, giving effect to the proposed amounts involved and the magnitude and complexity of the projected medical research program, but in no event in excess of three years following organization.

(x) *Examples.* The application of this paragraph (d)(2) may be illustrated by the following examples:

Example 1. N, an organization referred to in section 170(c)(2), was created to promote human knowledge within the field of medical research and medical education. All of N’s assets were contributed to it by A and consist of a diversified portfolio of stocks and bonds. N’s endowment earns 3.5 percent annually, which N expends in the conduct of various medical research programs in conjunction with Y hospital. N is located adjacent to Y hospital, makes substantial use of Y’s facilities, and there is close cooperation between the staffs of N and Y. N is directly engaged in the continuous active conduct of medical research in conjunction with a hospital, meets the principal purpose test described in paragraph (d)(2)(iv) of this section, and is therefore an organization described in section 170(b)(1)(A)(iii).

Example 2. O, an organization referred to in section 170(c)(2), was created to promote human knowledge within the field of medical research and medical education. All of O’s assets consist of a diversified portfolio of stocks and bonds. O’s endowment earns 3.5 percent annually, which O expends in the conduct of various medical research programs in conjunction with certain hospitals. However, in 1974, O receives a substantial bequest of additional stocks and bonds. O’s budget for 1974 does not take into account the bequest and as a result O expends only 3.1 percent of its endowment in 1974. However, O establishes that it will expend at least 3.5 percent of its endowment for the active conduct of medical research for taxable years 1975 through 1978. O is therefore directly engaged in the continuous active conduct of medical research in conjunction with a hospital for taxable year 1975. Since O also meets the principal purpose test described in paragraph (d)(2)(iv) of this section, it is therefore an organization described in section 170(b)(1)(A)(iii) for taxable year 1975.

Example 3. M, an organization referred to in section 170(c)(2), was created to promote human knowledge within the field of medical research and medical education. M’s activities consist of the conduct of medical research programs in conjunction with various hospitals. Under such programs, researchers employed by M engage in research at laboratories set aside for M within the various hos-

pitals. Substantially all of M’s assets consist of 100 percent of the stock of X corporation, which has a fair market value of approximately 100 million dollars. X pays M approximately 3.3 million dollars in dividends annually, which M expends in the conduct of its medical research programs. Since M expends only 3.3 percent of its endowment, which does not constitute a significant percentage, in the active conduct of medical research, M is not an organization described in section 170(b)(1)(A)(iii) because M is not engaged in the continuous active conduct of medical research.

(xi) *Special rule for organizations with existing ruling.* This paragraph (d)(2)(xi) shall apply to an organization that prior to January 1, 1970, had received a ruling or determination letter which has not been expressly revoked holding the organization to be a medical research organization described in section 170(b)(1)(A)(iii) and with respect to which the facts and circumstances on which the ruling was based have not substantially changed. An organization to which this paragraph (d)(2)(xi) applies shall be treated as an organization described in section 170(b)(1)(A)(iii) for a period not ending prior to 90 days after February 13, 1976 (or where appropriate, for taxable years beginning before such 90th day). In addition, with respect to a grantor or contributor under sections 170, 507, 545(b)(2), 556(b)(2), 642(c), 4942, 4945, 2055, 2106(a)(2), and 2522, the status of an organization to which this paragraph (d)(2)(xi) applies will not be affected until notice of change of status under section 170(b)(1)(A)(iii) is made to the public (such as by publication in the Internal Revenue Bulletin). The preceding sentence shall not apply if the grantor or contributor had previously acquired knowledge that the Internal Revenue Service had given notice to such organization that it would be deleted from classification as a section 170(b)(1)(A)(iii) organization.

(e) *Governmental unit.* A governmental unit is described in section 170(b)(1)(A)(v) if it is referred to in section 170(c)(1).

(f) *Definition of section 170(b)(1)(A)(vi) organization—(1) In general.* An organization is described in section 170(b)(1)(A)(vi) if it—

(i) Is referred to in section 170(c)(2) (other than an organization specifically described in paragraphs (b) through (e) of this section); and

(ii) Normally receives a substantial part of its support from a governmental unit referred to in section 170(c)(1) or from direct or indirect contributions from the general public (“publicly supported”). For purposes of this paragraph (f), an organization is publicly supported if it meets the requirements of either paragraph (f)(2) of this section (33⅓ percent support test) or paragraph (f)(3) of this section (facts and circumstances test). Paragraph (f)(4) of this section defines “normally” for purposes of the 33⅓ percent support test and the facts and circumstances test, and for new organizations in the first five years of the organization’s existence as a section 501(c)(3) organization. Paragraph (f)(5) of this section provides for determinations of foundation classification and rules for reliance by donors and contributors. Paragraphs (f)(6), (f)(7), and (f)(8) of this section list the items that are included and excluded from the term support. Paragraph (f)(9) of this section provides examples of the application of this paragraph. Types of organizations that, subject to the provisions of this paragraph (f), generally qualify under section 170(b)(1)(A)(vi) as “publicly supported” are publicly or governmentally supported museums of history, art, or science, libraries, community centers to promote the arts, organizations providing facilities for the support of an opera, symphony orchestra, ballet, or repertory drama or for some other direct service to the general public.

(2) *Determination whether an organization is “publicly supported”; 33⅓ percent support test.* An organization is publicly supported if the total amount of support (see paragraphs (f)(6), (f)(7), and (f)(8) of this section) that the organization normally (see paragraph (f)(4)(i) of this section) receives from governmental units referred to in section 170(c)(1), from contributions made directly or indirectly by the general public, or from a combination of these sources, equals at least 33⅓ percent of the total support normally received by the organization. See paragraph (f)(9), *Example 1* of this section.

(3) *Determination whether an organization is “publicly supported”; facts and circumstances test.* Even if an organization fails to meet the 33⅓ percent support test described in paragraph (f)(2) of this section, it is publicly supported if it normally (see paragraph (f)(4)(i) of this section) receives a substantial part of its support from governmental units, from contributions made directly or indirectly by the general public, or from a combination of these sources, and meets the other requirements of this paragraph (f)(3). In order to satisfy the facts and circumstances test, an organization must meet the requirements of paragraphs (f)(3)(i) and (f)(3)(ii) of this section. In addition, the organization must be in the nature of an organization that is publicly supported, taking into account all pertinent facts and circumstances, including the factors listed in paragraphs (f)(3)(iii)(A) through (f)(3)(iii)(E) of this section.

(i) *Ten-percent support limitation.* The percentage of support (see paragraphs (f)(6), (f)(7) and (f)(8) of this section) normally received by an organization from governmental units, from contributions made directly or indirectly by the general public, or from a combination of these sources, must be substantial. For purposes of this paragraph (f)(3), an organization will not be treated as normally receiving a substantial amount of governmental or public support unless the total amount of governmental and public support normally received equals at least 10 percent of the total support normally received by such organization.

(ii) *Attraction of public support.* An organization must be so organized and operated as to attract new and additional public or governmental support on a continuous basis. An organization will be considered to meet this requirement if it maintains a continuous and bona fide program for solicitation of funds from the general public, community, or membership group involved, or if it carries on activities designed to attract support from governmental units or other organizations described in section 170(b)(1)(A)(i) through (b)(1)(A)(vi). In determining whether an organization maintains a continuous and bona fide program for solicitation of funds from the general public or

community, consideration will be given to whether the scope of its fundraising activities is reasonable in light of its charitable activities. Consideration will also be given to the fact that an organization, in its early years of existence, may limit the scope of its solicitation to persons deemed most likely to provide seed money in an amount sufficient to enable it to commence its charitable activities and expand its solicitation program.

(iii) In addition to the requirements set forth in paragraphs (f)(3)(i) and (f)(3)(ii) of this section that must be satisfied, all pertinent facts and circumstances, including the following factors, will be taken into consideration in determining whether an organization is “publicly supported” within the meaning of paragraph (f)(1) of this section. However, an organization is not generally required to satisfy all of the factors in paragraphs (f)(3)(iii)(A) through (f)(3)(iii)(E) of this section. The factors relevant to each case and the weight accorded to any one of them may differ depending upon the nature and purpose of the organization and the length of time it has been in existence.

(A) *Percentage of financial support.* The percentage of support received by an organization from public or governmental sources will be taken into consideration in determining whether an organization is “publicly supported.” The higher the percentage of support above the 10 percent requirement of paragraph (f)(3)(i) of this section from public or governmental sources, the lesser will be the burden of establishing the publicly supported nature of the organization through other factors, including those described in this paragraph (f)(3), while the lower the percentage, the greater will be the burden. If the percentage of the organization’s support from public or governmental sources is low because it receives a high percentage of its total support from investment income on its endowment funds, such fact will be treated as evidence of an organization being “publicly supported” if such endowment funds were originally contributed by a governmental unit or by the general public. However, if such endowment funds were originally contributed

by a few individuals or members of their families, such fact will increase the burden on the organization of establishing that it is “publicly supported” taking into account all pertinent facts and circumstances, including the other factors described in paragraph (f)(3)(iii) of this section.

(B) *Sources of support.* The fact that an organization meets the requirement of paragraph (f)(3)(i) of this section through support from governmental units or directly or indirectly from a representative number of persons, rather than receiving almost all of its support from the members of a single family, will be considered evidence of an organization being “publicly supported.” In determining what is a “representative number of persons,” consideration will be given to the type of organization involved, the length of time it has been in existence, and whether it limits its activities to a particular community or region or to a special field which can be expected to appeal to a limited number of persons.

(C) *Representative governing body.* The fact that an organization has a governing body which represents the broad interests of the public, rather than the personal or private interests of a limited number of donors (or persons standing in a relationship to such donors which is described in section 4946(a)(1)(C) through (a)(1)(G)), will be considered evidence of an organization being “publicly supported.” An organization will be treated as having a representative governing body if it has a governing body (whether designated in the organization’s governing instrument or bylaws as a Board of Directors, Board of Trustees, or similar governing body) which is comprised of public officials acting in their capacities as such; of individuals selected by public officials acting in their capacities as such; of persons having special knowledge or expertise in the particular field or discipline in which the organization is operating; of community leaders, such as elected or appointed officials, clergymen, educators, civic leaders, or other such persons representing a broad cross-section of the views and interests of the community; or, in the case of a

membership organization, of individuals elected pursuant to the organization's governing instrument or bylaws by a broadly based membership.

(D) *Availability of public facilities or services; public participation in programs or policies.* (1) The fact that an organization generally provides facilities or services directly for the benefit of the general public on a continuing basis (such as a museum or library which holds open its building or facilities to the public, a symphony orchestra which gives public performances, a conservation organization which provides educational services to the public through the distribution of educational materials, or an old age home which provides domiciliary or nursing services for members of the general public) will be considered evidence that such organization is "publicly supported."

(2) The fact that an organization is an educational or research institution which regularly publishes scholarly studies that are widely used by colleges and universities or by members of the general public will also be considered evidence that such organization is "publicly supported."

(3) The following factors will also be considered evidence that an organization is "publicly supported":

(i) The participation in, or sponsorship of, the programs of the organization by members of the public having special knowledge or expertise, public officials, or civic or community leaders.

(ii) The maintenance of a definitive program by an organization to accomplish its charitable work in the community, such as combating community deterioration in an economically depressed area that has suffered a major loss of population and jobs.

(iii) The receipt of a significant part of its funds from a public charity or governmental agency to which it is in some way held accountable as a condition of the grant, contract, or contribution.

(E) *Additional factors pertinent to membership organizations.* The following are additional factors to be considered in determining whether a membership organization is "publicly supported":

(1) Whether the solicitation for dues-paying members is designed to enroll a

substantial number of persons in the community or area, or in a particular profession or field of special interest (taking into account the size of the area and the nature of the organization's activities).

(2) Whether membership dues for individual (rather than institutional) members have been fixed at rates designed to make membership available to a broad cross section of the interested public, rather than to restrict membership to a limited number of persons.

(3) Whether the activities of the organization will be likely to appeal to persons having some broad common interest or purpose, such as educational activities in the case of alumni associations, musical activities in the case of symphony societies, or civic affairs in the case of parent-teacher associations. See *Example 2* through *Example 5* contained in paragraph (f)(9) of this section for illustrations of this paragraph (f)(3).

(4) *Definition of normally; general rule—*(i) *Normally; 33 $\frac{1}{3}$ percent support test.* An organization "normally" receives the requisite amount of public support and meets the 33 $\frac{1}{3}$ percent support test for a taxable year and the taxable year immediately succeeding that year, if, for the taxable year being tested and the four taxable years immediately preceding that taxable year, the organization meets the 33 $\frac{1}{3}$ percent support test on an aggregate basis.

(ii) *Normally; facts and circumstances test.* An organization "normally" receives the requisite amount of public support and meets the facts and circumstances test of paragraph (f)(3) for a taxable year and the taxable year immediately succeeding that year, if, for the taxable year being tested and the four taxable years immediately preceding that taxable year, the organization meets the facts and circumstances test on an aggregate basis. In the case of paragraphs (f)(3)(iii)(A) and (f)(3)(iii)(B) of this section, facts pertinent to years preceding the five-year period may also be taken into consideration. The combination of factors set forth in paragraphs (f)(3)(iii)(A) through (f)(3)(iii)(E) of this section that an organization normally must meet does not have to be the same for

each five-year period so long as there exists a sufficient combination of factors to show compliance with the facts and circumstances test.

(iii) *Special rule.* The fact that an organization has normally met the requirements of the 33½ percent support test for a current taxable year, but is unable normally to meet such requirements for a succeeding taxable year, will not in itself prevent such organization from meeting the facts and circumstances test for such succeeding taxable year.

(iv) *Example.* The application of paragraphs (f)(4)(i), (f)(4)(ii), and (f)(4)(iii) of this section may be illustrated by the following example:

Example. (i) X is recognized as an organization described in section 501(c)(3). On the basis of support received during taxable years 2008, 2009, 2010, 2011, and 2012, in the aggregate, X receives at least 33½ percent of its support from governmental units referred to in section 170(c)(1), from contributions made directly or indirectly by the general public, or from a combination of these sources. Consequently, X meets the 33½ percent support test for taxable year 2012 (the current taxable year). X also meets the 33½ support test for 2013, as the immediately succeeding taxable year.

(ii) In taxable years 2009, 2010, 2011, 2012, and 2013, in the aggregate, X does not receive at least 33½ percent of its support from governmental units referred to in section 170(c)(1), from contributions made directly or indirectly by the general public, or from a combination of these sources. However, X still meets the 33½ percent support test for taxable year 2013 based on the aggregate support received for taxable years 2008 through 2012.

(iii) In taxable years 2010, 2011, 2012, 2013, and 2014, in the aggregate, X does not receive at least 33½ percent of its support from governmental units referred to in section 170(c)(1), from contributions made directly or indirectly by the general public, or from a combination of these sources. X does not meet the 33½ percent support test for taxable year 2014.

(iv) X meets the facts and circumstances test for taxable year 2013 and for taxable year 2014 (the immediately succeeding taxable year) based on the aggregate support X receives, X's fundraising program, and consideration of other factors, including those listed in paragraphs (f)(3)(iii)(A) through (f)(3)(iii)(E) of this section, during taxable years 2009, 2010, 2011, 2012, and 2013. Therefore, even though X does not meet the 33½ percent support test for taxable year 2014, X

is still an organization described in section 170(b)(1)(A)(vi) for that year.

(v) *Normally; first five years of an organization's existence.* (A) An organization "normally" receives the requisite amount of public support and meets the 33½ percent public support test or the facts and circumstances test during its first five taxable years as a section 501(c)(3) organization if the organization can reasonably be expected to meet the requirements of the 33½ percent support test or the facts and circumstances test during that period. With respect to such organization's sixth taxable year, the general definition of normally set forth in paragraphs (f)(4)(i), (f)(4)(ii), and (f)(4)(iii) of this section apply. Alternatively, the organization shall be treated as "normally" meeting the 33½ percent support test or the facts and circumstances test for its sixth taxable year (but not its seventh taxable year) if it meets the 33½ percent support test or the facts and circumstances test under the definition of normally set forth in paragraphs (f)(4)(i), (f)(4)(ii), and (f)(4)(iii) of this section for its fifth taxable year (based on support received in its first through fifth taxable years).

(B) *Basic consideration.* In determining whether an organization can reasonably be expected (within the meaning of paragraph (f)(4)(v)(A) of this section) to meet the requirements of the 33½ percent support test or the facts and circumstances test during its first five taxable years, the basic consideration is whether its organizational structure, current or proposed programs or activities, and actual or intended method of operation are such as can reasonably be expected to attract the type of broadly based support from the general public, public charities, and governmental units that is necessary to meet such tests. The factors that are relevant to this determination, and the weight accorded to each of them, may differ from case to case, depending on the nature and functions of the organization. The information to be considered for this purpose shall consist of all pertinent facts and circumstances, including the factors set forth in paragraph (f)(3) of this section.

(vi) *Example.* The application of paragraph (f)(4)(v) of this section may be illustrated by the following example:

Example. (i) Organization Y was formed in January 2008, and uses a taxable year ending December 31. After September 9, 2008, and before December 31, 2008, Organization Y filed Form 1023 requesting recognition of exemption as an organization described in section 501(c)(3) and in sections 170(b)(1)(A)(vi) and 509(a)(1). In its application, Organization Y established that it can reasonably be expected to operate as a publicly supported organization under paragraph (f)(2) or (f)(3) and paragraph (f)(4)(v) of this section. Subsequently, Organization Y received a ruling or determination letter that it is an organization described in section 501(c)(3) and sections 170(b)(1)(A)(vi) and 509(a)(1) effective as of the date of its formation.

(ii) Organization Y is described in sections 170(b)(1)(A)(vi) and 509(a)(1) for its first five taxable years (the taxable years ending December 31, 2008, through December 31, 2012).

(iii) Organization Y can qualify as a publicly supported organization for the taxable year ending December 31, 2013, if Organization Y can meet the requirements of either paragraph (f)(2) or paragraph (f)(3) of this section or § 1.509(a)-3(a) and § 1.509(a)-(3)(b) for the taxable years ending December 31, 2009, through December 31, 2013, or for the taxable years ending December 31, 2008, through December 31, 2012.

(vii) *Organizations reclassified as private foundations.* (A) *New publicly supported organizations.* If a new publicly supported organization described under section 170(b)(1)(A)(vi) cannot meet the requirements of the 33⅓ percent test of paragraph (f)(2) or the facts and circumstances test of paragraph (f)(3) for its sixth taxable year under the general definition of normally set forth in paragraphs (f)(4)(i), (f)(4)(ii), and (f)(4)(iii) of this section or under the alternate rule set forth in paragraph (f)(4)(v) of this section (effectively failing to meet a public support test for both its fifth and sixth taxable years), it will be treated as a private foundation as of the first day of its sixth taxable year only for purposes of sections 507, 4940, and 6033. Such an organization must file a Form 990-PF, "Return of Private Foundation or Section 4947(a)(1) Nonexempt Charitable Trust Treated as a Private Foundation," and will be liable for the net investment tax imposed by section 4940 and, if applicable, the private foundation termination tax imposed by section 507(c),

for its sixth taxable year. For succeeding taxable years, the organization will be treated as a private foundation for all purposes.

(B) *Other publicly supported organizations.* A publicly supported organization described in section 170(b)(1)(A)(vi) (other than a new publicly supported organization described in paragraph (f)(4)(vii)(A) of this section) that has failed to meet both the 33⅓ percent support test and the facts and circumstances test for any two consecutive taxable years will be treated as a private foundation as of the first day of the second consecutive taxable year only for purposes of sections 507, 4940, and 6033. Such an organization must file a Form 990-PF, "Return of Private Foundation or Section 4947(a)(1) Nonexempt Charitable Trust Treated as a Private Foundation," and will be liable for the net investment tax imposed by section 4940 and, if applicable, the private foundation termination tax imposed by section 507(c), for the second consecutive failed taxable year. For succeeding taxable years, the organization will be treated as a private foundation for all purposes.

(5) *Determinations of foundation classification and reliance.* (i) A ruling or determination letter that an organization is described in section 170(b)(1)(A)(vi) may be issued to an organization. Such determination may be made in conjunction with the recognition of the organization's tax-exempt status or at such other time as the organization believes it is described in section 170(b)(1)(A)(vi). The ruling or determination letter that the organization is described in section 170(b)(1)(A)(vi) may be revoked if, upon examination, the organization has not met the requirements of paragraph (f) of this section. The ruling or determination letter that the organization is described in section 170(b)(1)(A)(vi) also may be revoked if the organization's application for a ruling or determination contained one or more material misstatements or omissions of fact or if such application was part of a scheme or plan to avoid or evade any provision of the Internal Revenue Code. The revocation of the determination that an organization is described in

section 170(b)(1)(A)(vi) does not preclude revocation of the determination that the organization is described in section 501(c)(3).

(ii) *Status of grantors or contributors.* For purposes of sections 170, 507, 545(b)(2), 642(c), 4942, 4945, 4966, 2055, 2106(a)(2), and 2522, grantors or contributors may rely upon a determination letter or ruling that an organization is described in section 170(b)(1)(A)(vi) until the IRS publishes notice of a change of status (for example, in the Internal Revenue Bulletin or Publication 78, “Cumulative List of Organizations described in Section 170(c) of the Internal Revenue Code of 1986,” which can be searched at <http://www.irs.gov>.) For this purpose, grantors or contributors also may rely on an advance ruling that expires on or after June 9, 2008. However, a grantor or contributor may not rely on such an advance ruling or any determination letter or ruling if the grantor or contributor was responsible for, or aware of, the act or failure to act that resulted in the organization’s loss of classification under section 170(b)(1)(A)(vi) or acquired knowledge that the IRS had given notice to such organization that it would be deleted from such classification.

(iii) *Reliance by grantors or contributors.* A grantor or contributor, other than one of the organization’s founders, creators, or foundation managers (within the meaning of section 4946(b)), will not be considered to be responsible for, or aware of, the act or failure to act that resulted in the loss of the organization’s “publicly supported” classification under section 170(b)(1)(A)(vi), if such grantor or contributor has made such grant or contribution in reliance upon a written statement by the grantee organization that such grant or contribution will not result in the loss of such organization’s classification as a publicly supported organization as described in section 170(b)(1)(A)(vi). Such statement must be signed by a responsible officer of the grantee organization and must set forth sufficient information, including a summary of the pertinent financial data for the five taxable years immediately preceding the current taxable year, to assure a reasonably prudent person that his grant or contribution

will not result in the loss of the grantee organization’s classification as a publicly supported organization as described in section 170(b)(1)(A)(vi). If a reasonable doubt exists as to the effect of such grant or contribution, or if the grantor or contributor is one of the organization’s founders, creators, or foundation managers, the procedure set forth in paragraph (f)(6)(iv) of this section for requesting a determination from the IRS may be followed by the grantee organization for the protection of the grantor or contributor.

(6) *Definition of support; meaning of general public—(i) In general.* In determining whether the 33½ percent support test or the 10 percent support limitation described in paragraph (f)(3)(i) of this section is met, contributions by an individual, trust, or corporation shall be taken into account as support from direct or indirect contributions from the general public only to the extent that the total amount of the contributions by any such individual, trust, or corporation during the period described in paragraph (f)(4)(i) or paragraph (f)(4)(ii) of this section does not exceed two percent of the organization’s total support for such period, except as provided in paragraph (f)(6)(ii) of this section. Therefore, for example, any contribution by one individual will be included in full in the denominator of the fraction determining the 33½ percent support or the 10 percent support limitation, but will be includible in the numerator of such fraction only to the extent that such amount does not exceed two percent of the denominator. In applying the two percent limitation, all contributions made by a donor and by any person or persons standing in a relationship to the donor that is described in section 4946(a)(1)(C) through (a)(1)(G) and the related regulations shall be treated as made by one person. The two percent limitation shall not apply to support received from governmental units referred to in section 170(c)(1) or to contributions from organizations described in section 170(b)(1)(A)(vi), except as provided in paragraph (f)(6)(v) of this section. For purposes of paragraphs (f)(2), (f)(3)(i), and (f)(7)(iii)(A)(2) of this section, the

term *indirect contributions from the general public* includes contributions received by the organization from organizations (such as section 170(b)(1)(A)(vi) organizations) that normally receive a substantial part of their support from direct contributions from the general public, except as provided in paragraph (f)(6)(v) of this section. See the examples in paragraph (f)(9) of this section for the application of this paragraph (f)(6)(i). For purposes of this paragraph (f), the term *contributions* includes qualified sponsorship payments (as defined in § 1.513-4) in the form of money or property (but not services).

(ii) *Exclusion of unusual grants.* (A) For purposes of applying the two percent limitation described in paragraph (f)(6)(i) of this section to determine whether the 33 $\frac{1}{3}$ percent support test or the 10 percent support limitation in paragraph (f)(3)(i) of this section is satisfied, one or more contributions may be excluded from both the numerator and the denominator of the applicable support fraction if such contributions meet the requirements of paragraph (f)(6)(iii) of this section. The exclusion provided by this paragraph (f)(6)(ii) is generally intended to apply to substantial contributions or bequests from disinterested parties, which contributions or bequests—

(1) Are attracted by reason of the publicly supported nature of the organization;

(2) Are unusual or unexpected with respect to the amount thereof; and

(3) Would, by reason of their size, adversely affect the status of the organization as normally being publicly supported for the applicable period described in paragraph (f)(4) of this section.

(B) In the case of a grant (as defined in § 1.509(a)-3(g)) that meets the requirements of this paragraph (f)(6)(ii), if the terms of the granting instrument require that the funds be paid to the recipient organization over a period of years, the grant amounts received by the organization may be excluded for such year or years in which they would otherwise be includible in computing support under the method of accounting on the basis of which the organization regularly computes its income in keeping its books under section 446.

However, no item of gross investment income may be excluded under this paragraph (f)(6). The provisions of this paragraph (f)(6) shall apply to exclude unusual grants made during any of the applicable periods described in paragraph (f)(4) or paragraph (f)(6) of this section. See paragraph (f)(6)(iv) of this section as to reliance by a grantee organization upon an unusual grant ruling under this paragraph (f)(6).

(iii) *Determining factors.* In determining whether a particular contribution may be excluded under paragraph (f)(6)(ii) of this section, all pertinent facts and circumstances will be taken into consideration. No single factor will necessarily be determinative. For some of the factors similar to the factors to be considered, see § 1.509(a)-3(c)(4).

(iv) *Grantors and contributors.* Prior to the making of any grant or contribution that will allegedly meet the requirements for exclusion under paragraph (f)(6)(ii) of this section, a potential grantee organization may request a determination whether such grant or contribution may be so excluded. Requests for such determination may be filed by the grantee organization in the time and manner specified by revenue procedure or other guidance published in the Internal Revenue Bulletin. The issuance of such determination will be at the sole discretion of the Commissioner. The organization must submit all information necessary to make a determination on the factors referred to in paragraph (f)(6)(iii) of this section. If a favorable determination is issued, such determination may be relied upon by the grantor or contributor of the particular contribution in question for purposes of sections 170, 507, 545(b)(2), 642(c), 4942, 4945, 4966, 2055, 2106(a)(2), and 2522 and by the grantee organization for purposes of paragraph (f)(6)(ii) of this section.

(v) *Grants from public charities.* Pursuant to paragraph (f)(6)(i) of this section, contributions received from a governmental unit or from a section 170(b)(1)(A)(vi) organization are not subject to the two percent limitation described in paragraph (f)(6)(i) of this section unless such contributions represent amounts which have been expressly or impliedly earmarked by a

donor to such governmental unit or section 170(b)(1)(A)(vi) organization as being for, or for the benefit of, the particular organization claiming section 170(b)(1)(A)(vi) status. See § 1.509(a)-3(j)(3) for examples illustrating the rules of this paragraph (f)(6)(v).

(7) *Definition of support; special rules and meaning of terms*—(i) *Definition of support*. For purposes of this paragraph (f), the term “support” shall be as defined in section 509(d) (without regard to section 509(d)(2)). The term “support” does not include—

(A) Any amounts received from the exercise or performance by an organization of its charitable, educational, or other purpose or function constituting the basis for its exemption under section 501(a). In general, such amounts include amounts received from any activity the conduct of which is substantially related to the furtherance of such purpose or function (other than through the production of income); or

(B) Contributions of services for which a deduction is not allowable.

(ii) For purposes of the 33⅓ percent support test and the 10 percent support limitation in paragraph (f)(3)(i) of this section, all amounts received that are described in paragraph (f)(7)(i)(A) or paragraph (f)(7)(i)(B) of this section are to be excluded from both the numerator and the denominator of the fractions determining compliance with such tests, except as provided in paragraph (f)(7)(iii) of this section.

(iii) *Organizations dependent primarily on gross receipts from related activities*.

(A) Notwithstanding the provisions of paragraph (f)(7)(i) of this section, an organization will not be treated as satisfying the 33⅓ percent support test or the 10 percent support limitation in paragraph (f)(3)(i) of this section if it receives—

(1) Almost all of its support (as defined in section 509(d)) from gross receipts from related activities; and

(2) An insignificant amount of its support from governmental units (without regard to amounts referred to in paragraph (f)(7)(i)(A) of this section) and contributions made directly or indirectly by the general public.

(B) *Example*. The application of this paragraph (f)(7)(iii) may be illustrated by the following example:

Example. Z, an organization described in section 501(c)(3), is controlled by A, its president. Z received \$500,000 during the period consisting of the current taxable year and the four immediately preceding taxable years under a contract with the Department of Transportation, pursuant to which Z has engaged in research to improve a particular vehicle used primarily by the Federal government. During this same period, the only other support received by Z consisted of \$5,000 in small contributions primarily from Z's employees and business associates. The \$500,000 amount constitutes support under sections 509(d)(2) and 509(a)(2)(A). Under these circumstances, Z meets the conditions of paragraphs (f)(7)(iii)(A)(1) and (f)(7)(iii)(A)(2) of this section and will not be treated as meeting the requirements of either the 33⅓ percent support test or the facts and circumstances test. As to the rules applicable to organizations that fail to qualify under section 170(b)(1)(A)(vi) because of the provisions of this paragraph (f)(7)(iii), see section 509(a)(2) and the related regulations. For the distinction between gross receipts (as referred to in section 509(d)(2)) and gross investment income (as referred to in section 509(d)(4)), see § 1.509(a)-3(m).

(iv) *Membership fees*. For purposes of this paragraph (f)(7), the term *support* shall include “membership fees” within the meaning of § 1.509(a)-3(h) (that is, if the basic purpose for making a payment is to provide support for the organization rather than to purchase admissions, merchandise, services, or the use of facilities).

(8) *Support from a governmental unit*.

(i) For purposes of the 33⅓ percent support test and the 10 percent support limitation described in paragraph (f)(3)(i) of this section, the term *support from a governmental unit* includes any amounts received from a governmental unit, including donations or contributions and amounts received in connection with a contract entered into with a governmental unit for the performance of services or in connection with a government research grant. However, such amounts will not constitute support from a governmental unit for such purposes if they constitute amounts received from the exercise or performance of the organization's exempt functions as provided in paragraph (f)(7)(i)(A) of this section.

(ii) For purposes of paragraph (f)(8)(i) of this section, any amount paid by a governmental unit to an organization is not to be treated as received from

the exercise or performance of its charitable, educational, or other purpose or function constituting the basis for its exemption under section 501(a) (within the meaning of paragraph (f)(7)(i)(A) of this section) if the purpose of the payment is primarily to enable the organization to provide a service to, or maintain a facility for, the direct benefit of the public (regardless of whether part of the expense of providing such service or facility is paid for by the public), rather than to serve the direct and immediate needs of the payor. For example—

(A) Amounts paid for the maintenance of library facilities which are open to the public;

(B) Amounts paid under government programs to nursing homes or homes for the aged in order to provide health care or domiciliary services to residents of such facilities; and

(C) Amounts paid to child placement or child guidance organizations under government programs for services rendered to children in the community, are considered payments the purpose of

which is primarily to enable the recipient organization to provide a service or maintain a facility for the direct benefit of the public, rather than to serve the direct and immediate needs of the payor. Furthermore, any amount received from a governmental unit under circumstances such that the amount would be treated as a “grant” within the meaning of § 1.509(a)-3(g) will generally constitute “support from a governmental unit” described in this paragraph (f)(8), rather than an amount described in paragraph (f)(7)(i)(A) of this section.

(9) *Examples.* The application of paragraphs (f)(1) through (f)(8) of this section may be illustrated by the following examples:

Example 1. (i) M is recognized as an organization described in section 501(c)(3). For the years 2008 through 2012 (the applicable period with respect to the taxable year 2012 under paragraph (f)(4) of this section), M received support (as defined in paragraphs (f)(6) through (8) of this section) of \$600,000 from the following sources:

Investment income	\$300,000
City R (a governmental unit described in section 170(c)(1))	40,000
United Fund (an organization described in section 170(b)(1)(A)(vi))	40,000
Contributions (including six contributions in excess of the two-percent limit, totaling \$170,000)	220,000
Total support	600,000

(ii) With respect to the taxable year 2012, M’s public support is computed as follows:

Support from a governmental unit described in section 170(c)(1)	\$40,000
Indirect contributions from the general public (United Fund)	40,000
Contributions by various donors that were not in excess of \$12,000, or two percent of total support	50,000
Six contributions that were each in excess of \$12,000, or two percent of total support, up to the two-percent limitation, $6 \times \$12,000$	72,000
Total support	202,000

(iii) M’s support from governmental units referred to in section 170(c)(1) and from direct and indirect contributions from the general public (as defined in paragraph (f)(6) of this section) with respect to the taxable year 2012 normally exceeds $33\frac{1}{3}$ percent of M’s total support ($\$202,000/\$600,000 = 33.67$ percent)

for the applicable period (2008 through 2012). M meets the $33\frac{1}{3}$ percent support test with respect to 2012 and is therefore publicly supported for the taxable years 2012 and 2013.

Example 2. (i) N is recognized as an organization described in section 501(c)(3). It was

created to maintain public gardens containing botanical specimens and displaying statuary and other art objects. The facilities, works of art, and a large endowment were all contributed by a single contributor. The members of the governing body of the organization are unrelated to its creator. The gardens are open to the public without charge and attract a substantial number of visitors each year. For the current taxable year and the four taxable years immediately preceding the current taxable year, 95 percent of the organization's total support was received from investment income from its original endowment. N also maintains a membership society that is supported by members of the general public who wish to contribute to the upkeep of the gardens by paying a small annual membership fee. Over the five-year period in question, these fees from the general public constituted the remaining five percent of the organization's total support for such period.

(ii) Under these circumstances, N does not meet the 33⅓ percent support test for its current taxable year. Furthermore, because only five percent of its total support is, with respect to the current taxable year, normally received from the general public, N does not satisfy the 10 percent support limitation described in paragraph (f)(3)(i) of this section and therefore does not qualify as publicly supported under the facts and circumstances test. Because N has failed to satisfy the 10 percent support limitation under paragraph (f)(3)(i) of this section, none of the other requirements or factors set forth in paragraphs (f)(3)(iii)(A) through (f)(3)(iii)(E) of this section can be considered in determining whether N qualifies as a publicly supported organization. For its current taxable year, therefore, N is not an organization described in section 170(b)(1)(A)(vi).

Example 3. (i) O, an art museum, is recognized as an organization described in section 501(c)(3). In 1930, O was founded in S City by the members of a single family to collect, preserve, interpret, and display to the public important works of art. O is governed by a Board of Trustees that originally consisted almost entirely of members of the founding family. However, since 1945, members of the founding family or persons standing in a relationship to the members of such family described in section 4946(a)(1)(C) through (G) have annually constituted less than one-fifth of the Board of Trustees. The remaining board members are citizens of S City from a variety of professions and occupations who represent the interests and views of the people of S City in the activities carried on by the organization rather than the personal or private interests of the founding family. O solicits contributions from the general public and, for the current taxable year and each of the four taxable years immediately preceding the current taxable year, O has re-

ceived total contributions (in small sums of less than \$100, none of which exceeds two percent of O's total support for such period) in excess of \$10,000. These contributions from the general public (as defined in paragraph (f)(6) of this section) represent 25 percent of the organization's total support for such five-year period. For this same period, investment income from several large endowment funds has constituted 75 percent of O's total support. O expends substantially all of its annual income for its exempt purposes and thus depends upon the funds it annually solicits from the public as well as its investment income in order to carry out its activities on a normal and continuing basis and to acquire new works of art. O has, for the entire period of its existence, been open to the public and more than 300,000 people (from S City and elsewhere) have visited the museum in each of the current taxable year and the four immediately preceding taxable years.

(ii) Under these circumstances, O does not meet the 33⅓ percent support test for its current year because it has received only 25 percent of its total support for the applicable five-year period from the general public. However, under the facts set forth above, O meets the 10 percent support limitation under paragraph (f)(3)(i) of this section, as well as the requirements of paragraph (f)(3)(ii) of this section. Under all of the facts set forth in this example, O is considered as meeting the requirements of the facts and circumstances test on the basis of satisfying paragraphs (f)(3)(i) and (f)(3)(ii) of this section and the factors set forth in paragraphs (f)(3)(iii)(A) through (f)(3)(iii)(D) of this section. O is therefore publicly supported for its current taxable year and the immediately succeeding taxable year.

Example 4. (i) In 1960, the P Philharmonic Orchestra was organized in T City through the combined efforts of a local music society and a local women's club to present to the public a wide variety of musical programs intended to foster music appreciation in the community. P is recognized as an organization described in section 501(c)(3). The orchestra is composed of professional musicians who are paid by the association. Twelve performances open to the public are scheduled each year. A small admission fee is charged for each of these performances. In addition, several performances are staged annually without charge. During the current taxable year and the four taxable years immediately preceding the current taxable year, P has received separate contributions of \$200,000 each from A and B (not members of a single family) and support of \$120,000 from the T Community Chest, a public federated fundraising organization operating in T City. P depends on these funds in order to carry out its activities and will continue to depend on contributions of this type to be

§ 1.170A-9

26 CFR Ch. I (4-1-17 Edition)

made in the future. P has also begun a fund-raising campaign in an attempt to expand its activities for the coming years. P is governed by a Board of Directors comprised of five individuals. A faculty member of a local college, the president of a local music society, the head of a local banking institution, a prominent doctor, and a member of the governing body of the local chamber of com-

merce currently serve on P's Board and represent the interests and views of the community in the activities carried on by P.

(ii) With respect to P's current taxable year, P's sources of support are computed on the basis of the current taxable year and the four taxable years immediately preceding the current taxable year, as follows:

Contributions	\$520,000
Receipts from performances	100,000
Total support	620,000
Less:	
Receipts from performances (excluded under paragraph (f)(7)(i)(A) of this section)	100,000
Total support for purposes of paragraphs (f)(2) and (f)(3)(i) of this section	520,000

(iii) For purposes of paragraphs (f)(2) and (f)(3)(i) of this section, P's public support is computed as follows:

T Community Chest (indirect support from the general public)	120,000
Two contributions from A & B (each in excess of \$10,400 - 2 percent of total support) $2 \times \$10,400$	20,800
Total	140,800

(iv) Under these circumstances, P does not meet the 33 $\frac{1}{3}$ percent support test for its current year because it has received only 27 percent of its total support (\$140,800/\$520,000) for the applicable five-year period from the general public. However, under the facts set forth above, P meets the 10 percent support limitation under paragraph (f)(3)(i) of this section, as well as the requirements of paragraph (f)(3)(ii) of this section. Under all of the facts set forth in this example, P is considered as meeting the requirements of the facts and circumstances test on the basis of satisfying paragraphs (f)(3)(i) and (f)(3)(ii) of this section and the factors set forth in paragraphs (f)(3)(iii)(A) through (f)(3)(iii)(D) of this section. P is therefore publicly supported for its current taxable year and the immediately succeeding taxable year.

Example 5. (i) Q is recognized as an organization described in section 501(c)(3). It is a philanthropic organization founded in 1965 by C for the purpose of making annual contributions to worthy charities. C created Q as a charitable trust by the transfer of ap-

preciated securities worth \$500,000 to Q. Pursuant to the trust agreement, C and two other members of his family are the sole trustees of Q and are vested with the right to appoint successor trustees. In each of the current taxable year and the four taxable years immediately preceding the current taxable year, Q received \$12,000 in investment income from its original endowment. Each year Q makes a solicitation for funds by operating a charity ball at C's residence. Guests are invited and requested to make contributions of \$100 per couple. During the five-year period at issue, \$15,000 was received from the proceeds of these events. C and his family have also made contributions to Q of \$25,000 over the five-year period at issue. Q makes disbursements each year of substantially all of its net income to the public charities chosen by the trustees.

(ii) Q's sources of support for the current taxable year and the four taxable years immediately preceding the current taxable year as follows:

Investment income	\$60,000
Contributions	40,000
Total support	100,000

Internal Revenue Service, Treasury

§ 1.170A-9

(iii) For purposes of paragraphs (f)(2) and (f)(3)(i) of this section, Q's public support is computed as follows:

Contributions from the general public	\$ 15,000
C's contribution (in excess of \$ 2,000 – 2 percent of total support) $1 \times$ \$2,000	2,000
Total	17,000

(iv) Under these circumstances, Q does not meet the 33⅓ percent support test for its current year because it has received only 17 percent of its total support (\$17,000/\$100,000) for the applicable five-year period from the general public. Thus, Q's classification as a "publicly supported" organization depends on whether it meets the requirements of the facts and circumstances test. Even though it satisfies the 10 percent support limitation under paragraph (f)(3)(i) of this section, its method of solicitation makes it questionable whether Q satisfies the requirements of paragraph (f)(3)(ii) of this section. Because of its method of operating, Q also has a greater burden of establishing its publicly supported nature under paragraph (f)(3)(iii)(A) of this section. Based upon the foregoing facts and circumstances, including Q's failure to receive favorable consideration under the factors set forth in paragraphs (f)(3)(iii)(B), (f)(3)(iii)(C), and (f)(3)(iii)(D) of this section, Q does not satisfy the facts and circumstances test.

(10) *Community trust; introduction.* Community trusts have often been established to attract large contributions of a capital or endowment nature for the benefit of a particular community or area, and often such contributions have come initially from a small number of donors. While the community trust generally has a governing body comprised of representatives of the particular community or area, its contributions are often received and maintained in the form of separate trusts or funds, which are subject to varying degrees of control by the governing body. To qualify as a "publicly supported" organization, a community trust must meet the 33⅓ percent support test, or, if it cannot meet that test, be organized and operated so as to attract new and additional public or governmental support on a continuous basis sufficient to meet the facts and circumstances test. Such facts and circumstances test includes a requirement of attraction of public support in paragraph (f)(3)(ii) of this section

which, as applied to community trusts, generally will be satisfied if they seek gifts and bequests from a wide range of potential donors in the community or area served, through banks or trust companies, through attorneys or other professional persons, or in other appropriate ways that call attention to the community trust as a potential recipient of gifts and bequests made for the benefit of the community or area served. A community trust is not required to engage in periodic, community-wide, fundraising campaigns directed toward attracting a large number of small contributions in a manner similar to campaigns conducted by a community chest or united fund. Paragraph (f)(11) of this section provides rules for determining the extent to which separate trusts or funds may be treated as component parts of a community trust, fund, or foundation (herein collectively referred to as a "community trust," and sometimes referred to as an "organization") for purposes of meeting the requirements of this paragraph for classification as a publicly supported organization. Paragraph (f)(12) of this section contains rules for trusts or funds that are prevented from qualifying as component parts of a community trust by paragraph (f)(11) of this section.

(11) *Community trusts; requirements for treatment as a single entity—(i) General rule.* For purposes of sections 170, 501, 507, 508, 509, and Chapter 42, any organization that meets the requirements contained in paragraphs (f)(11)(iii) through (f)(11)(vi) of this section will be treated as a single entity, rather than as an aggregation of separate funds, and except as otherwise provided, all funds associated with such organization (whether a trust, not-for-profit corporation, unincorporated association, or a combination thereof)

which meet the requirements of paragraph (f)(11)(ii) of this section will be treated as component parts of such organization.

(ii) *Component part of a community trust.* In order to be treated as a component part of a community trust referred to in this paragraph (f)(11) (rather than as a separate trust or not-for-profit corporation or association), a trust or fund:

(A) Must be created by a gift, bequest, legacy, devise, or other transfer to a community trust which is treated as a single entity under this paragraph (f)(11); and

(B) May not be directly or indirectly subjected by the transferor to any material restriction or condition (within the meaning of § 1.507-2(a)(7)) with respect to the transferred assets. For purposes of this paragraph (f)(11)(ii)(B), if the transferor is not a private foundation, the provisions of § 1.507-2(a)(7) shall be applied to the trust or fund as if the transferor were a private foundation established and funded by the person establishing the trust or fund and such foundation transferred all its assets to the trust or fund. Any transfer made to a fund or trust which is treated as a component part of a community trust under this paragraph (f)(11)(ii) will be treated as a transfer made “to” a “publicly supported” community trust for purposes of sections 170(b)(1)(A) and 507(b)(1)(A) if such community trust meets the requirements of section 170(b)(1)(A)(vi) as a “publicly supported” organization at the time of the transfer, except as provided in paragraph (f)(5)(ii) of this section or §§ 1.508-1(b)(4) and 1.508-1(b)(6) (relating, generally, to reliance by grantors and contributors). See also paragraphs (f)(12)(ii) and (f)(12)(iii) of this section for special provisions relating to split-interest trusts and certain private foundations described in section 170(b)(1)(F)(iii).

(iii) *Name.* The organization must be commonly known as a community trust, fund, foundation, or other similar name conveying the concept of a capital or endowment fund to support charitable activities (within the meaning of section 170(c)(1) or section 170(c)(2)(B)) in the community or area it serves.

(iv) *Common instrument.* All funds of the organization must be subject to a common governing instrument or a master trust or agency agreement (herein referred to as the “governing instrument”), which may be embodied in a single document or several documents containing common language. Language in an instrument of transfer to the community trust making a fund subject to the community trust’s governing instrument or master trust or agency agreement will satisfy the requirements of this paragraph (f)(11)(iv). In addition, if a community trust adopts a new governing instrument (or creates a corporation) to put into effect new provisions (applying to future transfers to the community trust), the adoption of such new governing instrument (or creation of a corporation with a governing instrument) which contains common language with the existing governing instrument shall not preclude the community trust from meeting the requirements of this paragraph (f)(11)(iv).

(v) *Common governing body.* (A) The organization must have a common governing body or distribution committee (herein referred to as the “governing body”) which either directs or, in the case of a fund designated for specified beneficiaries, monitors the distribution of all of the funds exclusively for charitable purposes (within the meaning of section 170(c)(1) or section 170(c)(2)(B)). For purposes of this paragraph (f)(11)(v), a fund is designated for specified beneficiaries only if no person is left with the discretion to direct the distribution of the fund.

(B) *Powers of modification and removal.* The fact that the exercise of any power described in this paragraph (f)(11)(v)(B) is reviewable by an appropriate State authority will not preclude the community trust from meeting the requirements of this paragraph (f)(11)(v)(B). Except as provided in paragraph (f)(11)(v)(C) of this section, the governing body must have the power in the governing instrument, the instrument of transfer, the resolutions or by-laws of the governing body, a written agreement, or otherwise—

(1) To modify any restriction or condition on the distribution of funds for any specified charitable purposes or to

specified organizations if in the sole judgment of the governing body (without the necessity of the approval of any participating trustee, custodian, or agent), such restriction or condition becomes, in effect, unnecessary, incapable of fulfillment, or inconsistent with the charitable needs of the community or area served;

(2) To replace any participating trustee, custodian, or agent for breach of fiduciary duty under State law; and

(3) To replace any participating trustee, custodian, or agent for failure to produce a reasonable (as determined by the governing body) return of net income (within the meaning of paragraph (f)(11)(v)(F) of this section) over a reasonable period of time (as determined by the governing body).

(C) *Transitional rule*—(1) Notwithstanding paragraph (f)(11)(v)(B) of this section, if a community trust meets the requirements of paragraph (f)(11)(v)(C)(3) of this section, then in the case of any instrument of transfer which is executed before July 19, 1977, and is not revoked or amended thereafter (with respect to any dispositive provision affecting the transfer to the community trust), and in the case of any instrument of transfer which is irrevocable on January 19, 1982, the governing body must have the power to cause proceedings to be instituted (by request to the appropriate State authority)—

(i) To modify any restriction or condition on the distribution of funds for any specified charitable purposes or to specified organizations if in the judgment of the governing body such restriction or condition becomes, in effect, unnecessary, incapable of fulfillment, or inconsistent with the charitable needs of the community or area served; and

(ii) To remove any participating trustee, custodian, or agent for breach of fiduciary duty under State law.

(2) The necessity for the governing body to obtain the approval of a participating trustee to exercise the powers described in paragraph (f)(11)(v)(C)(I) of this section shall be treated as not preventing the governing body from having such power, unless (and until) such approval has

been (or is) requested by the governing body and has been (or is) denied.

(3) Paragraph (f)(11)(v)(C)(I) of this section shall not apply unless the community trust meets the requirements of paragraph (f)(11)(v)(B) of this section, with respect to funds other than those under instruments of transfer described in the first sentence of such paragraph (f)(11)(v)(C)(I) of this section, by January 19, 1978, or such later date as the Commissioner may provide for such community trust, and unless the community trust does not, once it so complies, thereafter solicit for funds that will not qualify under the requirements of paragraph (f)(11)(v)(B) of this section.

(D) *Inconsistent State law*—(1) For purposes of paragraphs (f)(11)(v)(B)(I), (f)(11)(v)(B)(2), (f)(11)(v)(B)(3), (f)(11)(v)(C)(I)(i), (f)(11)(v)(C)(I)(ii), and (f)(11)(v)(E) of this section, if a power described in such a provision is inconsistent with State law even if such power were expressly granted to the governing body by the governing instrument and were accepted without limitation under an instrument of transfer, then the community trust will be treated as meeting the requirements of such a provision if it meets such requirements to the fullest extent possible consistent with State law (if such power is or had been so expressly granted).

(2) For example, if, under the conditions of paragraph (f)(11)(v)(D)(I) of this section, the power to modify is inconsistent with State law, but the power to institute proceedings to modify, if so expressly granted, would be consistent with State law, the community trust will be treated as meeting such requirements to the fullest extent possible if the governing body has the power (in the governing instrument or otherwise) to institute proceedings to modify a condition or restriction. On the other hand, if in such a case the community trust has only the power to cause proceedings to be instituted to modify a condition or restriction, it will not be treated as meeting such requirements to the fullest extent possible.

(3) In addition, if, for example, under the conditions of paragraph (f)(11)(v)(D)(I) of this section, the

power to modify and the power to institute proceedings to modify a condition or restriction is inconsistent with State law, but the power to cause such proceedings to be instituted would be consistent with State law, if it were expressly granted in the governing instrument and if the approval of the State Attorney General were obtained, then the community trust will be treated as meeting such requirements to the fullest extent possible if it has the power (in the governing instrument or otherwise) to cause such proceedings to be instituted, even if such proceedings can be instituted only with the approval of the State Attorney General.

(E) *Exercise of powers.* The governing body shall (by resolution or otherwise) commit itself to exercise the powers described in paragraphs (f)(11)(v)(B), (f)(11)(v)(C), and (f)(11)(v)(D) of this section in the best interests of the community trust. The governing body will be considered not to be so committed where it has grounds to exercise such a power and fails to exercise it by taking appropriate action. Such appropriate action may include, for example, consulting with the appropriate State authority prior to taking action to replace a participating trustee.

(F) *Reasonable return.* In addition to the requirements of paragraphs (f)(11)(v)(B), (f)(11)(v)(C), (f)(11)(v)(D), or (f)(11)(v)(E) of this section, the governing body shall (by resolution or otherwise) commit itself to obtain information and take other appropriate steps with the view to seeing that each participating trustee, custodian, or agent, with respect to each restricted trust or fund that is, and with respect to the aggregate of the unrestricted trusts or funds that are, a component part of the community trust, administers such trust or fund in accordance with the terms of its governing instrument and accepted standards of fiduciary conduct to produce a reasonable return of net income (or appreciation where not inconsistent with the community trust's need for current income), with due regard to safety of principal, in furtherance of the exempt purposes of the community trust (except for assets held for the active conduct of the community trust's exempt

activities). In the case of a low return of net income (and, where appropriate, appreciation), the IRS will examine carefully whether the governing body has, in fact, committed itself to take the appropriate steps. For purposes of this paragraph (f)(11)(v)(F), any income that has been designated by the donor of the gift or bequest to which such income is attributable as being available only for the use or benefit of a broad charitable purpose, such as the encouragement of higher education or the promotion of better health care in the community, will be treated as unrestricted. However, any income that has been designated for the use or benefit of a named charitable organization or agency or for the use or benefit of a particular class of charitable organizations or agencies, the members of which are readily ascertainable and are less than five in number, will be treated as restricted.

(vi) *Common reports.* The organization must prepare periodic financial reports treating all of the funds which are held by the community trust, either directly or in component parts, as funds of the organization.

(12) *Community trusts; treatment of trusts and not-for-profit corporations and associations not included as components.*

(i) For purposes of sections 170, 501, 507, 508, 509, and Chapter 42, any trust or not-for-profit corporation or association that is alleged to be a component part of a community trust, but that fails to meet the requirements of paragraph (f)(11)(ii) of this section, shall not be treated as a component part of a community trust and, if a trust, shall be treated as a separate trust and be subject to the provisions of section 501, section 4947(a)(1), or section 4947(a)(2), as the case may be. If such organization is a not-for-profit corporation or association, it will be treated as a separate entity, and, if it is described in section 501(c)(3), it will be treated as a private foundation unless it is described in section 509(a)(1), section 509(a)(2), section 509(a)(3), or section 509(a)(4). In the case of a fund that is ultimately treated as not being a component part of a community trust pursuant to this paragraph (f)(12), if the

Forms 990 filed annually by the community trust included financial information with respect to such fund and treated such fund in the same manner as other component parts thereof, such returns filed by the community trust prior to the taxable year in which the Commissioner notifies such fund that it will not be treated as a component part will be treated as its separate return for purpose of Subchapter A of Chapter 61 of Subtitle F, and the first such return filed by the community trust will be treated as the notification required of the separate entity for purposes of section 508(a).

(ii) If a transfer is made in trust to a community trust to make income or other payments for a period of a life or lives in being or a term of years to any individual or for any noncharitable purpose, followed by payments to or for the use of the community trust (such as in the case of a charitable remainder annuity trust or a charitable remainder unitrust described in section 664 or a pooled income fund described in section 642(c)(5)), such trust will be treated as a component part of the community trust upon the termination of all intervening noncharitable interests and rights to the actual possession or enjoyment of the property if such trust satisfies the requirements of paragraph (f)(11) of this section at such time. Until such time, the trust will be treated as a separate trust. If a transfer is made in trust to a community trust to make income or other payments to or for the use of the community trust, followed by payments to any individual or for any noncharitable purpose, such trust will be treated as a separate trust rather than as a component part of the community trust. See section 4947(a)(2) and the related regulations for the treatment of such split-interest trusts. The provisions of this paragraph (f)(12)(ii) provide rules only for determining when a charitable remainder trust or pooled income fund may be treated as a component part of a community trust and are not intended to preclude a community trust from maintaining a charitable remainder trust or pooled income fund. For purposes of grantors and contributors, a pooled income fund of a publicly supported community trust shall be treat-

ed no differently than a pooled income fund of any other publicly supported organization.

(iii) An organization described in section 170(b)(1)(F)(iii) will not ordinarily satisfy the requirements of paragraph (f)(11)(ii) of this section because of the unqualified right of the donor to designate the recipients of the income and principal of the trust. Such organization will therefore ordinarily be treated as other than a component part of a community trust under paragraph (f)(12)(i) of this section. However, see section 170(b)(1)(F)(iii) and the related regulations with respect to the treatment of contributions to such organizations.

(13) *Method of accounting.* For purposes of section 170(b)(1)(A)(vi), an organization's support will be determined under the method of accounting on the basis of which the organization regularly computes its income in keeping its books under section 446. For example, if a grantor makes a grant to an organization payable over a term of years, such grant will be includible in the support fraction of the grantee organization under the method of accounting on the basis of which the grantee organization regularly computes its income in keeping its books under section 446.

(14) *Transition rules.* (i) An organization that received an advance ruling, that expires on or after June 9, 2008, that it will be treated as an organization described in sections 170(b)(1)(A)(vi) and 509(a)(1) will be treated as meeting the requirements of paragraph (f)(2) or paragraph (f)(3) of this section for the first five taxable years of its existence as a section 501(c)(3) organization unless the IRS issued to the organization a proposed determination prior to September 9, 2008, that the organization is not described in sections 170(b)(1)(A)(vi) and 509(a)(1) or in section 509(a)(2).

(ii) Paragraph (f)(4)(v) of this section shall not apply with respect to an organization that received an advance ruling that expired prior to June 9, 2008, and that did not timely file with the Internal Revenue Service the required information to establish that it is an organization described in sections

§ 1.170A-9

26 CFR Ch. I (4-1-17 Edition)

170(b)(1)(A)(vi) and 509(a)(1) or in section 509(a)(2).

(iii) An organization that fails to meet a public support test for its first taxable year beginning on or after January 1, 2008, under the regulations in this section may use the prior tests set forth in § 1.170A-9(e)(2) or § 1.170A-9(e)(3), or in §§ 1.509(a)-3(a)(2) and 1.509(a)-3(a)(3), as in effect before September 9, 2008 (as contained in 26 CFR part 1 revised April 1, 2008), to determine whether the organization was publicly supported for its 2008 taxable year based on its satisfaction of a public support test for taxable year 2007, computed over the period 2003 through 2006.

(iv) *Examples.* The application of this paragraph (f)(14) may be illustrated by the following examples:

Example 1. (i) Organization X was formed in January 2004 and uses a taxable year ending June 30. Organization X received an advance ruling letter that it is recognized as an organization described in section 501(c)(3) effective as of the date of its formation and that it is treated as a publicly supported organization under sections 170(b)(1)(A)(vi) and 509(a)(1) during the five-year advance ruling period that will end on June 30, 2008. This date is on or after June 9, 2008.

(ii) Under the transition rule, Organization X is a publicly supported organization described in sections 170(b)(1)(A)(vi) and 509(a)(1) for the taxable years ending June 30, 2004, through June 30, 2008. Organization X does not need to establish within 90 days after June 30, 2008, that it met a public support test under § 1.170A-9(e) or § 1.509(a)-3, as in effect prior to September 9, 2008, (as contained in 26 CFR part 1 revised April 1, 2008), for its advance ruling period.

(iii) Organization X can qualify as a publicly supported organization for the taxable year ending June 30, 2009, if Organization X can meet the requirements of paragraph (f)(2) or (f)(3) of this section or §§ 1.509(a)-3(a)(2) and 1.509(a)-3(a)(3) for the taxable years ending June 30, 2005, through June 30, 2009, or for the taxable years ending June 30, 2004, through June 30, 2008. In addition, for its taxable year ending June 30, 2009, Organization X may qualify as a publicly supported organization by availing itself of the transition rule contained in paragraph (f)(14)(iii) of this section, which looks to support received by X in the taxable years ending June 30, 2004, through June 30, 2007.

Example 2. (i) Organization Y was formed in January 2000, and uses a taxable year ending December 31. Organization Y received a final determination that it was recognized as tax-

exempt under section 501(c)(3) and as a publicly supported organization prior to September 9, 2008.

(ii) For taxable year 2008, Organization Y will qualify as publicly supported if it meets the requirements under either paragraph (f)(2) or (f)(3) of this section or §§ 1.509(a)-3(a)(2) or 1.509(a)-3(a)(3) for the five-year period January 1, 2004, through December 31, 2008. Organization Y will also qualify as publicly supported for taxable year 2008 if it meets the requirements under § 1.170A-9(e)(2) or § 1.170A-9(e)(3), or under §§ 1.509(a)-3(a)(2) and 1.509(a)-3(a)(3), as in effect prior to September 9, 2008, (as contained in 26 CFR part 1 revised April 1, 2008) for taxable year 2007, using the four-year period from January 1, 2003, through December 31, 2006.

(g) *Private operating foundation.* An organization is described in section 170(b)(1)(A)(vii) and (E)(i) if it is a private “operating foundation” as defined in section 4942(j)(3) and the regulations thereunder.

(h) *Private nonoperating foundation distributing amount equal to all contributions received—(1) In general.* (i) An organization is described in section 170(b)(1)(A)(vii) and (E)(ii) if it is a private foundation which, not later than the 15th day of the third month after the close of its taxable year in which any contributions are received, distributes an amount equal in value to 100 percent of all contributions received in such year. Such distributions must be qualifying distributions (as defined in section 4942(g) without regard to paragraph (3) thereof) which are treated, after the application of section 4942(g)(3), as distributions out of corpus in accordance with section 4942(h). Qualifying distributions, as defined in section 4942(g) without regard to paragraph (3) thereof, cannot be made to (i) an organization controlled directly or indirectly by the foundation or by one or more disqualified persons (as defined in section 4946) with respect to the foundation or (ii) a private foundation which is not an operating foundation (as defined in section 4942(j)(3)). The phrase “after the application of section 4942(g)(3)” means that every contribution described in section 4942(g)(3) received by a private foundation described in this subparagraph in a particular taxable year must be distributed (within the meaning of section 4942(g)(3)(A)) by such foundation not later than the 15th day of the third

month after the close of such taxable year in order for any other distribution by such foundation to be counted toward the 100-percent requirement described in this subparagraph.

(ii) In order for an organization to meet the distribution requirements of subdivision (i) of this subparagraph, it must, not later than the 15th day of the third month after the close of its taxable year in which any contributions are received, distribute (within the meaning of subdivision (i) of this subparagraph) an amount equal in value to 100 percent of all contributions received in such year and have no remaining undistributed income for such year.

(iii) The provisions of this subparagraph may be illustrated by the following examples:

Example 1. X is a private foundation on a calendar year basis. As of January 1, 1971, X had no undistributed income for 1970. X's distributable amount for 1971 was \$600,000. In July 1971, A, an individual, contributed \$500,000 (fair market value determined at the time of the contribution) of appreciated property to X (which, if sold, would give rise to long-term capital gain). X did not receive any other contribution in either 1970 or 1971. During 1971, X made qualifying distributions of \$700,000 which were treated as made out of the undistributed income for 1971 and \$100,000 out of corpus. X will meet the requirements of section 170(b)(1)(E)(ii) for 1971 if it makes additional qualifying distributions of \$400,000 out of corpus by March 15, 1972.

Example 2. Assume the facts as stated in *Example 1*, except that as of January 1, 1971, X had \$100,000 of undistributed income for 1970. Under these circumstances, the \$700,000 distributed by X in 1971 would be treated as made out of the undistributed income for 1970 and 1971. X would therefore have to make additional qualifying distributions of \$500,000 out of corpus between January 1, 1972, and March 15, 1972, in order to meet the requirements of section 170(b)(1)(E)(ii) for 1971.

(2) *Special rules.* In applying subparagraph (1) of this paragraph:

(i) For purposes of section 170(b)(1)(A)(vii), an organization described in section 170(b)(1)(E)(ii) must distribute all contributions received in any year, whether of cash or property. However, solely for purposes of section 170(e)(1)(B)(ii), an organization described in section 170(b)(1)(E)(ii) is required to distribute all contributions of

property only received in any year. Contributions for purposes of this paragraph do not include bequests, legacies, devises, or transfers within the meaning of section 2055 or 2106(a)(2) with respect to which a deduction was not allowed under section 170.

(ii) Any distributions made by a private foundation pursuant to subparagraph (1) of this paragraph with respect to a particular taxable year shall be treated as made first out of contributions of property and then out of contributions of cash received by such foundation in such year.

(iii) A private foundation is not required to trace specific contributions of property, or amounts into which such contributions are converted, to specific distributions.

(iv) For purposes of satisfying the requirements of section 170(b)(1)(D)(ii), except as provided to the contrary in this subdivision (iv), the fair market value of contributed property, determined on the date of contribution, is required to be used for purposes of determining whether an amount equal in value to 100 percent of the contribution received has been distributed. However, reasonable selling expenses, if any, incurred by the foundation in the sale of the contributed property may be deducted from the fair market value of the contributed property on the date of contribution, and distribution of the balance of the fair market value will satisfy the 100 percent distribution requirement. If a private foundation receives a contribution of property and, within 30 days thereafter, either sells the property or makes an in kind distribution of the property to a public charity, then at the choice of the private foundation the gross amount received on the sale (less reasonable selling expenses incurred) or the fair market value of the contributed property at the date of its distribution to the public charity, and not the fair market value of the contributed property on the sale of contribution (less reasonable selling expenses, if any), is considered to be the amount of the fair market value of the contributed property for purposes of the requirements of section 170(b)(1)(D)(ii).

(v) A private foundation may satisfy the requirements of subparagraph (1) of

this paragraph for a particular taxable year by electing (pursuant to section 4942(h)(2) and the regulations thereunder) to treat a portion or all of one or more distributions, made not later than the 15th day of the third month after the close of such year, as made out of corpus.

(3) *Transitional rules*—(i) *Taxable years beginning before January 1, 1970, and ending after December 31, 1969.* In order for an organization to meet the distribution requirements of subparagraph (1)(i) of this paragraph for a taxable year which begins before January 1, 1970, and ends after December 31, 1969, it must, not later than the 15th day of the third month after the close of such taxable year, distribute (within the meaning of subparagraph (1)(i) of this paragraph) an amount equal in value to 100 percent of all contributions (other than contributions described in section 4942(g)(3)) which were received between January 1, 1970, and the last day of such taxable year. Because the organization is not subject to the provisions of section 4942 for such year, the organization need not satisfy subparagraph (1)(ii) of this paragraph or the phrase “after the application of section 4942(g)(3)” for such year.

(ii) *Extension of period.* For purposes of section 170(b)(1)(A)(vii) and 170(e)(1)(B)(ii), in the case of a taxable year ending in either 1970, 1971 or 1972, the period referred to in section 170(b)(1)(E)(ii) for making distributions shall not expire before April 2, 1973.

(4) *Adequate records required.* A taxpayer claiming a deduction under section 170 for a charitable contribution to a foundation described in subparagraph (1) of this paragraph must obtain adequate records or other sufficient evidence from such foundation showing that the foundation made the required qualifying distributions within the time prescribed. Such records or other evidence must be attached to the taxpayer's return for the taxable year for which the charitable contribution deduction is claimed. If necessary, an amended income tax return or claim for refund may be filed in accordance with § 301.6402-2 and § 301.6402-3 of this chapter (procedure and administration regulations).

(i) *Private foundation maintaining a common fund*—(1) *Designation by substantial contributors.* An organization is described in section 170(b)(1) (A)(vii) and (E)(iii) if it is a private foundation all of the contributions to which are pooled in a common fund and which would be described in section 509(a)(3) but for the right of any donor who is a substantial contributor or his spouse to designate annually the recipients, from among public charities, of the income attributable to the donor's contribution to the fund and to direct (by deed or by will) the payment, to public charities, of the corpus in the common fund attributable to the donor's contribution. For purposes of this paragraph, the private foundation is to be treated as meeting the requirements of section 509(a)(3) (A) and (B) even though donors to the foundation, or their spouses, retain the right to, and in fact do, designate public charities to receive income or corpus from the fund.

(2) *Distribution requirements.* To qualify under subparagraph (1) of this paragraph, the private foundation described therein must be required by its governing instrument to distribute, and it must in fact distribute (including administrative expenses):

(i) All of the adjusted net income (as defined in section 4942(f)) of the common fund to one or more public charities not later than the 15th day of the third month after the close of the taxable year in which such income is realized by the fund, and

(ii) All the corpus attributable to any donor's contribution to the fund to one or more public charities not later than 1 year after the donor's death or after the death of the donor's surviving spouse if such surviving spouse has the right to designate the recipients of such corpus.

(3) *Failure to designate.* A private foundation will not fail to qualify under this paragraph merely because a substantial contributor or his spouse fails to exercise his right to designate the recipients of income or corpus of the fund, provided that the income and corpus attributable to his contribution are distributed as required by subparagraph (2) of this paragraph.

(4) *Definitions.* For purposes of this paragraph:

(i) The term *substantial contributor* is as defined in section 507(d)(2) and the regulations thereunder.

(ii) The term *public charity* means an organization described in section 170(b)(1)(A) (i) through (vi). If an organization is described in section 170(b)(1)(A) (i) through (vi), and is also described in section 170(b)(1)(A)(viii), it shall be treated as a public charity for purposes of this paragraph.

(iii) The term *income attributable to* means the income earned by the fund which is properly allocable to the contributed amount by any reasonable and consistently applied method. See, for example, §1.642(c)-5(c).

(iv) The term *corpus attributable to* means the portion of the corpus of the fund attributable to the contributed amount. Such portion may be determined by any reasonable and consistently applied method.

(v) The term *donor* means any individual who makes a contribution (whether of cash or property) to the private foundation, whether or not such individual is a substantial contributor.

(j) *Section 509(a) (2) or (3) organization.* An organization is described in section 170(b)(1)(A)(viii) if it is described in section 509(a) (2) or (3) and the regulations thereunder.

(k) *Effective/applicability date—(1) In general.* These regulations shall apply to taxable years beginning after December 31, 1969.

(2) *Applicability date.* The regulations in paragraph (f) of this section shall apply to taxable years beginning on or after January 1, 2008. For tax years beginning after December 31, 1969, and beginning before January 1, 2008, see §1.170A-9(e) (as contained in 26 CFR part 1 revised April 1, 2008).

[T.D. 7242, 38 FR 12, Jan. 3, 1973; 38 FR 3598, Feb. 8, 1973, as amended by T.D. 7406, 41 FR 7096, Feb. 17, 1976; T.D. 7440, 41 FR 50650, Nov. 17, 1976; T.D. 7456, 42 FR 4436, Jan. 25, 1977; T.D. 7679, 45 FR 13452, Feb. 29, 1980; T.D. 8100, 51 FR 31614, Sept. 4, 1986; T.D. 8991, 67 FR 20437, Apr. 25, 2002; T.D. 9423, 73 FR 52533, Sept. 9, 2008; T.D. 9549, 76 FR 55750, Sept. 8, 2011]

§ 1.170A-10 Charitable contributions carryovers of individuals.

(a) *In general.* (1) Section 170(d)(1), relating to carryover of charitable contributions in excess of 50 percent of contribution base, and section 170(b)(1)(D)(ii), relating to carryover of charitable contributions in excess of 30 percent of contribution base, provide for excess charitable contributions carryovers by individuals of charitable contributions to section 170(b)(1)(A) organizations described in §1.170A-9. These carryovers shall be determined as provided in paragraphs (b) and (c) of this section. No excess charitable contributions carryover shall be allowed with respect to contributions “for the use of,” rather than “to,” section 170(b)(1)(A) organizations or with respect to contributions “to” or “for the use of” organizations which are not section 170(b)(1)(A) organizations. See §1.170A-8(a)(2) for definitions of “to” or “for the use of” a charitable organization.

(2) The carryover provisions apply with respect to contributions made during a taxable year in excess of the applicable percentage limitation even though the taxpayer elects under section 144 to take the standard deduction in that year instead of itemizing the deduction allowable in computing taxable income for that year.

(3) For provisions requiring a reduction of the excess charitable contribution computed under paragraph (b)(1) or (c)(1) of this section when there is a net operating loss carryover to the taxable year, see paragraph (d)(1) of this section.

(4) The provisions of section 170 (b)(1)(D)(ii) and (d)(1) and this section do not apply to contributions by an estate; nor do they apply to a trust unless the trust is a private foundation which, pursuant to §1.642(c)-4, is allowed a deduction under section 170 subject to the provisions applicable to individuals.

(b) *50-percent charitable contributions carryover of individuals—(1) Computation of excess of charitable contributions made in a contribution year.* Under section 170(d)(1), subject to certain conditions and limitations, the excess of:

(i) The amount of the charitable contributions made by an individual in a

§ 1.170A-10

26 CFR Ch. I (4-1-17 Edition)

taxable year (hereinafter) in this paragraph referred to as the “contribution year”) to section 170(b)(1)(A) organizations described in § 1.170A-9, over

(ii) 50 percent of his contribution base, as defined in section 170(b)(1)(F), for such contribution year, shall be treated as a charitable contribution paid by him to a section 170(b)(1)(A) organization in each of the 5 taxable years immediately succeeding the contribution year in order of time. However, such excess to the extent it consists of contributions of 30-percent capital gain property, as defined in § 1.170A-8(d)(3), shall be subject to the rules of section 170(b)(1)(D)(ii) and paragraph (c) of this section in the years to which it is carried over. A charitable contribution made in a taxable year beginning before January 1, 1970, to a section 170(b)(1)(A) organization and carried over to a taxable year beginning after December 31, 1969, under section 170(b)(5) (before its amendment by the Tax Reform Act of 1969) shall be treated in such taxable year beginning after December 31, 1969, as a charitable contribution of cash subject to the limitations of this paragraph, whether or not such carryover consists of contributions of 30-percent capital gain property or of ordinary income property described in § 1.170A-4(b)(1). For purposes of applying this paragraph and paragraph (c) of this section, such a carryover from a taxable year beginning before January 1, 1970, which is so treated as paid to a section 170(b)(1)(A) organization in a taxable year beginning after December 31, 1969, shall be treated as paid to such an organization under section 170(d)(1) and this section. The provisions of this subparagraph may be illustrated by the following examples:

Example 1. Assume that H and W (husband and wife) have a contribution base for 1970 of \$50,000 and for 1971 of \$40,000 and file a joint return for each year. Assume further that in 1970 they make a charitable contribution in cash of \$26,500 to a church and \$1,000 to X (not a section 170(b)(1)(A) organization) and in 1971 they make a charitable contribution in cash of \$19,000 to a church and \$600 to X. They may claim a charitable contributions deduction of \$25,000 in 1970, and the excess of \$26,500 (contribution to the church) over \$25,000 (50 percent of contribution base), or \$1,500, constitutes a charitable contributions

carryover which shall be treated as a charitable contribution paid by them to a section 170(b)(1)(A) organization in each of the 5 succeeding taxable years in order of time. No carryover is allowed with respect to the \$1,000 contribution made to X in 1970. Since 50 percent of their contribution base for 1971 (\$20,000) exceeds the charitable contributions of \$19,000 made by them in 1971 to section 170(b)(1)(A) organizations (computed without regard to section 170 (b)(1)(D)(ii) and (d)(1) and this section), the portion of the 1970 carryover equal to such excess of \$1,000 (\$20,000 minus \$19,000) is treated, pursuant to the provisions of subparagraph (2) of this paragraph, as paid to a section 170(b)(1)(A) organization in 1971; the remaining \$500 constitutes an unused charitable contributions carryover. No deduction for 1971, and no carryover, are allowed with respect to the \$600 contribution made to X in 1971.

Example 2. Assume the same facts as in *Example 1* except that H and W have a contribution base for 1971 of \$42,000. Since 50 percent of their contribution base for 1971 (\$21,000) exceeds by \$2,000 the charitable contribution of \$19,000 made by them in 1971 to the section 170(b)(1)(A) organization (computed without regard to section 170 (b)(1)(D)(ii) and (d)(1) and this section), the full amount of the 1970 carryover of \$1,500 is treated, pursuant to the provisions of subparagraph (2) of this paragraph, as paid to a section 170(b)(1)(A) organization in 1971. They may also claim a charitable contribution of \$500 (\$21,000 – \$20,500[\$19,000 + \$1,500]) with respect to the gift to X in 1971. No carryover is allowed with respect to the \$100 (\$600 – \$500) of the contribution to X which is not deductible in 1971.

(2) *Determination of amount treated as paid in taxable years succeeding contribution year.* In applying the provisions of subparagraph (1) of this paragraph, the amount of the excess computed in accordance with the provisions of such subparagraph and paragraph (d)(1) of this section which is to be treated as paid in any one of the 5 taxable years immediately succeeding the contribution year to a section 170(b)(1)(A) organization shall not exceed the lesser of the amounts computed under subdivisions (i) to (iii), inclusive, of this subparagraph:

(i) The amount by which 50 percent of the taxpayer's contribution base for such succeeding taxable year exceeds the sum of:

(a) The charitable contributions actually made (computed without regard to the provisions of section 170 (b)(1)(D)(ii) and (d)(1) and this section)

by the taxpayer in such succeeding taxable year to section 170(b)(1)(A) organizations, and

(b) The charitable contributions, other than contributions of 30-percent capital gain property, made to section 170(b)(1)(A) organizations in taxable years preceding the contribution year which, pursuant to the provisions of section 170(d)(1) and this section, are treated as having been paid to a section 170(b)(1)(A) organization in such succeeding year.

(ii) In the case of the first taxable year succeeding the contribution year, the amount of the excess charitable contribution in the contribution year, computed under subparagraph (1) of this paragraph and paragraph (d)(1) of this section.

(iii) In the case of the second, third, fourth, and fifth taxable years succeeding the contribution year, the portion of the excess charitable contribution in the contribution year, computed under subparagraph (1) of this paragraph and paragraph (d)(1) of this section, which has not been treated as paid to a section 170(b)(1)(A) organization in a year intervening between the contribution year and such succeeding taxable year.

For purposes of applying subdivision (i)(a) of this subparagraph, the amount of charitable contributions of 30-percent capital gain property actually made in a taxable year succeeding the contribution year shall be determined by first applying the 30-percent limitation of section 170(b)(1)(D)(i) and paragraph (d) of § 1.170A-8. If a taxpayer, in any one of the 4 taxable years succeeding a contribution year, elects under section 144 to take the standard deduction instead of itemizing the deductions allowable in computing taxable income, there shall be treated as paid (but not allowable as a deduction) in such standard deduction year the lesser of the amounts determined under subdivisions (i) to (iii), inclusive, of this subparagraph. The provisions of this subparagraph may be illustrated by the following examples:

Example 1. Assume that B has a contribution base for 1970 of \$20,000 and for 1971 of \$30,000. Assume further that in 1970 B contributed \$12,000 in cash to a church and in 1971 he contributed \$13,500 in cash to the

church. B may claim a charitable contributions deduction of \$10,000 in 1970, and the excess of \$12,000 (contribution to the church) over \$10,000 (50 percent of B's contribution base), or \$2,000, constitutes a charitable contributions carryover which shall be treated as a charitable contribution paid by B to a section 170(b)(1)(A) organization in the 5 taxable years succeeding 1970 in order of time. B may claim a charitable contributions deduction of \$15,000 in 1971. Such \$15,000 consists of the \$13,500 contribution to the church in 1971 and \$1,500 carried over from 1970 and treated as a charitable contribution paid to a section 170(b)(1)(A) organization in 1971. The \$1,500 contribution treated as paid in 1971 is computed as follows:

1970 excess contributions		\$2,000
50 percent of B's contribution base for 1971		15,000
Less:		
Contributions actually made in 1971 to section 170(b)(1)(A) organizations	\$13,500	
Contributions made to section 170(b)(1)(A) organizations in taxable years prior to 1970 treated as having been paid in 1971	0	13,500
Balance		1,500

Amount of 1970 excess treated as paid in 1971—the lesser of \$2,000 (1970 excess contributions) or \$1,500 (excess of 50 percent of contribution base for 1971 (\$15,000) over the sum of the section 170(b)(1)(A) contributions actually made in 1971 (\$13,500) and the section 170(b)(1)(A) contributions made in years prior to 1970 treated as having been paid in 1971 (\$0))

1,500

If the excess contributions made by B in 1970 had been \$1,000 instead of \$2,000, then, for purposes of this example, the amount of the 1970 excess treated as paid in 1971 would be \$1,000 rather than \$1,500.

Example 2. Assume the same facts as in *Example 1*, and, in addition, that B has a contribution base for 1972 of \$10,000 and for 1973 of \$20,000. Assume further with respect to 1972 that B elects under section 144 to take the standard deduction in computing taxable income and that his actual contributions to section 170(b)(1)(A) organizations in that year are \$300 in cash. Assume further with respect to 1973 that B itemizes his deductions, which include a \$5,000 cash contribution to a church. B's deductions for 1972 are not increased by reason of the \$500 available as a charitable contributions carryover from 1970 (excess contributions made in 1970 (\$2,000) less the amount of such excess treated as paid in 1971 (\$1,500)), since B elected to take the standard deduction in 1972. However, for purposes of determining the amount of the excess charitable contributions made in 1970 which is available as a carryover to 1973, B is required to treat such \$500 as a

§ 1.170A-10

26 CFR Ch. I (4-1-17 Edition)

charitable contribution paid in 1972—the lesser of \$500 or \$4,700 (50 percent of contribution base (\$5,000) over contributions actually made in 1972 to section 170(b)(1)(A) organizations (\$300)). Therefore, even though the \$5,000 contribution made by B in 1973 to a church does not amount to 50 percent of B's contribution base for 1973 (50 percent of \$20,000), B may claim a charitable contribu-

tions deduction of only the \$5,000 actually paid in 1973 since the entire excess charitable contribution made in 1970 (\$2,000) has been treated as paid in 1971 (\$1,500) and 1972 (\$500).

Example 3. Assume the following factual situation for C who itemizes his deductions in computing taxable income for each of the years set forth in the example:

	1970	1971	1972	1973	1974
Contribution base	\$10,000	\$7,000	\$15,000	\$10,000	\$9,000
Contributions of cash to section 170(b)(1)(A) organizations (no other contributions)	6,000	4,400	8,000	3,000	1,500
Allowable charitable contributions deductions computed without regard to carryover of contributions	5,000	3,500	7,500	3,000	1,500
Excess contributions for taxable year to be treated as paid in 5 succeeding taxable years	1,000	900	500	0	0

Since C's contributions in 1973 and 1974 to section 170(b)(1)(A) organizations are less than 50 percent of his contribution base for such years, the excess contributions for 1970, 1971, and 1972 are treated as having been paid to section 170(b)(1)(A) organizations in 1973 and 1974 as follows:

1973			
Contribution year	Total excess	Less: Amount treated as paid in year prior to 1973	Available charitable contributions carryovers
1970	\$1,000	0	\$1,000
1971	900	0	900
1972	500	0	500
Total			2,400
50 percent of B's contribution base for 1973			\$5,000
Less: Charitable contributions made in 1973 to section 170(b)(1)(A) organizations			3,000
			2,000

Amount of excess contributions treated as paid in 1973—lesser of \$2,400 (available carryovers to 1973) or \$2,000 (excess of 50 percent of contribution base (\$5,000) over contributions actually made in 1973 to section 170(b)(1)(A) organizations (\$3,000))

1974			
Contribution year	Total excess	Less: Amount treated as paid in year prior to 1974	Available charitable contributions carryovers
1970	\$1,000	\$1,000	
1971	900	900	
1972	500	100	\$40
1973	0	0	
Total			400
50 percent of B's contribution base for 1974			\$4,500

1974			
Contribution year	Total excess	Less: Amount treated as paid in year prior to 1974	Available charitable contributions carryovers
Less: Charitable contributions made in 1974 to section 170(b)(1)(A) organizations			1,500
			3,000
Amount of excess contributions treated as paid in 1974—the lesser of \$400 (available carryovers to 1974) or \$3,000 (excess of 50 percent of contribution base (\$4,500) over contributions actually made in 1974 to section 170(b)(1)(A) organizations (\$1,500))			400

(c) *30-percent charitable contributions carryover of individuals*—(1) *Computation of excess of charitable contributions made in a contribution year.* Under section 170(b)(1)(D)(ii), subject to certain conditions and limitations, the excess of:

(i) The amount of the charitable contributions of 30-percent capital gain property, as defined in § 1.170A-8(d)(3), made by an individual in a taxable year (hereinafter in this paragraph referred to as the “contribution year”) to section 170(b)(1)(A) organizations described in § 1.170A-9, over

(ii) 30 percent of his contribution base for such contribution year, shall, subject to section 170(b)(1)(A) and paragraph (b) of § 1.170A-8, be treated as a charitable contribution of 30-percent capital gain property paid by him to a section 170(b)(1)(A) organization in each of the 5 taxable years immediately succeeding the contribution

year in order of time. In addition, any charitable contribution of 30-percent capital gain property which is carried over to such years under section 170(d)(1) and paragraph (b) of this section shall also be treated as though it were a carryover of 30-percent capital gain property under section 170(b)(1)(D)(ii) and this paragraph. The provisions of this subparagraph may be illustrated by the following examples:

Example 1. Assume that H and W (husband and wife) have a contribution base for 1970 of \$50,000 and for 1971 of \$40,000 and file a joint return for each year. Assume further that in 1970 they contribute \$20,000 cash and \$13,000 of 30-percent capital gain property to a church, and that in 1971 they contribute \$5,000 cash and \$10,000 of 30-percent capital gain property to a church. They may claim a charitable contributions deduction of \$25,000 in 1970 and the excess of \$33,000 (contributed to the church) over \$25,000 (50 percent of contribution base), or \$8,000, constitutes a charitable contributions carryover which shall be treated as a charitable contribution of 30-percent capital gain property paid by them to a section 170(b)(1)(A) organization in each of the 5 succeeding taxable years in order of time. Since 30 percent of their contribution base for 1971 (\$12,000) exceeds the charitable contributions of 30-percent capital gain property (\$10,000) made by them in 1971 to section 170(b)(1)(A) organizations (computed without regard to section 170 (b)(1)(D)(ii) and (d)(1) and this section), the portion of the 1970 carryover equal to such excess of \$2,000 (\$12,000—\$10,000) is treated, pursuant to the provisions of subparagraph (2) of this paragraph, as paid to a section 170(b)(1)(A) organization in 1971; the remaining \$6,000 constitutes an unused charitable contributions carryover in respect of 30-percent capital gain property from 1970.

Example 2. Assume the same facts as in *Example 1* except the \$33,000 of charitable contributions in 1970 are all 30-percent capital gain property. Since their charitable contributions in 1970 exceed 30 percent of their contribution base (\$15,000) by \$18,000 (\$33,000—\$15,000), they may claim a charitable contributions deduction of \$15,000 in 1970, and the excess of \$33,000 over \$15,000, or \$18,000, constitutes a charitable contributions carryover which shall be treated as a charitable contribution of 30-percent capital gain property paid by them to a section 170(b)(1)(A) organization in each of the 5 succeeding taxable years in order of time. Since they are allowed to treat only \$2,000 of their 1970 contribution as paid in 1971, they have a remaining unused charitable contributions carryover of \$16,000 in respect of 30-percent capital gain property from 1970.

(2) *Determination of amount treated as paid in taxable years succeeding contribution year.* In applying the provisions of subparagraph (1) of this paragraph, the amount of the excess computed in accordance with the provisions of such subparagraph and paragraph (d)(1) of this section which is to be treated as paid in any one of the 5 taxable years immediately succeeding the contribution year to a section 170(b)(1)(A) organization shall not exceed the least of the amounts computed under subdivisions (i) to (iv), inclusive, of this subparagraph:

(i) The amount by which 30 percent of the taxpayer's contribution base for such succeeding taxable year exceeds the sum of:

(a) The charitable contributions of 30-percent capital gain property actually made (computed without regard to the provisions of section 170 (b)(1)(D)(ii) and (d)(1) and this section) by the taxpayer in such succeeding taxable year to section 170(b)(1)(A) organizations, and

(b) The charitable contributions of 30-percent capital gain property made to section 170(b)(1)(A) organizations in taxable years preceding the contribution year, which, pursuant to the provisions of section 170 (b)(1)(D)(ii) and (d)(1) and this section, are treated as having been paid to a section 170(b)(1)(A) organization in such succeeding year.

(ii) The amount by which 50 percent of the taxpayer's contribution base for such succeeding taxable year exceeds the sum of:

(a) The charitable contributions actually made (computed without regard to the provisions of section 170 (b)(1)(D)(ii) and (d)(1) and this section) by the taxpayer in such succeeding taxable year to section 170(b)(1)(A) organizations,

(b) The charitable contributions of 30-percent capital gain property made to section 170(b)(1)(A) organizations in taxable years preceding the contribution year which, pursuant to the provisions of section 170 (b)(1)(D)(ii) and (d)(1) and this section, are treated as having been paid to a section 170(b)(1)(A) organization in such succeeding year, and

§ 1.170A-10

26 CFR Ch. I (4-1-17 Edition)

(c) The charitable contributions, other than contributions of 30-percent capital gain property, made to section 170(b)(1)(A) organizations which, pursuant to the provisions of section 170(d)(1) and paragraph (b) of this section, are treated as having been paid to a section 170(b)(1)(A) organization in such succeeding year.

(iii) In the case of the first taxable year succeeding the contribution year, the amount of the excess charitable contribution of 30-percent capital gain property in the contribution year, computed under subparagraph (1) of this paragraph and paragraph (d)(1) of this section.

(iv) In the case of the second, third, fourth, and fifth succeeding taxable years succeeding the contribution year, the portion of the excess charitable contribution of 30-percent capital gain property in the contribution year (computed under subparagraph (1) of this paragraph and paragraph (d)(1) of this section) which has not been treated as paid to a section 170(b)(1)(A) organization in a year intervening between

the contribution year and such succeeding taxable year.

For purposes of applying subdivisions (i) and (ii) of this subparagraph, the amount of charitable contributions of 30-percent capital gain property actually made in a taxable year succeeding the contribution year shall be determined by first applying the 30-percent limitation of section 170(b)(1)(D)(i) and paragraph (d) of § 1.170A-8. If a taxpayer, in any one of the four taxable years succeeding a contribution year, elects under section 144 to take the standard deduction instead of itemizing the deductions allowable in computing taxable income, there shall be treated as paid (but not allowable as a deduction) in the standard deduction year the least of the amounts determined under subdivisions (i) to (iv), inclusive, of this subparagraph. The provisions of this subparagraph may be illustrated by the following example:

Example. Assume the following factual situation for C who itemizes his deductions in computing taxable income for each of the years set forth in the example:

	1970	1971	1972	1973	1974
Contribution base	\$10,000	\$15,000	\$20,000	\$15,000	\$33,000
Contributions of cash to section 170(b)(1)(A) organizations ...	2,000	8,500	0	14,000	700
Contributions of 30-percent capital gain property to section 170(b)(1)(A) organizations	5,000	0	7,800	0	6,400
Allowable charitable contributions deductions (computed without regard to carryover of contributions) subject to limitations of:					
50 percent	2,000	7,500	0	7,500	700
30 percent	3,000	0	6,000	0	6,400
Total	5,000	7,500	6,000	7,500	7,100
Excess of contributions for taxable year to be treated as paid in 5 succeeding taxable years:					
Carryover of contributions of property other than 30-percent capital gain property	0	1,000	0	6,500	
Carryover of contributions of 30-percent capital gain property.	2,000	0	1,800	0	

C's excess contributions for 1970, 1971, 1972, and 1973 which are treated as having been paid to section 170(b)(1)(A) organizations in 1972, 1973, and 1974 are indicated below. The portion of the excess charitable contribution for 1972 of 30-percent capital gain property which is not treated as paid in 1974 (\$1,800-\$900) is available as a carryover to 1975.

1971					
Contribution	Total excess		Less: Amount treated as paid in years prior to 1971	Available charitable contributions carryovers	
	50%	30%		50%	30%
1970	0	\$2,000	0	0	\$2,000
50 percent of C's contribution base for 1971				\$7,500	
30 percent of C's contribution base for 1971					4,500

Internal Revenue Service, Treasury

§ 1.170A-10

1971

Contribution	Total excess		Less: Amount treated as paid in years prior to 1971	Available charitable contributions carryovers	
	50%	30%		50%	30%
Less: Charitable contributions actually made in 1971 to section 170(b)(1)(A) organizations (\$8,500, but not to exceed 50% of contribution base)				7,500	0
Excess				0	4,500
The amount of excess contributions for 1970 of 30-percent capital gain property which is treated as paid in 1971 is the least of:					
(i) Available carryover from 1970 to 1971 of contributions of 30-percent capital gain property				2,000	
(ii) Excess of 50 percent of contribution base for 1971 (\$7,500) over sum of contributions actually made in 1971 to section 170(b)(1)(A) organizations (\$7,500)				0	
(iii) Excess of 30 percent of contribution base for 1971 (\$4,500) over contributions of 30 percent capital gain property actually made in 1971 to section 170(b)(1)(A) organizations (\$0)				4,500	
Amount treated as paid					0

1972

Contribution year	Total excess		Less: Amount treated as paid in years prior to 1972	Available charitable contributions carryovers	
	50%	30%		50%	30%
1970	0	\$2,000	0	0	\$2,000
1971	\$1,000	0	0	\$1,000	0
				1,000	2,000
50 percent of C's contribution base for 1972				10,000	
30 percent of C's contribution base for 1972					6,000
Less: Charitable contributions actually made in 1972 to section 170(b)(1)(A) organizations (\$7,800, but not to exceed 30% of contribution base)				0	6,000
Excess				10,000	0
(1) The amount of excess contributions for 1971 of property other than 30-percent capital gain property which is treated as paid in 1972 is the lesser of:					
(i) Available carryover from 1971 to 1972 of contributions of property other than 30-percent capital gain property				1,000	
(ii) Excess of 50 percent of contribution base for 1972 (\$10,000) over contributions actually made in 1972 to section 170(b)(1)(A) organizations (\$6,000)				4,000	
Amount treated as paid					1,000
(2) The amount of excess contributions for 1970 of 30-percent capital gain property which is treated as paid in 1972 is the least of:					
(i) Available carryover from 1970 to 1972 of contributions of 30-percent capital gain property				2,000	
(ii) Excess of 50 percent of contribution base for 1972 (\$10,000) over sum of contributions actually made in 1972 to section 170(b)(1)(A) organizations (\$6,000) and excess contributions for 1971 treated under item (1) above as paid in 1972 (\$1,000)				3,000	
(iii) Excess of 30 percent of contribution base for 1972 (\$6,000) over contributions of 30-percent capital gain property actually made in 1972 to section 170(b)(1)(A) organizations (\$6,000)				0	
Amount treated as paid					0

1973

Contribution year	Total excess		Less: Amount treated as paid in years prior to 1973	Available charitable contributions carryovers	
	50%	30%		50%	30%
1970	0	\$2,000	0	0	\$2,000
1971	\$1,000	0	\$1,000	0	0
1972	0	1,800	0	0	1,800

1973					
Contribution year	Total excess		Less: Amount treated as paid in years prior to 1973	Available charitable contributions carryovers	
	50%	30%		50%	30%
				0	3,800
50 percent of C's contribution base for 1973				\$7,500	
30 percent of C's contribution base for 1973					4,500
Less: Charitable contributions actually made in 1973 to section 170(b)(1)(A) organizations (\$14,000, but not to exceed 50% of contribution base)				7,500	0
Excess				0	4,500
(1) The amount of excess contributions for 1970 of 30-percent capital gain property which is treated as paid in 1973 is the least of:					
(i) Available carryover from 1970 to 1973 of contributions of 30-percent capital gain property					
(ii) Excess of 50 percent of contribution base for 1973 (\$7,500) over contributions actually made in 1973 to section 170(b)(1)(A) organizations (\$7,500)					
(iii) Excess of 30 percent of contribution base for 1973 (\$4,500) over contributions of 30-percent capital gain property actually made in 1973 to section 170(b)(1)(A) organizations (\$0)					
Amount treated as paid					
(2) The amount of excess contributions for 1972 of 30-percent capital gain property which is treated as paid in 1973 is the least of:					
(i) Available carryover from 1972 to 1973 of contributions of 30-percent capital gain property					
(ii) Excess of 50 percent of contribution base for 1973 (\$7,500) over contributions actually made in 1973 to section 170(b)(1)(A) organizations (\$7,500)					
(iii) Excess of 30 percent of contribution base for 1973 (\$4,500) over sum of contributions of 30-percent capital gain property actually made in 1973 to section 170(b)(1)(A) organizations (\$0) and excess contributions for 1970 treated under item (1) above as paid in 1973 (\$0)					
Amount treated as paid					
1974					
Contribution year	Total excess		Less: Amount treated as paid in years prior to 1974	Available charitable contributions carryovers	
	50%	30%		50%	30%
1970	0	\$2,000	0	0	\$2,000
1971	\$1,000	0	\$1,000	0	0
1972	0	1,800	0	0	1,800
1973	6,500	0	0	\$6,500	0
				6,500	3,800
50 percent of C's contribution base for 1974				16,500	
30 percent of C's contribution base for 1974					9,900
Less: Charitable contributions actually made in 1974 to section 170(b)(1)(A) organizations				700	6,400
Excess				15,800	3,500
(1) The amount of excess contributions for 1973 of property other than 30-percent capital gain property which is treated as paid in 1974 is the lesser of:					
(i) Available carryover from 1973 to 1974 of contributions of property other than 30-percent capital gain property					
(ii) Excess of 50 percent of contribution base for 1974 (\$16,500) over contributions actually made in 1974 to section 170(b)(1)(A) organizations (\$7,100)					
Amount treated as paid					
(2) The amount of excess contributions for 1970 of 30-percent capital gain property which is treated as paid in 1974 is the least of:					
(i) Available carryover from 1970 to 1974 of contributions of 30-percent capital gain property					
(ii) Excess of 50 percent of contribution base for 1974 (\$16,500) over sum of contributions actually made in 1974 to section 170(b)(1)(A) organizations (\$7,100) and excess contributions for 1973 of property other than 30-percent capital gain property treated under item (1) above as paid in 1974 (\$6,500)					

1974

Contribution year	Total excess		Less: Amount treated as paid in years prior to 1974	Available charitable contributions carryovers	
	50%	30%		50%	30%
(iii) Excess of 30 percent of contribution base for 1974 (\$9,900) over contributions of 30-percent capital gain property actually made in 1974 to section 170(b)(1)(A) organizations (\$6,400)				3,500
Amount treated as paid					\$2,000
(3) The amount of excess contributions for 1972 of 30-percent capital gain property which is treated as paid in 1974 is the least of:					
(i) Available carryover from 1972 to 1974 of contributions of 30-percent capital gain property				1,800	
(ii) Excess of 50 percent of contribution base for 1974 (\$16,500) over sum of contributions actually made in 1974 to section 170(b)(1)(A) organizations (\$7,100) and excess contributions for 1973 and 1970 treated under items (1) and (2) above as paid in 1974 (\$8,500)				900	
(iii) Excess of 30 percent of contribution base for 1974 (\$9,900) over sum of contributions of 30-percent capital gain property actually made in 1974 to section 170(b)(1)(A) organizations (\$6,400) and excess contributions for 1970 of 30-percent capital gain property treated under item (2) above as paid in 1974 (\$2,000)				1,500
Amount treated as paid					900

(d) *Adjustments*—(1) *Effect of net operating loss carryovers on carryover of excess contributions.* An individual having a net operating loss carryover from a prior taxable year which is available as a deduction in a contribution year must apply the special rule of section 170(d)(1)(B) and this subparagraph in computing the excess described in paragraph (b)(1) or (c)(1) of this section for such contribution year. In determining the amount of excess charitable contributions that shall be treated as paid in each of the 5 taxable years succeeding the contribution year, the excess charitable contributions described in paragraph (b)(1) or (c)(1) of this section must be reduced by the amount by which such excess reduces taxable income (for purposes of determining the portion of a net operating loss which shall be carried to taxable years succeeding the contribution year under the second sentence of section 172(b)(2)) and increases the net operating loss which is carried to a succeeding taxable year. In reducing taxable income under the second sentence of section 172(b)(2), an individual who has made charitable contributions in the contribution year to both section 170(b)(1)(A) organizations, as defined in § 1.170A-9, and to organizations which are not section 170(b)(1)(A) organizations must first deduct contributions made to the section 170(b)(1)(A) organizations from his adjusted gross income

computed without regard to his net operating loss deduction before any of the contributions made to organizations which are not section 170(b)(1)(A) organizations may be deducted from such adjusted gross income. Thus, if the excess of the contributions made in the contribution year to section 170(b)(1)(A) organizations over the amount deductible in such contribution year is utilized to reduce taxable income (under the provisions of section 172(b)(2)) for such year, thereby serving to increase the amount of the net operating loss carryover to a succeeding year or years, no part of the excess charitable contributions made in such contribution year shall be treated as paid in any of the 5 immediately succeeding taxable years. If only a portion of the excess charitable contributions is so used, the excess charitable contributions shall be reduced only to that extent. The provisions of this subparagraph may be illustrated by the following examples:

Example 1. B, an individual, reports his income on the calendar year basis and for the year 1970 has adjusted gross income (computed without regard to any net operating loss deduction) of \$50,000. During 1970 he made charitable contributions of cash in the amount of \$30,000 all of which were to section 170(b)(1)(A) organizations. B has a net operating loss carryover from 1969 of \$50,000. In the absence of the net operating loss deduction B would have been allowed a deduction for charitable contributions of \$25,000. After

the application of the net operating loss deduction, B is allowed no deduction for charitable contributions, and there is (before applying the special rule of section 170(d)(1)(B) and this subparagraph) a tentative excess charitable contribution of \$30,000. For purposes of determining the net operating loss which remains to be carried over to 1971, B computes his taxable income for 1970 under section 172(b)(2) by deducting the \$25,000 charitable contribution. After the \$50,000 net operating loss carryover is applied against the \$25,000 of taxable income for 1970 (computed in accordance with section 172(b)(2), assuming no deductions other than the charitable contributions deduction are applicable in making such computation), there remains a \$25,000 net operating loss carryover to 1971. Since the application of the net operating loss carryover of \$50,000 from 1969 reduces the 1970 adjusted gross income (for purposes of determining 1970 tax liability) to zero, no part of the \$25,000 of charitable contributions in that year is deductible under section 170(b)(1). However, in determining the amount of the excess charitable contributions which shall be treated as paid in taxable years 1971, 1972, 1973, 1974, and 1975, the \$30,000 must be reduced to \$5,000 by the portion of the excess charitable contributions (\$25,000) which was used to reduce taxable income for 1970 (as computed for purposes of the second sentence of section 172(b)(2)) and which thereby served to increase the net operating loss carryover to 1971 from zero to \$25,000.

Example 2. Assume the same facts as in *Example 1*, except that B's total charitable contributions of \$30,000 in cash made during 1970 consisted of \$25,000 to section 170(b)(1)(A) organizations and \$5,000 to organizations other than section 170(b)(1)(A) organizations. Under these facts there is a tentative excess charitable contribution of \$25,000, rather than \$30,000 as in *Example 1*. For purposes of determining the net operating loss which remains to be carried over to 1971, B computes his taxable income for 1970 under section 172(b)(2) by deducting the \$25,000 of charitable contributions made to section 170(b)(1)(A) organizations. Since the excess charitable contribution of \$25,000 determined in accordance with paragraph (b)(1) of this section was used to reduce taxable income for 1970 (as computed for purposes of the second sentence of section 172(b)(2)) and thereby served to increase the net operating loss carryover to 1971 from zero to \$25,000, no part of such excess charitable contributions made in the contribution year shall be treated as paid in any of the five immediately succeeding taxable years. No carryover is allowed with respect to the \$5,000 of charitable contributions made in 1970 to organizations other than section 170(b)(1)(A) organizations.

Example 3. Assume the same facts as in *Example 1*, except that B's total contributions

of \$30,000 made during 1970 were of 30-percent capital gain property. Under these facts there is a tentative excess charitable contribution of \$30,000. For purposes of determining the net operating loss which remains to be carried over to 1971, B computes his taxable income for 1970 under section 172(b)(2)(B) by deducting the \$15,000 (30% of \$50,000) contribution of 30-percent capital gain property which would have been deductible in 1970 absent the net operating loss deduction. Since \$15,000 of the excess charitable contribution of \$30,000 determined in accordance with paragraph (c)(1) of this section was used to reduce taxable income for 1970 (as computed for purposes of the second sentence of section 172(b)(2)) and thereby served to increase the net operating loss carryover to 1971 from zero to \$15,000, only \$15,000 (\$30,000—\$15,000) of such excess shall be treated as paid in taxable years 1971, 1972, 1973, 1974, and 1975.

(2) *Effect of net operating loss carryback to contribution year.* The amount of the excess contribution for a contribution year computed as provided in paragraph (b)(1) or (c)(1) of this section and subparagraph (1) of this paragraph shall not be increased because a net operating loss carryback is available as a deduction in the contribution year. Thus, for example, assuming that in 1970 there is an excess contribution of \$50,000 (determined as provided in paragraph (b)(1) of this section) which is to be carried to the 5 succeeding taxable years and that in 1973 the taxpayer has a net operating loss which may be carried back to 1970, the excess contribution of \$50,000 for 1970 is not increased by reason of the fact that the adjusted gross income for 1970 (on which such excess contribution was based) is subsequently decreased by the carryback of the net operating loss from 1973. In addition, in determining under the provisions of section 172(b)(2) the amount of the net operating loss for any year subsequent to the contribution year which is a carryback or carryover to taxable years succeeding the contribution year, the amount of contributions made to section 170(b)(1)(A) organizations shall be limited to the amount of such contributions which did not exceed 50 percent or, in the case of 30-percent capital gain property, 30 percent of the donor's contribution base, computed without regard to any of the modifications referred to in section 172(d), for

the contribution year. Thus, for example, assume that the taxpayer has a net operating loss in 1973 which is carried back to 1970 and in turn to 1971 and that he has made charitable contributions in 1970 to section 170(b)(1)(A) organizations. In determining the maximum amount of such charitable contributions which may be deducted in 1970 for purposes of determining the taxable income for 1970 which is deducted under section 172(b)(2) from the 1973 loss in order to ascertain the amount of such loss which is carried back to 1971, the 50-percent limitation of section 170(b)(1)(A) is based upon the adjusted gross income for 1970 computed without taking into account the net operating loss carryback from 1973 and without making any of the modifications specified in section 172(d).

(3) *Effect of net operating loss carryback to taxable years succeeding the contribution year.* The amount of the charitable contribution from a preceding taxable year which is treated as paid, as provided in paragraph (b)(2) or (c)(2) of this section, in a current taxable year (hereinafter referred to in this subparagraph as the "deduction year") shall not be reduced because a net operating loss carryback is available as a deduction in the deduction year. In addition, in determining under the provisions of section 172(b)(2) the amount of the net operating loss for any taxable year subsequent to the deduction year which is a carryback or carryover to taxable years succeeding the deduction year, the amount of contributions made to section 170(b)(1)(A) organizations in the deduction year shall be limited to the amount of such contributions, which were actually made in such year and those which were treated as paid in such year, which did not exceed 50 percent or, in the case of 30-percent capital gain property, 30 percent of the donor's contribution base, computed without regard to any of the modifications referred to in section 172(d), for the deduction year.

(4) *Husband and wife filing joint returns—(i) Change from joint return to separate returns.* If a husband and wife:

(a) Make a joint return for a contribution year and compute an excess charitable contribution for such year

in accordance with the provisions of paragraph (b)(1) or (c)(1) of this section and subparagraph (1) of this paragraph, and

(b) Make separate returns for one or more of the 5 taxable years immediately succeeding such contribution year, any excess charitable contribution for the contribution year which is unused at the beginning of the first such taxable year for which separate returns are filed shall be allocated between the husband and wife. For purposes of the allocation, a computation shall be made of the amount of any excess charitable contribution which each spouse would have computed in accordance with paragraph (b)(1) or (c)(1) of this section and subparagraph (1) of this paragraph if separate returns (rather than a joint return) had been filed for the contribution year. The portion of the total unused excess charitable contribution for the contribution year allocated to each spouse shall be an amount which bears the same ratio to such unused excess charitable contribution as such spouse's excess contribution, based on the separate return computation, bears to the total excess contributions of both spouses, based on the separate return computation. To the extent that a portion of the amount allocated to either spouse in accordance with the foregoing provisions of this subdivision is not treated in accordance with the provisions of paragraph (b)(2) or (c)(2) of this section as a charitable contribution paid to a section 170(b)(1)(A) organization in the taxable year in which a separate return or separate returns are filed, each spouse shall for purposes of paragraph (b)(2) or (c)(2) of this section treat his respective unused portion as the available charitable contributions carryover to the next succeeding taxable year in which the joint excess charitable contribution may be treated as paid in accordance with paragraph (b)(1) or (c)(1) of this section. If such husband and wife make a joint return in one of the 5 taxable years immediately succeeding the contribution year with respect to which a joint excess charitable contribution is computed and following such first taxable year for which such husband and wife filed a separate return, the amounts allocated to each

§ 1.170A-10

spouse in accordance with this subdivision for such first year reduced by the portion of such amounts treated as paid to a section 170(b)(1)(A) organization in such first year and in any taxable year intervening between such first year and the succeeding taxable year in which the joint return is filed shall be aggregated for purposes of determining the amount of the available charitable contributions carryover to such succeeding taxable year. The provisions of this subdivision may be illustrated by the following example:

Example. (a) H and W file joint returns for 1970, 1971, and 1972, and in 1973 they file separate returns. In each such year H and W itemize their deductions in computing taxable income. Assume the following factual situation with respect to H and W for 1970:

	1970		
	H	W	Joint return
Contribution base	\$50,000	\$40,000	\$90,000
Contributions of cash to section 170(b)(1)(A) organizations (no other contributions)	37,000	28,000	65,000
Allowable charitable contributions deductions	25,000	20,000	45,000
Excess contributions for taxable year to be treated as paid in 5 succeeding taxable years	12,000	8,000	20,000

(b) The joint excess charitable contribution of \$20,000 is to be treated as having been paid to a section 170(b)(1)(A) organization in the 5 succeeding taxable years. Assume that in 1971 the portion of such excess treated as paid by H and W is \$3,000, and that in 1972 the portion of such excess treated as paid is \$7,000. Thus, the unused portion of the excess charitable contribution made in the contribution year is \$10,000 (\$20,000 less \$3,000 [amount treated as paid in 1971] and \$7,000 [amount treated as paid in 1972]). Since H and W file separate returns in 1973, \$6,000 of such \$10,000 is allocable to H, and \$4,000 is allocable to W. Such allocation is computed as follows:

\$12,000 (excess charitable contributions made by H (based on separate return computation) in 1970)/\$20,000 (total excess charitable contributions made by H and W (based on separate return computation) in 1970) \times \$10,000 = \$6,000

\$8,000 (excess charitable contributions made by W (based on separate return computation) in 1970)/\$20,000 (total excess charitable contributions made by H and W

26 CFR Ch. I (4-1-17 Edition)

(based on separate return computation) in 1970) \times \$10,000 = \$4,000

(c) In 1973 H has a contribution base of \$70,000, and he contributes \$14,000 in cash to a section 170(b)(1)(A) organization. In 1973 W has a contribution base of \$50,000, and she contributes \$10,000 in cash to a section 170(b)(1)(A) organization. Accordingly, H may claim a charitable contributions deduction of \$20,000 in 1973, and W may claim a charitable contributions deduction of \$14,000 in 1973. H's \$20,000 deduction consists of the \$14,000 contribution made to the section 170(b)(1)(A) organization in 1973 and the \$6,000 carried over from 1970 and treated as a charitable contribution paid by him to a section 170(b)(1)(A) organization in 1973. W's \$14,000 deduction consists of the \$10,000 contribution made to a section 170(b)(1)(A) organization in 1973 and the \$4,000 carried over from 1970 and treated as a charitable contribution paid by her to a section 170(b)(1)(A) organization in 1973.

(d) The \$6,000 contribution treated as paid in 1973 by H, and the \$4,000 contribution treated as paid in 1973 by W, are computed as follows:

	H	W
Available charitable contribution carryover (see computations in (b))	\$6,000	\$4,000
50 percent of contribution base	35,000	25,000
Contributions of cash made in 1973 to section 170(b)(1)(A) organizations (no other contributions)	14,000	10,000
	21,000	15,000

Amount of excess contributions treated as paid in 1973: The lesser of \$6,000 (available carryover of H to 1973) or \$21,000 (excess of 50 percent of contribution base (\$35,000) over contributions actually made in 1973 to section 170(b)(1)(A) organizations (\$14,000))

\$6,000

The lesser of \$4,000 (available carryover of W to 1973) or \$15,000 (excess of 50 percent of contribution base (\$25,000) over contributions actually made in 1973 to section 170(b)(1)(A) organizations (\$10,000))

\$4,000

(e) It is assumed that H and W made no contributions of 30-percent capital gain property during these years. If they had made such contributions, there would have been similar adjustments based on 30 percent of the contribution base.

(ii) *Change from separate returns to joint return.* If in the case of a husband and wife:

(a) Either or both of the spouses make a separate return for a contribution year and compute an excess charitable contribution for such year in accordance with the provisions of paragraph (b)(1) or (c)(1) of this section and subparagraph (1) of this paragraph, and

(b) Such husband and wife make a joint return for one or more of the taxable years succeeding such contribution year, the excess charitable contribution of the husband and wife for the contribution year which is unused at the beginning of the first taxable year for which a joint return is filed shall be aggregated for purposes of determining the portion of such unused charitable contribution which shall be treated in accordance with paragraph (b)(2) or (c)(2) of this section as a charitable contribution paid to a section 170(b)(1)(A) organization. The provisions of this subdivision also apply in the case of two single individuals who are subsequently married and file a joint return. A remarried taxpayer who filed a joint return with a former spouse in a contribution year with respect to which an excess charitable contribution was computed and who in any one of the 5 taxable years succeeding such contribution year files a joint return with his or her present spouse shall treat the unused portion of such excess charitable contribution allocated to him or her in accordance with subdivision (i) of this subparagraph in the same manner as the unused portion of an excess charitable contribution computed in a contribution year in which he filed a separate return, for purposes of determining the amount which in accordance with paragraph (b)(2) or (c)(2) of this section shall be treated as paid to an organization specified in section 170(b)(1)(A) in such succeeding year.

(iii) *Unused excess charitable contribution of deceased spouse.* In case of the death of one spouse, any unused portion of an excess charitable contribution which is allocable in accordance with subdivision (i) of this subparagraph to such spouse shall not be treated as paid in the taxable year in which such death occurs or in any subsequent taxable year except on a separate return made for the deceased spouse by a fiduciary for the taxable year which

ends with the date of death or on a joint return for the taxable year in which such death occurs. The application of this subdivision may be illustrated by the following example:

Example. Assume the same facts as in the example in subdivision (i) of this subparagraph except that H dies in 1972 and W files a separate return for 1973. W made a joint return for herself and H for 1972. In the example, the unused excess charitable contribution as of January 1, 1973, was \$10,000, \$6,000 of which was allocable to H and \$4,000 to W. No portion of the \$6,000 allocable to H may be treated as paid by W or any other person in 1973 or any subsequent year.

(e) *Information required in support of a deduction of an amount carried over and treated as paid.* If, in a taxable year, a deduction is claimed in respect of an excess charitable contribution which, in accordance with the provisions of paragraph (b)(2) or (c)(2) of this section, is treated (in whole or in part) as paid in such taxable year, the taxpayer shall attach to his return a statement showing:

(1) The contribution year (or years) in which the excess charitable contributions were made,

(2) The excess charitable contributions made in each contribution year, and the amount of such excess charitable contributions consisting of 30-percent capital gain property,

(3) The portion of such excess, or of each such excess, treated as paid in accordance with paragraph (b)(2) or (c)(2) of this section in any taxable year intervening between the contribution year and the taxable year for which the return is made, and the portion of such excess which consists of 30-percent capital gain property.

(4) Whether or not an election under section 170(b)(1)(D)(iii) has been made which affects any of such excess contributions of 30-percent capital gain property, and

(5) Such other information as the return or the instructions relating thereto may require.

(f) *Effective date.* This section applies only to contributions paid in taxable years beginning after December 31, 1969. For purposes of applying section 170(d)(1) with respect to contributions paid in a taxable year beginning before January 1, 1970, subsection (b)(1)(D),

§ 1.170A-11

26 CFR Ch. I (4-1-17 Edition)

subsection (e), and paragraphs (1), (2), (3), and (4) of subsection (f) of section 170 shall not apply. See section 201(g)(1)(D) of the Tax Reform Act of 1969 (83 Stat. 564).

[T.D. 7207, 37 FR 20787, Oct. 4, 1972; 37 FR 22982, Oct. 27, 1972, as amended by T.D. 7340, 40 FR 1240, Jan. 7, 1975]

§ 1.170A-11 Limitation on, and carry-over of, contributions by corporations.

(a) *In general.* The deduction by a corporation in any taxable year for charitable contributions, as defined in section 170(c), is limited to 5 percent of its taxable income for the year, computed without regard to:

(1) The deduction under section 170 for charitable contributions,

(2) The special deductions for corporations allowed under Part VIII (except section 248), Subchapter B, Chapter 1 of the Code,

(3) Any net operating loss carryback to the taxable year under section 172, and

(4) Any capital loss carryback to the taxable year under section 1212(a)(1).

A charitable contribution by a corporation to a trust, chest, fund, or foundation described in section 170(c)(2) is deductible under section 170 only if the contribution is to be used in the United States or its possessions exclusively for religious, charitable, scientific, literary, or educational purposes or for the prevention of cruelty to children or animals. For the purposes of section 170, amounts excluded from the gross income of a corporation under section 114, relating to sports programs conducted for the American National Red Cross, are not to be considered contributions or gifts.

(b) *Election by corporations on an accrual method.* (1) A corporation reporting its taxable income on an accrual method may elect to have a charitable contribution treated as paid during the taxable year, if payment is actually made on or before the 15th day of the third month following the close of such year and if, during such year, its board of directors authorizes the charitable contribution. If by reason of such an election a charitable contribution (other than a contribution of a letter, memorandum, or property similar to a

letter or memorandum) paid in a taxable year beginning after December 31, 1969, is treated as paid during a taxable year beginning before January 1, 1970, the provisions of § 1.170A-4 shall not be applied to reduce the amount of such contribution. However, see section 170(e) before its amendment by the Tax Reform Act of 1969.

(2) The election must be made at the time the return for the taxable year is filed, by reporting the contribution on the return. There shall be attached to the return when filed a written declaration stating that the resolution authorizing the contribution was adopted by the board of directors during the taxable year. For taxable years beginning before January 1, 2003, the declaration shall be verified by a statement signed by an officer authorized to sign the return that it is made under penalties of perjury, and there shall also be attached to the return when filed a copy of the resolution of the board of directors authorizing the contribution. For taxable years beginning after December 31, 2002, the declaration must also include the date of the resolution, the declaration shall be verified by signing the return, and a copy of the resolution of the board of directors authorizing the contribution is a record that the taxpayer must retain and keep available for inspection in the manner required by § 1.6001-1(e).

(c) *Charitable contributions carryover of corporations*—(1) *In general.* Subject to the reduction provided in subparagraph (2) of this paragraph, any charitable contributions made by a corporation in a taxable year (hereinafter in this paragraph referred to as the “contribution year”) in excess of the amount deductible in such contribution year under the 5-percent limitation of section 170(b)(2) are deductible in each of the five succeeding taxable years in order of time, but only to the extent of the lesser of the following amounts:

(i) The excess of the maximum amount deductible for such succeeding taxable year under the 5-percent limitation of section 170(b)(2) over the sum of the charitable contributions made in that year plus the aggregate of the excess contributions which were made in taxable years before the contribution

year and which are deductible under this paragraph in such succeeding taxable year; or

(ii) In the case of the first taxable year succeeding the contribution year, the amount of the excess charitable contributions, and in the case of the second, third, fourth, and fifth taxable years succeeding the contribution year, the portion of the excess charitable contributions not deductible under this subparagraph for any taxable year intervening between the contribution year and such succeeding taxable year. This paragraph applies to excess charitable contributions by a corporation, whether or not such contributions are made to, or for the use of, the donee organization and whether or not such organization is a section 170(b)(1)(A) organization, as defined in § 1.170A-9. For purposes of applying this paragraph, a charitable contribution made in a taxable year beginning before January 1, 1970, which is carried over to taxable year beginning after December 31, 1969, under section 170(b)(2) (before its amendment by the Tax Reform Act of 1969) and is deductible in such taxable year beginning after December 31, 1969, shall be treated as deductible under section 170(d)(1) and this paragraph. The application of this subparagraph may be illustrated by the following example:

Example. A corporation which reports its income on the calendar year basis makes a charitable contribution of \$20,000 in 1970. Its taxable income (determined without regard to any deduction for charitable contributions) for 1970 is \$100,000. Accordingly, the charitable contributions deduction for that year is limited to \$5,000 (5 percent of \$100,000). The excess charitable contribution not deductible in 1970 (\$15,000) is a carryover to 1971. The corporation has taxable income (determined without regard to any deduction for charitable contributions) of \$150,000 in 1971 and makes a charitable contribution of \$5,000 in that year. For 1971 the corporation may deduct as a charitable contribution the amount of \$7,500 (5 percent of \$150,000). This amount consists of the \$5,000 contribution made in 1971 and of the \$2,500 carried over from 1970. The remaining \$12,500 carried over from 1970 and not allowable as a deduction for 1971 because of the 5-percent limitation may be carried over to 1972. The corporation has taxable income (determined without regard to any deduction for charitable contributions) of \$200,000 in 1972 and makes a charitable contribution of \$5,000 in that year.

For 1972 the corporation may deduct the amount of \$10,000 (5 percent of \$200,000). This amount consists of the \$5,000 contributed in 1972, and \$5,000 of the \$12,500 carried over from 1970 to 1972. The remaining \$7,500 of the carryover from 1970 is available for purposes of computing the charitable contributions carryover from 1970 to 1973, 1974, and 1975.

(2) *Effect of net operating loss carryovers on carryover of excess contributions.* A corporation having a net operating loss carryover from any taxable year must apply the special rule of section 170(d)(2)(B) and this subparagraph before computing under subparagraph (1) of this paragraph the excess charitable contributions carryover from any taxable year. In determining the amount of excess charitable contributions that may be deducted in accordance with subparagraph (1) of this paragraph in taxable years succeeding the contribution year, the excess of the charitable contributions made by a corporation in the contributions year over the amount deductible in such year must be reduced by the amount by which such excess reduces taxable income for purposes of determining the net operating loss carryover under the second sentence of section 172(b)(2)) and increases a net operating loss carryover to a succeeding taxable year. Thus, if the excess of the contributions made in a taxable year over the amount deductible in the taxable year is utilized to reduce taxable income (under the provisions of section 172(b)(2)) for such year, thereby serving to increase the amount of the net operating loss carryover to a succeeding taxable year or years, no charitable contributions carryover will be allowed. If only a portion of the excess charitable contributions is so used, the charitable contributions carryover will be reduced only to that extent. The application of this subparagraph may be illustrated by the following example:

Example. A corporation, which reports its income on the calendar year basis, makes a charitable contribution of \$10,000 during 1971. Its taxable income for 1971 is \$80,000 (computed without regard to any net operating loss deduction and computed in accordance with section 170(b)(2) without regard to any deduction for charitable contributions). The corporation has a net operating loss carryover from 1970 of \$80,000. In the absence of

the net operating loss deduction the corporation would have been allowed a deduction for charitable contributions of \$4,000 (5 percent of \$80,000). After the application of the net operating loss deduction the corporation is allowed no deduction for charitable contributions, and there is a tentative charitable contribution carryover from 1971 of \$10,000. For purposes of determining the net operating loss carryover to 1972 the corporation computes its taxable income for 1971 under section 172(b)(2) by deducting the \$4,000 charitable contribution. Thus, after the \$80,000 net operating loss carryover is applied against the \$76,000 of taxable income for 1971 (computed in accordance with section 172(b)(2)), there remains a \$4,000 net operating loss carryover to 1972. Since the application of the net operating loss carryover of \$80,000 from 1970 reduces the taxable income for 1971 to zero, no part of the \$10,000 of charitable contributions in that year is deductible under section 170(b)(2). However, in determining the amount of the allowable charitable contributions carryover from 1971 to 1972, 1973, 1974, 1975, and 1976, the \$10,000 must be reduced by the portion thereof (\$4,000) which was used to reduce taxable income for 1971 (as computed for purposes of the second sentence of section 172(b)(2)) and which thereby served to increase the net operating loss carryover from 1970 to 1972 from zero to \$4,000.

(3) *Effect of net operating loss carryback to contribution year.* The amount of the excess contribution for a contribution year computed as provided in subparagraph (1) of this paragraph shall not be increased because a net operating loss carryback is available as a deduction in the contribution year. In addition, in determining under the provisions of section 172(b)(2) the amount of the net operating loss for any year subsequent to the contribution year which is a carryback or carryover to taxable years succeeding the contribution year, the amount of any charitable contributions shall be limited to the amount of such contributions which did not exceed 5 percent of the donor's taxable income, computed as provided in paragraph (a) of this section and without regard to any of the modifications referred to in section 172(d), for the contribution year. For illustrations see paragraph (d)(2) of § 1.170A-10.

(4) *Effect of net operating loss carryback to taxable year succeeding the contribution year.* The amount of the charitable contribution from a pre-

ceding taxable year which is deductible (as provided in this paragraph) in a current taxable year (hereinafter referred to in this subparagraph as the "deduction year") shall not be reduced because a net operating loss carryback is available as a deduction in the deduction year. In addition, in determining under the provisions of section 172(b)(2) the amount of the net operating loss for any taxable year subsequent to the deduction year which is a carryback or a carryover to taxable years succeeding the deduction year, the amount of contributions made in the deduction year shall be limited to the amount of such contributions, which were actually made in such year and those which were deductible in such year under section 170(d)(2), which did not exceed 5 percent of the donor's taxable income, computed as provided in paragraph (a) of this section and without regard to any of the modifications referred to in section 172(d), for the deduction year.

(5) *Year contribution is made.* For purposes of this paragraph, contributions made by a corporation in a contribution year include contributions which, in accordance with the provisions of section 170(a)(2) and paragraph (b) of this section, are considered as paid during such contribution year.

(d) *Effective date.* This section applies only to contributions paid in taxable years beginning after December 31, 1969. For purposes of applying section 170(d)(2) with respect to contributions paid, or treated under section 170(a)(2) as paid, in a taxable year beginning before January 1, 1970, subsection (e), and paragraphs (1), (2), (3), and (4) of subsection (f) of section 170 shall not apply. See section 201(g)(1)(D) of the Tax Reform Act of 1969 (83 Stat. 564).

[T.D. 7207, 37 FR 20793, Oct. 4, 1972, as amended by T.D. 7807, 47 FR 4512, Feb. 1, 1982; T.D. 9100, 68 FR 70704, Dec. 19, 2003; T.D. 9300, 71 FR 71041, Dec. 8, 2006]

§ 1.170A-12 Valuation of a remainder interest in real property for contributions made after July 31, 1969.

(a) *In general.* (1) Section 170(f)(4) provides that, in determining the value of a remainder interest in real property for purposes of section 170, depreciation and depletion of such property shall be

taken into account. Depreciation shall be computed by the straight line method and depletion shall be computed by the cost depletion method. Section 170(f)(4) and this section apply only in the case of a contribution, not made in trust, of a remainder interest in real property made after July 31, 1969, for which a deduction is otherwise allowable under section 170.

(2) In the case of the contribution of a remainder interest in real property consisting of a combination of both depreciable and nondepreciable property, or of both depletable and nondepletable property, and allocation of the fair market value of the property at the time of the contribution shall be made between the depreciable and nondepreciable property, or the depletable and nondepletable property, and depreciation or depletion shall be taken into account only with respect to the depreciable or depletable property. The expected value at the end of its "estimated useful life" (as defined in paragraph (d) of this section) of that part of the remainder interest consisting of depreciable property shall be considered to be nondepreciable property for purposes of the required allocation. In the case of the contribution of a remainder interest in stock in a cooperative housing corporation (as defined in section 216(b)(1)), an allocation of the fair market value of the stock at the time of the contribution shall be made to reflect the respective values of the depreciable and nondepreciable property underlying such stock, and depreciation on the depreciable part shall be taken into account for purposes of valuing the remainder interest in such stock.

(3) If the remainder interest that has been contributed follows only one life, the value of the remainder interest shall be computed under the rules contained in paragraph (b) of this section. If the remainder interest that has been contributed follows a term for years, the value of the remainder interest shall be computed under the rules contained in paragraph (c) of this section. If the remainder interest that has been contributed is dependent upon the continuation or the termination of more than one life or upon a term certain concurrent with one or more lives, the provisions of paragraph (e) of this sec-

tion shall apply. In every case where it is provided in this section that the rules contained in § 25.2512-5 (or, for certain prior periods, § 25.2512-5A) of this chapter (Gift Tax Regulations) apply, such rules shall apply notwithstanding the general effective date for such rules contained in paragraph (a) of such section. Except as provided in § 1.7520-3(b) of this chapter, for transfers of remainder interests after April 30, 1989, the present value of the remainder interest is determined under § 25.2512-5 of this chapter by use of the interest rate component on the date the interest is transferred unless an election is made under section 7520 and § 1.7520-2 of this chapter to compute the present value of the interest transferred by use of the interest rate component for either of the 2 months preceding the month in which the interest is transferred. In some cases, a reduction in the amount of a charitable contribution of a remainder interest, after the computation of its value under section 170(f)(4) and this section, may be required. See section 170(e) and § 1.170A-4.

(b) *Valuation of a remainder interest following only one life*—(1) *General rule.* The value of a remainder interest in real property following only one life is determined under the rules provided in § 20.2031-7 (or for certain prior periods, § 20.2031-7A) of this chapter (Estate Tax Regulations), using the interest rate and life contingencies prescribed for the date of the gift. See, however, § 1.7520-3(b) (relating to exceptions to the use of prescribed tables under certain circumstances). However, if any part of the real property is subject to exhaustion, wear and tear, or obsolescence, the special factor determined under paragraph (b)(2) of this section shall be used in valuing the remainder interest in that part. Further, if any part of the property is subject to depletion of its natural resources, such depletion is taken into account in determining the value of the remainder interest.

(2) *Computation of depreciation factor.* If the valuation of the remainder interest in depreciable property is dependent upon the continuation of one life, a special factor must be used. The factor determined under this paragraph (b)(2)

is carried to the fifth decimal place. The special factor is to be computed on the basis of the interest rate and life contingencies prescribed in § 20.2031-7 of this chapter (or for periods before May 1, 2009, § 20.2031-7A) and on the assumption that the property depreciates on a straight-line basis over its estimated useful life. For transfers for which the valuation date is on or after May 1, 2009, special factors for determining the present value of a remainder interest following one life and an example describing the computation are contained in Internal Revenue Service Publication 1459, "Actuarial Valuations Version 3C" (2009). This publication is available, at no charge, electronically via the IRS Internet site at <http://www.irs.gov>. For transfers for which the valuation date is after April 30, 1999, and before May 1, 2009, special factors for determining the present value of a remainder interest following one life and an example describing the computation are contained in Internal Revenue Service Publication 1459,

"Actuarial Values, Book Gimel," (7-99). For transfers for which the valuation date is after April 30, 1989, and before May 1, 1999, special factors for determining the present value of a remainder interest following one life and an example describing the computation are contained in Internal Revenue Service Publication 1459, "Actuarial Values, Gamma Volume," (8-89). These publications are no longer available for purchase from the Superintendent of Documents, United States Government Printing Office. However, they may be obtained by requesting a copy from: CC:PA:LPD:PR (IRS Publication 1459), room 5205, Internal Revenue Service, P.O.Box 7604, Ben Franklin Station, Washington, DC 20044. See, however, § 1.7520-3(b) (relating to exceptions to the use of prescribed tables under certain circumstances). Otherwise, in the case of the valuation of a remainder interest following one life, the special factor may be obtained through use of the following formula:

$$\left(1 + \frac{i}{2}\right) \sum_{t=0}^{n-1} v^{t+1} \left[\left(1 - \frac{l_{x+t+1}}{l_x}\right) - \left(1 - \frac{l_{x+t}}{l_x}\right) \right] \left(1 - \frac{1}{2n} - \frac{t}{n}\right)$$

Where:

n = the estimated number of years of useful life,
i = the applicable interest rate under section 7520 of the Internal Revenue Code,
v = 1 divided by the sum of 1 plus the applicable interest rate under section 7520 of the Internal Revenue Code,
x = the age of the life tenant, and
lx = number of persons living at age x as set forth in Table 2000CM of § 20.2031-7 of this chapter (or, for periods before May 1, 2009, the tables set forth under § 20.2031-7A).

(3) The following example illustrates the provisions of this paragraph (b):

Example. A, who is 62, donates to Y University a remainder interest in a personal residence, consisting of a house and land, subject to a reserved life estate in A. At the time of the gift, the land has a value of \$30,000 and the house has a value of \$100,000 with an estimated useful life of 45 years, at the end of which period the value of the house is ex-

pected to be \$20,000. The portion of the property considered to be depreciable is \$80,000 (the value of the house (\$100,000) less its expected value at the end of 45 years (\$20,000)). The portion of the property considered to be nondepreciable is \$50,000 (the value of the land at the time of the gift (\$30,000) plus the expected value of the house at the end of 45 years (\$20,000)). At the time of the gift, the interest rate prescribed under section 7520 is 8.4 percent. Based on an interest rate of 8.4 percent, the remainder factor for \$1.00 prescribed in § 20.2031-7(d) for a person age 62 is 0.26534. The value of the nondepreciable remainder interest is \$13,267.00 (0.26534 times \$50,000). The value of the depreciable remainder interest is \$15,053.60 (0.18817, computed under the formula described in paragraph (b)(2) of this section, times \$80,000). Therefore, the value of the remainder interest is \$28,320.60.

(c) *Valuation of a remainder interest following a term for years.* The value of a remainder interest in real property

following a term for years shall be determined under the rules provided in § 25.2512-5 (or, for certain prior periods, § 25.2512-5A) of this chapter (Gift Tax Regulations) using Table B provided in § 20.2031-7(d)(6) of this chapter. However, if any part of the real property is subject to exhaustion, wear and tear, or obsolescence, in valuing the remainder interest in that part the value of such part is adjusted by subtracting from the value of such part the amount determined by multiplying such value by a fraction, the numerator of which is the number of years in the term or, if less, the estimated useful life of the property, and the denominator of which is the estimated useful life of the property. The resultant figure is the value of the property to be used in § 25.2512-5 (or, for certain prior periods, § 25.2512-5A) of this chapter (Gift Tax Regulations). Further, if any part of the property is subject to depletion of its natural resources, such depletion shall be taken into account in determining the value of the remainder interest. The provisions of this paragraph as it relates to depreciation are illustrated by the following example:

Example. In 1972, B donates to Z University a remainder interest in his personal residence, consisting of a house and land, subject to a 20 year term interest provided for his sister. At such time the house has a value of \$60,000, and an expected useful life of 45 years, at the end of which time it is expected to have a value of \$10,000, and the land has a value of \$8,000. The value of the portion of the property considered to be depreciable is \$50,000 (the value of the house (\$60,000) less its expected value at the end of 45 years (\$10,000)), and this is multiplied by the fraction $20/45$. The product, \$22,222.22, is subtracted from \$68,000, the value of the entire property, and the balance, \$45,777.78, is multiplied by the factor .311805 (see § 25.2512-5A(c)). The result, \$14,273.74, is the value of the remainder interest in the property.

(d) *Definition of estimated useful life.* For the purposes of this section, the determination of the estimated useful life of depreciable property shall take account of the expected use of such property during the period of the life estate or term for years. The term “estimated useful life” means the estimated period (beginning with the date of the contribution) over which such property may reasonably be expected

to be useful for such expected use. This period shall be determined by reference to the experience based on any prior use of the property for such purposes if such prior experience is adequate. If such prior experience is inadequate or if the property has not been previously used for such purposes, the estimated useful life shall be determined by reference to the general experience of persons normally holding similar property for such expected use, taking into account present conditions and probable future developments. The estimated useful life of such depreciable property is not limited to the period of the life estate or term for years preceding the remainder interest. In determining the expected use and the estimated useful life of the property, consideration is to be given to the provisions of the governing instrument creating the life estate or term for years or applicable local law, if any, relating to use, preservation, and maintenance of the property during the life estate or term for years. In arriving at the estimated useful life of the property, estimates, if available, of engineers or other persons skilled in estimating the useful life of similar property may be taken into account. At the option of the taxpayer, the estimated useful life of property contributed after December 31, 1970, for purposes of this section, shall be an asset depreciation period selected by the taxpayer that is within the permissible asset depreciation range for the relevant asset guideline class established pursuant to § 1.167(a)-11(b)(4)(ii). For purposes of the preceding sentence, such period, range, and class shall be those which are in effect at the time that the contribution of the remainder interest was made. At the option of the taxpayer, in the case of property contributed before January 1, 1971, the estimated useful life, for purposes of this section, shall be the guideline life provided in Revenue Procedure 62-21 for the relevant asset guideline class.

(e) *Valuation of a remainder interest following more than one life or a term certain concurrent with one or more lives.* (1)(i) If the valuation of the remainder interest in the real property is dependent upon the continuation or the termination of more than one life or upon a term certain concurrent with one or

§ 1.170A-13

26 CFR Ch. I (4-1-17 Edition)

more lives, a special factor must be used.

(ii) The special factor is to be computed on the basis of—

(A) Interest at the rate prescribed under § 25.2512-5 (or, for certain prior periods, § 25.2512-5A) of this chapter, compounded annually;

(B) Life contingencies determined from the values that are set forth in the mortality table in § 20.2031-7 (or, for certain prior periods, § 20.2031-7A) of this chapter; and

(C) If depreciation is involved, the assumption that the property depreciates on a straight-line basis over its estimated useful life.

(iii) If any part of the property is subject to depletion of its natural resources, such depletion must be taken into account in determining the value of the remainder interest.

(2) In the case of the valuation of a remainder interest following two lives, the special factor may be obtained through use of the following formula:

$$\left(1 + \frac{i}{2}\right) \sum_{t=0}^{n-1} V^{(t+1)} \left[\left(1 - \frac{1_{x+t+1}}{1_x}\right) \left(1 - \frac{1_{y+t+1}}{1_y}\right) - \left(1 - \frac{1_{x+t}}{1_x}\right) \left(1 - \frac{1_{y+t}}{1_y}\right) \right] \left(1 - \frac{1}{2n} - \frac{t}{n}\right)$$

Where:

n = the estimated number of years of useful life,

i = the applicable interest rate under section 7520 of the Internal Revenue Code,

v = 1 divided by the sum of 1 plus the applicable interest rate under section 7520 of the Internal Revenue Code,

x and y = the ages of the life tenants, and

1_x and 1_y = the number of persons living at ages x and y as set forth in Table 2000CM in § 20.2031-7 (or, for prior periods, in § 20.2031-7A) of this chapter.

(3) Notwithstanding that the taxpayer may be able to compute the special factor in certain cases under paragraph (2), if a special factor is required in the case of an actual contribution, the Commissioner will furnish the factor to the donor upon request. The request must be accompanied by a statement of the sex and date of birth of each person the duration of whose life may affect the value of the remainder interest, copies of the relevant instruments, and, if depreciation is involved, a statement of the estimated useful life of the depreciable property. However, since remainder interests in that part of any property which is depletable cannot be valued on a purely actuarial basis, special factors will not be furnished with respect to such part. Requests should be forwarded to the Commissioner of Internal Revenue, Attention: OP:E:EP:A:1, Washington, DC 20224.

(f) *Effective/applicability date.* This section applies to contributions made after July 31, 1969, except that paragraphs (b)(2) and (b)(3) apply to all contributions made on or after May 1, 2009.

[T.D. 7370, 40 FR 34337, Aug. 15, 1975, as amended by T.D. 7955, 49 FR 19975, May 11, 1984; T.D. 8540, 59 FR 30102, 30104, June 10, 1994; T.D. 8819, 64 FR 23228, Apr. 30, 1999; T.D. 8886, 65 FR 36909, 36943, June 12, 2000; T.D. 9448, 74 FR 21439, 21518, May 7, 2009; 74 FR 27079, June 8, 2009; T.D. 9540, 76 FR 49571, 49612, Aug. 10, 2011]

§ 1.170A-13 Recordkeeping and return requirements for deductions for charitable contributions.

(a) *Charitable contributions of money made in taxable years beginning after December 31, 1982—(1) In general.* If a taxpayer makes a charitable contribution of money in a taxable year beginning after December 31, 1982, the taxpayer shall maintain for each contribution one of the following:

(i) A cancelled check.

(ii) A receipt from the donee charitable organization showing the name of the donee, the date of the contribution, and the amount of the contribution. A letter or other communication from the donee charitable organization acknowledging receipt of a contribution and showing the date and amount of the contribution constitutes a receipt for purposes of this paragraph (a).

(iii) In the absence of a canceled check or receipt from the donee charitable organization, other reliable written records showing the name of the donee, the date of the contribution, and the amount of the contribution.

(2) *Special rules*—(i) *Reliability of records.* The reliability of the written records described in paragraph (a)(1)(iii) of this section is to be determined on the basis of all of the facts and circumstances of a particular case. In all events, however, the burden shall be on the taxpayer to establish reliability. Factors indicating that the written records are reliable include, but are not limited to:

(A) The contemporaneous nature of the writing evidencing the contribution.

(B) The regularity of the taxpayer's recordkeeping procedures. For example, a contemporaneous diary entry stating the amount and date of the donation and the name of the donee charitable organization made by a taxpayer who regularly makes such diary entries would generally be considered reliable.

(C) In the case of a contribution of a small amount, the existence of any written or other evidence from the donee charitable organization evidencing receipt of a donation that would not otherwise constitute a receipt under paragraph (a)(1)(ii) of this section (including an emblem, button, or other token traditionally associated with a charitable organization and regularly given by the organization to persons making cash donations).

(ii) *Information stated in income tax return.* The information required by paragraph (a)(1)(iii) of this section shall be stated in the taxpayer's income tax return if required by the return form or its instructions.

(3) *Taxpayer option to apply paragraph (d)(1) to pre-1985 contribution.* See paragraph (d)(1) of this section with regard to contributions of money made on or before December 31, 1984.

(b) *Charitable contributions of property other than money made in taxable years beginning after December 31, 1982*—(1) *In general.* Except in the case of certain charitable contributions of property made after December 31, 1984, to which paragraph (c) of this section applies, any taxpayer who makes a charitable

contribution of property other than money in a taxable year beginning after December 31, 1982, shall maintain for each contribution a receipt from the donee showing the following information:

(i) The name of the donee.

(ii) The date and location of the contribution.

(iii) A description of the property in detail reasonably sufficient under the circumstances. Although the fair market value of the property is one of the circumstances to be taken into account in determining the amount of detail to be included on the receipt, such value need not be stated on the receipt.

A letter or other written communication from the donee acknowledging receipt of the contribution, showing the date of the contribution, and containing the required description of the property contributed constitutes a receipt for purposes of this paragraph. A receipt is not required if the contribution is made in circumstances where it is impractical to obtain a receipt (*e.g.*, by depositing property at a charity's unattended drop site). In such cases, however, the taxpayer shall maintain reliable written records with respect to each item of donated property that include the information required by paragraph (b)(2)(ii) of this section.

(2) *Special rules*—(i) *Reliability of records.* The rules described in paragraph (a)(2)(i) of this section also apply to this paragraph (b) for determining the reliability of the written records described in paragraph (b)(1) of this section.

(ii) *Content of records.* The written records described in paragraph (b)(1) of this section shall include the following information and such information shall be stated in the taxpayers income tax return if required by the return form or its instructions:

(A) The name and address of the donee organization to which the contribution was made.

(B) The date and location of the contribution.

(C) A description of the property in detail reasonable under the circumstances (including the value of the property), and, in the case of securities, the name of the issuer, the type of

security, and whether or not such security is regularly traded on a stock exchange or in an over-the-counter market.

(D) The fair market value of the property at the time the contribution was made, the method utilized in determining the fair market value, and, if the valuation was determined by appraisal, a copy of the signed report of the appraiser.

(E) In the case of property to which section 170(e) applies, the cost or other basis, adjusted as provided by section 1016, the reduction by reason of section 170(e)(1) in the amount of the charitable contribution otherwise taken into account, and the manner in which such reduction was determined. A taxpayer who elects under paragraph (d)(2) of § 1.170A-8 to apply section 170(e)(1) to contributions and carryovers of 30 percent capital gain property shall maintain a written record indicating the years for which the election was made and showing the contributions in the current year and carryovers from preceding years to which it applies. For the definition of the term “30-percent capital gain property,” see paragraph (d)(3) of § 1.170A-8.

(F) If less than the entire interest in the property is contributed during the taxable year, the total amount claimed as a deduction for the taxable year due to the contribution of the property, and the amount claimed as a deduction in any prior year or years for contributions of other interests in such property, the name and address of each organization to which any such contribution was made, the place where any such property which is tangible property is located or kept, and the name of any person, other than the organization to which the property giving rise to the deduction was contributed, having actual possession of the property.

(G) The terms of any agreement or understanding entered into by or on behalf of the taxpayer which relates to the use, sale, or other disposition of the property contributed, including for example, the terms of any agreement or understanding which:

(1) Restricts temporarily or permanently the donee's right to use or dispose of the donated property,

(2) Reserves to, or confers upon, any one (other than the donee organization or an organization participating with the donee organization in cooperative fundraising) any right to the income from the donated property or to the possession of the property, including the right to vote donated securities, to acquire the property by purchase or otherwise, or to designate the person having such income, possession, or right to acquire, or

(3) Earmarks donated property for a particular use.

(3) *Deductions in excess of \$500 claimed for a charitable contribution of property other than money*—(i) *In general.* In addition to the information required under paragraph (b)(2)(ii) of this section, if a taxpayer makes a charitable contribution of property other than money in a taxable year beginning after December 31, 1982, and claims a deduction in excess of \$500 in respect of the contribution of such item, the taxpayer shall maintain written records that include the following information with respect to such item of donated property, and shall state such information in his or her income tax return if required by the return form or its instructions:

(A) The manner of acquisition, as for example by purchase, gift bequest, inheritance, or exchange, and the approximate date of acquisition of the property by the taxpayer or, if the property was created, produced, or manufactured by or for the taxpayer, the approximate date the property was substantially completed.

(B) The cost or other basis, adjusted as provided by section 1016, of property, other than publicly traded securities, held by the taxpayer for a period of less than 12 months (6 months for property contributed in taxable years beginning after December 31, 1982, and on or before June 6, 1988, immediately preceding the date on which the contribution was made and, when the information is available, of property, other than publicly traded securities, held for a period of 12 months or more (6 months or more for property contributed in taxable years beginning after December 31, 1982, and on or before June 6, 1988, preceding the date on which the contribution was made.

(ii) *Information on acquisition date or cost basis not available.* If the return form or its instructions require the taxpayer to provide information on either the acquisition date of the property or the cost basis as described in paragraph (b)(3)(i) (A) and (B), respectively, of this section, and the taxpayer has reasonable cause for not being able to provide such information, the taxpayer shall attach an explanatory statement to the return. If a taxpayer has reasonable cause for not being able to provide such information, the taxpayer shall not be disallowed a charitable contribution deduction under section 170 for failure to comply with paragraph (b)(3)(i) (A) and (B) of the section.

(4) *Taxpayer option to apply paragraph (d) (1) and (2) to pre-1985 contributions.* See paragraph (d) (1) and (2) of this section with regard to contributions of property made on or before December 31, 1984.

(c) *Deductions in excess of \$5,000 for certain charitable contributions of property made after December 31, 1984—(1) General Rule—(i) In general.* This paragraph applies to any charitable contribution made after December 31, 1984, by an individual, closely held corporation, personal service corporation, partnership, or S corporation of an item of property (other than money and publicly traded securities to which § 1.170A-13(c)(7)(xi)(B) does not apply if the amount claimed or reported as a deduction under section 170 with respect to such item exceeds \$5,000. This paragraph also applies to charitable contributions by C corporations (as defined in section 1361(a)(2) of the Code) to the extent described in paragraph (c)(2)(ii) of this section. No deduction under section 170 shall be allowed with respect to a charitable contribution to which this paragraph applies unless the substantiation requirements described in paragraph (c)(2) of this section are met. For purposes of this paragraph (c), the amount claimed or reported as a deduction for an item of property is the aggregate amount claimed or reported as a deduction for a charitable contribution under section 170 for such items of property and all similar items of property (as defined in paragraph (c)(7)(iii) of this section) by the same

donor for the same taxable year (whether or not donated to the same donee).

(ii) *Special rule for property to which section 170(e) (3) or (4) applies.* For purposes of this paragraph (c), in computing the amount claimed or reported as a deduction for donated property to which section 170(e) (3) or (4) applies (pertaining to certain contributions of inventory and scientific equipment) there shall be taken into account only the amount claimed or reported as a deduction in excess of the amount which would have been taken into account for tax purposes by the donor as costs of goods sold if the donor had sold the contributed property to the donee. For example, assume that a donor makes a contribution from inventory of clothing for the care of the needy to which section 170(e)(3) applies. The cost of the property to the donor was \$5,000, and, pursuant to section 170(e)(3)(B), the donor claims a charitable contribution deduction of \$8,000 with respect to the property. Therefore, \$3,000 (\$8,000-\$5,000) is the amount taken into account for purposes of determining whether the \$5,000 threshold of this paragraph (c)(1) is met.

(2) *Substantiation requirements—(i) In general.* Except as provided in paragraph (c)(2)(ii) of this section, a donor who claims or reports a deduction with respect to a charitable contribution to which this paragraph (c) applies must comply with the following three requirements:

(A) Obtain a qualified appraisal (as defined in paragraph (c) (3) of this section) for such property contributed. If the contributed property is a partial interest, the appraisal shall be of the partial interest.

(B) Attach a fully completed appraisal summary (as defined in paragraph (c) (4) of this section) to the tax return (or, in the case of a donor that is a partnership or S corporation, the information return) on which the deduction for the contribution is first claimed (or reported) by the donor.

(C) Maintain records containing the information required by paragraph (b) (2) (ii) of this section.

(ii) *Special rules for certain nonpublicly traded stock, certain publicly traded securities, and contributions by certain C corporations.* (A) In cases described in paragraph (c)(2)(ii)(B) of this section, a qualified appraisal is not required, and only a partially completed appraisal summary form (as described in paragraph (c)(4)(iv)(A) of this section) is required to be attached to the tax or information return specified in paragraph (c)(2)(i)(B) of this section. However, in all cases donors must maintain records containing the information required by paragraph (b)(2)(ii) of this section.

(B) This paragraph (c)(2)(ii) applies in each of the following cases:

(1) The contribution of nonpublicly traded stock, if the amount claimed or reported as a deduction for the charitable contribution of such stock is greater than \$5,000 but does not exceed \$10,000;

(2) The contribution of a security to which paragraph (c)(7)(xi)(B) of this section applies; and

(3) The contribution of an item of property or of similar items of property described in paragraph (c)(1) of this section made after June 6, 1988, by a C corporation (as defined in section 1361(a)(2) of the Code), other than a closely held corporation or a personal service corporation.

(3) *Qualified appraisal*—(i) *In general.* For purposes of this paragraph (c), the term “qualified appraisal” means an appraisal document that—

(A) Relates to an appraisal that is made not earlier than 60 days prior to the date of contribution of the appraised property nor later than the date specified in paragraph (c)(3)(iv)(B) of this section;

(B) Is prepared, signed, and dated by a qualified appraiser (within the meaning of paragraph (c)(5) of this section);

(C) Includes the information required by paragraph (c)(3)(ii) of this section; and

(D) Does not involve an appraisal fee prohibited by paragraph (c)(6) of this section.

(ii) *Information included in qualified appraisal.* A qualified appraisal shall include the following information:

(A) A description of the property in sufficient detail for a person who is not

generally familiar with the type of property to ascertain that the property that was appraised is the property that was (or will be) contributed;

(B) In the case of tangible property, the physical condition of the property;

(C) The date (or expected date) of contribution to the donee;

(D) The terms of any agreement or understanding entered into (or expected to be entered into) by or on behalf of the donor or donee that relates to the use, sale, or other disposition of the property contributed, including, for example, the terms of any agreement or understanding that—

(1) Restricts temporarily or permanently a donee’s right to use or dispose of the donated property,

(2) Reserves to, or confers upon, anyone (other than a donee organization or an organization participating with a donee organization in cooperative fundraising) any right to the income from the contributed property or to the possession of the property, including the right to vote donated securities, to acquire the property by purchase or otherwise, or to designate the person having such income, possession, or right to acquire, or

(3) Earmarks donated property for a particular use;

(E) The name, address, and (if a taxpayer identification number is otherwise required by section 6109 and the regulations thereunder) the identifying number of the qualified appraiser; and, if the qualified appraiser is acting in his or her capacity as a partner in a partnership, an employee of any person (whether an individual, corporation, or partnerships), or an independent contractor engaged by a person other than the donor, the name, address, and taxpayer identification number (if a number is otherwise required by section 6109 and the regulations thereunder) of the partnership or the person who employs or engages the qualified appraiser;

(F) The qualifications of the qualified appraiser who signs the appraisal, including the appraiser’s background, experience, education, and membership, if any, in professional appraisal associations;

(G) A statement that the appraisal was prepared for income tax purposes;

(H) The date (or dates) on which the property was appraised;

(I) The appraised fair market value (within the meaning of § 1.170A-1 (c)(2)) of the property on the date (or expected date) of contribution;

(J) The method of valuation used to determine the fair market value, such as the income approach, the market-data approach, and the replacement-cost-less-depreciation approach; and

(K) The specific basis for the valuation, such as specific comparable sales transactions or statistical sampling, including a justification for using sampling and an explanation of the sampling procedure employed.

(iii) *Effect of signature of the qualified appraiser.* Any appraiser who falsely or fraudulently overstates the value of the contributed property referred to in a qualified appraisal or appraisal summary (as defined in paragraphs (c) (3) and (4), respectively, of this section) that the appraiser has signed may be subject to a civil penalty under section 6701 for aiding and abetting an understatement of tax liability and, moreover, may have appraisals disregarded pursuant to 31 U.S.C. 330(c).

(iv) *Special rules—(A) Number of qualified appraisals.* For purposes of paragraph (c)(2)(i)(A) of this section, a separate qualified appraisal is required for each item of property that is not included in a group of similar items of property. See paragraph (c)(7)(iii) of this section for the definition of similar items of property. Only one qualified appraisal is required for a group of similar items of property contributed in the same taxable year of the donor, although a donor may obtain separate qualified appraisals for each item of property. A qualified appraisal prepared with respect to a group of similar items of property shall provide all the information required by paragraph (c)(3)(ii) of this section for each item of similar property, except that the appraiser may select any items whose aggregate value is appraised at \$100 or less and provide a group description of such items.

(B) *Time of receipt of qualified appraisal.* The qualified appraisal must be received by the donor before the due date (including extensions) of the return on which a deduction is first

claimed (or reported in the case of a donor that is a partnership or S corporation) under section 170 with respect to the donated property, or, in the case of a deduction first claimed (or reported) on an amended return, the date on which the return is filed.

(C) *Retention of qualified appraisal.* The donor must retain the qualified appraisal in the donor's records for so long as it may be relevant in the administration of any internal revenue law.

(D) *Appraisal disregarded pursuant to 31 U.S.C. 330(c).* If an appraisal is disregarded pursuant to 31 U.S.C. 330(c) it shall have no probative effect as to the value of the appraised property. Such appraisal will, however, otherwise constitute a "qualified appraisal" for purposes of this paragraph (c) if the appraisal summary includes the declaration described in paragraph (c)(4)(ii)(L)(2) and the taxpayer had no knowledge that such declaration was false as of the time described in paragraph (c)(4)(i)(B) of this section.

(4) *Appraisal summary—(i) In general.* For purposes of this paragraph (c), except as provided in paragraph (c)(4)(iv)(A) of this section, the term *appraisal summary* means a summary of a qualified appraisal that—

(A) Is made on the form prescribed by the Internal Revenue Service;

(B) Is signed and dated (as described in paragraph (c)(4)(iii) of this section) by the donee (or presented to the donee for signature in cases described in paragraph (c)(4)(iv)(C)(2) of this section);

(C) Is signed and dated by the qualified appraiser (within the meaning of paragraph (c)(5) of this section) who prepared the qualified appraisal (within the meaning of paragraph (c)(3) of this section); and

(D) Includes the information required by paragraph (c)(4)(ii) of this section.

(ii) *Information included in an appraisal summary.* An appraisal summary shall include the following information:

(A) The name and taxpayer identification number of the donor (social security number if the donor is an individual or employer identification number if the donor is a partnership or corporation);

(B) A description of the property in sufficient detail for a person who is not generally familiar with the type of property to ascertain that the property that was appraised is the property that was contributed;

(C) In the case of tangible property, a brief summary of the overall physical condition of the property at the time of the contribution;

(D) The manner of acquisition (*e.g.*, purchase, exchange, gift, or bequest) and the date of acquisition of the property by the donor, or, if the property was created, produced, or manufactured by or for the donor, a statement to that effect and the approximate date the property was substantially completed;

(E) The cost or other basis of the property adjusted as provided by section 1016;

(F) The name, address, and taxpayer identification number of the donee;

(G) The date the donee received the property;

(H) For charitable contributions made after June 6, 1988, a statement explaining whether or not the charitable contribution was made by means of a bargain sale and the amount of any consideration received from the donee for the contribution;

(I) The name, address, and (if a taxpayer identification number is otherwise required by section 6109 and the regulations thereunder) the identifying number of the qualified appraiser who signs the appraisal summary and of other persons as required by paragraph (c)(3)(ii)(E) of this section;

(J) The appraised fair market value of the property on the date of contribution;

(K) The declaration by the appraiser described in paragraph (c)(5)(i) of this section;

(L) A declaration by the appraiser stating that—

(1) The fee charged for the appraisal is not of a type prohibited by paragraph (c)(6) of this section; and

(2) Appraisals prepared by the appraiser are not being disregarded pursuant to 31 U.S.C. 330(c) on the date the appraisal summary is signed by the appraiser; and

(M) Such other information as may be specified by the form.

(iii) *Signature of the original donee.* The person who signs the appraisal summary for the donee shall be an official authorized to sign the tax or information returns of the donee, or a person specifically authorized to sign appraisal summaries by an official authorized to sign the tax or information returns of such donee. In the case of a donee that is a governmental unit, the person who signs the appraisal summary for such donee shall be the official authorized by such donee to sign appraisal summaries. The signature of the donee on the appraisal summary does not represent concurrence in the appraised value of the contributed property. Rather, it represents acknowledgment of receipt of the property described in the appraisal summary on the date specified in the appraisal summary and that the donee understands the information reporting requirements imposed by section 6050L and § 1.6050L-1. In general, § 1.6050L-1 requires the donee to file an information return with the Internal Revenue Service in the event the donee sells, exchanges, consumes, or otherwise disposes of the property (or any portion thereof) described in the appraisal summary within 2 years after the date of the donor's contribution of such property.

(iv) *Special rules—(A) Content of appraisal summary required in certain cases.* With respect to contributions of non-publicly traded stock described in paragraph (c)(2)(ii)(B)(I) of this section, contributions of securities described in paragraph (c)(7)(xi)(B) of this section, and contributions by C corporations described in paragraph (c)(2)(ii)(B)(3) of this section, the term *appraisal summary* means a document that—

(1) Complies with the requirements of paragraph (c)(4)(i) (A) and (B) of this section,

(2) Includes the information required by paragraph (c)(4)(ii) (A) through (H) of this section,

(3) Includes the amount claimed or reported as a charitable contribution deduction, and

(4) In the case of securities described in paragraph (c)(7)(xi)(B) of this section, also includes the pertinent average trading price (as described in paragraph (c)(7)(xi)(B)(2)(iii) of this section).

(B) *Number of appraisal summaries.* A separate appraisal summary for each item of property described in paragraph (c)(1) of this section must be attached to the donor's return. If, during the donor's taxable year, the donor contributes similar items of property described in paragraph (c)(1) of this section to more than one donee, the donor shall attach to the donor's return a separate appraisal summary for each donee. See paragraph (c)(7)(iii) of this section for the definition of similar items of property. If, however, during the donor's taxable year, a donor contributes similar items of property described in paragraph (c)(1) of this section to the same donee, the donor may attach to the donor's return a single appraisal summary with respect to all similar items of property contributed to the same donee. Such an appraisal summary shall provide all the information required by paragraph (c)(4)(ii) of this section for each item of property, except that the appraiser may select any items whose aggregate value is appraised at \$100 or less and provide a group description for such items.

(C) *Manner of acquisition, cost basis and donee's signature.* (1) If a taxpayer has reasonable cause for being unable to provide the information required by paragraph (c)(4)(ii) (D) and (E) of this section (relating to the manner of acquisition and basis of the contributed property), an appropriate explanation should be attached to the appraisal summary. The taxpayer's deduction will not be disallowed simply because of the inability (for reasonable cause) to provide these items of information.

(2) In rare and unusual circumstances in which it is impossible for the taxpayer to obtain the signature of the donee on the appraisal summary as required by paragraph (c)(4)(i)(B) of this section, the taxpayer's deduction will not be disallowed for that reason provided that the taxpayer attaches a statement to the appraisal summary explaining, in detail, why it was not

possible to obtain the donee's signature. For example, if the donee ceases to exist as an entity subsequent to the date of the contribution and prior to the date when the appraisal summary must be signed, and the donor acted reasonably in not obtaining the donee's signature at the time of the contribution, relief under this paragraph (c)(4)(iv)(C)(2) would generally be appropriate.

(D) *Information excluded from certain appraisal summaries.* The information required by paragraph (c)(4)(i)(C), paragraph (c)(4)(ii) (D), (E), (H) through (M), and paragraph (c)(4)(iv)(A)(3), and the average trading price referred to in paragraph (c)(4)(iv)(A)(4) of this section do not have to be included on the appraisal summary at the time it is signed by the donee or a copy is provided to the donee pursuant to paragraph (c)(4)(iv)(E) of this section.

(E) *Statement to be furnished by donors to donees.* Every donor who presents an appraisal summary to a donee for signature after June 6, 1988, in order to comply with paragraph (c)(4)(i)(B) of this section shall furnish a copy of the appraisal summary to such donee.

(F) *Appraisal summary required to be provided to partners and S corporation shareholders.* If the donor is a partnership or S corporation, the donor shall provide a copy of the appraisal summary to every partner or shareholder, respectively, who receives an allocation of a charitable contribution deduction under section 170 with respect to the property described in the appraisal summary.

(G) *Partners and S corporation shareholders.* A partner of a partnership or shareholder of an S corporation who receives an allocation of a deduction under section 170 for a charitable contribution of property to which this paragraph (c) applies must attach a copy of the partnership's or S corporation's appraisal summary to the tax return on which the deduction for the contribution is first claimed. If such appraisal summary is not attached, the partner's or shareholder's deduction shall not be allowed except as provided for in paragraph (c)(4)(iv)(H) of this section.

(H) *Failure to attach appraisal summary.* In the event that a donor fails to

attach to the donor's return an appraisal summary as required by paragraph (c)(2)(i)(B) of this section, the Internal Revenue Service may request that the donor submit the appraisal summary within 90 days of the request. If such a request is made and the donor complies with the request within the 90-day period, the deduction under section 170 shall not be disallowed for failure to attach the appraisal summary, provided that the donor's failure to attach the appraisal summary was a good faith omission and the requirements of paragraph (c) (3) and (4) of this section are met (including the completion of the qualified appraisal prior to the date specified in paragraph (c)(3)(iv)(B) of this section).

(5) *Qualified appraiser*—(i) *In general.* The term *qualified appraiser* means an individual (other than a person described in paragraph (c)(5)(iv) of this section) who includes on the appraisal summary (described in paragraph (c)(4) of this section), a declaration that—

(A) The individual either holds himself or herself out to the public as an appraiser or performs appraisals on a regular basis;

(B) Because of the appraiser's qualifications as described in the appraisal (pursuant to paragraph (c)(3)(ii)(F) of this section), the appraiser is qualified to make appraisals of the type of property being valued;

(C) The appraiser is not one of the persons described in paragraph (c)(5)(iv) of this section; and

(D) The appraiser understands that an intentionally false or fraudulent overstatement of the value of the property described in the qualified appraisal or appraisal summary may subject the appraiser to a civil penalty under section 6701 for aiding and abetting an understatement of tax liability, and, moreover, the appraiser may have appraisals disregarded pursuant to 31 U.S.C. 330(c) (see paragraph (c)(3)(iii) of this section).

(ii) *Exception.* An individual is not a qualified appraiser with respect to a particular donation, even if the declaration specified in paragraph (c)(5)(i) of this section is provided in the appraisal summary, if the donor had knowledge of facts that would cause a reasonable person to expect the ap-

praiser falsely to overstate the value of the donated property (*e.g.*, the donor and the appraiser make an agreement concerning the amount at which the property will be valued and the donor knows that such amount exceeds the fair market value of the property).

(iii) *Numbers of appraisers.* More than one appraiser may appraise the donated property. If more than one appraiser appraises the property, the donor does not have to use each appraiser's appraisal for purposes of substantiating the charitable contribution deduction pursuant to this paragraph (c). If the donor uses the appraisal of more than one appraiser, or if two or more appraisers contribute to a single appraisal, each appraiser shall comply with the requirements of this paragraph (c), including signing the qualified appraisal and appraisal summary as required by paragraphs (c)(3)(i)(B) and (c)(4)(i)(C) of this section, respectively.

(iv) *Qualified appraiser exclusions.* The following persons cannot be qualified appraisers with respect to particular property:

(A) The donor or the taxpayer who claims or reports a deductions under section 170 for the contribution of the property that is being appraised.

(B) A party to the transaction in which the donor acquired the property being appraised (*i.e.*, the person who sold, exchanged, or gave the property to the donor, or any person who acted as an agent for the transferor or for the donor with respect to such sale, exchange, or gift), unless the property is donated within 2 months of the date of acquisition and its appraised value does not exceed its acquisition price.

(C) The donee of the property.

(D) Any person employed by any of the foregoing persons (*e.g.*, if the donor acquired a painting from an art dealer, neither the art dealer nor persons employed by the dealer can be qualified appraisers with respect to that painting).

(E) Any person related to any of the foregoing persons under section 267(b), or, with respect to appraisals made after June 6, 1988, married to a person who is in a relationship described in section 267(b) with any of the foregoing persons.

(F) An appraiser who is regularly used by any person described in paragraph (c)(5)(iv) (A), (B), or (C) of this section and who does not perform a majority of his or her appraisals made during his or her taxable year for other persons.

(6) *Appraisal fees*—(i) *In general.* Except as otherwise provided in paragraph (c)(6)(ii) of this section, no part of the fee arrangement for a qualified appraisal can be based, in effect, on a percentage (or set of percentages) of the appraised value of the property. If a fee arrangement for an appraisal is based in whole or in part on the amount of the appraised value of the property, if any, that is allowed as a deduction under section 170, after Internal Revenue Service examination or otherwise, it shall be treated as a fee based on a percentage of the appraised value of the property. For example, an appraiser's fee that is subject to reduction by the same percentage as the appraised value may be reduced by the Internal Revenue Service would be treated as a fee that violates this paragraph (c)(6).

(ii) *Exception.* Paragraph (c)(6)(i) of this section does not apply to a fee paid to a generally recognized association that regulates appraisers provided all of the following requirements are met:

(A) The association is not organized for profit and no part of the net earnings of the association inures to the benefit of any private shareholder or individual (these terms have the same meaning as in section 501(c)),

(B) The appraiser does not receive any compensation from the association or any other persons for making the appraisal, and

(C) The fee arrangement is not based in whole or in part on the amount of the appraised value of the donated property, if any, that is allowed as a deduction under section 170 after Internal Revenue Service examination or otherwise.

(7) *Meaning of terms.* For purposes of this paragraph (c)—

(i) *Closely held corporation.* The term *closely held corporation* means any corporation (other than an S corporation) with respect to which the stock ownership requirement of paragraph (2) of section 542(a) of the Code is met.

(ii) *Personal service corporation.* The term *personal service corporation* means any corporation (other than an S corporation) which is a service organization (within the meaning of section 414(m)(3) of the Code).

(iii) *Similar items of property.* The phrase *similar items of property* means property of the same generic category or type, such as stamp collections (including philatelic supplies and books on stamp collecting), coin collections (including numismatic supplies and books on coin collecting), lithographs, paintings, photographs, books, nonpublicly traded stock, nonpublicly traded securities other than nonpublicly trade stock, land, buildings, clothing, jewelry, furniture, electronic equipment, household appliances, toys, everyday kitchenware, china, crystal, or silver. For example, if a donor claims on her return for the year deductions of \$2,000 for books given by her to College A, \$2,500 for books given by her to College B, and \$900 for books given by her to College C, the \$5,000 threshold of paragraph (c)(1) of this section is exceeded. Therefore, the donor must obtain a qualified appraisal for the books and attach to her return three appraisal summaries for the books donated to A, B, and C. For rules regarding the number of qualified appraisals and appraisal summaries required when similar items of property are contributed, see paragraphs (c)(3)(iv)(A) and (c)(4)(iv)(B), respectively, of this section.

(iv) *Donor.* The term *donor* means a person or entity (other than an organization described in section 170(c) to which the donated property was previously contributed) that makes a charitable contribution of property.

(v) *Donee.* The term *donee* means—

(A) Except as provided in paragraph (c)(7)(v) (B) and (C) of this section, an organization described in section 170(c) to which property is contributed,

(B) Except as provided in paragraph (c)(7)(v)(C) of this section, in the case of a charitable contribution of property placed in trust for the benefit of an organization described in section 170(c), the trust, or

(C) In the case of a charitable contribution of property placed in trust

for the benefit of an organization described in section 170(c) made on or before June 6, 1988, the beneficiary that is an organization described in section 170(c), or if the trust has assumed the duties of a donee by signing the appraisal summary pursuant to paragraph (c)(4)(i)(B) of this section, the trust.

In general, the term, refers only to the original donee. However, with respect to paragraph (c)(3)(ii)(D), the last sentence of paragraph (c)(4)(iii), and paragraph (c)(5)(iv)(C) of this section, the term *donee* means the original donee and all successor donees in cases where the original donee transfers the contributed property to a successor donee after July 5, 1988.

(vi) *Original donee*. The term *original donee* means the donee to or for which property is initially donated by a donor.

(vii) *Successor donee*. The term *successor donee* means any donee of property other than its original donee (*i.e.*, a transferee of property for less than fair market value from an original donee or another successor donee).

(viii) *Fair market value*. For the meaning of the term *fair market value*, see section 1.170A-1(c)(2).

(ix) *Nonpublicly traded securities*. The term *nonpublicly traded securities* means securities (within the meaning of section 165(g)(2) of the Code) which are not publicly traded securities as defined in paragraph (c)(7)(xi) of this section.

(x) *Nonpublicly traded stock*. The term *nonpublicly traded stock* means any stock of a corporation (evidence by a stock certificate) which is not a publicly traded security. The term *stock* does not include a debenture or any other evidence of indebtedness.

(xi) *Publicly traded securities*—(A) *In general*. Except as provided in paragraph (c)(7)(xi)(C) of this section, the term *publicly traded securities* means securities (within the meaning of section 165(g)(2) of the Code) for which (as of the date of the contribution) market quotations are readily available on an established securities market. For purposes of this section, market quotations are readily available on an established securities market with respect to a security if:

(1) The security is listed on the New York Stock Exchange, the American Stock Exchange, or any city or regional exchange in which quotations are published on a daily basis, including foreign securities listed on a recognized foreign, national, or regional exchange in which quotations are published on a daily basis;

(2) The security is regularly traded in the national or regional over-the-counter market, for which published quotations are available; or

(3) The security is a share of an open-end investment company (commonly known as a mutual fund) registered under the Investment Company Act of 1940, as amended (15 U.S.C. 80a-1 to 80b-2), for which quotations are published on a daily basis in a newspaper of general circulation throughout the United States.

(If the market value of an issue of a security is reflected only on an inter-dealer quotation system, the issue shall not be considered to be publicly traded unless the special rule described in paragraph (c)(7)(xi)(B) of this section is satisfied.)

(B) *Special rule*—(1) *In General*. An issue of a security that does not satisfy the requirements of paragraph (c)(7)(xi)(A) (1), (2), or (3) of this section shall nonetheless be considered to have market quotations readily available on an established securities market for purposes of paragraph (c)(7)(xi)(A) of this section if all of the following five requirements are met:

(i) The issue is regularly traded during the computational period (as defined in paragraph (c)(7)(xi)(B)(2)(iv) of this section) in a market that is reflected by the existence of an inter-dealer quotation system for the issue,

(ii) The issuer or an agent of the issuer computes the average trading price (as defined in paragraph (c)(7)(xi)(B)(2)(iii) of this section) for the issue for the computational period,

(iii) The average trading price and total volume of the issue during the computational period are published in a newspaper of general circulation throughout the United States not later than the last day of the month following the end of the calendar quarter in which the computational period ends,

(iv) The issuer or its agent keeps books and records that list for each transaction during the computational period involving each issue covered by this procedure the date of the settlement of the transaction, the name and address of the broker or dealer making the market in which the transaction occurred, and the trading price and volume, and

(v) The issuer or its agent permits the Internal Revenue Service to review the books and records described in paragraph (c)(7)(xi)(B)(i)(iv) of this section with respect to transactions during the computational period upon giving reasonable notice to the issuer or agent.

(2) *Definitions.* For purposes of this paragraph (c)(7)(xi)(B)—

(i) *Issue of a security.* The term *issue of a security* means a class of debt securities with the same obligor and identical terms except as to their relative denominations (amounts) or a class of stock having identical rights.

(ii) *Interdealer quotation system.* The term *interdealer quotation system* means any system of general circulation to brokers and dealers that regularly disseminates quotations of obligations by two or more identified brokers or dealers, who are not related to either the issuer of the security or to the issuer's agent, who compute the average trading price of the security. A quotation sheet prepared and distributed by a broker or dealer in the regular course of its business and containing only quotations of such broker or dealer is not an interdealer quotation system.

(iii) *Average trading price.* The term *average trading price* means the mean price of all transactions (weighted by volume), other than original issue or redemption transactions, conducted through a United States office of a broker or dealer who maintains a market in the issue of the security during the computational period. For this purpose, bid and asked quotations are not taken into account.

(iv) *Computational period.* For calendar quarters beginning on or after June 6, 1988, the term *computational period* means weekly during October through December (beginning with the first Monday in October and ending with the first Sunday following the

last Monday in December) and monthly during January through September (beginning January 1). For calendar quarters beginning before June 6, 1988, the term *computational period* means weekly during October through December and monthly during January through September.

(C) *Exception.* Securities described in paragraph (c)(7)(xi) (A) or (B) of this section shall not be considered publicly traded securities if—

(1) The securities are subject to any restrictions that materially affect the value of the securities to the donor or prevent the securities from being freely traded, or

(2) If the amount claimed or reported as a deduction with respect to the contribution of the securities is different than the amount listed in the market quotations that are readily available on an established securities market pursuant to paragraph (c)(7)(xi) (A) or (B) of this section.

(D) *Market quotations and fair market value.* The fair market value of a publicly traded security, as defined in this paragraph (c)(7)(xi), is not necessarily equal to its market quotation, its average trading price (as defined in paragraph (c)(7)(xi)(B)(2)(iii) of this section), or its face value, if any. See section 1.170A-1(c)(2) for the definition of *fair market value*.

(d) *Charitable contributions; information required in support of deductions for taxable years beginning before January 1, 1983—(1) In general.* This paragraph (d)(1) shall apply to deductions for charitable contributions made in taxable years beginning before January 1, 1983. At the option of the taxpayer the requirements of this paragraph (d)(1) shall also apply to all charitable contributions made on or before December 31, 1984 (in lieu of the requirements of paragraphs (a) and (b) of this section). In connection with claims for deductions for charitable contributions, taxpayers shall state in their income tax returns the name of each organization to which a contribution was made and the amount and date of the actual payment of each contribution. If a contribution is made in property other than money, the taxpayer shall state the kind of property contributed, for example, used clothing, paintings, or

securities, the method utilized in determining the fair market value of the property at the time the contribution was made, and whether or not the amount of the contribution was reduced under section 170(e). If a taxpayer makes more than one cash contribution to an organization during the taxable year, then in lieu of listing each cash contribution and the date of payment the taxpayer may state the total cash payments made to such organization during the taxable year. A taxpayer who elects under paragraph (d)(2) of § 1.170A-8 to apply section 170(e)(1) to his contributions and carryovers of 30-percent capital gain property must file a statement with his return indicating that he has made the election and showing the contributions in the current year and carryovers from preceding years to which it applies. For the definition of the term *30-percent capital gain property*, see paragraph (d)(3) of § 1.170A-8.

(2) *Contribution by individual of property other than money.* This paragraph (d)(2) shall apply to deductions for charitable contributions made in taxable years beginning before January 1, 1983. At the option of the taxpayer, the requirements of this paragraph (d)(2) shall also apply to contributions of property made on or before December 31, 1984 (in lieu of the requirements of paragraph (b) of this section). If an individual taxpayer makes a charitable contribution of an item of property other than money and claims a deduction in excess of \$200 in respect of his contribution of such item, he shall attach to his income tax return the following information with respect to such item:

(i) The name and address of the organization to which the contribution was made.

(ii) The date of the actual contribution.

(iii) A description of the property in sufficient detail to identify the particular property contributed, including in the case of tangible property the physical condition of the property at the time of contribution, and, in the case of securities, the name of the issuer, the type of security, and whether or not such security is regularly

traded on a stock exchange or in an over-the-counter market.

(iv) The manner of acquisition, as, for example, by purchase, gift, bequest, inheritance, or exchange, and the approximate date of acquisition of the property by the taxpayer or, if the property was created, produced, or manufactured by or for the taxpayer, the approximate date the property was substantially completed.

(v) The fair market value of the property at the time the contribution was made, the method utilized in determining the fair market value, and, if the valuation was determined by appraisal, a copy of the signed report of the appraiser.

(vi) The cost or other basis, adjusted as provided by section 1016, of property, other than securities, held by the taxpayer for a period of less than 5 years immediately preceding the date on which the contribution was made and, when the information is available, of property, other than securities, held for a period of 5 years or more preceding the date on which the contribution was made.

(vii) In the case of property to which section 170(e) applies, the cost or other basis, adjusted as provided by section 1016, the reduction by reason of section 170(e)(1) in the amount of the charitable contribution otherwise taken into account, and the manner in which such reduction was determined.

(viii) The terms of any agreement or understanding entered into by or on behalf of the taxpayer which relates to the use, sale, or disposition of the property contributed, as, for example, the terms of any agreement or understanding which:

(A) Restricts temporarily or permanently the donee's right to dispose of the donated property,

(B) Reserves to, or confers upon, any one other than the donee organization or other than an organization participating with such organization in cooperative fundraising, any right to the income from such property, to the possession of the property, including the right to vote securities, to acquire such property by purchase or otherwise, or to designate the person to have such income, possession, or right to acquire, or

(C) Earmarks contributed property for a particular charitable use, such as the use of donated furniture in the reading room of the donee organization's library.

(ix) The total amount claimed as a deduction for the taxable year due to the contribution of the property and, if less than the entire interest in the property is contributed during the taxable year, the amount claimed as a deduction in any prior year or years for contributions of other interests in such property, the name and address of each organization to which any such contribution was made, the place where any such property which is tangible property is located or kept, and the name of any person, other than the organization to which the property giving rise to the deduction was contributed, having actual possession of the property.

(3) *Statement from donee organization.* Any deduction for a charitable contribution must be substantiated, when required by the district director, by a statement from the organization to which the contribution was made indicating whether the organization is a domestic organization, the name and address of the contributor, the amount of the contribution, the date of actual receipt of the contribution, and such other information as the district director may deem necessary. If the contribution includes an item of property, other than money or securities which are regularly traded on a stock exchange or in an over-the-counter market, which the donee deems to have a fair market value in excess of \$500 (\$200 in the case of a charitable contribution made in a taxable year beginning before January 1, 1983) at the time of receipt, such statement shall also indicate for each such item its location if it is retained by the organization, the amount received by the organization on any sale of the property and the date of sale or, in case of any other disposition of the property, the method of disposition. In the case of any contribution of tangible personal property, the statement shall indicate the use of the property by the organization and whether or not it is used for a purpose or function constituting the basis for the donee organization's exemption

from income tax under section 501 or, in the case of a governmental unit, whether or not it is used for exclusively public purposes.

(e) [Reserved]

(f) *Substantiation of charitable contributions of \$250 or more—*(1) *In general.* No deduction is allowed under section 170(a) for all or part of any contribution of \$250 or more unless the taxpayer substantiates the contribution with a contemporaneous written acknowledgment from the donee organization. A taxpayer who makes more than one contribution of \$250 or more to a donee organization in a taxable year may substantiate the contributions with one or more contemporaneous written acknowledgments. Section 170(f)(8) does not apply to a payment of \$250 or more if the amount contributed (as determined under § 1.170A-1(h)) is less than \$250. Separate contributions of less than \$250 are not subject to the requirements of section 170(f)(8), regardless of whether the sum of the contributions made by a taxpayer to a donee organization during a taxable year equals \$250 or more.

(2) *Written acknowledgment.* Except as otherwise provided in paragraphs (f)(8) through (f)(11) and (f)(13) of this section, a written acknowledgment from a donee organization must provide the following information—

(i) The amount of any cash the taxpayer paid and a description (but not necessarily the value) of any property other than cash the taxpayer transferred to the donee organization;

(ii) A statement of whether or not the donee organization provides any goods or services in consideration, in whole or in part, for any of the cash or other property transferred to the donee organization;

(iii) If the donee organization provides any goods or services other than intangible religious benefits (as described in section 170(f)(8)), a description and good faith estimate of the value of those goods or services; and

(iv) If the donee organization provides any intangible religious benefits, a statement to that effect.

(3) *Contemporaneous.* A written acknowledgment is contemporaneous if it is obtained by the taxpayer on or before the earlier of—

(i) The date the taxpayer files the original return for the taxable year in which the contribution was made; or

(ii) The due date (including extensions) for filing the taxpayer's original return for that year.

(4) *Donee organization.* For purposes of this paragraph (f), a donee organization is an organization described in section 170(c).

(5) *Goods or services.* Goods or services means cash, property, services, benefits, and privileges.

(6) *In consideration for.* A donee organization provides goods or services in consideration for a taxpayer's payment if, at the time the taxpayer makes the payment to the donee organization, the taxpayer receives or expects to receive goods or services in exchange for that payment. Goods or services a donee organization provides in consideration for a payment by a taxpayer include goods or services provided in a year other than the year in which the taxpayer makes the payment to the donee organization.

(7) *Good faith estimate.* For purposes of this section, good faith estimate means a donee organization's estimate of the fair market value of any goods or services, without regard to the manner in which the organization in fact made that estimate. See § 1.170A-1(h)(4) for rules regarding when a taxpayer may treat a donee organization's estimate of the value of goods or services as the fair market value.

(8) *Certain goods or services disregarded—(i) In general.* For purposes of section 170(f)(8), the following goods or services are disregarded—

(A) Goods or services that have insubstantial value under the guidelines provided in Revenue Procedures 90-12, 1990-1 C.B. 471, 92-49, 1992-1 C.B. 987, and any successor documents. (See § 601.601(d)(2)(ii) of the Statement of Procedural Rules, 26 CFR part 601.); and

(B) Annual membership benefits offered to a taxpayer in exchange for a payment of \$75 or less per year that consist of—

(1) Any rights or privileges, other than those described in section 170(1), that the taxpayer can exercise frequently during the membership period. Examples of such rights and privileges

may include, but are not limited to, free or discounted admission to the organization's facilities or events, free or discounted parking, preferred access to goods or services, and discounts on the purchase of goods or services; and

(2) Admission to events during the membership period that are open only to members of a donee organization and for which the donee organization reasonably projects that the cost per person (excluding any allocable overhead) attending each such event is within the limits established for "low cost articles" under section 513(h)(2). The projected cost to the donee organization is determined at the time the organization first offers its membership package for the year (using section 3.07 of Revenue Procedure 90-12, or any successor documents, to determine the cost of any items or services that are donated).

(ii) *Examples.* The following examples illustrate the rules of this paragraph (f)(8).

Example 1. Membership benefits disregarded. Performing Arts Center *E* is an organization described in section 170(c). In return for a payment of \$75, *E* offers a package of basic membership benefits that includes the right to purchase tickets to performances one week before they go on sale to the general public, free parking in *E*'s garage during evening and weekend performances, and a 10% discount on merchandise sold in *E*'s gift shop. In return for a payment of \$150, *E* offers a package of preferred membership benefits that includes all of the benefits in the \$75 package as well as a poster that is sold in *E*'s gift shop for \$20. The basic membership and the preferred membership are each valid for twelve months, and there are approximately 50 performances of various productions at *E* during a twelve-month period. *E*'s gift shop is open for several hours each week and at performance times. *F*, a patron of the arts, is solicited by *E* to make a contribution. *E* offers *F* the preferred membership benefits in return for a payment of \$150 or more. *F* makes a payment of \$300 to *E*. *F* can satisfy the substantiation requirement of section 170(f)(8) by obtaining a contemporaneous written acknowledgment from *E* that includes a description of the poster and a good faith estimate of its fair market value (\$20) and disregards the remaining membership benefits.

Example 2. Contemporaneous written acknowledgment need not mention rights or privileges that can be disregarded. The facts are the same as in Example 1, except that *F* made a payment of \$300 and received only a basic

membership. *F* can satisfy the section 170(f)(8) substantiation requirement with a contemporaneous written acknowledgment stating that no goods or services were provided.

Example 3. Rights or privileges that cannot be exercised frequently. Community Theater Group *G* is an organization described in section 170(c). Every summer, *G* performs four different plays. Each play is performed two times. In return for a membership fee of \$60, *G* offers its members free admission to any of its performances. Non-members may purchase tickets on a performance by performance basis for \$15 a ticket. *H*, an individual who is a sponsor of the theater, is solicited by *G* to make a contribution. *G* tells *H* that the membership benefit will be provided in return for any payment of \$60 or more. *H* chooses to make a payment of \$350 to *G* and receives in return the membership benefit. *G*'s membership benefit of free admission is not described in paragraph (f)(8)(i)(B) of this section because it is not a privilege that can be exercised frequently (due to the limited number of performances offered by *G*). Therefore, to meet the requirements of section 170(f)(8), a contemporaneous written acknowledgment of *H*'s \$350 payment must include a description of the free admission benefit and a good faith estimate of its value.

Example 4. Multiple memberships. In December of each year, *K*, an individual, gives each of her six grandchildren a junior membership in Dinosaur Museum, an organization described in section 170(c). Each junior membership costs \$50, and *K* makes a single payment of \$300 for all six memberships. A junior member is entitled to free admission to the museum and to weekly films, slide shows, and lectures about dinosaurs. In addition, each junior member receives a bi-monthly, non-commercial quality newsletter with information about dinosaurs and upcoming events. *K*'s contemporaneous written acknowledgment from Dinosaur Museum may state that no goods or services were provided in exchange for *K*'s payment.

(9) *Goods or services provided to employees or partners of donors*—(i) *Certain goods or services disregarded.* For purposes of section 170(f)(8), goods or services provided by a donee organization to employees of a donor, or to partners of a partnership that is a donor, in return for a payment to the organization may be disregarded to the extent that the goods or services provided to each employee or partner are the same as those described in paragraph (f)(8)(i) of this section.

(ii) *No good faith estimate required for other goods or services.* If a taxpayer makes a contribution of \$250 or more to

a donee organization and, in return, the donee organization offers the taxpayer's employees or partners goods or services other than those described in paragraph (f)(9)(i) of this section, the contemporaneous written acknowledgment of the taxpayer's contribution is not required to include a good faith estimate of the value of such goods or services but must include a description of those goods or services.

(iii) *Example.* The following example illustrates the rules of this paragraph (f)(9).

Example. Museum *J* is an organization described in section 170(c). For a payment of \$40, *J* offers a package of basic membership benefits that includes free admission and a 10% discount on merchandise sold in *J*'s gift shop. *J*'s other membership categories are for supporters who contribute \$100 or more. Corporation *K* makes a payment of \$50,000 to *J* and, in return, *J* offers *K*'s employees free admission for one year, a tee-shirt with *J*'s logo that costs *J* \$4.50, and a gift shop discount of 25% for one year. The free admission for *K*'s employees is the same as the benefit made available to holders of the \$40 membership and is otherwise described in paragraph (f)(8)(i)(B) of this section. The tee-shirt given to each of *K*'s employees is described in paragraph (f)(8)(i)(A) of this section. Therefore, the contemporaneous written acknowledgment of *K*'s payment is not required to include a description or good faith estimate of the value of the free admission or the tee-shirts. However, because the gift shop discount offered to *K*'s employees is different than that offered to those who purchase the \$40 membership, the discount is not described in paragraph (f)(8)(i) of this section. Therefore, the contemporaneous written acknowledgment of *K*'s payment is required to include a description of the 25% discount offered to *K*'s employees.

(10) *Substantiation of out-of-pocket expenses.* A taxpayer who incurs unreimbursed expenditures incident to the rendition of services, within the meaning of § 1.170A-1(g), is treated as having obtained a contemporaneous written acknowledgment of those expenditures if the taxpayer—

(i) Has adequate records under paragraph (a) of this section to substantiate the amount of the expenditures; and

(ii) Obtains by the date prescribed in paragraph (f)(3) of this section a statement prepared by the donee organization containing—

(A) A description of the services provided by the taxpayer;

(B) A statement of whether or not the donee organization provides any goods or services in consideration, in whole or in part, for the unreimbursed expenditures; and

(C) The information required by paragraphs (f)(2) (iii) and (iv) of this section.

(11) *Contributions made by payroll deduction*—(i) *Form of substantiation*. A contribution made by means of withholding from a taxpayer's wages and payment by the taxpayer's employer to a donee organization may be substantiated, for purposes of section 170(f)(8), by both—

(A) A pay stub, Form W-2, or other document furnished by the employer that sets forth the amount withheld by the employer for the purpose of payment to a donee organization; and

(B) A pledge card or other document prepared by or at the direction of the donee organization that includes a statement to the effect that the organization does not provide goods or services in whole or partial consideration for any contributions made to the organization by payroll deduction.

(ii) *Application of \$250 threshold*. For the purpose of applying the \$250 threshold provided in section 170(f)(8)(A) to contributions made by the means described in paragraph (f)(11)(i) of this section, the amount withheld from each payment of wages to a taxpayer is treated as a separate contribution.

(12) *Distributing organizations as donees*. An organization described in section 170(c), or an organization described in 5 CFR 950.105 (a Principal Combined Fund Organization for purposes of the Combined Federal Campaign) and acting in that capacity, that receives a payment made as a contribution is treated as a donee organization solely for purposes of section 170(f)(8), even if the organization (pursuant to the donor's instructions or otherwise) distributes the amount received to one or more organizations described in section 170(c). This paragraph (f)(12) does not apply, however, to a case in which the distributee organization provides goods or services as part of a transaction structured with a view to avoid taking the goods or serv-

ices into account in determining the amount of the deduction to which the donor is entitled under section 170.

(13) *Transfers to certain trusts*. Section 170(f)(8) does not apply to a transfer of property to a trust described in section 170(f)(2)(B), a charitable remainder annuity trust (as defined in section 664(d)(1)), or a charitable remainder unitrust (as defined in section 664(d)(2) or (d)(3) or § 1.664-3(a)(1)(i)(b)). Section 170(f)(8) does apply, however, to a transfer to a pooled income fund (as defined in section 642(c)(5)); for such a transfer, the contemporaneous written acknowledgment must state that the contribution was transferred to the donee organization's pooled income fund and indicate whether any goods or services (in addition to an income interest in the fund) were provided in exchange for the transfer. The contemporaneous written acknowledgment is not required to include a good faith estimate of the income interest.

(14) *Substantiation of payments to a college or university for the right to purchase tickets to athletic events*. For purposes of paragraph (f)(2)(iii) of this section, the right to purchase tickets for seating at an athletic event in exchange for a payment described in section 170(l) is treated as having a value equal to twenty percent of such payment. For example, when a taxpayer makes a payment of \$312.50 for the right to purchase tickets for seating at an athletic event, the right to purchase tickets is treated as having a value of \$62.50. The remaining \$250 is treated as a charitable contribution, which the taxpayer must substantiate in accordance with the requirements of this section.

(15) *Substantiation of charitable contributions made by a partnership or an S corporation*. If a partnership or an S corporation makes a charitable contribution of \$250 or more, the partnership or S corporation will be treated as the taxpayer for purposes of section 170(f)(8). Therefore, the partnership or S corporation must substantiate the contribution with a contemporaneous written acknowledgment from the donee organization before reporting the contribution on its income tax return for the year in which the contribution

was made and must maintain the contemporaneous written acknowledgment in its records. A partner of a partnership or a shareholder of an S corporation is not required to obtain any additional substantiation for his or her share of the partnership's or S corporation's charitable contribution.

(16) *Purchase of an annuity.* If a taxpayer purchases an annuity from a charitable organization and claims a charitable contribution deduction of \$250 or more for the excess of the amount paid over the value of the annuity, the contemporaneous written acknowledgment must state whether any goods or services in addition to the annuity were provided to the taxpayer. The contemporaneous written acknowledgment is not required to include a good faith estimate of the value of the annuity. See § 1.170A-1(d)(2) for guidance in determining the value of the annuity.

(17) *Substantiation of matched payments—(i) In general.* For purposes of section 170, if a taxpayer's payment to a donee organization is matched, in whole or in part, by another payor, and the taxpayer receives goods or services in consideration for its payment and some or all of the matching payment, those goods or services will be treated as provided in consideration for the taxpayer's payment and not in consideration for the matching payment.

(ii) *Example.* The following example illustrates the rules of this paragraph (f)(17).

Example. Taxpayer makes a \$400 payment to Charity L, a donee organization. Pursuant to a matching payment plan, Taxpayer's employer matches Taxpayer's \$400 payment with an additional payment of \$400. In consideration for the combined payments of \$800, L gives Taxpayer an item that it estimates has a fair market value of \$100. L does not give the employer any goods or services in consideration for its contribution. The contemporaneous written acknowledgment provided to the employer must include a statement that no goods or services were provided in consideration for the employer's \$400 payment. The contemporaneous written acknowledgment provided to Taxpayer must include a statement of the amount of Taxpayer's payment, a description of the item received by Taxpayer, and a statement that L's good faith estimate of the value of the item received by Taxpayer is \$100.

(18) *Effective date.* This paragraph (f) applies to contributions made on or after December 16, 1996. However, taxpayers may rely on the rules of this paragraph (f) for contributions made on or after January 1, 1994.

[T.D. 8002, 49 FR 50664, 50666, Dec. 31, 1984, as amended by T.D. 8003, 49 FR 50659, Dec. 31, 1984; T.D. 8199, 53 FR 16080, May 5, 1988; 53 FR 18372, May 23, 1988; T.D. 8623, 60 FR 53128, Oct. 12, 1995; T.D. 8690, 61 FR 65952, Dec. 16, 1996]

§ 1.170A-14 Qualified conservation contributions.

(a) *Qualified conservation contributions.* A deduction under section 170 is generally not allowed for a charitable contribution of any interest in property that consists of less than the donor's entire interest in the property other than certain transfers in trust (see § 1.170A-6 relating to charitable contributions in trust and § 1.170A-7 relating to contributions not in trust of partial interests in property). However, a deduction may be allowed under section 170(f)(3)(B)(iii) for the value of a qualified conservation contribution if the requirements of this section are met. A qualified conservation contribution is the contribution of a qualified real property interest to a qualified organization exclusively for conservation purposes. To be eligible for a deduction under this section, the conservation purpose must be protected in perpetuity.

(b) *Qualified real property interest—(1) Entire interest of donor other than qualified mineral interest.* (i) The entire interest of the donor other than a qualified mineral interest is a qualified real property interest. A qualified mineral interest is the donor's interest in subsurface oil, gas, or other minerals and the right of access to such minerals.

(ii) A real property interest shall not be treated as an entire interest other than a qualified mineral interest by reason of section 170(h)(2)(A) and this paragraph (b)(1) if the property in which the donor's interest exists was divided prior to the contribution in order to enable the donor to retain control of more than a qualified mineral interest or to reduce the real property interest donated. See Treasury regulations § 1.170A-7(a)(2)(i). An entire interest in real property may consist of an

undivided interest in the property. But see section 170(h)(5)(A) and the regulations thereunder (relating to the requirement that the conservation purpose which is the subject of the donation must be protected in perpetuity). Minor interests, such as rights-of-way, that will not interfere with the conservation purposes of the donation, may be transferred prior to the conservation contribution without affecting the treatment of a property interest as a qualified real property interest under this paragraph (b)(1).

(2) *Perpetual conservation restriction.* A “perpetual conservation restriction” is a qualified real property interest. A “perpetual conservation restriction” is a restriction granted in perpetuity on the use which may be made of real property—including, an easement or other interest in real property that under state law has attributes similar to an easement (e.g., a restrictive covenant or equitable servitude). For purposes of this section, the terms *easement*, *conservation restriction*, and *perpetual conservation restriction* have the same meaning. The definition of *perpetual conservation restriction* under this paragraph (b)(2) is not intended to preclude the deductibility of a donation of affirmative rights to use a land or water area under § 1.170A-13(d)(2). Any rights reserved by the donor in the donation of a perpetual conservation restriction must conform to the requirements of this section. See e.g., paragraph (d)(4)(ii), (d)(5)(i), (e)(3), and (g)(4) of this section.

(c) *Qualified organization*—(1) *Eligible donee.* To be considered an eligible donee under this section, an organization must be a qualified organization, have a commitment to protect the conservation purposes of the donation, and have the resources to enforce the restrictions. A conservation group organized or operated primarily or substantially for one of the conservation purposes specified in section 170(h)(4)(A) will be considered to have the commitment required by the preceding sentence. A qualified organization need not set aside funds to enforce the restrictions that are the subject of the contribution. For purposes of this section, the term *qualified organization* means:

(i) A governmental unit described in section 170(b)(1)(A)(v);

(ii) An organization described in section 170(b)(1)(A)(vi);

(iii) A charitable organization described in section 501(c)(3) that meets the public support test of section 509(a)(2);

(iv) A charitable organization described in section 501(c)(3) that meets the requirements of section 509(a)(3) and is controlled by an organization described in paragraphs (c)(1) (i), (ii), or (iii) of this section.

(2) *Transfers by donee.* A deduction shall be allowed for a contribution under this section only if in the instrument of conveyance the donor prohibits the donee from subsequently transferring the easement (or, in the case of a remainder interest or the reservation of a qualified mineral interest, the property), whether or not for consideration, unless the donee organization, as a condition of the subsequent transfer, requires that the conservation purposes which the contribution was originally intended to advance continue to be carried out. Moreover, subsequent transfers must be restricted to organizations qualifying, at the time of the subsequent transfer, as an eligible donee under paragraph (c)(1) of this section. When a later unexpected change in the conditions surrounding the property that is the subject of a donation under paragraph (b)(1), (2), or (3) of this section makes impossible or impractical the continued use of the property for conservation purposes, the requirement of this paragraph will be met if the property is sold or exchanged and any proceeds are used by the donee organization in a manner consistent with the conservation purposes of the original contribution. In the case of a donation under paragraph (b)(3) of this section to which the preceding sentence applies, see also paragraph (g)(5)(ii) of this section.

(d) *Conservation purposes*—(1) *In general.* For purposes of section 170(h) and this section, the term *conservation purposes* means—

(i) The preservation of land areas for outdoor recreation by, or the education of, the general public, within the meaning of paragraph (d)(2) of this section,

(ii) The protection of a relatively natural habitat of fish, wildlife, or plants, or similar ecosystem, within the meaning of paragraph (d)(3) of this section,

(iii) The preservation of certain open space (including farmland and forest land) within the meaning of paragraph (d)(4) of this section, or

(iv) The preservation of a historically important land area or a certified historic structure, within the meaning of paragraph (d)(5) of this section.

(2) *Recreation or education*—(i) *In general.* The donation of a qualified real property interest to preserve land areas for the outdoor recreation of the general public or for the education of the general public will meet the conservation purposes test of this section. Thus, conservation purposes would include, for example, the preservation of a water area for the use of the public for boating or fishing, or a nature or hiking trail for the use of the public.

(ii) *Access.* The preservation of land areas for recreation or education will not meet the test of this section unless the recreation or education is for the substantial and regular use of the general public.

(3) *Protection of environmental system*—

(i) *In general.* The donation of a qualified real property interest to protect a significant relatively natural habitat in which a fish, wildlife, or plant community, or similar ecosystem normally lives will meet the conservation purposes test of this section. The fact that the habitat or environment has been altered to some extent by human activity will not result in a deduction being denied under this section if the fish, wildlife, or plants continue to exist there in a relatively natural state. For example, the preservation of a lake formed by a man-made dam or a salt pond formed by a man-made dike would meet the conservation purposes test if the lake or pond were a nature feeding area for a wildlife community that included rare, endangered, or threatened native species.

(ii) *Significant habitat or ecosystem.* Significant habitats and ecosystems include, but are not limited to, habitats for rare, endangered, or threatened species of animal, fish, or plants; natural areas that represent high quality

examples of a terrestrial community or aquatic community, such as islands that are undeveloped or not intensely developed where the coastal ecosystem is relatively intact; and natural areas which are included in, or which contribute to, the ecological viability of a local, state, or national park, nature preserve, wildlife refuge, wilderness area, or other similar conservation area.

(iii) *Access.* Limitations on public access to property that is the subject of a donation under this paragraph (d)(3) shall not render the donation nondeductible. For example, a restriction on all public access to the habitat of a threatened native animal species protected by a donation under this paragraph (d)(3) would not cause the donation to be nondeductible.

(4) *Preservation of open space*—(i) *In general.* The donation of a qualified real property interest to preserve open space (including farmland and forest land) will meet the conservation purposes test of this section if such preservation is—

(A) Pursuant to a clearly delineated Federal, state, or local governmental conservation policy and will yield a significant public benefit, or

(B) For the scenic enjoyment of the general public and will yield a significant public benefit.

An open space easement donated on or after December 18, 1980, must meet the requirements of section 170(h) in order to be deductible.

(ii) *Scenic enjoyment*—(A) *Factors.* A contribution made for the preservation of open space may be for the scenic enjoyment of the general public. Preservation of land may be for the scenic enjoyment of the general public if development of the property would impair the scenic character of the local rural or urban landscape or would interfere with a scenic panorama that can be enjoyed from a park, nature preserve, road, waterbody, trail, or historic structure or land area, and such area or transportation way is open to, or utilized by, the public. “Scenic enjoyment” will be evaluated by considering all pertinent facts and circumstances germane to the contribution. Regional

variations in topography, geology, biology, and cultural and economic conditions require flexibility in the application of this test, but do not lessen the burden on the taxpayer to demonstrate the scenic characteristics of a donation under this paragraph. The application of a particular objective factor to help define a view as *scenic* in one setting may in fact be entirely inappropriate in another setting. Among the factors to be considered are:

- (1) The compatibility of the land use with other land in the vicinity;
- (2) The degree of contrast and variety provided by the visual scene;
- (3) The openness of the land (which would be a more significant factor in an urban or densely populated setting or in a heavily wooded area);
- (4) Relief from urban closeness;
- (5) The harmonious variety of shapes and textures;
- (6) The degree to which the land use maintains the scale and character of the urban landscape to preserve open space, visual enjoyment, and sunlight for the surrounding area;
- (7) The consistency of the proposed scenic view with a methodical state scenic identification program, such as a state landscape inventory; and
- (8) The consistency of the proposed scenic view with a regional or local landscape inventory made pursuant to a sufficiently rigorous review process, especially if the donation is endorsed by an appropriate state or local governmental agency.

(B) *Access.* To satisfy the requirement of scenic enjoyment by the general public, visual (rather than physical) access to or across the property by the general public is sufficient. Under the terms of an open space easement on scenic property, the entire property need not be visible to the public for a donation to qualify under this section, although the public benefit from the donation may be insufficient to qualify for a deduction if only a small portion of the property is visible to the public.

(iii) *Governmental conservation policy*—(A) *In general.* The requirement that the preservation of open space be pursuant to a clearly delineated Federal, state, or local governmental policy is intended to protect the types of property identified by representatives

of the general public as worthy of preservation or conservation. A general declaration of conservation goals by a single official or legislative body is not sufficient. However, a governmental conservation policy need not be a certification program that identifies particular lots or small parcels of individually owned property. This requirement will be met by donations that further a specific, identified conservation project, such as the preservation of land within a state or local landmark district that is locally recognized as being significant to that district; the preservation of a wild or scenic river, the preservation of farmland pursuant to a state program for flood prevention and control; or the protection of the scenic, ecological, or historic character of land that is contiguous to, or an integral part of, the surroundings of existing recreation or conservation sites. For example, the donation of a perpetual conservation restriction to a qualified organization pursuant to a formal resolution or certification by a local governmental agency established under state law specifically identifying the subject property as worthy of protection for conservation purposes will meet the requirement of this paragraph. A program need not be funded to satisfy this requirement, but the program must involve a significant commitment by the government with respect to the conservation project. For example, a governmental program according preferential tax assessment or preferential zoning for certain property deemed worthy of protection for conservation purposes would constitute a significant commitment by the government.

(B) *Effect of acceptance by governmental agency.* Acceptance of an easement by an agency of the Federal Government or by an agency of a state or local government (or by a commission, authority, or similar body duly constituted by the state or local government and acting on behalf of the state or local government) tends to establish the requisite clearly delineated governmental policy, although such acceptance, without more, is not sufficient. The more rigorous the review process by the governmental agency, the more the acceptance of the easement tends

to establish the requisite clearly delineated governmental policy. For example, in a state where the legislature has established an Environmental Trust to accept gifts to the state which meet certain conservation purposes and to submit the gifts to a review that requires the approval of the state's highest officials, acceptance of a gift by the Trust tends to establish the requisite clearly delineated governmental policy. However, if the Trust merely accepts such gifts without a review process, the requisite clearly delineated governmental policy is not established.

(C) *Access.* A limitation on public access to property subject to a donation under this paragraph (d)(4)(iii) shall not render the deduction nondeductible unless the conservation purpose of the donation would be undermined or frustrated without public access. For example, a donation pursuant to a governmental policy to protect the scenic character of land near a river requires visual access to the same extent as would a donation under paragraph (d)(4)(ii) of this section.

(iv) *Significant public benefit*—(A) *Factors.* All contributions made for the preservation of open space must yield a significant public benefit. Public benefit will be evaluated by considering all pertinent facts and circumstances germane to the contribution. Factors germane to the evaluation of public benefit from one contribution may be irrelevant in determining public benefit from another contribution. No single factor will necessarily be determinative. Among the factors to be considered are:

(1) The uniqueness of the property to the area;

(2) The intensity of land development in the vicinity of the property (both existing development and foreseeable trends of development);

(3) The consistency of the proposed open space use with public programs (whether Federal, state or local) for conservation in the region, including programs for outdoor recreation, irrigation or water supply protection, water quality maintenance or enhancement, flood prevention and control, erosion control, shoreline protection, and protection of land areas included in, or related to, a government ap-

proved master plan or land management area;

(4) The consistency of the proposed open space use with existing private conservation programs in the area, as evidenced by other land, protected by easement or fee ownership by organizations referred to in § 1.170A-14(c)(1), in close proximity to the property;

(5) The likelihood that development of the property would lead to or contribute to degradation of the scenic, natural, or historic character of the area;

(6) The opportunity for the general public to use the property or to appreciate its scenic values;

(7) The importance of the property in preserving a local or regional landscape or resource that attracts tourism or commerce to the area;

(8) The likelihood that the donee will acquire equally desirable and valuable substitute property or property rights;

(9) The cost to the donee of enforcing the terms of the conservation restriction;

(10) The population density in the area of the property; and

(11) The consistency of the proposed open space use with a legislatively mandated program identifying particular parcels of land for future protection.

(B) *Illustrations.* The preservation of an ordinary tract of land would not in and of itself yield a significant public benefit, but the preservation of ordinary land areas in conjunction with other factors that demonstrate significant public benefit or the preservation of a unique land area for public employment would yield a significant public benefit. For example, the preservation of a vacant downtown lot would not by itself yield a significant public benefit, but the preservation of the downtown lot as a public garden would, absent countervailing factors, yield a significant public benefit. The following are other examples of contributions which would, absent countervailing factors, yield a significant public benefit: The preservation of farmland pursuant to a state program for

flood prevention and control; the preservation of a unique natural land formation for the enjoyment of the general public; the preservation of woodland along a public highway pursuant to a government program to preserve the appearance of the area so as to maintain the scenic view from the highway; and the preservation of a stretch of undeveloped property located between a public highway and the ocean in order to maintain the scenic ocean view from the highway.

(v) *Limitation.* A deduction will not be allowed for the preservation of open space under section 170(h)(4)(A)(iii), if the terms of the easement permit a degree of intrusion or future development that would interfere with the essential scenic quality of the land or with the governmental conservation policy that is being furthered by the donation. See § 1.170A-14(e)(2) for rules relating to inconsistent use.

(vi) *Relationship of requirements—(A) Clearly delineated governmental policy and significant public benefit.* Although the requirements of “clearly delineated governmental policy” and “significant public benefit” must be met independently, for purposes of this section the two requirements may also be related. The more specific the governmental policy with respect to the particular site to be protected, the more likely the governmental decision, by itself, will tend to establish the significant public benefit associated with the donation. For example, while a statute in State X permitting preferential assessment for farmland is, by definition, governmental policy, it is distinguishable from a state statute, accompanied by appropriations, naming the X River as a valuable resource and articulating the legislative policy that the X River and the relatively natural quality of its surrounding be protected. On these facts, an open space easement on farmland in State X would have to demonstrate additional factors to establish “significant public benefit.” The specificity of the legislative mandate to protect the X River, however, would by itself tend to establish the significant public benefit associated with an open space easement on land fronting the X River.

(B) *Scenic enjoyment and significant public benefit.* With respect to the relationship between the requirements of “scenic enjoyment” and “significant public benefit,” since the degrees of scenic enjoyment offered by a variety of open space easements are subjective and not as easily delineated as are increasingly specific levels of governmental policy, the significant public benefit of preserving a scenic view must be independently established in all cases.

(C) *Donations may satisfy more than one test.* In some cases, open space easements may be both for scenic enjoyment and pursuant to a clearly delineated governmental policy. For example, the preservation of a particular scenic view identified as part of a scenic landscape inventory by a rigorous governmental review process will meet the tests of both paragraphs (d)(4)(i)(A) and (d)(4)(i)(B) of this section.

(5) *Historic preservation—(i) In general.* The donation of a qualified real property interest to preserve an historically important land area or a certified historic structure will meet the conservation purposes test of this section. When restrictions to preserve a building or land area within a registered historic district permit future development on the site, a deduction will be allowed under this section only if the terms of the restrictions require that such development conform with appropriate local, state, or Federal standards for construction or rehabilitation within the district. See also, § 1.170A-14(h)(3)(ii).

(ii) *Historically important land area.* The term *historically important land area* includes:

(A) An independently significant land area including any related historic resources (for example, an archaeological site or a Civil War battlefield with related monuments, bridges, cannons, or houses) that meets the National Register Criteria for Evaluation in 36 CFR 60.4 (Pub. L. 89-665, 80 Stat. 915);

(B) Any land area within a registered historic district including any buildings on the land area that can reasonably be considered as contributing to the significance of the district; and

(C) Any land area (including related historic resources) adjacent to a property listed individually in the National Register of Historic Places (but not within a registered historic district) in a case where the physical or environmental features of the land area contribute to the historic or cultural integrity of the property.

(iii) *Certified historic structure.* The term *certified historic structure*, for purposes of this section, means any building, structure or land area which is—

(A) Listed in the National Register, or

(B) Located in a registered historic district (as defined in section 48(g)(3)(B)) and is certified by the Secretary of the Interior (pursuant to 36 CFR 67.4) to the Secretary of the Treasury as being of historic significance to the district.

A *structure* for purposes of this section means any structure, whether or not it is depreciable. Accordingly easements on private residences may qualify under this section. In addition, a structure would be considered to be a certified historic structure if it were certified either at the time the transfer was made or at the due date (including extensions) for filing the donor's return for the taxable year in which the contribution was made.

(iv) *Access.* (A) In order for a conservation contribution described in section 170(h)(4)(A)(iv) and this paragraph (d)(5) to be deductible, some visual public access to the donated property is required. In the case of an historically important land area, the entire property need not be visible to the public for a donation to qualify under this section. However, the public benefit from the donation may be insufficient to qualify for a deduction if only a small portion of the property is so visible. Where the historic land area or certified historic structure which is the subject of the donation is not visible from a public way (e.g., the structure is hidden from view by a wall or shrubbery, the structure is too far from the public way, or interior characteristics and features of the structure are the subject of the easement), the terms of the easement must be such that the general public is given the opportunity on a regular basis to view the charac-

teristics and features of the property which are preserved by the easement to the extent consistent with the nature and condition of the property.

(B) Factors to be considered in determining the type and amount of public access required under paragraph (d)(5)(iv)(A) of this section include the historical significance of the donated property, the nature of the features that are the subject of the easement, the remoteness or accessibility of the site of the donated property, the possibility of physical hazards to the public visiting the property (for example, an unoccupied structure in a dilapidated condition), the extent to which public access would be an unreasonable intrusion on any privacy interests of individuals living on the property, the degree to which public access would impair the preservation interests which are the subject of the donation, and the availability of opportunities for the public to view the property by means other than visits to the site.

(C) The amount of access afforded the public by the donation of an easement shall be determined with reference to the amount of access permitted by the terms of the easement which are established by the donor, rather than the amount of access actually provided by the donee organization. However, if the donor is aware of any facts indicating that the amount of access that the donee organization will provide is significantly less than the amount of access permitted under the terms of the easement, then the amount of access afforded the public shall be determined with reference to this lesser amount.

(v) *Examples.* The provisions of paragraph (d)(5)(iv) of this section may be illustrated by the following examples:

Example 1. A and his family live in a house in a certified historic district in the State of X. The entire house, including its interior, has architectural features representing classic Victorian period architecture. A donates an exterior and interior easement on the property to a qualified organization but continues to live in the house with his family. A's house is surrounded by a high stone wall which obscures the public's view of it from the street. Pursuant to the terms of the easement, the house may be opened to the public from 10:00 a.m. to 4:00 p.m. on one Sunday in May and one Sunday in November each year for house and garden tours. These tours are

to be under the supervision of the donee and open to members of the general public upon payment of a small fee. In addition, under the terms of the easement, the donee organization is given the right to photograph the interior and exterior of the house and distribute such photographs to magazines, newsletters, or other publicly available publications. The terms of the easement also permit persons affiliated with educational organizations, professional architectural associations, and historical societies to make an appointment through the donee organization to study the property. The donor is not aware of any facts indicating that the public access to be provided by the donee organization will be significantly less than that permitted by the terms of the easement. The 2 opportunities for public visits per year, when combined with the ability of the general public to view the architectural characteristics and features that are the subject of the easement through photographs, the opportunity for scholarly study of the property, and the fact that the house is used as an occupied residence, will enable the donation to satisfy the requirement of public access.

Example 2. B owns an unoccupied farmhouse built in the 1840's and located on a property that is adjacent to a Civil War battlefield. During the Civil War the farmhouse was used as quarters for Union troops. The battlefield is visited year round by the general public. The condition of the farmhouse is such that the safety of visitors will not be jeopardized and opening it to the public will not result in significant deterioration. The farmhouse is not visible from the battlefield or any public way. It is accessible only by way of a private road owned by B. B donates a conservation easement on the farmhouse to a qualified organization. The terms of the easement provide that the donee organization may open the property (via B's road) to the general public on four weekends each year from 8:30 a.m. to 4:00 p.m. The donation does not meet the public access requirement because the farmhouse is safe, unoccupied, and easily accessible to the general public who have come to the site to visit Civil War historic land areas (and related resources), but will only be open to the public on four weekends each year. However, the donation would meet the public access requirement if the terms of the easement permitted the donee organization to open the property to the public every other weekend during the year and the donor is not aware of any facts indicating that the donee organization will provide significantly less access than that permitted.

(e) *Exclusively for conservation purposes*—(1) *In general.* To meet the requirements of this section, a donation must be exclusively for conservation purposes. See paragraphs (c)(1) and

(g)(1) through (g)(6)(ii) of this section. A deduction will not be denied under this section when incidental benefit inures to the donor merely as a result of conservation restrictions limiting the uses to which the donor's property may be put.

(2) *Inconsistent use.* Except as provided in paragraph (e)(4) of this section, a deduction will not be allowed if the contribution would accomplish one of the enumerated conservation purposes but would permit destruction of other significant conservation interests. For example, the preservation of farmland pursuant to a State program for flood prevention and control would not qualify under paragraph (d)(4) of this section if under the terms of the contribution a significant naturally occurring ecosystem could be injured or destroyed by the use of pesticides in the operation of the farm. However, this requirement is not intended to prohibit uses of the property, such as selective timber harvesting or selective farming if, under the circumstances, those uses do not impair significant conservation interests.

(3) *Inconsistent use permitted.* A use that is destructive of conservation interests will be permitted only if such use is necessary for the protection of the conservation interests that are the subject of the contribution. For example, a deduction for the donation of an easement to preserve an archaeological site that is listed on the National Register of Historic Places will not be disallowed if site excavation consistent with sound archaeological practices may impair a scenic view of which the land is a part. A donor may continue a pre-existing use of the property that does not conflict with the conservation purposes of the gift.

(f) *Examples.* The provisions of this section relating to conservation purposes may be illustrated by the following examples.

Example 1. State S contains many large tract forests that are desirable recreation and scenic areas for the general public. The forests' scenic values attract millions of people to the State. However, due to the increasing intensity of land development in State S, the continued existence of forestland parcels greater than 45 acres is threatened. J grants a perpetual easement on a 100-acre parcel of forestland that is part

of one of the State's scenic areas to a qualifying organization. The easement imposes restrictions on the use of the parcel for the purpose of maintaining its scenic values. The restrictions include a requirement that the parcel be maintained forever as open space devoted exclusively to conservation purposes and wildlife protection, and that there be no commercial, industrial, residential, or other development use of such parcel. The law of State S recognizes a limited public right to enter private land, particularly for recreational pursuits, unless such land is posted or the landowner objects. The easement specifically restricts the landowner from posting the parcel, or from objecting, thereby maintaining public access to the parcel according to the custom of the State. J's parcel provides the opportunity for the public to enjoy the use of the property and appreciate its scenic values. Accordingly, J's donation qualifies for a deduction under this section.

Example 2. A qualified conservation organization owns Greenacre in fee as a nature preserve. Greenacre contains a high quality example of a tall grass prairie ecosystem. Farmacre, an operating farm, adjoins Greenacre and is a compatible buffer to the nature preserve. Conversion of Farmacre to a more intense use, such as a housing development, would adversely affect the continued use of Greenacre as a nature preserve because of human traffic generated by the development. The owner of Farmacre donates an easement preventing any future development on Farmacre to the qualified conservation organization for conservation purposes. Normal agricultural uses will be allowed on Farmacre. Accordingly, the donation qualifies for a deduction under this section.

Example 3. H owns Greenacre, a 900-acre parcel of woodland, rolling pasture, and orchards on the crest of a mountain. All of Greenacre is clearly visible from a nearby national park. Because of the strict enforcement of an applicable zoning plan, the highest and best use of Greenacre is as a subdivision of 40-acre tracts. H wishes to donate a scenic easement on Greenacre to a qualifying conservation organization, but H would like to reserve the right to subdivide Greenacre into 90-acre parcels with no more than one single-family home allowable on each parcel. Random building on the property, even as little as one home for each 90 acres, would destroy the scenic character of the view. Accordingly, no deduction would be allowable under this section.

Example 4. Assume the same facts as in *example (3)*, except that not all of Greenacre is visible from the park and the deed of easement allows for limited cluster development of no more than five nine-acre clusters (with four houses on each cluster) located in areas generally not visible from the national park and subject to site and building plan approval by the donee organization in order to

preserve the scenic view from the park. The donor and the donee have already identified sites where limited cluster development would not be visible from the park or would not impair the view. Owners of homes in the clusters will not have any rights with respect to the surrounding Greenacre property that are not also available to the general public. Accordingly, the donation qualifies for a deduction under this section.

Example 5. In order to protect State S's declining open space that is suited for agricultural use from increasing development pressure that has led to a marked decline in such open space, the Legislature of State S passed a statute authorizing the purchase of "agricultural land development rights" on open acreage. Agricultural land development rights allow the State to place agricultural preservation restrictions on land designated as worthy of protection in order to preserve open space and farm resources. Agricultural preservation restrictions prohibit or limit construction or placement of buildings except those used for agricultural purposes or dwellings used for family living by the farmer and his family and employees; removal of mineral substances in any manner that adversely affects the land's agricultural potential; or other uses detrimental to retention of the land for agricultural use. Money has been appropriated for this program and some landowners have in fact sold their "agricultural land development rights" to State S. K owns and operates a small dairy farm in State S located in an area designated by the Legislature as worthy of protection. K desires to preserve his farm for agricultural purposes in perpetuity. Rather than selling the development rights to State S, K grants to a qualified organization an agricultural preservation restriction on his property in the form of a conservation easement. K reserves to himself, his heirs and assigns the right to manage the farm consistent with sound agricultural and management practices. The preservation of K's land is pursuant to a clearly delineated governmental policy of preserving open space available for agricultural use, and will yield a significant public benefit by preserving open space against increasing development pressures.

(g) *Enforceable in perpetuity*—(1) *In general.* In the case of any donation under this section, any interest in the property retained by the donor (and the donor's successors in interest) must be subject to legally enforceable restrictions (for example, by recordation in the land records of the jurisdiction in which the property is located) that will prevent uses of the retained interest inconsistent with the conservation purposes of the donation. In

the case of a contribution of a remainder interest, the contribution will not qualify if the tenants, whether they are tenants for life or a term of years, can use the property in a manner that diminishes the conservation values which are intended to be protected by the contribution.

(2) *Protection of a conservation purpose in case of donation of property subject to a mortgage.* In the case of conservation contributions made after February 13, 1986, no deduction will be permitted under this section for an interest in property which is subject to a mortgage unless the mortgagee subordinates its rights in the property to the right of the qualified organization to enforce the conservation purposes of the gift in perpetuity. For conservation contributions made prior to February 14, 1986, the requirement of section 170(h)(5)(A) is satisfied in the case of mortgaged property (with respect to which the mortgagee has not subordinated its rights) only if the donor can demonstrate that the conservation purpose is protected in perpetuity without subordination of the mortgagee's rights.

(3) *Remote future event.* A deduction shall not be disallowed under section 170(f)(3)(B)(iii) and this section merely because the interest which passes to, or is vested in, the donee organization may be defeated by the performance of some act or the happening of some event, if on the date of the gift it appears that the possibility that such act or event will occur is so remote as to be negligible. See paragraph (e) of § 1.170A-1. For example, a state's statutory requirement that use restrictions must be rerecorded every 30 years to remain enforceable shall not, by itself, render an easement nonperpetual.

(4) *Retention of qualified mineral interest—(i) In general.* Except as otherwise provided in paragraph (g)(4)(ii) of this section, the requirements of this section are not met and no deduction shall be allowed in the case of a contribution of any interest when there is a retention by any person of a qualified mineral interest (as defined in paragraph (b)(1)(i) of this section) if at any time there may be extractions or removal of minerals by any surface mining method. Moreover, in the case of a qualified

mineral interest gift, the requirement that the conservation purposes be protected in perpetuity is not satisfied if any method of mining that is inconsistent with the particular conservation purposes of a contribution is permitted at any time. See also § 1.170A-14(e)(2). However, a deduction under this section will not be denied in the case of certain methods of mining that may have limited, localized impact on the real property but that are not irretrievably destructive of significant conservation interests. For example, a deduction will not be denied in a case where production facilities are concealed or compatible with existing topography and landscape and when surface alteration is to be restored to its original state.

(ii) *Exception for qualified conservation contributions after July 1984.* (A) A contribution made after July 18, 1984, of a qualified real property interest described in section 170(h)(2)(A) shall not be disqualified under the first sentence of paragraph (g)(4)(i) of this section if the following requirements are satisfied.

(1) The ownership of the surface estate and mineral interest were separated before June 13, 1976, and remain so separated up to and including the time of the contribution.

(2) The present owner of the mineral interest is not a person whose relationship to the owner of the surface estate is described at the time of the contribution in section 267(b) or section 707(b), and

(3) The probability of extraction or removal of minerals by any surface mining method is so remote as to be negligible.

Whether the probability of extraction or removal of minerals by surface mining is so remote as to be negligible is a question of fact and is to be made on a case by case basis. Relevant factors to be considered in determining if the probability of extraction or removal of minerals by surface mining is so remote as to be negligible include: Geological, geophysical or economic data showing the absence of mineral reserves on the property, or the lack of commercial feasibility at the time of the contribution of surface mining the mineral interest.

(B) If the ownership of the surface estate and mineral interest first became separated after June 12, 1976, no deduction is permitted for a contribution under this section unless surface mining on the property is completely prohibited.

(iii) *Examples.* The provisions of paragraph (g)(4)(i) and (ii) of this section may be illustrated by the following examples:

Example 1. K owns 5,000 acres of bottomland hardwood property along a major watershed system in the southern part of the United States. Agencies within the Department of the Interior have determined that southern bottomland hardwoods are a rapidly diminishing resource and a critical ecosystem in the south because of the intense pressure to cut the trees and convert the land to agricultural use. These agencies have further determined (and have indicated in correspondence with K) that bottomland hardwoods provide a superb habitat for numerous species and play an important role in controlling floods and purifying rivers. K donates to a qualified organization his entire interest in this property other than his interest in the gas and oil deposits that have been identified under K's property. K covenants and can ensure that, although drilling for gas and oil on the property may have some temporary localized impact on the real property, the drilling will not interfere with the overall conservation purpose of the gift, which is to protect the unique bottomland hardwood ecosystem. Accordingly, the donation qualifies for a deduction under this section.

Example 2. Assume the same facts as in *Example 1*, except that in 1979, K sells the mineral interest to A, an unrelated person, in an arm's-length transaction, subject to a recorded prohibition on the removal of any minerals by any surface mining method and a recorded prohibition against any mining technique that will harm the bottomland hardwood ecosystem. After the sale to A, K donates a qualified real property interest to a qualified organization to protect the bottomland hardwood ecosystem. Since at the time of the transfer, surface mining and any mining technique that will harm the bottomland hardwood ecosystem are completely prohibited, the donation qualifies for a deduction under this section.

(5) *Protection of conservation purpose where taxpayer reserves certain rights—(i) Documentation.* In the case of a donation made after February 13, 1986, of any qualified real property interest when the donor reserves rights the exercise of which may impair the conservation interests associated with the

property, for a deduction to be allowable under this section the donor must make available to the donee, prior to the time the donation is made, documentation sufficient to establish the condition of the property at the time of the gift. Such documentation is designed to protect the conservation interests associated with the property, which although protected in perpetuity by the easement, could be adversely affected by the exercise of the reserved rights. Such documentation may include:

(A) The appropriate survey maps from the United States Geological Survey, showing the property line and other contiguous or nearby protected areas;

(B) A map of the area drawn to scale showing all existing man-made improvements or incursions (such as roads, buildings, fences, or gravel pits), vegetation and identification of flora and fauna (including, for example, rare species locations, animal breeding and roosting areas, and migration routes), land use history (including present uses and recent past disturbances), and distinct natural features (such as large trees and aquatic areas);

(C) An aerial photograph of the property at an appropriate scale taken as close as possible to the date the donation is made; and

(D) On-site photographs taken at appropriate locations on the property. If the terms of the donation contain restrictions with regard to a particular natural resource to be protected, such as water quality or air quality, the condition of the resource at or near the time of the gift must be established. The documentation, including the maps and photographs, must be accompanied by a statement signed by the donor and a representative of the donee clearly referencing the documentation and in substance saying "This natural resources inventory is an accurate representation of [the protected property] at the time of the transfer."

(ii) *Donee's right to inspection and legal remedies.* In the case of any donation referred to in paragraph (g)(5)(i) of this section, the donor must agree to notify the donee, in writing, before exercising any reserved right, *e.g.* the right to extract certain minerals which

may have an adverse impact on the conservation interests associated with the qualified real property interest. The terms of the donation must provide a right of the donee to enter the property at reasonable times for the purpose of inspecting the property to determine if there is compliance with the terms of the donation. Additionally, the terms of the donation must provide a right of the donee to enforce the conservation restrictions by appropriate legal proceedings, including but not limited to, the right to require the restoration of the property to its condition at the time of the donation.

(6) *Extinguishment.* (i) In general. If a subsequent unexpected change in the conditions surrounding the property that is the subject of a donation under this paragraph can make impossible or impractical the continued use of the property for conservation purposes, the conservation purpose can nonetheless be treated as protected in perpetuity if the restrictions are extinguished by judicial proceeding and all of the donee's proceeds (determined under paragraph (g)(6)(ii) of this section) from a subsequent sale or exchange of the property are used by the donee organization in a manner consistent with the conservation purposes of the original contribution.

(ii) *Proceeds.* In case of a donation made after February 13, 1986, for a deduction to be allowed under this section, at the time of the gift the donor must agree that the donation of the perpetual conservation restriction gives rise to a property right, immediately vested in the donee organization, with a fair market value that is at least equal to the proportionate value that the perpetual conservation restriction at the time of the gift, bears to the value of the property as a whole at that time. See § 1.170A-14(h)(3)(iii) relating to the allocation of basis. For purposes of this paragraph (g)(6)(ii), that proportionate value of the donee's property rights shall remain constant. Accordingly, when a change in conditions give rise to the extinguishment of a perpetual conservation restriction under paragraph (g)(6)(i) of this section, the donee organization, on a subsequent sale, exchange, or involuntary conversion of

the subject property, must be entitled to a portion of the proceeds at least equal to that proportionate value of the perpetual conservation restriction, unless state law provides that the donor is entitled to the full proceeds from the conversion without regard to the terms of the prior perpetual conservation restriction.

(h) *Valuation*—(1) *Entire interest of donor other than qualified mineral interest.* The value of the contribution under section 170 in the case of a contribution of a taxpayer's entire interest in property other than a qualified mineral interest is the fair market value of the surface rights in the property contributed. The value of the contribution shall be computed without regard to the mineral rights. See paragraph (h)(4), *example (1)*, of this section.

(2) *Remainder interest in real property.* In the case of a contribution of any remainder interest in real property, section 170(f)(4) provides that in determining the value of such interest for purposes of section 170, depreciation and depletion of such property shall be taken into account. See § 1.170A-12. In the case of the contribution of a remainder interest for conservation purposes, the current fair market value of the property (against which the limitations of § 1.170A-12 are applied) must take into account any pre-existing or contemporaneously recorded rights limiting, for conservation purposes, the use to which the subject property may be put.

(3) *Perpetual conservation restriction*—(i) *In general.* The value of the contribution under section 170 in the case of a charitable contribution of a perpetual conservation restriction is the fair market value of the perpetual conservation restriction at the time of the contribution. See § 1.170A-7(c). If there is a substantial record of sales of easements comparable to the donated easement (such as purchases pursuant to a governmental program), the fair market value of the donated easement is based on the sales prices of such comparable easements. If no substantial record of market-place sales is available to use as a meaningful or valid comparison, as a general rule (but not necessarily in all cases) the fair market value of a perpetual conservation

restriction is equal to the difference between the fair market value of the property it encumbers before the granting of the restriction and the fair market value of the encumbered property after the granting of the restriction. The amount of the deduction in the case of a charitable contribution of a perpetual conservation restriction covering a portion of the contiguous property owned by a donor and the donor's family (as defined in section 267(c)(4)) is the difference between the fair market value of the entire contiguous parcel of property before and after the granting of the restriction. If the granting of a perpetual conservation restriction after January 14, 1986, has the effect of increasing the value of any other property owned by the donor or a related person, the amount of the deduction for the conservation contribution shall be reduced by the amount of the increase in the value of the other property, whether or not such property is contiguous. If, as a result of the donation of a perpetual conservation restriction, the donor or a related person receives, or can reasonably expect to receive, financial or economic benefits that are greater than those that will inure to the general public from the transfer, no deduction is allowable under this section. However, if the donor or a related person receives, or can reasonably expect to receive, a financial or economic benefit that is substantial, but it is clearly shown that the benefit is less than the amount of the transfer, then a deduction under this section is allowable for the excess of the amount transferred over the amount of the financial or economic benefit received or reasonably expected to be received by the donor or the related person. For purposes of this paragraph (h)(3)(i), related person shall have the same meaning as in either section 267(b) or section 707(b). (See *Example 10* of paragraph (h)(4) of this section.)

(ii) *Fair market value of property before and after restriction.* If before and after valuation is used, the fair market value of the property before contribution of the conservation restriction must take into account not only the current use of the property but also an objective assessment of how immediate

or remote the likelihood is that the property, absent the restriction, would in fact be developed, as well as any effect from zoning, conservation, or historic preservation laws that already restrict the property's potential highest and best use. Further, there may be instances where the grant of a conservation restriction may have no material effect on the value of the property or may in fact serve to enhance, rather than reduce, the value of property. In such instances no deduction would be allowable. In the case of a conservation restriction that allows for any development, however limited, on the property to be protected, the fair market value of the property after contribution of the restriction must take into account the effect of the development. In the case of a conservation easement such as an easement on a certified historic structure, the fair market value of the property after contribution of the restriction must take into account the amount of access permitted by the terms of the easement. Additionally, if before and after valuation is used, an appraisal of the property after contribution of the restriction must take into account the effect of restrictions that will result in a reduction of the potential fair market value represented by highest and best use but will, nevertheless, permit uses of the property that will increase its fair market value above that represented by the property's current use. The value of a perpetual conservation restriction shall not be reduced by reason of the existence of restrictions on transfer designed solely to ensure that the conservation restriction will be dedicated to conservation purposes. See § 1.170A-14 (c)(3).

(iii) *Allocation of basis.* In the case of the donation of a qualified real property interest for conservation purposes, the basis of the property retained by the donor must be adjusted by the elimination of that part of the total basis of the property that is properly allocable to the qualified real property interest granted. The amount of the basis that is allocable to the qualified real property interest shall bear the same ratio to the total basis of the property as the fair market value of the qualified real property interest

bears to the fair market value of the property before the granting of the qualified real property interest. When a taxpayer donates to a qualifying conservation organization an easement on a structure with respect to which deductions are taken for depreciation, the reduction required by this paragraph (h)(3)(ii) in the basis of the property retained by the taxpayer must be allocated between the structure and the underlying land.

(4) *Examples.* The provisions of this section may be illustrated by the following examples. In examples illustrating the value or deductibility of donations, the applicable restrictions and limitations of § 1.170A-4, with respect to reduction in amount of charitable contributions of certain appreciated property, and § 1.170A-8, with respect to limitations on charitable deductions by individuals, must also be taken into account.

Example 1. A owns Goldacre, a property adjacent to a state park. A wants to donate Goldacre to the state to be used as part of the park, but A wants to reserve a qualified mineral interest in the property, to exploit currently and to devise at death. The fair market value of the surface rights in Goldacre is \$200,000 and the fair market value of the mineral rights is \$100,000. In order to ensure that the quality of the park will not be degraded, restrictions must be imposed on the right to extract the minerals that reduce the fair market value of the mineral rights to \$80,000. Under this section, the value of the contribution is \$200,000 (the value of the surface rights).

Example 2. In 1984 B, who is 62, donates a remainder interest in Greenacre to a qualifying organization for conservation purposes. Greenacre is a tract of 200 acres of undeveloped woodland that is valued at \$200,000 at its highest and best use. Under § 1.170A-12(b), the value of a remainder interest in real property following one life is determined under § 25.2512-5 of this chapter (Gift Tax Regulations). (See § 25.2512-5A of this chapter with respect to the valuation of annuities, interests for life or term of years, and remainder or reversionary interests transferred before May 1, 2009.) Accordingly, the value of the remainder interest, and thus the amount eligible for an income tax deduction under section 170(f), is \$55,996 ($\$200,000 \times .27998$).

Example 3. Assume the same facts as in *Example 2*, except that Greenacre is B's 200-acre estate with a home built during the colonial period. Some of the acreage around the home is cleared; the balance of Greenacre, except

for access roads, is wooded and undeveloped. See section 170(f)(3)(B)(i). However, B would like Greenacre to be maintained in its current state after his death, so he donates a remainder interest in Greenacre to a qualifying organization for conservation purposes pursuant to section 170 (f)(3)(B)(iii) and (h)(2)(B). At the time of the gift the land has a value of \$200,000 and the house has a value of \$100,000. The value of the remainder interest, and thus the amount eligible for an income tax deduction under section 170(f), is computed pursuant to § 1.170A-12. See § 1.170A-12(b)(3).

Example 4. Assume the same facts as in *Example 2*, except that at age 62 instead of donating a remainder interest B donates an easement in Greenacre to a qualifying organization for conservation purposes. The fair market value of Greenacre after the donation is reduced to \$110,000. Accordingly, the value of the easement, and thus the amount eligible for a deduction under section 170(f), is \$90,000 ($\$200,000$ less $\$110,000$).

Example 5. Assume the same facts as in *Example 4*, and assume that three years later, at age 65, B decides to donate a remainder interest in Greenacre to a qualifying organization for conservation purposes. Increasing real estate values in the area have raised the fair market value of Greenacre (subject to the easement) to \$130,000. Accordingly, the value of the remainder interest, and thus the amount eligible for a deduction under section 170(f), is \$41,639 ($\$130,000 \times .32030$).

Example 6. Assume the same facts as in *Example 2*, except that at the time of the donation of a remainder interest in Greenacre, B also donates an easement to a different qualifying organization for conservation purposes. Based on all the facts and circumstances, the value of the easement is determined to be \$100,000. Therefore, the value of the property after the easement is \$100,000 and the value of the remainder interest, and thus the amount eligible for deduction under section 170(f), is \$27,998 ($\$100,000 \times .27998$).

Example 7. C owns Greenacre, a 200-acre estate containing a house built during the colonial period. At its highest and best use, for home development, the fair market value of Greenacre is \$300,000. C donates an easement (to maintain the house and Green acre in their current state) to a qualifying organization for conservation purposes. The fair market value of Greenacre after the donation is reduced to \$125,000. Accordingly, the value of the easement and the amount eligible for a deduction under section 170(f) is \$175,000 ($\$300,000$ less $\$125,000$).

Example 8. Assume the same facts as in *Example 7* and assume that three years later, C decides to donate a remainder interest in Greenacre to a qualifying organization for conservation purposes. Increasing real estate values in the area have raised the fair market value of Greenacre to \$180,000. Assume

that because of the perpetual easement prohibiting any development of the land, the value of the house is \$120,000 and the value of the land is \$60,000. The value of the remainder interest, and thus the amount eligible for an income tax deduction under section 170(f), is computed pursuant to § 1.170A-12. See § 1.170A-12(b)(3).

Example 9. D owns property with a basis of \$20,000 and a fair market value of \$80,000. D donates to a qualifying organization an easement for conservation purposes that is determined under this section to have a fair market value of \$60,000. The amount of basis allocable to the easement is \$15,000 ($\$60,000 / \$80,000 = \$15,000 / \$20,000$). Accordingly, the basis of the property is reduced to \$5,000 ($\$20,000$ minus $\$15,000$).

Example 10. E owns 10 one-acre lots that are currently woods and parkland. The fair market value of each of E's lots is \$15,000 and the basis of each lot is \$3,000. E grants to the county a perpetual easement for conservation purposes to use and maintain eight of the acres as a public park and to restrict any future development on those eight acres. As a result of the restrictions, the value of the eight acres is reduced to \$1,000 an acre. However, by perpetually restricting development on this portion of the land, E has ensured that the two remaining acres will always be bordered by parkland, thus increasing their fair market value to \$22,500 each. If the eight acres represented all of E's land, the fair market value of the easement would be \$112,000, an amount equal to the fair market value of the land before the granting of the easement ($8 \times \$15,000 = \$120,000$) minus the fair market value of the encumbered land after the granting of the easement ($8 \times \$1,000 = \$8,000$). However, because the easement only covered a portion of the taxpayer's contiguous land, the amount of the deduction under section 170 is reduced to \$97,000 ($\$150,000 - \$53,000$), that is, the difference between the fair market value of the entire tract of land before (\$150,000) and after ($(8 \times \$1,000) + (2 \times \$22,500)$) the granting of the easement.

Example 11. Assume the same facts as in *example (10)*. Since the easement covers a portion of E's land, only the basis of that portion is adjusted. Therefore, the amount of basis allocable to the easement is \$22,400 ($(8 \times \$3,000) \times (\$112,000 / \$120,000)$). Accordingly, the basis of the eight acres encumbered by the easement is reduced to \$1,600 ($\$24,000 - \$22,400$), or \$200 for each acre. The basis of the two remaining acres is not affected by the donation.

Example 12. F owns and uses as professional offices a two-story building that lies within a registered historic district. F's building is an outstanding example of period architecture with a fair market value of \$125,000. Restricted to its current use, which is the highest and best use of the property without

making changes to the facade, the building and lot would have a fair market value of \$100,000, of which \$80,000 would be allocable to the building and \$20,000 would be allocable to the lot. F's basis in the property is \$50,000, of which \$40,000 is allocable to the building and \$10,000 is allocable to the lot. F's neighborhood is a mix of residential and commercial uses, and it is possible that F (or another owner) could enlarge the building for more extensive commercial use, which is its highest and best use. However, this would require changes to the facade. F would like to donate to a qualifying preservation organization an easement restricting any changes to the facade and promising to maintain the facade in perpetuity. The donation would qualify for a deduction under this section. The fair market value of the easement is \$25,000 (the fair market value of the property before the easement, \$125,000, minus the fair market value of the property after the easement, \$100,000). Pursuant to § 1.170A-14(h)(3)(iii), the basis allocable to the easement is \$10,000 and the basis of the underlying property (building and lot) is reduced to \$40,000.

(i) *Substantiation requirement.* If a taxpayer makes a qualified conservation contribution and claims a deduction, the taxpayer must maintain written records of the fair market value of the underlying property before and after the donation and the conservation purpose furthered by the donation and such information shall be stated in the taxpayer's income tax return if required by the return or its instructions. See also § 1.170A-13(c) (relating to substantiation requirements for deductions in excess of \$5,000 for charitable contributions made after 1984), and section 6659 (relating to additions to tax in the case of valuation overstatements).

(j) *Effective date.* Except as otherwise provided in § 1.170A-14(g)(4)(ii), this section applies only to contributions made on or after December 18, 1980.

[T.D. 8069, 51 FR 1499, Jan. 14, 1986; 51 FR 5322, Feb. 13, 1986; 51 FR 6219, Feb. 21, 1986, as amended by T.D. 8199, 53 FR 16085, May 5, 1988; T.D. 8540, 59 FR 30105, June 10, 1994; T.D. 8819, 64 FR 23228, Apr. 30, 1999; T.D. 9448, 74 FR 21518, May 7, 2009]

§ 1.171-1 Bond premium.

(a) *Overview—(1) In general.* This section and §§ 1.171-2 through 1.171-5 provide rules for the determination and amortization of bond premium by a holder. In general, a holder amortizes

bond premium by offsetting the interest allocable to an accrual period with the premium allocable to that period. Bond premium is allocable to an accrual period based on a constant yield. The use of a constant yield to amortize bond premium is intended to generally conform the treatment of bond premium to the treatment of original issue discount under sections 1271 through 1275. Unless otherwise provided, the terms used in this section and §§1.171-2 through 1.171-5 have the same meaning as those terms in sections 1271 through 1275 and the corresponding regulations. Moreover, unless otherwise provided, the provisions of this section and §§1.171-2 through 1.171-5 apply in a manner consistent with those of sections 1271 through 1275 and the corresponding regulations. In addition, the anti-abuse rule in §1.1275-2(g) applies for purposes of this section and §§1.171-2 through 1.171-5.

(2) *Cross-references.* For rules dealing with the adjustments to a holder's basis to reflect the amortization of bond premium, see §1.1016-5(b). For rules dealing with the treatment of bond issuance premium by an issuer, see §1.163-13.

(b) *Scope*—(1) *In general.* Except as provided in paragraph (b)(2) of this section and §1.171-5, this section and §§1.171-2 through 1.171-4 apply to any bond that, upon its acquisition by the holder, is held with bond premium. For purposes of this section and §§1.171-2 through 1.171-5, the term *bond* has the same meaning as the term *debt instrument* in §1.1275-1(d).

(2) *Exceptions.* This section and §§1.171-2 through 1.171-5 do not apply to—

(i) A bond described in section 1272(a)(6)(C) (regular interests in a REMIC, qualified mortgages held by a REMIC, and certain other debt instruments, or pools of debt instruments, with payments subject to acceleration);

(ii) A bond to which §1.1275-4 applies (relating to certain debt instruments that provide for contingent payments);

(iii) A bond held by a holder that has made a §1.1272-3 election with respect to the bond;

(iv) A bond that is stock in trade of the holder, a bond of a kind that would

properly be included in the inventory of the holder if on hand at the close of the taxable year, or a bond held primarily for sale to customers in the ordinary course of the holder's trade or business; or

(v) A bond issued before September 28, 1985, unless the bond bears interest and was issued by a corporation or by a government or political subdivision thereof.

(c) *General rule*—(1) *Tax-exempt obligations.* A holder must amortize bond premium on a bond that is a tax-exempt obligation. See §1.171-2(c) *Example 4*.

(2) *Taxable bonds.* A holder may elect to amortize bond premium on a taxable bond. Except as provided in paragraph (c)(3) of this section, a taxable bond is any bond other than a tax-exempt obligation. See §1.171-4 for rules relating to the election to amortize bond premium on a taxable bond.

(3) *Bonds the interest on which is partially excludable.* For purposes of this section and §§1.171-2 through 1.171-5, a bond the interest on which is partially excludable from gross income is treated as two instruments, a tax-exempt obligation and a taxable bond. The holder's basis in the bond and each payment on the bond are allocated between the two instruments based on a reasonable method.

(d) *Determination of bond premium*—(1) *In general.* A holder acquires a bond at a premium if the holder's basis in the bond immediately after its acquisition by the holder exceeds the sum of all amounts payable on the bond after the acquisition date (other than payments of qualified stated interest). This excess is bond premium, which is amortizable under §1.171-2.

(2) *Additional rules for amounts payable on certain bonds.* Additional rules apply to determine the amounts payable on a variable rate debt instrument, an inflation-indexed debt instrument, a bond that provides for certain alternative payment schedules, and a bond that provides for remote or incidental contingencies. See §1.171-3.

(e) *Basis.* A holder determines its basis in a bond under this paragraph (e). This determination of basis applies only for purposes of this section and §§1.171-2 through 1.171-5. Because of the application of this paragraph (e), the

holder's basis in the bond for purposes of these sections may differ from the holder's basis for determining gain or loss on the sale or exchange of the bond.

(1) *Determination of basis*—(i) *In general.* In general, the holder's basis in the bond is the holder's basis for determining loss on the sale or exchange of the bond.

(ii) *Bonds acquired in certain exchanges.* If the holder acquired the bond in exchange for other property (other than in a reorganization defined in section 368) and the holder's basis in the bond is determined in whole or in part by reference to the holder's basis in the other property, the holder's basis in the bond may not exceed its fair market value immediately after the exchange. See paragraph (f) *Example 1* of this section. If the bond is acquired in a reorganization, see section 171(b)(4)(B).

(iii) *Convertible bonds*—(A) *General rule.* If the bond is a convertible bond, the holder's basis in the bond is reduced by an amount equal to the value of the conversion option. The value of the conversion option may be determined under any reasonable method. For example, the holder may determine the value of the conversion option by comparing the market price of the convertible bond to the market prices of similar bonds that do not have conversion options. See paragraph (f) *Example 2* of this section.

(B) *Convertible bonds acquired in certain exchanges.* If the bond is a convertible bond acquired in a transaction described in paragraph (e)(1)(ii) of this section, the holder's basis in the bond may not exceed its fair market value immediately after the exchange reduced by the value of the conversion option.

(C) *Definition of convertible bond.* A convertible bond is a bond that provides the holder with an option to convert the bond into stock of the issuer, stock or debt of a related party (within the meaning of section 267(b) or 707(b)(1)), or into cash or other property in an amount equal to the approximate value of such stock or debt. For bonds issued on or after February 5, 2013, the term *stock* in the preceding sentence means an equity interest in

any entity that is classified, for Federal tax purposes, as either a partnership or a corporation.

(2) *Basis in bonds held by certain transferees.* Notwithstanding paragraph (e)(1) of this section, if the bond is transferred basis property (as defined in section 7701(a)(43)) and the transferor had acquired the bond at a premium, the holder's basis in the bond is—

(i) The holder's basis for determining loss on the sale or exchange of the bond; reduced by

(ii) Any amounts that the transferor could not have amortized under this paragraph (e) or under § 1.171-4(c), except to the extent that the holder's basis already reflects a reduction attributable to such nonamortizable amounts.

(f) *Examples.* The following examples illustrate the rules of this section:

Example 1. Bond received in liquidation of a partnership interest. (i) *Facts.* PR is a partner in partnership PRS. PRS does not have any unrealized receivables or inventory items as defined in section 751. On January 1, 1998, PRS distributes to PR a taxable bond, issued by an unrelated corporation, in liquidation of PR's partnership interest. At that time, the fair market value of PR's partnership interest is \$40,000 and the basis is \$100,000. The fair market value of the bond is \$40,000.

(ii) *Determination of basis.* Under section 732(b), PR's basis in the bond is equal to PR's basis in the partnership interest. Therefore, PR's basis for determining loss on the sale or exchange of the bond is \$100,000. However, because the distribution is treated as an exchange for purposes of section 171(b)(4), PR's basis in the bond is \$40,000 for purposes of this section and §§ 1.171-2 through 1.171-5. See paragraph (e)(1)(ii) of this section.

Example 2. Convertible bond. (i) *Facts.* On January 1, A purchases for \$1,100 B corporation's bond maturing in three years from the purchase date, with a stated principal amount of \$1,000, payable at maturity. The bond provides for unconditional payments of interest of \$30 on January 1 and July 1 of each year. In addition, the bond is convertible into 15 shares of B corporation stock at the option of the holder. On the purchase date, B corporation's nonconvertible, publicly-traded, three-year debt of comparable credit quality trades at a price that reflects a yield of 6.75 percent, compounded semi-annually.

(ii) *Determination of basis.* A's basis for determining loss on the sale or exchange of the bond is \$1,100. As of the purchase date, discounting the remaining payments on the

§ 1.171-2

26 CFR Ch. I (4-1-17 Edition)

bond at the yield at which B's similar non-convertible bonds trade (6.75 percent, compounded semiannually) results in a present value of \$980. Thus, the value of the conversion option is \$120. Under paragraph (e)(1)(iii)(A) of this section, A's basis is \$980 (\$1,100 - \$120) for purposes of this section and §§ 1.171-2 through 1.171-5. The sum of all amounts payable on the bond other than qualified stated interest is \$1,000. Because A's basis (as determined under paragraph (e)(1)(iii)(A) of this section) does not exceed \$1,000, A does not acquire the bond at a premium.

(iii) *Applicability date.* Notwithstanding § 1.171-5(a)(1), this *Example 2* applies to bonds acquired on or after July 6, 2011.

[T.D. 8746, 62 FR 68177, Dec. 31, 1997, as amended by T.D. 9533, 76 FR 39280, July 6, 2011; T.D. 9612, 78 FR 8005, Feb. 5, 2013; T.D. 9637, 78 FR 54759, Sept. 6, 2013]

§ 1.171-2 Amortization of bond premium.

(a) *Offsetting qualified stated interest with premium—(1) In general.* A holder amortizes bond premium by offsetting the qualified stated interest allocable to an accrual period with the bond premium allocable to the accrual period. This offset occurs when the holder takes the qualified stated interest into account under the holder's regular method of accounting.

(2) *Qualified stated interest allocable to an accrual period.* See § 1.446-2(b) to determine the accrual period to which qualified stated interest is allocable and to determine the accrual of qualified stated interest within an accrual period.

(3) *Bond premium allocable to an accrual period.* The bond premium allocable to an accrual period is determined under this paragraph (a)(3). Within an accrual period, the bond premium allocable to the period accrues ratably.

(i) *Step one: Determine the holder's yield.* The holder's yield is the discount rate that, when used in computing the present value of all remaining payments to be made on the bond (including payments of qualified stated interest), produces an amount equal to the holder's basis in the bond as determined under § 1.171-1(e). For this purpose, the remaining payments include only payments to be made after the date the holder acquires the bond. The yield is calculated as of the date the

holder acquires the bond, must be constant over the term of the bond, and must be calculated to at least two decimal places when expressed as a percentage.

(ii) *Step two: Determine the accrual periods.* A holder determines the accrual periods for the bond under the rules of § 1.1272-1(b)(1)(ii).

(iii) *Step three: Determine the bond premium allocable to the accrual period.* The bond premium allocable to an accrual period is the excess of the qualified stated interest allocable to the accrual period over the product of the holder's adjusted acquisition price (as defined in paragraph (b) of this section) at the beginning of the accrual period and the holder's yield. In performing this calculation, the yield must be stated appropriately taking into account the length of the particular accrual period. Principles similar to those in § 1.1272-1(b)(4) apply in determining the bond premium allocable to an accrual period.

(4) *Bond premium in excess of qualified stated interest—(i) Taxable bonds—(A) Bond premium deduction.* In the case of a taxable bond, if the bond premium allocable to an accrual period exceeds the qualified stated interest allocable to the accrual period, the excess is treated by the holder as a bond premium deduction under section 171(a)(1) for the accrual period. However, the amount treated as a bond premium deduction is limited to the amount by which the holder's total interest inclusions on the bond in prior accrual periods exceed the total amount treated by the holder as a bond premium deduction on the bond in prior accrual periods. A deduction determined under this paragraph (a)(4)(i)(A) is not subject to section 67 (the 2-percent floor on miscellaneous itemized deductions). See *Example 1* of § 1.171-3(e).

(B) *Carryforward.* If the bond premium allocable to an accrual period exceeds the sum of the qualified stated interest allocable to the accrual period and the amount treated as a deduction for the accrual period under paragraph (a)(4)(i)(A) of this section, the excess is carried forward to the next accrual period and is treated as bond premium allocable to that period.

(C) *Carryforward in holder's final accrual period*—(1) *Bond premium deduction.* If there is a bond premium carryforward determined under paragraph (a)(4)(i)(B) of this section as of the end of the holder's accrual period in which the bond is sold, retired, or otherwise disposed of, the holder treats the amount of the carryforward as a bond premium deduction under section 171(a)(1) for the holder's taxable year in which the sale, retirement, or other disposition occurs. For purposes of § 1.1016-5(b), the holder's basis in the bond is reduced by the amount of bond premium allowed as a deduction under this paragraph (a)(4)(i)(C)(I).

(2) *Effective/applicability date.* Notwithstanding § 1.171-5(a)(1), paragraph (a)(4)(i)(C)(I) of this section applies to a bond acquired on or after January 4, 2013. A taxpayer, however, may rely on paragraph (a)(4)(i)(C)(I) of this section for a bond acquired before that date.

(ii) *Tax-exempt obligations.* In the case of a tax-exempt obligation, if the bond premium allocable to an accrual period exceeds the qualified stated interest allocable to the accrual period, the excess is a nondeductible loss. If a regulated investment company (RIC) within the meaning of section 851 has excess bond premium for an accrual period that would be a nondeductible loss under the prior sentence, the RIC must use this excess bond premium to reduce its tax-exempt interest income on other tax-exempt obligations held during the accrual period.

(5) *Additional rules for certain bonds.* Additional rules apply to determine the amortization of bond premium on a variable rate debt instrument, an inflation-indexed debt instrument, a bond that provides for certain alternative payment schedules, and a bond that provides for remote or incidental contingencies. See § 1.171-3.

(b) *Adjusted acquisition price.* The adjusted acquisition price of a bond at the beginning of the first accrual period is the holder's basis as determined under § 1.171-1(e). Thereafter, the adjusted acquisition price is the holder's basis in the bond decreased by—

(1) The amount of bond premium previously allocable under paragraph (a)(3) of this section; and

(2) The amount of any payment previously made on the bond other than a payment of qualified stated interest.

(c) *Examples.* The following examples illustrate the rules of this section. Each example assumes the holder uses the calendar year as its taxable year and has elected to amortize bond premium, effective for all relevant taxable years. In addition, each example assumes a 30-day month and 360-day year. Although, for purposes of simplicity, the yield as stated is rounded to two decimal places, the computations do not reflect this rounding convention. The examples are as follows:

Example 1. Taxable bond. (i) *Facts.* On February 1, 1999, A purchases for \$110,000 a taxable bond maturing on February 1, 2006, with a stated principal amount of \$100,000, payable at maturity. The bond provides for unconditional payments of interest of \$10,000, payable on February 1 of each year. A uses the cash receipts and disbursements method of accounting, and A decides to use annual accrual periods ending on February 1 of each year.

(ii) *Amount of bond premium.* The interest payments on the bond are qualified stated interest. Therefore, the sum of all amounts payable on the bond (other than the interest payments) is \$100,000. Under § 1.171-1, the amount of bond premium is \$10,000 (\$110,000 – \$100,000).

(iii) *Bond premium allocable to the first accrual period.* Based on the remaining payment schedule of the bond and A's basis in the bond, A's yield is 8.07 percent, compounded annually. The bond premium allocable to the accrual period ending on February 1, 2000, is the excess of the qualified stated interest allocable to the period (\$10,000) over the product of the adjusted acquisition price at the beginning of the period (\$110,000) and A's yield (8.07 percent, compounded annually). Therefore, the bond premium allocable to the accrual period is \$1,118.17 (\$10,000 – \$8,881.83).

(iv) *Premium used to offset interest.* Although A receives an interest payment of \$10,000 on February 1, 2000, A only includes in income \$8,881.83, the qualified stated interest allocable to the period (\$10,000) offset with bond premium allocable to the period (\$1,118.17). Under § 1.1016-5(b), A's basis in the bond is reduced by \$1,118.17 on February 1, 2000.

Example 2. Alternative accrual periods. (i) *Facts.* The facts are the same as in *Example 1* of this paragraph (c) except that A decides to use semiannual accrual periods ending on February 1 and August 1 of each year.

(ii) *Bond premium allocable to the first accrual period.* Based on the remaining payment schedule of the bond and A's basis in

the bond, A's yield is 7.92 percent, compounded semiannually. The bond premium allocable to the accrual period ending on August 1, 1999, is the excess of the qualified stated interest allocable to the period (\$5,000) over the product of the adjusted acquisition price at the beginning of the period (\$110,000) and A's yield, stated appropriately taking into account the length of the accrual period (7.92 percent/2). Therefore, the bond premium allocable to the accrual period is \$645.29 (\$5,000 - \$4,354.71). Although the accrual period ends on August 1, 1999, the qualified stated interest of \$5,000 is not taken into income until February 1, 2000, the date it is received. Likewise, the bond premium of \$645.29 is not taken into account until February 1, 2000. The adjusted acquisition price of the bond on August 1, 1999, is \$109,354.71 (the adjusted acquisition price at the beginning of the period (\$110,000) less the bond premium allocable to the period (\$645.29)).

(iii) *Bond premium allocable to the second accrual period.* Because the interval between payments of qualified stated interest contains more than one accrual period, the adjusted acquisition price at the beginning of the second accrual period must be adjusted for the accrued but unpaid qualified stated interest. See paragraph (a)(3)(iii) of this section and § 1.1272-1(b)(4)(i)(B). Therefore, the adjusted acquisition price on August 1, 1999, is \$114,354.71 (\$109,354.71 + \$5,000). The bond premium allocable to the accrual period ending on February 1, 2000, is the excess of the qualified stated interest allocable to the period (\$5,000) over the product of the adjusted acquisition price at the beginning of the period (\$114,354.71) and A's yield, stated appropriately taking into account the length of the accrual period (7.92 percent/2). Therefore, the bond premium allocable to the accrual period is \$472.88 (\$5,000 - \$4,527.12).

(iv) *Premium used to offset interest.* Although A receives an interest payment of \$10,000 on February 1, 2000, A only includes in income \$8,881.83, the qualified stated interest of \$10,000 (\$5,000 allocable to the accrual period ending on August 1, 1999, and \$5,000 allocable to the accrual period ending on February 1, 2000) offset with bond premium of \$1,118.17 (\$645.29 allocable to the accrual period ending on August 1, 1999, and \$472.88 allocable to the accrual period ending on February 1, 2000). As indicated in *Example 1* of this paragraph (c), this same amount would be taken into income at the same time had A used annual accrual periods.

Example 3. Holder uses accrual method of accounting. (i) *Facts.* The facts are the same as in *Example 1* of this paragraph (c) except that A uses an accrual method of accounting. Thus, for the accrual period ending on February 1, 2000, the qualified stated interest allocable to the period is \$10,000, and the bond premium allocable to the period is \$1,118.17. Because the accrual period extends beyond

the end of A's taxable year, A must allocate these amounts between the two taxable years.

(ii) *Amounts allocable to the first taxable year.* The qualified stated interest allocable to the first taxable year is \$9,166.67 (\$10,000 × $\frac{1}{12}$). The bond premium allocable to the first taxable year is \$1,024.99 (\$1,118.17 × $\frac{1}{12}$).

(iii) *Premium used to offset interest.* For 1999, A includes in income \$8,141.68, the qualified stated interest allocable to the period (\$9,166.67) offset with bond premium allocable to the period (\$1,024.99). Under § 1.1016-5(b), A's basis in the bond is reduced by \$1,024.99 in 1999.

(iv) *Amounts allocable to the next taxable year.* The remaining amounts of qualified stated interest and bond premium allocable to the accrual period ending on February 1, 2000, are taken into account for the taxable year ending on December 31, 2000.

Example 4. Tax-exempt obligation. (i) *Facts.* On January 15, 1999, C purchases for \$120,000 a tax-exempt obligation maturing on January 15, 2006, with a stated principal amount of \$100,000, payable at maturity. The obligation provides for unconditional payments of interest of \$9,000, payable on January 15 of each year. C uses the cash receipts and disbursements method of accounting, and C decides to use annual accrual periods ending on January 15 of each year.

(ii) *Amount of bond premium.* The interest payments on the obligation are qualified stated interest. Therefore, the sum of all amounts payable on the obligation (other than the interest payments) is \$100,000. Under § 1.171-1, the amount of bond premium is \$20,000 (\$120,000 - \$100,000).

(iii) *Bond premium allocable to the first accrual period.* Based on the remaining payment schedule of the obligation and C's basis in the obligation, C's yield is 5.48 percent, compounded annually. The bond premium allocable to the accrual period ending on January 15, 2000, is the excess of the qualified stated interest allocable to the period (\$9,000) over the product of the adjusted acquisition price at the beginning of the period (\$120,000) and C's yield (5.48 percent, compounded annually). Therefore, the bond premium allocable to the accrual period is \$2,420.55 (\$9,000 - \$6,579.45).

(iv) *Premium used to offset interest.* Although C receives an interest payment of \$9,000 on January 15, 2000, C only receives tax-exempt interest income of \$6,579.45, the qualified stated interest allocable to the period (\$9,000) offset with bond premium allocable to the period (\$2,420.55). Under § 1.1016-5(b), C's basis in the obligation is reduced by \$2,420.55 on January 15, 2000.

[T.D. 8746, 62 FR 68178, Dec. 31, 1997, as amended by T.D. 9653, 79 FR 2590, Jan. 15, 2014]

§ 1.171-3 Special rules for certain bonds.

(a) *Variable rate debt instruments.* A holder determines bond premium on a variable rate debt instrument by reference to the stated redemption price at maturity of the equivalent fixed rate debt instrument constructed for the variable rate debt instrument. The holder also allocates any bond premium among the accrual periods by reference to the equivalent fixed rate debt instrument. The holder constructs the equivalent fixed rate debt instrument, as of the date the holder acquires the variable rate debt instrument, by using the principles of § 1.1275-5(e). See paragraph (e) *Example 1* of this section.

(b) *Inflation-indexed debt instruments.* A holder determines bond premium on an inflation-indexed debt instrument by assuming that there will be no inflation or deflation over the remaining term of the instrument. The holder also allocates any bond premium among the accrual periods by assuming that there will be no inflation or deflation over the remaining term of the instrument. The bond premium allocable to an accrual period offsets qualified stated interest allocable to the period. Notwithstanding § 1.171-2(a)(4), if the bond premium allocable to an accrual period exceeds the qualified stated interest allocable to the period, the excess is treated as a deflation adjustment under § 1.1275-7(f)(1)(i). However, the rules in § 1.171-2(a)(4)(i)(C) apply to any remaining deflation adjustment attributable to bond premium as of the end of the holder's accrual period in which the bond is sold, retired, or otherwise disposed of. See § 1.1275-7 for other rules relating to inflation-indexed debt instruments.

(c) *Yield and remaining payment schedule of certain bonds subject to contingencies—(1) Applicability.* This paragraph (c) provides rules that apply in determining the yield and remaining payment schedule of certain bonds that provide for an alternative payment schedule (or schedules) applicable upon the occurrence of a contingency (or contingencies). This paragraph (c) applies, however, only if the timing and amounts of the payments that comprise each payment schedule are known

as of the date the holder acquires the bond (the acquisition date) and the bond is subject to paragraph (c)(2), (3), or (4) of this section. A bond does not provide for an alternative payment schedule merely because there is a possibility of impairment of a payment (or payments) by insolvency, default, or similar circumstances. See § 1.1275-4 for the treatment of a bond that provides for a contingency that is not described in this paragraph (c).

(2) *Remaining payment schedule that is significantly more likely than not to occur.* If, based on all the facts and circumstances as of the acquisition date, a single remaining payment schedule for a bond is significantly more likely than not to occur, this remaining payment schedule is used to determine and amortize bond premium under §§ 1.171-1 and 1.171-2.

(3) *Mandatory sinking fund provision.* Notwithstanding paragraph (c)(2) of this section, if a bond is subject to a mandatory sinking fund provision described in § 1.1272-1(c)(3), the provision is ignored for purposes of determining and amortizing bond premium under §§ 1.171-1 and 1.171-2.

(4) *Treatment of certain options—(i) Applicability.* Notwithstanding paragraphs (c)(2) and (3) of this section, the rules of this paragraph (c)(4) determine the remaining payment schedule of a bond that provides the holder or issuer with an unconditional option or options, exercisable on one or more dates during the remaining term of the bond, to alter the bond's remaining payment schedule.

(ii) *Operating rules.* A holder determines the remaining payment schedule of a bond by assuming that each option will (or will not) be exercised under the following rules:

(A) *Issuer options.* In general, the issuer is deemed to exercise or not exercise an option or combination of options in the manner that minimizes the holder's yield on the obligation. However, the issuer of a taxable bond is deemed to exercise or not exercise a call option or combination of call options in the manner that maximizes the holder's yield on the bond.

(B) *Holder options.* A holder is deemed to exercise or not exercise an option or combination of options in the manner

that maximizes the holder's yield on the bond.

(C) *Multiple options.* If both the issuer and the holder have options, the rules of paragraphs (c)(4)(ii)(A) and (B) of this section are applied to the options in the order that they may be exercised. Thus, the deemed exercise of one option may eliminate other options that are later in time.

(5) *Subsequent adjustments*—(i) *In general.* Except as provided in paragraph (c)(5)(ii) of this section, if a contingency described in this paragraph (c) (including the exercise of an option described in paragraph (c)(4) of this section) actually occurs or does not occur, contrary to the assumption made pursuant to paragraph (c) of this section (a change in circumstances), then solely for purposes of section 171, the bond is treated as retired and reacquired by the holder on the date of the change in circumstances for an amount equal to the adjusted acquisition price of the bond as of that date. If, however, the change in circumstances results in a substantially contemporaneous pro-rata prepayment as defined in § 1.1275-2(f)(2), the pro-rata prepayment is treated as a payment in retirement of a portion of the bond. See paragraph (e) *Example 2* of this section.

(ii) *Bond premium deduction on the issuer's call of a taxable bond.* If a change in circumstances results from an issuer's call of a taxable bond or a partial call that is a pro-rata prepayment, the holder may deduct as bond premium an amount equal to the excess, if any, of the holder's adjusted acquisition price of the bond over the greater of—

(A) The amount received on redemption; and

(B) The amounts that would have been payable under the bond (other than payments of qualified stated interest) if no change in circumstances had occurred.

(d) *Remote and incidental contingencies.* For purposes of determining and amortizing bond premium, if a bond provides for a contingency that is remote or incidental (within the meaning of § 1.1275-2(h)), the holder takes the contingency into account under the rules for remote and incidental contingencies in § 1.1275-2(h).

(e) *Examples.* The following examples illustrate the rules of this section. Each example assumes the holder uses the calendar year as its taxable year and has elected to amortize bond premium, effective for all relevant taxable years. In addition, each example assumes a 30-day month and 360-day year. Although, for purposes of simplicity, the yield as stated is rounded to two decimal places, the computations do not reflect this rounding convention. The examples are as follows:

Example 1. Variable rate debt instrument. (i) *Facts.* On March 1, 1999, E purchases for \$110,000 a taxable bond maturing on March 1, 2007, with a stated principal amount of \$100,000, payable at maturity. The bond provides for unconditional payments of interest on March 1 of each year based on the percentage appreciation of a nationally-known commodity index. On March 1, 1999, it is reasonably expected that the bond will yield 12 percent, compounded annually. E uses the cash receipts and disbursements method of accounting, and E decides to use annual accrual periods ending on March 1 of each year. Assume that the bond is a variable rate debt instrument under § 1.1275-5.

(ii) *Amount of bond premium.* Because the bond is a variable rate debt instrument, E determines and amortizes its bond premium by reference to the equivalent fixed rate debt instrument constructed for the bond as of March 1, 1999. Because the bond provides for interest at a single objective rate that is reasonably expected to yield 12 percent, compounded annually, the equivalent fixed rate debt instrument for the bond is an eight-year bond with a principal amount of \$100,000, payable at maturity. It provides for annual payments of interest of \$12,000. E's basis in the equivalent fixed rate debt instrument is \$110,000. The sum of all amounts payable on the equivalent fixed rate debt instrument (other than payments of qualified stated interest) is \$100,000. Under § 1.171-1, the amount of bond premium is \$10,000 (\$110,000 - \$100,000).

(iii) *Bond premium allocable to each accrual period.* E allocates bond premium to the remaining accrual periods by reference to the payment schedule on the equivalent fixed rate debt instrument. Based on the payment schedule of the equivalent fixed rate debt instrument and E's basis in the bond, E's yield is 10.12 percent, compounded annually. The bond premium allocable to the accrual period ending on March 1, 2000, is the excess of the qualified stated interest allocable to the period for the equivalent fixed rate debt instrument (\$12,000) over the product of the adjusted acquisition price at the beginning of

Internal Revenue Service, Treasury

§ 1.171-3

the period (\$110,000) and E's yield (10.12 percent, compounded annually). Therefore, the bond premium allocable to the accrual period is \$870.71 (\$12,000 - \$11,129.29). The bond premium allocable to all the accrual periods is listed in the following schedule:

Accrual period ending	Adjusted acquisition price at beginning of accrual period	Premium allocable to accrual period
3/1/00	\$110,000.00	\$870.71
3/1/01	109,129.29	958.81
3/1/02	108,170.48	1,055.82
3/1/03	107,114.66	1,162.64
3/1/04	105,952.02	1,280.27
3/1/05	104,671.75	1,409.80
3/1/06	103,261.95	1,552.44
3/1/07	101,709.51	1,709.51
		10,000.00

(iv) *Qualified stated interest for each accrual period.* Assume the bond actually pays the following amounts of qualified stated interest:

Accrual period ending	Qualified stated interest
3/1/00	\$2,000.00
3/1/01	0.00
3/1/02	0.00
3/1/03	10,000.00
3/1/04	8,000.00
3/1/05	12,000.00
3/1/06	15,000.00
3/1/07	8,500.00

(v) *Premium used to offset interest.* E's interest income for each accrual period is deter-

mined by offsetting the qualified stated interest allocable to the period with the bond premium allocable to the period. For the accrual period ending on March 1, 2000, E includes in income \$1,129.29, the qualified stated interest allocable to the period (\$2,000) offset with the bond premium allocable to the period (\$870.71). For the accrual period ending on March 1, 2001, the bond premium allocable to the accrual period (\$958.81) exceeds the qualified stated interest allocable to the period (\$0) and, therefore, E does not have interest income for this accrual period. However, under § 1.171-2(a)(4)(i)(A), E may deduct as bond premium \$958.81, the excess of the bond premium allocable to the accrual period (\$958.81) over the qualified stated interest allocable to the accrual period (\$0). For the accrual period ending on March 1, 2002, the bond premium allocable to the accrual period (\$1,055.82) exceeds the qualified stated interest allocable to the accrual period (\$0) and, therefore, E does not have interest income for the accrual period. Under § 1.171-2(a)(4)(i)(A), E's deduction for bond premium for the accrual period is limited to \$170.48, the excess of E's total interest inclusions on the bond in prior accrual periods (\$1,129.29) over the total amount treated by E as a bond premium deduction in prior accrual periods (\$958.81). Under § 1.171-2(a)(4)(i)(B), E must carry forward the remaining \$885.34 of bond premium allocable to the period ending March 1, 2002, and treat it as bond premium allocable to the period ending March 1, 2003. The amount E includes in income for each accrual period is shown in the following schedule:

Accrual period ending	Qualified stated interest	Premium allocable to accrual period	Interest income	Premium deduction	Premium carryforward
3/1/00	\$2,000.00	\$870.71	\$1,129.29
3/1/01	0.00	958.81	0.00	\$958.81
3/1/02	0.00	1,055.82	0.00	170.48	\$885.34
3/1/03	10,000.00	1,162.64	7,951.93
3/1/04	8,000.00	1,280.27	6,719.73
3/1/05	12,000.00	1,409.80	10,590.20
3/1/06	15,000.00	1,552.44	13,447.56
3/1/07	8,500.00	1,709.51	6,790.49
		10,000.00

Example 2. Partial call that results in a pro-rata prepayment. (i) *Facts.* On April 1, 1999, M purchases for \$110,000 N's taxable bond maturing on April 1, 2006, with a stated principal amount of \$100,000, payable at maturity. The bond provides for unconditional payments of interest of \$10,000, payable on April 1 of each year. N has the option to call all or part of the bond on April 1, 2001, at a 5 percent premium over the principal amount. M uses the cash receipts and disbursements method of accounting.

(ii) *Determination of yield and the remaining payment schedule.* M's yield determined without regard to the call option is 8.07 percent, compounded annually. M's yield determined by assuming N exercises its call option is 6.89 percent, compounded annually. Under paragraph (c)(4)(ii)(A) of this section, it is assumed N will not exercise the call option because exercising the option would minimize M's yield. Thus, for purposes of determining and amortizing bond premium, the bond is

assumed to be a seven-year bond with a single principal payment at maturity of \$100,000.

(iii) *Amount of bond premium.* The interest payments on the bond are qualified stated interest. Therefore, the sum of all amounts payable on the bond (other than the interest payments) is \$100,000. Under § 1.171-1, the amount of bond premium is \$10,000 (\$110,000 - \$100,000).

(iv) *Bond premium allocable to the first two accrual periods.* For the accrual period ending on April 1, 2000, M includes in income \$8,881.83, the qualified stated interest allocable to the period (\$10,000) offset with bond premium allocable to the period (\$1,118.17). The adjusted acquisition price on April 1, 2000, is \$108,881.83 (\$110,000 - \$1,118.17). For the accrual period ending on April 1, 2001, M includes in income \$8,791.54, the qualified stated interest allocable to the period (\$10,000) offset with bond premium allocable to the period (\$1,208.46). The adjusted acquisition price on April 1, 2001, is \$107,673.37 (\$108,881.83 - \$1,208.46).

(v) *Partial call.* Assume N calls one-half of M's bond for \$52,500 on April 1, 2001. Because it was assumed the call would not be exercised, the call is a change in circumstances. However, the partial call is also a pro-rata prepayment within the meaning of § 1.1275-2(f)(2). As a result, the call is treated as a retirement of one-half of the bond. Under paragraph (c)(5)(ii) of this section, M may deduct \$1,336.68, the excess of its adjusted acquisition price in the retired portion of the bond (\$107,673.37/2, or \$53,836.68) over the amount received on redemption (\$52,500). M's adjusted basis in the portion of the bond that remains outstanding is \$53,836.68 (\$107,673.37 - \$53,836.68).

[T.D. 8746, 62 FR 68180, Dec. 31, 1997, as amended by T.D. 8838, 64 FR 48547, Sept. 7, 1999; T.D. 9609, 78 FR 668, Jan. 4, 2013; T.D. 9653, 79 FR 2591, Jan. 15, 2014]

§ 1.171-4 Election to amortize bond premium on taxable bonds.

(a) *Time and manner of making the election—(1) In general.* A holder makes the election to amortize bond premium by offsetting interest income with bond premium in the holder's timely filed federal income tax return for the first taxable year to which the holder desires the election to apply. The holder should attach to the return a statement that the holder is making the election under this section.

(2) *Coordination with OID election.* If a holder makes an election under § 1.1272-3 for a bond with bond premium, the holder is deemed to have made the election under this section.

(b) *Scope of election.* The election under this section applies to all taxable bonds held during or after the taxable year for which the election is made.

(c) *Election to amortize made in a subsequent taxable year—(1) In general.* If a holder elects to amortize bond premium and holds a taxable bond acquired before the taxable year for which the election is made, the holder may not amortize amounts that would have been amortized in prior taxable years had an election been in effect for those prior years.

(2) *Example.* The following example illustrates the rule of this paragraph (c):

Example. (i) *Facts.* On May 1, 1999, C purchases for \$130,000 a taxable bond maturing on May 1, 2006, with a stated principal amount of \$100,000, payable at maturity. The bond provides for unconditional payments of interest of \$15,000, payable on May 1 of each year. C uses the cash receipts and disbursements method of accounting and the calendar year as its taxable year. C has not previously elected to amortize bond premium, but does so for 2002.

(ii) *Amount to amortize.* C's basis for determining loss on the sale or exchange of the bond is \$130,000. Thus, under § 1.171-1, the amount of bond premium is \$30,000. Under § 1.171-2, if a bond premium election were in effect for the prior taxable years, C would have amortized \$3,257.44 of bond premium on May 1, 2000, and \$3,551.68 of bond premium on May 1, 2001, based on annual accrual periods ending on May 1. Thus, for 2002 and future years to which the election applies, C may amortize only \$23,190.88 (\$30,000 - \$3,257.44 - \$3,551.68).

(d) *Revocation of election.* The election under this section may not be revoked unless approved by the Commissioner. Because a revocation of the election is a change in accounting method, a taxpayer must follow the rules under § 1.446-1(e)(3)(i) to request the Commissioner's consent to revoke the election. A revocation of the election applies to all taxable bonds held during or after the taxable year for which the revocation is effective. The holder may not amortize any remaining bond premium on bonds held at the beginning of the taxable year for which the revocation is effective. Therefore, no adjustment under section 481 is allowed upon the revocation of the election because no

Internal Revenue Service, Treasury

§ 1.172-1

items of income or deduction are omitted or duplicated.

[T.D. 8746, 62 FR 68182, Dec. 31, 1997]

§ 1.171-5 Effective date and transition rules.

(a) *Effective date*—(1) *In general.* Sections 1.171-1 through 1.171-4 apply to bonds acquired on or after March 2, 1998. However, if a holder makes the election under § 1.171-4 for the taxable year containing March 2, 1998, or any subsequent taxable year, §§ 1.171-1 through 1.171-4 apply to bonds held on or after the first day of the taxable year in which the election is made.

(2) *Transition rule for use of constant yield.* Notwithstanding paragraph (a)(1) of this section, § 1.171-2(a)(3) (providing that the bond premium allocable to an accrual period is determined with reference to a constant yield) does not apply to a bond issued before September 28, 1985.

(b) *Coordination with existing election.* A holder is deemed to have made the election under § 1.171-4 for the taxable year containing March 2, 1998, if the holder elected to amortize bond premium under section 171 and that election is effective on March 2, 1998. If the holder is deemed to have made the election under § 1.171-4 for the taxable year containing March 2, 1998, §§ 1.171-1 through 1.171-4 apply to bonds acquired on or after the first day of that taxable year. See § 1.171-4(d) for rules relating to a revocation of an election under section 171.

(c) *Accounting method changes*—(1) *Consent to change.* A holder required to change its method of accounting for bond premium to comply with §§ 1.171-1 through 1.171-3 must secure the consent of the Commissioner in accordance with the requirements of § 1.446-1(e). Paragraph (c)(2) of this section provides the Commissioner's automatic consent for certain changes. A holder making the election under § 1.171-4 does not need the Commissioner's consent to make the election.

(2) *Automatic consent.* The Commissioner grants consent for a holder to change its method of accounting for bond premium with respect to taxable bonds to which §§ 1.171-1 through 1.171-3 apply. Because this change is made on a cut-off basis, no items of income

or deduction are omitted or duplicated and, therefore, no adjustment under section 481 is allowed. The consent granted by this paragraph (c)(2) applies provided—

(i) The holder elected to amortize bond premium under section 171 for a taxable year prior to the taxable year containing March 2, 1998, and that election has not been revoked;

(ii) The change is made for the first taxable year for which the holder must account for a bond under §§ 1.171-1 through 1.171-3; and

(iii) The holder attaches to its return for the taxable year containing the change a statement that it has changed its method of accounting under this section.

[T.D. 8746, 62 FR 68182, Dec. 31, 1997]

§ 1.172-1 Net operating loss deduction.

(a) *Allowance of deduction.* Section 172(a) allows as a deduction in computing taxable income for any taxable year subject to the Code the aggregate of the net operating loss carryovers and net operating loss carrybacks to such taxable year. This deduction is referred to as the net operating loss deduction. The net operating loss is the basis for the computation of the net operating loss carryovers and net operating loss carrybacks and ultimately for the net operating loss deduction itself. The net operating loss deduction shall not be disallowed for any taxable year merely because the taxpayer has no income from a trade or business for the taxable year.

(b) *Steps in computation of net operating loss deduction.* The three steps to be taken in the ascertainment of the net operating loss deduction for any taxable year subject to the Code are as follows:

(1) Compute the net operating loss for any preceding or succeeding taxable year from which a net operating loss may be carried over or carried back to such taxable year.

(2) Compute the net operating loss carryovers to such taxable year from such preceding taxable years and the net operating loss carrybacks to such taxable year from such succeeding taxable years.

(3) Add such net operating loss carryovers and carrybacks in order to

determine the net operating loss deduction for such taxable year.

(c) *Statement with tax return.* Every taxpayer claiming a net operating loss deduction for any taxable year shall file with his return for such year a concise statement setting forth the amount of the net operating loss deduction claimed and all material and pertinent facts relative thereto, including a detailed schedule showing the computation of the net operating loss deduction.

(d) *Ascertainment of deduction dependent upon net operating loss carryback.* If the taxpayer is entitled in computing his net operating loss deduction to a carryback which he is not able to ascertain at the time his return is due, he shall compute the net operating loss deduction on his return without regard to such net operating loss carryback. When the taxpayer ascertains the net operating loss carryback, he may within the applicable period of limitations file a claim for credit or refund of the overpayment, if any, resulting from the failure to compute the net operating loss deduction for the taxable year with the inclusion of such carryback; or he may file an application under the provisions of section 6411 for a tentative carryback adjustment.

(e) *Law applicable to computations.* (1) In determining the amount of any net operating loss carryback or carryover to any taxable year, the necessary computations involving any other taxable year shall be made under the law applicable to such other taxable year.

(2) The net operating loss for any taxable year shall be determined under the law applicable to that year without regard to the year to which it is to be carried and in which, in effect, it is to be deducted as part of the net operating loss deduction.

(3) The amount of the net operating loss deduction which shall be allowed for any taxable year shall be determined under the law applicable to that year.

(f) *Electing small business corporations.* In determining the amount of the net operating loss deduction of any corporation, there shall be disregarded the net operating loss of such corporation for any taxable year for which such

corporation was an electing small business corporation under subchapter S (section 1371 and following), chapter 1 of the Code. In applying section 172(b)(1) and (2) to a net operating loss sustained in a taxable year in which the corporation was not an electing small business corporation, a taxable year in which the corporation was an electing small business corporation is counted as a taxable year to which such net operating loss is carried back or over. However, the taxable income for such year as determined under section 172(b)(2) is treated as if it were zero for purposes of computing the balance of the loss available to the corporation as a carryback or carryover to other taxable years in which the corporation is not an electing small business corporation. See section 1374 and the regulations thereunder for allowance of a deduction to shareholders for a net operating loss sustained by an electing small business corporation.

(g) *Husband and wife.* The net operating loss deduction of a husband and wife shall be determined in accordance with this section, but subject also to the provisions of § 1.172-7.

[T.D. 6500, 25 FR 11402, Nov. 26, 1960, as amended by T.D. 8107, 51 FR 43345, Dec. 2, 1986]

§ 1.172-2 Net operating loss in case of a corporation.

(a) *Modification of deductions.* A net operating loss is sustained by a corporation in any taxable year if and to the extent that, for such year, there is an excess of deductions allowed by chapter 1 of the Code over gross income computed thereunder. In determining the excess of deductions over gross income for such purpose—

(1) *Items not deductible.* No deduction shall be allowed under—

(i) Section 172 for the net operating loss deduction, and

(ii) Section 922 in respect of Western Hemisphere trade corporations;

(2) *Dividends received.* The 85-percent limitation provided by section 246(b) shall not apply to the deductions otherwise allowed under—

(i) Section 243(a) in respect of dividends received from domestic corporations.

(ii) Section 244 in respect of dividends received on preferred stock of public utilities, and

(iii) Section 245 in respect of dividends received from foreign corporations; and

(3) *Dividends paid.* The deduction granted by section 247 in respect of dividends paid on the preferred stock of public utilities shall be computed without regard to subsection (a)(1)(B) of Section 247.

(b) *Example.* The following example illustrates the application of paragraph (a):

Example. For the calendar year 1981, the X corporation has a gross income of \$400,000 and total deductions allowed by chapter 1 of the Code of \$375,000 exclusive of any net operating loss deduction and exclusive of any deduction for dividends received or paid. Corporation X in 1981 received \$100,000 of dividends entitled to the benefits of section 243(a). These dividends are included in Corporation X's \$400,000 gross income. Corporation X has no other deductions to which section 172(d) applies. On the basis of these facts, Corporation X has a net operating loss for the year 1981 of \$60,000, computed as follows:

Deductions for 1981	\$375,000
Plus: Deduction for dividends received, computed without regard to the limitation provided in section 246(b) (85% of \$100,000)	85,000
Total	460,000
Less: Gross income for 1981 (including \$100,000 dividends)	400,000
Net operating loss for 1981	60,000

(c) *Qualified real estate investment trusts.* For taxable years ending after October 4, 1976, the net operating loss of a qualified real estate investment trust (as defined in § 1.172-10(b)) is computed by taking into account the adjustments described in section 857(b)(2) (other than the deduction for dividends paid, as defined in section 561), as well as the modifications required by paragraph (a)(1) of this section. Thus, for example, the special deductions for dividends received, etc., provided in part VIII of subchapter B (other than section 248), as well as the net operating loss deduction under section 172, are not allowed in computing the net operating loss of a qualified real estate investment trust.

[T.D. 8107, 51 FR 43345, Dec. 2, 1986]

§ 1.172-3 Net operating loss in case of a taxpayer other than a corporation.

(a) *Modification of deductions.* A net operating loss is sustained by a taxpayer other than a corporation in any taxable year if and to the extent that, for such year there is an excess of deductions allowed by chapter 1 of the Internal Revenue Code over gross income computed thereunder. In determining the excess of deductions over gross income for such purpose:

(1) *Items not deductible.* No deduction shall be allowed under:

(i) Section 151 for the personal exemptions or under any other section which grants a deduction in lieu of the deductions allowed by section 151.

(ii) Section 172 for the net operating loss deduction, and

(iii) Section 1202 in respect of the net long-term capital gain.

(2) *Capital losses.* (i) The amount deductible on account of business capital losses shall not exceed the sum of the amount includible on account of business capital gains and that portion of nonbusiness capital gains which is computed in accordance with paragraph (c) of this section.

(ii) The amount deductible on account of nonbusiness capital losses shall not exceed the amount includible on account of nonbusiness capital gains.

(3) *Nonbusiness deductions*—(i) *Ordinary deductions.* Ordinary nonbusiness deductions shall be taken into account without regard to the amount of business deductions and shall be allowed in full to the extent, but not in excess, of that amount which is the sum of the ordinary nonbusiness gross income and the excess of nonbusiness capital gains over nonbusiness capital losses. See paragraph (c) of this section. For purposes of section 172, nonbusiness deductions and income are those deductions and that income which are not attributable to, or derived from, a taxpayer's trade or business. Wages and salary constitute income attributable to the taxpayer's trade or business for such purposes.

(ii) *Sale of business property.* Any gain or loss on the sale or other disposition of property which is used in the taxpayer's trade or business and which is

of a character that is subject to the allowance for depreciation provided in section 167, or of real property used in the taxpayer's trade or business, shall be considered, for purposes of section 172(d)(4), as attributable to, or derived from, the taxpayer's trade or business. Such gains and losses are to be taken into account fully in computing a net operating loss without regard to the limitation on nonbusiness deductions. Thus, a farmer who sells at a loss land used in the business of farming may, in computing a net operating loss, include in full the deduction otherwise allowable with respect to such loss, without regard to the amount of his nonbusiness income and without regard to whether he is engaged in the trade or business of selling farms. Similarly, an individual who sells at a loss machinery which is used in his trade or business and which is of a character that is subject to the allowance for depreciation may, in computing the net operating loss, include in full the deduction otherwise allowable with respect to such loss.

(iii) *Casualty losses.* Any deduction allowable under section 165(c)(3) for losses of property not connected with a trade or business shall not be considered, for purposes of section 172(d)(4), to be a nonbusiness deduction but shall be treated as a deduction attributable to the taxpayer's trade or business.

(iv) *Self-employed retirement plans.* Any deduction allowed under section 404, relating to contributions of an employer to an employees' trust or annuity plan, or under section 405(c), relating to contributions to a bond purchase plan, to the extent attributable to contributions made on behalf of an individual while he is an employee within the meaning of section 401(c)(1), shall not be treated, for purposes of section 172(d)(4), as attributable to, or derived from, the taxpayer's trade or business, but shall be treated as a nonbusiness deduction.

(v) *Limitation.* The provisions of this subparagraph shall not be construed to permit the deduction of items disallowed by subparagraph (1) of this paragraph.

(b) *Treatment of capital loss carryovers.* Because of the distinction between business and nonbusiness capital gains

and losses, a taxpayer who has a capital loss carryover from a preceding taxable year, includible by virtue of section 1212 among the capital losses for the taxable year in issue, is required to determine how much of such capital loss carryover is a business capital loss and how much is a nonbusiness capital loss. In order to make this determination, the taxpayer shall first ascertain what proportion of the net capital loss for such preceding taxable year was attributable to an excess of business capital losses over business capital gains for such year, and what proportion was attributable to an excess of nonbusiness capital losses over nonbusiness capital gains. The same proportion of the capital loss carryover from such preceding taxable year shall be treated as a business capital loss and a nonbusiness capital loss, respectively. In order to determine the composition (business—nonbusiness) of a net capital loss for a taxable year, for purposes of this paragraph, if such net capital loss is computed under paragraph (b) of § 1.1212-1 and takes into account a capital loss carryover from a preceding taxable year, the composition (business—nonbusiness) of the net capital loss for such preceding taxable year must also be determined. For purposes of this paragraph, the term *capital loss carryover* means the sum of the short-term and long-term capital loss carryovers from such year. This paragraph may be illustrated by the following examples:

Example 1. (i) A, an individual, has \$5,000 ordinary taxable income (computed without regard to the deductions for personal exemptions) for the calendar year 1954 and also has the following capital gains and losses for such year: Business capital gains of \$2,000; business capital losses of \$3,200; nonbusiness capital gains of \$1,000; and nonbusiness capital losses of \$1,200.

(ii) A's net capital loss for the taxable year 1954 is \$400, computed as follows:

Capital losses	\$4,400
Capital gains	3,000
Excess of capital losses over capital gains	1,400
Less: \$1,000 of such ordinary taxable income	1,000
Net capital loss for 1954	400

(iii) A's capital losses for 1954 exceeded his capital gains for such year by \$1,400. Since A's business capital losses for 1954 exceeded his business capital gains for such year by

Internal Revenue Service, Treasury

§ 1.172-3

\$1,200, 6/7ths (\$1,200/\$1,400) of A's net capital loss for 1954 is attributable to an excess of his business capital losses over his business capital gains for such year. Similarly, 1/7th of the net capital loss is attributable to the excess of nonbusiness capital losses over nonbusiness capital gains. Since the capital loss carryover for 1954 to 1955 is \$400, 6/7ths of \$400, or \$342.86, shall be treated as a business capital loss in 1955; and 1/7th of \$400, or \$57.14, as a nonbusiness capital loss.

Example 2. (i) A, an individual who is computing a net operating loss for the calendar year 1966, has a capital loss carryover from 1965 of \$8,000. In order to apply the provisions of this paragraph, A must determine what portion of the \$8,000 carryover is attributable to the excess of business capital losses over business capital gains and what portion thereof is attributable to the excess of nonbusiness capital losses over nonbusiness capital gains. For 1965, A had \$10,000 ordinary taxable income (computed without regard to the deductions for personal exemptions), and a short-term capital loss carryover of \$6,000 from 1964. In order to determine the composition (business-nonbusiness) of the \$8,000 carryover from 1965, A first determines that of the \$6,000 carryover from 1964, \$5,000 is a business capital loss and \$1,000 is a nonbusiness capital loss. This must be done since, under paragraph (b) of § 1.1212-1, the net capital loss for 1965 is computed by taking into account the capital loss carryover from 1964. A's capital gains and losses for 1965 are as follows:

	1965	Carried over from 1964
Business capital gains	\$2,000	0
Business capital losses	3,000	\$5,000
Nonbusiness capital gains	4,000	0
Nonbusiness capital losses	6,000	1,000

(ii) A's net capital loss for the taxable year 1965 is \$8,000, computed as follows:

Capital losses (including carryovers)	\$15,000
Capital gains	6,000
Excess of capital losses over capital gains	9,000
Less: \$1,000 of such ordinary taxable income	1,000
Net capital loss for 1965	8,000

(iii) A's capital losses, including carryovers, for 1965 exceeded his capital gains for such year by \$9,000. Since A's business capital losses for 1965 exceeded his business capital gains for such year by \$6,000, 2/3rds (\$6,000/\$9,000) of A's net capital loss for 1965 is attributable to an excess of his business capital losses over his business capital gains for such year. Similarly, 1/3rd of the net capital loss is attributable to the excess of nonbusiness capital losses over nonbusiness capital gains. Since the total capital loss carryover from 1965 to 1966 is \$8,000, 2/3rds of \$8,000, or \$5,333.33, shall be treated as

a business capital loss in 1966; and 1/3rd of \$8,000, or \$2,666.67, as a nonbusiness capital loss.

(c) *Determination of portion of nonbusiness capital gains available for the deduction of business capital losses.* In the computation of a net operating loss a taxpayer other than a corporation must use his nonbusiness capital gains for the deduction of his nonbusiness capital losses. Any amount not necessary for this purpose shall then be used for the deduction of any excess of ordinary nonbusiness deductions over ordinary nonbusiness gross income. The remainder, computed by applying the excess ordinary nonbusiness deductions against the excess nonbusiness capital gains, shall be treated as nonbusiness capital gains and used for the purpose of determining the deductibility of business capital losses under paragraph (a)(2)(i) of this section. This principle may be illustrated by the following example:

Example. (1) A, an individual, has a total nonbusiness gross income of \$20,500, computed as follows:

Ordinary gross income	\$7,500
Capital gains	13,000
Total gross income	20,500

(2) A also has total nonbusiness deductions of \$16,000, computed as follows:

Ordinary deductions	\$9,000
Capital loss	7,000
Total deductions	16,000

(3) The portion of nonbusiness capital gains to be used for the purpose of determining the deductibility of business capital losses is \$4,500, computed as follows:

Nonbusiness capital gains	\$13,000
Less: Nonbusiness capital loss	7,000
Excess to be taken into account for purposes of paragraph (a)(3)(i) of this section	6,000
Ordinary nonbusiness deductions	\$9,000
Less: Ordinary nonbusiness gross income	7,500
	1,500

Portion of nonbusiness capital gains to be used for purposes of paragraph (a)(2)(i) of this section	4,500
---	-------

(d) *Joint net operating loss of husband and wife.* In the case of a husband and wife, the joint net operating loss for any taxable year for which a joint return is filed is to be computed on the

§ 1.172-4

26 CFR Ch. I (4-1-17 Edition)

basis of the combined income and deductions of both spouses, and the modifications prescribed in paragraph (a) of this section are to be computed as if the combined income and deductions of both spouses were the income and deductions of one individual.

(e) *Illustration of computation of net operating loss of a taxpayer other than a corporation*—(1) *Facts*. For the calendar year 1954 A, an individual, has gross income of \$483,000 and allowable deductions of \$540,000. The latter amount does not include the net operating loss deduction or any deduction on account of the sale or exchange of capital assets. Included in gross income are business capital gains of \$50,000 and ordinary nonbusiness income of \$10,000. Included among the deductions are ordinary nonbusiness deductions of \$12,000 and a deduction of \$600 for his personal exemption. A has a business capital loss of \$60,000 in 1954. A has no other items of income or deductions to which section 172(d) applies.

(2) *Computation*. On the basis of these facts, A has a net operating loss for 1954 of \$104,400, computed as follows:

Deductions for 1954 (as specified in first sentence of subparagraph (1))	\$540,000
Plus: Amount of business capital loss (\$60,000) to extent such amount does not exceed business capital gains (\$50,000)	50,000
Total	590,000
Less: Excess of ordinary nonbusiness deductions over ordinary nonbusiness gross income (\$12,000 minus \$10,000)	\$2,000
Deduction for personal exemption	600
	\$2,600
Deductions for 1954 adjusted as required by section 172(d)	587,400
Gross income for 1954	483,000
Net operating loss for 1954	104,400

[T.D. 6500, 25 FR 11402, Nov. 26, 1960, as amended by T.D. 6828, 30 FR 7805, June 17, 1965; T.D. 6862, 30 FR 14427, Nov. 18, 1965; T.D. 8107, 51 FR 43345, Dec. 2, 1986]

§ 1.172-4 Net operating loss carrybacks and net operating loss carryovers.

(a) *General provisions*—(1) *Years to which loss may be carried*—(i) *In general*. In order to compute the net operating loss deduction the taxpayer must first determine the part of any net operating losses for any preceding or succeeding taxable years which are

carrybacks or carryovers to the taxable year in issue.

(ii) *General rule for carrybacks and carryovers*. Except as provided in section 172 (b)(1)(C), (D), (E), (F), (G), (H), (I), and (J), paragraphs (a)(1)(iii), (iv), (v), and (vi) of this section, and § 1.172-10(a), a net operating loss shall be carried back to the 3 preceding taxable years and carried over to the 15 succeeding taxable years (5 succeeding taxable years for a loss sustained in a taxable year ending before January 1, 1976).

(iii) *Loss of a regulated transportation corporation*. Except as provided in subdivision (iv) of this subparagraph and § 1.172-10(a), a net operating loss sustained by a taxpayer which is a regulated transportation corporation (as defined in section 172(g)(1)) in a taxable year ending before January 1, 1976, shall, subject to the provisions of section 172(g) and § 1.172-8, be carried back to the taxable years specified in paragraph (a)(1)(ii) of this section and shall be carried over to the 7 succeeding taxable years.

(iv) *Loss attributable to foreign expropriation*. If the provisions of section 172(b)(3)(A) and § 1.172-9 are satisfied, the portion of a net operating loss attributable to a foreign expropriation loss (as defined in section 172(h)) shall not be a net operating loss carryback to any taxable year preceding the taxable year of such loss and shall be a net operating loss carryover to each of the 10 taxable years following the taxable year of such loss.

(v) *Loss of a financial institution*. A net operating loss sustained in a taxable year beginning after December 31, 1975, by a taxpayer to which section 585, 586, or 593 applies shall be carried back (except as provided in § 1.172-10(a)) to the 10 preceding taxable years and shall be carried over to the 5 succeeding taxable years.

(vi) *Loss of a Bank for Cooperatives*. A net operating loss sustained by a taxpayer which is a Bank for Cooperatives (organized and chartered pursuant to section 2 of the Farm Credit Act of 1933 (12 U.S.C. 1134)) shall be carried back (except as provided in § 1.172-10(a)) to the 10 preceding taxable years and shall be carried over to the 5 succeeding taxable years.

(2) *Periods of less than 12 months.* A fractional part of a year which is a taxable year under sections 441(b) and 7701(a)(23) is a preceding or a succeeding taxable year for the purpose of determining under section 172 the first, second, etc., preceding or succeeding taxable year.

(3) *Amount of loss to be carried.* The amount which is carried back or carried over to any taxable year is the net operating loss to the extent it was not absorbed in the computation of the taxable (or net) income for other taxable years, preceding such taxable year, to which it may be carried back or carried over. For the purpose of determining the taxable (or net) income for any such preceding taxable year, the various net operating loss carryovers and carrybacks to such taxable year are considered to be applied in reduction of the taxable (or net) income in the order of the taxable years from which such losses are carried over or carried back, beginning with the loss for the earliest taxable year.

(4) *Husband and wife.* The net operating loss carryovers and carrybacks of a husband and wife shall be determined in accordance with this section, but subject also to the provisions of § 1.172-7.

(5) *Corporate acquisitions.* For the computation of the net operating loss carryovers in the case of certain acquisitions of the assets of a corporation by another corporation, see section 381 and the regulations thereunder.

(6) *Special limitations.* For special limitations on the net operating loss carryovers in certain cases of change in both the ownership and the trade or business of a corporation and in certain cases of corporate reorganization lacking specified continuity of ownership, see section 382 and the regulations thereunder.

(7) *Electing small business corporations.* For special rule applicable to corporations which were electing small business corporations under Subchapter S (section 1361 and following), chapter 1 of the Code, during one or more of the taxable years described in section 172 (b)(1), see paragraph (f) of § 1.172-1.

(b) *Portion of net operating loss which is a carryback or a carryover to the taxable year in issue.* (1) A net operating

loss shall first be carried to the earliest of the several taxable years for which such loss is allowable as a carryback or a carryover, and shall then be carried to the next earliest of such several taxable years, etc. Except as provided in § 1.172-9, the entire net operating loss shall be carried back to such earliest year.

(2) The portion of the loss which shall be carried to any of such several taxable years subsequent to the earliest taxable year is the excess of such net operating loss over the sum of the taxable incomes (computed as provided in § 1.172-5) for all of such several taxable years preceding such subsequent taxable year.

(3) If a portion of the net operating loss for a taxable year is attributable to a foreign expropriation loss (as defined in section 172(h)) and if an election under paragraph (c) of § 1.172-9 is made with respect to such portion of the net operating loss, then see § 1.172-9 for the separate treatment of such portion of the net operating loss.

(c) *Illustration.* The principles of this section are illustrated in § 1.172-6.

[T.D. 6500, 25 FR 11402, Nov. 26, 1960, as amended by T.D. 8107, 51 FR 43345, Dec. 2, 1986]

§ 1.172-5 Taxable income which is subtracted from net operating loss to determine carryback or carryover.

(a) *Taxable year subject to the Internal Revenue Code of 1954.* The taxable income for any taxable year subject to the Internal Revenue Code of 1954 which is subtracted from the net operating loss for any other taxable year to determine the portion of such net operating loss which is a carryback or a carryover to a particular taxable year is computed with the modifications prescribed in this paragraph. These modifications shall be made independently of, and without reference to, the modifications required by §§ 1.172-2(a) and 1.172-3(a) for purposes of computing the net operating loss itself.

(1) *Modifications applicable to unincorporated taxpayers only.* In the case of a taxpayer other than a corporation, in computing taxable income and adjusted gross income:

§ 1.172-5

26 CFR Ch. I (4-1-17 Edition)

(i) No deduction shall be allowed under section 151 for the personal exemptions (or under any other section which grants a deduction in lieu of the deductions allowed by section 151) and under section 1202 in respect of the net long-term capital gain.

(ii) The amount deductible on account of losses from sales or exchanges of capital assets shall not exceed the amount includible on account of gains from sales or exchanges of capital assets.

(2) *Modifications applicable to all taxpayers.* In the case either of a corporation or of a taxpayer other than a corporation:

(i) *Net operating loss deduction.* The net operating loss deduction for such taxable year shall be computed by taking into account only such net operating losses otherwise allowable as carrybacks or carryovers to such taxable year as were sustained in taxable years preceding the taxable year in which the taxpayer sustained the net operating loss from which the taxable income is to be deducted. Thus, for such purposes, the net operating loss for the loss year or any taxable year thereafter shall not be taken into account.

Example. The taxpayer's income tax returns are made on the basis of the calendar year. In computing the net operating loss deduction for 1954, the taxpayer has a carryover from 1952 of \$9,000, a carryover from 1953 of \$6,000, a carryback from 1955 of \$18,000, and a carryback from 1956 of \$10,000, or an aggregate of \$43,000 in carryovers and carrybacks. Thus, the net operating loss deduction for 1954, for purposes of determining the tax liability for 1954, is \$43,000. However, in computing the taxable income for 1954 which is subtracted from the net operating loss for 1955 for the purpose of determining the portion of such loss which may be carried over to subsequent taxable years, the net operating loss deduction for 1954 is \$15,000, that is, the aggregate of the \$9,000 carryover from 1952 and the \$6,000 carryover from 1953. In computing the net operating loss deduction for such purpose, the \$18,000 carryback from 1955 and the \$10,000 carryback from 1956 are disregarded. In computing the taxable income for 1954, however, which is subtracted from the net operating loss for 1956 for the purpose of determining the portion of such loss which may be carried over to subsequent taxable years, the net operating loss deduction for 1954 is \$33,000, that is, the aggregate of the \$9,000 carryover from 1952, the \$6,000

carryover from 1953, and the \$18,000 carryback from 1955. In computing the net operating loss deduction for such purpose, the \$10,000 carryback from 1956 is disregarded.

(ii) *Recomputation of percentage limitations.* Unless otherwise specifically provided in this subchapter, any deduction which is limited in amount to a percentage of the taxpayer's taxable income or adjusted gross income shall be recomputed upon the basis of the taxable income or adjusted gross income, as the case may be, determined with the modifications prescribed in this paragraph. Thus, in the case of an individual the deduction for medical expenses would be recomputed after making all the modifications prescribed in this paragraph, whereas the deduction for charitable contributions would be determined without regard to any net operating loss carryback but with regard to any other modifications so prescribed. See, however, the regulations under paragraph (g) of § 1.170-2 (relating to charitable contributions carryover of individuals) and paragraph (c) of § 1.170-3 (relating to charitable contributions carryover of corporations) for special rules regarding charitable contributions in excess of the percentage limitations which may be treated as paid in succeeding taxable years.

Example 1. For the calendar year 1954 the taxpayer, an individual, files a return showing taxable income of \$4,800, computed as follows:

Salary	\$5,000
Net long-term capital gain	4,000
Total gross income	9,000
Less: Deduction allowed by section 1202 in respect of net long-term capital gain	2,000
Adjusted gross income	7,000
Less:	
Deduction for personal exemption	\$600
Deduction for medical expense (\$410 actually paid but allowable only to extent in excess of 3 percent of adjusted gross income)	200
Deduction for charitable contributions (\$2,000 actually paid but allowable only to extent not in excess of 20 percent of adjusted gross income)	\$1,400
	\$2,200
Taxable income	4,800

Internal Revenue Service, Treasury

§ 1.172-5

In 1955 the taxpayer undertakes the operation of a trade or business and sustains therein a net operating loss of \$3,000. Under section 172(b)(2), it is determined that the entire \$3,000 is a carryback to 1954. In 1956 he sustains a net operating loss of \$10,000 in the operation of the business. In determining the amount of the carryover of the 1956 loss to 1957, the taxable income for 1954 as computed under this paragraph is \$3,970, determined as follows:

Salary	\$5,000
Net long-term capital gain	4,000
Total gross income	9,000
Less: Deduction for carryback of 1955 net operating loss	3,000
Adjusted gross income	6,000
Less:	
Deduction for medical expense (\$410 actually paid but allowable only to extent in excess of 3 percent of adjusted gross income as modified under this paragraph)	\$230
Deduction for charitable contributions (\$2,000 actually paid but allowable only to extent not in excess of 20 percent of adjusted gross income determined with all the modifications prescribed in this paragraph other than the net operating loss carryback)	1,800
	2,030
Taxable income	3,970

Example 2. For the calendar year 1959 the taxpayer, an individual, files a return showing taxable income of \$5,700, computed as follows:

Salary	\$5,000
Net long-term capital gain	4,000
Total gross income	9,000
Less: Deduction allowed by section 1202 in respect of net long-term capital gain	2,000
Adjusted gross income	7,000
Less:	
Deduction for personal exemption	\$600
Standard deduction allowed by section 141	\$700
	\$1,300
Taxable income	5,700

In 1960 the taxpayer undertakes the operation of a trade or business and sustains therein a net operating loss of \$4,700. In 1961 he sustains a net operating loss of \$10,000 in the operation of the business. Under section 172(b)(2), it is determined that the entire amount of each loss, \$4,700 and \$10,000, is a carryback to 1959. In determining the amount of the carryover of the 1961 loss to 1962, the taxable income for 1959 as computed

under this paragraph is \$3,870, determined as follows:

Salary	\$5,000
Net long-term capital gain	4,000
Total gross income	9,000
Less: Deduction for carryback of 1960 net operating loss	4,700
Adjusted gross income	4,300
Less: Standard deduction	430
Taxable income	3,870

(iii) *Minimum limitation.* The taxable income, as modified under this paragraph, shall in no case be considered less than zero.

(3) *Electing small business corporations.* For special rule applicable to corporations which were electing small business corporations under Subchapter S (section 1361 and following), Chapter 1 of the Code, during one or more of the taxable years described in section 172(b)(1), see paragraph (f) of § 1.172-1.

(4) *Qualified real estate investment trust.* Where a net operating loss is carried over to a qualified taxable year (as defined in § 1.172-10(b)) ending after October 4, 1976, the real estate investment trust taxable income (as defined in section 857(b)(2)) shall be used as the "taxable income" for that taxable year to determine, under section 172(b)(2), the balance of the net operating loss available as a carryover to a subsequent taxable year. The real estate investment trust taxable income, however, is computed by applying the rules applicable to corporations in paragraph (a)(2) of this section. Thus, in computing real estate investment trust taxable income for purposes of section 172(b)(2), the net operating loss deduction for the taxable year shall be computed in accordance with paragraph (a)(2)(i) of this section. The principles of this subparagraph may be illustrated by the following examples:

Example 1. Corporation X, a calendar year taxpayer, is formed on January 1, 1977. X incurs a net operating loss of \$100,000 for its taxable year 1977, which under section 172(b)(2), is a carryover to 1978. For 1978 X is a qualified real estate investment trust (as defined in § 1.172-10(b)) and has real estate investment trust taxable income (determined without regard to the deduction for dividends paid or the net operating loss deduction) of \$150,000, all of which consists of ordinary income. X pays dividends in 1978 totaling \$120,000 that qualify for the deduction for

§ 1.172-6

26 CFR Ch. I (4-1-17 Edition)

dividends paid under section 857(b)(2)(B). The portion of the 1977 net operating loss available as a carryover to 1979 and subsequent years is \$70,000 (i.e., the excess of the amount of the net operating loss (\$100,000) over the amount of the real estate investment trust taxable income for 1978 (\$30,000), determined by taking into account the deduction for dividends paid allowable under section 857(b)(2)(B) and without taking into account the net operating loss of 1977).

Example 2. (i) Assume the same facts as in *Example 1*, except that the \$150,000 of real estate investment trust taxable income (determined without the net operating loss deduction or the dividends paid deduction) consists of \$80,000 of ordinary income and \$70,000 of net capital gain. The amount of capital gain dividends which may be paid for 1978 is limited to \$50,000, that is, the amount of the real estate investment trust taxable income for 1978, determined by taking into account the net operating loss deduction for the taxable year, but not the deduction for dividends paid (\$150,000 minus \$100,000). See § 1.857-6(e)(1)(ii).

(ii) X designated \$50,000 of the \$120,000 of dividends paid as capital gains dividends (as defined in section 857(b)(3)(C) and § 1.857-6(e)). Thus, \$70,000 is an ordinary dividend. Since both ordinary dividends and capital gains dividends are taken into account in computing the deduction for dividends paid under section 857(b)(2)(B), the result will be the same as in *Example 1*; that is, the portion of the 1977 net operating loss available as a carryover to 1979 and subsequent years is \$70,000.

(b) [Reserved]

[T.D. 6500, 25 FR 11402, Nov. 26, 1960, as amended by T.D. 6862, 30 FR 14428, Nov. 18, 1965; T.D. 6900, 31 FR 14641, Nov. 17, 1966; T.D. 7767, 46 FR 11263, Feb. 6, 1981; T.D. 8107, 51 FR 43346, Dec. 2, 1986]

§ 1.172-6 Illustration of net operating loss carrybacks and carryovers.

The application of § 1.172-4 may be illustrated by the following example:

(a) *Facts.* The books of the taxpayer, whose return is made on the basis of the calendar year, reveal the following facts:

Taxable year	Taxable income	Net operating loss
1954	\$15,000	
1955	30,000	
1956		(\$75,000)
1957	20,000	
1958		(150,000)
1959	30,000	
1960	35,000	
1961	75,000	
1962	17,000	

Taxable year	Taxable income	Net operating loss
1963	53,000	

The taxable income thus shown is computed without any net operating loss deduction. The assumption is also made that none of the other modifications prescribed in § 1.172-5 apply. There are no net operating losses for 1950, 1951, 1952, 1953, 1964, 1965, or 1966.

(b) *Loss sustained in 1956.* The portions of the \$75,000 net operating loss for 1956 which shall be used as carrybacks to 1954 and 1955 and as carryovers to 1957, 1958, 1959, 1960, and 1961 are computed as follows:

(1) *Carryback to 1954.* The carryback to this year is \$75,000, that is, the amount of the net operating loss.

(2) *Carryback to 1955.* The carryback to this year is \$60,000, computed as follows:

Net operating loss	\$75,000
Less:	
Taxable income for 1954 (computed without the deduction of the carryback from 1956)	15,000
Carryback	60,000

(3) *Carryover to 1957.* The carryover to this year is \$30,000, computed as follows:

Net operating loss	\$75,000
Less:	
Taxable income for 1954 (computed without the deduction of the carryback from 1956)	\$15,000
Taxable income for 1955 (computed without the deduction of the carryback from 1956 or the carryback from 1958)	30,000
	45,000
Carryover	30,000

(4) *Carryover to 1958.* The carryover to this year is \$10,000, computed as follows:

Net operating loss	\$75,000
Less:	
Taxable income for 1954 (computed without the deduction of the carryback from 1956)	\$15,000
Taxable income for 1955 (computed without the deduction of the carryback from 1956 or the carryback from 1958)	30,000
Taxable income for 1957 (computed without the deduction of the carryover from 1956 or the carryback from 1958)	20,000
	65,000
Carryover	10,000

Internal Revenue Service, Treasury

§ 1.172-6

(5) *Carryover to 1959.* The carryover to this year is \$10,000, computed as follows:

Net operating loss		\$75,000
Less:		
Taxable income for 1954 (computed without the deduction of the carryback from 1956)	\$15,000	
Taxable income for 1955 (computed without the deduction of the carryback from 1956 or the carryback from 1958)	30,000	
Taxable income for 1957 (computed without the deduction of the carryover from 1956 or the carryback from 1958)	20,000	
Taxable income for 1958 (a year in which a net operating loss was sustained)	0	
		<u>65,000</u>
Carryover		10,000

(6) *Carryover to 1960.* The carryover to this year is \$0, computed as follows:

Net operating loss		\$75,000
Less:		
Taxable income for 1954 (computed without the deduction of the carryback from 1956)	\$15,000	
Taxable income for 1955 (computed without the deduction of the carryback from 1956 or the carryback from 1958)	30,000	
Taxable income for 1957 (computed without the deduction of the carryover from 1956 or the carryback from 1958)	20,000	
Taxable income for 1958 (a year in which a net operating loss was sustained)	0	
Taxable income for 1959 (computed without the deduction of the carryover from 1956 or the carryover from 1958)	30,000	
		<u>95,000</u>
Carryover		0

(7) *Carryover to 1961.* The carryover to this year is \$0, computed as follows:

Net operating loss		\$75,000
Less:		
Taxable income for 1954 (computed without the deduction of the carryback from 1956)	\$15,000	
Taxable income for 1955 (computed without the deduction of the carryback from 1956 or the carryback from 1958)	30,000	
Taxable income for 1957 (computed without the deduction of the carryover from 1956 or the carryback from 1958)	20,000	
Taxable income for 1958 (a year in which a net operating loss was sustained)	0	
Taxable income for 1959 (computed without the deduction of the carryover from 1956 or the carryover from 1958)	30,000	

Taxable income for 1960 (computed without the deduction of the carryover from 1956 or the carryover from 1958)	35,000	
		<u>130,000</u>
Carryover		0

(c) *Loss sustained in 1958.* The portions of the \$150,000 net operating loss for 1958 which shall be used as carrybacks to 1955, 1956, and 1957 and as carryovers to 1959, 1960, 1961, 1962, and 1963 are computed as follows:

(1) *Carryback to 1955.* The carryback to this year is \$150,000, that is, the amount of the net operating loss.

(2) *Carryback to 1956.* The carryback to this year is \$150,000, computed as follows:

Net operating loss	\$150,000
Less:	
Taxable income for 1955 (the \$30,000 taxable income for such year reduced by the carryback to such year of \$60,000 from 1956, the carryback from 1958 to 1955 not being taken into account)	0
Carryback	150,000

(3) *Carryback to 1957.* The carryback to this year is \$150,000, computed as follows:

Net operating loss	\$150,000
Less:	
Taxable income for 1955 (the \$30,000 taxable income for such year reduced by the carryback to such year of \$60,000 from 1956, the carryback from 1958 to 1955 not being taken into account)	0
Taxable income for 1956 (a year in which a net operating loss was sustained)	0
	<u>0</u>
Carryback	150,000

(4) *Carryover to 1959.* The carryover to this year is \$150,000, computed as follows:

Net operating loss	\$150,000
Less:	
Taxable income for 1955 (the \$30,000 taxable income for such year reduced by the carryback to such year of \$60,000 from 1956, the carryback from 1958 to 1955 not being taken into account)	0
Taxable income for 1956 (a year in which a net operating loss was sustained)	0
Taxable income for 1957 (the \$20,000 taxable income for such year reduced by the carryover to such year of \$30,000 from 1956, the carryback from 1958 to 1957 not being taken into account)	0

	0
Carryover	150,000

(5) *Carryover to 1960.* The carryover to this year is \$130,000, computed as follows:

Net operating loss	\$150,000
Less:	
Taxable income for 1955 (the \$30,000 taxable income for such year reduced by the carryback to such year of \$60,000 from 1956, the carryback from 1958 to 1955 not being taken into account)	0
Taxable income for 1956 (a year in which a net operating loss was sustained)	0
Taxable income for 1957 (the \$20,000 taxable income for such year reduced by the carryover to such year of \$30,000 from 1956, the carryback from 1958 to 1957 not being taken into account)	0
Taxable income for 1959 (the \$30,000 taxable income for such year reduced by the carryover to such year of \$10,000 from 1956, the carryover from 1958 to 1959 not being taken into account)	\$20,000
	20,000
Carryover	130,000

(6) *Carryover to 1961.* The carryover to this year is \$95,000, computed as follows:

Net operating loss	\$150,000
Less:	
Taxable income for 1955 (the \$30,000 taxable income for such year reduced by the carryback to such year of \$60,000 from 1956, the carryback from 1958 to 1955 not being taken into account)	0
Taxable income for 1956 (a year in which a net operating loss was sustained)	0
Taxable income for 1957 (the \$20,000 taxable income for such year reduced by the carryover to such year of \$30,000 from 1956, the carryback from 1958 to 1957 not being taken into account)	0
Taxable income for 1959 (the \$30,000 taxable income for such year reduced by the carryover to such year of \$10,000 from 1956, the carryover from 1958 to 1959 not being taken into account)	\$20,000
Taxable income for 1960 (the \$35,000 taxable income for such year reduced by the carryover to such year of \$0 from 1956, the carryover from 1958 to 1960 not being taken into account)	35,000

	55,000
Carryover	95,000

(7) *Carryover to 1962.* The carryover to this year is \$20,000, computed as follows:

Net operating loss	\$150,000
Less:	
Taxable income for 1955 (the \$30,000 taxable income for such year reduced by the carryback to such year of \$60,000 from 1956, the carryback from 1958 to 1955 not being taken into account)	0
Taxable income for 1956 (a year in which a net operating loss was sustained)	0
Taxable income for 1957 (the \$20,000 taxable income for such year reduced by the carryover to such year of \$30,000 from 1956, the carryback from 1958 to 1957 not being taken into account)	0
Taxable income for 1959 (the \$30,000 taxable income for such year reduced by the carryover to such year of \$10,000 from 1956, the carryover from 1958 to 1959 not being taken into account)	\$20,000
Taxable income for 1960 (the \$35,000 taxable income for such year reduced by the carryover to such year of \$0 from 1956, the carryover from 1958 to 1960 not being taken into account)	35,000
Taxable income for 1961 (the \$75,000 taxable income for such year reduced by the carryover to such year of \$0 from 1956, the carryover from 1958 to 1961 not being taken into account)	75,000
	130,000
Carryover	20,000

(8) *Carryover to 1963.* The carryover to this year is \$3,000, computed as follows:

Net operating loss	\$150,000
Less:	
Taxable income for 1955 (the \$30,000 taxable income for such year reduced by the carryback to such year of \$60,000 from 1956, the carryback from 1958 to 1955 not being taken into account)	0
Taxable income for 1956 (a year in which a net operating loss was sustained)	0
Taxable income for 1957 (the \$20,000 taxable income for such year reduced by the carryover to such year of \$30,000 from 1956, the carryback from 1958 to 1957 not being taken into account)	0

Internal Revenue Service, Treasury

§ 1.172-7

Taxable income for 1959 (the \$30,000 taxable income for such year reduced by the carryover to such year of \$10,000 from 1956, the carryover from 1958 to 1959 not being taken into account)		\$20,000	Taxable income for 1962 (computed without the deduction of the carryover from 1958)		17,000	147,000
			Carryover			3,000
Taxable income for 1960 (the \$35,000 taxable income for such year reduced by the carryover to such year of \$0 from 1956, the carryover from 1958 to 1960 not being taken into account)		35,000	(d) <i>Determination of net operating loss deduction for each year.</i> The carryovers and carrybacks computed under paragraphs (b) and (c) of this section are used as a basis for the computation of the net operating loss deduction in the following manner:			
Taxable income for 1961 (the \$75,000 taxable income for such year reduced by the carryover to such year of \$0 from 1956, the carryover from 1958 to 1961 not being taken into account)		75,000				
Taxable year	Carryover		Carryback		Net operating loss deduction	
	From 1956	From 1958	From 1956	From 1958

§ 1.172-7 Joint return by husband and wife.

(a) *In general.* This section prescribes additional rules for computing the net operating loss carrybacks and carryovers of a husband and wife making a joint return for one or more of the taxable years involved in the computation of the net operating loss deduction.

(b) *From separate to joint return.* If a husband and wife, making a joint return for any taxable year, did not make a joint return for any of the taxable years involved in the computation of a net operating loss carryover or a net operating loss carryback to the taxable year for which the joint return is made, such separate net operating loss carryover or separate net operating loss carryback is a joint net operating loss carryover or joint net operating loss carryback to such taxable year.

(c) *Continuous use of joint return.* If a husband and wife making a joint return for a taxable year made a joint return for each of the taxable years involved in the computation of a net op-

erating loss carryover or net operating loss carryback to such taxable year, the joint net operating loss carryover or joint net operating loss carryback to such taxable year is computed in the same manner as the net operating loss carryover or net operating loss carryback of an individual under § 1.172-4 but upon the basis of the joint net operating losses and the combined taxable income of both spouses.

(d) *From joint to separate return.* If a husband and wife making separate returns for a taxable year made a joint return for any, or all, of the taxable years involved in the computation of a net operating loss carryover or net operating loss carryback to such taxable year, the separate net operating loss carryover or separate net operating loss carryback of each spouse to the taxable year is computed in the manner set forth in § 1.172-4 but with the following modifications:

(1) *Net operating loss.* The net operating loss of each spouse for a taxable year for which a joint return was made shall be deemed to be that portion of the joint net operating loss (computed in accordance with paragraph (d) of

§1.172-3) which is attributable to the gross income and deductions of such spouse, gross income and deductions being taken into account to the same extent that they are taken into account in computing the joint net operating loss.

(2) *Taxable income to be subtracted*—(i) *Net operating loss of other spouse.* The taxable income of a particular spouse for any taxable year which is subtracted from the net operating loss of such spouse for another taxable year in order to determine the amount of such loss which may be carried back or carried over to still another taxable year is deemed to be, in a case in which such taxable income was reported in a joint return, the sum of the following:

(a) That portion of the combined taxable income of both spouses for such year for which the joint return was made which is attributable to the gross income and deductions of the particular spouse, gross income and deductions being taken into account to the same extent that they are taken into account in computing such combined taxable income, and

(b) That portion of such combined taxable income which is attributable to the other spouse; but, if such other spouse sustained a net operating loss in a taxable year beginning on the same date as the taxable year in which the particular spouse sustained the net operating loss from which the taxable income is subtracted, then such portion shall first be reduced by such net operating loss of such other spouse.

(ii) *Modifications.* For purposes of this subparagraph, the combined taxable income shall be computed as though the combined income and deductions of both spouses were those of one individual. The provisions of §1.172-5 shall apply in computing the combined taxable income for such purposes except that the net operating loss deduction shall be determined without taking into account any separate net operating loss of either spouse, or any joint net operating loss of both spouses, which was sustained in a taxable year beginning on or after the date of the beginning of the taxable year in which the particular spouse sustained the net operating loss from which the taxable income is subtracted.

(e) *Recurrent use of joint return.* If a husband and wife making a joint return for any taxable year made a joint return for one or more, but not all, of the taxable years involved in the computation of a net operating loss carryover or net operating loss carryback to such taxable year, such net operating loss carryover or net operating loss carryback to the taxable year is computed in the manner set forth in paragraph (d) of this section. Such net operating loss carryover or net operating loss carryback is considered a joint net operating loss carryover or joint net operating loss carryback to such taxable year.

(f) *Joint carryovers and carrybacks.* The joint net operating loss carryovers and the joint net operating loss carrybacks to any taxable year for which a joint return is made are all the net operating loss carryovers and net operating loss carrybacks of both spouses to such taxable year. For example, a husband and wife file a joint return for the calendar year 1956, having a joint taxable income for such year. The wife filed a separate return for the calendar years 1954 and 1955, in which years she sustained net operating losses. The husband filed separate returns for his fiscal year ending June 30, 1955, and, having received permission to change his accounting period to a calendar year basis, for the 6-month period ending December 31, 1955. The husband sustained net operating losses in both such taxable years. Since the husband and wife did not file a joint return for any taxable year involved in the computation of the net operating loss carryovers to 1956 from 1954 and 1955, the joint net operating loss carryovers to 1956 are the separate net operating loss carryovers of the wife from the calendar years 1954 and 1955 and the separate net operating loss carryovers of the husband from the fiscal year ending June 30, 1955, and from the short taxable year ending December 31, 1955. If the husband and wife also file joint returns for the calendar years 1957, 1958, and 1959, having joint taxable income in 1957 and 1958 and a joint net operating loss in 1959, the joint net operating loss carrybacks to

1956, 1957, and 1958 from 1959 are computed on the basis of the joint net operating loss for 1959, since separate returns were not made for any taxable year involved in the computation of such carrybacks.

(g) *Illustration of principles.* In the following examples, which illustrate the application of this section, it is assumed that there are no items of adjustment under section 172(b)(2)(A) and that the taxable income or loss in each case is the taxable income or loss determined without any net operating loss deduction. The taxpayers in each example, H, a husband, and W, his wife, report their income on the calendar-year basis.

Example 1. H and W filed joint returns for 1954 and 1955. They sustained a joint net operating loss of \$1,000 for 1954 and a joint net operating loss of \$2,000 for 1955. For 1954 the deductions of H exceeded his gross income by \$700, and the deductions of W exceeded her gross income by \$300, the total of such amounts being \$1,000. Therefore, \$700 of the \$1,000 joint net operating loss for 1954 is considered the net operating loss of H for 1954, and \$300 of such joint net operating loss is considered the net operating loss of W for 1954. For 1955 the gross income of H exceeded his deductions, so that his separate taxable income would be \$1,500, and the deductions of W exceeded her gross income by \$3,500. Therefore, all of the \$2,000 joint net operating loss for 1955 is considered the separate net operating loss of W for 1955.

Example 2. (i) H and W filed joint returns for 1954 and 1956, and separate returns for 1955 and 1957. For the years 1954, 1955, 1956, and 1957 they had taxable incomes and net operating losses as follows, losses being indicated in parentheses:

	1954	1955	1956	1957
H	(\$5,000)	(\$2,500)	\$6,500	(\$4,000)
W	(3,000)	2,000	3,000	(1,500)
Total	(8,000)	9,500

(ii) The net operating loss carryover of H from 1957 to 1958 is \$4,000, that is, his \$4,000 net operating loss for 1957 which is not reduced by any part of the taxable income for 1956, since none of such taxable income is attributable to H and the portion attributable to W is entirely offset by her separate net operating loss for her taxable year 1957, which taxable year begins on the same date as H's taxable year 1957. H's \$4,000 net operating loss for 1957 likewise is not reduced by reference to 1955 since H sustained a loss in 1955. The \$0 taxable income for 1956 which re-

duces H's net operating loss for 1957 is computed as follows:

(iii) The combined taxable income of \$9,500 for 1956 is reduced to \$1,000 by the net operating loss deduction for such year of \$8,500. This net operating loss deduction is computed without taking into account any net operating loss of either H or W sustained in a taxable year beginning on or after January 1, 1957, the date of the beginning of the taxable year in which H sustained the net operating loss from which the taxable income is subtracted. This \$8,500 is composed of H's carryovers of \$5,000 from 1954 and \$2,500 from 1955, and of W's carryover of \$1,000 from 1954 (the excess of W's \$3,000 loss for 1954 over her \$2,000 income for 1955). None of the \$1,000 combined taxable income for 1956 (computed with the net operating loss deduction described above) is attributable to H since it is caused by W's income (computed after deducting her separate carryover) offsetting H's loss (computed by deducting from his income his separate carryovers). No part of the \$1,000 combined taxable income for 1956 which is attributable to W is used to reduce H's net operating loss for 1957 since such taxable income attributable to W must first be reduced by W's \$1,500 net operating loss for 1957, her taxable year beginning on the same date as the taxable year of H in which he sustained the net operating loss from which the taxable income is subtracted.

(iv) The net operating loss carryover of W from 1957 to 1958 is \$500, her \$1,500 loss reduced by the sum of her \$0 taxable income for 1955 (computed by taking into account her \$3,000 carryover from 1954) and her \$1,000 taxable income for 1956, that is, the portion of the combined taxable income for 1956 which is attributable to her.

Example 3. (i) Assume the same facts as in *Example 2* except that for 1957 the net operating loss of W is \$200 instead of \$1,500.

(ii) The net operating loss carryover of H from 1957 to 1958 is \$3,200, that is, his \$4,000 net operating loss for 1957 reduced by the sum of his \$0 taxable income for 1955 (a year in which he sustained a loss) and his \$800 taxable income for 1956. Such \$800 is computed as follows:

(iii) The combined taxable income for 1956, computed with the net operating loss deduction in the manner described in *Example 2*, remains \$1,000, no part of which is attributable to H. To the \$0 taxable income attributable to H for 1956 there is added \$800, the excess of the \$1,000 taxable income for such year attributable to W over her \$200 net operating loss sustained in 1957, a taxable year beginning on the same date as the taxable year of H in which he sustained the \$4,000 net operating loss from which the taxable income is subtracted.

(iv) W has no net operating loss carryover from 1957 to 1958 since her net operating loss

§ 1.172-8

26 CFR Ch. I (4-1-17 Edition)

of \$200 for 1957 does not exceed the \$1,000 taxable income for 1956 attributable to her.

Example 4. (i) Assume the same facts as in *Example 2*, except that W changes her accounting period in 1957 to a fiscal year ending on January 31, and has neither income nor losses for the taxable year January 1, 1957, to January 31, 1957, or for the fiscal year February 1, 1957, to January 31, 1958, but has a net operating loss of \$200 for the fiscal year February 1, 1958, to January 31, 1959.

(ii) The net operating loss carryover of H from 1957 to 1958 is \$3,000, that is, his net operating loss of \$4,000 for 1957 reduced by the sum of his \$0 taxable income for 1955 (a year in which he sustained a loss) and his \$1,000 taxable income for 1956. Such \$1,000 is computed as follows:

(iii) The combined taxable income for 1956, computed with the net operating loss deduction in the manner described in *Example 2*, remains \$1,000, no part of which is attributable to H. To the \$0 taxable income attributable to H for 1956 there is added the \$1,000 taxable income attributable to W for such year. The taxable income attributable to W is not reduced by any amount since she does not have a net operating loss for her taxable year beginning on January 1, 1957, the date of the beginning of the taxable year of H in which he sustained the \$4,000 net operating loss from which his taxable income is subtracted.

(iv) The net operating loss carryover of W from the fiscal year beginning February 1, 1958, to her next fiscal year is \$200, that is, her net operating loss of \$200 for the fiscal year beginning February 1, 1958, reduced by the sum of her \$0 taxable income for 1956, her \$0 taxable income for the taxable year January 1, 1957, to January 31, 1957 (a year in which she had neither income nor loss), and her \$0 taxable income for the fiscal year February 1, 1957, to January 31, 1958 (also a year in which she had neither income nor loss). The \$0 taxable income for 1956 is computed as follows:

(v) The combined taxable income of \$9,500 for 1956 is reduced to \$0 amount by the net operating loss deduction for such year of \$12,500. This net operating loss deduction is computed by taking into account the net operating loss of H for 1957 since it was sustained in a taxable year beginning before February 1, 1958, the date of the beginning of the taxable year of W in which she sustained the \$200 net operating loss from which her taxable income is subtracted. This \$12,500 is composed of H's carryovers of \$5,000 from 1954 and \$2,500 from 1955 and of his carryback of \$4,000 from 1957, plus W's carryover of \$1,000 from 1954 (the excess of W's \$3,000 loss for 1954 over her \$2,000 income for 1955). Since there is no combined taxable income for 1956,

there is no taxable income attributable to W for such year.

[T.D. 6500, 25 FR 11402, Nov. 26, 1960, as amended by T.D. 8107, 51 FR 43346, Dec. 2, 1986]

§ 1.172-8 Net operating loss carryovers for regulated transportation corporations.

(a) *In general.* A net operating loss sustained in a taxable year ending before January 1, 1976, shall be a carryover to the 7 succeeding taxable years if the taxpayer is a regulated transportation corporation (as defined in paragraph (b) of this section) for the loss year and for the 6th and 7th succeeding taxable years. If, however, the taxpayer is a regulated transportation corporation for the loss year and for the 6th succeeding taxable year, but not for the 7th succeeding taxable year, then the loss shall be a carryover to the 6 succeeding taxable years. If the taxpayer is not a regulated transportation corporation for the 6th succeeding taxable year then this section shall not apply. A net operating loss sustained in a taxable year ending after December 31, 1975, shall be a carryover to the 15 succeeding taxable years.

(b) *Regulated transportation corporations.* A corporation is a *regulated transportation corporation* for a taxable year if it is included within one or more of the following categories:

(1) Eighty percent or more of the corporation's gross income (computed without regard to dividends and capital gains and losses) for such taxable year is income from transportation sources described in paragraph (c) of this section.

(2) The corporation is a railroad corporation, subject to Part I of the Interstate Commerce Act, which is either a lessor railroad corporation described in section 7701(a)(33)(G) or a common parent railroad corporation described in section 7701(a)(33)(H).

(3) The corporation is a member of a regulated transportation system for the taxable year. For purposes of this section, a member of a regulated transportation system for a taxable year means a member of an affiliated group of corporations making a consolidated return for such year, if 80 percent or

more of the sum of the gross incomes of the members of the affiliated group for such year (computed without regard to dividends, capital gains and losses, or eliminations for intercompany transactions) is derived from transportation sources described in paragraph (c) of this section. For purposes of this subparagraph, income derived by a corporation described in subparagraph (2) of this paragraph from leases described in section 7701(a)(33)(G) shall be considered as income from transportation sources described in paragraph (c) of this section.

(c) *Transportation sources.* For purposes of this section, income from "transportation sources" means income received directly in consideration for transportation services, and income from the furnishing or sale of essential facilities, products, and other services which are directly necessary and incidental to the furnishing of transportation services. For purposes of the preceding sentence, the term *transportation services* means:

(1) Transportation by railroad as a common carrier subject to the jurisdiction of the Interstate Commerce Commission;

(2)(i) Transportation, which is not included in subparagraph (1) of this paragraph:

(a) On an intrastate, suburban, municipal, or interurban electric railroad,

(b) On an intrastate, municipal, or suburban trackless trolley system,

(c) On a municipal or suburban bus system, or

(d) By motor vehicle not otherwise included in this subparagraph, if the rates for the furnishing or sale of such transportation are established or approved by a regulatory body described in section 7701(a)(33)(A);

(ii) In the case of a corporation which establishes to the satisfaction of the district director that:

(a) Its revenue from regulated rates from transportation services described in subdivision (i) of this subparagraph and its revenue derived from unregulated rates are derived from its operation of a single interconnected and coordinated system or from the operation of more than one such system, and

(b) The unregulated rates have been and are substantially as favorable to

users and consumers as are the regulated rates, transportation, which is not included in subparagraph (1) of this paragraph, from which such revenue from unregulated rates is derived.

(3) Transportation by air as a common carrier subject to the jurisdiction of the Civil Aeronautics Board; and

(4) Transportation by water by common carrier subject to the jurisdiction of either the Interstate Commerce Commission under Part III of the Interstate Commerce Act (54 Stat. 929), or the Federal Maritime Board under the Intercoastal Shipping Act, 1933 (52 Stat. 965).

(d) *Corporate acquisitions.* This section shall apply to a carryover of a net operating loss sustained by a regulated transportation corporation (as defined in paragraph (b) of this section) to which an acquiring corporation succeeds under section 381(a) only if the acquiring corporation is a regulated transportation corporation (as defined in paragraph (b) of this section):

(1) For the sixth succeeding taxable year in the case of a carryover to the sixth succeeding taxable year, and

(2) For the sixth and seventh succeeding taxable years in the case of a carryover to the seventh succeeding taxable year.

[T.D. 6862, 30 FR 14430, Nov. 18, 1965, as amended by T.D. 8107, 51 FR 43346, Dec. 2, 1986]

§ 1.172-9 Election with respect to portion of net operating loss attributable to foreign expropriation loss.

(a) *In general.* If a taxpayer has a net operating loss for a taxable year ending after December 31, 1958, and if the foreign expropriation loss for such year (as defined in paragraph (b)(1) of this section) equals or exceeds 50 percent of the net operating loss for such year, then the taxpayer may elect (at the time and in the manner provided in paragraph (c) (1) or (2) of this section, whichever is applicable) to have the provisions of this section apply. If the taxpayer so elects, the portion of the net operating loss for such taxable year attributable (under paragraph (b)(2) of this section) to such foreign expropriation loss shall not be a net operating loss carryback to any taxable year preceding the taxable year of such loss

and shall be a net operating loss carry-over to each of the ten taxable years following the taxable year of such loss. In such case, the portion, if any, of the net operating loss not attributable to a foreign expropriation loss shall be carried back or carried over as provided in paragraph (a)(1)(ii) of § 1.172-4.

(b) *Determination of “foreign expropriation loss”*—(1) *Definition of “foreign expropriation loss”*. The term *foreign expropriation loss* means, for any taxable year, the sum of the losses allowable as deductions under section 165 (other than losses from, or which under section 165(g) or 1231(a) are treated or considered as losses from, sales or exchanges of capital assets and other than losses described in section 165(i)(1)) sustained by reason of the expropriation, intervention, seizure, or similar taking of property by the government or any foreign country, any political subdivision thereof, or any agency or instrumentality of the foregoing. For purposes of the preceding sentence, a debt which becomes worthless in whole or in part, shall, to the extent of any deduction allowed under section 166(a), be treated as a loss allowable as a deduction under section 165.

(2) *Portion of the net operating loss attributable to a foreign expropriation loss.*

(i) Except as provided in subdivision (ii) of this subparagraph, the portion of the net operating loss for any taxable year attributable to a foreign expropriation loss is the amount of the foreign expropriation loss for such taxable year (determined under subparagraph (1) of this paragraph).

(ii) The portion of the net operating loss for a taxable year attributable to a foreign expropriation loss shall not exceed the amount of the net operating loss, computed under section 172(c), for such year.

(3) *Examples.* The application of this paragraph may be illustrated by the following examples:

Example 1. M Corporation, a domestic calendar year corporation manufacturing cigars in the United States, owns, in country X, a tobacco plantation having an adjusted basis of \$400,000 and farm equipment having an adjusted basis of \$300,000. On January 15, 1961, country X expropriates the plantation and equipment without any allowance for compensation. For the taxable year 1961, M Cor-

poration sustains a loss from the operation of its business (not including losses from the seizure of its plantation and equipment in country X) of \$200,000, which loss would not have been sustained in the absence of the seizure. Accordingly, M has a net operating loss of \$900,000 (the sum of \$400,000, \$300,000, and \$200,000). For purposes of section 172(k)(1), M Corporation has a foreign expropriation loss for 1961 of \$700,000 (the sum of \$400,000 and \$300,000, the losses directly sustained by reason of the seizure of its property by country X). Since the foreign expropriation loss for 1961, \$700,000, equals or exceeds 50 percent of the net operating loss for such year, or \$450,000 (i.e., 50 percent of \$900,000), M Corporation may make the election under paragraph (c)(2) of this section with respect to \$700,000, the portion of the net operating loss attributable to the foreign expropriation loss.

Example 2. Assume the same facts as in *Example 1* except that for 1961, M Corporation has operating profits of \$300,000 (not including losses from the seizure of its plantation and equipment in country X) so that its net operating loss (as defined in section 172(c)) is only \$400,000. Under the provisions of section 172(k)(2) and paragraph (b)(2) of this section, the portion of the net operating loss for 1961 attributable to a foreign expropriation loss is limited to \$400,000, the amount of the net operating loss.

(c) *Time and manner of making election*—(1) *Taxable years ending after December 31, 1963.* In the case of a taxpayer who has a foreign expropriation loss for a taxable year ending after December 31, 1963, the election referred to in paragraph (a) of this section shall be made by attaching to the taxpayer's income tax return (filed within the time prescribed by law, including extensions of time) for the taxable year of such foreign expropriation loss a statement containing the information required by subparagraph (3) of this paragraph. Such election shall be irrevocable after the due date (including extensions of time) of such return.

(2) *Information required.* The statement referred to in subparagraph (1) of this paragraph shall contain the following information:

(i) The name, address, and taxpayer account number of the taxpayer;

(ii) A statement that the taxpayer elects under section 172(b)(3)(A)(ii) or (iii), whichever is applicable, to have section 172(b)(1)(D) of the Code apply;

(iii) The amount of the net operating loss for the taxable year; and

(iv) The amount of the foreign expropriation loss for the taxable year, including a schedule showing the computation of such foreign expropriation loss.

(d) *Amount of foreign expropriation loss which is a carryover to the taxable year in issue—(1) General.* If a portion of a net operating loss for the taxable year is attributable to a foreign expropriation loss and if an election under paragraph (a) of this section has been made with respect to such portion of the net operating loss, then such portion shall be considered to be a separate net operating loss for such year, and, for the purpose of determining the amount of such separate loss which may be carried over to other taxable years, such portion shall be applied after the other portion (if any) of such net operating loss. Such separate loss shall be carried to the earliest of the several taxable years to which such separate loss is allowable as a carryover under the provisions of paragraph (a)(1)(iv) of § 1.172-4, and the amount of such separate loss which shall be carried over to any taxable year subsequent to such earliest year is an amount (not exceeding such separate loss) equal to the excess of:

(i) The sum of (a) such separate loss and (b) the other portion (if any) of the net operating loss (i.e., that portion not attributable to a foreign expropriation loss) to the extent such other portion is a carryover to such earliest taxable year, over

(ii) The sum of the aggregate of the taxable incomes (computed as provided in § 1.172-5) for all of such several taxable years preceding such subsequent taxable year.

(2) *Cross reference.* The portion of a net operating loss which is not attributable to a foreign expropriation loss shall be carried back or carried over, in accordance with the rules provided in paragraph (b)(1) of § 1.172-4, as if such portion were the only net operating loss for such year.

(3) *Examples.* The application of this paragraph may be illustrated by the following examples:

Example 1. Corporation A, organized in 1960 and whose return is made on the basis of the calendar year, incurs for 1960 a net operating loss of \$10,000, of which \$7,500 is attributable to a foreign expropriation loss. With respect

to such \$7,500, A makes the election described in paragraph (a) of this section. In each of the years 1961, 1962, 1963, 1964, and 1965, A has taxable income in the amount of \$600 (computed without any net operating loss deduction). The assumption is made that none of the other modifications prescribed in § 1.172-5 apply. The portion of the net operating loss attributable to the foreign expropriation loss which is a carryover to the year 1966 is \$7,000, which is the sum of \$7,500 (the portion of the net operating loss attributable to the foreign expropriation loss) and \$2,500 (the other portion of the net operating loss available as a carryover to 1961), minus \$3,000 (the aggregate of the taxable incomes for taxable years 1961 through 1965).

Example 2. Assume the same facts as in *Example 1* except that taxable income for each of the years 1961 through 1965 is \$400 (computed without any net operating loss deduction). The carryover to the year 1966 is \$7,500, that is, the sum of \$7,500 (the portion of the net operating loss attributable to the foreign expropriation loss) and \$2,500 (the other portion of the net operating loss available as a carryover to 1961), minus \$2,000 (the aggregate of the taxable incomes for taxable years 1961 through 1965), but limited to \$7,500 (the portion of the net operating loss attributable to the foreign expropriation loss).

(e) *Taxable income which is subtracted from net operating loss to determine carryback or carryover.* In computing taxable income for a taxable year (hereinafter called a “prior taxable year”) for the purpose of determining the portion of a net operating loss for another taxable year which shall be carried to each of the several taxable years subsequent to the earliest taxable year to which such loss may be carried, the net operating loss deduction for any such prior taxable year shall be determined without regard to that portion, if any, of a net operating loss for a taxable year attributable to a foreign expropriation loss, if such portion may not, under the provisions of section 172(b)(1)(D) and paragraph (a)(1)(iv) of § 1.172-4, be carried back to such prior taxable year. Thus, if the taxpayer has a foreign expropriation loss for 1962 and elects the 10-year carryover with respect to the portion of his net operating loss for 1962 attributable to the foreign expropriation loss, then in computing taxable income for the year 1960 for the purpose of determining the portion of a net operating loss for 1963 which is carried to

years subsequent to 1960, the net operating loss deduction for 1960 is determined without regard to the portion of the net operating loss for 1962 attributable to the foreign expropriation loss, since under the provisions of section 172(b)(1)(D) and paragraph (a)(1)(iv) of § 1.172-4 such portion of the net operating loss for 1962 may not be carried back to 1960.

[T.D. 6862, 30 FR 14431, Nov. 18, 1965, as amended by T.D. 8107, 51 FR 43346, Dec. 2, 1986]

§ 1.172-10 Net operating losses of real estate investment trusts.

(a) *Taxable years to which a loss may be carried.* (1) A net operating loss sustained by a qualified real estate investment trust (as defined in paragraph (b)(1) of this section) in a qualified taxable year (as defined in paragraph (b)(2) of this section) ending after October 4, 1976, shall not be carried back to a preceding taxable year.

(2) A net operating loss sustained by a qualified real estate investment trust in a qualified taxable year ending before October 5, 1976, shall be carried back to the 3 preceding taxable years. However, see § 1.857-2(a)(5), which does not allow the net operating loss deduction in computing real estate investment trust taxable income for taxable years ending before October 5, 1976.

(3) A net operating loss sustained by a qualified real estate investment trust in a qualified taxable year ending after December 31, 1972, shall be carried over to the 15 succeeding taxable years. However, see § 1.857-2(a)(5).

(4) A net operating loss sustained by a qualified real estate investment trust in a qualified taxable year ending before January 1, 1973, shall be carried over to 8 succeeding taxable years. However, see § 1.857-2(a)(5).

(5) A net operating loss sustained in a taxable year for which the taxpayer is not a qualified real estate investment trust generally may be carried back to the 3 preceding taxable years; however, a net operating loss sustained in a taxable year ending after December 31, 1975, shall not be carried back to any qualified taxable year. However, see § 1.857-2(a)(5), with respect to a net operating loss sustained in a taxable year ending before January 1, 1976.

(6) A net operating loss sustained in a taxable year ending after December 31, 1975, for which the taxpayer is not a qualified real estate investment trust generally may be carried over to the 15 succeeding taxable years.

(7)(i) A net operating loss sustained in a taxable year ending before January 1, 1986, for which the taxpayer is not a qualified real estate investment trust generally may be a net operating loss carryover to each of the 5 succeeding taxable years. However, where the loss was a net operating loss carryback to one or more qualified taxable years, the net operating loss, in accordance with paragraph (a)(7)(ii) of this section shall be—

(A) Carried over to the 15 succeeding taxable years if the loss could be a net operating loss carryover to a taxable year ending in 1981, or

(B) Carried over to the 5, 6, 7, or 8 succeeding taxable years if paragraph (a)(7)(i)(A) of this section does not apply.

(ii) For purposes of determining whether a net operating loss could be a carryover to a taxable year ending in 1981 under paragraph (a)(7)(i)(A) of this section or, where paragraph (a)(7)(i)(A) of this section does not apply, to determine the actual carryover period under paragraph (a)(7)(i)(B) of this section, the net operating loss shall have a carryover period of 5 years, and such period shall be increased (to a number not greater than 8) by the number of qualified taxable years to which such loss was a net operating loss carryback; however, where the taxpayer acted so as to cause itself to cease to be a qualified real estate investment trust and the principal purpose for such action was to secure the benefit of the allowance of a net operating loss carryover under section 172(b)(1)(B), the net operating loss carryover period shall be limited to 5 years. However, see § 1.857-2(a)(5).

(8) A qualified taxable year is a taxable year preceding or following the taxable year of the net operating loss, for purposes of section 172(b)(1), even though the loss may not be carried to, or allowed as a deduction in, such qualified taxable year. Thus, a qualified taxable year ending before October 5, 1976 (for which no net operating loss

deduction is allowable) is nevertheless a preceding or following taxable year for purposes of section 172(b)(1). Moreover, a qualified taxable year ending after October 4, 1976 (to which a net operating loss cannot be carried back because of section 172(b)(1)(E)) is nevertheless a preceding taxable year for purposes of section 172(b)(1). For purposes of determining, under section 172(b)(2), the balance of the loss available as a carryback or carryover to other taxable years, however, the net operating loss is not reduced on account of such qualified taxable year being a preceding or following taxable year.

(b) *Definitions.* For purposes of this section and §§ 1.172-2 and 1.172-5:

(1) The term *qualified real estate investment trust* means, with respect to any taxable year, a real estate investment trust within the meaning of part II of subchapter M which is taxable for such year under that part as a real estate investment trust, and

(2) The term *qualified taxable year* means a taxable year for which the taxpayer is a qualified real estate investment trust.

(c) *Examples.* The provisions of this section may be illustrated by the following examples:

Example 1. (i) *Facts.* X was a qualified real estate investment trust for the taxable years ending on December 31, 1972, and December 31, 1973. X was not a qualified real estate investment trust for the taxable years ending on December 31, 1971, and December 31, 1974. X sustained a net operating loss for the taxable year ending on December 31, 1974.

(ii) *Applicable carryback and carryover periods.* The net operating loss must be carried back to the 3 preceding taxable years. Under § 1.857-2 (a)(5) the net operating loss deduction shall not be allowed in computing real estate investment trust taxable income for the years ending December 31, 1972, and December 31, 1973. Where a net operating loss is sustained in a taxable year ending before January 1, 1976, for which the taxpayer is not a qualified real estate investment trust and the loss is a net operating loss carryback to one or more qualified taxable years, the carryover period is determined under § 1.172-10 (a)(7); the carryover period is determined by first applying the rule provided in paragraph (a)(7)(ii) of this section to obtain the carryover period for purposes of determining whether the net operating loss could have been a net operating loss carryover to a taxable year ending in 1981. Under these facts,

paragraph (a)(7)(ii) of this section provides for a 7-year carryover period (5 years increased by the 2 qualified taxable years to which the loss was a net operating loss carryback); therefore, since the carryover period provided for by paragraph (a)(7)(ii) of this section would allow the net operating loss to be a net operating loss carryover to a taxable year ending in 1981, under paragraph (a)(7)(ii)(A) of this section the applicable carryover period is 15 years (provided that X did not act so as to cause itself to cease to qualify as a real estate investment trust for the principal purpose of securing the benefit of a net operating loss carryover under section 172 (b)(1)(B)).

Example 2. (i) *Facts.* The facts are the same as in *example 1* except that the taxable year ending December 31, 1973, was not a qualified taxable year for X.

(ii) *Applicable carryback and carryover periods.* The net operating loss must be carried back to the 3 preceding taxable years. Section 1.857-2 (a)(5) provides that the net operating loss deduction shall not be allowed in computing real estate investment trust taxable income for the year ending December 31, 1972. Under these facts the carryover period is determined under § 1.172-10 (a)(7). Paragraph (a)(7)(ii) of this section provides for a 6 year carryover period (5 years increased by the 1 qualified taxable year to which the loss was a net operating loss carryback); therefore, since a 6 year carryover period would not allow the net operating loss to be a net operating loss carryover to a taxable year ending in 1981, paragraph (a)(7)(i)(A) of this section does not apply. Where the rule stated in paragraph (a)(7)(i)(A) of this section does not apply, paragraph (a)(7)(i)(B) of this section provides that the applicable carryover period is the carryover period determined under paragraph (a)(7)(ii) of this section, which, in this case, is 6 years (provided that the principal purpose for X acting so as to cause itself to cease to qualify as a real estate investment trust was not to secure the benefit of the allowance of a net operating loss carryover under section 172 (b)(1)(B)).

(d) *Cross references.* See §§ 1.172-2(c) and 1.172-5(a)(5) for the computation of the net operating loss of a qualified real estate investment trust for a taxable year ending after October 4, 1976, and the amount of a net operating loss which is absorbed when carried over to a qualified taxable year ending after October 4, 1976. See § 1.857-2(a)(5), which provides that for a taxable year ending before October 5, 1976, the net operating loss deduction is not allowed in computing the real estate investment

trust taxable income of a qualified real estate investment trust.

[T.D. 7767, 46 FR 11263, Feb. 6, 1981, as amended by T.D. 8107, 51 FR 43346, Dec. 2, 1986]

§ 1.172-13 Product liability losses.

(a) *Entitlement to 10-year carryback*—(1) *In general.* Unless an election is made pursuant to paragraph (c) of this section, in the case of a taxpayer which has a product liability loss (as defined in section 172(j) and paragraph (b)(1) of this section) for a taxable year beginning after September 30, 1979 (hereinafter “loss year”), the product liability loss shall be a net operating loss carryback to each of the 10 taxable years preceding the loss year.

(2) *Years to which loss may be carried.* A product liability loss shall first be carried to the earliest of the taxable years to which such loss is allowable as a carryback and shall then be carried to the next earliest of such taxable years, etc.

(3) *Example.* The application of this paragraph may be illustrated as follows:

Example. Taxpayer A incurs a net operating loss for taxable year 1980 of \$80,000, of which \$60,000 is a product liability loss. A’s taxable income for each of the 10 years immediately preceding taxable year 1980 was \$5,000. The product liability loss of \$60,000 is first carried back to the 10th through the 4th preceding taxable years (\$5,000 per year), thus offsetting \$35,000 of the loss. The remaining \$25,000 of product liability loss is added to the remaining portion of the total net operating loss for taxable year 1980 which was not a product liability loss (\$20,000), and the total is then carried back to the 3rd through 1st years preceding taxable year 1980, which offsets \$15,000 of this loss. The remaining loss (\$30,000) is carried forward pursuant to section 172(b)(1) and the regulations thereunder without regard to whether all or any portion thereof originated as a product liability loss.

(b) *Definitions*—(1) *Product liability loss.* The term *product liability loss* means, for any taxable year, the lesser of—

(i) The net operating loss for the current taxable year (not including the portion of such net operating loss attributable to foreign expropriation losses, as defined in § 1.172-11), or

(ii) The total of the amounts allowable as deductions under sections 162 and 165 directly attributable to—

(A) Product liability (as defined in paragraph (b)(2) of this section), and

(B) Expenses (including settlement payments) incurred in connection with the investigation or settlement of or opposition to claims against the taxpayer on account of alleged product liability.

Indirect corporate expense, or overhead, is not to be allocated to product liability claims so as to become a product liability loss.

(2) *Product liability.* (i) The term *product liability* means the liability of a taxpayer for damages resulting from physical injury or emotional harm to individuals, or damage to or loss of the use of property, on account of any defect in any product which is manufactured, leased, or sold by the taxpayer. The preceding sentence applies only to the extent that the injury, harm, or damage occurs after the taxpayer has completed or terminated operations with respect to the product, including, but not limited to the manufacture, installation, delivery, or testing of the product, and has relinquished possession of such product.

(ii) The term *product liability* does not include liabilities arising under warranty theories relating to repair or replacement of the property that are essentially contract liabilities. For example, the costs incurred by a taxpayer in repairing or replacing defective products under the terms of a warranty, express or implied, are not product liability losses. On the other hand, the taxpayer’s liability for damage done to other property or for harm done to persons that is attributable to a defective product may be product liability losses regardless of whether the claim sounds in tort or contract. Further, liability incurred as a result of services performed by a taxpayer is not product liability. For purposes of the preceding sentence, where both a product and services are integral parts of a transaction, product liability does not arise until all operations with respect to the product are completed and the taxpayer has relinquished possession of it. On the other hand, any liability

that arises after completion of the initial delivery, installation, servicing, testing, etc., is considered “product liability” even if such liability arises during the subsequent servicing of the product pursuant to a service agreement or otherwise.

(iii) Liability for injury, harm, or damage due to a defective product as described in this subparagraph shall be “product liability” notwithstanding that the liability is not considered product liability under the law of the State in which such liability arose.

(iv) Amounts paid for insurance against product liability risks are not paid on account of product liability.

(v) Notwithstanding subparagraph (iv), an amount is paid on account of product liability (even if such amount is paid to an insurance company) if the amount satisfies the provisions of paragraph (b)(2) (i) through (iii) of this section and the amount—

(A) Is paid on account of specific claims against the taxpayer (or on account of expenses incurred in connection with the investigation or settlement of or opposition to such claims), subsequent to the events giving rise to the claims and pursuant to a contract entered into before those events,

(B) Is not refundable, and

(C) Is not applicable to other claims, other expenses or to subsequent coverage.

(3) *Examples.* Paragraph (b)(2) of this section is illustrated by the following examples:

Example 1. X, a manufacturer of heating equipment, sells a boiler to A, a homeowner. Subsequent to the sale and installation of the boiler, the boiler explodes due to a defect causing physical injury to A. A sues X for damages for the injuries sustained in the explosion and is awarded \$250,000, which X pays. The payment was made on account of product liability.

Example 2. Assume the same facts as in *Example 1* and that A also sues under the contract with X to recover for the cost of the boiler and recovers \$1,000, the boiler's replacement cost. The \$1,000 payment is not a payment on account of product liability. Similarly, if X agrees to repair the destroyed boiler, any amount expended by X for such repair is not payment made on account of product liability.

Example 3. Y, a professional medical association, is sued by B, a patient, in an action based on the malpractice of one of its doc-

tors. B recovers \$25,000. Because the suit was based on the services of B, the payment is not made on account of product liability.

Example 4. R, a retailer of communications equipment, sells a telecommunication device to C. R also contracts with C to service the equipment for 3 years. While R is installing the equipment, the unit catches on fire due to faulty wiring within the unit and destroys C's office. Because R had not relinquished possession of this equipment when the fire started, any amount paid to C by R for the damage to C's property on account of the defective product is not payment on account of product liability.

Example 5. Assume the same facts as in *Example 4* except that the fire and resulting property damages occurred after R had installed the equipment and relinquished possession of it. Any amount paid for the property damages sustained on account of the defective product is payment on account of product liability.

Example 6. Assume the same facts as in *Example 4* except that the equipment catches on fire during the subsequent servicing of the unit. Because C is in possession of the unit during the servicing, any amount paid for the property damage sustained on account of the defective product would be payment on account of product liability.

Example 7. X, a manufacturer of computers, sells a computer to A. X also has its employees periodically service the computer for A from time to time after it is placed in service. After the initial delivery, installation, servicing, and testing of the computer is completed, the computer catches on fire while X's employee is servicing the equipment. This fire causes property damage to A's office and physical injury to A. Any amount paid for the property or physical damage sustained on account of the defective product is payment on account of product liability.

(c) *Election—(1) In general.* The 10-year carryback provision of this section applies, except as provided in this paragraph, to any taxpayer who, for a taxable year beginning after September 30, 1979, incurs a product liability loss. Any taxpayer entitled to a 10-year carryback under paragraph (a) of this section in any loss year may elect (at the time and in the manner provided in paragraph (c)(2) of this section) to have the carryback period with respect to the product liability loss determined without regard to the carryback rules provided by paragraph (a) of this section. If the taxpayer so elects, the product liability loss shall not be carried back to the 10th through the 4th taxable years preceding the loss

year. In such case, the product liability loss shall be carried back or carried over as provided by section 172(b) (except subparagraph (1)(I) thereof) and the regulations thereunder.

(2) *Time and manner of making election.* An election by any taxpayer entitled to the 10-year carryback for the product liability loss to have the carryback with respect to such loss determined without regard to the 10-year carryback provision of paragraph (a) of this section must be made by attaching to the taxpayer's tax return (filed within the time prescribed by law, including extensions of time) for the taxable year in which such product liability loss is sustained, a statement containing the information required by paragraph (c)(3) of this section. Such election, once made for any taxable year, shall be irrevocable after the due date (including extensions of time) of the taxpayer's tax return for that taxable year.

(3) *Information required.* In the case of a statement filed after April 25, 1983, the statement referred to in paragraph (c)(2) of this section shall contain the following information:

(i) The name, address, and taxpayer identifying number of the taxpayer; and

(ii) A statement that the taxpayer elects under section 172(j)(3) not to have section 172(b)(1)(I) apply.

(4) *Relationship with section 172(b)(3)(C) election.* If a taxpayer sustains during the taxable year both a net operating loss not attributable to product liability and a product liability loss (as defined in section 172(j)(1) and paragraph (b)(1) of this section), an election pursuant to section 172(b)(3)(C) (relating to election to relinquish the entire carryback period) does not preclude the product liability loss from being carried back 10 years under section 172(b)(1)(I) and paragraph (a)(1) of this section.

[T.D. 8096, 51 FR 30482, Aug. 27, 1986]

§ 1.173-1 Circulation expenditures.

(a) *Allowance of deduction.* Section 173 provides for the deduction from gross income of all expenditures to establish, maintain, or increase the circulation of a newspaper, magazine, or other peri-

odical, subject to the following limitations:

(1) No deduction shall be allowed for expenditures for the purchase of land or depreciable property or for the acquisition of circulation through the purchase of any part of the business of another publisher of a newspaper, magazine, or other periodical;

(2) The deduction shall be allowed only to the publisher making the circulation expenditures; and

(3) The deduction shall be allowed only for the taxable year in which such expenditures are paid or incurred.

Subject to the provisions of paragraph (c) of this section, the deduction permitted under section 173 and this paragraph shall be allowed without regard to the method of accounting used by the taxpayer and notwithstanding the provisions of section 263 and the regulations thereunder, relating to capital expenditures.

(b) *Deferred expenditures.* Notwithstanding the provisions of paragraph (a)(3) of this section, expenditures paid or incurred in a taxable year subject to the Internal Revenue Code of 1939 which are deferrable pursuant to I.T. 3369 (C.B. 1940-1, 46), as modified by Rev. Rul. 57-87 (C.B. 1957-1, 507) may be deducted in the taxable year subject to the Internal Revenue Code of 1954 to which so deferred.

(c) *Election to capitalize.* (1) A taxpayer entitled to the deduction for circulation expenditures provided in section 173 and paragraph (a) of this section may, in lieu of taking such deduction, elect to capitalize the portion of such circulation expenditures which is properly chargeable to capital account. As a general rule, expenditures normally made from year to year in an effort to maintain circulation are not properly chargeable to capital account; conversely, expenditures made in an effort to establish or to increase circulation are properly chargeable to capital account. For example, if a newspaper normally employs five persons to obtain renewals of subscriptions by telephone, the expenditures in connection therewith would not be properly chargeable to capital account. However, if such newspaper, in a special effort to increase its circulation, hires

for a limited period 20 additional employees to obtain new subscriptions by means of telephone calls to the general public, the expenditures in connection therewith would be properly chargeable to capital account. If an election is made by a taxpayer to treat any portion of his circulation expenditures as chargeable to capital account, the election must apply to all such expenditures which are properly so chargeable. In such case, no deduction shall be allowed under section 173 for any such expenditures. In particular cases, the extent to which any deductions attributable to the amortization of capital expenditures are allowed may be determined under sections 162, 263, and 461.

(2) A taxpayer may make the election referred to in subparagraph (1) of this paragraph by attaching a statement to his return for the first taxable year to which the election is applicable. Once an election is made, the taxpayer must continue in subsequent taxable years to charge to capital account all circulation expenditures properly so chargeable, unless the Commissioner, on application made to him in writing by the taxpayer, permits a revocation of such election for any subsequent taxable year or years. Permission to revoke such election may be granted subject to such conditions as the Commissioner deems necessary.

(3) Elections filed under section 23(bb) of the Internal Revenue Code of 1939 shall be given the same effect as if they were filed under section 173. (See section 7807(b)(2).)

§ 1.174-1 Research and experimental expenditures; in general.

Section 174 provides two methods for treating research or experimental expenditures paid or incurred by the taxpayer in connection with his trade or business. These expenditures may be treated as expenses not chargeable to capital account and deducted in the year in which they are paid or incurred (see § 1.174-3), or they may be deferred and amortized (see § 1.174-4). Research or experimental expenditures which are neither treated as expenses nor deferred and amortized under section 174 must be charged to capital account. The expenditures to which section 174 applies may relate either to a general

research program or to a particular project. See § 1.174-2 for the definition of research and experimental expenditures. The term *paid or incurred*, as used in section 174 and in §§ 1.174-1 to 1.174-4, inclusive, is to be construed according to the method of accounting used by the taxpayer in computing taxable income. See section 7701(a)(25).

§ 1.174-2 Definition of research and experimental expenditures.

(a) *In general.* (1) *Research or experimental expenditures defined.* The term *research or experimental expenditures*, as used in section 174, means expenditures incurred in connection with the taxpayer's trade or business which represent research and development costs in the experimental or laboratory sense. The term generally includes all such costs incident to the development or improvement of a product. The term includes the costs of obtaining a patent, such as attorneys' fees expended in making and perfecting a patent application. Expenditures represent research and development costs in the experimental or laboratory sense if they are for activities intended to discover information that would eliminate uncertainty concerning the development or improvement of a product. Uncertainty exists if the information available to the taxpayer does not establish the capability or method for developing or improving the product or the appropriate design of the product. Whether expenditures qualify as research or experimental expenditures depends on the nature of the activity to which the expenditures relate, not the nature of the product or improvement being developed or the level of technological advancement the product or improvement represents. The ultimate success, failure, sale, or use of the product is not relevant to a determination of eligibility under section 174. Costs may be eligible under section 174 if paid or incurred after production begins but before uncertainty concerning the development or improvement of the product is eliminated.

(2) *Production costs.* Except as provided in paragraph (a)(5) of this section (the rule concerning the application of

section 174 to components of a product), costs paid or incurred in the production of a product after the elimination of uncertainty concerning the development or improvement of the product are not eligible under section 174.

(3) *Product defined.* For purposes of this section, the term *product* includes any pilot model, process, formula, invention, technique, patent, or similar property, and includes products to be used by the taxpayer in its trade or business as well as products to be held for sale, lease, or license.

(4) *Pilot model defined.* For purposes of this section, the term *pilot model* means any representation or model of a product that is produced to evaluate and resolve uncertainty concerning the product during the development or improvement of the product. The term includes a fully-functional representation or model of the product or, to the extent paragraph (a)(5) of this section applies, a component of the product.

(5) *Application of section 174 to components of a product.* If the requirements of paragraph (a)(1) of this section are not met at the level of a product (as defined in paragraph (a)(3) of this section), then whether expenditures represent research and development costs is determined at the level of the component or subcomponent of the product. The presence of uncertainty concerning the development or improvement of certain components of a product does not necessarily indicate the presence of uncertainty concerning the development or improvement of other components of the product or the product as a whole. The rule in this paragraph (a)(5) is not itself applied as a reason to exclude research or experimental expenditures from section 174 eligibility.

(6) *Research or experimental expenditures—exclusions.* The term *research or experimental expenditures* does not include expenditures for—

- (i) The ordinary testing or inspection of materials or products for quality control (quality control testing);
- (ii) Efficiency surveys;
- (iii) Management studies;
- (iv) Consumer surveys;
- (v) Advertising or promotions;

(vi) The acquisition of another's patent, model, production or process; or

(vii) Research in connection with literary, historical, or similar projects.

(7) *Quality control testing.* For purposes of paragraph (a)(6)(i) of this section, testing or inspection to determine whether particular units of materials or products conform to specified parameters is quality control testing. However, quality control testing does not include testing to determine if the design of the product is appropriate.

(8) *Expenditures for literary, historical, or similar research—cross reference.* See section 263A and the regulations thereunder for cost capitalization rules which apply to expenditures paid or incurred for research in connection with literary, historical, or similar projects involving the production of property, including the production of films, sound recordings, video tapes, books, or similar properties.

(9) *Research or experimental expenditures limited to reasonable amounts.* Section 174 applies to a research or experimental expenditure only to the extent that the amount of the expenditure is reasonable under the circumstances. In general, the amount of an expenditure for research or experimental activities is reasonable if the amount would ordinarily be paid for like activities by like enterprises under like circumstances. Amounts supposedly paid for research that are not reasonable under the circumstances may be characterized as disguised dividends, gifts, loans, or similar payments. The reasonableness requirement of this paragraph (a)(9) does not apply to the reasonableness of the type or nature of the activities themselves.

(10) *Amounts paid to others for research or experimentation.* The provisions of this section apply not only to costs paid or incurred by the taxpayer for research or experimentation undertaken directly by him but also to expenditures paid or incurred for research or experimentation carried on in his behalf by another person or organization (such as a research institute, foundation, engineering company, or similar contractor). However, any expenditures for research or experimentation carried on in the taxpayer's behalf by another person are not expenditures to which

section 174 relates, to the extent that they represent expenditures for the acquisition or improvement of land or depreciable property, used in connection with the research or experimentation, to which the taxpayer acquires rights of ownership.

(11) *Examples.* The following examples illustrate the application of this paragraph (a).

Example 1. Amounts paid to others for research or experimentation allowed as a deduction. A engages B to undertake research and experimental work in order to create a particular product. B will be paid annually a fixed sum plus an amount equivalent to his actual expenditures. In 1957, A pays to B in respect of the project the sum of \$150,000 of which \$25,000 represents an addition to B's laboratory and the balance represents charges for research and experimentation on the project. It is agreed between the parties that A will absorb the entire cost of this addition to B's laboratory which will be retained by B. A may treat the entire \$150,000 as expenditures under section 174.

Example 2. Amounts paid to others not allowable as a deduction. S Corporation, a manufacturer of explosives, contracts with the T research organization to attempt through research and experimentation the creation of a new process for making certain explosives. Because of the danger involved in such an undertaking, T is compelled to acquire an isolated tract of land on which to conduct the research and experimentation. It is agreed that upon completion of the project T will transfer this tract, including any improvements thereon, to S. Section 174 does not apply to the amount paid to T representing the costs of the tract of land and improvements.

Example 3. Pilot model. U is engaged in the manufacture and sale of custom machines. U contracts to design and produce a machine to meet a customer's specifications. Because U has never designed a machine with these specifications, U is uncertain regarding the appropriate design of the machine, and particularly whether features desired by the customer can be designed and integrated into a functional machine. U incurs a total of \$31,000 on the project. Of the \$31,000, U incurs \$10,000 of costs on materials and labor to produce a model that is used to evaluate and resolve the uncertainty concerning the appropriate design. U also incurs \$1,000 of costs using the model to test whether certain features can be integrated into the design of the machine. This \$11,000 of costs represents research and development costs in the experimental or laboratory sense. After uncertainty is eliminated, U incurs \$20,000 to produce the machine for sale to the customer based on the appropriate design. The model

produced and used to evaluate and resolve uncertainty is a pilot model within the meaning of paragraph (a)(4) of this section. Therefore, the \$10,000 incurred to produce the model and the \$1,000 incurred on design testing activities qualifies as research or experimental expenditures under section 174. However, section 174 does not apply to the \$20,000 that U incurred to produce the machine for sale to the customer based on the appropriate design. See paragraph (a)(2) of this section (relating to production costs).

Example 4. Product component redesign. Assume the same facts as *Example 3*, except that during a quality control test of the machine, a component of the machine fails to function due to the component's inappropriate design. U incurs an additional \$8,000 (including design retesting) to reconfigure the component's design. The \$8,000 of costs represents research and development costs in the experimental or laboratory sense. After the elimination of uncertainty regarding the appropriate design of the component, U incurs an additional \$2,000 on its production. The reconfigured component produced and used to evaluate and resolve uncertainty with respect to the component is a pilot model within the meaning of paragraph (a)(4) of this section. Therefore, in addition to the \$11,000 of research and experimental expenditures previously incurred, the \$8,000 incurred on design activities to establish the appropriate design of the component qualifies as research or experimental expenditures under section 174. However, section 174 does not apply to the additional \$2,000 that U incurred for the production after the elimination of uncertainty of the re-designed component based on the appropriate design or to the \$20,000 previously incurred to produce the machine. See paragraph (a)(2) of this section (relating to production costs).

Example 5. Multiple pilot models. V is a manufacturer that designs a new product. V incurs \$5,000 to produce a number of models of the product that are to be used in testing the appropriate design before the product is mass-produced for sale. The \$5,000 of costs represents research and development costs in the experimental or laboratory sense. Multiple models are necessary to test the design in a variety of different environments (exposure to extreme heat, exposure to extreme cold, submersion, and vibration). In some cases, V uses more than one model to test in a particular environment. Upon completion of several years of testing, V enters into a contract to sell one of the models to a customer and uses another model in its trade or business. The remaining models were rendered inoperable as a result of the testing process. Because V produced the models to resolve uncertainty regarding the appropriate design of the product, the models are pilot models under paragraph (a)(4) of this section. Therefore, the \$5,000 that V incurred

in producing the models qualifies as research or experimental expenditures under section 174. See also paragraph (a)(1) of this section (ultimate use is not relevant).

Example 6. Development of a new component; pilot model. W wants to improve a machine for use in its trade or business and incurs \$20,000 to develop a new component for the machine. The \$20,000 is incurred for engineering labor and materials to produce a model of the new component that is used to eliminate uncertainty regarding the development of the new component for the machine. The \$20,000 of costs represents research and experimental costs in the experimental or laboratory sense. After W completes its research and experimentation on the new component, W incurs \$10,000 for materials and labor to produce the component and incorporate it into the machine. The model produced and used to evaluate and resolve uncertainty with respect to the new component is a pilot model within the meaning of paragraph (a)(4) of this section. Therefore, the \$20,000 incurred to produce the model and eliminate uncertainty regarding the development of the new component qualifies as research or experimental expenditures under section 174. However, section 174 does not apply to the \$10,000 of production costs of the component because those costs were not incurred for research or experimentation. See paragraph (a)(2) of this section (relating to production costs).

Example 7. Disposition of a pilot model. X is a manufacturer of aircraft. X is researching and developing a new, experimental aircraft that can take off and land vertically. To evaluate and resolve uncertainty during the development or improvement of the product and test the appropriate design of the experimental aircraft, X produces a working aircraft at a cost of \$5,000,000. The \$5,000,000 of costs represents research and development costs in the experimental or laboratory sense. In a later year, X sells the aircraft. Because X produced the aircraft to resolve uncertainty regarding the appropriate design of the product during the development of the experimental aircraft, the aircraft is a pilot model under paragraph (a)(4) of this section. Therefore, the \$5,000,000 of costs that X incurred in producing the aircraft qualifies as research or experimental expenditures under section 174. Further, it would not matter if X sold the pilot model or incorporated it in its own business as a demonstration model. See paragraph (a)(1) of this section (ultimate use is not relevant).

Example 8. Development of new component; pilot model. Y is a manufacturer of aircraft engines. Y is researching and developing a new type of compressor blade, a component of an aircraft engine, to improve the performance of an existing aircraft engine design that Y already manufactures and sells. To test the appropriate design of the new

compressor blade and evaluate the impact of fatigue on the compressor blade design, Y produces and installs the compressor blade on an aircraft engine held by Y in its inventory. The costs of producing and installing the compressor blade component that Y incurred represent research and development costs in the experimental or laboratory sense. Because Y produced the compressor blade component to resolve uncertainty regarding the appropriate design of the component, the component is a pilot model under paragraph (a)(4) of this section. Therefore, the costs that Y incurred to produce and install the component qualify as research or experimental expenditures under section 174. See paragraph (a)(5) of this section (regarding the application of section 174 to components of a product). However, section 174 does not apply to Y's costs of producing the aircraft engine on which the component was installed. See paragraph (a)(2) of this section (relating to production costs).

Example 9. Variant product. T is a fuselage manufacturer for commercial and military aircraft. T is modifying one of its existing fuselage products, Class 20XX-1, to enable it to carry a larger passenger and cargo load. T modifies the Class 20XX-1 design by extending its length by 40 feet. T incurs \$1,000,000 to develop and evaluate different designs to resolve uncertainty with respect to the appropriate design of the new fuselage class, Class 20XX-2. The \$1,000,000 of costs represents research and development costs in the experimental or laboratory sense. Although Class 20XX-2, is a variant of Class 20XX-1, Class 20XX-2 is a new product because the information available to T as a result of T's development of Class 20XX-1 does not resolve uncertainty with respect to T's development of Class 20XX-2. Therefore, the \$1,000,000 of costs that T incurred to develop and evaluate the Class 20XX-2 qualifies as research or experimental expenditures under section 174. Paragraph (a)(5) of this section does not apply, as the requirements of paragraph (a)(1) of this section are met with respect to the entire product.

Example 10. New process development. Z is a wine producer. Z is researching and developing a new wine production process that involves the use of a different method of crushing the wine grapes. In order to test the effectiveness of the new method of crushing wine grapes, Z incurs \$2,000 in labor and materials to conduct the test on this part of the new manufacturing process. The \$2,000 of costs represents research and development costs in the experimental or laboratory sense. Therefore, the \$2,000 incurred qualifies as research or experimental expenditures under section 174 because it is a cost incident to the development or improvement of a component of a process.

(b) *Certain expenditures with respect to land and other property.* (1) *Land and other property.* Expenditures by the taxpayer for the acquisition or improvement of land, or for the acquisition or improvement of property which is subject to an allowance for depreciation under section 167 or depletion under section 611, are not deductible under section 174, irrespective of the fact that the property or improvements may be used by the taxpayer in connection with research or experimentation. However, allowances for depreciation or depletion of property are considered as research or experimental expenditures, for purposes of section 174, to the extent that the property to which the allowances relate is used in connection with research or experimentation. If any part of the cost of acquisition or improvement of depreciable property is attributable to research or experimentation (whether made by the taxpayer or another), see subparagraphs (2), (3), and (4) of this paragraph.

(2) *Expenditure resulting in depreciable property.* Expenditures for research or experimentation which result, as an end product of the research or experimentation, in depreciable property to be used in the taxpayer's trade or business may, subject to the limitations of subparagraph (4) of this paragraph, be allowable as a current expense deduction under section 174(a). Such expenditures cannot be amortized under section 174(b) except to the extent provided in paragraph (a)(4) of § 1.174-4.

(3) *Amounts paid to others for research or experimentation resulting in depreciable property.* If expenditures for research or experimentation are incurred in connection with the construction or manufacture of depreciable property by another, they are deductible under section 174(a) only if made upon the taxpayer's order and at his risk. No deduction will be allowed (i) if the taxpayer purchases another's product under a performance guarantee (whether express, implied, or imposed by local law) unless the guarantee is limited, to engineering specifications or otherwise, in such a way that economic utility is not taken into account; or (ii) for any part of the purchase price of a product in regular production. For example, if a taxpayer orders a specially-built auto-

matic milling machine under a guarantee that the machine will be capable of producing a given number of units per hour, no portion of the expenditure is deductible since none of it is made at the taxpayer's risk. Similarly, no deductible expense is incurred if a taxpayer enters into a contract for the construction of a new type of chemical processing plant under a turn-key contract guaranteeing a given annual production and a given consumption of raw material and fuel per unit. On the other hand, if the contract contained no guarantee of quality of production and of quantity of units in relation to consumption of raw material and fuel, and if real doubt existed as to the capabilities of the process, expenses for research or experimentation under the contract are at the taxpayer's risk and are deductible under section 174(a). However, see subparagraph (4) of this paragraph.

(4) *Deductions limited to amounts expended for research or experimentation.* The deductions referred to in paragraphs (b)(2) and (3) of this section for expenditures in connection with the acquisition or production of depreciable property to be used in the taxpayer's trade or business are limited to amounts expended for research or experimentation within the meaning of section 174 and paragraph (a) of this section.

(5) *Examples.* The following examples illustrate the application of paragraph (b) of this section.

Example 1. Amounts paid to others for research or experimentation resulting in depreciable property. X is a tool manufacturer. X has developed a new tool design, and orders a specially-built machine from Y to produce X's new tool. The machine is built upon X's order and at X's risk, and Y does not provide a guarantee of economic utility. There is uncertainty regarding the appropriate design of the machine. Under X's contract with Y, X pays \$15,000 for Y's engineering and design labor, \$5,000 for materials and supplies used to develop the appropriate design of the machine, and \$10,000 for Y's machine production materials and labor. The \$15,000 of engineering and design labor costs and the \$5,000 of materials and supplies costs represent research and development costs in the experimental or laboratory sense. Therefore, the \$15,000 X pays Y for Y's engineering and design labor and the \$5,000 for materials and

§ 1.174-3

26 CFR Ch. I (4-1-17 Edition)

supplies used to develop the appropriate design of the machine are for research or experimentation under section 174. However, section 174 does not apply to the \$10,000 of production costs of the machine because those costs were not incurred for research or experimentation. See paragraph (a)(2) of this section (relating to production costs) and paragraph (b)(4) of this section (limiting deduction to amounts expended for research or experimentation).

Example 2. Expenditures with respect to other property. Z is an aircraft manufacturer. Z incurs \$5,000,000 to construct a new test bed that will be used in the development and improvement of Z's aircraft. No portion of Z's \$5,000,000 of costs to construct the new test bed represent research and development costs in the experimental or laboratory sense to develop or improve the test bed. Because no portion of the costs to construct the new test bed were incurred for research or experimentation, the \$5,000,000 will be considered an amount paid or incurred in the production of depreciable property to be used in the taxpayer's trade or business that are not allowable under section 174. However, the allowances for depreciation of the test bed are considered research and experimental expenditures of other products, for purposes of section 174, to the extent the test bed is used in connection with research or experimentation of other products. See paragraph (b)(1) of this section (depreciation allowances may be considered research or experimental expenditures).

Example 3. Expenditure resulting in depreciable property. Assume the same facts as *Example 2*, except that \$50,000 of the costs of the test bed relates to costs to resolve uncertainties regarding the new test bed design. The \$50,000 of costs represents research and development costs in the experimental or laboratory sense. Because \$50,000 of Z's costs to construct the new test bed was incurred for research and experimentation, the costs qualify as research or experimental expenditures under section 174. Paragraph (b)(2) of this section applies to \$50,000 of Z's costs for the test bed because they are expenditures for research or experimentation that result in depreciable property to be used in the taxpayer's trade or business. Z's remaining \$4,950,000 of costs is not allowable under section 174 because these costs were not incurred for research or experimentation.

(c) *Exploration expenditures.* The provisions of section 174 are not applicable to any expenditures paid or incurred for the purpose of ascertaining the existence, location, extent, or quality of any deposit of ore, oil, gas or other mineral. See sections 617 and 263.

(d) *Effective/applicability date.* The eighth and ninth sentences of § 1.174-

2(a)(1); § 1.174-2(a)(2); § 1.174-2(a)(4); § 1.174-2(a)(5); § 1.174-2(a)(11) *Example 3* through *Example 10*; § 1.174-2(b)(4); and § 1.174-2(b)(5) apply to taxable years ending on or after July 21, 2014. Taxpayers may apply the provisions enumerated in the preceding sentence to taxable years for which the limitations for assessment of tax has not expired.

[T.D. 6500, 25 FR 11402, Nov. 26, 1960, as amended by T.D. 8562, 59 FR 50160, Oct. 3, 1994; T.D. 9680, 79 FR 42195, July 21, 2014]

§ 1.174-3 Treatment as expenses.

(a) *In general.* Research or experimental expenditures paid or incurred by a taxpayer during the taxable year in connection with his trade or business are deductible as expenses, and are not chargeable to capital account, if the taxpayer adopts the method provided in section 174(a). See paragraph (b) of this section. If adopted, the method shall apply to all research and experimental expenditures paid or incurred in the taxable year of adoption and all subsequent taxable years, unless a different method is authorized by the Commissioner under section 174(a)(3) with respect to part or all of the expenditures. See paragraph (b)(3) of this section. Thus, if a change to the deferred expense method under section 174(b) is authorized by the Commissioner with respect to research or experimental expenditures attributable to a particular project or projects, the taxpayer, for the taxable year of the change and for subsequent taxable years, must apply the deferred expense method to all such expenditures paid or incurred during any of those taxable years in connection with the particular project or projects, even though all other research and experimental expenditures are required to be deducted as current expenses under this section. In no event will the taxpayer be permitted to adopt the method described in this section as to part of the expenditures relative to a particular project and adopt for the same taxable year a different method of treating the balance of the expenditures relating to the same project.

(b) *Adoption and change of method—(1) Adoption without consent.* The method described in this section may be adopted for any taxable year beginning after

December 31, 1953, and ending after August 16, 1954. The consent of the Commissioner is not required if the taxpayer adopts the method for the first such taxable year in which he pays or incurs research or experimental expenditures. The taxpayer may do so by claiming in his income tax return for such year a deduction for his research or experimental expenditures. If the taxpayer fails to adopt the method for the first taxable year in which he incurs such expenditures, he cannot do so in subsequent taxable years unless he obtains the consent of the Commissioner under section 174(a)(2)(B) and subparagraph (2) of this paragraph. See, however, subparagraph (4) of this paragraph, relating to extensions of time.

(2) *Adoption with consent.* A taxpayer may, with the consent of the Commissioner, adopt at any time the method provided in section 174(a). The method adopted in this manner shall be applicable only to expenditures paid or incurred during the taxable year for which the request is made and in subsequent taxable years. A request to adopt this method shall be in writing and shall be addressed to the Commissioner of Internal Revenue, Attention: T:R, Washington, DC, 20224. The request shall set forth the name and address of the taxpayer, the first taxable year for which the adoption of the method is requested, and a description of the project or projects with respect to which research or experimental expenditures are to be, or have already been, paid or incurred. The request shall be signed by the taxpayer (or his duly authorized representative) and shall be filed not later than the last day of the first taxable year for which the adoption of the method is requested. See, however, subparagraph (4) of this paragraph, relating to extensions of time.

(3) *Change of method.* An application for permission to change to a different method of treating research or experimental expenditures shall be in writing and shall be addressed to the Commissioner of Internal Revenue, Attention: T:R, Washington, DC, 20224. The application shall include the name and address of the taxpayer, shall be signed by the taxpayer (or his duly authorized

representative), and shall be filed not later than the last day of the first taxable year for which the change in method is to apply. See, however, subparagraph (4) of this paragraph, relating to extensions of time. The application shall:

(i) State the first year to which the requested change is to be applicable;

(ii) State whether the change is to apply to all research or experimental expenditures paid or incurred by the taxpayer, or only to expenditures attributable to a particular project or projects;

(iii) Include such information as will identify the project or projects to which the change is applicable;

(iv) Indicate the number of months (not less than 60) selected for amortization of the expenditures, if any, which are to be treated as deferred expenses under section 174(b);

(v) State that, upon approval of the application, the taxpayer will make an accounting segregation on his books and records of the research or experimental expenditures to which the change in method is to apply; and

(vi) State the reasons for the change.

If permission is granted to make the change, the taxpayer shall attach a copy of the letter granting permission to his income tax return for the first taxable year in which the different method is effective.

(4) *Special rules.* If the last day prescribed by law for filing a return for any taxable year (including extensions thereof) to which section 174(a) is applicable falls before January 2, 1958, consent is hereby given for the taxpayer to adopt the expense method or to change from the expense method to a different method. In the case of a change from the expense method to a different method, the taxpayer, on or before January 2, 1958, must submit to the district director for the internal revenue district in which the return was filed the information required by subparagraph (3) of this paragraph. For any taxable year for which the expense method or a different method is adopted pursuant to this subparagraph, an amended return reflecting such method shall be filed on or before January 2, 1958, if such return is necessary.

§ 1.174-4 Treatment as deferred expenses.

(a) *In general.* (1) If a taxpayer has not adopted the method provided in section 174(a) of treating research or experimental expenditures paid or incurred by him in connection with his trade or business as currently deductible expenses, he may, for any taxable year beginning after December 31, 1953, elect to treat such expenditures as deferred expenses under section 174(b), subject to the limitations of subparagraph (2) of this paragraph. If a taxpayer has adopted the method of treating such expenditures as expenses under section 174(a), he may not elect to defer and amortize any such expenditures unless permission to do so is granted under section 174(a)(3). See paragraph (b) of this section.

(2) The election to treat research or experimental expenditures as deferred expenses under section 174(b) applies only to those expenditures which are chargeable to capital account but which are not chargeable to property of a character subject to an allowance for depreciation or depletion under section 167 or 611, respectively. Thus, the election under section 174(b) applies only if the property resulting from the research or experimental expenditures has no determinable useful life. If the property resulting from the expenditures has a determinable useful life, section 174(b) is not applicable, and the capitalized expenditures must be amortized or depreciated over the determinable useful life. Amounts treated as deferred expenses are properly chargeable to capital account for purposes of section 1016(a)(1), relating to adjustments to basis of property. See section 1016(a)(14). See section 174(c) and paragraph (b)(1) of § 1.174-2 for treatment of expenditures for the acquisition or improvement of land or of depreciable or depletable property to be used in connection with the research or experimentation.

(3) Expenditures which are treated as deferred expenses under section 174(b) are allowable as a deduction ratably over a period of not less than 60 consecutive months beginning with the month in which the taxpayer first realizes benefits from the expenditures. The length of the period shall be se-

lected by the taxpayer at the time he makes the election to defer the expenditures. If a taxpayer has two or more separate projects, he may select a different amortization period for each project. In the absence of a showing to the contrary, the taxpayer will be deemed to have begun to realize benefits from the deferred expenditures in the month in which the taxpayer first puts the process, formula, invention, or similar property to which the expenditures relate to an income-producing use. See section 1016(a)(14) for adjustments to basis of property for amounts allowed as deductions under section 174(b) and this section. See section 165 and the regulations thereunder for rules relating to the treatment of losses resulting from abandonment.

(4) If expenditures which the taxpayer has elected to defer and deduct ratably over a period of time in accordance with section 174(b) result in the development of depreciable property, deductions for the unrecovered expenditures, beginning with the time the asset becomes depreciable in character, shall be determined under section 167 (relating to depreciation) and the regulations thereunder. For example, for the taxable year 1954, A, who reports his income on the basis of a calendar year, elects to defer and deduct ratably over a period of 60 months research and experimental expenditures made in connection with a particular project. In 1956, the total of the deferred expenditures amounts to \$60,000. At that time, A has developed a process which he seeks to patent. On July 1, 1956, A first realized benefits from the marketing of products resulting from this process. Therefore, the expenditures deferred are deductible ratably over the 60-month period beginning with July 1, 1956 (when A first realized benefits from the project). In his return for the year 1956, A deducted \$6,000; in 1957, A deducted \$12,000 (\$1,000 per month). On July 1, 1958, a patent protecting his process is obtained by A. In his return for 1958, A is entitled to a deduction of \$6,000, representing the amortizable portion of the deferred expenses attributable to the period prior to July 1, 1958. The balance of the unrecovered expenditures (\$60,000 minus \$24,000, or

\$36,000) is to be recovered as a depreciation deduction over the life of the patent commencing with July 1, 1958. Thus, one-half of the annual depreciation deduction based upon the useful life of the patent is also deductible for 1958 (from July 1 to December 31).

(5) The election shall be applicable to all research and experimental expenditures paid or incurred by the taxpayer or, if so limited by the taxpayer's election, to all such expenditures with respect to the particular project, subject to the limitations of subparagraph (2) of this paragraph. The election shall apply for the taxable year for which the election is made and for all subsequent taxable years, unless a change to a different treatment is authorized by the Commissioner under section 174(b)(2). See paragraph (b)(2) of this section. Likewise, the taxpayer shall adhere to the amortization period selected at the time of the election unless a different period of amortization with respect to a part or all of the expenditures is similarly authorized. However, no change in method will be permitted with respect to expenditures paid or incurred before the taxable year to which the change is to apply. In no event will the taxpayer be permitted to treat part of the expenditures with respect to a particular project as deferred expenses under section 174(b) and to adopt a different method of treating the balance of the expenditures relating to the same project for the same taxable year. The election under this section shall not apply to any expenditures paid or incurred before the taxable year for which the taxpayer makes the election.

(b) *Election and change of method*—(1) *Election.* The election under section 174(b) shall be made not later than the time (including extensions) prescribed by law for filing the return for the taxable year for which the method is to be adopted. The election shall be made by attaching a statement to the taxpayer's return for the first taxable year to which the election is applicable. The statement shall be signed by the taxpayer (or his duly authorized representative), and shall:

(i) Set forth the name and address of the taxpayer;

(ii) Designate the first taxable year to which the election is to apply;

(iii) State whether the election is intended to apply to all expenditures within the permissible scope of the election, or only to a particular project or projects, and, if the latter, include such information as will identify the project or projects as to which the election is to apply;

(iv) Set forth the amount of all research or experimental expenditures paid or incurred during the taxable year for which the election is made;

(v) Indicate the number of months (not less than 60) selected for amortization of the deferred expenses for each project; and

(vi) State that the taxpayer will make an accounting segregation in his books and records of the expenditures to which the election relates.

(2) *Change to a different method or period.* Application for permission to change to a different method of treating research or experimental expenditures or to a different period of amortization for deferred expenses shall be in writing and shall be addressed to the Commissioner of Internal Revenue, Attention: T:R, Washington, DC, 20224. The application shall include the name and address of the taxpayer, shall be signed by the taxpayer (or his duly authorized representative), and shall be filed not later than the end of the first taxable year in which the different method or different amortization period is to be used (unless subparagraph (3) of this paragraph, relating to extensions of time, is applicable). The application shall set forth the following information with regard to the research or experimental expenditures which are being treated under section 174(b) as deferred expenses:

(i) Total amount of research or experimental expenditures attributable to each project;

(ii) Amortization period applicable to each project; and

(iii) Unamortized expenditures attributable to each project at the beginning of the taxable year in which the application is filed.

In addition, the application shall set forth the length of the new period or periods proposed, or the new method of treatment proposed, the reasons for the

§ 1.175-1

proposed change, and such information as will identify the project or projects to which the expenditures affected by the change relate. If permission is granted to make the change, the taxpayer shall attach a copy of the letter granting the permission to his income tax return for the first taxable year in which the different method or period is to be effective.

(3) *Special rules.* If the last day prescribed by law for filing a return for any taxable year for which the deferred method provided in section 174(b) has been adopted falls before January 2, 1958, consent is hereby given for the taxpayer to change from such method and adopt a different method of treating research or experimental expenditures, provided that on or before January 2, 1958, he submits to the district director for the district in which the return was filed the information required by subparagraph (2) of this paragraph, relating to a change to a different method or period. For any taxable year for which the different method is adopted pursuant to this subparagraph, an amended return reflecting such method shall be filed on or before January 2, 1958.

(c) *Example.* The application of this section is illustrated by the following example:

Example. N Corporation is engaged in the business of manufacturing chemical products. On January 1, 1955, work is begun on a special research project. N Corporation elects, pursuant to section 174(b), to defer the expenditures relating to the special project and to amortize the expenditures over a period of 72 months beginning with the month in which benefits from the expenditures are first realized. On January 1, 1955, N Corporation also purchased for \$57,600 a building having a remaining useful life of 12 years as of the date of purchase and no salvage value at the end of the period. Fifty percent of the building's facilities are to be used in connection with the special research project. During 1955, N Corporation pays or incurs the following expenditures relating to the special research project:

Salaries	\$15,000
Heat, light and power	700
Drawings	2,000
Models	6,500
Laboratory materials	8,000
Attorneys' fees	1,400
Depreciation on building attributable to project (50 percent of \$4,800 allowable depreciation)	2,400

26 CFR Ch. I (4-1-17 Edition)

Total research and development expenditures	36,000
---	--------

The above expenditures result in a process which is marketable but not patentable and which has no determinable useful life. N Corporation first realizes benefits from the process in January 1956. N Corporation is entitled to deduct the amount of \$6,000 (\$36,000 × 12 months ÷ 72 months) as deferred expenses under section 174(b) in computing taxable income for 1956.

§ 1.175-1 Soil and water conservation expenditures; in general.

Under section 175, a farmer may deduct his soil or water conservation expenditures which do not give rise to a deduction for depreciation and which are not otherwise deductible. The amount of the deduction is limited annually to 25 percent of the taxpayer's gross income from farming. Any excess may be carried over and deducted in succeeding taxable years. As a general rule, once a farmer has adopted this method of treating soil and water conservation expenditures, he must deduct all such expenditures (subject to the 25-percent limitation) for the current and subsequent taxable years. If a farmer does not adopt this method, such expenditures increase the basis of the property to which they relate.

§ 1.175-2 Definition of soil and water conservation expenditures.

(a) *Expenditures treated as a deduction.*
(1) The method described in section 175 applies to expenditures paid or incurred for the purpose of soil or water conservation in respect of land used in farming, or for the prevention of erosion of land used in farming, but only if such expenditures are made in the furtherance of the business of farming. More specifically, a farmer may deduct expenditures made for these purposes which are for (i) the treatment or moving of earth, (ii) the construction, control, and protection of diversion channels, drainage ditches, irrigation ditches, earthen dams, watercourses, outlets, and ponds, (iii) the eradication of brush, and (iv) the planting of windbreaks. Expenditures for the treatment or moving of earth include but are not limited to expenditures for leveling, conditioning, grading, terracing, contour furrowing, and restoration of soil fertility. For rules relating to the

allocation of expenditures that benefit both land used in farming and other land of the taxpayer, see § 1.175-7.

(2) The following are examples of soil and water conservation: (i) Constructing terraces, or the like, to detain or control the flow of water, to check soil erosion on sloping land, to intercept runoff, and to divert excess water to protected outlets; (ii) constructing water detention or sediment retention dams to prevent or fill gullies, to retard or reduce run-off of water, or to collect stock water; and (iii) constructing earthen floodways, levies, or dikes, to prevent flood damage to farmland.

(b) *Expenditures not subject to section 175 treatment.* (1) The method described in section 175 applies only to expenditures for nondepreciable items. Accordingly, a taxpayer may not deduct expenditures for the purchase, construction, installation, or improvement of structures, appliances, or facilities subject to the allowance for depreciation. Thus, the method does not apply to depreciable nonearthen items such as those made of masonry or concrete (see section 167). For example, expenditures in respect of depreciable property include those for materials, supplies, wages, fuel, hauling, and dirt moving for making structures such as tanks, reservoirs, pipes, conduits, canals, dams, wells, or pumps composed of masonry, concrete, tile, metal, or wood. However, the method applies to expenditures for earthen items which are not subject to a depreciation allowance. For example, expenditures for earthen terraces and dams which are nondepreciable are deductible under section 175. For taxable years beginning after December 31, 1959, in the case of expenditures paid or incurred by farmers for fertilizer, lime, etc., for purposes other than soil or water conservation, see section 180 and the regulations thereunder.

(2) The method does not apply to expenses deductible apart from section 175. Adoption of the method is not necessary in order to deduct such expenses in full without limitation. Thus, the method does not apply to interest (deductible under section 163), nor to taxes (deductible under section 164). It does not apply to expenses for the re-

pair of completed soil or water conservation structures, such as costs of annual removal of sediment from a drainage ditch. It does not apply to expenditures paid or incurred primarily to produce an agricultural crop even though they incidentally conserve soil. Thus, the cost of fertilizing (the effectiveness of which does not last beyond one year) used to produce hay is deductible without adoption of the method prescribed in section 175. For taxable years beginning after December 31, 1959, in the case of expenditures paid or incurred by farmers for fertilizer, lime, etc., for purposes other than soil or water conservation, see section 180 and the regulations thereunder. However, the method would apply to expenses incurred to produce vegetation primarily to conserve soil or water or to prevent erosion. Thus, for example, the method would apply to such expenditures as the cost of dirt moving, lime, fertilizer, seed and planting stock used in gulley stabilization, or in stabilizing severely eroded areas, in order to obtain a soil binding stand of vegetation on raw or infertile land.

(c) *Assessments.* The method applies also to that part of assessments levied by a soil or water conservation or drainage district to reimburse it for its expenditures which, if actually paid or incurred during the taxable year by the taxpayer directly, would be deductible under section 175. Depending upon the farmer's method of accounting, the time when the farmer pays or incurs the assessment, and not the time when the expenditures are paid or incurred by the district, controls the time the deduction must be taken. The provisions of this paragraph may be illustrated by the following example:

Example. In 1955 a soil and water conservation district levies an assessment of \$700 upon a farmer on the cash method of accounting. The assessment is to reimburse the district for its expenditures in 1954. The farmer's share of such expenditures is as follows: \$400 for digging drainage ditches for soil conservation and \$300 for assets subject to the allowance for depreciation. If the farmer pays the assessment in 1955 and has adopted the method of treating expenditures for soil or water conservation as current expenses under section 175, he may deduct in 1955 the \$400 attributable to the digging of

§ 1.175-3

26 CFR Ch. I (4-1-17 Edition)

drainage ditches as a soil conservation expenditure subject to the 25-percent limitation.

(74 Stat. 1001; 26 U.S.C. 180)

[T.D. 6500, 25 FR 11402, Nov. 26, 1960, as amended by T.D. 6548, 26 FR 1487, Feb. 22, 1961; T.D. 7740, 45 FR 78634, Nov. 26, 1980]

§ 1.175-3 Definition of “the business of farming.”

The method described in section 175 is available only to a taxpayer engaged in “the business of farming”. A taxpayer is engaged in the business of farming if he cultivates, operates, or manages a farm for gain or profit, either as owner or tenant. For the purpose of section 175, a taxpayer who receives a rental (either in cash or in kind) which is based upon farm production is engaged in the business of farming. However, a taxpayer who receives a fixed rental (without reference to production) is engaged in the business of farming only if he participates to a material extent in the operation or management of the farm. A taxpayer engaged in forestry or the growing of timber is not thereby engaged in the business of farming. A person cultivating or operating a farm for recreation or pleasure rather than a profit is not engaged in the business of farming. For the purpose of this section, the term *farm* is used in its ordinary, accepted sense and includes stock, dairy, poultry, fish, fruit, and truck farms, and also plantations, ranches, ranges, and orchards. A fish farm is an area where fish are grown or raised, as opposed to merely caught or harvested; that is, an area where they are artificially fed, protected, cared for, etc. A taxpayer is engaged in “the business of farming” if he is a member of a partnership engaged in the business of farming. See paragraphs (a)(8)(i) and (c)(1)(iv) of § 1.702-1.

[T.D. 6649, 28 FR 3762, Apr. 18, 1963]

§ 1.175-4 Definition of “land used in farming.”

(a) *Requirements.* For purposes of section 175, the term *land used in farming* means land which is used in the business of farming and which meets both of the following requirements:

(1) The land must be used for the production of crops, fruits, or other agri-

cultural products, including fish, or for the sustenance of livestock. The term *livestock* includes cattle, hogs, horses, mules, donkeys, sheep, goats, captive fur-bearing animals, chickens, turkeys, pigeons, and other poultry. Land used for the sustenance of livestock includes land used for grazing such livestock.

(2) The land must be or have been so used either by the taxpayer or his tenant at some time before or at the same time as, the taxpayer makes the expenditures for soil or water conservation or for the prevention of the erosion of land. The taxpayer will be considered to have used the land in farming before making such expenditure if he or his tenant has employed the land in a farming use in the past. If the expenditures are made by the taxpayer in respect of land newly acquired from one who immediately prior to the acquisition was using it in farming, the taxpayer will be considered to be using the land in farming at the time that such expenditures are made, if the use which is made by the taxpayer of the land from the time of its acquisition by him is substantially a continuation of its use in farming, whether for the same farming use as that of the taxpayer's predecessor or for one of the other uses specified in paragraph (a)(1) of this section.

(b) *Examples.* The provisions of paragraph (a) of this section may be illustrated by the following examples:

Example 1. A purchases an operating farm from B in the autumn after B has harvested his crops. Prior to spring plowing and planting when the land is idle because of the season, A makes certain soil and water conservation expenditures on this farm. At the time such expenditures are made the land is considered to be used by A in farming, and A may deduct such expenditures under section 175, subject to the other requisite conditions of such section.

Example 2. C acquires uncultivated land, not previously used in farming, which he intends to develop for farming. Prior to putting this land into production it is necessary for C to clear brush, construct earthen terraces and ponds, and make other soil and water conservation expenditures. The land is not used in farming at the same time that such expenditures are made. Therefore, C may not deduct such expenditures under section 175.

Internal Revenue Service, Treasury

§ 1.175-5

Example 3. D acquires several tracts of land from persons who had used such land immediately prior to D's acquisition for grazing cattle. D intends to use the land for growing grapes. In order to make the land suitable for this use, D constructs earthen terraces, builds drainage ditches and irrigation ditches, extensively treats the soil, and makes other soil and water conservation expenditures. The land is considered to be used in farming by D at the time he makes such expenditures, even though it is being prepared for a different type of farming activity than that engaged in by D's predecessors. Therefore, D may deduct such expenditures under section 175, subject to the other requisite conditions of such section.

(c) *Cross reference.* For rules relating to the allocation of expenditures that benefit both land used in farming and other land of the taxpayer, see § 1.175-7.

[T.D. 7740, 45 FR 78634, Nov. 26, 1980]

§ 1.175-5 Percentage limitation and carryover.

(a) *The limitation—(1) General rule.* The amount of soil and water conservation expenditures which the taxpayer may deduct under section 175 in any one taxable year is limited to 25 percent of his "gross income from farming".

(2) *Definition of "gross income from farming."* For the purpose of section 175, the term *gross income from farming* means the gross income of the taxpayer, derived in "the business of farming" as defined in § 1.175-3, from the production of crops, fruits, or other agricultural products, including fish, or from livestock (including livestock held for draft, breeding, or dairy purposes). It includes such income from land used in farming other than that upon which expenditures are made for soil or water conservation or for the prevention of erosion of land. It does not include gains from sales of assets such as farm machinery or gains from the disposition of land. A taxpayer shall compute his "gross income from farming" in accordance with his accounting method used in determining gross income. (See the regulations under section 61 relating to accounting methods used by farmers in determining gross income.) The provisions of this subparagraph may be illustrated by the following example:

Example. A, who uses the cash receipts and disbursements method of accounting, includes in his "gross income from farming" for purposes of determining the 25-percent limitation the following items:

Proceeds from sale of his 1955 yield of corn	\$10,000
Gain from disposition of old breeding cows replaced by younger cows	500
Total gross income from farming	10,500

A must exclude from "gross income from farming" the following items which are included in his gross income:

Gain from sale of tractor	\$100
Gain from sale of 40 acres of taxpayer's farm	8,000
Interest on loan to neighboring farmer	100

(3) *Deduction qualifies for net operating loss deduction.* Any amount allowed as a deduction under section 175, either for the year in which the expenditure is paid or incurred or for the year to which it is carried, is taken into account in computing a net operating loss for such taxable year. If a deduction for soil or water conservation expenditures has been taken into account in computing a net operating loss carryback or carryover, it shall not be considered a soil or water conservation expenditure for the year to which the loss is carried, and therefore, is not subject to the 25-percent limitation for that year. The provisions of this subparagraph may be illustrated by the following example:

Example. Assume that in 1956 A has gross income from farming of \$4,000, soil and water conservation expenditures of \$1,600 and deductible farm expenses of \$3,500. Of the soil and water conservation expenditures \$1,000 is deductible in 1956. The \$600 in excess of 25 percent of A's gross income from farming is carried over into 1957. Assuming that A has no other income, his deductions of \$4,500 (\$1,000 plus \$3,500) exceed his gross income of \$4,000 by \$500. This \$500 will constitute a net operating loss which he must carry back two years and carry forward five years, until it has offset \$500 of taxable income. No part of this \$500 net operating loss carryback or carryover will be taken into account in determining the amount of soil and water conservation expenditures in the years to which it is carried.

(b) *Carryover of expenditures in excess of deduction.* The deduction for soil and water conservation expenditures in any one taxable year is limited to 25 percent of the taxpayer's gross income from farming. The taxpayer may carry over the excess of such expenditures

§ 1.175-6

26 CFR Ch. I (4-1-17 Edition)

over 25 percent of his gross income from farming into his next taxable year, and, if not deductible in that year, into the next year, and so on without limit as to time. In determining the deductible amount of such expenditures for any taxable year, the actual expenditures of that year shall be added to any such expenditures carried over from prior years, before applying the 25-percent limitation. Any such expenditures in excess of the de-

ductible amount may be carried over during the taxpayer's entire existence. For this purpose in a farm partnership, since the 25-percent limitation is applied to each partner, not the partnership, the carryover may be carried forward during the life of the partner. The provisions of this paragraph may be illustrated by the following example:

Example. Assume the expenditures and income shown in the following table:

Year	Deductible soil and water conservation expenditures		Total	25 percent of gross income from farming	Excess to be carried forward
	Paid or incurred during taxable year	Carried forward from prior year			
1954	\$900	None	\$900	\$800	\$100
1955	1,000	\$100	1,100	900	200
1956	None	200	200	1,000	None

The deduction for 1954 is limited to \$800. The remainder, \$100 (\$900 minus \$800), not being deductible for 1954, is a carryover to 1955. For 1955, accordingly, the total of the expenditures to be taken into account is \$1,100 (the \$100 carryover and the \$1,000 actually paid in that year). The deduction for 1955 is limited to \$900, and the remainder of the \$1,100 total, or \$200, is a carryover to 1956. The deduction for 1956 consists solely of this carryover of \$200. Since the total expenditures, actual and carried-over, for 1956 are less than 25 percent of gross income from farming, there is no carryover into 1957.

[T.D. 6500, 25 FR 11402, Nov. 26, 1960, as amended by T.D. 6649, 28 FR 3762, Apr. 18, 1963]

§ 1.175-6 Adoption or change of method.

(a) *Adoption with consent.* A taxpayer may, without consent, adopt the method of treating expenditures for soil or water conservation as expenses for the first taxable year:

(1) Which begins after December 31, 1953, and ends after August 16, 1954, and

(2) For which soil or water conservation expenditures described in section 175(a) are paid or incurred.

Such adoption shall be made by claiming the deduction on his income tax return. For a taxable year ending prior to May 31, 1957, the adoption of the method described in section 175 shall be made by claiming the deduction on such return for that year, or by claiming the deduction on an amended re-

turn filed for that year on or before August 30, 1957.

(b) *Adoption with consent.* A taxpayer may adopt the method of treating soil and water conservation expenditures as provided by section 175 for any taxable year to which the section is applicable if consent is obtained from the district director for the internal revenue district in which the taxpayer's return is required to be filed.

(c) *Change of method.* A taxpayer who has adopted the method of treating expenditures for soil or water conservation, as provided by section 175, may change from this method and capitalize such expenditures made after the effective date of the change, if he obtains the consent of the district director for the internal revenue district in which his return is required to be filed.

(d) *Request for consent to adopt or change method.* Where the consent of the district director is required under paragraph (b) or (c) of this section, the request for his consent shall be in writing, signed by the taxpayer or his authorized representative, and shall be filed not later than the date prescribed by law for filing the income tax return for the first taxable year to which the adoption of, or change of, method is to apply, or not later than August 20, 1957, following their adoption, whichever is later. The request shall:

(1) Set forth the name and address of the taxpayer;

(2) Designate the first taxable year to which the method or change of method is to apply;

(3) State whether the method or change of method is intended to apply to all expenditures within the permissible scope of section 175, or only to a particular project or farm and, if the latter, include such information as will identify the project or farm as to which the method or change of method is to apply;

(4) Set forth the amount of all soil and water conservation expenditures paid or incurred during the first taxable year for which the method or change of method is to apply; and

(5) State that the taxpayer will make an accounting segregation in his books and records of the expenditures to which the election relates.

(e) *Scope of method.* Except with the consent of the district director as provided in paragraph (b) or (c) of this section, the taxpayer's method of treating soil and water conservation expenditures described in section 175 shall apply to all such expenditures for the taxable year of adoption and all subsequent taxable years. Although a taxpayer may have elected to deduct soil and water conservation expenditures, he may request an authorization to capitalize his soil and water conservation expenditures attributable to a special project or single farm. Similarly, a taxpayer who has not elected to deduct such expenditures may request an authorization to deduct his soil and water conservation expenditures attributable to a special project or single farm. The authorization with respect to the special project or single farm will not affect the method adopted with respect to the taxpayer's regularly incurred soil and water conservation expenditures. No adoption of, or change of, the method under section 175 will be permitted as to expenditures actually paid or incurred before the taxable year to which the method or change of method is to apply. Thus, if a taxpayer adopts such method for 1956, he cannot deduct any part of such expenditures which he capitalized, or should have capitalized, in 1955. Likewise, if a taxpayer who has adopted such method has an unused carryover of such expenditures in excess of the 25-percent limitation, and is

granted consent to capitalize soil and water conservation expenditures beginning in 1956, he cannot capitalize any part of the unused carryover. The excess expenditures carried over continue to be deductible to the extent of 25 percent of the taxpayer's gross income from farming. No adjustment to the basis of land shall be made under section 1016 for expenditures to which the method under section 175 applies. For example, A has an unused carryover of soil and water conservation expenditures amounting to \$5,000 as of December 31, 1956. On January 1, 1957, A sells his farm and goes out of the business of farming. The unused carryover of \$5,000 cannot be added to the basis of the farm for purposes of determining gain or loss on its sale. In 1959, A purchases another farm and resumes the business of farming. In such year, A may deduct the amount of the unused carryover to the extent of 25 percent of his gross income from farming and may carry over any excess to subsequent years.

§ 1.175-7 Allocation of expenditures in certain circumstances.

(a) *General rule.* If at the time the taxpayer paid or incurred expenditures for the purpose of soil or water conservation, or for the prevention of erosion of land, it was reasonable to believe that such expenditures would directly and substantially benefit land of the taxpayer which does not qualify as "land used in farming," as defined in § 1.175-4, as well as land of the taxpayer which does so qualify, then, for purposes of section 175, only a part of the taxpayer's total expenditures is in respect of "land used in farming."

(b) *Method of allocation.* The part of expenditures allocable to "land used in farming" generally equals the amount which bears the same proportion to the total amount of such expenditures as the area of land of the taxpayer used in farming which it was reasonable to believe would be directly and substantially benefited as a result of the expenditures bears to the total area of land of the taxpayer which it was reasonable to believe would be so benefited. If it is established by clear and convincing evidence that, in the light

of all the facts and circumstances, another method of allocation is more reasonable than the method provided in the preceding sentence, the taxpayer may allocate the expenditures under that other method. For purposes of this section, the term *land of the taxpayer* means land with respect to which the taxpayer has title, leasehold, or some other substantial interest.

(c) *Examples.* The provisions of this section may be illustrated by the following examples:

Example 1. A owns a 200-acre tract of land, 80 acres of which qualify as "land used in farming." A makes expenditures for the purpose of soil and water conservation which can reasonably be expected to directly and substantially benefit the entire 200-acre tract. In the absence of clear and convincing evidence that a different allocation is more reasonable, A may deduct 40 percent (80/200) of such expenditures under section 175. The same result would obtain if A had made the expenditures after newly acquiring the tract from a person who had used 80 of the 200 acres in farming immediately prior to A's acquisition.

Example 2. Assume the same facts as in *Example 1*, except that A's expenditures for the purpose of soil and water conservation can reasonably be expected to directly and substantially benefit only the 80 acres which qualify as land used in farming; any benefit to the other 120 acres would be minor and incidental. A may deduct all of such expenditures under section 175.

Example 3. Assume the same facts as in *Example 1*, except that A's expenditures for the purpose of soil and water conservation can reasonably be expected to directly and substantially benefit only the 120 acres which do not qualify as land used in farming. A may not deduct any of such expenditures under section 175. The same result would obtain even if A had leased the 200-acre tract to B in the expectation that B would farm the entire tract.

[T.D. 7740, 45 FR 78635, Nov. 26, 1980]

§ 1.177-1 Election to amortize trademark and trade name expenditures.

(a) *In general.* (1) Section 177 provides that a taxpayer may elect to treat any trademark or trade name expenditure (defined in section 177(b) and paragraph (b) of this section) paid or incurred during a taxable year beginning after December 31, 1955, as a deferred expense. Any expenditure so treated shall be allowed as a deduction ratably over the number of continuous months (not less

than 60) selected by the taxpayer, beginning with the first month of the taxable year in which the expenditure is paid or incurred. The term *paid or incurred*, as used in section 177 and this section, is to be construed according to the method of accounting used by the taxpayer in computing taxable income. See section 7701(a)(25). An election under section 177 is irrevocable insofar as it applies to a particular trademark or trade name expenditure, but separate elections may be made with respect to other trademark or trade name expenditures. See subparagraph (3) of this paragraph. See also paragraph (c) of this section for time and manner of making election.

(2) The number of continuous months selected by the taxpayer may be equal to or greater, but not less than 60, but in any event the deduction must begin with the first month of the taxable year in which the expenditure is paid or incurred. The number of months selected by the taxpayer at the time he makes the election may not be subsequently changed but shall be adhered to in computing taxable income for the taxable year for which the election is made and all subsequent taxable years.

(3) Section 177 permits an election by the taxpayer for each separate trademark or trade name expenditure. Thus, a taxpayer who has several trademark or trade name expenditures in a taxable year may elect under section 177 with respect to some of such expenditures and not elect with respect to the other expenditures. Also, a taxpayer may choose different amortization periods for different trademark or trade name expenditures with respect to which he has made the election under section 177.

(4) All trademark and trade name expenditures are properly chargeable to capital account for purposes of section 1016(a)(1), relating to adjustments to basis of property, whether or not they are to be amortized under section 177. However, the trademark and trade name expenditures with respect to which the taxpayer has made an election under section 177 must be kept in a separate account in the taxpayer's books and records. See paragraph (c) of this section. See also section 1016(a)(16)

and paragraph (m) of § 1.1016-5 for adjustments to basis of property for amounts allowed as deductions under section 177 and this section.

(b) *Trademark and trade name expenditures defined.* (1) The term *trademark and trade name expenditures*, as used in section 177 and this section, means any expenditure which:

(i) Is directly connected with the acquisition, protection, expansion, registration (Federal, State, or foreign), or defense of a trademark or trade name;

(ii) Is chargeable to capital account; and

(iii) Is not part of the consideration or purchase price paid for a trademark, trade name, or a business (including goodwill) already in existence.

An expenditure which fails to meet one or more of these tests is not a trademark or trade name expenditure for purposes of section 177 and this section. Amounts paid in connection with the acquisition of an existing trademark or trade name may not be amortized under section 177 even though such amounts may be paid to protect or expand a previously owned trademark or trade name through purchase of a competitive trademark. Similarly, the provisions of section 177 and this section are not applicable to expenditures paid or incurred for an agreement to discontinue the use of a trademark or trade name (if the effect of the agreement is the purchase of a trademark or trade name) nor to expenditures paid or incurred in acquiring franchises or rights to the use of a trademark or trade name. Generally, section 177 will apply to expenditures such as legal fees and other costs in connection with the acquisition of a certificate of registration of a trademark from the United States or other government, artists' fees and similar expenses connected with the design of a distinctive mark for a product or service, litigation expenses connected with infringement proceedings, and costs in connection with the preparation and filing of an application for renewal of registration and continued use of a trademark.

(2) Expenditures for a trademark or trade name which has a determinable useful life and which would otherwise be depreciable under section 167 must

be deferred and amortized under section 177 if an election under section 177 is made with respect to such expenditures.

(3) The following examples illustrate the application of section 177:

Example 1. X Corporation engages an artist to design a distinctive trademark for its product. At the same time it retains an attorney to prepare the papers necessary for registration of this trademark with the Federal Government. The fees of both the artist and the attorney may be amortized under section 177 over a period of not less than 60 continuous months.

Example 2. Y Corporation wishes to expand the market served by its product. It acquires a competing firm in a neighboring State. The contract of sale provides for a purchase price of \$250,000 of which \$225,000 shall constitute payment for physical assets and \$25,000 for the trademark and goodwill. No part of the purchase price may be amortized under section 177.

Example 3. M Corporation brings suit against N Corporation for infringement of M's trademark. The costs of this litigation may be amortized under section 177.

(c) *Time and manner of making election.* (1) A taxpayer who elects to defer and amortize any trademark or trade name expenditure paid or incurred during a taxable year beginning after December 31, 1955, shall, within the time prescribed by law (including extensions thereof) for filing his income tax return for that year, attach to his income tax return a statement signifying his election under section 177 and setting forth the following:

(i) Name and address of the taxpayer, and the taxable year involved;

(ii) An identification of the character and amount of each expenditure to which the election applies and the number of continuous months (not less than 60) during which the expenditures are to be ratably deducted; and

(iii) A declaration by the taxpayer that he will make an accounting segregation on his books and records of the trademark and trade name expenditures for which the election has been made, sufficient to permit an identification of the character and amount of each such expenditure and the amortization period selected for each expenditure.

(2) The provisions of subparagraph (1) of this paragraph shall apply to income tax returns and statements required to

be filed after May 4, 1960. Elections properly made in accordance with the provisions of Treasury Decision 6209, approved October 26, 1956 (21 FR 8319, C.B. 1956-2, 1370), continue in effect.

§ 1.178-1 Depreciation or amortization of improvements on leased property and cost of acquiring a lease.

(a) *In general.* Section 178 provides rules for determining the amount of the deduction allowable for any taxable year to a lessee for depreciation or amortization of improvements made on leased property and as amortization of the cost of acquiring a lease. For purposes of section 178 the term *depreciation* means the deduction allowable for exhaustion, wear and tear, or obsolescence under provisions of the Code such as section 167 or 611 and the regulations thereunder and the term *amortization* means the deduction allowable for amortization of buildings or other improvements made on leased property or for amortization of the cost of acquiring a lease under provisions of the Code such as section 162 or 212 and the regulations thereunder. The provisions of section 178 are applicable with respect to costs of acquiring a lease incurred, and improvements begun, after July 28, 1958, other than improvements which, on July 28, 1958, and at all times thereafter, the lessee was under a binding legal obligation to make.

(b) *Determination of amount of deduction.* (1) In determining the amount of the deduction allowable to a lessee (other than a lessee who is related to the lessor within the meaning of § 1.178-2) for any taxable year for depreciation or amortization of improvements made on leased property, or for amortization in respect of the cost of acquiring a lease, the term of the lease shall, except as provided in subparagraph (2) of this paragraph, be treated as including all periods for which the lease may be renewed, extended, or continued pursuant to an option or options exercisable by the lessee (whether or not specifically provided for in the lease) if:

(i) In the case of any building erected, or other improvements made, by the lessee on the leased property, the portion of the term of the lease (excluding all periods for which the lease may subsequently be renewed, ex-

tended, or continued pursuant to an option or options exercisable by the lessee) remaining upon the completion of such building or other improvements is less than 60 percent of the estimated useful life of such building or other improvements; or

(ii) In the case of any cost of acquiring the lease, less than 75 percent of such cost is attributable to the portion of the term of the lease (excluding all periods for which the lease may be renewed, extended, or continued pursuant to an option or options exercisable by the lessee) remaining on the date of its acquisition.

(2) The rules provided in subparagraph (1) of this paragraph shall not apply if the lessee establishes that, as of the close of the taxable year, it is more probable that the lease will not be renewed, extended, or continued than that the lease will be renewed, extended, or continued. In such case, the cost of improvements made on leased property or the cost of acquiring a lease shall be amortized over the remaining term of the lease without regard to any options exercisable by the lessee to renew, extend, or continue the lease. The probability test referred to in the first sentence of this subparagraph shall be applicable to each option period to which the lease may be renewed, extended, or continued. The establishment by a lessee as of the close of the taxable year that it is more probable that the lease will not be renewed, extended, or continued will ordinarily be effective as of the close of such taxable year and any subsequent taxable year, and the deduction for amortization will be based on the term of the lease without regard to any periods for which the lease may be renewed, extended, or continued pursuant to an option or options exercisable by the lessee. However, in appropriate cases, if the facts as of the close of any subsequent taxable year indicate that it is more probable that the lease will be renewed, extended, or continued, the deduction for amortization (or depreciation) shall, beginning with the first day of such subsequent taxable year, be determined by including in the remaining term of the lease all periods for which it is more probable that the lease will be renewed, extended, or continued.

(3) If at any time the remaining term of the lease determined in accordance with section 178 and this section is equal to or of longer duration than the then estimated useful life of the improvements made on the leased property by the lessee, the cost of such improvements shall be depreciated over the estimated useful life of such improvements under the provisions of section 167 and the regulations thereunder.

(4) For purposes of section 178(a)(1) and this section, the date on which the building erected or other improvements made are completed is the date on which the building or improvements are usable, whether or not used.

(5)(i) For purposes of section 178(a)(2) and this section, the portion of the cost of acquiring a lease which is attributable to the term of the lease remaining on the date of its acquisition without regard to options exercisable by the lessee to renew, extend, or continue the lease shall be determined on the basis of the facts and circumstances of each case. In some cases, it may be appropriate to determine such portion of the cost of acquiring a lease by applying the principles used to measure the present value of an annuity. Where that method is used, such portion shall be determined by multiplying the cost of the lease by a fraction, the numerator comprised of a factor representing the present value of an annually recurring savings of \$1 per year for the period of the remaining term of the lease (without regard to options to renew, extend, or continue the lease) at an appropriate rate of interest (determined on the basis of all the facts and circumstances in each case), and the denominator comprised of a factor representing the present value of \$1 per year for the period of the remaining term of the lease including the options to renew, extend, or continue the lease at an appropriate rate of interest.

(ii) The provisions of this subparagraph may be illustrated by the following example:

Example. Lessee A acquires a lease with respect to unimproved property at a cost of \$100,000 at which time there are 21 years remaining in the original term of the lease with two renewal options of 21 years each. The lease provides for a uniform annual rent-

al for the remaining term of the lease and the renewal periods. It has been determined that this is an appropriate case for the application of the principles used to measure the present value of an annuity. Assume that in this case the appropriate rate of interest is 5 percent. By applying the tables (Inwood) used to measure the present value of an annuity of \$1 per year, the factor representing the present value of \$1 per annum for 21 years at 5% is ascertained to be 12.821, and the factor representing the present value of \$1 per annum for 63 years at 5% is 19.075. The portion of the cost of the lease (\$100,000) attributable to the remaining term of the original lease (21 years) is 67.21% or \$67,210 determined as follows:

$12.821/19.075$ or 67.21%.

(6) The provisions of this paragraph may be illustrated by the following examples:

Example 1. Lessee A constructs a building on land leased from lessor B. The construction is commenced on August 1, 1958, and is completed and placed in service on December 31, 1958, at which time A has 15 years remaining on his lease with an option to renew for an additional 20 years. Lessee A computes his taxable income on a calendar year basis. Lessee A was not, on July 28, 1958, under a binding legal obligation to erect the building. The building has an estimated useful life of 30 years. A is not related to B. Since the portion of the term of the lease (without regard to any renewals) remaining upon completion of the building (15 years) is less than 60 percent of the estimated useful life of the building (60 percent of 30 years, or 18 years), the term of the lease shall be treated as including the remaining portion of the original lease period and the renewal period, or 35 years. Since the estimated useful life of the building (30 years) is less than 35 years, the cost of the building shall, in accord with paragraph (b)(3) of this section, be depreciated under the provisions of section 167, over its estimated useful life. If, however, lessee A establishes, as of the close of the taxable year 1958, it is more probable that the lease will not be renewed than that it will be renewed, then in such case the remaining term of the lease shall be treated as including only the 15-year period remaining in the original lease. Since this is less than the estimated useful life of the building, the remaining cost of the building would be amortized over such 15-year period under the provisions of section 162 and the regulations thereunder.

Example 2. Assume the same facts as in *Example 1*, except that A has 21 years remaining on his lease with an option to renew for an additional 10 years. Section 178(a) and paragraph (b)(1) of this section do not apply since the term of the lease remaining on the date

of completion of the building (21 years) is not less than 60 percent of the estimated useful life of the building (60 percent of 30 years, or 18 years).

Example 3. Assume the same facts as in *Example 1*, except that A has no renewal option until July 1, 1961, when lessor B grants A an option to renew the lease for a 10-year period. Because there is no option to renew the lease, the term of the lease is, for the taxable years 1959 and 1960 and for the first six months of the taxable year 1961, determined without regard to section 178(a). However, as of July 1, 1961, the date the renewal option is granted, section 178(a) and paragraph (b)(1) of this section become applicable since the portion of the term of the lease remaining upon completion of the building (15 years) was less than 60 percent of the estimated useful life of the building (60 percent of 30 years, or 18 years). As of July 1, 1961, the term of the lease shall be treated as including the remaining portion of the original lease period (12½ years) and the 10-year renewal period, or 22½ years, unless lessee A can establish that, as of the close of 1961, it is more probable that the lease will not be renewed than that it will be.

Example 4. On January 1, 1959, lessee A pays \$10,000 to acquire a lease for 20 years with two options exercisable by him to renew for periods of 5 years each. Of the total \$10,000 cost to acquire the lease, \$7,000 was paid for the original 20-year lease period and the balance of \$3,000 was paid for the renewal options. Since the \$7,000 cost of acquiring the initial lease is less than 75 percent of the \$10,000 cost of the lease (\$7,500), the term of the lease shall be treated as including the original lease period and the 2 renewal periods, or 30 years. However, if lessee A establishes that, as of the close of the taxable year 1959, it is more probable that the lease will not be renewed than that it will be renewed, the term of the lease shall be treated as including only the original lease period, or 20 years.

Example 5. Assume the same facts as in *Example 4*, except that the portion of the total cost (\$10,000) paid for the 20-year original lease period is \$8,000. Since the \$8,000 cost of acquiring the original lease is not less than 75 percent of the \$10,000 cost of the lease (\$7,500), section 178(a) and paragraph (b)(1) of this section do not apply.

(c) *Application of section 178(a) where lessee gives notice to lessor of intention to exercise option.* (1) If the lessee has given notice to the lessor of his intention to renew, extend, or continue a lease, the lessee shall, for purposes of applying the provisions of section 178(a) and paragraph (b)(1) of this section, take into account such renewal or extension in determining the portion of

the term of the lease remaining upon the completion of the improvements or on the date of the acquisition of the lease.

(2) The application of the provisions of this paragraph may be illustrated by the following examples:

Example 1. Lessee A constructs a building on land leased from lessor B. The construction was commenced on September 1, 1958, and was completed and placed in service on December 31, 1958. Lessee A was not, on July 28, 1958, under a binding legal obligation to erect the building. A and B are not related. At the time the building was completed (December 31, 1958), lessee A had 3 years remaining on his lease with 2 options to renew for periods of 20 years each. The estimated useful life of the building is 50 years. Prior to completion of the building, lessee A gives notice to lessor B of his intention to exercise the first 20-year option. Therefore, the portion of the term of the lease remaining on January 1, 1959, shall be the 3 years remaining in the original lease period plus the 20-year renewal period, or 23 years. Since the term of the lease remaining upon completion of the building (23 years) is less than 60 percent of the estimated useful life of the building (60 percent of 50 years, or 30 years), the provisions of section 178(a) and paragraph (b)(1) of this section are applicable. Accordingly, the term of the lease shall be treated as including the aggregate of the remaining term of the original lease (23 years) and the second 20-year renewal period or 43 years, unless lessee A establishes that it is more probable that the lease will not be renewed, extended, or continued under the second 20-year option than that it will be so renewed, extended, or continued under such option. If this is established by lessee A, then the term of the lease shall be treated as including only the remaining portion of the original lease period and the first 20-year renewal period, or 23 years.

Example 2. Assume the same facts as in *Example 1*, except that the estimated useful life of the building is 30 years. Since the term of the lease remaining upon completion of the building (23 years) is not less than 60 percent of the estimated life of the building (60 percent of 30 years, or 18 years), the provisions of section 178(a) and paragraph (b)(1) of this section do not apply.

Example 3. If in *Examples 1* and (2), the lessee failed to give notice of his intention to exercise the renewal option, the renewal period would not be taken into account in computing the percentage requirements under section 178(a) and paragraph (b)(1) of this section. Thus, unless lessee A establishes the required probability, the provisions of section 178(a) and paragraph (b)(1) of this section would apply in both examples since the

term of the lease remaining upon completion of the building (3 years) is less than 60 percent of the estimated useful life of the building in either example (60 percent of 50 years, or 30 years; 60 percent of 30 years, or 18 years).

(d) *Application of section 178 where lessee is related to lessor.* (1)(i) If the lessee and lessor are related persons within the meaning of section 178(b)(2) and § 1.178-2 at any time during the taxable year, the lease shall be treated as including a period of not less duration than the remaining estimated useful life of improvements made by the lessee on leased property for purposes of determining the amount of deduction allowable to the lessee for such taxable year for depreciation or amortization in respect of any building erected or other improvements made on leased property. If the lessee and lessor cease to be related persons during any taxable year, then for the immediately following and subsequent taxable years during which they continue to be unrelated, the amount allowable to the lessee as a deduction shall be determined without reference to section 178(b) and in accordance with section 178(a) or section 178(c), whichever is applicable.

(ii) Although the related lessee and lessor rule of section 178(b) and § 1.178-2 does not apply in determining the period over which the cost of acquiring a lease may be amortized, the relationship between a lessee and lessor will be a significant factor in applying section 178 (a) and (c) in cases in which the lease may be renewed, extended, or continued pursuant to an option or options exercisable by the lessee.

(2) The application of the provisions of this paragraph may be illustrated by the following examples:

Example 1. Lessee A constructs a building on land leased from lessor B. The construction was commenced on August 1, 1958, and was completed and put in service on December 31, 1958. Lessee A was not on July 28, 1958, under a binding legal obligation to erect the building. On the completion date of the building, lessee A had 20 years remaining in his original lease period with an option to renew for an additional 20 years. The building has an estimated useful life of 50 years. During the taxable years 1959 and 1960, A and B are related persons within the meaning of section 178(b)(2) and § 1.178-2, but they are not related persons at any time during the taxable year 1961 or during any subsequent

taxable year. Since A and B are related persons during the taxable years 1959 and 1960, the term of the lease shall, for each of those years, be treated as 50 years. Section 178(a) and paragraph (b)(1) of this section become applicable in the taxable year 1961 since A and B are not related persons at any time during that year and because the portion of the original lease period remaining at the time the building was completed (20 years) is less than 60 percent of the estimated useful life of the building (60 percent of 50 years, or 30 years). Thus, the term of the lease shall, beginning on January 1, 1961, be treated as including the remaining portion of the original lease period (18 years) and the renewal period (20 years), or 38 years, unless lessee A can establish that, as of the close of the taxable year 1961 or any subsequent taxable year, it is more probable that the lease will not be renewed than that it will be renewed.

Example 2. Assume the same facts as in *Example 1*, except that the estimated useful life of the building is 30 years. During the taxable years 1959 and 1960, the term of the lease shall be treated as 30 years. For the taxable year 1961, however, neither section 178(a) nor section 178(b) apply since the percentage requirement of section 178(a) and paragraph (b) of this section are not satisfied and A and B are not related persons within the meaning of section 178(b)(2) and § 1.178-2.

[T.D. 6520, 25 FR 13689, Dec. 24, 1960]

§ 1.178-2 Related lessee and lessor.

(a) For purposes of section 178 and § 1.178-1, a lessor and lessee shall be considered to be related persons if:

(1) The lessor and lessee are members of an affiliated group, as defined in section 1504 and the regulations thereunder; or

(2) The relationship between the lessor and lessee is one described in section 267(b), except that the phrase "80 percent or more" shall be substituted for the phrase "more than 50 percent" wherever such phrase appears in section 267(b).

(b) In the application of section 267(b) for purposes of section 178, the rules provided in section 267(c) shall apply, except that the family of an individual shall include only his spouse, ancestors, and lineal descendants. Thus, if the lessee is the brother or sister of the lessor, the lessee and lessor will not be considered to be related persons for purposes of section 178 and § 1.178-1. If the lessor leases property to a corporation of which he owns 80 percent or more in value of the outstanding stock,

the lessor and lessee shall be considered to be related persons. On the other hand, if the lessor leases property to a corporation of which he owns less than 80 percent in value of the outstanding stock and his brother owns the remaining stock, the lessor and lessee will not be considered to be related persons.

(c) If a relationship described in section 267(b) exists independently of family status, the brother-sister exception does not apply. For example, if the lessor leases property to the fiduciary of a trust of which he is the grantor, the lessor and lessee will be considered to be related persons for purposes of section 178. This result obtains whether or not the fiduciary is the brother or sister of the lessor since the disqualifying relationship exists because of the grantor-fiduciary status and not because of family status.

[T.D. 6520, 25 FR 13691, Dec. 24, 1960]

§ 1.178-3 Reasonable certainty test.

(a) In any case in which neither section 178 (a) nor (b) applies, the determination as to the amount of the deduction allowable to a lessee for any taxable year for depreciation or amortization in respect of any building erected, or other improvements made, on leased property, or in respect of any cost of acquiring a lease, shall be made with reference to the original term of the lease (excluding any period for which the lease may subsequently be renewed, extended, or continued pursuant to an option exercisable by the lessee) unless the lease has been renewed, extended, or continued, or the facts show with reasonable certainty that the lease will be renewed, extended, or continued. In a case in which the facts show with reasonable certainty that the lease will be renewed, extended, or continued, the term of the lease shall, beginning with the taxable year in which such reasonable certainty is shown, be treated as including the period or periods for which it is reasonably certain that the lease will be renewed, extended, or continued. If the lessee has given notice to the lessor of his intention to renew, extend, or continue a lease, the lease shall be considered as renewed, extended, or continued for the periods specified in the notice. See paragraph (c) of § 1.178-1.

(b) The reasonable certainty test is applicable to each option to which the lease is subject. Thus, in a case of two successive options, the facts in a particular taxable year may show with reasonable certainty that the lease will be renewed pursuant to an exercise of only the first option; and, beginning with such year, the term of the lease will be treated as including the first option, but not the second. If in a subsequent taxable year the facts show with reasonable certainty that the second option will also be exercised, the term of the lease shall, beginning with such subsequent taxable year, be treated as including both options. Although the related lessee and lessor rule of section 178(b) and paragraph (d) of § 1.178-1 does not apply in determining the period over which the cost of acquiring a lease may be amortized, the relationship between the lessee and lessor will be a significant factor in determining whether the “reasonable certainty” rule of section 178(c) and this section applies.

(c) The application of the provisions of this section may be illustrated by the following examples:

Example 1. Corporation A leases land from lessor B for a period of 30 years beginning with January 1, 1958. Corporation A and lessor B are not related persons. The lease provides that Corporation A will have two renewal options of 5 years each at the same annual rental as specified in the lease for the initial 30 years. Corporation A constructs a factory building on the leased land at a cost of \$100,000. Corporation A was not, on July 28, 1958, under a binding legal obligation to erect the building. The construction was commenced on August 1, 1958, and was completed and placed in service on December 31, 1958. On January 1, 1959, Corporation A has 29 years remaining in the initial term of the lease. The estimated useful life of the building on January 1, 1959, is 40 years. The location of the leased property is particularly suitable for Corporation A's business and the annual rental of the property is lower than A would have to pay for other suitable property. No factors are present which establish that these conditions will not continue to exist beyond the initial term of the lease. Since the period remaining in the initial term of the lease on January 1, 1959 (29 years) is not less than 60 percent of the estimated useful life of the building (60 percent of 40 years, or 24 years), the provisions of section 178(a) and paragraph (b)(1) of § 1.178-1 do not apply, and since Corporation A and

Internal Revenue Service, Treasury

§ 1.179-0

lessor B are not related, section 178(b) and paragraph (d) of § 1.178-1 do not apply. However, since the facts show with reasonable certainty that Corporation A will renew the lease for the period of the two options (10 years), the cost of the building shall be amortized over the term of the lease, including the two renewal options, or 39 years.

Example 2. Assume the same facts as in *Example 1*, except that a term of 30 years is the longest period that lessor B is willing to lease the unimproved property; that there was no agreement that Corporation A will have any renewal options; and that any other location would be as suitable for Corporation A's business as the leased property. Since the facts do not show with reasonable certainty that the initial term of the lease will be renewed, extended, or continued, Corporation A shall amortize the cost of the building over the remaining term of the lease, or 29 years.

[T.D. 6520, 25 FR 13691, Dec. 24, 1960]

§ 1.179-0 Table of contents for section 179 expensing rules.

This section lists captioned paragraphs contained in §§ 1.179-1 through 1.179-6.

§ 1.179-1 Election to Expense Certain Depreciable Assets

- (a) In general.
- (b) Cost subject to expense.
- (c) Proration not required.
 - (1) In general.
 - (2) Example.
- (d) Partial business use.
 - (1) In general.
 - (2) Example.
- (3) Additional rules that may apply.
- (e) Change in use; recapture.
 - (1) In general.
 - (2) Predominant use.
 - (3) Basis; application with section 1245.
 - (4) Carryover of disallowed deduction.
 - (5) Example.
 - (f) Basis.
 - (1) In general.
 - (2) Special rules for partnerships and S corporations.
 - (3) Special rules with respect to trusts and estates which are partners or S corporation shareholders.
 - (g) Disallowance of the section 38 credit.
 - (h) Partnerships and S corporations.
 - (1) In general.
 - (2) Example.
 - (i) Leasing of section 179 property.
 - (1) In general.
 - (2) Noncorporate lessor.
 - (j) Application of sections 263 and 263A.
 - (k) Cross references.

§ 1.179-2 Limitations on Amount Subject to Section 179 Election

- (a) In general.
- (b) Dollar limitation.
 - (1) In general.
 - (2) Excess section 179 property.
 - (3) Application to partnerships.
 - (i) In general.
 - (ii) Example.
 - (iii) Partner's share of section 179 expenses.
 - (iv) Taxable year.
 - (v) Example.
- (4) S corporations.
- (5) Joint returns.
 - (i) In general.
 - (ii) Joint returns filed after separate returns.
 - (iii) Example.
 - (6) Married individuals filing separately.
 - (i) In general.
 - (ii) Example.
 - (7) Component members of a controlled group.
 - (i) In general.
 - (ii) Statement to be filed.
 - (iii) Revocation.
 - (c) Taxable income limitation.
 - (1) In general.
 - (2) Application to partnerships and partners.
 - (i) In general.
 - (ii) Taxable year.
 - (iii) Example.
 - (iv) Taxable income of a partnership.
 - (v) Partner's share of partnership taxable income.
 - (3) S corporations and S corporation shareholders.
 - (i) In general.
 - (ii) Taxable income of an S corporation.
 - (iii) Shareholder's share of S corporation taxable income.
 - (4) Taxable income of a corporation other than an S corporation.
 - (5) Ordering rule for certain circular problems.
 - (i) In general.
 - (ii) Example.
 - (6) Active conduct by the taxpayer of a trade or business.
 - (i) Trade or business.
 - (ii) Active conduct.
 - (iii) Example.
 - (iv) Employees.
 - (7) Joint returns.
 - (i) In general.
 - (ii) Joint returns filed after separate returns.
 - (8) Married individuals filing separately.
 - (d) Examples.

§ 1.179-3 Carryover of Disallowed Deduction

- (a) In general.
- (b) Deduction of carryover of disallowed deduction.
 - (1) In general.

§ 1.179-1

26 CFR Ch. I (4-1-17 Edition)

- (2) Cross references.
- (c) Unused section 179 expense allowance.
- (d) Example.
- (e) Recordkeeping requirement and ordering rule.
- (f) Dispositions and other transfers of section 179 property.
 - (1) In general.
 - (2) Recapture under section 179(d)(10).
 - (g) Special rules for partnerships and S corporations.
 - (1) In general.
 - (2) Basis adjustment.
 - (3) Dispositions and other transfers of section 179 property by a partnership or an S corporation.
 - (4) Example.
 - (h) Special rules for partners and S corporation shareholders.
 - (1) In general.
 - (2) Dispositions and other transfers of a partner's interest in a partnership or a shareholder's interest in an S corporation.
 - (3) Examples.

§ 1.179-4 Definitions

- (a) Section 179 property.
- (b) Section 38 property.
- (c) Purchase.
- (d) Cost.
- (e) Placed in service.
- (f) Controlled group of corporations and component member of controlled group.

§ 1.179-5 Time and Manner of Making Election

- (a) Election.
- (b) Revocation.
- (c) Section 179 property placed in service by the taxpayer in a taxable year beginning after 2002 and before 2008.
- (d) Election or revocation must not be made in any other manner.

§ 1.179-6 Effective dates.

- (a) In general.
- (b) Section 179 property placed in service by the taxpayer in a taxable year beginning after 2002 and before 2008.
- (c) Application of § 1.179-5(d).

[T.D. 8455, 57 FR 61316, Dec. 24, 1992, as amended by T.D. 9146, 69 FR 46983, Aug. 4, 2004; T.D. 9209, 70 FR 40191, July 13, 2005]

§ 1.179-1 Election to expense certain depreciable assets.

(a) *In general.* Section 179(a) allows a taxpayer to elect to expense the cost (as defined in § 1.179-4(d)), or a portion of the cost, of section 179 property (as defined in § 1.179-4(a)) for the taxable year in which the property is placed in service (as defined in § 1.179-4(e)). The election is not available for trusts, estates, and certain noncorporate lessors.

See paragraph (i)(2) of this section for rules concerning noncorporate lessors. However, section 179(b) provides certain limitations on the amount that a taxpayer may elect to expense in any one taxable year. See §§ 1.179-2 and 1.179-3 for rules relating to the dollar and taxable income limitations and the carryover of disallowed deduction rules. For rules describing the time and manner of making an election under section 179, see § 1.179-5. For the effective date, see § 1.179-6.

(b) *Cost subject to expense.* The expense deduction under section 179 is allowed for the entire cost or a portion of the cost of one or more items of section 179 property. This expense deduction is subject to the limitations of section 179(b) and § 1.179-2. The taxpayer may select the properties that are subject to the election as well as the portion of each property's cost to expense.

(c) *Proration not required—(1) In general.* The expense deduction under section 179 is determined without any proration based on—

(i) The period of time the section 179 property has been in service during the taxable year; or

(ii) The length of the taxable year in which the property is placed in service.

(2) *Example.* The following example illustrates the provisions of paragraph (c)(1) of this section.

Example. On December 1, 1991, X, a calendar-year corporation, purchases and places in service section 179 property costing \$20,000. For the taxable year ending December 31, 1991, X may elect to claim a section 179 expense deduction on the property (subject to the limitations imposed under section 179(b)) without proration of its cost for the number of days in 1991 during which the property was in service.

(d) *Partial business use—(1) In general.* If a taxpayer uses section 179 property for trade or business as well as other purposes, the portion of the cost of the property attributable to the trade or business use is eligible for expensing under section 179 provided that more than 50 percent of the property's use in the taxable year is for trade or business purposes. The limitations of section 179(b) and § 1.179-2 are applied to the portion of the cost attributable to the trade or business use.

(2) *Example.* The following example illustrates the provisions of paragraph (d)(1) of this section.

Example. A purchases section 179 property costing \$10,000 in 1991 for which 80 percent of its use will be in A's trade or business. The cost of the property adjusted to reflect the business use of the property is \$8,000 (80 percent \times \$10,000). Thus, A may elect to expense up to \$8,000 of the cost of the property (subject to the limitations imposed under section 179(b) and § 1.179-2).

(3) *Additional rules that may apply.* If a section 179 election is made for "listed property" within the meaning of section 280F(d)(4) and there is personal use of the property, section 280F(d)(1), which provides rules that coordinate section 179 with the section 280F limitation on the amount of depreciation, may apply. If section 179 property is no longer predominantly used in the taxpayer's trade or business, paragraphs (e) (1) through (4) of this section, relating to recapture of the section 179 deduction, may apply.

(e) *Change in use; recapture—(1) In general.* If a taxpayer's section 179 property is not used predominantly in a trade or business of the taxpayer at any time before the end of the property's recovery period, the taxpayer must recapture in the taxable year in which the section 179 property is not used predominantly in a trade or business any benefit derived from expensing such property. The benefit derived from expensing the property is equal to the excess of the amount expensed under this section over the total amount that would have been allowable for prior taxable years and the taxable year of recapture as a deduction under section 168 (had section 179 not been elected) for the portion of the cost of the property to which the expensing relates (regardless of whether such excess reduced the taxpayer's tax liability). For purposes of the preceding sentence (i) the "amount expensed under this section" shall not include any amount that was not allowed as a deduction to a taxpayer because the taxpayer's aggregate amount of allowable section 179 expenses exceeded the section 179(b) dollar limitation, and (ii) in the case of an individual who does not elect to itemize deductions under section 63(g) in the taxable year

of recapture, the amount allowable as a deduction under section 168 in the taxable year of recapture shall be determined by treating property used in the production of income other than rents or royalties as being property used for personal purposes. The amount to be recaptured shall be treated as ordinary income for the taxable year in which the property is no longer used predominantly in a trade or business of the taxpayer. For taxable years following the year of recapture, the taxpayer's deductions under section 168(a) shall be determined as if no section 179 election with respect to the property had been made. However, see section 280F(d)(1) relating to the coordination of section 179 with the limitation on the amount of depreciation for luxury automobiles and where certain property is used for personal purposes. If the recapture rules of both section 280F(b)(2) and this paragraph (e)(1) apply to an item of section 179 property, the amount of recapture for such property shall be determined only under the rules of section 280F(b)(2).

(2) *Predominant use.* Property will be treated as not used predominantly in a trade or business of the taxpayer if 50 percent or more of the use of such property during any taxable year within the recapture period is for a use other than in a trade or business of the taxpayer. If during any taxable year of the recapture period the taxpayer disposes of the property (other than in a disposition to which section 1245(a) applies) or ceases to use the property in a trade or business in a manner that had the taxpayer claimed a credit under section 38 for such property such disposition or cessation in use would cause recapture under section 47, the property will be treated as not used in a trade or business of the taxpayer. However, for purposes of applying the recapture rules of section 47 pursuant to the preceding sentence, converting the use of the property from use in trade or business to use in the production of income will be treated as a conversion to personal use.

(3) *Basis; application with section 1245.* The basis of property with respect to which there is recapture under paragraph (e)(1) of this section shall be increased immediately before the event

resulting in such recapture by the amount recaptured. If section 1245(a) applies to a disposition of property, there is no recapture under paragraph (e)(1) of this section.

(4) *Carryover of disallowed deduction.* See § 1.179-3 for rules on applying the recapture provisions of this paragraph (e) when a taxpayer has a carryover of disallowed deduction.

(5) *Example.* The following example illustrates the provisions of paragraphs (e)(1) through (e)(4) of this section.

Example. A, a calendar-year taxpayer, purchases and places in service on January 1, 1991, section 179 property costing \$15,000. The property is 5-year property for section 168 purposes and is the only item of depreciable property placed in service by A during 1991. A properly elects to expense \$10,000 of the cost and elects under section 168(b)(5) to depreciate the remaining cost under the straight-line method. On January 1, 1992, A converts the property from use in A's business to use for the production of income, and A uses the property in the latter capacity for the entire year. A elects to itemize deductions for 1992. Because the property was not predominantly used in A's trade or business in 1992, A must recapture any benefit derived from expensing the property under section 179. Had A not elected to expense the \$10,000 in 1991, A would have been entitled to deduct, under section 168, 10 percent of the \$10,000 in 1991, and 20 percent of the \$10,000 in 1992. Therefore, A must include \$7,000 in ordinary income for the 1992 taxable year, the excess of \$10,000 (the section 179 expense amount) over \$3,000 (30 percent of \$10,000).

(f) *Basis—(1) In general.* A taxpayer who elects to expense under section 179 must reduce the depreciable basis of the section 179 property by the amount of the section 179 expense deduction.

(2) *Special rules for partnerships and S corporations.* Generally, the basis of a partnership or S corporation's section 179 property must be reduced to reflect the amount of section 179 expense elected by the partnership or S corporation. This reduction must be made in the basis of partnership or S corporation property even if the limitations of section 179(b) and § 1.179-2 prevent a partner in a partnership or a shareholder in an S corporation from deducting all or a portion of the amount of the section 179 expense allocated by the partnership or S corporation. See § 1.179-3 for rules on applying the basis provisions of this paragraph

(f) when a person has a carryover of disallowed deduction.

(3) *Special rules with respect to trusts and estates which are partners or S corporation shareholders.* Since the section 179 election is not available for trusts or estates, a partner or S corporation shareholder that is a trust or estate may not deduct its allocable share of the section 179 expense elected by the partnership or S corporation. The partnership or S corporation's basis in section 179 property shall not be reduced to reflect any portion of the section 179 expense that is allocable to the trust or estate. Accordingly, the partnership or S corporation may claim a depreciation deduction under section 168 or a section 38 credit (if available) with respect to any depreciable basis resulting from the trust or estate's inability to claim its allocable portion of the section 179 expense.

(g) *Disallowance of the section 38 credit.* If a taxpayer elects to expense under section 179, no section 38 credit is allowable for the portion of the cost expensed. In addition, no section 38 credit shall be allowed under section 48(d) to a lessee of property for the portion of the cost of the property that the lessor expensed under section 179.

(h) *Partnerships and S corporations—*

(1) *In general.* In the case of property purchased and placed in service by a partnership or an S corporation, the determination of whether the property is section 179 property is made at the partnership or S corporation level. The election to expense the cost of section 179 property is made by the partnership or the S corporation. See sections 703(b), 1363(c), 6221, 6231(a)(3), 6241, and 6245.

(2) *Example.* The following example illustrates the provisions of paragraph (h)(1) of this section.

Example. A owns certain residential rental property as an investment. A and others form ABC partnership whose function is to rent and manage such property. A and ABC partnership file their income tax returns on a calendar-year basis. In 1991, ABC partnership purchases and places in service office furniture costing \$20,000 to be used in the active conduct of ABC's business. Although the office furniture is used with respect to an investment activity of A, the furniture is being used in the active conduct of ABC's trade or

business. Therefore, because the determination of whether property is section 179 property is made at the partnership level, the office furniture is section 179 property and ABC may elect to expense a portion of its cost under section 179.

(i) *Leasing of section 179 property*—(1) *In general.* A lessor of section 179 property who is treated as the owner of the property for Federal tax purposes will be entitled to the section 179 expense deduction if the requirements of section 179 and the regulations thereunder are met. These requirements will not be met if the lessor merely holds the property for the production of income. For certain leases entered into prior to January 1, 1984, the safe harbor provisions of section 168(f)(8) apply in determining whether an agreement is treated as a lease for Federal tax purposes.

(2) *Noncorporate lessor.* In determining the class of taxpayers (other than an estate or trust) for which section 179 is applicable, section 179(d)(5) provides that if a taxpayer is a noncorporate lessor (*i.e.*, a person who is not a corporation and is a lessor), the taxpayer shall not be entitled to claim a section 179 expense for section 179 property purchased and leased by the taxpayer unless the taxpayer has satisfied all of the requirements of section 179(d)(5)(A) or (B).

(j) *Application of sections 263 and 263A.* Under section 263(a)(1)(G), expenditures for which a deduction is allowed under section 179 and this section are excluded from capitalization under section 263(a). Under this paragraph (j), amounts allowed as a deduction under section 179 and this section are excluded from the application of the uniform capitalization rules of section 263A.

(k) *Cross references.* See section 453(i) and the regulations thereunder with respect to installment sales of section 179 property. See section 1033(g)(3) and the regulations thereunder relating to condemnation of outdoor advertising displays. See section 1245(a) and the regulations thereunder with respect to recapture rules for section 179 property.

[T.D. 8121, 52 FR 410, Jan. 6, 1987, as amended by T.D. 8455, 57 FR 61316, Dec. 24, 1992]

§ 1.179-2 Limitations on amount subject to section 179 election.

(a) *In general.* Sections 179(b)(1) and (2) limit the aggregate cost of section 179 property that a taxpayer may elect to expense under section 179 for any one taxable year (dollar limitation). See paragraph (b) of this section. Section 179(b)(3)(A) limits the aggregate cost of section 179 property that a taxpayer may deduct in any taxable year (taxable income limitation). See paragraph (c) of this section. Any cost that is elected to be expensed but that is not currently deductible because of the taxable income limitation may be carried forward to the next taxable year (carryover of disallowed deduction). See § 1.179-3 for rules relating to carryovers of disallowed deductions. See also sections 280F(a), (b), and (d)(1) relating to the coordination of section 179 with the limitations on the amount of depreciation for luxury automobiles and other listed property. The dollar and taxable income limitations apply to each taxpayer and not to each trade or business in which the taxpayer has an interest.

(b) *Dollar limitation*—(1) *In general.* The aggregate cost of section 179 property that a taxpayer may elect to expense under section 179 for any taxable year beginning in 2003 and thereafter is \$25,000 (\$100,000 in the case of taxable years beginning after 2002 and before 2008 under section 179(b)(1), indexed annually for inflation under section 179(b)(5) for taxable years beginning after 2003 and before 2008), reduced (but not below zero) by the amount of any excess section 179 property (described in paragraph (b)(2) of this section) placed in service during the taxable year.

(2) *Excess section 179 property.* The amount of any excess section 179 property for a taxable year equals the excess (if any) of—

(i) The cost of section 179 property placed in service by the taxpayer in the taxable year; over

(ii) \$200,000 (\$400,000 in the case of taxable years beginning after 2002 and before 2008 under section 179(b)(2), indexed annually for inflation under section 179(b)(5) for taxable years beginning after 2003 and before 2008).

(3) *Application to partnerships*—(i) *In general.* The dollar limitation of this paragraph (b) applies to the partnership as well as to each partner. In applying the dollar limitation to a taxpayer that is a partner in one or more partnerships, the partner's share of section 179 expenses allocated to the partner from each partnership is aggregated with any nonpartnership section 179 expenses of the taxpayer for the taxable year. However, in determining the excess section 179 property placed in service by a partner in a taxable year, the cost of section 179 property placed in service by the partnership is not attributed to any partner.

(ii) *Example.* The following example illustrates the provisions of paragraph (b)(3)(i) of this section.

Example. During 1991, CD, a calendar-year partnership, purchases and places in service section 179 property costing \$150,000 and elects under section 179(c) and § 1.179-5 to expense \$10,000 of the cost of that property. CD properly allocates to C, a calendar-year taxpayer and a partner in CD, \$5,000 of section 179 expenses (C's distributive share of CD's section 179 expenses for 1991). In applying the dollar limitation to C for 1991, C must include the \$5,000 of section 179 expenses allocated from CD. However, in determining the amount of any excess section 179 property C placed in service during 1991, C does not include any of the cost of section 179 property placed in service by CD, including the \$5,000 of cost represented by the \$5,000 of section 179 expenses allocated to C by the partnership.

(iii) *Partner's share of section 179 expenses.* Section 704 and the regulations thereunder govern the determination of a partner's share of a partnership's section 179 expenses for any taxable year. However, no allocation among partners of the section 179 expenses may be modified after the due date of the partnership return (without regard to extensions of time) for the taxable year for which the election under section 179 is made.

(iv) *Taxable year.* If the taxable years of a partner and the partnership do not coincide, then for purposes of section 179, the amount of the partnership's section 179 expenses attributable to a partner for a taxable year is determined under section 706 and the regulations thereunder (generally the partner's distributive share of partnership

section 179 expenses for the partnership year that ends with or within the partner's taxable year).

(v) *Example.* The following example illustrates the provisions of paragraph (b)(3)(iv) of this section.

Example. AB partnership has a taxable year ending January 31. A, a partner of AB, has a taxable year ending December 31. AB purchases and places in service section 179 property on March 10, 1991, and elects to expense a portion of the cost of that property under section 179. Under section 706 and § 1.706-1(a)(1), A will be unable to claim A's distributive share of any of AB's section 179 expenses attributable to the property placed in service on March 10, 1991, until A's taxable year ending December 31, 1992.

(4) *S Corporations.* Rules similar to those contained in paragraph (b)(3) of this section apply in the case of S corporations (as defined in section 1361(a)) and their shareholders. Each shareholder's share of the section 179 expenses of an S corporation is determined under section 1366.

(5) *Joint returns*—(i) *In General.* A husband and wife who file a joint income tax return under section 6013(a) are treated as one taxpayer in determining the amount of the dollar limitation under paragraph (b)(1) of this section, regardless of which spouse purchased the property or placed it in service.

(ii) *Joint returns filed after separate returns.* In the case of a husband and wife who elect under section 6013(b) to file a joint income tax return for a taxable year after the time prescribed by law for filing the return for such taxable year has expired, the dollar limitation under paragraph (b)(1) of this section is the lesser of—

(A) The dollar limitation (as determined under paragraph (b)(5)(i) of this section); or

(B) The aggregate cost of section 179 property elected to be expensed by the husband and wife on their separate returns.

(iii) *Example.* The following example illustrates the provisions of paragraph (b)(5)(ii) of this section.

Example. During 1991, Mr. and Mrs. B, both calendar-year taxpayers, purchase and place in service section 179 property costing \$100,000. On their separate returns for 1991, Mr. B elects to expense \$3,000 of section 179 property as an expense and Mrs. B elects to

expense \$4,000. After the due date of the return they elect under section 6013(b) to file a joint income tax return for 1991. The dollar limitation for their joint income tax return is \$7,000, the lesser of the dollar limitation (\$10,000) or the aggregate cost elected to be expensed under section 179 on their separate returns (\$3,000 elected by Mr. B plus \$4,000 elected by Mrs. B, or \$7,000).

(6) *Married individuals filing separately*—(i) *In general.* In the case of an individual who is married but files a separate income tax return for a taxable year, the dollar limitation of this paragraph (b) for such taxable year is the amount that would be determined under paragraph (b)(5)(i) of this section if the individual filed a joint income tax return under section 6013(a) multiplied by either the percentage elected by the individual under this paragraph (b)(6) or 50 percent. The election in the preceding sentence is made in accordance with the requirements of section 179(c) and § 1.179-5. However, the amount determined under paragraph (b)(5)(i) of this section must be multiplied by 50 percent if either the individual or the individual's spouse does not elect a percentage under this paragraph (b)(6) or the sum of the percentages elected by the individual and the individual's spouse does not equal 100 percent. For purposes of this paragraph (b)(6), marital status is determined under section 7703 and the regulations thereunder.

(ii) *Example.* The following example illustrates the provisions of paragraph (b)(6)(i) of this section.

Example. Mr. and Mrs. D, both calendar-year taxpayers, file separate income tax returns for 1991. During 1991, Mr. D places \$195,000 of section 179 property in service and Mrs. D places \$9,000 of section 179 property in service. Neither of them elects a percentage under paragraph (b)(6)(i) of this section. The 1991 dollar limitation for both Mr. D and Mrs. D is determined by multiplying by 50 percent the dollar limitation that would apply had they filed a joint income tax return. Had Mr. and Mrs. D filed a joint return for 1991, the dollar limitation would have been \$6,000, \$10,000 reduced by the excess section 179 property they placed in service during 1991 (\$195,000 placed in service by Mr. D plus \$9,000 placed in service by Mrs. D less \$200,000, or \$4,000). Thus, the 1991 dollar limitation for Mr. and Mrs. D is \$3,000 each (\$6,000 multiplied by 50 percent).

(7) *Component members of a controlled group*—(i) *In general.* Component members of a controlled group (as defined in § 1.179-4(f)) on December 31 are treated as one taxpayer in applying the dollar limitation of sections 179(b) (1) and (2) and this paragraph (b). The expense deduction may be taken by any one component member or allocated (for the taxable year of each member that includes that December 31) among the several members in any manner. Any allocation of the expense deduction must be pursuant to an allocation by the common parent corporation if a consolidated return is filed for all component members of the group, or in accordance with an agreement entered into by the members of the group if separate returns are filed. If a consolidated return is filed by some component members of the group and separate returns are filed by other component members, the common parent of the group filing the consolidated return must enter into an agreement with those members that do not join in filing the consolidated return allocating the amount between the group filing the consolidated return and the other component members of the controlled group that do not join in filing the consolidated return. The amount of the expense allocated to any component member, however, may not exceed the cost of section 179 property actually purchased and placed in service by the member in the taxable year. If the component members have different taxable years, the term *taxable year* in sections 179(b) (1) and (2) means the taxable year of the member whose taxable year begins on the earliest date.

(ii) *Statement to be filed.* If a consolidated return is filed, the common parent corporation must file a separate statement attached to the income tax return on which the election is made to claim an expense deduction under section 179. See § 1.179-5. If separate returns are filed by some or all component members of the group, each component member not included in a consolidated return must file a separate statement attached to the income tax return on which an election is made to claim a deduction under section 179. The statement must include the name,

address, employer identification number, and the taxable year of each component member of the controlled group, a copy of the allocation agreement signed by persons duly authorized to act on behalf of the component members, and a description of the manner in which the deduction under section 179 has been divided among the component members.

(iii) *Revocation.* If a consolidated return is filed for all component members of the group, an allocation among such members of the expense deduction under section 179 may not be revoked after the due date of the return (including extensions of time) of the common parent corporation for the taxable year for which an election to take an expense deduction is made. If some or all of the component members of the controlled group file separate returns for taxable years including a particular December 31 for which an election to take the expense deduction is made, the allocation as to all members of the group may not be revoked after the due date of the return (including extensions of time) of the component member of the controlled group whose taxable year that includes such December 31 ends on the latest date.

(c) *Taxable income limitation*—(1) *In general.* The aggregate cost of section 179 property elected to be expensed under section 179 that may be deducted for any taxable year may not exceed the aggregate amount of taxable income of the taxpayer for such taxable year that is derived from the active conduct by the taxpayer of any trade or business during the taxable year. For purposes of section 179(b)(3) and this paragraph (c), the aggregate amount of taxable income derived from the active conduct by an individual, a partnership, or an S corporation of any trade or business is computed by aggregating the net income (or loss) from all of the trades or businesses actively conducted by the individual, partnership, or S corporation during the taxable year. Items of income that are derived from the active conduct of a trade or business include section 1231 gains (or losses) from the trade or business and interest from working capital of the trade or business. Taxable income derived from the active conduct

of a trade or business is computed without regard to the deduction allowable under section 179, any section 164(f) deduction, any net operating loss carryback or carryforward, and deductions suspended under any section of the Code. See paragraph (c)(6) of this section for rules on determining whether a taxpayer is engaged in the active conduct of a trade or business for this purpose.

(2) *Application to partnerships and partners*—(i) *In general.* The taxable income limitation of this paragraph (c) applies to the partnership as well as to each partner. Thus, the partnership may not allocate to its partners as a section 179 expense deduction for any taxable year more than the partnership's taxable income limitation for that taxable year, and a partner may not deduct as a section 179 expense deduction for any taxable year more than the partner's taxable income limitation for that taxable year.

(ii) *Taxable year.* If the taxable year of a partner and the partnership do not coincide, then for purposes of section 179, the amount of the partnership's taxable income attributable to a partner for a taxable year is determined under section 706 and the regulations thereunder (generally the partner's distributive share of partnership taxable income for the partnership year that ends with or within the partner's taxable year).

(iii) *Example.* The following example illustrates the provisions of paragraph (c)(2)(ii) of this section.

Example. AB partnership has a taxable year ending January 31. A, a partner of AB, has a taxable year ending December 31. For AB's taxable year ending January 31, 1992, AB has taxable income from the active conduct of its trade or business of \$100,000, \$90,000 of which was earned during 1991. Under section 706 and § 1.706-1(a)(1), A includes A's entire share of partnership taxable income in computing A's taxable income limitation for A's taxable year ending December 31, 1992.

(iv) *Taxable income of a partnership.* The taxable income (or loss) derived from the active conduct by a partnership of any trade or business is computed by aggregating the net income (or loss) from all of the trades or businesses actively conducted by the partnership during the taxable year. The

net income (or loss) from a trade or business actively conducted by the partnership is determined by taking into account the aggregate amount of the partnership's items described in section 702(a) (other than credits, tax-exempt income, and guaranteed payments under section 707(c)) derived from that trade or business. For purposes of determining the aggregate amount of partnership items, deductions and losses are treated as negative income. Any limitation on the amount of a partnership item described in section 702(a) which may be taken into account for purposes of computing the taxable income of a partner shall be disregarded in computing the taxable income of the partnership.

(v) *Partner's share of partnership taxable income.* A taxpayer who is a partner in a partnership and is engaged in the active conduct of at least one of the partnership's trades or businesses includes as taxable income derived from the active conduct of a trade or business the amount of the taxpayer's allocable share of taxable income derived from the active conduct by the partnership of any trade or business (as determined under paragraph (c)(2)(iv) of this section).

(3) *S corporations and S corporation shareholders*—(i) *In general.* Rules similar to those contained in paragraphs (c)(2) (i) and (ii) of this section apply in the case of S corporations (as defined in section 1361(a)) and their shareholders. Each shareholder's share of the taxable income of an S corporation is determined under section 1366.

(ii) *Taxable income of an S corporation.* The taxable income (or loss) derived from the active conduct by an S corporation of any trade or business is computed by aggregating the net income (or loss) from all of the trades or businesses actively conducted by the S corporation during the taxable year. The net income (or loss) from a trade or business actively conducted by an S corporation is determined by taking into account the aggregate amount of the S corporation's items described in section 1366(a) (other than credits, tax-exempt income, and deductions for compensation paid to an S corporation's shareholder-employees) derived from that trade or business. For pur-

poses of determining the aggregate amount of S corporation items, deductions and losses are treated as negative income. Any limitation on the amount of an S corporation item described in section 1366(a) which may be taken into account for purposes of computing the taxable income of a shareholder shall be disregarded in computing the taxable income of the S corporation.

(iii) *Shareholder's share of S corporation taxable income.* Rules similar to those contained in paragraph (c)(2)(v) and (c)(6)(ii) of this section apply to a taxpayer who is a shareholder in an S corporation and is engaged in the active conduct of the S corporation's trades or businesses.

(4) *Taxable income of a corporation other than an S corporation.* The aggregate amount of taxable income derived from the active conduct by a corporation other than an S corporation of any trade or business is the amount of the corporation's taxable income before deducting its net operating loss deduction and special deductions (as reported on the corporation's income tax return), adjusted to reflect those items of income or deduction included in that amount that were not derived by the corporation from a trade or business actively conducted by the corporation during the taxable year.

(5) *Ordering rule for certain circular problems*—(i) *In general.* A taxpayer who elects to expense the cost of section 179 property (the deduction of which is subject to the taxable income limitation) also may have to apply another Internal Revenue Code section that has a limitation based on the taxpayer's taxable income. Except as provided in paragraph (c)(1) of this section, this section provides rules for applying the taxable income limitation under section 179 in such a case. First, taxable income is computed for the other section of the Internal Revenue Code. In computing the taxable income of the taxpayer for the other section of the Internal Revenue Code, the taxpayer's section 179 deduction is computed by assuming that the taxpayer's taxable income is determined without regard to the deduction under the other Internal Revenue Code section. Next, after reducing taxable income by the amount of the section 179 deduction so

computed, a hypothetical amount of deduction is determined for the other section of the Internal Revenue Code. The taxable income limitation of the taxpayer under section 179(b)(3) and this paragraph (c) then is computed by including that hypothetical amount in determining taxable income.

(ii) *Example.* The following example illustrates the ordering rule described in paragraph (c)(5)(i) of this section.

Example. X, a calendar-year corporation, elects to expense \$10,000 of the cost of section 179 property purchased and placed in service during 1991. Assume X's dollar limitation is \$10,000. X also gives a charitable contribution of \$5,000 during the taxable year. X's taxable income for purposes of both sections 179 and 170(b)(2), but without regard to any deduction allowable under either section 179 or section 170, is \$11,000. In determining X's taxable income limitation under section 179(b)(3) and this paragraph (c), X must first compute its section 170 deduction. However, section 170(b)(2) limits X's charitable contribution to 10 percent of its taxable income determined by taking into account its section 179 deduction. Paragraph (c)(5)(i) of this section provides that in determining X's section 179 deduction for 1991, X first computes a hypothetical section 170 deduction by assuming that its section 179 deduction is not affected by the section 170 deduction. Thus, in computing X's hypothetical section 170 deduction, X's taxable income limitation under section 179 is \$11,000 and its section 179 deduction is \$10,000. X's hypothetical section 170 deduction is \$100 (10 percent of \$1,000 (\$11,000 less \$10,000 section 179 deduction)). X's taxable income limitation for section 179 purposes is then computed by deducting the hypothetical charitable contribution of \$100 for 1991. Thus, X's section 179 taxable income limitation is \$10,900 (\$11,000 less hypothetical \$100 section 170 deduction), and its section 179 deduction for 1991 is \$10,000. X's section 179 deduction so calculated applies for all purposes of the Code, including the computation of its actual section 170 deduction.

(6) *Active conduct by the taxpayer of a trade or business—(i) Trade or business.* For purposes of this section and § 1.179-4(a), the term *trade or business* has the same meaning as in section 162 and the regulations thereunder. Thus, property held merely for the production of income or used in an activity not engaged in for profit (as described in section 183) does not qualify as section 179 property and taxable income derived from property held for the production of income or from an activity not en-

gaged in for profit is not taken into account in determining the taxable income limitation.

(ii) *Active conduct.* For purposes of this section, the determination of whether a trade or business is actively conducted by the taxpayer is to be made from all the facts and circumstances and is to be applied in light of the purpose of the active conduct requirement of section 179(b)(3)(A). In the context of section 179, the purpose of the active conduct requirement is to prevent a passive investor in a trade or business from deducting section 179 expenses against taxable income derived from that trade or business. Consistent with this purpose, a taxpayer generally is considered to actively conduct a trade or business if the taxpayer meaningfully participates in the management or operations of the trade or business. Generally, a partner is considered to actively conduct a trade or business of the partnership if the partner meaningfully participates in the management or operations of the trade or business. A mere passive investor in a trade or business does not actively conduct the trade or business.

(iii) *Example.* The following example illustrates the provisions of paragraph (c)(6)(ii) of this section.

Example. A owns a salon as a sole proprietorship and employs B to operate it. A periodically meets with B to review developments relating to the business. A also approves the salon's annual budget that is prepared by B. B performs all the necessary operating functions, including hiring beauticians, acquiring the necessary beauty supplies, and writing the checks to pay all bills and the beauticians' salaries. In 1991, B purchased, as provided for in the salon's annual budget, equipment costing \$9,500 for use in the active conduct of the salon. There were no other purchases of section 179 property during 1991. A's net income from the salon, before any section 179 deduction, totaled \$8,000. A also is a partner in PRS, a calendar-year partnership, which owns a grocery store. C, a partner in PRS, runs the grocery store for the partnership, making all the management and operating decisions. PRS did not purchase any section 179 property during 1991. A's allocable share of partnership net income was \$6,000. Based on the facts and circumstances, A meaningfully participates in the management of the salon. However, A does not meaningfully participate in the management or operations of the trade or business of PRS. Under section

179(b)(3)(A) and this paragraph (c), A's aggregate taxable income derived from the active conduct by A of any trade or business is \$8,000, the net income from the salon.

(iv) *Employees.* For purposes of this section, employees are considered to be engaged in the active conduct of the trade or business of their employment. Thus, wages, salaries, tips, and other compensation (not reduced by unreimbursed employee business expenses) derived by a taxpayer as an employee are included in the aggregate amount of taxable income of the taxpayer under paragraph (c)(1) of this section.

(7) *Joint returns*—(i) *In general.* The taxable income limitation of this paragraph (c) is applied to a husband and wife who file a joint income tax return under section 6013(a) by aggregating the taxable income of each spouse (as determined under paragraph (c)(1) of this section).

(ii) *Joint returns filed after separate returns.* In the case of a husband and wife who elect under section 6013(b) to file a joint income tax return for a taxable year after the time prescribed by law for filing the return for such taxable year, the taxable income limitation of this paragraph (c) for the taxable year for which the joint return is filed is determined under paragraph (c)(7)(i) of this section.

(8) *Married individuals filing separately.* In the case of an individual who is married but files a separate tax return for a taxable year, the taxable income limitation for that individual is determined under paragraph (c)(1) of this section by treating the husband and wife as separate taxpayers.

(d) *Examples.* The following examples illustrate the provisions of paragraphs (b) and (c) of this section.

Example 1. (i) During 1991, PRS, a calendar-year partnership, purchases and places in service \$50,000 of section 179 property. The taxable income of PRS derived from the active conduct of all its trades or businesses (as determined under paragraph (c)(1) of this section) is \$8,000.

(ii) Under the dollar limitation of paragraph (b) of this section, PRS may elect to expense \$10,000 of the cost of section 179 property purchased in 1991. Assume PRS elects under section 179(c) and § 1.179-5 to expense \$10,000 of the cost of section 179 property purchased in 1991.

(iii) Under the taxable income limitation of paragraph (c) of this section, PRS may allocate to its partners as a deduction only \$8,000 of the cost of section 179 property in 1991. Under section 179(b)(3)(B) and § 1.179-3(a), PRS may carry forward the remaining \$2,000 it elected to expense, which would have been deductible under section 179(a) for 1991 absent the taxable income limitation.

Example 2. (i) The facts are the same as in *Example 1*, except that on December 31, 1991, PRS allocates to A, a calendar-year taxpayer and a partner in PRS, \$7,000 of section 179 expenses and \$2,000 of taxable income. A was engaged in the active conduct of a trade or business of PRS during 1991.

(ii) In addition to being a partner in PRS, A conducts a business as a sole proprietor. During 1991, A purchases and places in service \$201,000 of section 179 property in connection with the sole proprietorship. A's 1991 taxable income derived from the active conduct of this business is \$6,000.

(iii) Under the dollar limitation, A may elect to expense only \$9,000 of the cost of section 179 property purchased in 1991, the \$10,000 limit reduced by \$1,000 (the amount by which the cost of section 179 property placed in service during 1991 (\$201,000) exceeds \$200,000). Under paragraph (b)(3)(i) of this section, the \$7,000 of section 179 expenses allocated from PRS is subject to the \$9,000 limit. Assume that A elects to expense \$2,000 of the cost of section 179 property purchased by A's sole proprietorship in 1991. Thus, A has elected to expense under section 179 an amount equal to the dollar limitation for 1991 (\$2,000 elected to be expensed by A's sole proprietorship plus \$7,000, the amount of PRS's section 179 expenses allocated to A in 1991).

(iv) Under the taxable income limitation, A may only deduct \$8,000 of the cost of section 179 property elected to be expensed in 1991, the aggregate taxable income derived from the active conduct of A's trades or businesses in 1991 (\$2,000 from PRS and \$6,000 from A's sole proprietorship). The entire \$2,000 of taxable income allocated from PRS is included by A as taxable income derived from the active conduct by A of a trade or business because it was derived from the active conduct of a trade or business by PRS and A was engaged in the active conduct of a trade or business of PRS during 1991. Under section 179(b)(3)(B) and § 1.179-3(a), A may carry forward the remaining \$1,000 A elected to expense, which would have been deductible under section 179(a) for 1991 absent the taxable income limitation.

[T.D. 8455, 57 FR 61318, Dec. 24, 1992, as amended by T.D. 9146, 69 FR 46983, Aug. 4, 2004; T.D. 9209, 70 FR 40191, July 13, 2005]

§ 1.179-3 Carryover of disallowed deduction.

(a) *In general.* Under section 179(b)(3)(B), a taxpayer may carry forward for an unlimited number of years the amount of any cost of section 179 property elected to be expensed in a taxable year but disallowed as a deduction in that taxable year because of the taxable income limitation of section 179(b)(3)(A) and § 1.179-2(c) (“carryover of disallowed deduction”). This carryover of disallowed deduction may be deducted under section 179(a) and § 1.179-1(a) in a future taxable year as provided in paragraph (b) of this section.

(b) *Deduction of carryover of disallowed deduction—(1) In general.* The amount allowable as a deduction under section 179(a) and § 1.179-1(a) for any taxable year is increased by the lesser of—

(i) The aggregate amount disallowed under section 179(b)(3)(A) and § 1.179-2(c) for all prior taxable years (to the extent not previously allowed as a deduction by reason of this section); or

(ii) The amount of any unused section 179 expense allowance for the taxable year (as described in paragraph (c) of this section).

(2) *Cross references.* See paragraph (f) of this section for rules that apply when a taxpayer disposes of or otherwise transfers section 179 property for which a carryover of disallowed deduction is outstanding. See paragraph (g) of this section for special rules that apply to partnerships and S corporations and paragraph (h) of this section for special rules that apply to partners and S corporation shareholders.

(c) *Unused section 179 expense allowance.* The amount of any unused section 179 expense allowance for a taxable year equals the excess (if any) of—

(1) The maximum cost of section 179 property that the taxpayer may deduct under section 179 and § 1.179-1 for the taxable year after applying the limitations of section 179(b) and § 1.179-2; over

(2) The amount of section 179 property that the taxpayer actually elected to expense under section 179 and § 1.179-1(a) for the taxable year.

(d) *Example.* The following example illustrates the provisions of paragraphs (b) and (c) of this section.

Example. A, a calendar-year taxpayer, has a \$3,000 carryover of disallowed deduction for an item of section 179 property purchased and placed in service in 1991. In 1992, A purchases and places in service an item of section 179 property costing \$25,000. A’s 1992 taxable income from the active conduct of all A’s trades or businesses is \$100,000. A elects, under section 179(c) and § 1.179-5, to expense \$8,000 of the cost of the item of section 179 property purchased in 1992. Under paragraph (b) of this section, A may deduct \$2,000 of A’s carryover of disallowed deduction from 1991 (the lesser of A’s total outstanding carryover of disallowed deductions (\$3,000), or the amount of any unused section 179 expense allowance for 1992 (\$10,000 limit less \$8,000 elected to be expensed, or \$2,000)). For 1993, A has a \$1,000 carryover of disallowed deduction for the item of section 179 property purchased and placed in service in 1991.

(e) *Recordkeeping requirement and ordering rule.* The properties and the apportionment of cost that will be subject to a carryover of disallowed deduction are selected by the taxpayer in the year the properties are placed in service. This selection must be evidenced on the taxpayer’s books and records and be applied consistently in subsequent years. If no selection is made, the total carryover of disallowed deduction is apportioned equally over the items of section 179 property elected to be expensed for the taxable year. For this purpose, the taxpayer treats any section 179 expense amount allocated from a partnership (or an S corporation) for a taxable year as one item of section 179 property. If the taxpayer is allowed to deduct a portion of the total carryover of disallowed deduction under paragraph (b) of this section, the taxpayer must deduct the cost of section 179 property carried forward from the earliest taxable year.

(f) *Dispositions and other transfers of section 179 property—(1) In general.* Upon a sale or other disposition of section 179 property, or a transfer of section 179 property in a transaction in which gain or loss is not recognized in whole or in part (including transfers at death), immediately before the transfer the adjusted basis of the section 179 property is increased by the amount of any outstanding carryover of disallowed deduction with respect to the property. This carryover of disallowed deduction is not available as a deduction to the

transferor or the transferee of the section 179 property.

(2) *Recapture under section 179(d)(10).* Under § 1.179-1(e), if a taxpayer's section 179 property is subject to recapture under section 179(d)(10), the taxpayer must recapture the benefit derived from expensing the property. Upon recapture, any outstanding carryover of disallowed deduction with respect to the property is no longer available for expensing. In determining the amount subject to recapture under section 179(d)(10) and § 1.179-1(e), any outstanding carryover of disallowed deduction with respect to that property is not treated as an amount expensed under section 179.

(g) *Special rules for partnerships and S corporations—(1) In general.* Under section 179(d)(8) and § 1.179-2(c), the taxable income limitation applies at the partnership level as well as at the partner level. Therefore, a partnership may have a carryover of disallowed deduction with respect to the cost of its section 179 property. Similar rules apply to S corporations. This paragraph (g) provides special rules that apply when a partnership or an S corporation has a carryover of disallowed deduction.

(2) *Basis adjustment.* Under § 1.179-1(f)(2), the basis of a partnership's section 179 property must be reduced to reflect the amount of section 179 expense elected by the partnership. This reduction must be made for the taxable year for which the election is made even if the section 179 expense amount, or a portion thereof, must be carried forward by the partnership. Similar rules apply to S corporations.

(3) *Dispositions and other transfers of section 179 property by a partnership or an S corporation.* The provisions of paragraph (f) of this section apply in determining the treatment of any outstanding carryover of disallowed deduction with respect to section 179 property disposed of, or transferred in a nonrecognition transaction, by a partnership or an S corporation.

(4) *Example.* The following example illustrates the provisions of this paragraph (g).

Example. ABC, a calendar-year partnership, owns and operates a restaurant business. During 1992, ABC purchases and places in service two items of section 179 property—a

cash register costing \$4,000 and office furniture costing \$6,000. ABC elects to expense under section 179(c) the full cost of the cash register and the office furniture. For 1992, ABC has \$6,000 of taxable income derived from the active conduct of its restaurant business. Therefore, ABC may deduct only \$6,000 of section 179 expenses and must carry forward the remaining \$4,000 of section 179 expenses at the partnership level. ABC must reduce the adjusted basis of the section 179 property by the full amount elected to be expensed. However, ABC may not allocate to its partners any portion of the carryover of disallowed deduction until ABC is able to deduct it under paragraph (b) of this section.

(h) *Special rules for partners and S corporation shareholders—(1) In general.* Under section 179(d)(8) and § 1.179-2(c), a partner may have a carryover of disallowed deduction with respect to the cost of section 179 property elected to be expensed by the partnership and allocated to the partner. A partner who is allocated section 179 expenses from a partnership must reduce the basis of his or her partnership interest by the full amount allocated regardless of whether the partner may deduct for the taxable year the allocated section 179 expenses or is required to carry forward all or a portion of the expenses. Similar rules apply to S corporation shareholders.

(2) *Dispositions and other transfers of a partner's interest in a partnership or a shareholder's interest in an S corporation.* A partner who disposes of a partnership interest, or transfers a partnership interest in a transaction in which gain or loss is not recognized in whole or in part (including transfers of a partnership interest at death), may have an outstanding carryover of disallowed deduction of section 179 expenses allocated from the partnership. In such a case, immediately before the transfer the partner's basis in the partnership interest is increased by the amount of the partner's outstanding carryover of disallowed deduction with respect to the partnership interest. This carryover of disallowed deduction is not available as a deduction to the transferor or transferee partner of the section 179 property. Similar rules apply to S corporation shareholders.

(3) *Examples.* The following examples illustrate the provisions of this paragraph (h).

Example 1. (i) G is a general partner in GD, a calendar-year partnership, and is engaged in the active conduct of GD's business. During 1991, GD purchases and places section 179 property in service and elects to expense a portion of the cost of the property under section 179. GD allocates \$2,500 of section 179 expenses and \$15,000 of taxable income (determined without regard to the section 179 deduction) to G. The income was derived from the active conduct by GD of a trade or business.

(ii) In addition to being a partner in GD, G conducts a business as a sole proprietor. During 1991, G purchases and places in service office equipment costing \$25,000 and a computer costing \$10,000 in connection with the sole proprietorship. G elects under section 179(c) and § 1.179-5 to expense \$7,500 of the cost of the office equipment. G has a taxable loss (determined without regard to the section 179 deduction) derived from the active conduct of this business of \$12,500.

(iii) G has no other taxable income (or loss) derived from the active conduct of a trade or business during 1991. G's taxable income limitation for 1991 is \$2,500 (\$15,000 taxable income allocated from GD less \$12,500 taxable loss from the sole proprietorship). Therefore, G may deduct during 1991 only \$2,500 of the \$10,000 of section 179 expenses. G notes on the appropriate books and records that G expenses the \$2,500 of section 179 expenses allocated from GD and carries forward the \$7,500 of section 179 expenses with respect to the office equipment purchased by G's sole proprietorship.

(iv) On January 1, 1992, G sells the office equipment G's sole proprietorship purchased and placed in service in 1991. Under paragraph (f) of this section, immediately before the sale G increases the adjusted basis of the office equipment by \$7,500, the amount of the outstanding carryover of disallowed deduction with respect to the office equipment.

Example 2. (i) Assume the same facts as in *Example 1*, except that G notes on the appropriate books and records that G expenses \$2,500 of section 179 expenses relating to G's sole proprietorship and carries forward the remaining \$5,000 of section 179 expenses relating to G's sole proprietorship and \$2,500 of section 179 expenses allocated from GD.

(ii) On January 1, 1992, G sells G's partnership interest to A. Under paragraph (h)(2) of this section, immediately before the sale G increases the adjusted basis of G's partnership interest by \$2,500, the amount of the outstanding carryover of disallowed deduction with respect to the partnership interest.

[T.D. 8455, 57 FR 61321, Dec. 24, 1992]

§ 1.179-4 Definitions.

The following definitions apply for purposes of section 179 and §§ 1.179-1 through 1.179-6:

(a) *Section 179 property.* The term *section 179 property* means any tangible property described in section 179(d)(1) that is acquired by purchase for use in the active conduct of the taxpayer's trade or business (as described in § 1.179-2(c)(6)). For taxable years beginning after 2002 and before 2008, the term *section 179 property* includes computer software described in section 179(d)(1) that is placed in service by the taxpayer in a taxable year beginning after 2002 and before 2008 and is acquired by purchase for use in the active conduct of the taxpayer's trade or business (as described in § 1.179-2(c)(6)). For purposes of this paragraph (a), the term *trade or business* has the same meaning as in section 162 and the regulations under section 162.

(b) *Section 38 property.* The term *section 38 property* shall have the same meaning assigned to it in section 48(a) and the regulations thereunder.

(c) *Purchase.* (1)(i) Except as otherwise provided in paragraph (d)(2) of this section, the term *purchase* means any acquisition of the property, but only if all the requirements of paragraphs (c)(1)(ii), (iii), and (iv) of this section are satisfied.

(ii) Property is not acquired by purchase if it is acquired from a person whose relationship to the person acquiring it would result in the disallowance of losses under section 267 or 707(b). The property is considered not acquired by purchase only to the extent that losses would be disallowed under section 267 or 707(b). Thus, for example, if property is purchased by a husband and wife jointly from the husband's father, the property will be treated as not acquired by purchase only to the extent of the husband's interest in the property. However, in applying the rules of section 267 (b) and (c) for this purpose, section 267(c)(4) shall be treated as providing that the family of an individual will include only his spouse, ancestors, and lineal descendants. For example, a purchase of property from a corporation by a taxpayer who owns, directly or indirectly, more than 50 percent in value of the outstanding stock of such corporation does not qualify as a purchase under section 179(d)(2); nor does the purchase of property by a husband

from his wife. However, the purchase of section 179 property by a taxpayer from his brother or sister does qualify as a purchase for purposes of section 179(d)(2).

(iii) The property is not acquired by purchase if acquired from a component member of a controlled group of corporations (as defined in paragraph (g) of this section) by another component member of the same group.

(iv) The property is not acquired by purchase if the basis of the property in the hands of the person acquiring it is determined in whole or in part by reference to the adjusted basis of such property in the hands of the person from whom acquired, is determined under section 1014(a), relating to property acquired from a decedent, or is determined under section 1022, relating to property acquired from certain decedents who died in 2010. For example, property acquired by gift or bequest does not qualify as property acquired by purchase for purposes of section 179(d)(2); nor does property received in a corporate distribution the basis of which is determined under section 301(d)(2)(B), property acquired by a corporation in a transaction to which section 351 applies, property acquired by a partnership through contribution (section 723), or property received in a partnership distribution which has a carryover basis under section 732(a)(1).

(2) Property deemed to have been acquired by a new target corporation as a result of a section 338 election (relating to certain stock purchases treated as asset acquisitions) will be considered acquired by purchase.

(d) *Cost.* The cost of section 179 property does not include so much of the basis of such property as is determined by reference to the basis of other property held at any time by the taxpayer. For example, X Corporation purchases a new drill press costing \$10,000 in November 1984 which qualifies as section 179 property, and is granted a trade-in allowance of \$2,000 on its old drill press. The old drill press had a basis of \$1,200. Under the provisions of sections 1012 and 1031(d), the basis of the new drill press is \$9,200 (\$1,200 basis of old drill press plus cash expended of \$8,000). However, only \$8,000 of the basis of the new drill press qualifies as cost for pur-

poses of the section 179 expense deduction; the remaining \$1,200 is not part of the cost because it is determined by reference to the basis of the old drill press.

(e) *Placed in service.* The term *placed in service* means the time that property is first placed by the taxpayer in a condition or state of readiness and availability for a specifically assigned function, whether for use in a trade or business, for the production of income, in a tax-exempt activity, or in a personal activity. See § 1.46-3(d)(2) for examples regarding when property shall be considered in a condition or state of readiness and availability for a specifically assigned function.

(f) *Controlled group of corporations and component member of controlled group.* The terms *controlled group of corporations* and *component member of a controlled group of corporations* shall have the same meaning assigned to those terms in section 1563 (a) and (b), except that the phrase “more than 50 percent” shall be substituted for the phrase “at least 80 percent” each place it appears in section 1563(a)(1).

[T.D. 8121, 52 FR 413, Jan. 6, 1987. Redesignated by T.D. 8455, 57 FR 61321, 61323, Dec. 24, 1992, as amended by T.D. 9146, 69 FR 46984, Aug. 4, 2004; T.D. 9209, 70 FR 40191, July 13, 2005; T.D. 9811, 82 FR 6236, Jan. 19, 2016]

§ 1.179-5 Time and manner of making election.

(a) *Election.* A separate election must be made for each taxable year in which a section 179 expense deduction is claimed with respect to section 179 property. The election under section 179 and § 1.179-1 to claim a section 179 expense deduction for section 179 property shall be made on the taxpayer's first income tax return for the taxable year to which the election applies (whether or not the return is timely) or on an amended return filed within the time prescribed by law (including extensions) for filing the return for such taxable year. The election shall be made by showing as a separate item on the taxpayer's income tax return the following items:

(1) The total section 179 expense deduction claimed with respect to all section 179 property selected, and

(2) The portion of that deduction allocable to each specific item.

The person shall maintain records which permit specific identification of each piece of section 179 property and reflect how and from whom such property was acquired and when such property was placed in service. However, for this purpose a partner (or an S corporation shareholder) treats partnership (or S corporation) section 179 property for which section 179 expenses are allocated from a partnership (or an S corporation) as one item of section 179 property. The election to claim a section 179 expense deduction under this section, with respect to any property, is irrevocable and will be binding on the taxpayer with respect to such property for the taxable year for which the election is made and for all subsequent taxable years, unless the Commissioner consents to the revocation of the election. Similarly, the selection of section 179 property by the taxpayer to be subject to the expense deduction and apportionment scheme must be adhered to in computing the taxpayer's taxable income for the taxable year for which the election is made and for all subsequent taxable years, unless consent to change is given by the Commissioner.

(b) *Revocation.* Any election made under section 179, and any specification contained in such election, may not be revoked except with the consent of the Commissioner. Such consent will be granted only in extraordinary circumstances. Requests for consent must be filed with the Commissioner of Internal Revenue, Washington, DC 20224. The request must include the name, address, and taxpayer identification number of the taxpayer and must be signed by the taxpayer or his duly authorized representative. It must be accompanied by a statement showing the year and property involved, and must set forth in detail the reasons for the request.

(c) *Section 179 property placed in service by the taxpayer in a taxable year beginning after 2002 and before 2008—(1) In general.* For any taxable year beginning after 2002 and before 2008, a taxpayer is permitted to make or revoke an election under section 179 without the consent of the Commissioner on an amended Federal tax return for that taxable year. This amended return must be

filed within the time prescribed by law for filing an amended return for such taxable year.

(2) *Election—(i) In general.* For any taxable year beginning after 2002 and before 2008, a taxpayer is permitted to make an election under section 179 on an amended Federal tax return for that taxable year without the consent of the Commissioner. Thus, the election under section 179 and § 1.179-1 to claim a section 179 expense deduction for section 179 property may be made on an amended Federal tax return for the taxable year to which the election applies. The amended Federal tax return must include the adjustment to taxable income for the section 179 election and any collateral adjustments to taxable income or to the tax liability (for example, the amount of depreciation allowed or allowable in that taxable year for the item of section 179 property to which the election pertains). Such adjustments must also be made on amended Federal tax returns for any affected succeeding taxable years.

(ii) *Specifications of elections.* Any election under section 179 must specify the items of section 179 property and the portion of the cost of each such item to be taken into account under section 179(a). Any election under section 179 must comply with the specification requirements of section 179(c)(1)(A), § 1.179-1(b), and § 1.179-5(a). If a taxpayer elects to expense only a portion of the cost basis of an item of section 179 property for a taxable year beginning after 2002 and before 2008 (or did not elect to expense any portion of the cost basis of the item of section 179 property), the taxpayer is permitted to file an amended Federal tax return for that particular taxable year and increase the portion of the cost of the item of section 179 property to be taken into account under section 179(a) (or elect to expense any portion of the cost basis of the item of section 179 property if no prior election was made) without the consent of the Commissioner. Any such increase in the amount expensed under section 179 is not deemed to be a revocation of the prior election for that particular taxable year.

(3) *Revocation—(i) In general.* Section 179(c)(2) permits the revocation of an

entire election or specification, or a portion of the selected dollar amount of a specification. The term *specification* in section 179(c)(2) refers to both the selected specific item of section 179 property subject to a section 179 election and the selected dollar amount allocable to the specific item of section 179 property. Any portion of the cost basis of an item of section 179 property subject to an election under section 179 for a taxable year beginning after 2002 and before 2008 may be revoked by the taxpayer without the consent of the Commissioner by filing an amended Federal tax return for that particular taxable year. The amended Federal tax return must include the adjustment to taxable income for the section 179 revocation and any collateral adjustments to taxable income or to the tax liability (for example, allowable depreciation in that taxable year for the item of section 179 property to which the revocation pertains). Such adjustments must also be made on amended Federal tax returns for any affected succeeding taxable years. Reducing or eliminating a specified dollar amount for any item of section 179 property with respect to any taxable year beginning after 2002 and before 2008 results in a revocation of that specified dollar amount.

(ii) *Effect of revocation.* Such revocation, once made, shall be irrevocable. If the selected dollar amount reflects the entire cost of the item of section 179 property subject to the section 179 election, a revocation of the entire selected dollar amount is treated as a revocation of the section 179 election for that item of section 179 property and the taxpayer is unable to make a new section 179 election with respect to that item of property. If the selected dollar amount is a portion of the cost of the item of section 179 property, revocation of a selected dollar amount shall be treated as a revocation of only that selected dollar amount. The revoked dollars cannot be the subject of a new section 179 election for the same item of property.

(4) *Examples.* The following examples illustrate the rules of this paragraph (c):

Example 1. Taxpayer, a sole proprietor, owns and operates a jewelry store. During 2003, Taxpayer purchased and placed in serv-

ice two items of section 179 property—a cash register costing \$4,000 (5-year MACRS property) and office furniture costing \$10,000 (7-year MACRS property). On his 2003 Federal tax return filed on April 15, 2004, Taxpayer elected to expense under section 179 the full cost of the cash register and, with respect to the office furniture, claimed the depreciation allowable. In November 2004, Taxpayer determines it would have been more advantageous to have made an election under section 179 to expense the full cost of the office furniture rather than the cash register. Pursuant to paragraph (c)(1) of this section, Taxpayer is permitted to file an amended Federal tax return for 2003 revoking the section 179 election for the cash register, claiming the depreciation allowable in 2003 for the cash register, and making an election to expense under section 179 the cost of the office furniture. The amended return must include an adjustment for the depreciation previously claimed in 2003 for the office furniture, an adjustment for the depreciation allowable in 2003 for the cash register, and any other collateral adjustments to taxable income or to the tax liability. In addition, once Taxpayer revokes the section 179 election for the entire cost basis of the cash register, Taxpayer can no longer expense under section 179 any portion of the cost of the cash register.

Example 2. Taxpayer, a sole proprietor, owns and operates a machine shop that does specialized repair work on industrial equipment. During 2003, Taxpayer purchased and placed in service one item of section 179 property—a milling machine costing \$135,000. On Taxpayer's 2003 Federal tax return filed on April 15, 2004, Taxpayer elected to expense under section 179 \$5,000 of the cost of the milling machine and claimed allowable depreciation on the remaining cost. Subsequently, Taxpayer determines it would have been to Taxpayer's advantage to have elected to expense \$100,000 of the cost of the milling machine on Taxpayer's 2003 Federal tax return. In November 2004, Taxpayer files an amended Federal tax return for 2003, increasing the amount of the cost of the milling machine that is to be taken into account under section 179(a) to \$100,000, decreasing the depreciation allowable in 2003 for the milling machine, and making any other collateral adjustments to taxable income or to the tax liability. Pursuant to paragraph (c)(2)(ii) of this section, increasing the amount of the cost of the milling machine to be taken into account under section 179(a) supplements the portion of the cost of the milling machine that was already taken into account by the original section 179 election made on the 2003 Federal tax return and no revocation of any specification with respect to the milling machine has occurred.

Example 3. Taxpayer, a sole proprietor, owns and operates a real estate brokerage business located in a rented storefront office.

§ 1.179-6

26 CFR Ch. I (4-1-17 Edition)

During 2003, Taxpayer purchases and places in service two items of section 179 property—a laptop computer costing \$2,500 and a desktop computer costing \$1,500. On Taxpayer's 2003 Federal tax return filed on April 15, 2004, Taxpayer elected to expense under section 179 the full cost of the laptop computer and the full cost of the desktop computer. Subsequently, Taxpayer determines it would have been to Taxpayer's advantage to have originally elected to expense under section 179 only \$1,500 of the cost of the laptop computer on Taxpayer's 2003 Federal tax return. In November 2004, Taxpayer files an amended Federal tax return for 2003 reducing the amount of the cost of the laptop computer that was taken into account under section 179(a) to \$1,500, claiming the depreciation allowable in 2003 on the remaining cost of \$1,000 for that item, and making any other collateral adjustments to taxable income or to the tax liability. Pursuant to paragraph (c)(3)(ii) of this section, the \$1,000 reduction represents a revocation of a portion of the selected dollar amount and no portion of those revoked dollars may be the subject of a new section 179 election for the laptop computer.

Example 4. Taxpayer, a sole proprietor, owns and operates a furniture making business. During 2003, Taxpayer purchases and places in service one item of section 179 property—an industrial-grade cabinet table saw costing \$5,000. On Taxpayer's 2003 Federal tax return filed on April 15, 2004, Taxpayer elected to expense under section 179 \$3,000 of the cost of the saw and, with respect to the remaining \$2,000 of the cost of the saw, claimed the depreciation allowable. In November 2004, Taxpayer files an amended Federal tax return for 2003 revoking the selected \$3,000 amount for the saw, claiming the depreciation allowable in 2003 on the \$3,000 cost of the saw, and making any other collateral adjustments to taxable income or to the tax liability. Subsequently, in December 2004, Taxpayer files a second amended Federal tax return for 2003 selecting a new dollar amount of \$2,000 for the saw, including an adjustment for the depreciation previously claimed in 2003 on the \$2,000, and making any other collateral adjustments to taxable income or to the tax liability. Pursuant to paragraph (c)(2)(ii) of this section, Taxpayer is permitted to select a new selected dollar amount to expense under section 179 encompassing all or a part of the initially non-elected portion of the cost of the elected item of section 179 property. However, no portion of the revoked \$3,000 may be the subject of a new section 179 dollar amount selection for the saw. In December 2005, Taxpayer files a third amended Federal tax return for 2003 revoking the entire selected \$2,000 amount with respect to the saw, claiming the depreciation allowable in 2003 for the \$2,000, and making any other collateral adjustments to taxable income or to the tax li-

ability. Because Taxpayer elected to expense, and subsequently revoke, the entire cost basis of the saw, the section 179 election for the saw has been revoked and Taxpayer is unable to make a new section 179 election with respect to the saw.

(d) *Election or revocation must not be made in any other manner.* Any election or revocation specified in this section must be made in the manner prescribed in paragraphs (a), (b), and (c) of this section. Thus, this election or revocation must not be made by the taxpayer in any other manner (for example, an election or a revocation of an election cannot be made through a request under section 446(e) to change the taxpayer's method of accounting), except as otherwise expressly provided by the Internal Revenue Code, the regulations under the Code, or other guidance published in the Internal Revenue Bulletin.

[T.D. 8121, 52 FR 414, Jan. 6, 1987. Redesignated by T.D. 8455, 57 FR 61321, 61323, Dec. 24, 1992, as amended by T.D. 9146, 69 FR 46984, Aug. 4, 2004; T.D. 9209, 70 FR 40191, July 13, 2005]

§ 1.179-6 Effective/applicability dates.

(a) *In general.* Except as provided in paragraphs (b), (c), and (d) of this section, the provisions of §§ 1.179-1 through 1.179-5 apply for property placed in service by the taxpayer in taxable years ending after January 25, 1993. However, a taxpayer may apply the provisions of §§ 1.179-1 through 1.179-5 to property placed in service by the taxpayer after December 31, 1986, in taxable years ending on or before January 25, 1993. Otherwise, for property placed in service by the taxpayer after December 31, 1986, in taxable years ending on or before January 25, 1993, the final regulations under section 179 as in effect for the year the property was placed in service apply, except to the extent modified by the changes made to section 179 by the Tax Reform Act of 1986 (100 Stat. 2085), the Technical and Miscellaneous Revenue Act of 1988 (102 Stat. 3342) and the Revenue Reconciliation Act of 1990 (104 Stat. 1388-400). For that property, a taxpayer may apply any reasonable method that clearly reflects income in applying the changes to section 179, provided the

taxpayer consistently applies the method to the property.

(b) *Section 179 property placed in service by the taxpayer in a taxable year beginning after 2002 and before 2008.* The provisions of § 1.179-2(b)(1) and (b)(2)(ii), the second sentence of § 1.179-4(a), and the provisions of § 1.179-5(c), reflecting changes made to section 179 by the Jobs and Growth Tax Relief Reconciliation Act of 2003 (117 Stat. 752) and the American Jobs Creation Act of 2004 (118 Stat. 1418), apply for property placed in service in taxable years beginning after 2002 and before 2008.

(c) *Application of § 1.179-5(d).* Section 1.179-5(d) applies on or after July 12, 2005.

(d) *Application of § 1.179-4(c)(1)(iv).* The provisions of § 1.179-4(c)(1)(iv) relating to section 1022 are effective on and after January 19, 2017.

[T.D. 9146, 69 FR 46985, Aug. 4, 2004. Redesignated and amended by T.D. 9209, 70 FR 40192, July 13, 2005; T.D. 9811, 82 FR 6236, Jan. 19, 2017]

§ 1.179A-1 Recapture of deduction for qualified clean-fuel vehicle property and qualified clean-fuel vehicle refueling property.

(a) *In general.* If a recapture event occurs with respect to a taxpayer's qualified clean-fuel vehicle property or qualified clean-fuel vehicle refueling property, the taxpayer must include the recapture amount in taxable income for the taxable year in which the recapture event occurs.

(b) *Recapture event—(1) Qualified clean-fuel vehicle property—(i) In general.* A recapture event occurs if, within 3 full years from the date a vehicle of which qualified clean-fuel vehicle property is a part is placed in service, the property ceases to be qualified clean-fuel vehicle property. Property ceases to be qualified clean-fuel vehicle property if—

(A) The vehicle is modified by the taxpayer so that it may no longer be propelled by a clean-burning fuel;

(B) The vehicle is used by the taxpayer in a manner described in section 50(b);

(C) The vehicle otherwise ceases to qualify as property defined in section 179A(c); or

(D) The taxpayer receiving the deduction under section 179A sells or disposes of the vehicle and knows or has reason to know that the vehicle will be used in a manner described in paragraph (b)(1)(i) (A), (B), or (C) of this section.

(ii) *Exception for disposition.* Except as provided in paragraph (b)(1)(i)(D) of this section, a sale or other disposition (including a disposition by reason of an accident or other casualty) of qualified clean-fuel vehicle property is not a recapture event.

(2) *Qualified clean-fuel vehicle refueling property—(i) In general.* A recapture event occurs if, at any time before the end of its recovery period, the property ceases to be qualified clean-fuel vehicle refueling property. Property ceases to be qualified clean-fuel vehicle refueling property if—

(A) The property no longer qualifies as property described in section 179A(d);

(B) The property is no longer used predominantly in a trade or business (property will be treated as no longer used predominantly in a trade or business if 50 percent or more of the use of the property in a taxable year is for use other than in a trade or business);

(C) The property is used by the taxpayer in a manner described in section 50(b); or

(D) The taxpayer receiving the deduction under section 179A sells or disposes of the property and knows or has reason to know that the property will be used in a manner described in paragraph (b)(2)(i) (A), (B), or (C) of this section.

(ii) *Exception for disposition.* Except as provided in paragraph (b)(2)(i)(D) of this section, a sale or other disposition (including a disposition by reason of an accident or other casualty) of qualified clean-fuel vehicle refueling property is not a recapture event.

(c) *Recapture date—(1) Qualified clean-fuel vehicle property.* The recapture date is the actual date of the recapture event unless an event described in paragraph (b)(1)(i)(B) of this section occurs, in which case the recapture date is the first day of the recapture year.

(2) *Qualified clean-fuel vehicle refueling property.* The recapture date is the actual date of the recapture event unless

the recapture occurs as a result of an event described in paragraph (b)(2)(i) (B) or (C) of this section, in which case the recapture date is the first day of the recapture year.

(d) *Recapture amount*—(1) *Qualified clean-fuel vehicle property*. The recapture amount is equal to the benefit of the section 179A deduction allowable multiplied by the recapture percentage. The recapture percentage is—

(i) 100, if the recapture date is within the first full year after the date the vehicle is placed in service;

(ii) 66%, if the recapture date is within the second full year after the date the vehicle is placed in service; or

(iii) 33%, if the recapture date is within the third full year after the date the vehicle is placed in service.

(2) *Qualified clean-fuel vehicle refueling property*. The recapture amount is equal to the benefit of the section 179A deduction allowable multiplied by the following fraction. The numerator of the fraction equals the total recovery period for the property minus the number of recovery years prior to, but not including, the recapture year. The denominator of the fraction equals the total recovery period.

(e) *Basis adjustment*. As of the first day of the taxable year in which the recapture event occurs, the basis of the vehicle of which qualified clean-fuel vehicle property is a part or the basis of qualified clean-fuel vehicle refueling property is increased by the recapture amount. For a vehicle or refueling property that is of a character that is subject to an allowance for depreciation, this increase in basis is recoverable over its remaining recovery period beginning as of the first day of the taxable year in which the recapture event occurs.

(f) *Application of section 1245 for sales and other dispositions*. For purposes of section 1245, the amount of the deduction allowable under section 179A(a) with respect to any property that is (or has been) of a character subject to an allowance for depreciation is treated as a deduction allowed for depreciation under section 167. Therefore, upon a sale or other disposition of depreciable qualified clean-fuel vehicle refueling property or a depreciable vehicle of which qualified clean-fuel vehicle prop-

erty is a part, section 1245 will apply to any gain recognized to the extent the basis of the depreciable property or vehicle was reduced under section 179A(e)(6) net of any basis increase described in paragraph (e) of this section.

(g) *Examples*. The following examples illustrate the provisions of this section:

Example 1. A, a calendar-year taxpayer, purchases and places in service for personal use on January 1, 1995, a clean-fuel vehicle, a portion of which is qualified clean-fuel vehicle property, costing \$25,000. The qualified clean-fuel vehicle property costs \$11,000. On A's 1995 federal income tax return, A claims a section 179A deduction of \$2,000. On January 2, 1996, A sells the vehicle to an unrelated third party who subsequently converts the vehicle into a gasoline-propelled vehicle on October 15, 1996. There is no recapture upon the sale of the vehicle by A provided A did not know or have reason to know that the purchaser intended to convert the vehicle to a gasoline-propelled vehicle.

Example 2. B, a calendar-year taxpayer, purchases and places in service for personal use on October 11, 1994, a clean-fuel vehicle costing \$20,000, a portion of which is qualified clean-fuel vehicle property. The qualified clean-fuel vehicle property costs \$10,000. On B's 1994 federal income tax return, B claims a deduction of \$2,000, which reduces B's gross income by \$2,000. The basis of the vehicle is reduced to \$18,000 (\$20,000 - \$2,000). On January 31, 1996, B sells the vehicle to a tax-exempt entity. Because B knowingly sold the vehicle to a tax-exempt entity described in section 50(b) in the second full year from the date the vehicle was placed in service, B must recapture \$1,333 (\$2,000 × 66% percent). This recapture amount increases B's gross income by \$1,333 on B's 1996 federal income tax return and is added to the basis of the motor vehicle as of January 1, 1996, the beginning of the taxable year of recapture.

Example 3. X, a calendar-year taxpayer, purchases and places in service for its business use on January 1, 1994, qualified clean-fuel vehicle refueling property costing \$400,000. Assume this property has a 5-year recovery period. On X's 1994 federal income tax return, X claims a deduction of \$100,000, which reduces X's gross income by \$100,000. The basis of the property is reduced to \$300,000 (\$400,000 - \$100,000) prior to any adjustments for depreciation. In 1996, more than 50 percent of the use of the property is other than in X's trade or business.

Because the property is no longer used predominantly in X's business, X must recapture three-fifths of the section 179A deduction or \$60,000 (\$100,000 × (5-2)/5 = \$60,000) and include that amount in gross income on its 1996 federal income tax return. The recapture

amount of \$60,000 is added to the basis of the property as of January 1, 1996, the beginning of the taxable year of recapture, and to the extent the property remains depreciable, the adjusted basis is recoverable over the remaining recovery period.

Example 4. X, a calendar-year taxpayer, purchases and places in service for business use on January 1, 1994, qualified clean-fuel vehicle refueling property costing \$350,000. Assume this property has a 5-year recovery period. On X's 1994 federal income tax return, X claims a deduction of \$100,000, which reduces X's gross income by \$100,000. The basis of the property is reduced to \$250,000 (\$350,000 - \$100,000) prior to any adjustments for depreciation. In 1995, X converts the property to store and dispense gasoline. Because the property is no longer used as qualified clean-fuel vehicle refueling property in 1995, X must recapture four-fifths of the section 179A deduction or \$80,000 ($\$100,000 \times (5-1)/5 = \$80,000$) and include that amount in gross income on its 1995 federal income tax return. The recapture amount of \$80,000 is added to the basis of the property as of January 1, 1995, the beginning of the taxable year of recapture, and to the extent the property remains depreciable, the adjusted basis is recoverable over the remaining recovery period.

Example 5. The facts are the same as in *Example 4*. In 1996, X sells the refueling property for \$351,000, recognizing a gain from this sale. Under paragraph (f) of this section, section 1245 will apply to any gain recognized on the sale of depreciable property to the extent the basis of the property was reduced by the section 179A deduction net of any basis increase from recapture of the section 179A deduction. Accordingly, the gain from the sale of the property is subject to section 1245 to the extent of the depreciation allowance for the property plus the deduction allowed under section 179A (\$100,000), less the previous recapture amount (\$80,000). Any remaining amount of gain may be subject to other applicable provisions of the Internal Revenue Code.

(h) *Effective date.* This section is effective on October 14, 1994. If the recapture date is before the effective date of this section, a taxpayer may use any reasonable method to recapture the benefit of any deduction allowable under section 179A(a) consistent with section 179A and its legislative history. For this purpose, the recapture date is defined in paragraph (c) of this section.

[T.D. 8606, 60 FR 39651, Aug. 3, 1995]

§ 1.179B-1T Deduction for capital costs incurred in complying with Environmental Protection Agency sulfur regulations (temporary).

(a) *Scope and definitions*—(1) *Scope.* This section provides the rules for determining the amount of the deduction allowable under section 179B(a) for qualified capital costs paid or incurred by a small business refiner to comply with the highway diesel fuel sulfur control requirements of the Environmental Protection Agency (EPA). This section also provides rules for making elections under section 179B.

(2) *Definitions.* For purposes of section 179B and this section, the following definitions apply:

(i) The *applicable EPA regulations* are the EPA regulations establishing the highway diesel fuel sulfur control program (40 CFR part 80, subpart I).

(ii) The *average daily domestic refinery run* for a refinery is the lesser of—

(A) The total amount of crude oil input (in barrels) to the refinery's domestic processing units during the 1-year period ending on December 31, 2002, divided by 365; or

(B) The total amount of refined petroleum product (in barrels) produced by the refinery's domestic processing units during such 1-year period divided by 365.

(iii) The *aggregate average domestic daily refinery run* for a refiner is the sum of the average daily domestic refinery runs for all refineries that were owned by the refiner or a related person on April 1, 2003.

(iv) *Cooperative owner* is a person that—

(A) Directly holds an ownership interest in a cooperative small business refiner, as defined in paragraph (a)(2)(v) of this section; and

(B) Is a cooperative to which part 1 of subchapter T of the Internal Revenue Code (Code) applies.

(v) *Cooperative small business refiner* is a small business refiner that is a cooperative to which part 1 of subchapter T of the Code applies.

(vi) *Low sulfur diesel fuel* has the meaning prescribed in section 45H(c)(5).

(vii) *Qualified capital costs* are qualified costs as defined in section 45H(c)(2) that are properly chargeable to capital account.

(viii) *Related person* has the meaning prescribed in section 613A(d)(3) and the regulations under section 613A(d)(3).

(ix) *Small business refiner* has the meaning prescribed in section 45H(c)(1).

(b) *Section 179B deduction*—(1) *In general.* Section 179B(a) allows a deduction with respect to the qualified capital costs paid or incurred by a small business refiner (the section 179B deduction). The deduction is allowable with respect to the qualified capital costs paid or incurred during a taxable year only if the small business refiner makes an election under paragraph (d) of this section for the taxable year. The certification requirement in section 45H(e) (relating to the certification required to support a credit under section 45H) does not apply for purposes of the section 179B deduction. Accordingly, the section 179B deduction is allowable with respect to the qualified capital costs of an electing small business refiner even if the refiner never obtains a certification under section 45H(e) with respect to those costs.

(2) *Computation of section 179B deduction*—(i) *In general.* Except as provided in paragraphs (b)(2)(ii) and (c)(3) of this section, a small business refiner that makes an election under paragraph (d) of this section for a taxable year is allowed a section 179B deduction in an amount equal to 75 percent of qualified capital costs that are paid or incurred by the small business refiner during the taxable year.

(ii) *Reduced percentage.* A small business refiner's section 179B deduction is reduced if the refiner's aggregate average daily domestic refinery run is in excess of 155,000 barrels. In that case, the number of percentage points used in computing the deduction under paragraph (b)(2)(i) of this section (75) is reduced (not below zero) by the product of 75 and the ratio of the excess barrels to 50,000 barrels.

(3) *Example.* The application of this paragraph (b) is illustrated by the following example:

Example. (i) A, an accrual method taxpayer, is a small business refiner with a taxable year ending December 31. On April 1, 2003, A owns a refinery with an average daily domestic refinery run (that is, an average daily run during calendar year 2002) of 100,000

barrels and a person related to A owns a refinery with an average daily domestic refinery run of 85,000 barrels. These are the only domestic refineries owned by A and persons related to A. A's aggregate average daily domestic refinery run for the two refineries is 185,000 barrels. A incurs qualified capital costs of \$10 million in the taxable year ended December 31, 2007. The costs are incurred with respect to property that is placed in service in year 2008. A makes the election under paragraph (d) of this section for the 2007 taxable year.

(ii) Because A's aggregate average daily domestic refinery run is 185,000 barrels, the percentage of the qualified capital costs that is deductible under section 179B(a) is reduced from 75 percent to 30 percent (75 percent reduced by 75 percent multiplied by 0.6 ((185,000 barrels minus 155,000 barrels)/50,000 barrels)). Thus, for 2007, A's deduction under section 179B(a) is \$3,000,000 (\$10,000,000 qualified capital costs multiplied by .30).

(c) *Effect on basis*—(1) *In general.* If qualified capital costs are included in the basis of property, the basis of the property is reduced by the amount of the section 179B deduction allowed with respect to such costs.

(2) *Treatment as depreciation.* If qualified capital costs are included in the basis of depreciable property, the amount of the section 179B deduction allowed with respect to such costs is treated as a depreciation deduction for purposes of section 1245.

(d) *Election to deduct qualified capital costs*—(1) *In general*—(i) *Section 179B election.* This paragraph (d) prescribes rules for the election to deduct the qualified capital costs paid or incurred by a small business refiner during a taxable year (the section 179B election). A small business refiner making the section 179B election for a taxable year consents to, and agrees to apply, all of the provisions of section 179B and this section to qualified capital costs paid or incurred by the refiner during the taxable year. The section 179B election for a taxable year applies with respect to all qualified capital costs paid or incurred by the small business refiner during that taxable year.

(ii) *Year-by-year election.* A separate section 179B election must be made for each taxable year in which the taxpayer seeks to deduct qualified capital costs under section 179B. A small business refiner may make the section 179B

election for some taxable years and not for other taxable years.

(iii) *Elections for cooperative small business refiners.* See paragraph (e) of this section for the rules applicable to the election provided under section 179B(e), relating to the election to allocate the section 179B deduction to cooperative owners of a cooperative small business refiner (the section 179B(e) election).

(2) *Time and manner for making section 179B election*—(i) *Time for making election.* Except as provided in paragraph (d)(2)(iii) of this section, a taxpayer's section 179B election for a taxable year must be made by the due date (including extensions) for filing the taxpayer's Federal income tax return for the taxable year.

(ii) *Manner of making election*—(A) *In general.* Except as provided in paragraph (d)(2)(iii) of this section, the section 179B election for a taxable year is made by claiming a section 179B deduction on the taxpayer's original Federal income tax return for the taxable year and attaching the statement described in paragraph (d)(2)(ii)(B) of this section to the return. The section 179B election with respect to qualified capital costs paid or incurred by a partnership is made by the partnership and the section 179B election with respect to qualified capital costs paid or incurred by an S corporation is made by the S corporation. In the case of qualified capital costs paid or incurred by the members of a consolidated group (within the meaning of § 1.1502-1(h)), the section 179B election with respect to such costs is made for each member by the common parent of the group.

(B) *Information required in election statement.* The election statement attached to the taxpayer's return must contain the following information:

(1) The name and identification number of the small business refiner.

(2) The amount of the qualified capital costs paid or incurred during the taxable year for which the election is made.

(3) The aggregate average daily domestic refinery run (as determined under paragraph (a)(2)(iii) of this section).

(4) The date by which the small business refiner must comply with the ap-

plicable EPA regulations. If this date is not June 1, 2006, the statement also must explain why compliance is not required by June 1, 2006.

(5) The calculation of the section 179B deduction for the taxable year.

(6) For each property that will have its basis reduced on account of the section 179B deduction for the taxable year, a description of the property, the amount included in the basis of the property on account of qualified capital costs paid or incurred during the taxable year, and the amount of the basis reduction to that property on account of the section 179B deduction for the taxable year.

(iii) Except as otherwise expressly provided by the Code, the regulations under the Code, or other guidance published in the Internal Revenue Bulletin, a section 179B election is valid only if made at the time and in the manner prescribed in this paragraph (d)(2). For example, except as otherwise expressly provided, the 179B election cannot be made for a taxable year to which this section applies through a request under section 446(e) to change the taxpayer's method of accounting.

(3) *Revocation of election.* An election made under this paragraph (d) may not be revoked without the prior written consent of the Commissioner of Internal Revenue. To seek the Commissioner's consent, the taxpayer must submit a request for a private letter ruling (for further guidance, see, for example, Rev. Proc. 2008-1 (2008-1 IRB 1) and § 601.601(d)(2)(ii)(b) of this chapter).

(4) *Failure to make election.* If a small business refiner does not make the section 179B election for a taxable year at the time and in the manner prescribed in paragraph (d)(2) of this section, no deduction is allowed for the qualified capital costs that the refiner paid or incurred during the year. Instead these qualified capital costs are chargeable to a capital account in that taxable year, the basis of the property to which these costs are capitalized is not reduced on account of section 179B, and the amount of depreciation allowable for the property attributable to these costs is determined by reference to these costs unreduced by section 179B.

(5) *Elections for taxable years ending before June 26, 2008.* This section does

not apply to section 179B elections for taxable years ending before June 26, 2008. The rules for making the section 179B election for a taxable year ending before June 26, 2008 are provided in Notice 2006-47 (2006-20 IRB 892). See § 601.601(d)(2)(ii)(b) of this chapter.

(e) *Election under section 179B(e) to allocate section 179B deduction to cooperative owners*—(1) *In general.* A cooperative small business refiner may elect to allocate part or all of its cooperative owners' ratable shares of the section 179B deduction for a taxable year to the cooperative owners (the section 179B(e) election). The section 179B deduction allocated to a cooperative owner is equal to the cooperative owner's ratable share of the total section 179B deduction allocated. A cooperative owner's ratable share is determined for this purpose on the basis of the cooperative owner's ownership interest in the cooperative small business refiner during the cooperative small business refiner's taxable year. If the cooperative owners' interests vary during the year, the cooperative small business refiner shall determine the owners' ratable shares under a consistently applied method that reasonably takes into account the owners' varying interests during the taxable year.

(2) *Cooperative small business refiner denied section 1382 deduction for allocated portion.* In computing taxable income under section 1382, a cooperative small business refiner must reduce its section 179B deduction for the taxable year by an amount equal to the section 179B deduction allocated under this paragraph (e) to the refiner's cooperative owners for the taxable year.

(3) *Time and manner for making election*—(i) *Time for making election.* The section 179B(e) election for a taxable year must be made by the due date (including extensions) for filing the cooperative small business refiner's Federal income tax return for the taxable year.

(ii) *Manner of making election.* The section 179B(e) election for a taxable year is made by attaching a statement to the cooperative small business refiner's Federal income tax return for the taxable year. The election statement must contain the following information:

(A) The name and identification number of the cooperative small business refiner.

(B) The amount of the section 179B deduction allowable to the cooperative small business refiner for the taxable year (determined before the application of section 179B(e) and this paragraph (e)).

(C) The name and identification number of each cooperative owner to which the cooperative small business refiner is allocating all or some of the section 179B deduction.

(D) The amount of the section 179B deduction that is allocated to each cooperative owner listed in response to paragraph (e)(3)(ii)(C) of this section.

(4) *Irrevocable election.* A section 179B(e) election for a taxable year, once made, is irrevocable for that taxable year.

(5) *Written notice to owners.* A cooperative small business refiner that makes a section 179B(e) election for a taxable year must notify each cooperative owner of the amount of the section 179B deduction that is allocated to that cooperative owner. This notification must be provided in a written notice that is mailed by the cooperative small business refiner to its cooperative owner before the due date (including extensions) of the cooperative small business refiner's Federal income tax return for the election year. In addition, the cooperative small business refiner must report the amount of the cooperative owner's section 179B deduction on Form 1099-PATR, "Taxable Distributions Received From Cooperatives," issued to the cooperative owner. If Form 1099-PATR is revised or renumbered, the amount of the cooperative owner's section 179B deduction must be reported on the revised or renumbered form.

(f) *Effective/applicability date*—(1) *In general.* This section applies to taxable years ending on or after June 26, 2008.

(2) *Application to taxable years ending before June 26, 2008.* A small business refiner may apply this section to a taxable year ending before June 26, 2008, provided that the small business refiner applies all provisions in this section, with the modifications described in paragraph (f)(3) of this section, to the taxable year.

(3) *Modifications applicable to taxable years ending before June 26, 2008.* The following modifications to the rules of this section apply to a small business refiner that applies those rules to a taxable year ending before June 26, 2008:

(i) *Rules relating to section 179B election.* The section 179B election for a taxable year ending before June 26, 2008 may be made under the rules provided in Notice 2006-47, rather than under the rules set forth in paragraph (d) of this section.

(ii) *Rules relating to section 179B(e) election.* A section 179B(e) election for a taxable year ending before June 26, 2008 will be treated as satisfying the requirements of paragraph (f) if the cooperative small business refiner has calculated its tax liability in a manner consistent with the election and has used any reasonable method consistent with the principles of section 179B(e) to inform the Internal Revenue Service that an election has been made under section 179B(e) and to inform cooperative owners of the amount of the section 179B deduction they have been allocated.

(4) *Expiration date.* The applicability of § 179B-1T expires on June 24, 2011.

[T.D. 9404, 73 FR 36422, June 27, 2008]

§ 1.179C-1 Election to expense certain refineries.

(a) *Scope and definitions—(1) Scope.* This section provides the rules for determining the deduction allowable under section 179C(a) for the cost of any qualified refinery property. The provisions of this section apply only to a taxpayer that elects to apply section 179C in the manner prescribed under paragraph (d) of this section.

(2) *Definitions.* For purposes of section 179C and this section, the following definitions apply:

(i) *Applicable environmental laws* are any applicable federal, state, or local environmental laws.

(ii) *Qualified fuels* has the meaning set forth in section 45K(c).

(iii) *Cost* is the unadjusted depreciable basis (as defined in § 1.168(b)-1(a)(3), but without regard to the reduction in basis for any portion of the basis the taxpayer properly elects to

treat as an expense under section 179C and this section) of the property.

(iv) *Throughput* is a volumetric rate measuring the flow of crude oil, qualified fuels, or, in the case of property placed in service after October 3, 2008, and before January 1, 2014, shale or tar sands, processed over a given period of time, typically referenced on the basis of barrels per calendar day.

(v) *Barrels per calendar day* is the amount of fuels that a facility can process under usual operating conditions, expressed in terms of capacity during a 24-hour period and reduced to account for down time and other limitations.

(vi) *United States* has the same meaning as that term is defined in section 7701(a)(9).

(b) *Qualified refinery property—(1) In general.* Qualified refinery property is any property that meets the requirements set forth in paragraphs (b)(2) through (b)(7) of this section.

(2) *Description of qualified refinery property—(i) In general.* Property that comprises any portion of a qualified refinery may be qualified refinery property. For purposes of section 179C and this section, a qualified refinery is any refinery located in the United States that—

(A) In the case of property placed in service after August 8, 2005, and on or before October 3, 2008, is designed to serve the primary purpose of processing liquid fuel from crude oil or qualified fuels; or

(B) In the case of property placed in service after October 3, 2008, and before January 1, 2014, is designed to serve the primary purpose of processing liquid fuel from crude oil, qualified fuels, or directly from shale or tar sands.

(ii) *Nonqualified refinery property.* Refinery property is not qualified refinery property for purposes of this paragraph (b)(2) if—

(A) The primary purpose of the refinery property is for use as a topping plant, asphalt plant, lube oil facility, crude or product terminal, or blending facility; or

(B) The refinery property is built solely to comply with consent decrees or projects mandated by Federal, State, or local governments.

(3) *Original use*—(i) *In general.* For purposes of the deduction allowable under section 179C(a), refinery property will meet the requirements of this paragraph (b)(3) if the original use of the property commences with the taxpayer. Except as provided in paragraph (b)(3)(ii) of this section, original use means the first use to which the property is put, whether or not that use corresponds to the use of the property by the taxpayer. Thus, if a taxpayer incurs capital expenditures to recondition or rebuild property acquired or owned by the taxpayer, only the capital expenditures incurred by the taxpayer to recondition or rebuild the property acquired or owned by the taxpayer satisfy the original use requirement. However, the cost of reconditioned or rebuilt property acquired by a taxpayer does not satisfy the original use requirement. Whether property is reconditioned or rebuilt property is a question of fact. For purposes of this paragraph (b)(3)(i), acquired or self-constructed property that contains used parts will be treated as reconditioned or rebuilt only if the cost of the used parts is more than 20 percent of the total cost of the property.

(ii) *Sale-leaseback.* If any new portion of a qualified refinery is originally placed in service by a person after August 8, 2005, and is sold to a taxpayer and leased back to the person by the taxpayer within three months after the date the property was originally placed in service by the person, the taxpayer-lessor is considered the original user of the property.

(4) *Placed-in-service date*—(i) *In general.* Refinery property will meet the requirements of this paragraph (b)(4) if the property is placed in service by the taxpayer after August 8, 2005, and before January 1, 2014.

(ii) *Sale-leaseback.* If a new portion of refinery property is originally placed in service by a person after August 8, 2005, and is sold to a taxpayer and leased back to the person by the taxpayer within three months after the date the property was originally placed in service by the person, the property is treated as originally placed in service by the taxpayer-lessor not earlier than the date on which the property is used by the lessee under the leaseback.

(5) *Production capacity*—(i) *In general.* Refinery property is considered qualified refinery property if—

(A) It enables the existing qualified refinery to increase the total volume output, determined without regard to asphalt or lube oil, by at least 5 percent on an average daily basis;

(B) In the case of property placed in service after August 8, 2005, and on or before October 3, 2008, it enables the existing qualified refinery to increase the percentage of total throughput attributable to processing qualified fuels to a rate that is at least 25 percent of total throughput on an average daily basis; or

(C) In the case of property placed in service after October 3, 2008, and before January 1, 2014, it enables the existing qualified refinery to increase the percentage of total throughput attributable to processing qualified fuels, shale, or tar sands to a rate that is at least 25 percent of total throughput on an average daily basis.

(ii) *When production capacity is tested.* The production capacity requirement of this paragraph (b)(5) is determined as of the date the property is placed in service by the taxpayer. Any reasonable method may be used to determine the appropriate baseline for measuring capacity increases and to demonstrate and substantiate that the capacity of the existing qualified refinery has been sufficiently increased.

(iii) *Multi-stage projects.* In the case of multi-stage projects, a taxpayer must satisfy the reporting requirements of paragraph (f)(2) of this section, sufficient to establish that the production capacity requirements of this paragraph (b)(5) will be met as a result of the taxpayer's overall plan.

(6) *Applicable environmental laws*—(i) *In general.* The environmental compliance requirement applies only with respect to refinery property, or any portion of refinery property, that is placed in service after August 8, 2005. A refinery's failure to meet applicable environmental laws with respect to a portion of the refinery that was in service prior to August 8, 2005 will not disqualify a taxpayer from making the election under section 179C(a) with respect to otherwise qualifying refinery property.

(ii) *Waiver under the Clean Air Act.* Refinery property must comply with the Clean Air Act, notwithstanding any waiver received by the taxpayer under that Act.

(7) *Construction of property*—(i) *In general.* Qualified property will meet the requirements of this paragraph (b)(7) if no written binding contract for the construction of the property was in effect before June 14, 2005, and if—

(A) The construction of the property is subject to a written binding contract entered into before January 1, 2010;

(B) The property is placed in service before January 1, 2010; or

(C) In the case of self-constructed property, the construction of the property began after June 14, 2005, and before January 1, 2010.

(ii) *Definition of binding contract*—(A) *In general.* A contract is binding only if it is enforceable under state law against the taxpayer or a predecessor, and does not limit damages to a specified amount (for example, by use of a liquidated damages provision). For this purpose, a contractual provision that limits damages to an amount equal to at least 5 percent of the total contract price will not be treated as limiting damages to a specified amount. In determining whether a contract limits damages, the fact that there may be little or no damages because the contract price does not significantly differ from fair market value will not be taken into account.

(B) *Conditions.* A contract is binding even if subject to a condition, as long as the condition is not within the control of either party or the predecessor of either party. A contract will continue to be binding if the parties make insubstantial changes in its terms and conditions, or if any term is to be determined by a standard beyond the control of either party. A contract that imposes significant obligations on the taxpayer or a predecessor will be treated as binding, notwithstanding the fact that insubstantial terms remain to be negotiated by the parties to the contract.

(C) *Options.* An option to either acquire or sell property is not a binding contract.

(D) *Supply agreements.* A binding contract does not include a supply or simi-

lar agreement if the payment amount and design specification of the property to be purchased have not been specified.

(E) *Components.* A binding contract to acquire one or more components of a larger property will not be treated as a binding contract to acquire the larger property. If a binding contract to acquire a component does not satisfy the requirements of this paragraph (b)(7), the component is not qualified refinery property.

(iii) *Self-constructed property*—(A) *In general.* Except as provided in paragraph (b)(7)(iii)(B) of this section, if a taxpayer manufactures, constructs, or produces property for use by the taxpayer in its trade or business (or for the production of income by the taxpayer), the construction of property rules in this paragraph (b)(7) are treated as met for qualified refinery property if the taxpayer begins manufacturing, constructing, or producing the property after June 14, 2005, and before January 1, 2010. Property that is manufactured, constructed, or produced for the taxpayer by another person under a written binding contract (as defined in paragraph (b)(7)(ii) of this section) that is entered into prior to the manufacture, construction, or production of the property for use by the taxpayer in its trade or business (or for the production of income) is considered to be manufactured, constructed, or produced by the taxpayer.

(B) *When construction begins.* For purposes of this paragraph (b)(7)(iii), construction of property generally begins when physical work of a significant nature begins. Physical work does not include preliminary activities such as planning or designing, securing financing, exploring, or researching. The determination of when physical work of a significant nature begins depends on the facts and circumstances.

(C) *Components of self-constructed property*—(1) *Acquired components.* If a binding contract (as defined in paragraph (b)(7)(ii) of this section) to acquire a component of self-constructed property is in effect on or before June 14, 2005, the component does not satisfy the requirements of paragraph (b)(7)(i)

of this section, and is not qualified refinery property. However, if construction of the self-constructed property begins after June 14, 2005, the self-constructed property may be qualified refinery property if it meets all other requirements of section 179C and this section (including paragraph (b)(7)(i) of this section), even though the component is not qualified refinery property. If the construction of self-constructed property begins before June 14, 2005, neither the self-constructed property nor any component related to the self-constructed property is qualified refinery property. If the component is acquired before January 1, 2010, but the construction of the self-constructed property begins after December 31, 2009, the component may qualify as qualified refinery property even if the self-constructed property is not qualified refinery property.

(2) *Self-constructed components.* If the manufacture, construction, or production of a component fails to meet any of the requirements of paragraph (b)(7)(iii) of this section, the component is not qualified refinery property. However, if the manufacture, construction, or production of a component fails to meet any of the requirements provided in paragraph (b)(7)(iii) of this section, but the construction of the self-constructed property begins after June 14, 2005, the self-constructed property may qualify as qualified refinery property if it meets all other requirements of section 179C and this section (including paragraph (b)(7)(i) of this section). If the construction of the self-constructed property begins before June 14, 2005, neither the self-constructed property nor any components related to the self-constructed property are qualified refinery property. If the component was self-constructed before January 1, 2010, but the construction of the self-constructed property begins after December 31, 2009, the component may qualify as qualified refinery property, although the self-constructed property is not qualified refinery property.

(c) *Computation of expense deduction for qualified refinery property.* In general, the allowable deduction under paragraph (d) of this section for qualified refinery property is determined by

multiplying by 50 percent the cost of the qualified refinery property paid or incurred by the taxpayer.

(d) *Election*—(1) *In general.* A taxpayer may make an election to deduct as an expense 50 percent of the cost of any qualified refinery property. A taxpayer making this election takes the 50 percent deduction for the taxable year in which the qualified refinery property is placed in service.

(2) *Time and manner for making election*—(i) *Time for making election.* An election specified in this paragraph (d) generally must be made not later than the due date (including extensions) for filing the original Federal income tax return for the taxable year in which the qualified refinery property is placed in service by the taxpayer.

(ii) *Manner of making election.* The taxpayer makes an election under section 179C(a) and this paragraph (d) by entering the amount of the deduction at the appropriate place on the taxpayer's timely filed original Federal income tax return for the taxable year in which the qualified refinery property is placed in service, and attaching a report as specified in paragraph (f) of this section to the taxpayer's timely filed original federal income tax return for the taxable year in which the qualified refinery property is placed in service.

(3) *Revocation of election*—(i) *In general.* An election made under section 179C(a) and this paragraph (d), and any specification contained in such election, may not be revoked except with the consent of the Commissioner of Internal Revenue.

(ii) *Revocation prior to the revocation deadline.* A taxpayer is deemed to have requested, and to have been granted, the consent of the Commissioner to revoke an election under section 179C(a) and this paragraph (d) if the taxpayer revokes the election before the revocation deadline. The revocation deadline is 24 months after the due date (including extensions) for filing the taxpayer's Federal income return for the taxable year for which the election applies. An election under section 179C(a) and this paragraph (d) is revoked by attaching a statement to an amended return for the taxable year for which the election applies. The statement must specify

the name and address of the refinery for which the election applies and the amount deducted on the taxpayer's original Federal income tax return for the taxable year for which the election applies.

(iii) *Revocation after the revocation deadline.* An election under section 179C(a) and this paragraph (d) may not be revoked after the revocation deadline. The revocation deadline may not be extended under § 301.9100-1.

(iv) *Revocation by cooperative taxpayer.* A taxpayer that has made an election to allocate the section 179C deduction to cooperative owners under section 179C(g) and paragraph (e) of this section may not revoke its election under section 179C(a).

(e) *Election to allocate section 179C deduction to cooperative owners—(1) In general.* If a cooperative taxpayer makes an election under section 179C(g) and this paragraph (e), the cooperative taxpayer may elect to allocate all, some, or none of the deduction allowable under section 179C(a) for that taxable year to the cooperative owner(s). This allocation is equal to the cooperative owner(s)' ratable share of the total amount allocated, determined on the basis of each cooperative owner's ownership interest in the cooperative taxpayer. For purposes of this section, a cooperative taxpayer is an organization to which part I of subchapter T applies, and in which another organization to which part I of subchapter T applies (cooperative owner) directly holds an ownership interest. No deduction shall be allowed under section 1382 for any amount allocated under this paragraph (e).

(2) *Time and manner for making election—(i) Time for making election.* A cooperative taxpayer must make the election under section 179C(g) and this paragraph (e) by the due date (including extensions) for filing the cooperative taxpayer's original Federal income tax return for the taxable year to which the cooperative taxpayer's election under section 179C(a) and paragraph (d) of this section applies.

(ii) *Manner of making election.* An election under this paragraph (e) is made by attaching to the cooperative taxpayer's timely filed Federal income tax return for the taxable year (including

extensions) to which the cooperative taxpayer's election under section 179C(a) and paragraph (d) of this section applies a statement providing the following information:

(A) The name and taxpayer identification number of the cooperative taxpayer.

(B) The amount of the deduction allowable to the cooperative taxpayer for the taxable year to which the election under section 179C(a) and paragraph (d) of this section applies.

(C) The name and taxpayer identification number of each cooperative owner to which the cooperative taxpayer is allocating all or some of the deduction allowable.

(D) The amount of the allowable deduction that is allocated to each cooperative owner listed in paragraph (e)(2)(ii)(C) of this section.

(3) *Written notice to owners.* If any portion of the deduction allowable under section 179C(a) is allocated to a cooperative owner, the cooperative taxpayer must notify the cooperative owner of the amount of the deduction allocated to the cooperative owner in a written notice, and on Form 1099-PATR, "Taxable Distributions Received from Cooperatives." This notice must be provided on or before the due date (including extensions) of the cooperative taxpayer's original federal income tax return for the taxable year for which the cooperative taxpayer's election under section 179C(a) and paragraph (d) of this section applies.

(4) *Irrevocable election.* A section 179C(g) election, once made, is irrevocable.

(f) *Reporting requirement—(1) In general.* A taxpayer may not claim a deduction under section 179C(a) for any taxable year unless the taxpayer files a report with the Secretary containing information with respect to the operation of the taxpayer's refineries.

(2) *Information to be included in the report.* The taxpayer must specify—

(i) The name and address of the refinery;

(ii) Under which production capacity requirement under section 179C(e) and paragraph (b)(5)(i)(A), (B), and (C) of this section the taxpayer's qualified refinery qualifies;

(iii) Whether the refinery is qualified refinery property under section 179C(d) and paragraph (b)(2) of this section, sufficient to establish that the primary purpose of the refinery is to process liquid fuel from crude oil, qualified fuels, or directly from shale or tar sands.

(iv) The total cost basis of the qualified refinery property at issue for the taxpayer's current taxable year; and

(v) The depreciation treatment of the capitalized portion of the qualified refinery property.

(3) *Time and manner for submitting report*—(i) *Time for submitting report*. The taxpayer is required to submit the report specified in this paragraph (f) not later than the due date (including extensions) of the taxpayer's Federal income tax return for the taxable year in which the qualified refinery property is placed in service.

(ii) *Manner of submitting report*. The taxpayer must attach the report specified in this paragraph (f) to the taxpayer's timely filed original Federal income tax return for the taxable year in which the qualified refinery property is placed in service.

(g) *Effective/applicability date*. This section is applicable for taxable years ending on or after August 22, 2011. For taxable years ending before August 22, 2011, taxpayers may apply the proposed regulations published on July 9, 2008, or, in the alternative, may apply these final regulations.

[T.D. 9547, 76 FR 52558, Aug. 23, 2011]

§ 1.180-1 Expenditures by farmers for fertilizer, etc.

(a) *In general*. A taxpayer engaged in the business of farming may elect, for any taxable year beginning after December 31, 1959, to treat as deductible expenses those expenditures otherwise chargeable to capital account which are paid or incurred by him during the taxable year for the purchase or acquisition of fertilizer, lime, ground limestone, marl, or other materials to enrich, neutralize, or condition land used in farming, and those expenditures otherwise chargeable to capital account paid or incurred for the application of such items and materials to such land. No election is required to be made for those expenditures which are not cap-

ital in nature. Section 180, § 1.180-2, and this section are not applicable to those expenses which are deductible under section 162 and the regulations thereunder or which are subject to the method described in section 175 and the regulations thereunder.

(b) *Land used in farming*. For purposes of section 180(a) and of paragraph (a) of this section, the term *land used in farming* means land used (before or simultaneously with the expenditures described in such section and such paragraph) by the taxpayer or his tenant for the production of crops, fruits, or other agricultural products or for the sustenance of livestock. See section 180(b). Expenditures for the initial preparation of land never previously used for farming purposes by the taxpayer or his tenant (although chargeable to capital account) are not subject to the election. The principles stated in §§ 1.175-3 and 1.175-4 are equally applicable under this section in determining whether the taxpayer is engaged in the business of farming and whether the land is used in farming.

(74 Stat. 1001, 26 U.S.C. 180)

[T.D. 6548, 26 FR 1486, Feb. 22, 1961]

§ 1.180-2 Time and manner of making election and revocation.

(a) *Election*. The claiming of a deduction on the taxpayer's return for an amount to which section 180 applies for amounts (otherwise chargeable to capital account) expended for fertilizer, lime, etc., shall constitute an election under section 180 and paragraph (a) of § 1.180-1. Such election shall be effective only for the taxable year for which the deduction is claimed.

(b) *Revocation*. Once the election is made for any taxable year such election may not be revoked without the consent of the district director for the district in which the taxpayer's return is required to be filed. Such requests for consent shall be in writing and signed by the taxpayer or his authorized representative and shall set forth:

- (1) The name and address of the taxpayer;
- (2) The taxable year to which the revocation of the election is to apply;
- (3) The amount of expenditures paid or incurred during the taxable year, or

Internal Revenue Service, Treasury

§ 1.181-1

portions thereof (where applicable), previously taken as a deduction on the return in respect of which the revocation of the election is to be applicable; and

(4) The reasons for the request to revoke the election.

(74 Stat. 1001, 26 U.S.C. 180)

[T.D. 6548, 26 FR 1486, Feb. 22, 1961]

§ 1.181-0 Table of contents.

This section lists the table of contents for §§ 1.181-1 through 1.181-6.

§ 1.181-1 Deduction for qualified film and television production costs.

- (a) Deduction.
 - (1) In general.
 - (2) Owner.
 - (3) Production costs.
 - (4) Aggregate production costs.
 - (5) Pre-amendment production.
 - (6) Post-amendment production.
 - (7) Initial release or broadcast.
 - (8) Special rule.
 - (b) Limit on amount of aggregate production costs and amount of deduction.
 - (1) In general.
 - (i) Pre-amendment production.
 - (ii) Post-amendment production.
 - (iii) Special rules.
 - (2) Higher limit for productions in certain areas.
 - (i) In general.
 - (ii) Significantly paid or incurred for live action productions.
 - (iii) Significantly paid or incurred for animated productions.
 - (iv) Significantly paid or incurred for productions incorporating both live action and animation.
 - (v) Establishing qualification.
 - (vi) Allocation.
 - (c) Effect on depreciation or amortization of a qualified film or television production.
 - (1) Pre-amendment production.
 - (2) Post-amendment production.

§ 1.181-2 Election to deduct production costs.

- (a) Election.
 - (1) In general.
 - (2) Exception.
 - (b) Time of making election.
 - (1) In general.
 - (2) Special rule.
 - (3) Six-month extension.
 - (c) Manner of making election.
 - (1) In general.
 - (2) Information required.
 - (i) Initial election.
 - (ii) Subsequent taxable years.
 - (3) Deductions by more than one person.
 - (d) Revocation of election.

- (1) In general.
- (2) Consent granted.

§ 1.181-3 Qualified film or television production.

- (a) In general.
- (b) Production.
 - (1) In general.
 - (2) Special rules for television productions.
 - (3) Exception for certain sexually explicit productions.
- (c) Compensation.
- (d) Qualified compensation.
- (e) Special rule for acquired productions.
- (f) Other definitions.
 - (1) Actors.
 - (2) Production personnel.
 - (3) United States.

§ 1.181-4 Special rules.

- (a) Recapture.
 - (1) Applicability.
 - (i) In general.
 - (ii) Special rule.
 - (2) Principal photography not commencing prior to the date of expiration of section 181.
 - (3) Amount of recapture.
 - (b) Recapture under section 1245.

§ 1.181-5 Examples.

§ 1.181-6 Effective/applicability date.

- (a) In general.
- (b) Pre-effective date productions.

[T.D. 9551, 76 FR 60724, Sept. 30, 2011, as amended by T.D. 9603, 77 FR 72924, Dec. 7, 2012]

§ 1.181-1 Deduction for qualified film and television production costs.

(a) *Deduction*—(1) *In general.* (i) An owner (as defined in paragraph (a)(2) of this section) of any film or television production (production, as defined in § 1.181-3(b)) that the owner reasonably expects will be, upon completion, a qualified film or television production (as defined in § 1.181-3(a)) may elect to treat production costs paid or incurred by that owner (subject to the limits imposed under paragraph (b) of this section) as an expense that is deductible for the taxable year in which the costs are paid (for an owner who uses the cash receipts and disbursements method of accounting) or incurred (for an owner who uses an accrual method of accounting). The deduction under section 181 is subject to recapture if the owner's expectations are later determined to be inaccurate.

(ii) This section provides rules for determining the owner of a production,

the production costs (as defined in paragraph (a)(3) of this section), the maximum amount of aggregate production costs (as defined in paragraph (a)(4) of this section) that may be paid or incurred for a pre-amendment production (as defined in paragraph (a)(5) of this section) for which the owner makes an election under section 181, and the maximum amount of aggregate production costs that may be claimed as a deduction for a post-amendment production (as defined in paragraph (a)(6) of this section) for which the owner makes an election under section 181. Section 1.181-2 provides rules for making the election under section 181. Section 1.181-3 provides definitions and rules concerning qualified film and television productions. Section 1.181-4 provides special rules, including rules for recapture of the deduction. Section 1.181-5 provides examples of the application of §§1.181-1 through 1.181-4, while §1.181-6 provides the effective date of §§1.181-1 through 1.181-5.

(2) *Owner.* (i) For purposes of this section and §§1.181-2 through 1.181-6, an owner of a production is any person that is required under section 263A to capitalize the costs of producing the production into the cost basis of the production, or that would be required to do so if section 263A applied to that person.

(ii) Further, a person that acquires a finished or partially-finished production is treated as an owner of that production for purposes of this section and §§1.181-2 through 1.181-6, but only if the production is acquired prior to its initial release or broadcast (as defined in paragraph (a)(7) of this section). Moreover, a person that acquires only a limited license or right to exploit a production, or receives an interest or profit participation in a production, as compensation for services, is not an owner of the production for purposes of this section and §§1.181-2 through 1.181-6.

(3) *Production costs.* (i) For purposes of this section and §§1.181-2 through 1.181-6, the term *production costs* means all costs that are paid or incurred by an owner in producing a production that are required, absent the provisions of section 181, to be capitalized under section 263A, or that would be required

to be capitalized if section 263A applied to the owner, and, if applicable, all costs that are paid or incurred by an owner in acquiring a production prior to its initial release or broadcast. Production costs include, but are not limited to, participations and residuals paid or incurred, compensation paid or incurred for services, compensation paid or incurred for property rights, non-compensation costs, and costs paid or incurred in connection with obtaining financing for the production (for example, premiums paid or incurred to obtain a completion bond for the production).

(ii) Production costs do not include costs paid or incurred to distribute or exploit a production (including advertising and print costs).

(iii) Production costs do not include the costs to prepare a new release or new broadcast of an existing production after the initial release or broadcast of the production (for example, the preparation of a DVD release of a theatrically-released film, or the preparation of an edited version of a theatrically-released film for television broadcast). Costs paid or incurred to prepare a new release or a new broadcast of a production after its initial release or broadcast, therefore, are not taken into account for purposes of paragraph (b)(1) of this section, and may not be deducted under this paragraph (a).

(iv) If a pre-amendment production is acquired from any person prior to its initial release or broadcast, the acquiring person must use as its initial aggregate costs the greater of—

- (A) The cost of acquisition; or
- (B) The seller's aggregate production costs.

(v) Production costs do not include costs that the owner has deducted or begun to amortize prior to the taxable year the owner makes an election under §1.181-2 for the production (for example, costs described in §1.181-2(a)(2)). These costs, however, are included in aggregate production costs to the extent they would have been treated as production costs by the owner notwithstanding this paragraph (a)(3)(v).

(4) *Aggregate production costs.* The term *aggregate production costs* means

all production costs described in paragraph (a)(3) of this section paid or incurred by any person, whether paid or incurred directly by an owner or indirectly on behalf of an owner.

(5) *Pre-amendment production.* The term *pre-amendment production* means a qualified film or television production commencing after October 22, 2004, and before January 1, 2008.

(6) *Post-amendment production.* The term *post-amendment production* means a qualified film or television production commencing on or after January 1, 2008.

(7) *Initial release or broadcast.* Solely for purposes of this section and §§ 1.181-2 through 1.181-6, the term *initial release or broadcast* means the first commercial exhibition or broadcast of a production to an audience. However, the term “initial release or broadcast” does not include limited exhibition prior to commercial exhibition to general audiences if the limited exhibition is primarily for purposes of publicity, marketing to potential purchasers or distributors, determining the need for further production activity, or raising funds for the completion of production. For example, the term initial release or broadcast does not include exhibition to a test audience to determine the need for further production activity, or exhibition at a film festival for promotional purposes, if the exhibition precedes commercial exhibition to general audiences.

(8) *Special rule.* The provisions of this paragraph (a) apply notwithstanding the treatment of participations and residuals permitted under the income forecast method in section 167(g)(7)(D).

(b) *Limit on amount of aggregate production costs and amount of deduction—*

(1) *In general—*(i) *Pre-amendment production.* Except as provided under paragraph (b)(2) of this section, no deduction is allowed under section 181 for any pre-amendment production, the aggregate production costs of which exceed \$15,000,000. See also paragraph (a)(3)(iv) of this section. For a pre-amendment production for which the aggregate production costs do not exceed \$15,000,000 (or, if applicable under paragraph (b)(2) of this section, \$20,000,000), an owner may deduct under

section 181 all of the production costs paid or incurred by that owner.

(ii) *Post-amendment production.* Section 181 permits a deduction for the first \$15,000,000 (or, if applicable under paragraph (b)(2) of this section, \$20,000,000) of the aggregate production costs of any post-amendment production.

(iii) *Special rules.* The owner’s deduction under section 181 is limited to the owner’s acquisition costs of the production plus any further production costs paid or incurred by the owner. The deduction under section 181 is not available for any portion of the acquisition costs, and any subsequent production costs, of a production with an initial release or broadcast that is prior to the date of acquisition.

(2) *Higher limit for productions in certain areas—*(i) *In general.* This section is applied by substituting \$20,000,000 for \$15,000,000 in paragraph (b)(1) of this section for any production the aggregate production costs of which are significantly paid or incurred in an area eligible for designation as—

(A) A low income community under section 45D; or

(B) A distressed county or isolated area of distress by the Delta Regional Authority established under 7 U.S.C. section 2009aa-1.

(ii) *Significantly paid or incurred for live action productions.* The aggregate production costs of a live action production are significantly paid or incurred within one or more areas specified in paragraph (b)(2)(i) of this section if—

(A) At least 20 percent of the aggregate production costs paid or incurred in connection with first-unit principal photography for the production are paid or incurred in connection with first-unit principal photography that takes place in such areas; or

(B) At least 50 percent of the total number of days of first-unit principal photography for the production consists of days during which first-unit principal photography takes place in such areas.

(iii) *Significantly paid or incurred for animated productions.* For purposes of an animated production, the aggregate production costs of the production are significantly paid or incurred within

§ 1.181-2

26 CFR Ch. I (4-1-17 Edition)

one or more areas specified in paragraph (b)(2)(i) of this section if—

(A) At least 20 percent of the aggregate production costs paid or incurred in connection with keyframe animation, in-between animation, animation photography, and the recording of voice acting performances for the production are paid or incurred in connection with such activities that take place in such areas; or

(B) At least 50 percent of the total number of days of keyframe animation, in-between animation, animation photography, and the recording of voice acting performances for the production consists of days during which such activities take place in such areas.

(iv) *Significantly paid or incurred for productions incorporating both live action and animation.* For purposes of a production incorporating both live action and animation, the aggregate production costs of the production are significantly paid or incurred within one or more areas specified in paragraph (b)(2)(i) of this section if—

(A) At least 20 percent of the aggregate production costs paid or incurred in connection with first-unit principal photography, keyframe animation, in-between animation, animation photography, and the recording of voice acting performances for the production are paid or incurred in connection with such activities that take place in such areas; or

(B) At least 50 percent of the total number of days of first-unit principal photography, keyframe animation, in-between animation, animation photography, and the recording of voice acting performances for the production consists of days during which such activities take place in such areas.

(v) *Establishing qualification.* An owner intending to utilize the higher aggregate production costs limit under this paragraph (b)(2) must establish qualification under this paragraph (b)(2).

(vi) *Allocation.* Solely for purposes of determining whether a production qualifies for the higher production cost limit (for pre-amendment productions) or deduction limit (for post-amendment productions) provided under this paragraph (b)(2), compensation to actors (as defined in § 1.181-3(f)(1)), direc-

tors, producers, and other relevant production personnel (as defined in § 1.181-3 (f)(2)) is allocated entirely to first-unit principal photography.

(c) *Effect on depreciation or amortization of a qualified film or television production—*(1) *Pre-amendment production.* Except as provided in §§ 1.181-1(a)(3)(v) and 1.181-2(a)(2), an owner that elects to deduct production costs under section 181 for a pre-amendment production may not deduct production costs for that production under any provision of the Internal Revenue Code other than section 181 unless the recapture requirements of § 1.181-4(a) apply to the production.

(2) *Post-amendment production.* Amounts not allowable as a deduction under section 181 for a post-amendment production may be deducted under any other applicable provision of the Code.

[T.D. 9551, 76 FR 60724, Sept. 30, 2011, as amended by T.D. 9552, 76 FR 64817, Oct. 19, 2011; T.D. 9603, 77 FR 72924, Dec. 7, 2012]

§ 1.181-2 Election to deduct production costs.

(a) *Election—*(1) *In general.* Except as provided in paragraph (a)(2) of this section, an owner may make an election under section 181 to deduct production costs of a production only if that owner has not deducted in a previous taxable year any production costs for that production under any provision of the Internal Revenue Code (Code) other than section 181.

(2) *Exception.* An owner may make an election under section 181 despite prior deductions under any other provision of the Code for amortization of the costs of acquiring or developing screenplays, scripts, story outlines, motion picture production rights to books and plays, and other similar properties for purposes of potential future development or production of a production, if such costs were paid or incurred before the first taxable year for which an election may be made under § 1.181-2(b) and are included in aggregate production costs.

(b) *Time of making election—*(1) *In general.* The election to deduct production costs for a production under section 181

must be made by the due date (including any extension) for filing the owner's Federal income tax return for the first taxable year in which:

(i) Any aggregate production costs have been paid or incurred;

(ii) The owner reasonably expects (based on all of the facts and circumstances) that the production will be set for production and will, upon completion, be a qualified film or television production; and

(iii) For any pre-amendment production, the owner reasonably expects (based on all of the facts and circumstances) that the aggregate production costs paid or incurred for the pre-amendment production will, at no time, exceed the applicable aggregate production costs limit set forth under § 1.181-1(b)(1)(i) or (b)(2).

(2) *Special rule.* If paragraph (b)(1) of this section is not satisfied until a taxable year subsequent to the taxable year in which any aggregate production costs were first paid or incurred, the owner must make the election for the taxable year in which paragraph (b)(1) of this section is first satisfied, and any production costs paid or incurred prior to the taxable year in which the owner makes the election and not deducted in a prior taxable year are treated as production costs (except costs described in § 1.181-2(a)(2)) that are deductible under § 1.181-1(a)(1)(i) for the taxable year paragraph (b)(1) of this section is first satisfied and the election is made.

(3) *Six-month extension.* See § 301.9100-2 for a six-month extension of time to make the election in certain circumstances.

(c) *Manner of making election—(1) In general.* An owner must make the election under section 181 separately for each production. For a production owned by an entity, the election must be made by the entity. For example, if the production is owned by a partnership or S corporation, the partnership or S corporation must make the election.

(2) *Information required—(i) Initial election.* For each production to which the election applies, the owner must attach a statement to the owner's Federal income tax return for the taxable year of the election stating that the

owner is making an election under section 181 and providing—

(A) The name (or other unique identifying designation) of the production;

(B) The date aggregate production costs were first paid or incurred for the production;

(C) The amount of aggregate production costs paid or incurred for the production during the taxable year (including costs described in §§ 1.181-1(a)(3)(v) and 1.181-2(b)(2));

(D) The amount of qualified compensation (as defined in § 1.181-3(d)) paid or incurred for the production during the taxable year (including costs described in § 1.181-2(b)(2));

(E) The amount of compensation (as defined in § 1.181-3(c)) paid or incurred for the production during the taxable year (including costs described in § 1.181-2(b)(2));

(F) If the owner expects that the aggregate production costs of the production will be significantly paid or incurred in (or, if applicable, if a significant portion of the total number of days of first-unit principal photography will occur in) one or more of the areas specified in § 1.181-1(b)(2)(i), the identity of the area or areas, the amount of aggregate production costs paid or incurred (or the number of days of first-unit principal photography engaged in) for the applicable activities described in § 1.181-1(b)(2)(ii), (b)(2)(iii), or (b)(2)(iv), as applicable, that took place within such areas (including costs described in §§ 1.181-1(a)(3)(v) and 1.181-2(b)(2)), and the aggregate production costs paid or incurred (or the total number of days of first-unit principal photography engaged in) for such activities (whether or not they took place in such areas), for the taxable year (including costs described in §§ 1.181-1(a)(3)(v) and 1.181-2(b)(2));

(G) A declaration that the owner reasonably expects (based on all of the facts and circumstances at the time the election is made) both that the production will be set for production (or has been set for production) and will be a qualified film or television production; and

(H) For any pre-amendment production, a declaration that the owner reasonably expects (based on all of the facts and circumstances at the time

the election is made) that the aggregate production costs paid or incurred for the pre-amendment production will not, at any time, exceed the applicable aggregate production costs limit set forth under § 1.181-1(b)(1)(i) or (b)(2).

(ii) *Subsequent taxable years.* If the owner pays or incurs additional production costs in any taxable year subsequent to the taxable year for which production costs are first deducted under section 181, the owner must attach a statement to its Federal income tax return for that subsequent taxable year providing—

(A) The name (or other unique identifying designation) of the production that was used in the initial election, and any revised name (or unique identifying designation) subsequently used for the production;

(B) The date the aggregate production costs were first paid or incurred for the production;

(C) The amount of aggregate production costs paid or incurred for the production during the current taxable year;

(D) The amount of qualified compensation paid or incurred for the production during the current taxable year;

(E) The amount of compensation paid or incurred for the production during the current taxable year, and the aggregate amount of compensation paid or incurred for the production in all prior taxable years;

(F) If the owner expects that the aggregate production costs of the production will be significantly paid or incurred in (or, if applicable, if a significant portion of the total number of days of first-unit principal photography will occur in) one or more of the areas specified in § 1.181-1(b)(2)(i), the identity of the area or areas, the amount of aggregate production costs paid or incurred (or the number of days of first-unit principal photography engaged in) for the applicable activities described in § 1.181-1(b)(2)(ii), (b)(2)(iii), or (b)(2)(iv), as applicable, that took place within such areas, and the aggregate production costs paid or incurred (or the number of days of first-unit principal photography engaged in) for such activities (whether or not they

took place in such areas), for the current taxable year;

(G) A declaration that the owner continues to reasonably expect (based on all of the facts and circumstances at the end of the current taxable year) both that the production will be set for production (or has been set for production) and will be a qualified film or television production; and

(H) For any pre-amendment production, a declaration that the owner continues to reasonably expect (based on all of the facts and circumstances at the end of the current taxable year) that the aggregate production costs paid or incurred for the pre-amendment production will not, at any time, exceed the applicable aggregate production costs limit set forth under § 1.181-1(b)(1)(i) or (b)(2).

(3) *Deductions by more than one person.* If more than one person will claim deductions under section 181 with respect to the production for the taxable year, each person claiming the deduction (but not the members of an entity who are issued a Schedule K-1 by the entity with respect to their interest in the production) must provide a list of the names and taxpayer identification numbers of all such persons, the dollar amount that each such person will deduct under section 181, and the information required by paragraph (c)(2) of this section for all such persons. Notwithstanding the preceding sentence, whether or not multiple persons form a partnership with respect to the production will be determined in accordance with § 301.7701-3 of this chapter.

(d) *Revocation of election—(1) In general.* An owner may revoke an election made under this section only with the consent of the Commissioner. Except as provided in paragraph (d)(2) of this section, an owner seeking consent to revoke an election made under this section must submit a letter ruling request, other than a Form 3115, “Application for Change in Accounting Method,” under the appropriate revenue procedure. See, for example, Rev. Proc. 2011-1, 2011-1 CB 1 (updated annually) (see § 601.601(d)(2)(ii)(b) of this chapter).

(2) *Consent granted.* The Commissioner grants consent to an owner to revoke an election under this section

for a particular production if the owner—

(i) Complies with the recapture provisions of §1.181-4(a)(3) on a timely filed (including any extension) original Federal income tax return for the taxable year of the revocation; and

(ii) Attaches a statement to that Federal income tax return that includes the name of the production that was in the owner's original election statement, and any revised name (or other unique identifying designation) of the production, and a statement that the owner revokes the election under section 181 for that production, pursuant to §1.181-2(d)(2).

[T.D. 9551, 76 FR 60726, Sept. 30, 2011]

§ 1.181-3 Qualified film or television production.

(a) *In general.* The term *qualified film or television production* means any production (as defined in paragraph (b) of this section) for which not less than 75 percent of the aggregate amount of compensation (as defined in paragraph (c) of this section) paid or incurred for the production is qualified compensation (as defined in paragraph (d) of this section).

(b) *Production*—(1) *In general.* Except as provided in paragraph (b)(3) of this section, for purposes of this section and §§1.181-1, 1.181-2, 1.181-4, 1.181-5, and 1.181-6, the term *production* means any motion picture film or video tape (including digital video) production the production costs of which are subject to capitalization under section 263A, or that would be subject to capitalization if section 263A applied to the owner of the production. If, prior to its initial release or broadcast, a person acquires a completed motion picture film or video tape (including digital video) that the seller was entitled to treat as a production under this paragraph (b)(1), then the new owner may treat the acquired asset as a production within the meaning of this paragraph (b)(1).

(2) *Special rules for television productions.* Each episode of a television series is a separate production to which the rules, limits, and election requirements of this section and §§1.181-1, 1.181-2, 1.181-4, 1.181-5, and 1.181-6 apply. An owner may elect to deduct

production costs under section 181 only for the first 44 episodes of a television series (including pilot episodes). A television series may include more than one season of programming.

(3) *Exception for certain sexually explicit productions.* A production does not include property for which records are required to be maintained under 18 U.S.C. 2257.

(c) *Compensation.* The term *compensation* means, for purposes of this section and §1.181-2(c)(2), all amounts paid or incurred either directly by the owner or indirectly on the owner's behalf for services performed by actors (as defined in paragraph (f)(1) of this section), directors, producers, and other production personnel (as defined in paragraph (f)(2) of this section) for the production. Examples of indirect payments paid or incurred on the owner's behalf are payments by a partner on behalf of an owner that is a partnership, payments by a shareholder on behalf of an owner that is a corporation, and payments by a contract producer on behalf of the owner. Payments for services are all elements of compensation as provided for in §§1.263A-1(e)(2)(i)(B) and (e)(3)(ii)(D). Compensation is not limited to wages reported on Form W-2, "Wage and Tax Statement," and includes compensation paid or incurred to independent contractors. However, solely for purposes of paragraph (a) of this section, the term "compensation" does not include participations and residuals (as defined in section 167(g)(7)(B)). See §1.181-1(a)(3) for additional rules concerning participations and residuals.

(d) *Qualified compensation.* The term *qualified compensation* means, for purposes of this section and §1.181-2(c)(2), all compensation (as defined in paragraph (c) of this section) paid or incurred for services performed in the United States (as defined in paragraph (f)(3) of this section) by actors, directors, producers, and other production personnel for the production. A service is performed in the United States for purposes of this paragraph (d) if the principal photography to which the compensated service relates occurs within the United States and the person performing the service is physically present in the United States. For

purposes of an animated film or animated television production, the location where production activities such as keyframe animation, in-between animation, animation photography, and the recording of voice acting performances are performed is considered in lieu of the location of principal photography. For purposes of a production incorporating both live action and animation, the location where production activities such as keyframe animation, in-between animation, animation photography, and the recording of voice acting performances for the production is considered in addition to the location of principal photography.

(e) *Special rule for acquired productions.* A person who acquires a production from a prior owner must take into account all compensation paid or incurred by or on behalf of the seller and any previous owners in determining if the production is a qualified film or television production as defined in paragraph (a) of this section. Any owner that elects to deduct as production costs the costs of acquiring a production and any subsequent production costs must obtain from the seller detailed records concerning the compensation paid or incurred for the production and, for a pre-amendment production, concerning aggregate production costs, in order to demonstrate the eligibility of the production under section 181.

(f) *Other definitions.* The following definitions apply for purposes of this section and §§ 1.181-1, 1.181-2, 1.181-4, 1.181-5, and 1.181-6:

(1) *Actors.* The term *actors* means players, newscasters, or any other persons who are compensated for their performance or appearance in a production.

(2) *Production personnel.* The term *production personnel* means persons who are compensated for providing services directly related to the production, such as writers, choreographers, composers, casting agents, camera operators, set designers, lighting technicians, and make-up artists.

(3) *United States.* The term *United States* means the 50 states, the District of Columbia, the territorial waters of the continental United States, the airspace or space over the continental

United States and its territorial waters, and the seabed and subsoil of those submarine areas that are adjacent to the territorial waters of the continental United States and over which the United States has exclusive rights, in accordance with international law, for the exploration and exploitation of natural resources. The term “United States” does not include possessions and territories of the United States (or the airspace or space over these areas).

[T.D. 9551, 76 FR 60727, Sept. 30, 2011]

§ 1.181-4 Special rules.

(a) *Recapture—(1) Applicability—(i) In general.* The requirements of this paragraph (a) apply notwithstanding whether an owner has satisfied the revocation requirements of § 1.181-2(d). An owner that claimed a deduction under section 181 for a production in any taxable year in an amount in excess of the amount that would be allowable as a deduction for that year in the absence of section 181 must recapture the excess amount as provided for in paragraph (a)(3) of this section for the production in the first taxable year for which—

(A) For any pre-amendment production, the aggregate production costs of the production exceed the applicable aggregate production costs limit under § 1.181-1(b)(1)(i) or (b)(2);

(B) For any pre-amendment production, the owner no longer reasonably expects (based on all of the facts and circumstances at the end of the current taxable year) that the aggregate production costs of the production will not, at any time, exceed the applicable aggregate production costs limit set forth under § 1.181-1(b)(1)(i) or (b)(2);

(C) The owner no longer reasonably expects (based on all of the facts and circumstances at the end of the current taxable year) either that the production will be set for production or that the production will be a qualified film or television production; or

(D) The owner revokes the election pursuant to § 1.181-2(d).

(ii) *Special rule.* An owner that claimed a deduction under section 181 and disposes of the production prior to its initial release or broadcast must recapture the entire amount specified

under paragraph (a)(3) of this section in the year the owner disposes of the production before computing gain or loss from the disposition.

(2) *Principal photography not commencing prior to the date of expiration of section 181.* If an owner claims a deduction under section 181 for a production for which principal photography does not commence prior to the date of expiration of section 181, the owner must recapture deductions as provided for in paragraph (a)(3) of this section in the owner's taxable year that includes the date of expiration of section 181.

(3) *Amount of recapture.* An owner subject to the recapture requirements under this section must, for the taxable year in which recapture is required, include in the owner's gross income as ordinary income and add to the owner's adjusted basis in the property—

(i) For a production that is placed in service in a taxable year prior to the taxable year for which recapture is required, the difference between the aggregate amount the owner claimed as a deduction under section 181 for the production for all such prior taxable years and the aggregate depreciation deductions that would have been allowable for the production for such prior taxable years (or that the owner could have elected to deduct in the taxable year that the production was placed in service) for the production under the owner's method of accounting; or

(ii) For a production that has not been placed in service, the aggregate amount claimed as a deduction under section 181 for the production for all such prior taxable years.

(b) *Recapture under section 1245.* For purposes of recapture under section 1245, any deduction allowed under section 181 is treated as a deduction allowable for amortization.

[T.D. 9551, 76 FR 60728, Sept. 30, 2011]

§ 1.181-5 Examples.

The following examples illustrate the application of §§ 1.181-1 through 1.181-4:

Example 1. X, a corporation that uses an accrual method of accounting and files Federal income tax returns on a calendar-year basis, is a producer of films. X is the owner (within the meaning of § 1.181-1(a)(2)) of film ABC. X incurs production costs in year 1, but does

not commence principal photography for film ABC until year 2. In year 1, X reasonably expects, based on all of the facts and circumstances, that film ABC will be set for production and will be a qualified film or television production. Provided that X satisfies all other requirements of §§ 1.181-1 through 1.181-4 and § 1.181-6, X may deduct in year 1 the production costs for film ABC that X incurred in year 1.

Example 2. The facts are the same as in *Example 1*. In year 2, X begins, but does not complete, principal photography for film ABC. Most of the scenes that X films in year 2 are shot outside the United States and, as of December 31, year 2, less than 75 percent of the total compensation paid for film ABC is qualified compensation. Nevertheless, X still reasonably expects, based on all of the facts and circumstances, that film ABC will be a qualified film or television production. Provided that X satisfies all other requirements of §§ 1.181-1 through 1.181-4 and § 1.181-6, X may deduct in year 2 the production costs for film ABC that X incurred in year 2.

Example 3. The facts are the same as in *Example 2*. In year 3, X continues, but does not complete, production of film ABC. Due to changes in the expected production costs of film ABC, X no longer expects film ABC to qualify under section 181. X files a statement with its return for year 3 identifying the film and stating that X revokes its election under section 181. X includes in income in year 3 the deductions claimed in year 1 and in year 2 as provided for in § 1.181-4(a)(3). X has successfully revoked its election pursuant to § 1.181-2(d).

[T.D. 9551, 76 FR 60729, Sept. 30, 2011]

§ 1.181-6 Effective/applicability date.

(a) *In general.* Except as otherwise provided in this section, §§ 1.181-1 through 1.181-5 apply to productions the first day of principal photography for which occurs on or after September 29, 2011. Paragraphs 1.181-1(a)(1)(ii), (a)(6), (b)(1)(ii), (b)(2)(vi), and (c)(2) of § 1.181-1 apply to productions to which section 181 is applicable and for which the first day of principal photography or in-between animation occurs on or after December 7, 2012.

(b) *Pre-effective date productions.* For any taxable year for which the period of limitation on refund or credit under section 6511 has not expired, the owner may apply §§ 1.181-1 through 1.181-5 to any production to which section 181 applies and for which the first day of principal photography (or in-between animation) occurred before December 7, 2012, provided the owner applies all

§ 1.182-1

26 CFR Ch. I (4-1-17 Edition)

relevant provisions of §§1.181-1 through 1.181-5 to the production.

[T.D. 9603, 77 FR 72924, Dec. 7, 2012]

§ 1.182-1 Expenditures by farmers for clearing land; in general.

Under section 182, a taxpayer engaged in the business of farming may elect, in the manner provided in §1.182-6, to deduct certain expenditures paid or incurred by him in any taxable year beginning after December 31, 1962, in the clearing of land. The expenditures to which the election applies are all expenditures paid or incurred during the taxable year in clearing land for the purpose of making the “land suitable for use in farming” (as defined in §1.182-4) which are not otherwise deductible (exclusive of expenditures for or in connection with depreciable items referred to in paragraph (b)(1) of §1.182-3), but only if such expenditures are made in furtherance of the taxpayer’s business of farming. The term *expenditures* to which the election applies also includes a reasonable allowance for depreciation (not otherwise allowable) on equipment used in the clearing of land provided such equipment, if used in the carrying on of a trade or business, would be subject to the allowance for depreciation under section 167. (See paragraph (c) of §1.182-3.) (See section 175 and the regulations thereunder for deductibility of certain expenditures for treatment or moving of earth by a farmer where the land already qualifies as land used in farming as defined in §1.175-4.) The amount deductible for any taxable year is limited to the lesser of \$5,000 or 25 percent of the taxable income derived from farming (as defined in paragraph (a)(2) of §1.182-5) during the taxable year. Expenditures paid or incurred in a taxable year in excess of the amount deductible under section 182 for such taxable year shall be treated as capital expenditures and shall constitute an adjustment to the basis of the land under section 1016(a).

[T.D. 6794, 30 FR 790, Jan. 26, 1965]

§ 1.182-2 Definition of “the business of farming.”

Under section 182, the election to deduct expenditures incurred in the

clearing of land is applicable only to a taxpayer who is engaged in “the business of farming” during the taxable year. A taxpayer is engaged in the business of farming if he cultivates, operates, or manages a farm for gain or profit, either as owner or tenant. For purposes of section 182, a taxpayer who receives a rental (either in cash or in kind) which is based upon farm production is engaged in the business of farming. However, a taxpayer who receives a fixed rental (without reference to production) is engaged in the business of farming only if he participates to a material extent in the operation or management of the farm. A taxpayer engaged in forestry or the growing of timber is not thereby engaged in the business of farming. A person cultivating or operating a farm for recreation or pleasure rather than for profit is not engaged in the business of farming. For purposes of section 182 and this section, the term *farm* is used in its ordinary, accepted sense and includes stock, dairy, poultry, fish, fruit, and truck farms, and also plantations, ranches, ranges, and orchards. A fish farm is an area where fish are grown or raised, as opposed to merely caught or harvested; that is, an area where they are artificially fed, protected, cared for, etc. A taxpayer is engaged in “the business of farming” if he is a member of a partnership engaged in the business of farming. See §1.702-1.

[T.D. 6794, 30 FR 790, Jan. 26, 1965]

§ 1.182-3 Definition, exceptions, etc., relating to deductible expenditures.

(a) *Clearing of land.* (1) For purposes of section 182, the term *clearing of land* includes (but is not limited to):

(i) The removal of rocks, stones, trees, stumps, brush or other natural impediments to the use of the land in farming through blasting, cutting, burning, bulldozing, plowing, or in any other way;

(ii) The treatment or moving of earth, including the construction, repair or removal of nondepreciable earthen structures, such as dikes or levies, if the purpose of such treatment or moving of earth is to protect, level, contour, terrace, or condition the land so as to permit its use as farming land; and

(iii) The diversion of streams and watercourses, including the construction of nondepreciable drainage facilities, provided that the purpose is to remove or divert water from the land so as to make it available for use in farming.

(2) The following are examples of land clearing activities:

(i) The cutting of trees, the blasting of the resulting stumps, and the burning of the residual undergrowth;

(ii) The leveling of land so as to permit irrigation or planting;

(iii) The removal of salt or other minerals which might inhibit cultivation of the soil;

(iv) The draining and filling in of a swamp or marsh; and

(v) The diversion of a stream from one watercourse to another.

(b) *Expenditures not allowed as a deduction under section 182.* (1) Section 182 applies only to expenditures for nondepreciable items. Accordingly, a taxpayer may not deduct expenditures for the purchase, construction, installation, or improvement of structures, appliances, or facilities which are of a character which is subject to the allowance for depreciation under section 167 and the regulations thereunder. Expenditures in respect of such depreciable property include those for materials, supplies, wages, fuel, freight, and the moving of earth, paid or incurred with respect to tanks, reservoirs, pipes, conduits, canals, dams, wells, or pumps constructed of masonry, concrete, tile, metal, wood, or other nonearthen material.

(2) Expenditures which are deductible without regard to section 182 are not deductible under section 182. Thus, such expenditures are deductible without being subject to the limitations imposed by section 182(b) and § 1.182-5. For example, section 182 does not apply to the ordinary and necessary expenses incurred in the business of farming which are deductible under section 162 even though they might otherwise be considered to be clearing of land expenditures. Section 182 also does not apply to interest (deductible under section 163) nor to taxes (deductible under section 164). Similarly, section 182 does not apply to any expenditures (whether or not currently deductible) paid or incurred for the purpose of soil or water

conservation in respect of land used in farming, or for the prevention of erosion of land used in farming, within the meaning of section 175 and the regulations thereunder, nor to expenditures deductible under section 180 and the regulations thereunder, relating to expenditures for fertilizer, etc.

(c) *Depreciation.* In addition to expenditures for the activities described in paragraph (a) of this section, there also shall be treated as an expenditure to which section 182 applies a reasonable allowance for depreciation not otherwise deductible on property of the taxpayer which is used in the clearing of land for the purpose of making such land suitable for use in farming, provided the property is property which, if used in a trade or business, would be subject to the allowance for depreciation under section 167. Depreciation allowable as a deduction under section 182 is limited to the portion of depreciation which is attributable to the use of the property in the clearing of land. The depreciation shall be computed in accordance with section 167 and the regulations thereunder. To the extent an amount representing a reasonable allowance for depreciation with respect to property used in clearing land is treated as an expenditure to which section 182 applies, such depreciation shall, for purposes of chapter 1 of the Code, be treated as an amount allowed under section 167 for depreciation. Thus, if a deduction is allowed for depreciation under section 182 in respect of property used in clearing land, proper adjustment to the basis of the property so used shall be made under section 1016(a).

[T.D. 6794, 30 FR 791, Jan. 26, 1965]

§ 1.182-4 Definition of "land suitable for use in farming", etc.

For purposes of section 182, the term *land suitable for use in farming* means land which, as a result of the land clearing activities described in paragraph (a) of § 1.182-3, could be used by the taxpayer or his tenant for the production of crops, fruits, or other agricultural products, including fish, or for the sustenance of livestock. The term *livestock* includes cattle, hogs, horses, mules, donkeys, sheep, goats, captive fur-bearing animals, chickens, turkeys,

pigeons, and other poultry. Land used for the sustenance of livestock includes land used for grazing such livestock. Expenditures are considered to be for the purpose of making land suitable for use in farming by the taxpayer or his tenant only if made to prepare the land which is cleared for use by the taxpayer or his tenant in farming. Thus, if the taxpayer pays or incurs expenditures to clear land for the purpose of sale (whether or not for use in farming by the purchaser) or to be held by the taxpayer or his tenant other than for use in farming, section 182 does not apply to such expenditures. Whether the land is cleared for the purpose of making it suitable for use in farming by the taxpayer or his tenant, is a question of fact which must be resolved on the basis of all the relevant facts and circumstances. For purposes of section 182, it is not necessary that the land cleared actually be used in farming following the clearing activities. However, the fact that following the clearing operation, the land is used by the taxpayer or his tenant in the business of farming will, in most cases, constitute evidence that the purpose of the clearing was to make land suitable for use in farming by the taxpayer or his tenant. On the other hand, if the land cleared is sold or converted to nonfarming use soon after the taxpayer has completed his clearing activities, there will be a presumption that the expenditures were not made for the purpose of making the land suitable for use in farming by the taxpayer or his tenant. Other factors which will be considered in determining the taxpayer's purpose for clearing the land are, for example, the acreage, location, and character of the land cleared, the nature of the taxpayer's farming operation, and the use to which adjoining or nearby land is put.

[T.D. 6794, 30 FR 791, Jan. 26, 1965]

§ 1.182-5 Limitation.

(a) *Limitation*—(1) *General rule.* The amount of land clearing expenditures which the taxpayer may deduct under section 182 in any one taxable year is limited to the lesser of \$5,000 or 25 percent of his “taxable income derived from farming”. Expenditures in excess of the applicable limitation are to be

charged to the capital account and constitute additions to the taxpayer's basis in the land.

(2) *Definition of “taxable income derived from farming”.* For purposes of section 182, the term *taxable income derived from farming* means the gross income derived from the business of farming reduced by the deductions attributable to such gross income. Gross income derived from the business of farming is the gross income of the taxpayer derived from the production of crops, fruits, or other agricultural products, including fish, or from livestock (including livestock held for draft, breeding or dairy purposes). It does not include gains from sales of assets such as farm machinery or gains from the disposition of land. The deductions attributable to the business of farming are all the deductions allowed by Chapter 1 of the Code (other than the deduction allowed by section 182) for expenditures or charges (including depreciation and amortization) paid or incurred in connection with the production or raising of crops, fruits, or other agricultural products, including fish, or livestock. However, the deduction under section 1202 (relating to the capital gains deduction) attributable to gain on the sale or other disposition of assets (other than draft, breeding, or dairy stock), and the net operating loss deduction (computed under section 172) shall not be taken into account in computing “taxable income derived from farming.” Similarly, deductible losses on the sale, disposition, destruction, condemnation, or abandonment of assets (other than draft, breeding, or dairy stock) shall not be considered as deductions attributable to the business of farming. A taxpayer shall compute his gross income from farming in accordance with his accounting method used in determining gross income. (See the regulations under section 61 relating to accounting methods used by farmers in determining gross income.)

(b) *Examples.* The provisions of paragraph (a) of this section may be illustrated by the following examples:

Example 1. For the taxable year 1963, A, who uses the cash receipts and disbursements method of accounting, incurs expenditures to which section 182 applies in the amount of \$2,000 and makes the election

Internal Revenue Service, Treasury

§ 1.182-6

under section 182. A has the following items of income and deductions (without regard to section 182 expenditures).

Income:	
Proceeds from sale of his 1963 yield of corn	\$10,000
Proceeds from sales of milk	8,000
Gain from disposition of old breeding cows	500
Gain from sale of tractor	100
Gain from sale of farmland	5,000
Interest on loan to brother	100
	<hr/>
	23,700
Deductions:	
Cost of labor	4,000
Cost of feed	3,000
Depreciation on farm equipment and buildings	2,500
Cost of maintenance, fuel, etc	2,000
Interest paid, mortgage on farm buildings	1,000
Interest paid, personal loan	500
Loss on destruction of barn	2,000
Loss on sale of truck	300
Section 1202 deduction—gain on sale of cows ($500 \times 1/2$)	250
Section 1202 deduction—net gain on disposition of section 1231 property, other than cows [$\$2,800 (\$5,100 - \$2,300) \times 1/2$]	1,400
	<hr/>
	\$16,950
Net income before section 182 deduction	6,750

For purposes of computing taxable income derived from farming under section 182, the following items of income and deductions are not taken into account:

Income:	
Gain from the sale of tractor	\$100
Gain from the sale of farmland	5,000
Interest on loan to brother	100
	<hr/>
	\$5,200
Deductions:	
Interest paid, personal loan	\$500
Loss on destruction of barn	2,000
Loss on sale of truck	300
Section 1202 deduction—Net gain from disposition of 1231 assets other than cows	1,400
	<hr/>
	\$4,200

A's "taxable income derived from farming" for purposes of section 182 is \$5,750; income of \$18,500 (\$23,700 - \$5,200), less deductions of \$12,750 (\$16,950 - \$4,200). A may deduct \$1,437.50 (25% of \$5,750) under section 182. The excess expenditures in the amount of \$562.50 are to be charged to capital account and serve to increase the taxpayer's basis of the land.

Example 2. Assume the same facts as in *Example 1* and in addition, assume that A is allowed a deduction for a net operating loss carryback from the taxable year 1966 in the amount of \$3,000. The net operating loss deduction will not be taken into account in computing A's "taxable income derived from farming" for 1963. Accordingly, A will not be required to recompute such taxable income

for purposes of applying the limitation on the deduction provided in section 182 and the deduction of \$1,437.50 will not be reduced.

[T.D. 6794, 30 FR 791, Jan. 26, 1965]

§ 1.182-6 Election to deduct land clearing expenditures.

(a) *Manner of making election.* The election to deduct expenditures for land clearing provided by section 182(a) shall be made by means of a statement attached to the taxpayer's income tax return for the taxable year for which such election is to apply. The statement shall include the name and address of the taxpayer, shall be signed by the taxpayer (or his duly authorized representative), and shall be filed not later than the time prescribed by law for filing the income tax return (including extensions thereof) for the taxable year for which the election is to apply. The statement shall also set forth the amount and description of the expenditures for land clearing claimed as a deduction under section 182, and shall include a computation of "taxable income derived from farming", if the amount of such income is not the same as the net income from farming shown on Schedule F of Form 1040, increased by the amount of the deduction claimed under section 182.

(b) *Scope of election.* An election under section 182(a) shall apply only to the taxable year for which made. However, once made, an election applies to all expenditures described in § 1.182-3 paid or incurred during the taxable year, and is binding for such taxable year unless the district director consents to a revocation of such election. Requests for consent to revoke an election under section 182 shall be made by means of a letter to the district director for the district in which the taxpayer is required to file his return, setting forth the taxpayer's name, address and identification number, the year for which it is desired to revoke the election, and the reasons therefor. However, consent will not be granted where the only reason therefor is a change in tax consequences.

[T.D. 6794, 30 FR 791, Jan. 26, 1965]

§ 1.183-1 Activities not engaged in for profit.

(a) *In general.* Section 183 provides rules relating to the allowance of deductions in the case of activities (whether active or passive in character) not engaged in for profit by individuals and electing small business corporations, creates a presumption that an activity is engaged in for profit if certain requirements are met, and permits the taxpayer to elect to postpone determination of whether such presumption applies until he has engaged in the activity for at least 5 taxable years, or, in certain cases, 7 taxable years. Whether an activity is engaged in for profit is determined under section 162 and section 212 (1) and (2) except insofar as section 183(d) creates a presumption that the activity is engaged in for profit. If deductions are not allowable under sections 162 and 212 (1) and (2), the deduction allowance rules of section 183(b) and this section apply. Pursuant to section 641(b), the taxable income of an estate or trust is computed in the same manner as in the case of an individual, with certain exceptions not here relevant. Accordingly, where an estate or trust engages in an activity or activities which are not for profit, the rules of section 183 and this section apply in computing the allowable deductions of such trust or estate. No inference is to be drawn from the provisions of section 183 and the regulations thereunder that any activity of a corporation (other than an electing small business corporation) is or is not a business or engaged in for profit. For rules relating to the deductions that may be taken into account by taxable membership organizations which are operated primarily to furnish services, facilities, or goods to members, see section 277 and the regulations thereunder. For the definition of an activity not engaged in for profit, see § 1.183-2. For rules relating to the election contained in section 183(e), see § 1.183-3.

(b) *Deductions allowable*—(1) *Manner and extent.* If an activity is not engaged in for profit, deductions are allowable under section 183(b) in the following order and only to the following extent:

(i) Amounts allowable as deductions during the taxable year under Chapter

1 of the Code without regard to whether the activity giving rise to such amounts was engaged in for profit are allowable to the full extent allowed by the relevant sections of the Code, determined after taking into account any limitations or exceptions with respect to the allowability of such amounts. For example, the allowability-of-interest expenses incurred with respect to activities not engaged in for profit is limited by the rules contained in section 163(d).

(ii) Amounts otherwise allowable as deductions during the taxable year under Chapter 1 of the Code, but only if such allowance does not result in an adjustment to the basis of property, determined as if the activity giving rise to such amounts was engaged in for profit, are allowed only to the extent the gross income attributable to such activity exceeds the deductions allowed or allowable under subdivision (i) of this subparagraph.

(iii) Amounts otherwise allowable as deductions for the taxable year under Chapter 1 of the Code which result in (or if otherwise allowed would have resulted in) an adjustment to the basis of property, determined as if the activity giving rise to such deductions was engaged in for profit, are allowed only to the extent the gross income attributable to such activity exceeds the deductions allowed or allowable under subdivisions (i) and (ii) of this subparagraph. Deductions falling within this subdivision include such items as depreciation, partial losses with respect to property, partially worthless debts, amortization, and amortizable bond premium.

(2) *Rule for deductions involving basis adjustments*—(i) *In general.* If deductions are allowed under subparagraph (1)(iii) of this paragraph, and such deductions are allowed with respect to more than one asset, the deduction allowed with respect to each asset shall be determined separately in accordance with the computation set forth in subdivision (ii) of this subparagraph.

(ii) *Basis adjustment fraction.* The deduction allowed under subparagraph (1)(iii) of this paragraph is computed by multiplying the amount which would have been allowed, had the activity

been engaged in for profit, as a deduction with respect to each particular asset which involves a basis adjustment, by the basis adjustment fraction:

(a) The numerator of which is the total of deductions allowable under subparagraph (1)(iii) of this paragraph, and

(b) The denominator of which is the total of deductions which involve basis adjustments which would have been allowed with respect to the activity had the activity been engaged in for profit. The amount resulting from this computation is the deduction allowed under subparagraph (1)(iii) of this paragraph with respect to the particular asset. The basis of such asset is adjusted only to the extent of such deduction.

(3) *Examples.* The provisions of subparagraphs (1) and (2) of this paragraph may be illustrated by the following examples:

Example 1. A, an individual, maintains a herd of dairy cattle, which is an "activity not engaged in for profit" within the meaning of section 183(c). A sold milk for \$1,000 during the year. During the year A paid \$300 State taxes on gasoline used to transport the cows, milk, etc., and paid \$1,200 for feed for the cows. For the year A also had a casualty loss attributable to this activity of \$500. A determines the amount of his allowable deductions under section 183 as follows:

(i) First, A computes his deductions allowable under subparagraph (1)(i) of this paragraph as follows:

State gasoline taxes specifically allowed under section 164(a)(5) without regard to whether the activity is engaged in for profit	\$300
Casualty loss specifically allowed under section 165(c)(3) without regard to whether the activity is engaged in for profit (\$500 less \$100 limitation)	400
Deductions allowable under subparagraph (1)(i) of this paragraph	700

(ii) Second, A computes his deductions allowable under subparagraph (1)(ii) of this paragraph (deductions which would be allowed under chapter 1 of the Code if the activity were engaged in for profit and which do not involve basis adjustments) as follows:

Maximum amount of deductions allowable under subparagraph (1)(ii) of this paragraph:	
Income from milk sales	\$1,000
Gross income from activity	1,000
Less: deductions allowable under subparagraph (1)(i) of this paragraph	700
Deductions allowable under subparagraph (1)(ii) of this paragraph	700

Maximum amount of deductions allowable under subparagraph (1)(ii) of this paragraph	300
Feed for cows	1,200
Deduction allowed under subparagraph (1)(ii) of this paragraph	300

\$900 of the feed expense is not allowed as a deduction under section 183 because the total feed expense (\$1,200) exceeds the maximum amount of deductions allowable under subparagraph (1)(ii) of this paragraph (\$300). In view of these circumstances, it is not necessary to determine deductions allowable under subparagraph (1)(iii) of this paragraph which would be allowable under chapter 1 of the Code if the activity were engaged in for profit and which involve basis adjustment (the \$100 of casualty loss not allowable under subparagraph (1)(i) of this paragraph because of the limitation in section 165(c)(3)) because none of such amount will be allowed as a deduction under section 183.

Example 2. Assume the same facts as in *Example 1*, except that A also had income from sales of hay grown on the farm of \$1,200 and that depreciation of \$750 with respect to a barn, and \$650 with respect to a tractor would have been allowed with respect to the activity had it been engaged in for profit. A determines the amount of his allowable deductions under section 183 as follows:

(i) First, A computes his deductions allowable under subparagraph (1)(i) of this paragraph as follows:

State gasoline taxes specifically allowed under section 164(a)(5) without regard to whether the activity is engaged in for profit	\$300
Casualty loss specifically allowed under section 165(c)(3) without regard to whether the activity is engaged in for profit (\$500 less \$100 limitation)	400
Deductions allowable under subparagraph (1)(i) of this paragraph	700

(ii) Second, A computes his deductions allowable under subparagraph (1)(ii) of this paragraph (deductions which would be allowable under chapter 1 of the Code if the activity were engaged in for profit and which do not involve basis adjustments) as follows:

Maximum amount of deductions allowable under subparagraph (1)(ii) of this paragraph:	
Income from milk sales	\$1,000
Income from hay sales	1,200
Gross income from activity	2,200
Less: deductions allowable under subparagraph (1)(i) of this paragraph	700
Maximum amount of deductions allowable under subparagraph (1)(ii) of this paragraph	1,500
Feed for cows	1,200

The entire \$1,200 of expenses relating to feed for cows is allowable as a deduction under subparagraph (1)(ii) of this paragraph, since it does not exceed the maximum amount of

deductions allowable under such subparagraph.

(iii) Last, A computes the deductions allowable under subparagraph (1)(iii) of this paragraph (deductions which would be allowable under chapter 1 of the Code if the activity were engaged in for profit and which involve basis adjustments) as follows:

Maximum amount of deductions allowable under subparagraph (1)(iii) of this paragraph:		
Gross income from farming		\$2,200
Less: Deductions allowed under subparagraph (1)(i) of this paragraph ..	\$700	
Deductions allowed under subparagraph (1)(ii) of this paragraph	1,200	1,900

Maximum amount of deductions allowable under subparagraph (1)(iii) of this paragraph	300
--	-----

(iv) Since the total of A's deductions under chapter 1 of the Code (determined as if the activity was engaged in for profit) which involve basis adjustments (\$750 with respect to barn, \$650 with respect to tractor, and \$100 with respect to limitation on casualty loss) exceeds the maximum amount of the deductions allowable under subparagraph (1)(iii) of this paragraph (\$300), A computes his allowable deductions with respect to such assets as follows:

A first computes his basis adjustment fraction under subparagraph (2)(i) of this paragraph as follows:

The numerator of the fraction is the maximum of deductions allowable under subparagraph (1)(iii) of this paragraph which involve basis adjustments		\$300
The denominator of the fraction is the total of deductions that involve basis adjustments which would have been allowed with respect to the activity had the activity been engaged in for profit		1,500

The basis adjustment fraction is then applied to the amount of each deduction which would have been allowable if the activity were engaged in for profit and which involves a basis adjustment as follows:

Depreciation allowed with respect to barn (300/1,500 × \$750)	\$150
Depreciation allowed with respect to tractor (300/1,500 × \$650)	130
Deduction allowed with respect to limitation on casualty loss (300/1,500 × \$100)	20

The basis of the barn and of the tractor are adjusted only by the amount of depreciation actually allowed under section 183 with respect to each (as determined by the above computation). The basis of the asset with regard to which the casualty loss was suffered is adjusted only to the extent of the amount of the casualty loss actually allowed as a deduction under subparagraph (1) (i) and (iii) of this paragraph.

(4) *Rule for capital gains and losses*—(i) *In general.* For purposes of section 183 and the regulations thereunder, the

gross income from any activity not engaged in for profit includes the total of all capital gains attributable to such activity determined without regard to the section 1202 deduction. Amounts attributable to an activity not engaged in for profit which would be allowable as a deduction under section 1202, without regard to section 183, shall be allowable as a deduction under section 183(b)(1) in accordance with the rules stated in this subparagraph.

(ii) *Cases where deduction not allowed under section 183.* No deduction is allowable under section 183(b)(1) with respect to capital gains attributable to an activity not engaged in for profit if:

(a) Without regard to section 183 and the regulations thereunder, there is no excess of net long-term capital gain over net short-term capital loss for the year, or

(b) There is no excess of net long-term capital gain attributable to the activity over net short-term capital loss attributable to the activity.

(iii) *Allocation of deduction.* If there is:

(a) An excess of net long-term capital gain over net short-term capital loss attributable to an activity not engaged in for profit, and

(b) Such an excess attributable to all activities, determined without regard to section 183 and the regulations thereunder, the deduction allowable under section 183(b)(1) attributable to capital gains with respect to each activity not engaged in for profit (with respect to which there is an excess of net long-term capital gain over net short-term capital loss for the year) shall be an amount equal to the deduction allowable under section 1202 for the taxable year (determined without regard to section 183) multiplied by a fraction the numerator of which is the excess of the net long-term capital gain attributable to the activity over the net short-term capital loss attributable to the activity and the denominator of which is an amount equal to the total excess of net long-term capital gain over net short-term capital loss for all activities with respect to which there is such excess. The amount of the total section 1202 deduction allowable for the year shall be reduced

Internal Revenue Service, Treasury

§ 1.183-1

by the amount determined to be allocable to activities not engaged in for profit and accordingly allowed as a deduction under section 183(b)(1).

(iv) *Example.* The provisions of this subparagraph may be illustrated by the following example:

Example. A, an individual who uses the cash receipts and disbursement method of accounting and the calendar year as the taxable year, has three activities not engaged in for profit. For his taxable year ending on December 31, 1973, A has a \$200 net long-term capital gain from activity No. 1, a \$100 net short-term capital loss from activity No. 2, and a \$300 net long-term capital gain from activity No. 3. In addition, A has a \$500 net long-term capital gain from another activity which he engages in for profit. A computes his deductions for capital gains for calendar year 1973 as follows:

Section 1202 deduction without regard to section 183 is determined as follows:	
Net long-term capital gain from activity No. 1	\$200
Net long-term capital gain from activity No. 3	300
Net long-term capital gain from activity engaged in for profit	500
<hr/>	<hr/>
Total net long-term capital gain from all activities	1,000
Less: Net short-term capital loss attributable to activity No. 2	100
<hr/>	<hr/>
Aggregate net long-term capital gain over net short-term capital loss from all activities	900
<hr/>	<hr/>
Section 1202 deduction determined without regard to section 183 (one-half of \$900)	\$450
<hr/>	<hr/>

Allocation of the total section 1202 deduction among A's various activities:

Portion allocable to activity No. 1 which is deductible under section 183(b)(1) (Excess net long-term capital gain attributable to activity No. 1 (\$200) over total excess net long-term capital gain attributable to all of A's activities with respect to which there is such an excess (\$1,000) times amount of section 1202 deduction (\$450))	90
Portion allocable to activity No. 3 which is deductible under section 183(b)(1) (Excess net long-term capital gain attributable to activity No. 3 (\$300) over total excess net long-term capital gain attributable to all of A's activities with respect to which there is such an excess (\$1,000) times amount of section 1202 deduction (\$450))	135
Portion allocable to all activities engaged in for profit (total section 1202 deduction (\$450) less section 1202 deduction allowable to activities Nos. 1 and 3 (\$225))	225
<hr/>	<hr/>
Total section 1202 deduction deductible under sections 1202 and 183(b)(1)	450
<hr/>	<hr/>

(c) *Presumption that activity is engaged in for profit*—(1) *In general.* If for:

(i) Any 2 of 7 consecutive taxable years, in the case of an activity which consists in major part of the breeding, training, showing, or racing of horses, or

(ii) Any 2 of 5 consecutive taxable years, in the case of any other activity, the gross income derived from an activity exceeds the deductions attributable to such activity which would be allowed or allowable if the activity were engaged in for profit, such activity is presumed, unless the Commissioner establishes to the contrary, to be engaged in for profit. For purposes of this determination the deduction permitted by section 1202 shall not be taken into account. Such presumption applies with respect to the second profit year and all years subsequent to the second profit year within the 5- or 7-year period beginning with the first profit year. This presumption arises only if the activity is substantially the same activity for each of the relevant taxable years, including the taxable year in question. If the taxpayer does not meet the requirements of section 183(d) and this paragraph, no inference that the activity is not engaged in for profit shall arise by reason of the provisions of section 183. For purposes of this paragraph, a net operating loss deduction is not taken into account as a deduction. For purposes of this subparagraph a short taxable year constitutes a taxable year.

(2) *Examples.* The provisions of subparagraph (1) of this paragraph may be illustrated by the following examples, in each of which it is assumed that the taxpayer has not elected, in accordance with section 183(e), to postpone determination of whether the presumption described in section 183(d) and this paragraph is applicable.

Example 1. For taxable years 1970-74, A, an individual who uses the cash receipts and disbursement method of accounting and the calendar year as the taxable year, is engaged in the activity of farming. In taxable years 1971, 1973, and 1974, A's deductible expenditures with respect to such activity exceed his gross income from the activity. In taxable years 1970 and 1972 A has income from the sale of farm produce of \$30,000 for each year. In each of such years A had expenses for feed for his livestock of \$10,000, depreciation of equipment of \$10,000, and fertilizer

cost of \$5,000 which he elects to take as a deduction. A also has a net operating loss carryover to taxable year 1970 of \$6,000. A is presumed, for taxable years 1972, 1973, and 1974, to have engaged in the activity of farming for profit, since for 2 years of a 5-consecutive-year period the gross income from the activity (\$30,000 for each year) exceeded the deductions (computed without regard to the net operating loss) which are allowable in the case of the activity (\$25,000 for each year).

Example 2. For the taxable years 1970 and 1971, B, an individual who uses the cash receipts and disbursement method of accounting and the calendar year as taxable year, engaged in raising pure-bred Charolais cattle for breeding purposes. The operation showed a loss during 1970. At the end of 1971, B sold a substantial portion of his herd and the cattle operation showed a profit for that year. For all subsequent relevant taxable years B continued to keep a few Charolais bulls at stud. In 1972, B started to raise Tennessee Walking Horses for breeding and show purposes, utilizing substantially the same pasture land, barns, and (with structural modifications) the same stalls. The Walking Horse operations showed a small profit in 1973 and losses in 1972 and 1974 through 1976.

(i) Assuming that under paragraph (d)(1) of this section the raising of cattle and raising of horses are determined to be separate activities, no presumption that the Walking Horse operation was carried on for profit arises under section 183(d) and this paragraph since this activity was not the same activity that generated the profit in 1971 and there are not, therefore, 2 profit years attributable to the horse activity.

(ii) Assuming the same facts as in (i) above, if there were no stud fees received in 1972 with respect to Charolais bulls, but for 1973 stud fees with respect to such bulls exceed deductions attributable to maintenance of the bulls in that year, the presumption will arise under section 183(d) and this paragraph with respect to the activity of raising and maintaining Charolais cattle for 1973 and for all subsequent years within the 5-year period beginning with taxable year 1971, since the activity of raising and maintaining Charolais cattle is the same activity in 1971 and in 1973, although carried on by B on a much reduced basis and in a different manner. Since it has been assumed that the horse and cattle operations are separate activities, no presumption will arise with respect to the Walking Horse operation because there are not 2 profit years attributable to such horse operation during the period in question.

(iii) Assuming, alternatively, that the raising of cattle and raising of horses would be considered a single activity under paragraph (d)(1) of this section, B would receive the benefit of the presumption beginning in 1973

with respect to both the cattle and horses since there were profits in 1971 and 1973. The presumption would be effective through 1977 (and longer if there is an excess of income over deductions in this activity in 1974, 1975, 1976, or 1977 which would extend the presumption) if, under section 183(d) and subparagraph (3) of this paragraph, it was determined that the activity consists in major part of the breeding, training, showing, or racing of horses. Otherwise, the presumption would be effective only through 1975 (assuming no excess of income over deductions in this activity in 1974 or 1975 which would extend the presumption).

(3) *Activity which consists in major part of the breeding, training, showing, or racing of horses.* For purposes of this paragraph an activity consists in major part of the breeding, training, showing, or racing of horses for the taxable year if the average of the portion of expenditures attributable to breeding, training, showing, and racing of horses for the 3 taxable years preceding the taxable year (or, in the case of an activity which has not been conducted by the taxpayer for 3 years, for so long as it has been carried on by him) was at least 50 percent of the total expenditures attributable to the activity for such prior taxable years.

(4) *Transitional rule.* In applying the presumption described in section 183(d) and this paragraph, only taxable years beginning after December 31, 1969, shall be taken into account. Accordingly, in the case of an activity referred to in subparagraph (1) (i) or (ii) of this paragraph, section 183(d) does not apply prior to the second profitable taxable year beginning after December 31, 1969, since taxable years prior to such date are not taken into account.

(5) *Cross reference.* For rules relating to section 183(e) which permits a taxpayer to elect to postpone determination of whether any activity shall be presumed to be "an activity engaged in for profit" by operation of the presumption described in section 183(d) and this paragraph until after the close of the fourth taxable year (sixth taxable year, in the case of activity which consists in major part of breeding, training, showing, or racing of horses) following the taxable year in which the taxpayer first engages in the activity, see § 1.183-3.

(d) *Activity defined*—(1) *Ascertainment of activity*. In order to determine whether, and to what extent, section 183 and the regulations thereunder apply, the activity or activities of the taxpayer must be ascertained. For instance, where the taxpayer is engaged in several undertakings, each of these may be a separate activity, or several undertakings may constitute one activity. In ascertaining the activity or activities of the taxpayer, all the facts and circumstances of the case must be taken into account. Generally, the most significant facts and circumstances in making this determination are the degree of organizational and economic interrelationship of various undertakings, the business purpose which is (or might be) served by carrying on the various undertakings separately or together in a trade or business or in an investment setting, and the similarity of various undertakings. Generally, the Commissioner will accept the characterization by the taxpayer of several undertakings either as a single activity or as separate activities. The taxpayer's characterization will not be accepted, however, when it appears that his characterization is artificial and cannot be reasonably supported under the facts and circumstances of the case. If the taxpayer engages in two or more separate activities, deductions and income from each separate activity are not aggregated either in determining whether a particular activity is engaged in for profit or in applying section 183. Where land is purchased or held primarily with the intent to profit from increase in its value, and the taxpayer also engages in farming on such land, the farming and the holding of the land will ordinarily be considered a single activity only if the farming activity reduces the net cost of carrying the land for its appreciation in value. Thus, the farming and holding of the land will be considered a single activity only if the income derived from farming exceeds the deductions attributable to the farming activity which are not directly attributable to the holding of the land (that is, deductions other than those directly attributable to the holding of the land such as interest on a mortgage secured by the land, annual property taxes at-

tributable to the land and improvements, and depreciation of improvements to the land).

(2) *Rules for allocation of expenses*. If the taxpayer is engaged in more than one activity, an item of deduction or income may be allocated between two or more of these activities. Where property is used in several activities, and one or more of such activities is determined not to be engaged in for profit, deductions relating to such property must be allocated between the various activities on a reasonable and consistently applied basis.

(3) *Example*. The provisions of this paragraph may be illustrated by the following example:

Example. (i) A, an individual, owns a small house located near the beach in a resort community. Visitors come to the area for recreational purposes during only 3 months of the year. During the remaining 9 months of the year houses such as A's are not rented. Customarily, A arranges that the house will be leased for 2 months of 3-month recreational season to vacationers and reserves the house for his own vacation during the remaining month of the recreational season. In 1971, A leases the house for 2 months for \$1,000 per month and actually uses the house for his own vacation during the other month of the recreational season. For 1971, the expenses attributable to the house are \$1,200 interest, \$600 real estate taxes, \$600 maintenance, \$300 utilities, and \$1,200 which would have been allowed as depreciation had the activity been engaged in for profit. Under these facts and circumstances, A is engaged in a single activity, holding the beach house primarily for personal purposes, which is an "activity not engaged in for profit" within the meaning of section 183(c). See paragraph (b)(9) of § 1.183-2.

(ii) Since the \$1,200 of interest and the \$600 of real estate taxes are specifically allowable as deductions under sections 163 and 164(a) without regard to whether the beach house activity is engaged in for profit, no allocation of these expenses between the uses of the beach house is necessary. However, since section 262 specifically disallows personal, living, and family expenses as deductions, the maintenance and utilities expenses and the depreciation from the activity must be allocated between the rental use and the personal use of the beach house. Under the particular facts and circumstances, $\frac{2}{3}$ (2 months of rental use over 3 months of total use) of each of these expenses are allocated to the rental use, and $\frac{1}{3}$ (1 month of personal use over 3 months of total use) of each of these expenses are allocated to the personal use as follows:

§ 1.183-2

26 CFR Ch. I (4-1-17 Edition)

	Rental use 2/3— expenses al- locable to section 183(b)(2)	Personal use 1/3— expenses al- locable to section 262
Maintenance expense \$600 ..	\$400	\$200
Utilities expense \$300	200	100
Depreciation \$1,200	800	400
Total	1,400	700

The \$700 of expenses and depreciation allocated to the personal use of the beach house are disallowed as a deduction under section 262. In addition, the allowability of each of the expenses and the depreciation allocated to section 183(b)(2) is determined under paragraph (b)(1)(ii) and (iii) of this section. Thus, the maximum amount allowable as a deduction under section 183(b)(2) is \$200 (\$2,000 gross income from activity, less \$1,800 deductions under section 183(b)(1)). Since the amounts described in section 183(b)(2) (\$1,400) exceed the maximum amount allowable (\$200), and since the amounts described in paragraph (b)(1)(ii) of this section (\$600) exceed such maximum amount allowable (\$200), none of the depreciation (an amount described in paragraph (b)(1)(iii) of this section) is allowable as a deduction.

(e) *Gross income from activity not engaged in for profit defined.* For purposes of section 183 and the regulations thereunder, gross income derived from an activity not engaged in for profit includes the total of all gains from the sale, exchange, or other disposition of property, and all other gross receipts derived from such activity. Such gross income shall include, for instance, capital gains, and rents received for the use of property which is held in connection with the activity. The taxpayer may determine gross income from any activity by subtracting the cost of goods sold from the gross receipts so long as he consistently does so and follows generally accepted methods of accounting in determining such gross income.

(f) *Rule for electing small business corporations.* Section 183 and this section shall be applied at the corporate level in determining the allowable deductions of an electing small business corporation.

[T.D. 7198, 37 FR 13680, July 13, 1972]

§ 1.183-2 Activity not engaged in for profit defined.

(a) *In general.* For purposes of section 183 and the regulations thereunder, the term *activity not engaged in for profit* means any activity other than one with respect to which deductions are allowable for the taxable year under section 162 or under paragraph (1) or (2) of section 212. Deductions are allowable under section 162 for expenses of carrying on activities which constitute a trade or business of the taxpayer and under section 212 for expenses incurred in connection with activities engaged in for the production or collection of income or for the management, conservation, or maintenance of property held for the production of income. Except as provided in section 183 and § 1.183-1, no deductions are allowable for expenses incurred in connection with activities which are not engaged in for profit. Thus, for example, deductions are not allowable under section 162 or 212 for activities which are carried on primarily as a sport, hobby, or for recreation. The determination whether an activity is engaged in for profit is to be made by reference to objective standards, taking into account all of the facts and circumstances of each case. Although a reasonable expectation of profit is not required, the facts and circumstances must indicate that the taxpayer entered into the activity, or continued the activity, with the objective of making a profit. In determining whether such an objective exists, it may be sufficient that there is a small chance of making a large profit. Thus it may be found that an investor in a wildcat oil well who incurs very substantial expenditures is in the venture for profit even though the expectation of a profit might be considered unreasonable. In determining whether an activity is engaged in for profit, greater weight is given to objective facts than to the taxpayer's mere statement of his intent.

(b) *Relevant factors.* In determining whether an activity is engaged in for profit, all facts and circumstances with respect to the activity are to be taken into account. No one factor is determinative in making this determination. In addition, it is not intended that only the factors described in this

paragraph are to be taken into account in making the determination, or that a determination is to be made on the basis that the number of factors (whether or not listed in this paragraph) indicating a lack of profit objective exceeds the number of factors indicating a profit objective, or vice versa. Among the factors which should normally be taken into account are the following:

(1) *Manner in which the taxpayer carries on the activity.* The fact that the taxpayer carries on the activity in a businesslike manner and maintains complete and accurate books and records may indicate that the activity is engaged in for profit. Similarly, where an activity is carried on in a manner substantially similar to other activities of the same nature which are profitable, a profit motive may be indicated. A change of operating methods, adoption of new techniques or abandonment of unprofitable methods in a manner consistent with an intent to improve profitability may also indicate a profit motive.

(2) *The expertise of the taxpayer or his advisors.* Preparation for the activity by extensive study of its accepted business, economic, and scientific practices, or consultation with those who are expert therein, may indicate that the taxpayer has a profit motive where the taxpayer carries on the activity in accordance with such practices. Where a taxpayer has such preparation or procures such expert advice, but does not carry on the activity in accordance with such practices, a lack of intent to derive profit may be indicated unless it appears that the taxpayer is attempting to develop new or superior techniques which may result in profits from the activity.

(3) *The time and effort expended by the taxpayer in carrying on the activity.* The fact that the taxpayer devotes much of his personal time and effort to carrying on an activity, particularly if the activity does not have substantial personal or recreational aspects, may indicate an intention to derive a profit. A taxpayer's withdrawal from another occupation to devote most of his energies to the activity may also be evidence that the activity is engaged in for profit. The fact that the taxpayer

devotes a limited amount of time to an activity does not necessarily indicate a lack of profit motive where the taxpayer employs competent and qualified persons to carry on such activity.

(4) *Expectation that assets used in activity may appreciate in value.* The term *profit* encompasses appreciation in the value of assets, such as land, used in the activity. Thus, the taxpayer may intend to derive a profit from the operation of the activity, and may also intend that, even if no profit from current operations is derived, an overall profit will result when appreciation in the value of land used in the activity is realized since income from the activity together with the appreciation of land will exceed expenses of operation. See, however, paragraph (d) of § 1.183-1 for definition of an activity in this connection.

(5) *The success of the taxpayer in carrying on other similar or dissimilar activities.* The fact that the taxpayer has engaged in similar activities in the past and converted them from unprofitable to profitable enterprises may indicate that he is engaged in the present activity for profit, even though the activity is presently unprofitable.

(6) *The taxpayer's history of income or losses with respect to the activity.* A series of losses during the initial or start-up stage of an activity may not necessarily be an indication that the activity is not engaged in for profit. However, where losses continue to be sustained beyond the period which customarily is necessary to bring the operation to profitable status such continued losses, if not explainable, as due to customary business risks or reverses, may be indicative that the activity is not being engaged in for profit. If losses are sustained because of unforeseen or fortuitous circumstances which are beyond the control of the taxpayer, such as drought, disease, fire, theft, weather damages, other involuntary conversions, or depressed market conditions, such losses would not be an indication that the activity is not engaged in for profit. A series of years in which net income was realized would of course be strong evidence that the activity is engaged in for profit.

(7) *The amount of occasional profits, if any, which are earned.* The amount of

profits in relation to the amount of losses incurred, and in relation to the amount of the taxpayer's investment and the value of the assets used in the activity, may provide useful criteria in determining the taxpayer's intent. An occasional small profit from an activity generating large losses, or from an activity in which the taxpayer has made a large investment, would not generally be determinative that the activity is engaged in for profit. However, substantial profit, though only occasional, would generally be indicative that an activity is engaged in for profit, where the investment or losses are comparatively small. Moreover, an opportunity to earn a substantial ultimate profit in a highly speculative venture is ordinarily sufficient to indicate that the activity is engaged in for profit even though losses or only occasional small profits are actually generated.

(8) *The financial status of the taxpayer.* The fact that the taxpayer does not have substantial income or capital from sources other than the activity may indicate that an activity is engaged in for profit. Substantial income from sources other than the activity (particularly if the losses from the activity generate substantial tax benefits) may indicate that the activity is not engaged in for profit especially if there are personal or recreational elements involved.

(9) *Elements of personal pleasure or recreation.* The presence of personal motives in carrying on of an activity may indicate that the activity is not engaged in for profit, especially where there are recreational or personal elements involved. On the other hand, a profit motivation may be indicated where an activity lacks any appeal other than profit. It is not, however, necessary that an activity be engaged in with the exclusive intention of deriving a profit or with the intention of maximizing profits. For example, the availability of other investments which would yield a higher return, or which would be more likely to be profitable, is not evidence that an activity is not engaged in for profit. An activity will not be treated as not engaged in for profit merely because the taxpayer has purposes or motivations other than

solely to make a profit. Also, the fact that the taxpayer derives personal pleasure from engaging in the activity is not sufficient to cause the activity to be classified as not engaged in for profit if the activity is in fact engaged in for profit as evidenced by other factors whether or not listed in this paragraph.

(c) *Examples.* The provisions of this section may be illustrated by the following examples:

Example 1. The taxpayer inherited a farm from her husband in an area which was becoming largely residential, and is now nearly all so. The farm had never made a profit before the taxpayer inherited it, and the farm has since had substantial losses in each year. The decedent from whom the taxpayer inherited the farm was a stockbroker, and he also left the taxpayer substantial stock holdings which yield large income from dividends. The taxpayer lives on an area of the farm which is set aside exclusively for living purposes. A farm manager is employed to operate the farm, but modern methods are not used in operating the farm. The taxpayer was born and raised on a farm, and expresses a strong preference for living on a farm. The taxpayer's activity of farming, based on all the facts and circumstances, could be found not to be engaged in for profit.

Example 2. The taxpayer is a wealthy individual who is greatly interested in philosophy. During the past 30 years he has written and published at his own expense several pamphlets, and he has engaged in extensive lecturing activity, advocating and disseminating his ideas. He has made a profit from these activities in only occasional years, and the profits in those years were small in relation to the amounts of the losses in all other years. The taxpayer has very sizable income from securities (dividends and capital gains) which constitutes the principal source of his livelihood. The activity of lecturing, publishing pamphlets, and disseminating his ideas is not an activity engaged in by the taxpayer for profit.

Example 3. The taxpayer, very successful in the business of retailing soft drinks, raises dogs and horses. He began raising a particular breed of dogs many years ago in the belief that the breed was in danger of declining, and he has raised and sold the dogs in each year since. The taxpayer recently began raising and racing thoroughbred horses. The losses from the taxpayer's dog and horse activities have increased in magnitude over the years, and he has not made a profit on these operations during any of the last 15 years. The taxpayer generally sells the dogs only to friends, does not advertise the dogs for sale, and shows the dogs only infrequently. The taxpayer races his horses only

at the “prestige” tracks at which he combines his racing activities with social and recreational activities. The horse and dog operations are conducted at a large residential property on which the taxpayer also lives, which includes substantial living quarters and attractive recreational facilities for the taxpayer and his family. Since (i) the activity of raising dogs and horses and racing the horses is of a sporting and recreational nature, (ii) the taxpayer has substantial income from his business activities of retailing soft drinks, (iii) the horse and dog operations are not conducted in a businesslike manner, and (iv) such operations have a continuous record of losses, it could be determined that the horse and dog activities of the taxpayer are not engaged in for profit.

Example 4. The taxpayer inherited a farm of 65 acres from his parents when they died 6 years ago. The taxpayer moved to the farm from his house in a small nearby town, and he operates it in the same manner as his parents operated the farm before they died. The taxpayer is employed as a skilled machine operator in a nearby factory, for which he is paid approximately \$8,500 per year. The farm has not been profitable for the past 15 years because of rising costs of operating farms in general, and because of the decline in the price of the produce of this farm in particular. The taxpayer consults the local agent of the State agricultural service from time to time, and the suggestions of the agent have generally been followed. The manner in which the farm is operated by the taxpayer is substantially similar to the manner in which farms of similar size, and which grow similar crops in the area, are operated. Many of these other farms do not make profits. The taxpayer does much of the required labor around the farm himself, such as fixing fences, planting crops, etc. The activity of farming could be found, based on all the facts and circumstances, to be engaged in by the taxpayer for profit.

Example 5. A, an independent oil and gas operator, frequently engages in the activity of searching for oil on undeveloped and unexplored land which is not near proven fields. He does so in a manner substantially similar to that of others who engage in the same activity. The chances, based on the experience of A and others who engaged in this activity, are strong that A will not find a commercially profitable oil deposit when he drills on land not established geologically to be proven oil bearing land. However, on the rare occasions that these activities do result in discovering a well, the operator generally realizes a very large return from such activity. Thus, there is a small chance that A will make a large profit from his soil exploration activity. Under these circumstances, A is engaged in the activity of oil drilling for profit.

Example 6. C, a chemist, is employed by a large chemical company and is engaged in a

wide variety of basic research projects for his employer. Although he does no work for his employer with respect to the development of new plastics, he has always been interested in such development and has outfitted a workshop in his home at his own expense which he uses to experiment in the field. He has patented several developments at his own expense but as yet has realized no income from his inventions or from such patents. C conducts his research on a regular, systematic basis, incurs fees to secure consultation on his projects from time to time, and makes extensive efforts to “market” his developments. C has devoted substantial time and expense in an effort to develop a plastic sufficiently hard, durable, and malleable that it could be used in lieu of sheet steel in many major applications, such as automobile bodies. Although there may be only a small chance that C will invent new plastics, the return from any such development would be so large that it induces C to incur the costs of his experimental work. C is sufficiently qualified by his background that there is some reasonable basis for his experimental activities. C’s experimental work does not involve substantial personal or recreational aspects and is conducted in an effort to find practical applications for his work. Under these circumstances, C may be found to be engaged in the experimental activities for profit.

[T.D. 7198, 37 FR 13683, July 13, 1972]

§ 1.183-3 Election to postpone determination with respect to the presumption described in section 183(d). [Reserved]

§ 1.183-4 Taxable years affected.

The provisions of section 183 and the regulations thereunder shall apply only with respect to taxable years beginning after December 31, 1969. For provisions applicable to prior taxable years, see section 270 and § 1.270-1.

[T.D. 7198, 37 FR 13685, July 13, 1972]

§ 1.186-1 Recoveries of damages for antitrust violations, etc.

(a) *Allowance of deduction.* Under section 186, when a compensatory amount which is included in gross income is received or accrued during a taxable year for a compensable injury, a deduction is allowed in an amount equal to the lesser of (1) such compensatory amount, or (2) the unrecovered losses sustained as a result of such compensable injury.

(b) *Compensable injury*—(1) *In general.* For purposes of this section, the term

compensable injury means any of the injuries described in subparagraph (2), (3), or (4) of this paragraph.

(2) *Patent infringement.* An injury sustained as a result of an infringement of a patent issued by the United States (whether or not issued to the taxpayer or another person or persons) constitutes a compensable injury. The term *patent issued by the United States* means any patent issued or granted by the United States under the authority of the Commissioner of Patents pursuant to 35 U.S.C. 153.

(3) *Breach of contract or of fiduciary duty or relationship.* An injury sustained as a result of a breach of contract (including an injury sustained by a third party beneficiary) or a breach of fiduciary duty or relationship constitutes a compensable injury.

(4) *Injury suffered under certain antitrust law violations.* An injury sustained in business, or to property, by reason of any conduct forbidden in the antitrust laws for which a civil action may be brought under section 4 of the Act of October 15, 1914 (15 U.S.C. 15), commonly known as the Clayton Act, constitutes a compensable injury.

(c) *Compensatory amount*—(1) *In general.* For purposes of this section, the term, *compensatory amount* means any amount received or accrued during the taxable year as damages as a result of an award in, or in settlement of, a civil action for recovery for a compensable injury, reduced by any amounts paid or incurred in the taxable year in securing such award or settlement. The term *compensatory amount* includes only amounts compensating for actual economic injury. Thus, additional amounts representing punitive, exemplary, or treble damages are not included within the term. Where, for example, a taxpayer recovers treble damages under section 4 of the Clayton Act, only one-third of the recovery representing economic injury constitutes a compensatory amount. In the absence of any indication to the contrary, amounts received in settlement of an action shall be deemed to be a recovery for an actual economic injury except to the extent such settlement amounts exceed actual damages claimed by the taxpayer in such action.

(2) *Interest on a compensatory amount.* Interest attributable to a compensatory amount shall not be included within the term *compensatory amount*.

(3) *Settlement of a civil action for damages*—(i) *Necessity for an action.* The term *compensatory amount* does not include an amount received or accrued in settlement of a claim for a compensable injury if the amount is received or accrued prior to institution of an action. An action shall be considered as instituted upon completion of service of process, in accordance with the laws and rules of the court in which the action has been commenced or to which the action has been removed, upon all defendants who pay or incur an obligation to pay a compensatory amount.

(ii) *Specifications of the parties.* If an action for a compensable injury is settled, the specifications of the parties will generally determine compensatory amounts unless such specifications are not reasonably supported by the facts and circumstances of the case. For example, the parties may provide that the sum of \$1,000 represents actual damages sustained as the result of antitrust violations and that the total amount of the settlement after the trebling of damages is \$3,000. In such case, only the sum of \$1,000 would be a compensatory amount. In the absence of specifications of the parties, the complaint filed by the taxpayer may be considered in determining what portion of the amount of the settlement is a compensatory amount.

(4) *Amounts paid or incurred in securing the award or settlement.* For purposes of this section, the term *amounts paid or incurred in the taxable year in securing such award or settlement* shall include legal expenses such as attorney's fees, witness fees, accountant fees, and court costs. Expenses incurred in securing a recovery of both a compensatory amount and other amounts from the same action shall be allocated among such amounts in the ratio each of such amounts bears to the total recovery. For instance, where a taxpayer incurs attorney's fees and other expenses of \$3,000 in recovering \$10,000 as a compensatory amount, \$5,000 as a return of capital, and \$25,000 as punitive

damages from the same action, the taxpayer shall allocate \$750 of the expenses to the compensatory amount ($10,000/40,000 \times 3,000$), \$375 to the return of capital ($5,000/40,000 \times 3,000$), and \$1,875 to the punitive damages ($25,000/40,000 \times 3,000$).

(d) *Unrecovered losses*—(1) *In general.* For purposes of this section, the term *unrecovered losses sustained as a result of such compensable injury* means the sum of the amounts of the net operating losses for each taxable year in whole or in part within the injury period, to the extent that such net operating losses are attributable to such compensable injury, reduced by (i) the sum of any amounts of such net operating losses which were allowed as a net operating loss carryback or carryover for any prior taxable year under the provisions of section 172, and (ii) the sum of any amounts allowed as deductions under section 186 (a) and this section for all prior taxable years with respect to the same compensable injury. Accordingly, a deduction is permitted under section 186(a) and this section with respect to net operating losses whether or not the period for carryover under section 172 has expired.

(2) *Injury period.* For purposes of this section, the term *injury period* means (i) with respect to an infringement of a patent, the period during which the infringement of the patent continued, (ii) with respect to a breach of contract or breach of fiduciary duty or relationship, the period during which amounts would have been received or accrued but for such breach of contract or breach of fiduciary duty or relationship, or (iii) with respect to injuries sustained by reason of a violation of section 4 of the Clayton Act, the period during which such injuries were sustained. The injury period will be determined on the basis of the facts and circumstances of the taxpayer's situation. The injury period may include a period before and after the period covered by the civil action instituted.

(3) *Net operating losses attributable to compensable injuries.* A net operating loss for any taxable year shall be treated as attributable (whether actually attributable or not) to a compensable injury to the extent the compensable injury is sustained during the taxable

year. For purposes of determining the extent of the compensable injury sustained during a taxable year, a judgment for a compensable injury apportioning the amount of the recovery (not reduced by any amounts paid or incurred in securing such recovery) to specific taxable years within the injury period will be conclusive. If a judgment for a compensable injury does not apportion the amount of the recovery to specific taxable years within the injury period, the amount of the recovery will be prorated among the years within the injury period in the proportion that the net operating loss sustained in each of such years bear to the total net operating losses sustained for all such years. If an action is settled, the specifications of the parties will generally determine the apportionment of the amount of the recovery unless such specifications are not reasonably supported by the facts and circumstances of the case. In the absence of specifications of the parties, the amount of the recovery will be prorated among the years within the injury period in the proportion that the net operating loss sustained in each of such years bears to the total net operating losses sustained for all such years.

(4) *Application of losses attributable to a compensable injury.* If only a portion of a net operating loss for any taxable year is attributable to a compensable injury, such portion shall (in applying section 172 for purposes of this section) be considered to be a separate net operating loss for such year to be applied after the other portion of such net operating loss. If, for example, in the year of the compensable injury the net operating loss was \$1,000 and the amount of the compensable injury was \$600, the amount of \$400 not attributable to the compensable injury would be used first to offset profits in the carryover or carryback periods as prescribed by section 172. After the amount not attributable to the compensable injury is used to offset profits in other years, then the amount attributable to the compensable injury will be applied against profits in the carryover or carryback periods.

(e) *Effect on net operating loss carryovers*—(1) *In general.* Under section 186 (e) if for the taxable year in which

a compensatory amount is received or accrued any portion of the net operating loss carryovers to such year is attributable to the compensable injury for which such amount is received or accrued, such portion of the net operating loss carryovers must be reduced by the excess, if any, of (i) the amount computed under section 186(e)(1) with respect to such compensatory amount, over (ii) the amount computed under section 186(e)(2) with respect to such compensable injury.

(2) *Amount computed under section 186(e)(1).* The amount computed under section 186(e)(1) is equal to the deduction allowed under section 186(a) with respect to the compensatory amount received or accrued for the taxable year.

(3) *Amount computed under section 186(e)(2).* The amount computed under section 186(e)(2) is equal to that portion of the unrecovered losses sustained as a result of the compensable injury with respect to which, as of the beginning of the taxable year, the period for carryover under section 172 has expired without benefit to the taxpayer, but only to the extent that such portion of the unrecovered losses did not reduce an amount computed under section 186(e)(1) for any prior taxable year.

(4) *Increase in income under section 172(b)(2).* If there is a reduction for any taxable year under subparagraph (1) of this paragraph in the portion of the net operating loss carryovers to such year attributable to a compensable injury, then, solely for purposes of determining the amount of such portion which may be carried to subsequent taxable years, the income of such taxable year, as computed under section 172(b)(2), shall be increased by the amount of the reduction computed under subparagraph (1) of this paragraph, for such year.

(f) *Illustration.* The provisions of section 186 and this section may be illustrated by the following example:

Example. (i) As of the beginning of his taxable year 1969, taxpayer A has a net operating loss carryover from his taxable year 1966 of \$550 of which \$250 is attributable to a compensable injury. In addition, he has a net operating loss attributable to the compensable injury of \$150 with respect to which the period for carryover under section 172 has expired without benefit to the taxpayer. In

1969, he receives a \$100 compensatory amount with respect to that injury and he has \$75 in other income. Thus, A has gross income of \$175 and he is entitled to a \$100 deduction (the compensatory amount received) under section 186(a) and this section since this amount is less than the unrecovered losses sustained as a result of the compensable injury (\$250 + \$150 = \$400). No portion of the net operating loss carryover to the current taxable year attributable to the compensable injury is reduced under section 186(e) since the amount determined under section 186(e)(1) (\$100) does not exceed the amount determined under section 186(e)(2) (\$150). Therefore, A applies a net operating loss carryover of \$550 against his remaining income of \$75 and retains a net operating loss carryover of \$475 to following years of which amount \$250 remains attributable to the compensable injury. In addition, he retains \$50 of net operating losses attributable to the compensable injury with respect to which the period for carryover under section 172 has expired without benefit to the taxpayer.

(ii) In 1970, A receives a \$200 compensatory amount with respect to the same compensable injury and has \$75 of other income. Thus, A has gross income of \$275 and he is entitled to a \$200 deduction (the compensatory amount received) under section 186(a) and this section since this amount is less than the remaining unrecovered loss sustained as a result of the compensable injury (\$250 + \$50 = \$300). The net operating loss carryover to the current taxable year of \$250 attributable to the compensable injury is reduced under section 186(e) by \$150, which is the excess of the amount determined under section 186(e)(1) (\$200) over the amount determined under section 186(e)(2) (\$50). Therefore, A applies net operating loss carryovers of \$325 (\$225 not attributable to the compensable injury, + \$100 attributable to such injury) against his remaining income of \$75. A retains net operating loss carryovers of \$250 for following years, of which amount \$100 is attributable to the compensable injury. A has used all of his net operating losses attributable to the compensable injury with respect to which the period for carryover under section 172 has expired without benefit to the taxpayer.

(iii) In 1971, A receives a \$200 compensatory amount with respect to the same compensable injury and has \$75 of other income. Thus, A has gross income of \$275 and he is entitled to a \$100 deduction (the amount of unrecovered losses) under section 186(a) and this section since this amount is less than the compensatory amount received (\$200). The net operating loss carryover to the current taxable year of \$100 attributable to the compensable injury is reduced under section 186(e) by \$100, which is the excess of the amount determined under section 186(e)(1)

(\$100) over the amount determined under section 186(e)(2) (\$0). Therefore, A applies net operating loss carryovers of \$150 against his remaining income of \$175 (\$100 compensatory amount plus \$75 other income) which leaves \$25 taxable income. No net operating loss carryover remains for following years.

(g) *Effective date.* The provisions of this section are applicable as to compensatory amounts received or accrued in taxable years beginning after December 31, 1968, even though the compensable injury was sustained in taxable years beginning before such date.

[T.D. 7220, 37 FR 24744, Nov. 21, 1972]

§ 1.187-1 Amortization of certain coal mine safety equipment.

(a) *Allowance of deduction*—(1) *In general.* Under section 187(a), every person, at his election, shall be entitled to a deduction with respect to the amortization of the adjusted basis (for determining gain) of any certified coal mine safety equipment (as defined in § 1.187-2), based on a period of 60 months. Such 60-month period shall, at the election of the taxpayer, begin either with the month following the month in which such equipment was placed in service or with the succeeding taxable year. For rules as to making or discontinuing the election, see paragraphs (b) and (c) of this section. For the computation of the adjusted basis (for determining gain) of any certified coal mine safety equipment, see paragraph (b) of § 1.187-2.

(2) *Amount of deduction.* (i) Such amortization deduction shall be an amount, with respect to each month of such 60-month period which falls within the taxable year, equal to the adjusted basis for determining gain of the certified coal mine safety equipment at the end of such month divided by the number of months (including the month for which the deduction is computed) remaining in such 60-month period. Such adjusted basis at the end of any month shall be computed without regard to the amortization deduction for such month. The total amortization deduction with respect to any certified coal mine safety equipment for a particular taxable year is the sum of the amortization deductions allowable for each month of the 60-month period which falls within such taxable year.

(ii) If any certified coal mine safety equipment is sold or exchanged or otherwise disposed of during a particular month, then the amortization deduction (if any) allowable to the transferor in respect of that month shall be that portion of the amount to which such person would be entitled for a full month which the number of days in such month during which the equipment was held by such person bears to the total number of days in such month.

(3) *Effect on other deductions.* (i) The amortization deduction provided by section 187(a) with respect to any month shall be in lieu of the depreciation deduction which would otherwise be allowable with respect to such equipment under section 167 for such month.

(ii) If the adjusted basis of such coal mine safety equipment as computed under section 1011 for purposes other than the amortization deduction provided by section 187(a) is in excess of the adjusted basis, as computed under paragraph (b) of § 1.187-2, then such excess shall be recovered through depreciation deductions under the rules of section 167. See section 187(e), and paragraph (b)(2) of § 1.187-2.

(iii) See section 179 and paragraph (e)(1)(ii) of § 1.179-1 for additional first-year depreciation in respect of certified coal mine safety equipment.

(4) *Special rules.* (i) If the assets of a corporation which has elected to take the amortization deduction under section 187(a) are acquired by another corporation in a transaction to which section 381 (relating to carryovers in certain corporate acquisitions) applies, the acquiring corporation is to be treated as if it were the transferor or distributor corporation for purposes of this section.

(ii) For the right of estates and trusts to take the amortization deduction provided by section 187 see section 642(f) and § 1.642(f)-1.

(iii) For the allowance of the amortization deduction in the case of coal mine safety equipment of partnerships see section 703 and § 1.703-1.

(iv) In the case of certified coal mine safety equipment held by one person for life with the remainder to another person, the amortization deduction

under section 187(a) shall be computed as if the life tenant were the absolute owner of the property and shall be allowable to the life tenant during his life.

(5) *Effective date.* The provisions of this paragraph shall apply to taxable years ending after December 31, 1969.

(6) *Meaning of terms.* Except as otherwise provided in § 1.187-2, all terms used in section 187 and the regulations thereunder shall have the meaning provided by this section and § 1.187-2.

(b) *Election of amortization—(1) In general.* Under section 187(b), an election by the taxpayer to make amortization deductions with respect to any certified coal mine safety equipment and to begin the 60-month amortization period shall be made by a statement to that effect attached to his return for the taxable year in which falls the first month of the 60-month amortization period so elected. Such statement shall include the following information:

(i) A description clearly identifying each piece of certified coal mine safety equipment for which an amortization deduction is claimed;

(ii) The date on which such equipment was “placed in service” (see paragraph (a)(2)(i) of § 1.187-2);

(iii) The date on which the amortization period began;

(iv) The total costs paid or incurred in the acquisition and installation of such equipment;

(v) A computation showing the adjusted basis (as defined in paragraph (b) of § 1.187-2) of the equipment as of the beginning of the amortization period;

(vi) In the case of electric face equipment which is newly acquired by the taxpayer, a statement that the equipment has been certified by the Secretary of the Interior or the Director of the Bureau of Mines as being permissible within the meaning of section 305(a)(2) of the Federal Coal Mine Health and Safety Act of 1969; and

(vii) In the case of property placed in service in connection with used electric face equipment (within the meaning of paragraph (a)(2)(ii) of § 1.187-2), a statement that such property has resulted in the used electric face equipment becoming permissible and a copy of the notification that such property is permissible.

(2) *Late certification.* If, 90 days before the date on which the return described in this paragraph is due, a piece of coal mine safety equipment has not been certified as permissible by the Secretary of the Interior or the Director of the Bureau of Mines, then the election may be made by a statement in an amended income tax return for the taxable year in which falls the first month of the 60-month amortization period so elected. The statement and amended return in such case must be filed not later than 90 days after the date the equipment is certified as permissible by the Secretary of the Interior or the Director of the Bureau of Mines. Amended income tax returns or claims for credit or refund should also be filed at this time for other taxable years which are within the amortization period and which are subsequent to the taxable year for which the election is made. Nothing in this paragraph shall be construed as extending the time specified in section 6511 within which a claim for credit or refund may be filed.

(3) *Other requirements and considerations.* No method of making the election provided for in section 187(a) other than that prescribed in this section shall be permitted on or after August 11, 1971. A taxpayer who does not elect in the manner prescribed in this section to take amortization deductions with respect to certified coal mine safety equipment shall not be entitled to such deductions. In the case of a taxpayer who has elected prior to August 11, 1971 the statement required by subparagraph (1) of this paragraph shall be attached to his income tax return for his taxable year in which August 11, 1971 occurs.

(c) *Election to discontinue or revoke amortization—(1) Election to discontinue.*

(i) Under section 187(c), if a taxpayer has elected to take the amortization deduction provided by section 187(a) with respect to any certified coal mine safety equipment, he may, after such election and prior to the expiration of the 60-month amortization period, elect to discontinue the amortization deduction for the remainder of the 60-month period for such equipment.

(ii) An election to discontinue the amortization deduction shall be made by a statement in writing filed with

the District Director or with the director of the Internal Revenue Service center with whom the return of the taxpayer is required to be filed for its taxable year in which falls the first month for which the election terminates. In addition, a copy of such statement shall be attached to the taxpayer's income tax return filed for such taxable year. Such statement shall specify the month as of the beginning of which the taxpayer elects to discontinue such deductions, and shall be filed before the beginning of the month specified therein. In addition, such notice shall contain a description clearly identifying the certified coal mine safety equipment with respect to which the taxpayer elects to discontinue the amortization deduction. If the taxpayer so elects to discontinue the amortization deduction, he shall not be entitled to any further amortization deductions under section 187 with respect to such equipment.

(2) *Revocation of elections made prior to August 11, 1971.* If before August 11, 1971 an election under section 187(a) has been made, consent is hereby given for the taxpayer to revoke such election without the consent of the Commissioner. Such election may be revoked by filing a notice of revocation on or before November 9, 1971. Such notice shall be in the form and shall be filed in the manner required by subparagraph (1)(ii) of this paragraph. If such revocation is for a period which falls within one or more taxable years for which an income tax return has been filed, an amended income tax return shall be filed for any taxable year in which a deduction was taken under section 187 on or before November 9, 1971.

(3) *Depreciation subsequent to discontinuance or in the case of revocation of amortization.* (i) A taxpayer who elects in the manner prescribed under subparagraph (1) of this section to discontinue amortization deductions under section 187(a) or under subparagraph (2) of this paragraph to revoke an election made prior to August 11, 1971 with respect to an item of certified coal mine safety equipment may be entitled to a deduction for depreciation with respect to such equipment. See section 167 and the regulations thereunder.

(ii) In the case of an election to discontinue an amortization deduction under section 187, the deduction for depreciation shall be computed beginning with the first month as to which such amortization deduction is not applicable, and shall be based upon the adjusted basis (see section 1011 and the regulations thereunder) of the property as of the beginning of such month. Such depreciation deduction shall be based upon the remaining portion of the period authorized under section 167 for the facility, as determined as of the first day of the first month as of which the amortization deduction is not applicable.

(iii) In the case of a revocation of an election under section 187 referred to in paragraph (c)(2) of this section the deduction for depreciation shall begin as of the time such depreciation deduction would have been taken but for the election under section 187. See subparagraph (2) of this section for rules as to filing amended returns for years for which amortization deductions have been taken.

(d) *Examples.* This section may be illustrated by the following examples:

Example 1. On September 30, 1970, the X Corporation, which uses the calendar year as its taxable year, places in service a piece of coal mine safety equipment required as a result of the Federal Coal Mine Health and Safety Act of 1969 which is certified as indicated in paragraph (a) of § 1.187-2. The cost of the equipment is \$120,000. On its income tax return filed for 1970, the corporation elects to take the amortization deductions allowed by section 187(a) with respect to the equipment and to begin the 60-month amortization period with October 1970, the month following the month in which it was placed in service. The adjusted basis at the end of October 1970 (determined without regard to the amortization deduction allowed by section 187(a) for that month) is \$120,000. The allowable amortization deduction with respect to such equipment for the taxable year 1970 is \$6,000, computed as follows:

Monthly amortization deductions:		
October: \$120,000 divided by 60		\$2,000
November: \$118,000 (\$120,000 minus \$2,000) divided by 59		2,000
December: \$116,000 (\$118,000 minus \$2,000) divided by 58		2,000
Total amortization deduction for 1970	6,000

Example 2. Assume the same facts as in Example 1. Assume further that on May 20, 1972, X properly files notice of its election to discontinue the amortization deductions with

§ 1.187-2

26 CFR Ch. I (4-1-17 Edition)

the month of June 1972. The adjusted basis of the equipment as of June 1, 1972 (assuming no capital additions or improvements) is \$80,000, computed as follows: Yearly amortization deductions computed in accordance with *Example 1*:

1970	\$6,000
1971	24,000
1972 (for the first 5 months)	10,000
Total amortization deductions for 20 months	40,000
Adjusted basis at beginning of amortization period	120,000
Less: Amortization deductions	40,000
Adjusted basis as of June 1, 1972	80,000

Beginning as of June 1, 1972, the deduction for depreciation under section 167 is allowable with respect to the property on its adjusted basis of \$80,000.

Example 3. Assume the same facts as in *Example 1*, except that on its income tax return filed in 1970, X does not elect to take amortization deductions allowed by section 187(a) but that on its income tax return filed for 1971 X elects to begin the amortization period as of January 1, 1971, the taxable year succeeding the taxable year the equipment was placed in service. Assume further that the only adjustment to basis for the period October 1, 1970, to January 1, 1971, is \$3,000 for depreciation (the amount allowable, of which \$2,000 is for additional first year depreciation under section 179) for the last 3 months of 1970. The adjusted basis (for determining gain) for purposes of section 187 as of that date is \$120,000 less \$3,000 or \$117,000.

[T.D. 7137, 36 FR 14733, Aug. 11, 1971; 36 FR 16656, Aug. 25, 1971]

§ 1.187-2 Definitions.

(a) *Certified coal mine safety equipment*—(1) *In general*—(i) The term *certified coal mine safety equipment* means property which:

(a) Is electric face equipment (within the meaning of section 305 of the Federal Coal Mine Health and Safety Act of 1969) required in order to meet the requirements of section 305(a)(2) of such Act,

(b) The Secretary of the Interior or the Director of the Bureau of Mines certifies is permissible within the meaning of such section 305(a)(2), and

(c) Is placed in service (as defined in subparagraph (2)(i) of this paragraph) before January 1, 1975.

(ii) In addition, property placed in service in connection with any used electric face equipment which the Secretary of the Interior or the Director of

the Bureau of Mines certifies makes such used electric face equipment permissible shall be treated as a separate item of certified coal mine safety equipment. See subparagraph (2)(ii) of this paragraph.

(2) *Meaning of terms.* (i) For purposes of subparagraph (1)(i)(c) of this paragraph, the term *placed in service* shall have the meaning assigned to such term in paragraph (d) of § 1.46-3.

(ii) For purposes of subparagraph (1)(ii) of this paragraph, the term *property* includes those costs of converting existing nonpermissible electric face equipment to a permissible condition which are chargeable to capital account under the principles of § 1.1016-2. Property is considered to be placed in service in connection with used electric face equipment (which was not permissible) if its use causes such electric face equipment to be certified as permissible.

(b) *Adjusted basis*—(1) *In general.* The basis upon which the deduction with respect to amortization allowed by section 187 is to be computed with respect to any item of certified coal mine safety equipment shall be the adjusted basis provided in section 1011 for the purpose of determining gain on the sale or other disposition of such property (see part II (section 1011 and following) subchapter O, chapter 1 of the Code) computed as of the first day of the amortization period. For an example showing the determination of the adjusted basis referred to in the preceding sentence in the case where the amortization period begins with the taxable year succeeding the taxable year in which the property is placed in service see *Example 3* in paragraph (d) of § 1.187-1.

(2) *Capital additions.* The adjusted basis of any certified coal mine safety equipment, with respect to which an election is made under section 187(b), shall not be increased, for purposes of section 187, for amounts chargeable to the capital account for additions or improvements after the amortization period has begun. However, nothing contained in this section or § 1.187-1 shall be deemed to disallow a deduction for depreciation for such capital additions. Thus, for example, if a taxpayer places a piece of certified coal mine safety

equipment in service in 1971 and in 1972 makes improvements to it the expenditures for which are chargeable to the capital account, such improvements shall not increase the adjusted basis of the equipment for purposes of computing the amortization deduction allowed by section 187(a). However, the depreciation deduction provided by section 167 shall be allowed with respect to such improvements in accordance with the principles of section 167.

[T.D. 7137, 36 FR 14734, Aug. 11, 1971; 36 FR 19251, Oct. 1, 1971]

§ 1.188-1 Amortization of certain expenditures for qualified on-the-job training and child care facilities.

(a) *Allowance of deduction*—(1) *In general.* Under section 188, at the election of the taxpayer, any eligible expenditure (as defined in paragraph (d)(1) of this section) made by such taxpayer to acquire, construct, reconstruct, or rehabilitate section 188 property (as defined in paragraph (d)(2) of this section) shall be allowable as a deduction ratably over a period of 60 months. Such 60-month period shall begin with the month in which such property is placed in service. For rules for making the election, see paragraph (b) of this section. For rules relating to the termination of an election, see paragraph (c) of this section.

(2) *Amount of deduction*—(i) *In general.* For each eligible expenditure attributable to an item of section 188 property the amortization deduction shall be an amount, with respect to each month of the 60-month amortization period which falls within the taxable year, equal to the eligible expenditure divided by 60. The total amortization deduction with respect to each item of section 188 property for a particular taxable year is the sum of the amortization deductions allowable for each month of the 60-month period which falls within such taxable year. The total amortization deduction under section 188 for a particular taxable year is the sum of the amortization deductions allowable with respect to each item of section 188 property for that taxable year.

(ii) *Separate amortization period for each expenditure.* Each eligible expenditure attributable to an item of section

188 property to which an election relates shall be amortized over a 60-month period beginning with the month in which the item of section 188 property is placed in service. Thus, if a taxpayer makes an eligible expenditure for an addition to, or improvement of, section 188 property, such expenditure must be amortized over a separate 60-month period beginning with the month in which the section 188 property is placed in service.

(iii) *Separate items.* The determination of what constitutes a separate item of section 188 property is to be made on the basis of the facts and circumstances of each individual case. Additions or improvements to an existing item of section 188 property are treated as a separate item of section 188 property. In general, each item of personal property is a separate item of property and each building, or separate element or structural component thereof, is a separate item of property. For purposes of subdivisions (i) and (ii) of this subparagraph, two or more items of property may be treated as a single item of property if such items (A) are placed in service within the same month of the taxable year, (B) have same estimated useful life, and (C) are to be used in a functionally related manner in the operation of a qualified on-the-job training or child care facility or are integrally related facilities (described in paragraph (d) (3) or (4) of this section).

(iv) *Disposition of property or termination of election.* If an item of section 188 property is sold or exchanged or otherwise disposed of (or if the item of property ceases to be used as section 188 property by the taxpayer) during a particular month, then the amortization deduction (if any) allowable to the taxpayer in respect of that item for that month shall be an amount which bears the same ratio to the amount to which the taxpayer would be entitled for a full month as the number of days in such month during which the property was held by him (or used by him as section 188 property) bears to the total number of days in such month.

(3) *Effect on other deductions.* The amortization deduction provided by section 188(a) with respect to any month

shall be in lieu of any depreciation deduction which would otherwise be allowable under sections 167 or 179 with respect to that portion of the adjusted basis of the property attributable to an adjustment under section 1016(a)(1) made on account of an eligible expenditure.

(4) *Depreciation with respect to property ceasing to be used as section 188 property.* A taxpayer is entitled to a deduction for the depreciation (to the extent allowable under section 167) of property with respect to which the election under section 188 is terminated under the provisions of paragraph (c) of this section. The deduction for depreciation shall begin with the date of such termination and shall be computed on the adjusted basis of the property as of such date. The depreciation deduction shall be based upon the estimated remaining useful life and salvage value authorized under section 167 for the property as of the termination date.

(5) *Investment credit not to be allowed.* Any property with respect to which an election has been made under section 188(a) shall not be treated as section 38 property within the meaning of section 48(a).

(6) *Special rules—(i) Life estates.* In the case of section 188 property held by one person for life with the remainder to another person, the amortization deduction under section 188(a) shall be computed as if the life tenant were the absolute owner of the property and shall be allowable to the life tenant during his life.

(ii) *Certain corporate acquisitions.* If the assets of a corporation which has elected to take the amortization deduction under section 188(a) are acquired by another corporation in a transaction to which section 381(a) (relating to carryovers in certain corporate acquisitions) applies, the acquiring corporation is to be treated as if it were the distributor or transferor corporation for purposes of this section.

(iii) *Estates and trusts.* For the allowance of the amortization deduction in the case of estates and trusts, see section 642(f) and § 1.642(f)-(1).

(iv) *Partnerships.* For the allowance of the amortization deduction in the case

of partnerships, see section 703 and § 1.703-1.

(b) *Time and manner of making election—(1) In general.* Except as otherwise provided in subparagraph (2) of this paragraph, an election to amortize an eligible expenditure under section 188 shall be made by attaching, to the taxpayer's income tax return for the taxable period for which the deduction is first allowable to such taxpayer, a written statement containing:

(i) A description clearly identifying each item of property (or two or more items of property treated as a single item) forming a part of a qualified on-the-job training or child care facility to which the election relates, e.g., building, classroom equipment, etc.;

(ii) The date on which the eligible expenditure was made for such item of property (or the period during which eligible expenditures were made for two or more items of property treated as a single item of property);

(iii) The date on which such item of property was "placed in service" (see paragraph (d)(5) of this section);

(iv) The amount of the eligible expenditure of such item of property (or the total amount of expenditures for two or more items of property treated as a single item); and

(v) The annual amortization deduction claimed with respect to such item of property.

If the taxpayer does not file a timely return (taking into account extensions of the time for filing) for the taxable year for which the election is first to be made, the election shall be filed at the time the taxpayer files his first return for that year. The election may be made with an amended return only if such amended return is filed no later than the time prescribed by law (including extensions thereof) for filing the return for the taxable year of election.

(2) *Special rule.* With respect to any return filed before (90 days after the date on which final regulations are filed with the Office of the Federal Register), the election to amortize an eligible expenditure for section 188 property shall be made by a statement on, or attached to, the income tax return (or an amended return) for the

taxable year, indicating that an election is being made under section 188 and setting forth information to identify the election and the facility or facilities to which it applies. An election made under the provisions of this subparagraph, must be made not later than (i) the time, including extensions thereof, prescribed by law for filing the income tax return for the first taxable year for which the election is being made or (ii) before (90 days after the date on which final regulations under section 188 are filed with the Office of the Federal Register), whichever is later. Nothing in this subparagraph shall be construed as extending the time specified in section 6511 within which a claim for credit or refund may be filed.

(3) *No other method of making election.* No method for making the election under section 188(a) other than the method prescribed in this paragraph shall be permitted. If an election to amortize section 188 property is not made within the time and in the manner prescribed in this paragraph, no election may be made (by the filing of an amended return or in any other manner) with respect to such section 188 property.

(4) *Effect of election.* An election once made may not be revoked by a taxpayer with respect to any item of section 188 property to which the election relates. The election of the amortization deducted for an item of section 188 property shall not affect the taxpayer's right to elect or not to elect the amortization deduction as to other items of section 188 property even though the items are part of the same facility. For rules relating to the termination of an election other than by revocation by the taxpayer, see paragraph (c) of this section.

(c) *Termination of election.* If the specific use of an item of section 188 property in connection with a qualified on-the-job training or child care facility is discontinued, the election made with respect to that item of property shall be terminated. The termination shall be effective with respect to such item of property as of the earliest date on which the taxpayer's specific use of the item is no longer in connection with the operation of a qualified on-the-job

training or child care facility. If a facility ceases to meet the applicable requirements of paragraph (d)(3) of this section, relating to qualified on-the-job training facilities, or paragraph (d)(4) of this section, relating to qualified child care facilities, the election or elections made with respect to the items of section 188 property comprising such facility shall be terminated. The termination shall be effective with respect to such items of property as of the earliest date on which the facility is no longer qualified under the applicable rules. For rules relating to depreciation with respect to property ceasing to be used as section 188 property, see paragraph (a)(4) of this section.

(d) *Definitions and special requirements*—(1) *Eligible expenditure.* For purposes of this section, the term *eligible expenditure* means an expenditure:

(i) Chargeable to capital account;

(ii) Made after December 31, 1971, and before January 1, 1982, to acquire, construct, reconstruct, or rehabilitate section 188 property which is a qualified child care center facility (or, made after December 31, 1971, and before January 1, 1977, to acquire, construct, reconstruct, or rehabilitate section 188 property which is a qualified on-the-job training facility); and

(iii) For which, but only to the extent that, a grant or other reimbursement excludable from gross income is not, directly or indirectly, payable to, or for the benefit of, the taxpayer with respect to such expenditure under any job training or child care program established or funded by the United States, a State, or any instrumentality of the foregoing, or the District of Columbia.

For purposes of this subparagraph, an expenditure is considered to be made when actually paid by a taxpayer who computes his taxable income under the cash receipts and disbursements method or when the obligation therefore is incurred by a taxpayer who computes his taxable income under the accrual method. See subparagraph (5) of this paragraph for the determination of when section 188 property is placed in service for purposes of beginning the 60-month amortization period.

(2) *Section 188 property.* Section 188 property is tangible property which is:

(i) Of a character subject to depreciation;

(ii) Located within the United States; and

(iii) Specifically used as an integral part of a qualified on-the-job training facility (as defined in subparagraph (3) of this paragraph) or as an integral part of a qualified child care center facility (as defined in subparagraph (4) of this paragraph.)

(3) *Qualified on-the-job training facility.* A *qualified on-the-job training facility* is a facility specifically used by an employer as an on-the-job training facility in connection with an occupational training program for his employees or prospective employees provided that with respect to such program:

(i) All of the following requirements are met:

(A) There is offered at the training facility a systematic program comprised of work and training and related instruction;

(B) The occupation, together with a listing of its basic skills, and the estimated schedule of time for accomplishments of such skills, are clearly identified;

(C) The content of the training is adequate to qualify the employee, or prospective employee, for the occupation for which the individual is being trained;

(D) The skills are to be imparted by competent instructors;

(E) Upon completion of the training, placement is to be based primarily upon the skills learned through the training program;

(F) The period of training is not less than the time necessary to acquire minimum job skills nor longer than the usual period of training for the same occupation; and

(G) There is reasonable certainty that employment will be available with the employer in the occupation for which the training is provided; or

(ii) The employer has entered into an agreement with the United States, or a State agency, under the provisions of the Manpower Development and Training Act of 1962, as amended and supplemented (42 U.S.C. 2571 *et seq.*), the Economic Opportunity Act of 1964, as

amended and supplemented (42 U.S.C. 2701 *et seq.*), section 432(b)(1) of the Social Security Act, as amended and supplemented (42 U.S.C. 632(b)(1)), the National Apprenticeship Act of 1937, as amended and supplemented (29 U.S.C. 50 *et seq.*), or other similar Federal statute.

A *facility* consists of a building or any portion of a building and its structural components in which training is conducted, and equipment or other personal property necessary to teach a trainee the basic skills required for satisfactory performance in the occupation for which the training is being given. A facility also includes a building or portion of a building which provides essential services for trainees during the course of the training program, such as a dormitory or dining hall. For purposes of this section, a facility is considered to be specifically used as an on-the-job training facility if such facility is actually used for such purposes and is not used in a significant manner for any purpose other than job training or the furnishing of essential services for trainees such as meals and lodging. For purposes of the preceding sentence if a facility is used 20 percent of the time for a purpose other than on-the-job training or providing trainees with essential services, it would not satisfy the significant use test. Thus, a production facility is not an on-the-job training facility for purposes of section 188 simply because new employees receive training on the machines they will be using as fully productive employees. A facility is considered to be used by an employer in connection with an occupational training program for his employees or prospective employees if at least 80 percent of the trainees participating in the program are employees or prospective employees. For purposes of this section, a prospective employee is a trainee with respect to whom it is reasonably expected that the trainee will be employed by the employer upon successful completion of the training program.

(4) *Qualified child care facility.* A *qualified child care facility* is a facility which is:

(i) Particularly suited to provide child care services and specifically used by

Internal Revenue Service, Treasury

§ 1.190-1

an employer to provide such services primarily for his employees' children;

(ii) Operated as a licensed or approved facility under applicable local law, if any, relating to the day care of children; and

(iii) If directly or indirectly funded to any extent by the United States, established and operated in compliance with the requirements contained in Part 71 of title 45 of the Code of Federal Regulations, relating to Federal Interagency Day Care Requirements. For purposes of this subparagraph, a *facility* consists of the buildings, or portions or structural components thereof, in which children receive such personal care protection, and supervision in the absence of their parents as may be required to meet their needs, and the equipment or other personal property necessary to render such services. Whether or not a facility, or any component property thereof, is particularly suited for the needs of the children being cared for depends upon the facts and circumstances of each individual case. Generally, a building and its structural component, or a room therein, and equipment are particularly suitable for furnishing child care service if they are designed or adapted for such use or satisfy requirements under local law for such use as a condition to granting a license for the operation of the facility. For example, such property includes special kitchen or toilet facilities connected to the building or room in which the services are rendered and equipment such as children's desks, chairs, and play or instructional equipment. Such property would not include general purpose rooms used for many purposes (for example, a room used as an employee recreation center during the evening) nor would it include a room or a part of a room which is simply screened off for use by children during the day. For purposes of this section, a facility is considered to be specifically used as a child care facility if such facility is actually used for such purpose and is not used in a significant manner for any purpose other than child care. For purposes of this subparagraph, a child care facility is used by an employer to provide child care services primarily for children of employees of the employer if, for any

month, no more than 20 percent of the average daily enrolled or attending children for such month are other than children of such employees.

(5) *Placed in service.* For purposes of section 188 and this section, the term *placed in service* shall have the meaning assigned to such term in paragraph (d) of §1.46-3.

(6) *Employees.* For purposes of section 188 and this section, the terms *employees* and *prospective employees* include employees and prospective employees of a member of a controlled group of corporations (within the meaning of section 1563) of which the taxpayer is a member.

(e) *Effective date.* The provisions of section 188 and this section apply to taxable years ending after December 31, 1971.

[T.D. 7599, 44 FR 14549, Mar. 13, 1979]

§ 1.190-1 Expenditures to remove architectural and transportation barriers to the handicapped and elderly.

(a) *In general.* Under section 190 of the Internal Revenue Code of 1954, a taxpayer may elect, in the manner provided in §1.190-3 of this chapter, to deduct certain amounts paid or incurred by him in any taxable year beginning after December 31, 1976, and before January 1, 1980, for qualified architectural and transportation barrier removal expenses (as defined in §1.190-2(b) of this chapter). In the case of a partnership, the election shall be made by the partnership. The election applies to expenditures paid or incurred during the taxable year which (but for the election) are chargeable to capital account.

(b) *Limitation.* The maximum deduction for a taxpayer (including an affiliated group of corporations filing a consolidated return) for any taxable year is \$25,000. The \$25,000 limitation applies to a partnership and to each partner. Expenditures paid or incurred in a taxable year in excess of the amount deductible under section 190 for such taxable year are capital expenditures and are adjustments to basis under section 1016(a). A partner must combine his distributive share of the partnership's deductible expenditures (after application of the \$25,000 limitation at the partnership level) with that partner's

distributive share of deductible expenditures from any other partnership plus that partner's own section 190 expenditures, if any (if he makes the election with respect to his own expenditures), and apply the partner's \$25,000 limitation to the combined total to determine the aggregate amount deductible by that partner. In so doing, the partner may allocate the partner's \$25,000 limitation among the partner's own section 190 expenditures and the partner's distributive share of partnership deductible expenditures in any manner. If such allocation results in all or a portion of the partner's distributive share of a partnership's deductible expenditures not being an allowable deduction by the partner, the partnership may capitalize such unallowable portion by an appropriate adjustment to the basis of the relevant partnership property under section 1016. For purposes of adjustments to the basis of properties held by a partnership, however, it shall be presumed that each partner's distributive share of partnership deductible expenditures (after application of the \$25,000 limitation at the partnership level) was allowable in full to the partner. This presumption can be rebutted only by clear and convincing evidence that all or any portion of a partner's distributive share of the partnership section 190 deduction was not allowable as a deduction to the partner because it exceeded that partner's \$25,000 limitation as allocated by him. For example, suppose for 1978 A's distributive share of the ABC partnership's deductible section 190 expenditures (after application of the \$25,000 limitation at the partnership level) is \$15,000. A also made section 190 expenditures of \$20,000 in 1978 which he elects to deduct. A allocates \$10,000 of his \$25,000 limitation to his distributive share of the ABC expenditures and \$15,000 to his own expenditures. A may capitalize the excess \$5,000 of his own expenditures. In addition, if ABC obtains from A evidence which meets the requisite burden of proof, it may capitalize the \$5,000 of A's distributive share which is not allowable as a deduction to A.

[T.D. 7634, 44 FR 43270, July 24, 1979]

§ 1.190-2 Definitions.

For purposes of section 190 and the regulations thereunder:

(a) *Architectural and transportation barrier removal expenses.* The term *architectural and transportation barrier removal expenses* means expenditures for the purpose of making any facility, or public transportation vehicle, owned or leased by the taxpayer for use in connection with his trade or business more accessible to, or usable by, handicapped individuals or elderly individuals. For purposes of this section:

(1) The term *facility* means all or any portion of buildings, structures, equipment, roads, walks, parking lots, or similar real or personal property.

(2) The term *public transportation vehicle* means a vehicle, such as a bus, a railroad car, or other conveyance, which provides to the public general or special transportation service (including such service rendered to the customers of a taxpayer who is not in the trade or business of rendering transportation services).

(3) The term *handicapped individual* means any individual who has:

(i) A physical or mental disability (including, but not limited to, blindness or deafness) which for such individual constitutes or results in a functional limitation to employment, or

(ii) A physical or mental impairment (including, but not limited to, a sight or hearing impairment) which substantially limits one or more of such individual's major life activities, such as performing manual tasks, walking, speaking, breathing, learning, or working.

(4) The term *elderly individual* means an individual age 65 or over.

(b) *Qualified architectural and transportation barrier removal expense*—(1) *In general.* The term *qualified architectural and transportation barrier removal expense* means an architectural or transportation barrier removal expense (as defined in paragraph (a) of this section) with respect to which the taxpayer establishes, to the satisfaction of the Commissioner or his delegate, that the resulting removal of any such barrier conforms a facility or public transportation vehicle to all the requirements set forth in one or more of paragraphs (b) (2) through (22) of this section or in

one or more of the subdivisions of paragraph (b) (20) or (21). Such term includes only expenses specifically attributable to the removal of an existing architectural or transportation barrier. It does not include any part of any expense paid or incurred in connection with the construction or comprehensive renovation of a facility or public transportation vehicle or the normal replacement of depreciable property. Such term may include expenses of construction, as, for example, the construction of a ramp to remove the barrier posed for wheelchair users by steps. Major portions of the standards set forth in this paragraph were adapted from "American National Standard Specifications for Making Buildings and Facilities Accessible to, and Usable by, the Physically Handicapped" (1971), the copyright for which is held by the American National Standards Institute, 1430 Broadway, New York, New York 10018.

(2) *Grading.* The grading of ground, even contrary to existing topography, shall attain a level with a normal entrance to make a facility accessible to individuals with physical disabilities.

(3) *Walks.* (i) A public walk shall be at least 48 inches wide and shall have a gradient not greater than 5 percent. A walk of maximum or near maximum grade and of considerable length shall have level areas at regular intervals. A walk or driveway shall have a nonslip surface.

(ii) A walk shall be of a continuing common surface and shall not be interrupted by steps or abrupt changes in level.

(iii) Where a walk crosses a walk, a driveway, or a parking lot, they shall blend to a common level. However, the preceding sentence does not require the elimination of those curbs which are a safety feature for the handicapped, particularly the blind.

(iv) An inclined walk shall have a level platform at the top and at the bottom. If a door swings out onto the platform toward the walk, such platform shall be at least 5 feet deep and 5 feet wide. If a door does not swing onto the platform or toward the walk, such platform shall be at least 3 feet deep and 5 feet wide. A platform shall ex-

tend at least 1 foot beyond the strike jamb side of any doorway.

(4) *Parking lots.* (i) At least one parking space that is accessible and approximate to a facility shall be set aside and identified for use by the handicapped.

(ii) A parking space shall be open on one side to allow room for individuals in wheelchairs and individuals on braces or crutches to get in and out of an automobile onto a level surface which is suitable for wheeling and walking.

(iii) A parking space for the handicapped, when placed between two conventional diagonal or head-on parking spaces, shall be at least 12 feet wide.

(iv) A parking space shall be positioned so that individuals in wheelchairs and individuals on braces or crutches need not wheel or walk behind parked cars.

(5) *Ramps.* (i) A ramp shall not have a slope greater than 1 inch rise in 12 inches.

(ii) A ramp shall have at least one handrail that is 32 inches in height, measured from the surface of the ramp, that is smooth, and that extends 1 foot beyond the top and bottom of the ramp. However, the preceding sentence does not require a handrail extension which is itself a hazard.

(iii) A ramp shall have a nonslip surface.

(iv) A ramp shall have a level platform at the top and at the bottom. If a door swings out onto the platform or toward the ramp, such platform shall be at least 5 feet deep and 5 feet wide. If a door does not swing onto the platform or toward the ramp, such platform shall be at least 3 feet deep and 5 feet wide. A platform shall extend at least 1 foot beyond the strike jamb side of any doorway.

(v) A ramp shall have level platforms at not more than 30-foot intervals and at any turn.

(vi) A curb ramp shall be provided at an intersection. The curb ramp shall not be less than 4 feet wide; it shall not have a slope greater than 1 inch rise in 12 inches. The transition between the two surfaces shall be smooth. A curb ramp shall have a nonslip surface.

(6) *Entrances.* A building shall have at least one primary entrance which is usable by individuals in wheelchairs and which is on a level accessible to an elevator.

(7) *Doors and doorways.* (i) A door shall have a clear opening of no less than 32 inches and shall be operable by a single effort.

(ii) The floor on the inside and outside of a doorway shall be level for a distance of at least 5 feet from the door in the direction the door swings and shall extend at least 1 foot beyond the strike jamb side of the doorway.

(iii) There shall be no sharp inclines or abrupt changes in level at a doorway. The threshold shall be flush with the floor. The door closer shall be selected, placed, and set so as not to impair the use of the door by the handicapped.

(8) *Stairs.* (i) Stairsteps shall have round nosing of between 1 and 1½ inch radius.

(ii) Stairs shall have a handrail 32 inches high as measured from the tread at the face of the riser.

(iii) Stairs shall have at least one handrail that extends at least 18 inches beyond the top step and beyond the bottom step. The preceding sentence does not require a handrail extension which is itself a hazard.

(iv) Steps shall have risers which do not exceed 7 inches.

(9) *Floors.* (i) Floors shall have a non-slip surface.

(ii) Floors on a given story of a building shall be of a common level or shall be connected by a ramp in accordance with subparagraph (5) of this paragraph.

(10) *Toilet rooms.* (i) A toilet room shall have sufficient space to allow traffic of individuals in wheelchairs.

(ii) A toilet room shall have at least one toilet stall that:

(A) Is at least 36 inches wide;

(B) Is at least 56 inches deep;

(C) Has a door, if any, that is at least 32 inches wide and swings out;

(D) Has handrails on each side, 33 inches high and parallel to the floor, 1½ inches in outside diameter, 1½ inches clearance between rail and wall, and fastened securely at ends and center; and

(E) Has a water closet with a seat 19 to 20 inches from the finished floor.

(iii) A toilet room shall have, in addition to or in lieu of a toilet stall described in (ii), at least one toilet stall that:

(A) Is at least 66 inches wide;

(B) Is at least 60 inches deep;

(C) Has a door, if any, that is at least 32 inches wide and swings out;

(D) Has a handrail on one side, 33 inches high and parallel to the floor, 1½ inches in outside diameter, 1½ inches clearance between rail and wall, and fastened securely at ends and center; and

(E) Has a water closet with a seat 19 to 20 inches from the finished floor, centerline located 18 inches from the side wall on which the handrail is located.

(iv) A toilet room shall have lavatories with narrow aprons. Drain pipes and hot water pipes under a lavatory shall be covered or insulated.

(v) A mirror and a shelf above a lavatory shall be no higher than 40 inches above the floor, measured from the top of the shelf and the bottom of the mirror.

(vi) A toilet room for men shall have wall-mounted urinals with the opening of the basin 15 to 19 inches from the finished floor or shall have floor-mounted urinals that are level with the main floor of the toilet room.

(vii) Towel racks, towel dispensers, and other dispensers and disposal units shall be mounted no higher than 40 inches from the floor.

(11) *Water fountains.* (i) A water fountain and a cooler shall have upfront spouts and controls.

(ii) A water fountain and a cooler shall be hand-operated or hand-and-foot-operated.

(iii) A water fountain mounted on the side of a floor-mounted cooler shall not be more than 30 inches above the floor.

(iv) A wall-mounted, hand-operated water cooler shall be mounted with the basin 36 inches from the floor.

(v) A water fountain shall not be fully recessed and shall not be set into an alcove unless the alcove is at least 36 inches wide.

(12) *Public telephones.* (i) A public telephone shall be placed so that the

dial and the headset can be reached by individuals in wheelchairs.

(ii) A public telephone shall be equipped for those with hearing disabilities and so identified with instructions for use.

(iii) Coin slots of public telephones shall be not more than 48 inches from the floor.

(13) *Elevators.* (i) An elevator shall be accessible to, and usable by the handicapped or the elderly on the levels they use to enter the building and all levels and areas normally used.

(ii) Cab size shall allow for the turning of a wheelchair. It shall measure at least 54 by 68 inches.

(iii) Door clear opening width shall be at least 32 inches.

(iv) All essential controls shall be within 48 to 54 inches from cab floor. Such controls shall be usable by the blind and shall be tactilely identifiable.

(14) *Controls.* Switches and controls for light, heat, ventilation, windows, draperies, fire alarms, and all similar controls of frequent or essential use, shall be placed within the reach of individuals in wheelchairs. Such switches and controls shall be no higher than 48 inches from the floor.

(15) *Identification.* (i) Raised letters or numbers shall be used to identify a room or an office. Such identification shall be placed on the wall to the right or left of the door at a height of 54 inches to 66 inches, measured from the finished floor.

(ii) A door that might prove dangerous if a blind person were to exit or enter by it (such as a door leading to a loading platform, boiler room, stage, or fire escape) shall be tactilely identifiable.

(16) *Warning signals.* (i) An audible warning signal shall be accompanied by a simultaneous visual signal for the benefit of those with hearing disabilities.

(ii) A visual warning signal shall be accompanied by a simultaneous audible signal for the benefit of the blind.

(17) *Hazards.* Hanging signs, ceiling lights, and similar objects and fixtures shall be placed at a minimum height of 7 feet, measured from the floor.

(18) *International accessibility symbol.* The international accessibility symbol (see illustration) shall be displayed on routes to and at wheelchair-accessible entrances to facilities and public transportation vehicles.

(19) *Additional standards for rail facilities.* (i) A rail facility shall contain a fare control area with at least one en-

trance with a clear opening at least 36 inches wide.

(ii) A boarding platform edge bordering a drop-off or other dangerous

condition shall be marked with a warning device consisting of a strip of floor material differing in color and texture from the remaining floor surface. The gap between boarding platform and vehicle doorway shall be minimized.

(20) *Standards for buses.* (i) A bus shall have a level change mechanism (e.g., lift or ramp) to enter the bus and sufficient clearance to permit a wheelchair user to reach a secure location.

(ii) A bus shall have a wheelchair securement device. However, the preceding sentence does not require a wheelchair securement device which is itself a barrier or hazard.

(iii) The vertical distance from a curb or from street level to the first front door step shall not exceed 8 inches; the riser height for each front doorstep after the first step up from the curb or street level shall also not exceed 8 inches; and the tread depth of steps at front and rear doors shall be no less than 12 inches.

(iv) A bus shall contain clearly legible signs that indicate that seats in the front of the bus are priority seats for handicapped or elderly persons, and that encourage other passengers to make such seats available to handicapped and elderly persons who wish to use them.

(v) Handrails and stanchions shall be provided in the entranceway to the bus in a configuration that allows handicapped and elderly persons to grasp such assists from outside the bus while starting to board and to continue to use such assists throughout the boarding and fare collection processes. The configuration of the passenger assist system shall include a rail across the front of the interior of the bus located to allow passengers to lean against it while paying fares. Overhead handrails shall be continuous except for a gap at the rear doorway.

(vi) Floors and steps shall have non-slip surfaces. Step edges shall have a band of bright contrasting color running the full width of the step.

(vii) A stepwell immediately adjacent to the driver shall have, when the door is open, at least 2 foot-candles of illumination measured on the step tread. Other stepwells shall have, at all times, at least 2 foot-candles of illumination measured on the step tread.

(viii) The doorways of the bus shall have outside lighting that provides at least 1 foot-candle of illumination on the street surface for a distance of 3 feet from all points on the bottom step tread edge. Such lighting shall be located below window level and shall be shielded to protect the eyes of entering and exiting passengers.

(ix) The fare box shall be located as far forward as practicable and shall not obstruct traffic in the vestibule.

(21) *Standards for rapid and light rail vehicles.* (i) Passenger doorways on the vehicle sides shall have clear openings at least 32 inches wide.

(ii) Audible or visual warning signals shall be provided to alert handicapped and elderly persons of closing doors.

(iii) Handrails and stanchions shall be sufficient to permit safe boarding, onboard circulation, seating and standing assistance, and unboarding by handicapped and elderly persons. On a levelentry vehicle, handrails, stanchions, and seats shall be located so as to allow a wheelchair user to enter the vehicle and position the wheelchair in a location which does not obstruct the movement of other passengers. On a vehicle that requires the use of steps in the boarding process, handrails and stanchions shall be provided in the entranceway to the vehicle in a configuration that allows handicapped and elderly persons to grasp such assists from outside the vehicle while starting to board, and to continue using such assists throughout the boarding process.

(iv) Floors shall have nonslip surfaces. Step edges on a light rail vehicle shall have a band of bright contrasting color running the full width of the step.

(v) A stepwell immediately adjacent to the driver shall have, when the door is open, at least 2 foot-candles of illumination measured on the step tread. Other stepwells shall have, at all times, at least 2 foot-candles of illumination measured on the step tread.

(vi) Doorways on a light rail vehicle shall have outside lighting that provides at least 1 foot-candle of illumination on the street surface for a distance of 3 feet from all points on the bottom step tread edge. Such lighting shall be located below window level and shall be

shielded to protect the eyes of entering and exiting passengers.

(22) *Other barrier removals.* The provisions of this subparagraph apply to any barrier which would not be removed by compliance with paragraphs (b)(2) through (21) of this section. The requirements of this subparagraph are:

(i) A substantial barrier to the access to or use of a facility or public transportation vehicle by handicapped or elderly individuals is removed;

(ii) The barrier which is removed had been a barrier for one or more major classes of such individuals (such as the blind, deaf, or wheelchair users); and

(iii) The removal of that barrier is accomplished without creating any new barrier that significantly impairs access to or use of the facility or vehicle by such class or classes.

[T.D. 7634, 44 FR 43270, July 24, 1979]

§ 1.190-3 Election to deduct architectural and transportation barrier removal expenses.

(a) *Manner of making election.* The election to deduct expenditures for removal of architectural and transportation barriers provided by section 190(a) shall be made by claiming the deduction as a separate item identified as such on the taxpayer's income tax return for the taxable year for which such election is to apply (or, in the case of a partnership, to the return of partnership income for such year). For the election to be valid, the return must be filed not later than the time prescribed by law for filing the return (including extensions thereof) for the taxable year for which the election is to apply.

(b) *Scope of election.* An election under section 190(a) shall apply to all expenditures described in § 1.190-2 (or in the case of a taxpayer whose architectural and transportation barrier removal expenses exceed \$25,000 for the taxable year, to the \$25,000 of such expenses with respect to which the deduction is claimed) paid or incurred during the taxable year for which made and shall be irrevocable after the date by which any such election must have been made.

(c) *Records to be kept.* In any case in which an election is made under section 190(a), the taxpayer shall have

available, for the period prescribed by paragraph (e) of § 1.6001-1 of this chapter (Income Tax Regulations), records and documentation, including architectural plans and blueprints, contracts, and any building permits, of all the facts necessary to determine the amount of any deduction to which he is entitled by reason of the election, as well as the amount of any adjustment to basis made for expenditures in excess of the amount deductible under section 190.

[T.D. 7634, 44 FR 13273, July 24, 1979]

§ 1.193-1 Deduction for tertiary injectant expenses.

(a) *In general.* Subject to the limitations and restrictions of paragraphs (c) and (d) of this section, there shall be allowed as a deduction from gross income an amount equal to the qualified tertiary injectant expenses of the taxpayer. This deduction is allowed for the later of:

(1) The taxable year in which the injectant is injected, or

(2) The taxable year in which the expenses are paid or incurred.

(b) *Definitions*—(1) *Qualified tertiary injectant expenses.* Except as otherwise provided in this section, the term *qualified tertiary injectant expense* means any cost paid or incurred for any tertiary injectant which is used as part of a tertiary recovery method.

(2) *Tertiary recovery method.* *Tertiary recovery method* means:

(i) Any method which is described in subparagraphs (1) through (9) of section 212.78(c) of the June 1979 energy regulations (as defined by section 4996(b)(8)(C)),

(ii) Any method for which the taxpayer has obtained the approval of the Associate Chief Counsel (Technical), under section 4993(d)(1)(B) for purposes of Chapter 45 of the Internal Revenue Code,

(iii) Any method which is approved in the regulations under section 4993(d)(1)(B), or

(iv) Any other method to provide tertiary enhanced recovery for which the taxpayer obtains the approval of the Associate Chief Counsel (Technical) for purposes of section 193.

(c) *Special rules for hydrocarbons*—(1) *In general.* If an injectant contains

more than an insignificant amount of recoverable hydrocarbons, the amount deductible under section 193 and paragraph (a) of this section shall be limited to the cost of the injectant reduced by the lesser of:

(i) The fair market value of the hydrocarbon component in the form in which it is recovered, or

(ii) The cost to the taxpayer of the hydrocarbon component of the injectant. Price levels at the time of injection are to be used in determining the fair market value of the recoverable hydrocarbons.

(2) *Presumption of recoverability.* Except to the extent that the taxpayer can demonstrate otherwise, all hydrocarbons shall be presumed recoverable and shall be presumed to have the same value on recovery that they would have if separated from the other components of the injectant before injection. Estimates based on generally accepted engineering practices may provide evidence of limitations on the amount or value of recoverable hydrocarbons.

(3) *Significant amount.* For purposes of section 193 and this section, an injectant contains more than an insignificant amount of recoverable hydrocarbons if the fair market value of the recoverable hydrocarbon component of the injectant, in the form in which it is recovered, equals or exceeds 25 percent of the cost of the injectant.

(4) *Hydrocarbon defined.* For purposes of section 193 and this section, the term *hydrocarbon* means all forms of natural gas and crude oil (which includes oil recovered from sources such as oil shale and condensate).

(5) *Injectant defined.* For purposes of applying this paragraph (c), an injectant is the substance or mixture of substances injected at a particular time. Substances injected at different times are not treated as components of a single injectant even if the injections are part of a single tertiary recovery process.

(d) *Application with other deductions.* No deduction shall be allowed under section 193 and this section for any expenditure:

(1) With respect to which the taxpayer has made an election under section 263(c) or

(2) With respect to which a deduction is allowed or allowable under any other provision of chapter 1 of the Code.

(e) *Examples.* The application of this section may be illustrated by the following examples:

Example 1. B, a calendar year taxpayer who uses the cash receipts and disbursements method of accounting, uses an approved tertiary recovery method for the enhanced recovery of crude oil from one of B's oil properties. During 1980, B pays \$100x for a tertiary injectant which contains 1,000y units of hydrocarbon; if separated from the other components of the injectant before injection, the hydrocarbons would have a fair market value of \$80x. B uses this injectant during the recovery effort during 1981. B has not made any election under section 263(c) with respect to the expenditures for the injectant, and no section of chapter 1 of the Code other than section 193 allows a deduction for the expenditure. B is unable to demonstrate that the value of the injected hydrocarbons recovered during production will be less than \$80x. B's deduction under section 193 is limited to the excess of the cost for the injectant over the fair market value of the hydrocarbon component expected to be recovered (\$100x - \$80x = \$20x). B may claim the deduction only for 1981, the year of the injection.

Example 2. Assume the same facts as in *Example 1* except that through engineering studies B has shown that 700y units or 70 percent of the hydrocarbon injected is non-recoverable. The recoverable hydrocarbons have a fair market value of \$24x (30 percent of \$80x). The recoverable hydrocarbon portion of the injectant is 24 percent of the cost of the injectant (\$24x divided by \$100x). The injectant does not contain a significant amount of recoverable hydrocarbons. B may claim a deduction for \$100x, the entire cost of the injectant.

Example 3. Assume the same facts as in *Example 1* except that through laboratory studies B has shown that because of chemical changes in the course of production the injected hydrocarbons that are recovered will have a fair market value of only \$40x. B may claim a deduction for \$60x, the excess of the cost of the injectant (\$100x) over the fair market value of the recoverable hydrocarbons (\$40x).

Example 4. B prepares an injectant from crude oil and certain non-hydrocarbon materials purchased by B. The total cost of the injectant to B is \$100x, of which \$24x is attributable to the crude oil. The fair market value of the crude oil used in the injectant is \$27x. B is unable to demonstrate that the value of the crude oil from the injectant that will be recovered is less than \$27x. The

injectant contains more than an insignificant amount of recoverable hydrocarbons because the value of the recoverable crude oil (\$27x) exceeds \$25x (25 percent of \$100x, the cost of the injectant). Because the cost to B of the hydrocarbon component of the injectant (\$24x) is less than the fair market value of the hydrocarbon component in the form in which it is recovered (\$27x), the cost rather than the value is taken into account in the adjustment required under paragraph (c)(1) of this section. B's deduction under section 193 is limited to the excess of the cost of the injectant over the cost of the hydrocarbon component (\$100x - \$24x = \$76x).

(Secs. 193 and 7805, Internal Revenue Code of 1954, 94 Stat. 286, 26 U.S.C. 193; 68A Stat. 917, 26 U.S.C. 7805)

[T.D. 7980, 49 FR 39052, Oct. 3, 1984]

§ 1.194-1 Amortization of reforestation expenditures.

(a) *In general.* Section 194 allows a taxpayer to elect to amortize over an 84-month period, up to \$10,000 of reforestation expenditures (as defined in § 1.194-3(c)) incurred by the taxpayer in a taxable year in connection with qualified timber property (as defined in § 1.194-3(a)). The election is not available to trusts. Only those reforestation expenditures which result in additions to capital accounts after December 31, 1979 are eligible for this special amortization.

(b) *Determination of amortization period.* The amortization period must begin on the first day of the first month of the last half of the taxable year during which the taxpayer incurs the reforestation expenditures. For example, the 84-month amortization period begins on July 1 of a taxable year for a calendar year taxpayer, regardless of whether the reforestation expenditures are incurred in January or December of that taxable year. Therefore, a taxpayer will be allowed to claim amortization deductions for only six months of each of the first and eighth taxable years of the period over which the reforestation expenditures will be amortized.

(c) *Recapture.* If a taxpayer disposes of qualified timber property within ten years of the year in which the amortizable basis was created and the taxpayer has claimed amortization deductions under section 194, part or all of any gain on the disposition may be recap-

tured as ordinary income. See section 1245.

[T.D. 7927, 48 FR 55849, Dec. 16, 1983]

§ 1.194-2 Amount of deduction allowable.

(a) *General rule.* The allowable monthly deduction with respect to reforestation expenditures made in a taxable year is determined by dividing the amount of reforestation expenditures made in such taxable year (after applying the limitations of paragraph (b) of this section) by 84. In order to determine the total allowable amortization deduction for a given month, a taxpayer should add the monthly amortization deductions computed under the preceding sentence for qualifying expenditures made by the taxpayer in the taxable year and the preceding seven taxable years.

(b) *Dollar limitation—(1) Maximum amount subject to election.* A taxpayer may elect to amortize up to \$10,000 of qualifying reforestation expenditures each year under section 194. However, the maximum amortizable amount is \$5,000 in the case of a married individual (as defined in section 143) filing a separate return. No carryover or carryback of expenditures in excess of \$10,000 is permitted. The maximum annual amortization deduction for expenditures incurred in any taxable year is \$1,428.57 (\$10,000/7). The maximum deduction in the first and eighth taxable years of the amortization period is one-half that amount, or \$714.29, because of the half-year convention provided in § 1.194-1(b). Total deductions for any one year under this section will reach \$10,000 only if a taxpayer incurs and elects to amortize the maximum \$10,000 of expenditures each year over an 8-year period.

(2) *Allocation of amortizable basis among taxpayer's timber properties.* The limit of \$10,000 on amortizable reforestation expenditures applies to expenditures paid or incurred during a taxable year on all of the taxpayer's timber properties. A taxpayer who incurs more than \$10,000 in qualifying expenditures in connection with more than one qualified timber property during a taxable year may select the properties for which section 194 amortization will be elected as well as the manner in which

the \$10,000 limitation on amortizable basis is allocated among such properties. For example, A incurred \$10,000 of qualifying reforestation expenditures on each of four properties in 1981. A may elect under section 194 to amortize \$2,500 of the amount spent on each property, \$5,000 of the amount spent on any two properties, the entire \$10,000 spent on any one property, or A may allocate the \$10,000 maximum amortizable basis among some or all of the properties in any other manner.

(3) *Basis*—(i) *In general.* Except as provided in paragraph (b)(3)(ii) of this section, the basis of a taxpayer's interest in qualified timber property for which an election is made under section 194 shall be adjusted to reflect the amount of the section 194 amortization deduction allowable to the taxpayer.

(ii) *Special rule for trusts.* Although a trust may be a partner of a partnership, income beneficiary of an estate, or (for taxable years beginning after December 31, 1982) shareholder of an S corporation, it may not deduct its allocable share of a section 194 amortization deduction allowable to such a partnership, estate, or S corporation. In addition, the basis of the interest held by the partnership, estate, or S corporation in the qualified timber property shall not be adjusted to reflect the portion of the section 194 amortization deduction that is allocable to the trust.

(4) *Allocation of amortizable basis among component members of a controlled group.* Component members of a controlled group (as defined in § 1.194-3(d)) on a December 31 shall be treated as one taxpayer in applying the \$10,000 limitation of paragraph (b)(1) of this section. The amortizable basis may be allocated to any one such member or allocated (for the taxable year of each such member which includes such December 31) among the several members in any manner. *Provided* That the amount of amortizable basis allocated to any member does not exceed the amount of amortizable basis actually acquired by the member in the taxable year. The allocation is to be made (i) by the common parent corporation if a consolidated return is filed for all component members of the group, or (ii) in accordance with an agreement entered

into by the members of the group if separate returns are filed. If a consolidated return is filed by some component members of the group and separate returns are filed by other component members, then the common parent of the group filing the consolidated return shall enter into an agreement with those members who do not join in filing the consolidated return allocating the amount between the group filing the return and the other component members of the controlled group who do not join in filing the consolidated return. If a consolidated return is filed, the common parent corporation shall file a separate statement attached to the income tax return on which an election is made to amortize reforestation costs under section 194. See § 1.194-4. If separate returns are filed by some or all component members of the group, each component member to which is allocated any part of the deduction under section 194 shall file a separate statement attached to the income tax return in which an election is made to amortize reforestation expenditures. See § 1.194-4. Such statement shall include the name, address, employer identification number, and the taxable year of each component member of the controlled group, a copy of the allocation agreement signed by persons duly authorized to act on behalf of those members who file separate returns, and a description of the manner in which the deduction under section 194 has been divided among them.

(5) *Partnerships*—(i) *Election to be made by partnership.* A partnership makes the election to amortize qualified reforestation expenditures of the partnership. See section 703(b).

(ii) *Dollar limitations applicable to partnerships.* The dollar limitations of section 194 apply to the partnership as well as to each partner. Thus, a partnership may not elect to amortize more than \$10,000 of reforestation expenditures under section 194 in any taxable year.

(iii) *Partner's share of amortizable basis.* Section 704 and the regulations thereunder shall govern the determination of a partner's share of a partnership's amortizable reforestation expenditures for any taxable year.

(iv) *Dollar limitation applicable to partners.* A partner shall in no event be entitled in any taxable year to claim a deduction for amortization based on more than \$10,000 (\$5,000 in the case of a married taxpayer who files a separate return) of amortizable basis acquired in such taxable year regardless of the source of the amortizable basis. In the case of a partner who is a member of two or more partnerships that elect under section 194, the partner's aggregate share of partnership amortizable basis may not exceed \$10,000 or \$5,000, whichever is applicable. In the case of a member of a partnership that elects under section 194 who also has separately acquired qualified timber property, the aggregate of the member's partnership and non-partnership amortizable basis may not exceed \$10,000 or \$5,000 whichever is applicable.

(6) *S corporations.* For taxable years beginning after December 31, 1982, rules similar to those contained in paragraph (b)(5) (ii) and (iv) of this section shall apply in the case of S corporations (as defined in section 1361(a)) and their shareholders.

(7) *Estates.* Estates may elect to amortize in each taxable year up to a maximum of \$10,000 of qualifying reforestation expenditures under section 194. Any amortizable basis acquired by an estate shall be apportioned between the estate and the income beneficiary on the basis of the income of the estate allocable to each. The amount of amortizable basis apportioned from an estate to a beneficiary shall be taken into account in determining the \$10,000 (or \$5,000) amount of amortizable basis allowable to such beneficiary under this section.

(c) *Life tenant and remainderman.* If property is held by one person for life with remainder to another person, the life tenant is entitled to the full benefit of any amortization allowable under section 194 on qualifying expenditures he or she makes. Any remainder interest in the property is ignored for this purpose.

[T.D. 7927, 48 FR 55849, Dec. 16, 1983]

§ 1.194-3 Definitions.

(a) *Qualified timber property.* The term *qualified timber property* means property located in the United States which will

contain trees in significant commercial quantities. The property may be a woodlot or other site but must consist of at least one acre which is planted with tree seedlings in the manner normally used in forestation or reforestation. The property must be held by the taxpayer for the growing and cutting of timber which will either be sold for use in, or used by the taxpayer in, the commercial production of timber products. A taxpayer does not have to own the property in order to be eligible to elect to amortize costs attributable to it under section 194. Thus, a taxpayer may elect to amortize qualifying reforestation expenditures incurred by such taxpayer on leased qualified timber property. Qualified timber property does not include property on which the taxpayer has planted shelter belts (for which current deductions are allowed under section 175) or ornamental trees, such as Christmas trees.

(b) *Amortizable basis.* The term *amortizable basis* means that portion of the basis of qualified timber property which is attributable to reforestation expenditures.

(c) *Reforestation expenditures*—(1) *In general.* The term *reforestation expenditures* means direct costs incurred to plant or seed for forestation or reforestation purposes. Qualifying expenditures include amounts spent for site preparation, seed or seedlings, and labor and tool costs, including depreciation on equipment used in planting or seeding. Only those costs which must be capitalized and are included in the adjusted basis of the property qualify as reforestation expenditures. Costs which are currently deductible do not qualify.

(2) *Cost-sharing programs.* Any expenditures for which the taxpayer has been reimbursed under any governmental reforestation cost-sharing program do not qualify as reforestation expenditures unless the amounts reimbursed have been included in the gross income of the taxpayer.

(d) *Definitions of controlled group of corporations and component member of controlled group.* For purposes of section 194, the terms *controlled group of corporations* and *component member of a controlled group of corporations* shall have the same meaning assigned to

§ 1.194-4

26 CFR Ch. I (4-1-17 Edition)

those terms in section 1563 (a) and (b), except that the phrase “more than 50 percent” shall be substituted for the phrase “at least 80 percent” each place it appears in section 1563(a)(1).

[T.D. 7927, 48 FR 55850, Dec. 16, 1983]

§ 1.194-4 Time and manner of making election.

(a) *In general.* Except as provided in paragraph (b) of this section, an election to amortize reforestation expenditures under section 194 shall be made by entering the amortization deduction claimed at the appropriate place on the taxpayer's income tax return for the year in which the expenditures were incurred, and by attaching a statement to such return. The statement should state the amounts of the expenditures, describe the nature of the expenditures, and give the date on which each was incurred. The statement should also state the type of timber being grown and the purpose for which it is being grown. A separate statement must be included for each property for which reforestation expenditures are being amortized under section 194. The election may only be made on a timely return (taking into account extensions of the time for filing) for the taxable year in which the amortizable expenditures were made.

(b) *Special rule.* With respect to any return filed before March 15, 1984, on which a taxpayer was eligible to, but did not make an election under section 194, the election to amortize reforestation expenditures under section 194 may be made by a statement on, or attached to, the income tax return (or an amended return) for the taxable year, indicating that an election is being made under section 194 and setting forth the information required under paragraph (a) of this section. An election made under the provisions of this paragraph (b) must be made not later than,

(1) The time prescribed by law (including extensions thereof) for filing the income tax return for the year in which the reforestation expenditures were made, or

(2) March 15, 1984, whichever is later. Nothing in this paragraph shall be construed as extending the time specified

in section 6511 within which a claim for credit or refund may be filed.

(c) *Revocation.* An application for consent to revoke an election under section 194 shall be in writing and shall be addressed to the Commissioner of Internal Revenue, Washington, DC 20224. The application shall set forth the name and address of the taxpayer, state the taxable years for which the election was in effect, and state the reason for revoking the election. The application shall be signed by the taxpayer or a duly authorized representative of the taxpayer and shall be filed at least 90 days prior to the time prescribed by law (without regard to extensions thereof) for filing the income tax return for the first taxable year for which the election is to terminate. Ordinarily, the request for consent to revoke the election will not be granted if it appears from all the facts and circumstances that the only reason for the desired change is to obtain a tax advantage.

[T.D. 7927, 48 FR 55851, Dec. 16, 1983]

§ 1.195-1 Election to amortize start-up expenditures.

(a) *In general.* Under section 195(b), a taxpayer may elect to amortize start-up expenditures as defined in section 195(c)(1). In the taxable year in which a taxpayer begins an active trade or business, an electing taxpayer may deduct an amount equal to the lesser of the amount of the start-up expenditures that relate to the active trade or business, or \$5,000 (reduced (but not below zero) by the amount by which the start-up expenditures exceed \$50,000). The remainder of the start-up expenditures is deductible ratably over the 180-month period beginning with the month in which the active trade or business begins. All start-up expenditures that relate to the active trade or business are considered in determining whether the start-up expenditures exceed \$50,000, including expenditures incurred on or before October 22, 2004.

(b) *Time and manner of making election.* A taxpayer is deemed to have made an election under section 195(b) to amortize start-up expenditures as defined in section 195(c)(1) for the taxable year in which the active trade or

business to which the expenditures relate begins. A taxpayer may choose to forgo the deemed election by affirmatively electing to capitalize its start-up expenditures on a timely filed Federal income tax return (including extensions) for the taxable year in which the active trade or business to which the expenditures relate begins. The election either to amortize start-up expenditures under section 195(b) or to capitalize start-up expenditures is irrevocable and applies to all start-up expenditures that are related to the active trade or business. A change in the characterization of an item as a start-up expenditure is a change in method of accounting to which sections 446 and 481(a) apply if the taxpayer treated the item consistently for two or more taxable years. A change in the determination of the taxable year in which the active trade or business begins also is treated as a change in method of accounting if the taxpayer amortized start-up expenditures for two or more taxable years.

(c) *Examples.* The following examples illustrate the application of this section:

Example 1. Expenditures of \$5,000 or less. Corporation X, a calendar year taxpayer, incurs \$3,000 of start-up expenditures after October 22, 2004, that relate to an active trade or business that begins on July 1, 2011. Under paragraph (b) of this section, Corporation X is deemed to have elected to amortize start-up expenditures under section 195(b) in 2011. Therefore, Corporation X may deduct the entire amount of the start-up expenditures in 2011, the taxable year in which the active trade or business begins.

Example 2. Expenditures of more than \$5,000 but less than or equal to \$50,000. The facts are the same as in *Example 1* except that Corporation X incurs start-up expenditures of \$41,000. Under paragraph (b) of this section, Corporation X is deemed to have elected to amortize start-up expenditures under section 195(b) in 2011. Therefore, Corporation X may deduct \$5,000 and the portion of the remaining \$36,000 that is allocable to July through December of 2011 ($\$36,000/180 \times 6 = \$1,200$) in 2011, the taxable year in which the active trade or business begins. Corporation X may amortize the remaining \$34,800 ($\$36,000 - \$1,200 = \$34,800$) ratably over the remaining 174 months.

Example 3. Subsequent change in the characterization of an item. The facts are the same as in *Example 2* except that Corporation X determines in 2013 that Corporation X incurred

\$10,000 for an additional start-up expenditure erroneously deducted in 2011 under section 162 as a business expense. Under paragraph (b) of this section, Corporation X is deemed to have elected to amortize start-up expenditures under section 195(b) in 2011, including the additional \$10,000 of start-up expenditures. Corporation X is using an impermissible method of accounting for the additional \$10,000 of start-up expenditures and must change its method under § 1.446-1(e) and the applicable general administrative procedures in effect in 2013.

Example 4. Subsequent redetermination of year in which business begins. The facts are the same as in *Example 2* except that, in 2012, Corporation X deducted the start-up expenditures allocable to January through December of 2012 ($\$36,000/180 \times 12 = \$2,400$). In addition, in 2013 it is determined that Corporation X actually began business in 2012. Under paragraph (b) of this section, Corporation X is deemed to have elected to amortize start-up expenditures under section 195(b) in 2012. Corporation X impermissibly deducted start-up expenditures in 2011, and incorrectly determined the amount of start-up expenditures deducted in 2012. Therefore, Corporation X is using an impermissible method of accounting for the start-up expenditures and must change its method under § 1.446-1(e) and the applicable general administrative procedures in effect in 2013.

Example 5. Expenditures of more than \$50,000 but less than or equal to \$55,000. The facts are the same as in *Example 1* except that Corporation X incurs start-up expenditures of \$54,500. Under paragraph (b) of this section, Corporation X is deemed to have elected to amortize start-up expenditures under section 195(b) in 2011. Therefore, Corporation X may deduct \$500 ($\$5,000 - \$4,500$) and the portion of the remaining \$54,000 that is allocable to July through December of 2011 ($\$54,000/180 \times 6 = \$1,800$) in 2011, the taxable year in which the active trade or business begins. Corporation X may amortize the remaining \$52,200 ($\$54,000 - \$1,800 = \$52,200$) ratably over the remaining 174 months.

Example 6. Expenditures of more than \$55,000. The facts are the same as in *Example 1* except that Corporation X incurs start-up expenditures of \$450,000. Under paragraph (b) of this section, Corporation X is deemed to have elected to amortize start-up expenditures under section 195(b) in 2011. Therefore, Corporation X may deduct the amounts allocable to July through December of 2011 ($\$450,000/180 \times 6 = \$15,000$) in 2011, the taxable year in which the active trade or business begins. Corporation X may amortize the remaining \$435,000 ($\$450,000 - \$15,000 = \$435,000$) ratably over the remaining 174 months.

(d) *Effective/applicability date.* This section applies to start-up expenditures paid or incurred after August 16, 2011.

§ 1.195-2

However, taxpayers may apply all the provisions of this section to start-up expenditures paid or incurred after October 22, 2004, provided that the period of limitations on assessment of tax for the year the election under paragraph (b) of this section is deemed made has not expired. For start-up expenditures paid or incurred on or before September 8, 2008, taxpayers may instead apply § 1.195-1, as in effect prior to that date (§ 1.195-1 as contained in 26 CFR part 1 edition revised as of April 1, 2008).

[T.D. 9542, 76 FR 50888, Aug. 17, 2011]

§ 1.195-2 Technical termination of a partnership.

(a) *In general.* If a partnership that has elected to amortize start-up expenditures under section 195(b) and § 1.195-1 terminates in a transaction (or a series of transactions) described in section 708(b)(1)(B) or § 1.708-1(b)(2), the termination shall not be treated as resulting in a disposition of the partnership's trade or business for purposes of section 195(b)(2). See § 1.708-1(b)(6) for rules concerning the treatment of these start-up expenditures by the new partnership.

(b) *Effective/applicability date.* This section applies to a technical termination of a partnership under section 708(b)(1)(B) that occurs on or after December 9, 2013.

[T.D. 9681, 79 FR 42679, July 23, 2014]

§ 1.197-1T Certain elections for intangible property (temporary).

(a) *In general.* This section provides rules for making the two elections under section 13261 of the Omnibus Budget Reconciliation Act of 1993 (OBRA '93). Paragraph (c) of this section provides rules for making the section 13261(g)(2) election (the retroactive election) to apply the intangibles provisions of OBRA '93 to property acquired after July 25, 1991, and on or before August 10, 1993 (the date of enactment of OBRA '93). Paragraph (d) of this section provides rules for making the section 13261(g)(3) election (binding contract election) to apply prior law to property acquired pursuant to a written binding contract in effect on August 10, 1993, and at all times thereafter before the date of acquisition. The provisions of this section apply only to property for which an election is made under paragraph (c) or (d) of this section.

(b) *Definitions and special rules*—(1) *Intangibles provisions of OBRA '93.* The intangibles provisions of OBRA '93 are sections 167(f) and 197 of the Internal Revenue Code (Code) and all other pertinent provisions of section 13261 of OBRA '93 (e.g., the amendment of section 1253 in the case of a franchise, trademark, or trade name).

(2) *Transition period property.* The transition period property of a taxpayer is any property that was acquired by the taxpayer after July 25, 1991, and on or before August 10, 1993.

(3) *Eligible section 197 intangibles.* The eligible section 197 intangibles of a taxpayer are any section 197 intangibles that—

(i) Are transition period property; and

(ii) Qualify as amortizable section 197 intangibles (within the meaning of section 197(c)) if an election under section 13261(g)(2) of OBRA '93 applies.

(4) *Election date.* The election date is the date (determined after application of section 7502(a)) on which the taxpayer files the original or amended return to which the election statement

described in paragraph (e) of this section is attached.

(5) *Election year.* The election year is the taxable year of the taxpayer that includes August 10, 1993.

(6) *Common control.* A taxpayer is under common control with the electing taxpayer if, at any time after August 2, 1993, and on or before the election date (as defined in paragraph (b)(4) of this section), the two taxpayers would be treated as a single taxpayer under section 41(f)(1) (A) or (B).

(7) *Applicable convention for sections 197 and 167(f) intangibles.* For purposes of computing the depreciation or amortization deduction allowable with respect to transition period property described in section 167(f) (1) or (3) or with respect to eligible section 197 intangibles—

(i) Property acquired at any time during the month is treated as acquired as of the first day of the month and is eligible for depreciation or amortization during the month; and

(ii) Property is not eligible for depreciation or amortization in the month of disposition.

(8) *Application to adjustment to basis of partnership property under section 734(b) or 743(b).* Any increase in the basis of partnership property under section 734(b) (relating to the optional adjustment to basis of undistributed partnership property) or section 743(b) (relating to the optional adjustment to the basis of partnership property) will be taken into account under this section by a partner as if the increased portion of the basis were attributable to the partner's acquisition of the underlying partnership property on the date the distribution or transfer occurs. For example, if a section 754 election is in effect and, as a result of its acquisition of a partnership interest, a taxpayer obtains an increased basis in an intangible held through the partnership, the increased portion of the basis in the intangible will be treated as an intangible asset newly acquired by that taxpayer on the date of the transaction.

(9) *Former member.* A former member of a consolidated group is a corporation that was a member of the consolidated group at any time after July 25, 1991, and on or before August 2, 1993, but that is not under common control with

the common parent of the group for purposes of paragraph (c)(1)(ii) of this section.

(c) *Retroactive election—*(1) *Effect of election—*(i) *On taxpayer.* Except as provided in paragraph (c)(1)(v) of this section, if a taxpayer makes the retroactive election, the intangibles provisions of OBRA '93 will apply to all the taxpayer's transition period property. Thus, for example, section 197 will apply to all the taxpayer's eligible section 197 intangibles.

(ii) *On taxpayers under common control.* If a taxpayer makes the retroactive election, the election applies to each taxpayer that is under common control with the electing taxpayer. If the retroactive election applies to a taxpayer under common control, the intangibles provisions of OBRA '93 apply to that taxpayer's transition period property in the same manner as if that taxpayer had itself made the retroactive election. However, a retroactive election that applies to a non-electing taxpayer under common control is not treated as an election by that taxpayer for purposes of re-applying the rule of this paragraph (c)(1)(ii) to any other taxpayer.

(iii) *On former members of consolidated group.* A retroactive election by the common parent of a consolidated group applies to transition period property acquired by a former member while it was a member of the consolidated group and continues to apply to that property in each subsequent consolidated or separate return year of the former member.

(iv) *On transferred assets—*(A) *In general.* If property is transferred in a transaction described in paragraph (c)(1)(iv)(C) of this section and the intangibles provisions of OBRA '93 applied to such property in the hands of the transferor, the property remains subject to the intangibles provisions of OBRA '93 with respect to so much of its adjusted basis in the hands of the transferee as does not exceed its adjusted basis in the hands of the transferor. The transferee is not required to apply the intangibles provisions of OBRA '93 to any other transition period property that it owns, however, unless such provisions are otherwise

applicable under the rules of this paragraph (c)(1).

(B) *Transferee election.* If property is transferred in a transaction described in paragraph (c)(1)(iv)(C)(I) of this section and the transferee makes the retroactive election, the transferor is not required to apply the intangibles provisions of OBRA '93 to any of its transition period property (including the property transferred to the transferee in the transaction described in paragraph (c)(1)(iv)(C)(I) of this section), unless such provisions are otherwise applicable under the rules of this paragraph (c)(1).

(C) *Transactions covered.* This paragraph (c)(1)(iv) applies to—

(1) Any transaction described in section 332, 351, 361, 721, 731, 1031, or 1033; and

(2) Any transaction between corporations that are members of the same consolidated group immediately after the transaction.

(D) *Exchanged basis property.* In the case of a transaction involving exchanged basis property (e.g., a transaction subject to section 1031 or 1033)—

(1) Paragraph (c)(1)(iv)(A) of this section shall not apply; and

(2) If the intangibles provisions of OBRA '93 applied to the property by reference to which the exchanged basis is determined (the predecessor property), the exchanged basis property becomes subject to the intangibles provisions of OBRA '93 with respect to so much of its basis as does not exceed the predecessor property's basis.

(E) *Acquisition date.* For purposes of paragraph (b)(2) of this section (definition of transition period property), property (other than exchanged basis property) acquired in a transaction described in paragraph (c)(1)(iv)(C)(I) of this section generally is treated as acquired when the transferor acquired (or was treated as acquiring) the property (or predecessor property). However, if the adjusted basis of the property in the hands of the transferee exceeds the adjusted basis of the property in the hands of the transferor, the property, with respect to that excess basis, is treated as acquired at the time of the transfer. The time at which exchanged basis property is considered acquired is determined by applying similar prin-

ciples to the transferee's acquisition of predecessor property.

(v) *Special rule for property of former member of consolidated group—*(A) *Intangibles provisions inapplicable for certain periods.* If a former member of a consolidated group makes a retroactive election pursuant to paragraph (c)(1)(i) of this section or if an election applies to the former member under the common control rule of paragraph (c)(1)(ii) of this section, the intangibles provisions of OBRA '93 generally apply to all transition period property of the former member. The intangibles provisions of OBRA '93 do not apply, however, to the transition period property of a former member (including a former member that makes or is bound by a retroactive election) during the period beginning immediately after July 25, 1991, and ending immediately before the earlier of—

(1) The first day after July 25, 1991, that the former member was not a member of a consolidated group; or

(2) The first day after July 25, 1991, that the former member was a member of a consolidated group that is otherwise required to apply the intangibles provisions of OBRA '93 to its transition period property (e.g., because the common control election under paragraph (c)(1)(ii) of this section applies to the group).

(B) *Subsequent adjustments.* See paragraph (c)(5) of this section for adjustments when the intangibles provisions of OBRA '93 first apply to the transition period property of the former member after the property is acquired.

(2) *Making the election—*(i) *Partnerships, S corporations, estates, and trusts.* Except as provided in paragraph (c)(2)(ii) of this section, in the case of transition period property of a partnership, S corporation, estate, or trust, only the entity may make the retroactive election for purposes of paragraph (c)(1)(i) of this section.

(ii) *Partnerships for which a section 754 election is in effect.* In the case of increased basis that is treated as transition period property of a partner under paragraph (b)(8) of this section, only that partner may make the retroactive election for purposes of paragraph (c)(1)(i) of this section.

(iii) *Consolidated groups.* An election by the common parent of a consolidated group applies to members and former members as described in paragraphs (c)(1)(ii) and (iii) of this section. Further, for purposes of paragraph (c)(1)(ii) of this section, an election by the common parent is not treated as an election by any subsidiary member. A retroactive election cannot be made by a corporation that is a subsidiary member of a consolidated group on August 10, 1993, but an election can be made on behalf of the subsidiary member under paragraph (c)(1)(ii) of this section (e.g., by the common parent of the group). See paragraph (c)(1)(iii) of this section for rules concerning the effect of the common parent's election on transition period property of a former member.

(3) *Time and manner of election*—(i) *Time.* In general, the retroactive election must be made by the due date (including extensions of time) of the electing taxpayer's Federal income tax return for the election year. If, however, the taxpayer's original Federal income tax return for the election year is filed before April 14, 1994, the election may be made by amending that return no later than September 12, 1994.

(ii) *Manner.* The retroactive election is made by attaching the election statement described in paragraph (e) of this section to the taxpayer's original or amended income tax return for the election year. In addition, the taxpayer must—

(A) Amend any previously filed return when required to do so under paragraph (c)(4) of this section; and

(B) Satisfy the notification requirements of paragraph (c)(6) of this section.

(iii) *Effect of nonconforming elections.* An attempted election that does not satisfy the requirements of this paragraph (c)(3) (including an attempted election made on a return for a taxable year prior to the election year) is not valid.

(4) *Amended return requirements*—(i) *Requirements.* A taxpayer subject to this paragraph (c)(4) must amend all previously filed income tax returns as necessary to conform the taxpayer's treatment of transition period property to the treatment required under the in-

tangibles provisions of OBRA '93. See paragraph (c)(5) of this section for certain adjustments that may be required on the amended returns required under this paragraph (c)(4) in the case of certain consolidated group member dispositions and tax-free transactions.

(ii) *Applicability.* This paragraph (c)(4) applies to a taxpayer if—

(A) The taxpayer makes the retroactive election; or

(B) Another person's retroactive election applies to the taxpayer or to any property acquired by the taxpayer.

(5) *Adjustment required with respect to certain consolidated group member dispositions and tax-free transactions*—(i) *Application.* This paragraph (c)(5) applies to transition period property if the intangibles provisions of OBRA '93 first apply to the property while it is held by the taxpayer but do not apply to the property for some period (the "interim period") after the property is acquired (or considered acquired) by the taxpayer. For example, this paragraph (c)(5) may apply to transition period property held by a former member of a consolidated group if a retroactive election is made by or on behalf of the former member but is not made by the consolidated group. See paragraph (c)(1)(v) of this section.

(ii) *Required adjustment to income.* If this paragraph (c)(5) applies, an adjustment must be taken into account in computing taxable income of the taxpayer for the taxable year in which the intangibles provisions of OBRA '93 first apply to the property. The amount of the adjustment is equal to the difference for the transition period property between—

(A) The sum of the depreciation, amortization, or other cost recovery deductions that the taxpayer (and its predecessors) would have been permitted if the intangibles provisions of OBRA '93 applied to the property during the interim period; and

(B) The sum of the depreciation, amortization, or other cost recovery deductions that the taxpayer (and its predecessors) claimed during that interim period.

(iii) *Required adjustment to basis.* The taxpayer also must make a corresponding adjustment to the basis of its transition period property to reflect

any adjustment to taxable income with respect to the property under this paragraph (c)(5).

(6) *Notification requirements*—(i) *Notification of commonly controlled taxpayers.* A taxpayer that makes the retroactive election must provide written notification of the retroactive election (on or before the election date) to each taxpayer that is under common control with the electing taxpayer.

(ii) *Notification of certain former members, former consolidated groups, and transferees.* This paragraph (c)(6)(ii) applies to a common parent of a consolidated group that makes or is notified of a retroactive election that applies to transition period property of a former member, a corporation that makes or is notified of a retroactive election that affects any consolidated group of which the corporation is a former member, or a taxpayer that makes or is notified of a retroactive election that applies to transition period property the taxpayer transfers in a transaction described in paragraph (c)(1)(iv)(C) of this section. Such common parent, former member, or transferor must provide written notification of the retroactive election to any affected former member, consolidated group, or transferee. The written notification must be provided on or before the election date in the case of an election by the common parent, former member, or transferor, and within 30 days of the election date in the case of an election by a person other than the common parent, former member, or transferor.

(7) *Revocation.* Once made, the retroactive election may be revoked only with the consent of the Commissioner.

(8) *Examples.* The following examples illustrate the application of this paragraph (c).

Example 1. (i) X is a partnership with 5 equal partners, A through E. X acquires in 1989, as its sole asset, intangible asset M. X has a section 754 election in effect for all relevant years. F, an unrelated individual, purchases A's entire interest in the X partnership in January 1993 for \$700. At the time of F's purchase, X's inside basis for M is \$2,000, and its fair market value is \$3,500.

(ii) Under section 743(b), X makes an adjustment to increase F's basis in asset M by \$300, the difference between the allocated purchase price and M's inside basis

(\$700 - \$400 = \$300). Under paragraphs (b)(8) and (c)(2)(ii) of this section, if F makes the retroactive election, the section 743(b) basis increase of \$300 in M is an amortizable section 197 intangible even though asset M is not an amortizable section 197 intangible in the hands of X. F's increase in the basis of asset M is amortizable over 15 years beginning with the month of F's acquisition of the partnership interest. With respect to the remaining \$400 of basis, F is treated as stepping into A's shoes and continues A's amortization (if any) in asset M. F's retroactive election applies to all other intangibles acquired by F or a taxpayer under common control with F.

Example 2. A, a calendar year taxpayer, is under common control with B, a June 30 fiscal year taxpayer. A files its original election year Federal income tax return on March 15, 1994, and does not make either the retroactive election or the binding contract election. B files its election year tax return on September 15, 1994, and makes the retroactive election. B is required by paragraph (c)(6)(i) of this section to notify A of its election. Even though A had already filed its election year return, A is bound by B's retroactive election under the common control rules. Additionally, if A had made a binding contract election, it would have been negated by B's retroactive election. Because of B's retroactive election, A must comply with the requirements of this paragraph (c), and file amended returns for the election year and any affected prior years as necessary to conform the treatment of transition period property to the treatment required under the intangibles provisions of OBRA '93.

Example 3. (i) P and Y, calendar year taxpayers, are the common parents of unrelated calendar year consolidated groups. On August 15, 1991, S, a subsidiary member of the P group, acquires a section 197 intangible with an unadjusted basis of \$180. Under prior law, no amortization or depreciation was allowed with respect to the acquired intangible. On November 1, 1992, a member of the Y group acquires the S stock in a taxable transaction. On the P group's 1993 consolidated return, P makes the retroactive election. The P group also files amended returns for its affected prior years. Y does not make the retroactive election for the Y group.

(ii) Under paragraph (c)(1)(iii) of this section, a retroactive election by the common parent of a consolidated group applies to all transition period property acquired by a former member while it was a member of the group. The section 197 intangible acquired by S is transition period property that S, a former member of the P group, acquired while a member of the P group. Thus, P's election applies to the acquired asset. P must notify S of the election pursuant to paragraph (c)(6)(ii) of this section.

(iii) S amortizes the unadjusted basis of its eligible section 197 intangible (\$180) over the 15-year amortization period using the applicable convention beginning as of the first day of the month of acquisition (August 1, 1991). Thus, the P group amends its 1991 consolidated tax return to take into account \$5 of amortization ($\$180/15 \text{ years} \times \frac{1}{12} \text{ year} = \5) for S.

(iv) For 1992, S is entitled to \$12 of amortization ($\$180/15$). Assume that under § 1.1502-76, \$10 of S's amortization for 1992 is allocated to the P group's consolidated return and \$2 is allocated to the Y group's return. The P group amends its 1992 consolidated tax return to reflect the \$10 deduction for S. The Y group must amend its 1992 return to reflect the \$2 deduction for S.

Example 4. (i) The facts are the same as in *Example 3*, except that the retroactive election is made for the Y group, not for the P group.

(ii) The Y group amends its 1992 consolidated return to claim a section 197 deduction of \$2 ($\$180/15 \text{ years} \times \frac{2}{12} \text{ year} = \2) for S.

(iii) Under paragraph (c)(1)(ii) of this section, the retroactive election by Y applies to all transition period property acquired by S. However, under paragraph (c)(1)(v)(A) of this section, the intangibles provisions of OBRA '93 do not apply to S's transition period property during the period when it held such property as a member of P group. Instead, these provisions become applicable to S's transition period property beginning on November 1, 1992, when S becomes a member of Y group.

(iv) Because the P group did not make the retroactive election, there is an interim period during which the intangibles provisions of OBRA '93 do not apply to the asset acquired by S. Thus, under paragraph (c)(5) of this section, the Y group must take into account in computing taxable income in 1992 an adjustment equal to the difference between the section 197 deduction that would have been permitted if the intangibles provisions of OBRA '93 applied to the property for the interim period (i.e., the period for which S was included in the P group's 1991 and 1992 consolidated returns) and any amortization or depreciation deductions claimed by S for the transferred intangible for that period. The retroactive election does not affect the P group, and the P group is not required to amend its returns.

Example 5. The facts are the same as in *Example 3*, except that both P and Y make the retroactive election. P must notify S of its election pursuant to paragraph (c)(6)(ii) of this section. Further, both the P and Y groups must file amended returns for affected prior years. Because there is no period of time during which the intangibles provisions of OBRA '93 do not apply to the asset acquired by S, the Y group is permitted no

adjustment under paragraph (c)(5) of this section for the asset.

(d) *Binding contract election*—(1) *General rule*—(i) *Effect of election.* If a taxpayer acquires property pursuant to a written binding contract in effect on August 10, 1993, and at all times thereafter before the acquisition (an eligible acquisition) and makes the binding contract election with respect to the contract, the law in effect prior to the enactment of OBRA '93 will apply to all property acquired pursuant to the contract. A separate binding contract election must be made with respect to each eligible acquisition to which the law in effect prior to the enactment of OBRA '93 is to apply.

(ii) *Taxpayers subject to retroactive election.* A taxpayer may not make the binding contract election if the taxpayer or a person under common control with the taxpayer makes the retroactive election under paragraph (c) of this section.

(iii) *Revocation.* A binding contract election, once made, may be revoked only with the consent of the Commissioner.

(2) *Time and manner of election*—(i) *Time.* In general, the binding contract election must be made by the due date (including extensions of time) of the electing taxpayer's Federal income tax return for the election year. If, however, the taxpayer's original Federal income tax return for the election year is filed before April 14, 1994, the election may be made by amending that return no later than September 12, 1994.

(ii) *Manner.* The binding contract election is made by attaching the election statement described in paragraph (e) of this section to the taxpayer's original or amended income tax return for the election year.

(iii) *Effect of nonconforming election.* An attempted election that does not satisfy the requirements of this paragraph (d)(2) is not valid.

(e) *Election statement*—(1) *Filing requirements.* For an election under paragraph (c) or (d) of this section to be valid, the electing taxpayer must:

(i) File (with its Federal income tax return for the election year and with any affected amended returns required under paragraph (c)(4) of this section) a

written election statement, as an attachment to Form 4562 (Depreciation and Amortization), that satisfies the requirements of paragraph (e)(2) of this section; and

(ii) Forward a copy of the election statement to the Statistics Branch (QAM:S:6111), IRS Ogden Service Center, ATTN: Chief, Statistics Branch, P.O. Box 9941, Ogden, UT 84409.

(2) *Content of the election statement.* The written election statement must include the information in paragraphs (e)(2) (i) through (vi) and (ix) of this section in the case of a retroactive election, and the information in paragraphs (e)(2) (i) and (vii) through (ix) of this section in the case of a binding contract election. The required information should be arranged and identified in accordance with the following order and numbering system—

(i) The name, address and taxpayer identification number (TIN) of the electing taxpayer (and the common parent if a consolidated return is filed).

(ii) A statement that the taxpayer is making the retroactive election.

(iii) Identification of the transition period property affected by the retroactive election, the name and TIN of the person from which the property was acquired, the manner and date of acquisition, the basis at which the property was acquired, and the amount of depreciation, amortization, or other cost recovery under section 167 or any other provision of the Code claimed with respect to the property.

(iv) Identification of each taxpayer under common control (as defined in paragraph (b)(6) of this section) with the electing taxpayer by name, TIN, and Internal Revenue Service Center where the taxpayer's income tax return is filed.

(v) If any persons are required to be notified of the retroactive election under paragraph (c)(6) of this section, identification of such persons and certification that written notification of the election has been provided to such persons.

(vi) A statement that the transition period property being amortized under section 197 is not subject to the anti-churning rules of section 197(f)(9).

(vii) A statement that the taxpayer is making the binding contract election.

(viii) Identification of the property affected by the binding contract election, the name and TIN of the person from which the property was acquired, the manner and date of acquisition, the basis at which the property was acquired, and whether any of the property is subject to depreciation under section 167 or to amortization or other cost recovery under any other provision of the Code.

(ix) The signature of the taxpayer or an individual authorized to sign the taxpayer's Federal income tax return.

(f) *Effective date.* These regulations are effective March 15, 1994.

[T.D. 8528, 59 FR 11920, Mar. 15, 1994, as amended by T.D. 9377, 73 FR 3869, Jan. 23, 2008]

§ 1.197-2 Amortization of goodwill and certain other intangibles.

(a) *Overview—(1) In general.* Section 197 allows an amortization deduction for the capitalized costs of an amortizable section 197 intangible and prohibits any other depreciation or amortization with respect to that property. Paragraphs (b), (c), and (e) of this section provide rules and definitions for determining whether property is a section 197 intangible, and paragraphs (d) and (e) of this section provide rules and definitions for determining whether a section 197 intangible is an amortizable section 197 intangible. The amortization deduction under section 197 is determined by amortizing basis ratably over a 15-year period under the rules of paragraph (f) of this section. Section 197 also includes various special rules pertaining to the disposition of amortizable section 197 intangibles, non-recognition transactions, anti-churning rules, and anti-abuse rules. Rules relating to these provisions are contained in paragraphs (g), (h), and (j) of this section. Examples demonstrating the application of these provisions are contained in paragraph (k) of this section. The effective date of the rules in this section is contained in paragraph (l) of this section.

(2) *Section 167(f) property.* Section 167(f) prescribes rules for computing the depreciation deduction for certain

property to which section 197 does not apply. See § 1.167(a)-14 for rules under section 167(f) and paragraphs (c)(4), (6), (7), (11), and (13) of this section for a description of the property subject to section 167(f).

(3) *Amounts otherwise deductible.* Section 197 does not apply to amounts that are not chargeable to capital account under paragraph (f)(3) (relating to basis determinations for covenants not to compete and certain contracts for the use of section 197 intangibles) of this section and are otherwise currently deductible. For this purpose, an amount described in § 1.162-11 is not currently deductible if, without regard to § 1.162-11, such amount is properly chargeable to capital account.

(b) *Section 197 intangibles; in general.* Except as otherwise provided in paragraph (c) of this section, the term *section 197 intangible* means any property described in section 197(d)(1). The following rules and definitions provide guidance concerning property that is a section 197 intangible unless an exception applies:

(1) *Goodwill.* Section 197 intangibles include goodwill. Goodwill is the value of a trade or business attributable to the expectancy of continued customer patronage. This expectancy may be due to the name or reputation of a trade or business or any other factor.

(2) *Going concern value.* Section 197 intangibles include going concern value. Going concern value is the additional value that attaches to property by reason of its existence as an integral part of an ongoing business activity. Going concern value includes the value attributable to the ability of a trade or business (or a part of a trade or business) to continue functioning or generating income without interruption notwithstanding a change in ownership, but does not include any of the intangibles described in any other provision of this paragraph (b). It also includes the value that is attributable to the immediate use or availability of an acquired trade or business, such as, for example, the use of the revenues or net earnings that otherwise would not be received during any period if the acquired trade or business were not available or operational.

(3) *Workforce in place.* Section 197 intangibles include workforce in place. Workforce in place (sometimes referred to as agency force or assembled workforce) includes the composition of a workforce (for example, the experience, education, or training of a workforce), the terms and conditions of employment whether contractual or otherwise, and any other value placed on employees or any of their attributes. Thus, the amount paid or incurred for workforce in place includes, for example, any portion of the purchase price of an acquired trade or business attributable to the existence of a highly-skilled workforce, an existing employment contract (or contracts), or a relationship with employees or consultants (including, but not limited to, any key employee contract or relationship). Workforce in place does not include any covenant not to compete or other similar arrangement described in paragraph (b)(9) of this section.

(4) *Information base.* Section 197 intangibles include any information base, including a customer-related information base. For this purpose, an information base includes business books and records, operating systems, and any other information base (regardless of the method of recording the information) and a customer-related information base is any information base that includes lists or other information with respect to current or prospective customers. Thus, the amount paid or incurred for information base includes, for example, any portion of the purchase price of an acquired trade or business attributable to the intangible value of technical manuals, training manuals or programs, data files, and accounting or inventory control systems. Other examples include the cost of acquiring customer lists, subscription lists, insurance expirations, patient or client files, or lists of newspaper, magazine, radio, or television advertisers.

(5) *Know-how, etc.* Section 197 intangibles include any patent, copyright, formula, process, design, pattern, know-how, format, package design, computer software (as defined in paragraph (c)(4)(iv) of this section), or interest in a film, sound recording, video tape, book, or other similar property.

(See, however, the exceptions in paragraph (c) of this section.)

(6) *Customer-based intangibles.* Section 197 intangibles include any customer-based intangible. A customer-based intangible is any composition of market, market share, or other value resulting from the future provision of goods or services pursuant to contractual or other relationships in the ordinary course of business with customers. Thus, the amount paid or incurred for customer-based intangibles includes, for example, any portion of the purchase price of an acquired trade or business attributable to the existence of a customer base, a circulation base, an undeveloped market or market growth, insurance in force, the existence of a qualification to supply goods or services to a particular customer, a mortgage servicing contract (as defined in paragraph (c)(11) of this section), an investment management contract, or other relationship with customers involving the future provision of goods or services. (See, however, the exceptions in paragraph (c) of this section.) In addition, customer-based intangibles include the deposit base and any similar asset of a financial institution. Thus, the amount paid or incurred for customer-based intangibles also includes any portion of the purchase price of an acquired financial institution attributable to the value represented by existing checking accounts, savings accounts, escrow accounts, and other similar items of the financial institution. However, any portion of the purchase price of an acquired trade or business attributable to accounts receivable or other similar rights to income for goods or services provided to customers prior to the acquisition of a trade or business is not an amount paid or incurred for a customer-based intangible.

(7) *Supplier-based intangibles—(i) In general.* Section 197 intangibles include any supplier-based intangible. A *supplier-based intangible* is the value resulting from the future acquisition, pursuant to contractual or other relationships with suppliers in the ordinary course of business, of goods or services that will be sold or used by the taxpayer. Thus, the amount paid or incurred for supplier-based intangibles

includes, for example, any portion of the purchase price of an acquired trade or business attributable to the existence of a favorable relationship with persons providing distribution services (such as favorable shelf or display space at a retail outlet), or the existence of favorable supply contracts. The amount paid or incurred for supplier-based intangibles does not include any amount required to be paid for the goods or services themselves pursuant to the terms of the agreement or other relationship. In addition, see the exceptions in paragraph 2(c) of this section, including the exception in paragraph 2(c)(6) of this section for certain rights to receive tangible property or services from another person.

(ii) *Applicability date.* This section applies to supplier-based intangibles acquired after July 6, 2011.

(8) *Licenses, permits, and other rights granted by governmental units.* Section 197 intangibles include any license, permit, or other right granted by a governmental unit (including, for purposes of section 197, an agency or instrumentality thereof) even if the right is granted for an indefinite period or is reasonably expected to be renewed for an indefinite period. These rights include, for example, a liquor license, a taxi-cab medallion (or license), an airport landing or takeoff right (sometimes referred to as a slot), a regulated airline route, or a television or radio broadcasting license. The issuance or renewal of a license, permit, or other right granted by a governmental unit is considered an acquisition of the license, permit, or other right. (See, however, the exceptions in paragraph (c) of this section, including the exceptions in paragraph (c)(3) of this section for an interest in land, paragraph (c)(6) of this section for certain rights to receive tangible property or services, paragraph (c)(8) of this section for an interest under a lease of tangible property, and paragraph (c)(13) of this section for certain rights granted by a governmental unit. See paragraph (b)(10) of this section for the treatment of franchises.)

(9) *Covenants not to compete and other similar arrangements.* Section 197 intangibles include any covenant not to

compete, or agreement having substantially the same effect, entered into in connection with the direct or indirect acquisition of an interest in a trade or business or a substantial portion thereof. For purposes of this paragraph (b)(9), an acquisition may be made in the form of an asset acquisition (including a qualified stock purchase that is treated as a purchase of assets under section 338), a stock acquisition or redemption, and the acquisition or redemption of a partnership interest. An agreement requiring the performance of services for the acquiring taxpayer or the provision of property or its use to the acquiring taxpayer does not have substantially the same effect as a covenant not to compete to the extent that the amount paid under the agreement represents reasonable compensation for the services actually rendered or for the property or use of the property actually provided.

(10) *Franchises, trademarks, and trade names.* (i) Section 197 intangibles include any franchise, trademark, or trade name. The term *franchise* has the meaning given in section 1253(b)(1) and includes any agreement that provides one of the parties to the agreement with the right to distribute, sell, or provide goods, services, or facilities, within a specified area. The term *trademark* includes any word, name, symbol, or device, or any combination thereof, adopted and used to identify goods or services and distinguish them from those provided by others. The term *trade name* includes any name used to identify or designate a particular trade or business or the name or title used by a person or organization engaged in a trade or business. A license, permit, or other right granted by a governmental unit is a franchise if it otherwise meets the definition of a franchise. A trademark or trade name includes any trademark or trade name arising under statute or applicable common law, and any similar right granted by contract. The renewal of a franchise, trademark, or trade name is treated as an acquisition of the franchise, trademark, or trade name.

(ii) Notwithstanding the definitions provided in paragraph (b)(10)(i) of this section, any amount that is paid or incurred on account of a transfer, sale, or

other disposition of a franchise, trademark, or trade name and that is subject to section 1253(d)(1) is not included in the basis of a section 197 intangible. (See paragraph (g)(6) of this section.)

(11) *Contracts for the use of, and term interests in, section 197 intangibles.* Section 197 intangibles include any right under a license, contract, or other arrangement providing for the use of property that would be a section 197 intangible under any provision of this paragraph (b) (including this paragraph (b)(11)) after giving effect to all of the exceptions provided in paragraph (c) of this section. Section 197 intangibles also include any term interest (whether outright or in trust) in such property.

(12) *Other similar items.* Section 197 intangibles include any other intangible property that is similar in all material respects to the property specifically described in section 197(d)(1)(C)(i) through (v) and paragraphs (b)(3) through (7) of this section. (See paragraph (g)(5) of this section for special rules regarding certain reinsurance transactions.)

(c) *Section 197 intangibles; exceptions.* The term *section 197 intangible* does not include property described in section 197(e). The following rules and definitions provide guidance concerning property to which the exceptions apply:

(1) *Interests in a corporation, partnership, trust, or estate.* Section 197 intangibles do not include an interest in a corporation, partnership, trust, or estate. Thus, for example, amortization under section 197 is not available for the cost of acquiring stock, partnership interests, or interests in a trust or estate, whether or not the interests are regularly traded on an established market. (See paragraph (g)(3) of this section for special rules applicable to property of a partnership when a section 754 election is in effect for the partnership.)

(2) *Interests under certain financial contracts.* Section 197 intangibles do not include an interest under an existing futures contract, foreign currency contract, notional principal contract, interest rate swap, or other similar financial contract, whether or not the

interest is regularly traded on an established market. However, this exception does not apply to an interest under a mortgage servicing contract, credit card servicing contract, or other contract to service another person's indebtedness, or an interest under an assumption reinsurance contract. (See paragraph (g)(5) of this section for the treatment of assumption reinsurance contracts. See paragraph (c)(11) of this section and § 1.167(a)-14(d) for the treatment of mortgage servicing rights.)

(3) *Interests in land.* Section 197 intangibles do not include any interest in land. For this purpose, an interest in land includes a fee interest, life estate, remainder, easement, mineral right, timber right, grazing right, riparian right, air right, zoning variance, and any other similar right, such as a farm allotment, quota for farm commodities, or crop acreage base. An interest in land does not include an airport landing or takeoff right, a regulated airline route, or a franchise to provide cable television service. The cost of acquiring a license, permit, or other land improvement right, such as a building construction or use permit, is taken into account in the same manner as the underlying improvement.

(4) *Certain computer software*—(i) *Publicly available.* Section 197 intangibles do not include any interest in computer software that is (or has been) readily available to the general public on similar terms, is subject to a non-exclusive license, and has not been substantially modified. Computer software will be treated as readily available to the general public if the software may be obtained on substantially the same terms by a significant number of persons that would reasonably be expected to use the software. This requirement can be met even though the software is not available through a system of retail distribution. Computer software will not be considered to have been substantially modified if the cost of all modifications to the version of the software that is readily available to the general public does not exceed the greater of 25 percent of the price at which the unmodified version of the software is readily available to the general public or \$2,000. For the purpose of determining whether computer

software has been substantially modified—

(A) Integrated programs acquired in a package from a single source are treated as a single computer program; and

(B) Any cost incurred to install the computer software on a system is not treated as a cost of the software. However, the costs for customization, such as tailoring to a user's specifications (other than embedded programming options) are costs of modifying the software.

(ii) *Not acquired as part of trade or business.* Section 197 intangibles do not include an interest in computer software that is not acquired as part of a purchase of a trade or business.

(iii) *Other exceptions.* For other exceptions applicable to computer software, see paragraph (a)(3) of this section (relating to otherwise deductible amounts) and paragraph (g)(7) of this section (relating to amounts properly taken into account in determining the cost of property that is not a section 197 intangible).

(iv) *Computer software defined.* For purposes of this section, computer software is any program or routine (that is, any sequence of machine-readable code) that is designed to cause a computer to perform a desired function or set of functions, and the documentation required to describe and maintain that program or routine. It includes all forms and media in which the software is contained, whether written, magnetic, or otherwise. Computer programs of all classes, for example, operating systems, executive systems, monitors, compilers and translators, assembly routines, and utility programs as well as application programs, are included. Computer software also includes any incidental and ancillary rights that are necessary to effect the acquisition of the title to, the ownership of, or the right to use the computer software, and that are used only in connection with that specific computer software. Such incidental and ancillary rights are not included in the definition of trademark or trade name under paragraph (b)(10)(i) of this section. For example, a trademark or trade name that is ancillary to the ownership or use of a specific computer

software program in the taxpayer's trade or business and is not acquired for the purpose of marketing the computer software is included in the definition of computer software and is not included in the definition of trademark or trade name. Computer software does not include any data or information base described in paragraph (b)(4) of this section unless the data base or item is in the public domain and is incidental to a computer program. For this purpose, a copyrighted or proprietary data or information base is treated as in the public domain if its availability through the computer program does not contribute significantly to the cost of the program. For example, if a word-processing program includes a dictionary feature used to spell-check a document or any portion thereof, the entire program (including the dictionary feature) is computer software regardless of the form in which the feature is maintained or stored.

(5) *Certain interests in films, sound recordings, video tapes, books, or other similar property.* Section 197 intangibles do not include any interest (including an interest as a licensee) in a film, sound recording, video tape, book, or other similar property (such as the right to broadcast or transmit a live event) if the interest is not acquired as part of a purchase of a trade or business. A film, sound recording, video tape, book, or other similar property includes any incidental and ancillary rights (such as a trademark or trade name) that are necessary to effect the acquisition of title to, the ownership of, or the right to use the property and are used only in connection with that property. Such incidental and ancillary rights are not included in the definition of trademark or trade name under paragraph (b)(10)(i) of this section. For purposes of this paragraph (c)(5), computer software (as defined in paragraph (c)(4)(iv) of this section) is not treated as other property similar to a film, sound recording, video tape, or book. (See section 167 for amortization of excluded intangible property or interests.)

(6) *Certain rights to receive tangible property or services.* Section 197 intangibles do not include any right to receive tangible property or services under a contract or from a governmental unit

if the right is not acquired as part of a purchase of a trade or business. Any right that is described in the preceding sentence is not treated as a section 197 intangible even though the right is also described in section 197(d)(1)(D) and paragraph (b)(8) of this section (relating to certain governmental licenses, permits, and other rights) and even though the right fails to meet one or more of the requirements of paragraph (c)(13) of this section (relating to certain rights of fixed duration or amount). (See § 1.167(a)-14(c) (1) and (3) for applicable rules.)

(7) *Certain interests in patents or copyrights.* Section 197 intangibles do not include any interest (including an interest as a licensee) in a patent, patent application, or copyright that is not acquired as part of a purchase of a trade or business. A patent or copyright includes any incidental and ancillary rights (such as a trademark or trade name) that are necessary to effect the acquisition of title to, the ownership of, or the right to use the property and are used only in connection with that property. Such incidental and ancillary rights are not included in the definition of trademark or trade name under paragraph (b)(10)(i) of this section. (See § 1.167(a)-14(c)(4) for applicable rules.)

(8) *Interests under leases of tangible property—(i) Interest as a lessor.* Section 197 intangibles do not include any interest as a lessor under an existing lease or sublease of tangible real or personal property. In addition, the cost of acquiring an interest as a lessor in connection with the acquisition of tangible property is taken into account as part of the cost of the tangible property. For example, if a taxpayer acquires a shopping center that is leased to tenants operating retail stores, any portion of the purchase price attributable to favorable lease terms is taken into account as part of the basis of the shopping center and in determining the depreciation deduction allowed with respect to the shopping center. (See section 167(c)(2).)

(ii) *Interest as a lessee.* Section 197 intangibles do not include any interest as a lessee under an existing lease of tangible real or personal property. For

this purpose, an airline lease of an airport passenger or cargo gate is a lease of tangible property. The cost of acquiring such an interest is taken into account under section 178 and § 1.162-11(a). If an interest as a lessee under a lease of tangible property is acquired in a transaction with any other intangible property, a portion of the total purchase price may be allocable to the interest as a lessee based on all of the relevant facts and circumstances.

(9) *Interests under indebtedness*—(i) *In general.* Section 197 intangibles do not include any interest (whether as a creditor or debtor) under an indebtedness in existence when the interest was acquired. Thus, for example, the value attributable to the assumption of an indebtedness with a below-market interest rate is not amortizable under section 197. In addition, the premium paid for acquiring a debt instrument with an above-market interest rate is not amortizable under section 197. See section 171 for rules concerning the treatment of amortizable bond premium.

(ii) *Exceptions.* For purposes of this paragraph (c)(9), an interest under an existing indebtedness does not include the deposit base (and other similar items) of a financial institution. An interest under an existing indebtedness includes mortgage servicing rights, however, to the extent the rights are stripped coupons under section 1286.

(10) *Professional sports franchises.* Section 197 intangibles do not include any franchise to engage in professional baseball, basketball, football, or any other professional sport, and any item (even though otherwise qualifying as a section 197 intangible) acquired in connection with such a franchise.

(11) *Mortgage servicing rights.* Section 197 intangibles do not include any right described in section 197(e)(7) (concerning rights to service indebtedness secured by residential real property that are not acquired as part of a purchase of a trade or business). (See § 1.167(a)-14(d) for applicable rules.)

(12) *Certain transaction costs.* Section 197 intangibles do not include any fees for professional services and any transaction costs incurred by parties to a transaction in which all or any portion of the gain or loss is not recognized

under part III of subchapter C of the Internal Revenue Code.

(13) *Rights of fixed duration or amount.*

(i) Section 197 intangibles do not include any right under a contract or any license, permit, or other right granted by a governmental unit if the right—

(A) Is acquired in the ordinary course of a trade or business (or an activity described in section 212) and not as part of a purchase of a trade or business;

(B) Is not described in section 197(d)(1)(A), (B), (E), or (F);

(C) Is not a customer-based intangible, a customer-related information base, or any other similar item; and

(D) Either—

(1) Has a fixed duration of less than 15 years; or

(2) Is fixed as to amount and the adjusted basis thereof is properly recoverable (without regard to this section) under a method similar to the unit-of-production method.

(ii) See § 1.167(a)-14(c)(2) and (3) for applicable rules.

(d) *Amortizable section 197 intangibles*—

(1) *Definition.* Except as otherwise provided in this paragraph (d), the term *amortizable section 197 intangible* means any section 197 intangible acquired after August 10, 1993 (or after July 25, 1991, if a valid retroactive election under § 1.197-1T has been made), and held in connection with the conduct of a trade or business or an activity described in section 212.

(2) *Exception for self-created intangibles*—(i) *In general.* Except as provided in paragraph (d)(2)(iii) of this section, amortizable section 197 intangibles do not include any section 197 intangible created by the taxpayer (a self-created intangible).

(ii) *Created by the taxpayer*—(A) *Defined.* A section 197 intangible is created by the taxpayer to the extent the taxpayer makes payments or otherwise incurs costs for its creation, production, development, or improvement, whether the actual work is performed by the taxpayer or by another person under a contract with the taxpayer entered into before the contracted creation, production, development, or improvement occurs. For example, a technological process developed specifically for a taxpayer under an arrangement

with another person pursuant to which the taxpayer retains all rights to the process is created by the taxpayer.

(B) *Contracts for the use of intangibles.* A section 197 intangible is not a self-created intangible to the extent that it results from the entry into (or renewal of) a contract for the use of an existing section 197 intangible. Thus, for example, the exception for self-created intangibles does not apply to capitalized costs, such as legal and other professional fees, incurred by a licensee in connection with the entry into (or renewal of) a contract for the use of know-how or similar property.

(C) *Improvements and modifications.* If an existing section 197 intangible is improved or otherwise modified by the taxpayer or by another person under a contract with the taxpayer, the existing intangible and the capitalized costs (if any) of the improvements or other modifications are each treated as a separate section 197 intangible for purposes of this paragraph (d).

(iii) *Exceptions.* (A) The exception for self-created intangibles does not apply to any section 197 intangible described in section 197(d)(1)(D) (relating to licenses, permits or other rights granted by a governmental unit), 197(d)(1)(E) (relating to covenants not to compete), or 197(d)(1)(F) (relating to franchises, trademarks, and trade names). Thus, for example, capitalized costs incurred in the development, registration, or defense of a trademark or trade name do not qualify for the exception and are amortized over 15 years under section 197.

(B) The exception for self-created intangibles does not apply to any section 197 intangible created in connection with the purchase of a trade or business (as defined in paragraph (e) of this section).

(C) If a taxpayer disposes of a self-created intangible and subsequently reacquires the intangible in an acquisition described in paragraph (h)(5)(ii) of this section, the exception for self-created intangibles does not apply to the reacquired intangible.

(3) *Exception for property subject to anti-churning rules.* Amortizable section 197 intangibles do not include any property to which the anti-churning rules

of section 197(f)(9) and paragraph (h) of this section apply.

(e) *Purchase of a trade or business.* Several of the exceptions in section 197 apply only to property that is not acquired in (or created in connection with) a transaction or series of related transactions involving the acquisition of assets constituting a trade or business or a substantial portion thereof. Property acquired in (or created in connection with) such a transaction or series of related transactions is referred to in this section as property acquired as part of (or created in connection with) a purchase of a trade or business. For purposes of section 197 and this section, the applicability of the limitation is determined under the following rules:

(1) *Goodwill or going concern value.* An asset or group of assets constitutes a trade or business or a substantial portion thereof if their use would constitute a trade or business under section 1060 (that is, if goodwill or going concern value could under any circumstances attach to the assets). See § 1.1060-1(b)(2). For this purpose, all the facts and circumstances, including any employee relationships that continue (or covenants not to compete that are entered into) as part of the transfer of the assets, are taken into account in determining whether goodwill or going concern value could attach to the assets.

(2) *Franchise, trademark, or trade name—(i) In general.* The acquisition of a franchise, trademark, or trade name constitutes the acquisition of a trade or business or a substantial portion thereof.

(ii) *Exceptions.* For purposes of this paragraph (e)(2)—

(A) A trademark or trade name is disregarded if it is included in computer software under paragraph (c)(4) of this section or in an interest in a film, sound recording, video tape, book, or other similar property under paragraph (c)(5) of this section;

(B) A franchise, trademark, or trade name is disregarded if its value is nominal or the taxpayer irrevocably disposes of it immediately after its acquisition; and

(C) The acquisition of a right or interest in a trademark or trade name is

disregarded if the grant of the right or interest is not, under the principles of section 1253, a transfer of all substantial rights to such property or of an undivided interest in all substantial rights to such property.

(3) *Acquisitions to be included.* The assets acquired in a transaction (or series of related transactions) include only assets (including a beneficial or other indirect interest in assets where the interest is of a type described in paragraph (c)(1) of this section) acquired by the taxpayer and persons related to the taxpayer from another person and persons related to that other person. For purposes of this paragraph (e)(3), persons are related only if their relationship is described in section 267(b) or 707(b) or they are engaged in trades or businesses under common control within the meaning of section 41(f)(1).

(4) *Substantial portion.* The determination of whether acquired assets constitute a substantial portion of a trade or business is to be based on all of the facts and circumstances, including the nature and the amount of the assets acquired as well as the nature and amount of the assets retained by the transferor. The value of the assets acquired relative to the value of the assets retained by the transferor is not determinative of whether the acquired assets constitute a substantial portion of a trade or business.

(5) *Deemed asset purchases under section 338.* A qualified stock purchase that is treated as a purchase of assets under section 338 is treated as a transaction involving the acquisition of assets constituting a trade or business only if the direct acquisition of the assets of the corporation would have been treated as the acquisition of assets constituting a trade or business or a substantial portion thereof.

(6) *Mortgage servicing rights.* Mortgage servicing rights acquired in a transaction or series of related transactions are disregarded in determining for purposes of paragraph (c)(11) of this section whether the assets acquired in the transaction or transactions constitute a trade or business or substantial portion thereof.

(7) *Computer software acquired for internal use.* Computer software acquired in a transaction or series of related

transactions solely for internal use in an existing trade or business is disregarded in determining for purposes of paragraph (c)(4) of this section whether the assets acquired in the transaction or series of related transactions constitute a trade or business or substantial portion thereof.

(f) *Computation of amortization deduction—*(1) *In general.* Except as provided in paragraph (f)(2) of this section, the amortization deduction allowable under section 197(a) is computed as follows:

(i) The basis of an amortizable section 197 intangible is amortized ratably over the 15-year period beginning on the later of—

(A) The first day of the month in which the property is acquired; or

(B) In the case of property held in connection with the conduct of a trade or business or in an activity described in section 212, the first day of the month in which the conduct of the trade or business or the activity begins.

(ii) Except as otherwise provided in this section, basis is determined under section 1011 and salvage value is disregarded.

(iii) Property is not eligible for amortization in the month of disposition.

(iv) The amortization deduction for a short taxable year is based on the number of months in the short taxable year.

(2) *Treatment of contingent amounts—*

(i) *Amounts added to basis during 15-year period.* Any amount that is properly included in the basis of an amortizable section 197 intangible after the first month of the 15-year period described in paragraph (f)(1)(i) of this section and before the expiration of that period is amortized ratably over the remainder of the 15-year period. For this purpose, the remainder of the 15-year period begins on the first day of the month in which the basis increase occurs.

(ii) *Amounts becoming fixed after expiration of 15-year period.* Any amount that is not properly included in the basis of an amortizable section 197 intangible until after the expiration of

the 15-year period described in paragraph (f)(1)(i) of this section is amortized in full immediately upon the inclusion of the amount in the basis of the intangible.

(iii) *Rules for including amounts in basis.* See §§ 1.1275-4(c)(4) and 1.483-4(a) for rules governing the extent to which contingent amounts payable under a debt instrument given in consideration for the sale or exchange of an amortizable section 197 intangible are treated as payments of principal and the time at which the amount treated as principal is included in basis. See § 1.461-1(a)(1) and (2) for rules governing the time at which other contingent amounts are taken into account in determining the basis of an amortizable section 197 intangible.

(3) *Basis determinations for certain assets—(i) Covenants not to compete.* In the case of a covenant not to compete or other similar arrangement described in paragraph (b)(9) of this section (a covenant), the amount chargeable to capital account includes, except as provided in this paragraph (f)(3), all amounts that are required to be paid pursuant to the covenant, whether or not any such amount would be deductible under section 162 if the covenant were not a section 197 intangible.

(ii) *Contracts for the use of section 197 intangibles; acquired as part of a trade or business—(A) In general.* Except as provided in this paragraph (f)(3), any amount paid or incurred by the transferee on account of the transfer of a right or term interest described in paragraph (b)(11) of this section (relating to contracts for the use of, and term interests in, section 197 intangibles) by the owner of the property to which such right or interest relates and as part of a purchase of a trade or business is chargeable to capital account, whether or not such amount would be deductible under section 162 if the property were not a section 197 intangible.

(B) *Know-how and certain information base.* The amount chargeable to capital account with respect to a right or term interest described in paragraph (b)(11) of this section is determined without regard to the rule in paragraph (f)(3)(ii)(A) of this section if the right or interest relates to property (other

than a customer-related information base) described in paragraph (b)(4) or (5) of this section and the acquiring taxpayer establishes that—

(1) The transfer of the right or interest is not, under the principles of section 1235, a transfer of all substantial rights to such property or of an undivided interest in all substantial rights to such property; and

(2) The right or interest was transferred for an arm's-length consideration.

(iii) *Contracts for the use of section 197 intangibles; not acquired as part of a trade or business.* The transfer of a right or term interest described in paragraph (b)(11) of this section by the owner of the property to which such right or interest relates but not as part of a purchase of a trade or business will be closely scrutinized under the principles of section 1235 for purposes of determining whether the transfer is a sale or exchange and, accordingly, whether amounts paid on account of the transfer are chargeable to capital account. If under the principles of section 1235 the transaction is not a sale or exchange, amounts paid on account of the transfer are not chargeable to capital account under this paragraph (f)(3).

(iv) *Applicable rules—(A) Franchises, trademarks, and trade names.* For purposes of this paragraph (f)(3), section 197 intangibles described in paragraph (b)(11) of this section do not include any property that is also described in paragraph (b)(10) of this section (relating to franchises, trademarks, and trade names).

(B) *Certain amounts treated as payable under a debt instrument—(1) In general.* For purposes of applying any provision of the Internal Revenue Code to a person making payments of amounts that are otherwise chargeable to capital account under this paragraph (f)(3) and are payable after the acquisition of the section 197 intangible to which they relate, such amounts are treated as payable under a debt instrument given in consideration for the sale or exchange of the section 197 intangible.

(2) *Rights granted by governmental units.* For purposes of applying any provision of the Internal Revenue Code to any amounts that are otherwise

chargeable to capital account with respect to a license, permit, or other right described in paragraph (b)(8) of this section (relating to rights granted by a governmental unit or agency or instrumentality thereof) and are payable after the acquisition of the section 197 intangible to which they relate, such amounts are treated, except as provided in paragraph (f)(4)(i) of this section (relating to renewal transactions), as payable under a debt instrument given in consideration for the sale or exchange of the section 197 intangible.

(3) *Treatment of other parties to transaction.* No person shall be treated as having sold, exchanged, or otherwise disposed of property in a transaction for purposes of any provision of the Internal Revenue Code solely by reason of the application of this paragraph (f)(3) to any other party to the transaction.

(4) *Basis determinations in certain transactions—(i) Certain renewal transactions.* The costs paid or incurred for the renewal of a franchise, trademark, or trade name or any license, permit, or other right granted by a governmental unit or an agency or instrumentality thereof are amortized over the 15-year period that begins with the month of renewal. Any costs paid or incurred for the issuance, or earlier renewal, continue to be taken into account over the remaining portion of the amortization period that began at the time of the issuance, or earlier renewal. Any amount paid or incurred for the protection, expansion, or defense of a trademark or trade name and chargeable to capital account is treated as an amount paid or incurred for a renewal.

(ii) *Transactions subject to section 338 or 1060.* In the case of a section 197 intangible deemed to have been acquired as the result of a qualified stock purchase within the meaning of section 338(d)(3), the basis shall be determined pursuant to section 338(b)(5) and the regulations thereunder. In the case of a section 197 intangible acquired in an applicable asset acquisition within the meaning of section 1060(c), the basis shall be determined pursuant to section 1060(a) and the regulations thereunder.

(iii) *Certain reinsurance transactions.* See paragraph (g)(5)(ii) of this section for special rules regarding the adjusted basis of an insurance contract acquired through an assumption reinsurance transaction.

(g) *Special rules—(1) Treatment of certain dispositions—(i) Loss disallowance rules—(A) In general.* No loss is recognized on the disposition of an amortizable section 197 intangible if the taxpayer has any retained intangibles. The retained intangibles with respect to the disposition of any amortizable section 197 intangible (the transferred intangible) are all amortizable section 197 intangibles, or rights to use or interests (including beneficial or other indirect interests) in amortizable section 197 intangibles (including the transferred intangible) that were acquired in the same transaction or series of related transactions as the transferred intangible and are retained after its disposition. Except as otherwise provided in paragraph (g)(1)(iv)(B) of this section, the adjusted basis of each of the retained intangibles is increased by the product of—

(1) The loss that is not recognized solely by reason of this rule; and

(2) A fraction, the numerator of which is the adjusted basis of the retained intangible on the date of the disposition and the denominator of which is the total adjusted bases of all the retained intangibles on that date.

(B) *Abandonment or worthlessness.* The abandonment of an amortizable section 197 intangible, or any other event rendering an amortizable section 197 intangible worthless, is treated as a disposition of the intangible for purposes of this paragraph (g)(1), and the abandoned or worthless intangible is disregarded (that is, it is not treated as a retained intangible) for purposes of applying this paragraph (g)(1) to the subsequent disposition of any other amortizable section 197 intangible.

(C) *Certain nonrecognition transfers.* The loss disallowance rule in paragraph (g)(1)(i)(A) of this section also applies when a taxpayer transfers an amortizable section 197 intangible from an acquired trade or business in a transaction in which the intangible is transferred basis property and, after the

transfer, retains other amortizable section 197 intangibles from the trade or business. Thus, for example, the transfer of an amortizable section 197 intangible to a corporation in exchange for stock in the corporation in a transaction described in section 351, or to a partnership in exchange for an interest in the partnership in a transaction described in section 721, when other amortizable section 197 intangibles acquired in the same transaction are retained, followed by a sale of the stock or partnership interest received, will not avoid the application of the loss disallowance provision to the extent the adjusted basis of the transferred intangible at the time of the sale exceeds its fair market value at that time.

(ii) *Separately acquired property.* Paragraph (g)(1)(i) of this section does not apply to an amortizable section 197 intangible that is not acquired in a transaction or series of related transactions in which the taxpayer acquires other amortizable section 197 intangibles (a separately acquired intangible). Consequently, a loss may be recognized upon the disposition of a separately acquired amortizable section 197 intangible. However, the termination or worthlessness of only a portion of an amortizable section 197 intangible is not the disposition of a separately acquired intangible. For example, neither the loss of several customers from an acquired customer list nor the worthlessness of only some information from an acquired data base constitutes the disposition of a separately acquired intangible.

(iii) *Disposition of a covenant not to compete.* If a covenant not to compete or any other arrangement having substantially the same effect is entered into in connection with the direct or indirect acquisition of an interest in one or more trades or businesses, the disposition or worthlessness of the covenant or other arrangement will not be considered to occur until the disposition or worthlessness of all interests in those trades or businesses. For example, a covenant not to compete entered into in connection with the purchase of stock continues to be amortized ratably over the 15-year recovery period (even after the covenant expires or becomes worthless) unless all the trades

or businesses in which an interest was acquired through the stock purchase (or all the purchaser's interests in those trades or businesses) also are disposed of or become worthless.

(iv) *Taxpayers under common control—*
(A) *In general.* Except as provided in paragraph (g)(1)(iv)(B) of this section, all persons that would be treated as a single taxpayer under section 41(f)(1) are treated as a single taxpayer under this paragraph (g)(1). Thus, for example, a loss is not recognized on the disposition of an amortizable section 197 intangible by a member of a controlled group of corporations (as defined in section 41(f)(5)) if, after the disposition, another member retains other amortizable section 197 intangibles acquired in the same transaction as the amortizable section 197 intangible that has been disposed of.

(B) *Treatment of disallowed loss.* If retained intangibles are held by a person other than the person incurring the disallowed loss, only the adjusted basis of intangibles retained by the person incurring the disallowed loss is increased, and only the adjusted basis of those intangibles is included in the denominator of the fraction described in paragraph (g)(1)(i)(A) of this section. If none of the retained intangibles are held by the person incurring the disallowed loss, the loss is allowed ratably, as a deduction under section 197, over the remainder of the period during which the intangible giving rise to the loss would have been amortizable, except that any remaining disallowed loss is allowed in full on the first date on which all other retained intangibles have been disposed of or become worthless.

(2) *Treatment of certain nonrecognition and exchange transactions—*(i) *Relationship to anti-churning rules.* This paragraph (g)(2) provides rules relating to the treatment of section 197 intangibles acquired in certain transactions. If these rules apply to a section 197(f)(9) intangible (within the meaning of paragraph (h)(1)(i) of this section), the intangible is, notwithstanding its treatment under this paragraph (g)(2), treated as an amortizable section 197 intangible only to the extent permitted under paragraph (h) of this section.

(ii) *Treatment of nonrecognition and exchange transactions generally*—(A) *Transfer disregarded*. If a section 197 intangible is transferred in a transaction described in paragraph (g)(2)(ii)(C) of this section, the transfer is disregarded in determining—

(1) Whether, with respect to so much of the intangible's basis in the hands of the transferee as does not exceed its basis in the hands of the transferor, the intangible is an amortizable section 197 intangible; and

(2) The amount of the deduction under section 197 with respect to such basis.

(B) *Application of general rule*. If the intangible described in paragraph (g)(2)(ii)(A) of this section was an amortizable section 197 intangible in the hands of the transferor, the transferee will continue to amortize its adjusted basis, to the extent it does not exceed the transferor's adjusted basis, ratably over the remainder of the transferor's 15-year amortization period. If the intangible was not an amortizable section 197 intangible in the hands of the transferor, the transferee's adjusted basis, to the extent it does not exceed the transferor's adjusted basis, cannot be amortized under section 197. In either event, the intangible is treated, with respect to so much of its adjusted basis in the hands of the transferee as exceeds its adjusted basis in the hands of the transferor, in the same manner for purposes of section 197 as an intangible acquired from the transferor in a transaction that is not described in paragraph (g)(2)(ii)(C) of this section. The rules of this paragraph (g)(2)(ii) also apply to any subsequent transfers of the intangible in a transaction described in paragraph (g)(2)(ii)(C) of this section.

(C) *Transactions covered*. The transactions described in this paragraph (g)(2)(ii)(C) are—

(1) Any transaction described in section 332, 351, 361, 721, or 731; and

(2) Any transaction between corporations that are members of the same consolidated group immediately after the transaction.

(iii) *Certain exchanged-basis property*. This paragraph (g)(2)(iii) applies to property that is acquired in a transaction subject to section 1031 or 1033

and is permitted to be acquired without recognition of gain (replacement property). Replacement property is treated as if it were the property by reference to which its basis is determined (the predecessor property) in determining whether, with respect to so much of its basis as does not exceed the basis of the predecessor property, the replacement property is an amortizable section 197 intangible and the amortization period under section 197 with respect to such basis. Thus, if the predecessor property was an amortizable section 197 intangible, the taxpayer will amortize the adjusted basis of the replacement property, to the extent it does not exceed the adjusted basis of the predecessor property, ratably over the remainder of the 15-year amortization period for the predecessor property. If the predecessor property was not an amortizable section 197 intangible, the adjusted basis of the replacement property, to the extent it does not exceed the adjusted basis of the predecessor property, may not be amortized under section 197. In either event, the replacement property is treated, with respect to so much of its adjusted basis as exceeds the adjusted basis of the predecessor property, in the same manner for purposes of section 197 as property acquired from the transferor in a transaction that is not subject to section 1031 or 1033.

(iv) *Transfers under section 708(b)(1)*—(A) *In general*. Paragraph (g)(2)(ii) of this section applies to transfers of section 197 intangibles that occur or are deemed to occur by reason of the termination of a partnership under section 708(b)(1).

(B) *Termination by sale or exchange of interest*. In applying paragraph (g)(2)(ii) of this section to a partnership that is terminated pursuant to section 708(b)(1)(B) (relating to deemed terminations from the sale or exchange of an interest), the terminated partnership is treated as the transferor and the new partnership is treated as the transferee with respect to any section 197 intangible held by the terminated partnership immediately preceding the termination. (See paragraph (g)(3) of this section for the treatment of increases in the bases of property of the terminated partnership under section 743(b).)

(C) *Other terminations.* In applying paragraph (g)(2)(ii) of this section to a partnership that is terminated pursuant to section 708(b)(1)(A) (relating to cessation of activities by a partnership), the terminated partnership is treated as the transferor and the distributee partner is treated as the transferee with respect to any section 197 intangible held by the terminated partnership immediately preceding the termination.

(3) *Increase in the basis of partnership property under section 732(b), 734(b), 743(b), or 732(d).* Any increase in the adjusted basis of a section 197 intangible under sections 732(b) or 732(d) (relating to a partner's basis in property distributed by a partnership), section 734(b) (relating to the optional adjustment to the basis of undistributed partnership property after a distribution of property to a partner), or section 743(b) (relating to the optional adjustment to the basis of partnership property after transfer of a partnership interest) is treated as a separate section 197 intangible. For purposes of determining the amortization period under section 197 with respect to the basis increase, the intangible is treated as having been acquired at the time of the transaction that causes the basis increase, except as provided in § 1.743-1(j)(4)(i)(B)(2). The provisions of paragraph (f)(2) of this section apply to the extent that the amount of the basis increase is determined by reference to contingent payments. For purposes of the effective date and anti-churning provisions (paragraphs (l)(1) and (h) of this section) for a basis increase under section 732(d), the intangible is treated as having been acquired by the transferee partner at the time of the transfer of the partnership interest described in section 732(d).

(4) *Section 704(c) allocations—(i) Allocations where the intangible is amortizable by the contributor.* To the extent that the intangible was an amortizable section 197 intangible in the hands of the contributing partner, a partnership may make allocations of amortization deductions with respect to the intangible to all of its partners under any of the permissible methods described in the regulations under section 704(c). See § 1.704-3.

(ii) *Allocations where the intangible is not amortizable by the contributor.* To the extent that the intangible was not an amortizable section 197 intangible in the hands of the contributing partner, the intangible is not amortizable under section 197 by the partnership. However, if a partner contributes a section 197 intangible to a partnership and the partnership adopts the remedial allocation method for making section 704(c) allocations of amortization deductions, the partnership generally may make remedial allocations of amortization deductions with respect to the contributed section 197 intangible in accordance with § 1.704-3(d). See paragraph (h)(12) of this section to determine the application of the anti-churning rules in the context of remedial allocations.

(5) *Treatment of certain insurance contracts acquired in an assumption reinsurance transaction—(i) In general.* Section 197 generally applies to insurance and annuity contracts acquired from another person through an assumption reinsurance transaction. See § 1.809-5(a)(7)(ii) for the definition of assumption reinsurance. The transfer of insurance or annuity contracts and the assumption of related liabilities deemed to occur by reason of a section 338 election for a target insurance company is treated as an assumption reinsurance transaction. The transfer of a reinsurance contract by a reinsurer (transferor) to another reinsurer (acquirer) is treated as an assumption reinsurance transaction if the transferor's obligations are extinguished as a result of the transaction.

(ii) *Determination of adjusted basis of amortizable section 197 intangible resulting from an assumption reinsurance transaction—(A) In general.* Section 197(f)(5) determines the basis of an amortizable section 197 intangible for insurance or annuity contracts acquired in an assumption reinsurance transaction. The basis of such intangible is the excess, if any, of—

(1) The amount paid or incurred by the acquirer (reinsurer) under the assumption reinsurance transaction; over

(2) The amount, if any, required to be capitalized under section 848 in connection with such transaction.

(B) *Amount paid or incurred by acquirer (reinsurer) under the assumption reinsurance transaction.* The amount paid or incurred by the acquirer (reinsurer) under the assumption reinsurance transaction is—

(1) In a deemed asset sale resulting from an election under section 338, the amount of the adjusted grossed-up basis (AGUB) allocable thereto (see §§ 1.338-6 and 1.338-11(b)(2));

(2) In an applicable asset acquisition within the meaning of section 1060, the amount of the consideration allocable thereto (see §§ 1.338-6, 1.338-11(b)(2), and 1.1060-1(c)(5)); and

(3) In any other transaction, the excess of the increase in the reinsurer's tax reserves resulting from the transaction (computed in accordance with sections 807, 832(b)(4)(B), and 846) over the value of the net assets received from the ceding company in the transaction.

(C) *Amount required to be capitalized under section 848 in connection with the transaction—*(1) *In general.* The amount required to be capitalized under section 848 for specified insurance contracts (as defined in section 848(e)) acquired in an assumption reinsurance transaction is the lesser of—

(i) The reinsurer's required capitalization amount for the assumption reinsurance transaction; or

(ii) The reinsurer's general deductions (as defined in section 848(c)(2)) allocable to the transaction.

(2) *Required capitalization amount.* The reinsurer determines the required capitalization amount for an assumption reinsurance transaction by multiplying the net positive or net negative consideration for the transaction by the applicable percentage set forth in section 848(c)(1) for the category of specified insurance contracts acquired in the transaction. See § 1.848-2(g)(5). If more than one category of specified insurance contracts is acquired in an assumption reinsurance transaction, the required capitalization amount for each category is determined as if the transfer of the contracts in that category were made under a separate assumption reinsurance transaction. See § 1.848-2(f)(7).

(3) *General deductions allocable to the assumption reinsurance transaction.* The

reinsurer determines the general deductions allocable to the assumption reinsurance transaction in accordance with the procedure set forth in § 1.848-2(g)(6). Accordingly, the reinsurer must allocate its general deductions to the amount required under section 848(c)(1) on specified insurance contracts that the reinsurer has issued directly before determining the general deductions allocable to the assumption reinsurance transaction. For purposes of allocating its general deductions under § 1.848-2(g)(6), the reinsurer includes premiums received on the acquired specified insurance contracts after the assumption reinsurance transaction in determining the amount required under section 848(c)(1) on specified insurance contracts that the reinsurer has issued directly. If the reinsurer has entered into multiple reinsurance agreements during the taxable year, the reinsurer determines the general deductions allocable to each reinsurance agreement (including the assumption reinsurance transaction) by allocating the general deductions allocable to reinsurance agreements under § 1.848-2(g)(6) to each reinsurance agreement with a positive required capitalization amount.

(4) *Treatment of a capitalization shortfall allocable to the reinsurance agreement—*(i) *In general.* The reinsurer determines any capitalization shortfall allocable to the assumption reinsurance transaction in the manner provided in §§ 1.848-2(g)(4) and 1.848-2(g)(7). If the reinsurer has a capitalization shortfall allocable to the assumption reinsurance transaction, the ceding company must reduce the net negative consideration (as determined under § 1.848-2(f)(2)) for the transaction by the amount described in § 1.848-2(g)(3) unless the parties make the election provided in § 1.848-2(g)(8) to determine the amounts capitalized under section 848 in connection with the transaction without regard to the general deductions limitation of section 848(c)(2).

(ii) *Treatment of additional capitalized amounts as the result of an election under § 1.848-2(g)(8).* The additional amounts capitalized by the reinsurer as the result of the election under § 1.848-2(g)(8)

reduce the adjusted basis of any amortizable section 197 intangible with respect to specified insurance contracts acquired in the assumption reinsurance transaction. If the additional capitalized amounts exceed the adjusted basis of the amortizable section 197 intangible, the reinsurer must reduce its deductions under section 805 or section 832 by the amount of such excess. The additional capitalized amounts are treated as specified policy acquisition expenses attributable to the premiums and other consideration on the assumption reinsurance transaction and are deducted ratably over a 120-month period as provided under section 848(a)(2).

(5) *Cross references and special rules.* In general, for rules applicable to the determination of specified policy acquisition expenses, net premiums, and net consideration, see section 848(c) and (d), and § 1.848-2(a) and (f). However, the following special rules apply for purposes of this paragraph (g)(5)(ii)(C)—

(i) The amount required to be capitalized under section 848 in connection with the assumption reinsurance transaction cannot be less than zero;

(ii) For purposes of determining the company's general deductions under section 848(c)(2) for the taxable year of the assumption reinsurance transaction, the reinsurer takes into account a tentative amortization deduction under section 197(a) as if the entire amount paid or incurred by the reinsurer for the specified insurance contracts were allocated to an amortizable section 197 intangible with respect to insurance contracts acquired in an assumption reinsurance transaction; and

(iii) Any reduction of specified policy acquisition expenses pursuant to an election under § 1.848-2(i)(4) (relating to an assumption reinsurance transaction with an insolvent insurance company) is disregarded.

(D) *Examples.* The following examples illustrate the principles of this paragraph (g)(5)(ii):

Example 1. (i) *Facts.* On January 15, 2006, P acquires all of the stock of T, an insurance company, in a qualified stock purchase and makes a section 338 election for T. T issues individual life insurance contracts which are specified insurance contracts as defined in section 848(e)(1). P and new T are calendar year taxpayers. Under §§ 1.338-6 and 1.338-11(b)(2), the amount of AGUB allocated to

old T's individual life insurance contracts is \$300,000. On the acquisition date, the tax reserves for old T's individual life insurance contracts are \$2,000,000. After the acquisition date, new T receives \$1,000,000 of net premiums with respect to new and renewal individual life insurance contracts and incurs \$100,000 of general deductions under section 848(c)(2) through December 31, 2006. New T engages in no other reinsurance transactions other than the assumption reinsurance transaction treated as occurring by reason of the section 338 election.

(ii) *Analysis.* The transfer of insurance contracts and the assumption of related liabilities deemed to occur by reason of the election under section 338 is treated as an assumption reinsurance transaction. New T determines the adjusted basis under section 197(f)(5) for the life insurance contracts acquired in the assumption reinsurance transaction as follows. The amount paid or incurred for the individual life insurance contracts is \$300,000. To determine the amount required to be capitalized under section 848 in connection with the assumption reinsurance transaction, new T compares the required capitalization amount for the assumption reinsurance transaction with the general deductions allocable to the transaction. The required capitalization amount for the assumption reinsurance transaction is \$130,900, which is determined by multiplying the \$1,700,000 net positive consideration for the transaction (\$2,000,000 reinsurance premium less \$300,000 ceding commission) by the applicable percentage under section 848(c)(1) for the acquired individual life insurance contracts (7.7 percent). To determine its general deductions, new T takes into account a tentative amortization deduction under section 197(a) as if the entire amount paid or incurred for old T's individual life insurance contracts (\$300,000) were allocable to an amortizable section 197 intangible with respect to insurance contracts acquired in the assumption reinsurance transaction. Accordingly, for the year of the assumption reinsurance transaction, new T is treated as having general deductions under section 848(c)(2) of \$120,000 (\$100,000 + \$300,000/15). Under § 1.848-2(g)(6), these general deductions are first allocated to the \$77,000 capitalization requirement for new T's directly written business (\$1,000,000 × .077). Thus, \$43,000 (\$120,000 - \$77,000) of the general deductions are allocable to the assumption reinsurance transaction. Because the general deductions allocable to the assumption reinsurance transaction (\$43,000) are less than the required capitalization amount for the transaction (\$130,900), new T has a capitalization shortfall of \$87,900 (\$130,900 - \$43,000) with regard to the transaction. Under § 1.848-2(g), this capitalization shortfall would cause old T to reduce the net negative consideration taken into account with respect to the assumption

reinsurance transaction by \$1,141,558 (\$87,900 ÷ .077) unless the parties make the election under § 1.848-2(g)(8) to capitalize specified policy acquisition expenses in connection with the assumption reinsurance transaction without regard to the general deductions limitation. If the parties make the election, the amount capitalized by new T under section 848 in connection with the assumption reinsurance transaction would be \$130,900. The \$130,900 capitalized by new T under section 848 would reduce new T's adjusted basis of the amortizable section 197 intangible with respect to the specified insurance contracts acquired in the assumption reinsurance transaction. Accordingly, new T would have an adjusted basis under section 197(f)(5) with respect to the individual life insurance contracts acquired from old T of \$169,100 (\$300,000 – \$130,900). New T's actual amortization deduction under section 197(a) with respect to the amortizable section 197 intangible for insurance contracts acquired in the assumption reinsurance transaction would be \$11,273 (\$169,100 ÷ 15).

Example 2. (i) *Facts.* The facts are the same as *Example 1*, except that T only issues accident and health insurance contracts that are qualified long-term care contracts under section 7702B. Under section 7702B(a)(5), T's qualified long-term care insurance contracts are treated as guaranteed renewable accident and health insurance contracts, and, therefore, are considered specified insurance contracts under section 848(e)(1). Under §§ 1.338-6 and 1.338-11(b)(2), the amount of AGUB allocable to T's qualified long-term care insurance contracts is \$250,000. The amount of T's tax reserves for the qualified long-term care contracts on the acquisition date is \$7,750,000. Following the acquisition, new T receives net premiums of \$500,000 with respect to qualified long-term care contracts and incurs general deductions of \$75,000 through December 31, 2006.

(ii) *Analysis.* The transfer of insurance contracts and the assumption of related liabilities deemed to occur by reason of the election under section 338 is treated as an assumption reinsurance transaction. New T determines the adjusted basis under section 197(f)(5) for the insurance contracts acquired in the assumption reinsurance transaction as follows. The amount paid or incurred for the insurance contracts is \$250,000. To determine the amount required to be capitalized under section 848 in connection with the assumption reinsurance transaction, new T compares the required capitalization amount for the assumption reinsurance transaction with the general deductions allocable to the transaction. The required capitalization amount for the assumption reinsurance transaction is \$577,500, which is determined by multiplying the \$7,750,000 net positive consideration for the transaction (\$7,750,000 reinsurance premium less \$250,000 ceding

commission) by the applicable percentage under section 848(c)(1) for the acquired insurance contracts (7.7 percent). To determine its general deductions, new T takes into account a tentative amortization deduction under section 197(a) as if the entire amount paid or incurred for old T's insurance contracts (\$250,000) were allocable to an amortizable section 197 intangible with respect to insurance contracts acquired in the assumption reinsurance transaction. Accordingly, for the year of the assumption reinsurance transaction, new T is treated as having general deductions under section 848(c)(2) of \$91,667 (\$75,000 + \$250,000 / 15). Under § 1.848-2(g)(6), these general deductions are first allocated to the \$38,500 capitalization requirement for new T's directly written business (\$500,000 × .077). Thus, \$53,167 (\$91,667 – \$38,500) of general deductions are allocable to the assumption reinsurance transaction. Because the general deductions allocable to the assumption reinsurance transaction (\$53,167) are less than the required capitalization amount for the transaction (\$577,500), new T has a capitalization shortfall of \$524,333 (\$577,500 – \$53,167) with regard to the transaction. Under § 1.848-2(g), this capitalization shortfall would cause old T to reduce the net negative consideration taken into account with respect to the assumption reinsurance transaction by \$6,809,519 (\$524,333 ÷ .077) unless the parties make the election under § 1.848-2(g)(8) to capitalize specified policy acquisition expenses in connection with the assumption reinsurance transaction without regard to the general deductions limitation. If the parties make the election, the amount capitalized by new T under section 848 in connection with the assumption reinsurance transaction would increase from \$53,167 to \$577,500. Pursuant to paragraph (g)(5)(ii)(C)(4) of this section, the additional \$524,333 (\$577,500 – \$53,167) capitalized by new T under section 848 would reduce new T's adjusted basis of the amortizable section 197 intangible with respect to the insurance contracts acquired in the assumption reinsurance transaction. Accordingly, new T's adjusted basis of the section 197 intangible with regard to the insurance contracts is reduced from \$196,833 (\$250,000 – \$53,167) to \$0. Because the additional \$524,333 capitalized pursuant to the § 1.848-2(g)(8) election exceeds the \$196,833 adjusted basis of the section 197 intangible before the reduction, new T is required to reduce its deductions under section 805 by the \$327,500 (\$524,333 – \$196,833).

(E) *Effective/applicability date.* This section applies to acquisitions and dispositions of insurance contracts on or after April 10, 2006.

(iii) *Application of loss disallowance rule upon a disposition of an insurance*

contract acquired in an assumption reinsurance transaction. The following rules apply for purposes of applying the loss disallowance rules of section 197(f)(1)(A) to the disposition of a section 197(f)(5) intangible. For this purpose, a section 197(f)(5) intangible is an amortizable section 197 intangible the basis of which is determined under section 197(f)(5).

(A) *Disposition*—(1) *In general.* A disposition of a section 197 intangible is any event as a result of which, absent section 197, recovery of basis is otherwise allowed for Federal income tax purposes.

(2) *Treatment of indemnity reinsurance transactions.* The transfer through indemnity reinsurance of the right to the future income from the insurance contracts to which a section 197(f)(5) intangible relates does not preclude the recovery of basis by the ceding company, provided that sufficient economic rights relating to the reinsured contracts are transferred to the reinsurer. However, the ceding company is not permitted to recover basis in an indemnity reinsurance transaction if it has a right to experience refunds reflecting a significant portion of the future profits on the reinsured contracts, or if it retains an option to reacquire a significant portion of the future profits on the reinsured contracts through the exercise of a recapture provision. In addition, the ceding company is not permitted to recover basis in an indemnity reinsurance transaction if the reinsurer assumes only a limited portion of the ceding company's risk relating to the reinsured contracts (excess loss reinsurance).

(B) *Loss.* The loss, if any, recognized by a taxpayer on the disposition of a section 197(f)(5) intangible equals the amount by which the taxpayer's adjusted basis in the section 197(f)(5) intangible immediately before the disposition exceeds the amount, if any, that the taxpayer receives from another person for the future income right from the insurance contracts to which the section 197(f)(5) intangible relates. In determining the amount of the taxpayer's loss on the disposition of a section 197(f)(5) intangible through a reinsurance transaction, any effect of the transaction on the amounts cap-

italized by the taxpayer as specified policy acquisition expenses under section 848 is disregarded.

(C) *Examples.* The following examples illustrate the principles of this paragraph (g)(5)(iii):

Example 1. (i) *Facts.* In a prior taxable year, as a result of a section 338 election with respect to T, new T was treated as purchasing all of old T's insurance contracts that were in force on the acquisition date in an assumption reinsurance transaction. Under §§ 1.338-6 and 1.338-11(b)(2), the amount of AGUB allocable to the future income right from the purchased insurance contracts was \$15, net of the amounts required to be capitalized under section 848 as a result of the assumption reinsurance transaction. At the beginning of the current taxable year, as a result of amortization deductions allowed by section 197(a), new T's adjusted basis in the section 197(f)(5) intangible resulting from the assumption reinsurance transaction is \$12. During the current taxable year, new T enters into an indemnity reinsurance agreement with R, another insurance company, in which R assumes 100 percent of the risk relating to the insurance contracts to which the section 197(f)(5) intangible relates. In the indemnity reinsurance transaction, R agrees to pay new T a ceding commission of \$10 in exchange for the future profits on the underlying reinsured policies. Under the indemnity reinsurance agreement, new T continues to administer the reinsured policies, but transfers investment assets equal to the required reserves for the reinsured policies together with all future premiums to R. The indemnity reinsurance agreement does not contain an experience refund provision or a provision allowing new T to terminate the reinsurance agreement at its sole option. New T retains the insurance licenses and other amortizable section 197 intangibles acquired in the deemed asset sale and continues to underwrite and issue new insurance contracts.

(ii) *Analysis.* The indemnity reinsurance agreement constitutes a disposition of the section 197(f)(5) intangible because it involves the transfer of sufficient economic rights attributable to the insurance contracts to which the section 197(f)(5) intangible relates such that recovery of basis is allowed. For purposes of applying the loss disallowance rules of section 197(f)(1) and paragraph (g) of this section, new T's loss is \$2 (new T's adjusted basis in the section 197(f)(5) intangible immediately before the disposition (\$12) less the ceding commission (\$10)). Therefore, new T applies \$10 of the adjusted basis in the section 197(f)(5) intangible against the amount received from R for the future income right on the reinsured policies and increases its basis in the amortizable

section 197 intangibles that it acquired and retained from the deemed asset sale by \$2, the amount of the disallowed loss. The amount of new T's disallowed loss under section 197(f)(1)(A) is determined without regard to the effect of the indemnity reinsurance transaction on the amounts capitalized by new T as specified policy acquisition expenses under section 848.

Example 2. (i) *Facts.* Assume the same facts as in *Example 1*, except that under the indemnity reinsurance agreement R agrees to pay new T a ceding commission of \$5 with respect to the underlying reinsured contracts. In addition, under the indemnity reinsurance agreement, new T is entitled to an experience refund equal to any future profits on the reinsured contracts in excess of the ceding commission plus an annual risk charge. New T also has a right to recapture the business at any time after R has recovered an amount equal to the ceding commission.

(ii) *Analysis.* The indemnity reinsurance agreement between new T and R does not represent a disposition because it does not involve the transfer of sufficient economic rights with respect to the future income on the reinsured contracts. Therefore, new T may not recover its basis in the section 197(f)(5) intangible to which the contracts relate and must continue to amortize ratably the adjusted basis of the section 197(f)(5) intangible over the remainder of the 15-year recovery period and cannot apply any portion of this adjusted basis to offset the ceding commission received from R in the indemnity reinsurance transaction.

(iv) *Effective dates—(A) In general—*This paragraph (g)(5) applies to acquisitions and dispositions on or after April 10, 2006. For rules applicable to acquisitions and dispositions before that date, see § 1.197-2 in effect before that date (see 26 CFR part 1, revised April 1, 2001).

(B) *Application to pre-effective date acquisitions and dispositions.* A taxpayer may choose, on a transaction-by-transaction basis, to apply the provisions of this paragraph (g)(5) to property acquired and disposed of before April 10, 2006.

(C) *Change in method of accounting—(1) In general—*A change in a taxpayer's treatment of all property acquired and disposed under paragraph (g)(5) is a change in method of accounting to which the provisions of sections 446 and 481 and the regulations thereunder apply.

(2) *Acquisitions and dispositions on or after effective date.* A Taxpayer is grant-

ed the consent of the Commissioner under section 446(e) to change its method of accounting to comply with this paragraph (g)(5) for acquisitions and dispositions on or after April 10, 2006. The change must be made on a cut-off basis with no section 481(a) adjustment. Notwithstanding § 1.446-1(e)(3), a taxpayer should not file a Form 3115, "Application for Change in Accounting Method," to obtain the consent of the Commissioner to change its method of accounting under this paragraph (g)(5)(iv)(C)(2). Instead, a taxpayer must make the change by using the new method on its federal income tax returns.

(3) *Acquisitions and dispositions before the effective date.* For the first taxable year ending after April 10, 2006, a taxpayer is granted consent of the Commissioner to change its method of accounting for all property acquired in transactions described in paragraph (g)(5)(iv)(B) to comply with this paragraph (g)(5) unless the proper treatment of any such property is an issue under consideration in an examination, before an Appeals office, or before a Federal Court. (For the definition of when an issue is under consideration, see, Rev. Proc. 97-27 (1997-1 C.B. 680); and, § 601.601(d)(2) of this chapter). A taxpayer changing its method of accounting in accordance with this paragraph (g)(5)(iv)(C)(3) must follow the applicable administrative procedures for obtaining the Commissioner's automatic consent to a change in method of accounting (for further guidance, see, for example, Rev. Proc. 2002-9 (2002-1 C.B. 327) as modified and clarified by Announcement 2002-17 (2002-1 C.B. 561), modified and amplified by Rev. Proc. 2002-19 (2002-1 C.B. 696), and amplified, clarified and modified by Rev. Proc. 2002-54 (2002-2 C.B. 432); and, § 601.601(d)(2) of this chapter), except, for purposes of this paragraph (g)(5)(iv)(C)(3), any limitations in such administrative procedures for obtaining the automatic consent of the Commissioner shall not apply. However, if the taxpayer is under examination, before an appeals office, or before a Federal court, the taxpayer must provide a copy of the application to the examining agent(s), appeals officer, or counsel for the government, as appropriate,

at the same time that it files the copy of the application with the National Office. The application must contain the name(s) and telephone number(s) of the examining agent(s), appeals officer, or counsel for the government, as appropriate. For purposes of Form 3115, "Application for Change in Accounting Method," the designated number for the automatic accounting method change authorized by this paragraph (g)(5)(iv)(C)(3) is "98." A change in method of accounting in accordance with this paragraph (g)(5)(iv)(C)(3) requires an adjustment under section 481(a).

(6) *Amounts paid or incurred for a franchise, trademark, or trade name.* If an amount to which section 1253(d) (relating to the transfer, sale, or other disposition of a franchise, trademark, or trade name) applies is described in section 1253(d)(1)(B) (relating to contingent serial payments deductible under section 162), the amount is not included in the adjusted basis of the intangible for purposes of section 197. Any other amount, whether fixed or contingent, to which section 1253(d) applies is chargeable to capital account under section 1253(d)(2) and is amortizable only under section 197.

(7) *Amounts properly taken into account in determining the cost of property that is not a section 197 intangible.* Section 197 does not apply to an amount that is properly taken into account in determining the cost of property that is not a section 197 intangible. The entire cost of acquiring the other property is included in its basis and recovered under other applicable Internal Revenue Code provisions. Thus, for example, section 197 does not apply to the cost of an interest in computer software to the extent such cost is included, without being separately stated, in the cost of the hardware or other tangible property and is consistently treated as part of the cost of the hardware or other tangible property.

(8) *Treatment of amortizable section 197 intangibles as depreciable property.* An amortizable section 197 intangible is treated as property of a character subject to the allowance for depreciation under section 167. Thus, for example, an amortizable section 197 intangible is not a capital asset for purposes of sec-

tion 1221, but if used in a trade or business and held for more than one year, gain or loss on its disposition generally qualifies as section 1231 gain or loss. Also, an amortizable section 197 intangible is section 1245 property and section 1239 applies to any gain recognized upon its sale or exchange between related persons (as defined in section 1239(b)).

(h) *Anti-churning rules*—(1) *Scope and purpose*—(i) *Scope.* This paragraph (h) applies to section 197(f)(9) intangibles. For this purpose, section 197(f)(9) intangibles are goodwill and going concern value that was held or used at any time during the transition period and any other section 197 intangible that was held or used at any time during the transition period and was not depreciable or amortizable under prior law.

(ii) *Purpose.* To qualify as an amortizable section 197 intangible, a section 197 intangible must be acquired after the applicable date (July 25, 1991, if the acquiring taxpayer has made a valid retroactive election pursuant to § 1.197-1T; August 10, 1993, in all other cases). The purpose of the anti-churning rules of section 197(f)(9) and this paragraph (h) is to prevent the amortization of section 197(f)(9) intangibles unless they are transferred after the applicable effective date in a transaction giving rise to a significant change in ownership or use. (Special rules apply for purposes of determining whether transactions involving partnerships give rise to a significant change in ownership or use. See paragraph (h)(12) of this section.) The anti-churning rules are to be applied in a manner that carries out their purpose.

(2) *Treatment of section 197(f)(9) intangibles.* Except as otherwise provided in this paragraph (h), a section 197(f)(9) intangible acquired by a taxpayer after the applicable effective date does not qualify for amortization under section 197 if—

(i) The taxpayer or a related person held or used the intangible or an interest therein at any time during the transition period;

(ii) The taxpayer acquired the intangible from a person that held the intangible at any time during the transition period and, as part of the transaction,

the user of the intangible does not change; or

(iii) The taxpayer grants the right to use the intangible to a person that held or used the intangible at any time during the transition period (or to a person related to that person), but only if the transaction in which the taxpayer grants the right and the transaction in which the taxpayer acquired the intangible are part of a series of related transactions.

(3) *Amounts deductible under section 1253(d) or § 1.162-11.* For purposes of this paragraph (h), deductions allowable under section 1253(d)(2) or pursuant to an election under section 1253(d)(3) (in either case as in effect prior to the enactment of section 197) and deductions allowable under § 1.162-11 are treated as deductions allowable for amortization under prior law.

(4) *Transition period.* For purposes of this paragraph (h), the transition period is July 25, 1991, if the acquiring taxpayer has made a valid retroactive election pursuant to § 1.197-1T and the period beginning on July 25, 1991, and ending on August 10, 1993, in all other cases.

(5) *Exceptions.* The anti-churning rules of this paragraph (h) do not apply to—

(i) The acquisition of a section 197(f)(9) intangible if the acquiring taxpayer's basis in the intangible is determined under section 1014(a) or 1022; or

(ii) The acquisition of a section 197(f)(9) intangible that was an amortizable section 197 intangible in the hands of the seller (or transferor), but only if the acquisition transaction and the transaction in which the seller (or transferor) acquired the intangible or interest therein are not part of a series of related transactions.

(6) *Related person—*(i) *In general.* Except as otherwise provided in paragraph (h)(6)(ii) of this section, a person is related to another person for purposes of this paragraph (h) if—

(A) The person bears a relationship to that person that would be specified in section 267(b) (determined without regard to section 267(e)) and, by substitution, section 267(f)(1), if those sections were amended by substituting 20 percent for 50 percent; or

(B) The person bears a relationship to that person that would be specified in section 707(b)(1) if that section were amended by substituting 20 percent for 50 percent; or

(C) The persons are engaged in trades or businesses under common control (within the meaning of section 41(f)(1) (A) and (B)).

(ii) *Time for testing relationships.* Except as provided in paragraph (h)(6)(iii) of this section, a person is treated as related to another person for purposes of this paragraph (h) if the relationship exists—

(A) In the case of a single transaction, immediately before or immediately after the transaction in which the intangible is acquired; and

(B) In the case of a series of related transactions (or a series of transactions that together comprise a qualified stock purchase within the meaning of section 338(d)(3)), immediately before the earliest such transaction or immediately after the last such transaction.

(iii) *Certain relationships disregarded.* In applying the rules in paragraph (h)(7) of this section, if a person acquires an intangible in a series of related transactions in which the person acquires stock (meeting the requirements of section 1504(a)(2)) of a corporation in a fully taxable transaction followed by a liquidation of the acquired corporation under section 331, any relationship created as part of such series of transactions is disregarded in determining whether any person is related to such acquired corporation immediately after the last transaction.

(iv) *De minimis rule—*(A) *In general.* Two corporations are not treated as related persons for purposes of this paragraph (h) if—

(1) The corporations would (but for the application of this paragraph (h)(6)(iv)) be treated as related persons solely by reason of substituting “more than 20 percent” for “more than 50 percent” in section 267(f)(1)(A); and

(2) The beneficial ownership interest of each corporation in the stock of the other corporation represents less than 10 percent of the total combined voting power of all classes of stock entitled to vote and less than 10 percent of the

total value of the shares of all classes of stock outstanding.

(B) *Determination of beneficial ownership interest.* For purposes of this paragraph (h)(6)(iv), the beneficial ownership interest of one corporation in the stock of another corporation is determined under the principles of section 318(a), except that—

(1) In applying section 318(a)(2)(C), the 50-percent limitation contained therein is not applied; and

(2) Section 318(a)(3)(C) is applied by substituting “20 percent” for “50 percent”.

(7) *Special rules for entities that owned or used property at any time during the transition period and that are no longer in existence.* A corporation, partnership, or trust that owned or used a section 197 intangible at any time during the transition period and that is no longer in existence is deemed, for purposes of determining whether a taxpayer acquiring the intangible is related to such entity, to be in existence at the time of the acquisition.

(8) *Special rules for section 338 deemed acquisitions.* In the case of a qualified stock purchase that is treated as a deemed sale and purchase of assets pursuant to section 338, the corporation treated as purchasing assets as a result of an election thereunder (new target) is not considered the person that held or used the assets during any period in which the assets were held or used by the corporation treated as selling the assets (old target). Thus, for example, if a corporation (the purchasing corporation) makes a qualified stock purchase of the stock of another corporation after the transition period, new target will not be treated as the owner during the transition period of assets owned by old target during that period even if old target and new target are treated as the same corporation for certain other purposes of the Internal Revenue Code or old target and new target are the same corporation under the laws of the State or other jurisdiction of its organization. However, the anti-churning rules of this paragraph (h) may nevertheless apply to a deemed asset purchase resulting from a section 338 election if new target is related (within the meaning of paragraph (h)(6) of this section) to old target.

(9) *Gain-recognition exception—(i) Applicability.* A section 197(f)(9) intangible qualifies for the gain-recognition exception if—

(A) The taxpayer acquires the intangible from a person that would not be related to the taxpayer but for the substitution of 20 percent for 50 percent under paragraph (h)(6)(i)(A) of this section; and

(B) That person (whether or not otherwise subject to Federal income tax) elects to recognize gain on the disposition of the intangible and agrees, notwithstanding any other provision of law or treaty, to pay for the taxable year in which the disposition occurs an amount of tax on the gain that, when added to any other Federal income tax on such gain, equals the gain on the disposition multiplied by the highest marginal rate of tax for that taxable year.

(ii) *Effect of exception.* The anti-churning rules of this paragraph (h) apply to a section 197(f)(9) intangible that qualifies for the gain-recognition exception only to the extent the acquiring taxpayer's basis in the intangible exceeds the gain recognized by the transferor.

(iii) *Time and manner of election.* The election described in this paragraph (h)(9) must be made by the due date (including extensions of time) of the electing taxpayer's Federal income tax return for the taxable year in which the disposition occurs. The election is made by attaching an election statement satisfying the requirements of paragraph (h)(9)(viii) of this section to the electing taxpayer's original or amended income tax return for that taxable year (or by filing the statement as a return for the taxable year under paragraph (h)(9)(xi) of this section). In addition, the taxpayer must satisfy the notification requirements of paragraph (h)(9)(vi) of this section. The election is binding on the taxpayer and all parties whose Federal tax liability is affected by the election.

(iv) *Special rules for certain entities.* In the case of a partnership, S corporation, estate or trust, the election under

this paragraph (h)(9) is made by the entity rather than by its owners or beneficiaries. If a partnership or S corporation makes an election under this paragraph (h)(9) with respect to the disposition of a section 197(f)(9) intangible, each of its partners or shareholders is required to pay a tax determined in the manner described in paragraph (h)(9)(i)(B) of this section on the amount of gain that is properly allocable to such partner or shareholder with respect to the disposition.

(v) *Effect of nonconforming elections.* An attempted election that does not substantially comply with each of the requirements of this paragraph (h)(9) is disregarded in determining whether a section 197(f)(9) intangible qualifies for the gain-recognition exception.

(vi) *Notification requirements.* A taxpayer making an election under this paragraph (h)(9) with respect to the disposition of a section 197(f)(9) intangible must provide written notification of the election on or before the due date of the return on which the election is made to the person acquiring the section 197 intangible. In addition, a partnership or S corporation making an election under this paragraph (h)(9) must attach to the Schedule K-1 furnished to each partner or shareholder a written statement containing all information necessary to determine the recipient's additional tax liability under this paragraph (h)(9).

(vii) *Revocation.* An election under this paragraph (h)(9) may be revoked only with the consent of the Commissioner.

(viii) *Election Statement.* An election statement satisfies the requirements of this paragraph (h)(9)(viii) if it is in writing and contains the information listed below. The required information should be arranged and identified in accordance with the following order and numbering system:

(A) The name and address of the electing taxpayer.

(B) Except in the case of a taxpayer that is not otherwise subject to Federal income tax, the taxpayer identification number (TIN) of the electing taxpayer.

(C) A statement that the taxpayer is making the election under section 197(f)(9)(B).

(D) Identification of the transaction and each person that is a party to the transaction or whose tax return is affected by the election (including, except in the case of persons not otherwise subject to Federal income tax, the TIN of each such person).

(E) The calculation of the gain realized, the applicable rate of tax, and the amount of the taxpayer's additional tax liability under this paragraph (h)(9).

(F) The signature of the taxpayer or an individual authorized to sign the taxpayer's Federal income tax return.

(ix) *Determination of highest marginal rate of tax and amount of other Federal income tax on gain—(A) Marginal rate.* The following rules apply for purposes of determining the highest marginal rate of tax applicable to an electing taxpayer:

(1) *Noncorporate taxpayers.* In the case of an individual, estate, or trust, the highest marginal rate of tax is the highest marginal rate of tax in effect under section 1, determined without regard to section 1(h).

(2) *Corporations and tax-exempt entities.* In the case of a corporation or an entity that is exempt from tax under section 501(a), the highest marginal rate of tax is the highest marginal rate of tax in effect under section 11, determined without regard to any rate that is added to the otherwise applicable rate in order to offset the effect of the graduated rate schedule.

(B) *Other Federal income tax on gain.* The amount of Federal income tax (other than the tax determined under this paragraph (h)(9)) imposed on any gain is the lesser of—

(1) The amount by which the taxpayer's Federal income tax liability (determined without regard to this paragraph (h)(9)) would be reduced if the amount of such gain were not taken into account; or

(2) The amount of the gain multiplied by the highest marginal rate of tax for the taxable year.

(x) *Coordination with other provisions—(A) In general.* The amount of gain subject to the tax determined under this paragraph (h)(9) is not reduced by any net operating loss deduction under section 172(a), any capital loss under section 1212, or any other similar loss or

deduction. In addition, the amount of tax determined under this paragraph (h)(9) is not reduced by any credit of the taxpayer. In computing the amount of any net operating loss, capital loss, or other similar loss or deduction, or any credit that may be carried to any taxable year, any gain subject to the tax determined under this paragraph (h)(9) and any tax paid under this paragraph (h)(9) is not taken into account.

(B) *Section 1374.* No provision of paragraph (h)(9)(iv) of this section precludes the application of section 1374 (relating to a tax on certain built-in gains of S corporations) to any gain with respect to which an election under this paragraph (h)(9) is made. In addition, neither paragraph (h)(9)(iv) nor paragraph (h)(9)(x)(A) of this section precludes a taxpayer from applying the provisions of section 1366(f)(2) (relating to treatment of the tax imposed by section 1374 as a loss sustained by the S corporation) in determining the amount of tax payable under paragraph (h)(9) of this section.

(C) *Procedural and administrative provisions.* For purposes of subtitle F, the amount determined under this paragraph (h)(9) is treated as a tax imposed by section 1 or 11, as appropriate.

(D) *Installment method.* The gain subject to the tax determined under paragraph (h)(9)(i) of this section may not be reported under the method described in section 453(a). Any such gain that would, but for the application of this paragraph (h)(9)(x)(D), be taken into account under section 453(a) shall be taken into account in the same manner as if an election under section 453(d) (relating to the election not to apply section 453(a)) had been made.

(xi) *Special rules for persons not otherwise subject to Federal income tax.* If the person making the election under this paragraph (h)(9) with respect to a disposition is not otherwise subject to Federal income tax, the election statement satisfying the requirements of paragraph (h)(9)(viii) of this section must be filed with the Philadelphia Service Center. For purposes of this paragraph (h)(9) and subtitle F, the statement is treated as an income tax return for the calendar year in which the disposition occurs and as a return

due on or before March 15 of the following year.

(10) *Transactions subject to both anti-churning and nonrecognition rules.* If a person acquires a section 197(f)(9) intangible in a transaction described in paragraph (g)(2) of this section from a person in whose hands the intangible was an amortizable section 197 intangible, and immediately after the transaction (or series of transactions described in paragraph (h)(6)(ii)(B) of this section) in which such intangible is acquired, the person acquiring the section 197(f)(9) intangible is related to any person described in paragraph (h)(2) of this section, the intangible is, notwithstanding its treatment under paragraph (g)(2) of this section, treated as an amortizable section 197 intangible only to the extent permitted under this paragraph (h). (See, for example, paragraph (h)(5)(ii) of this section.)

(11) *Avoidance purpose.* A section 197(f)(9) intangible acquired by a taxpayer after the applicable effective date does not qualify for amortization under section 197 if one of the principal purposes of the transaction in which it is acquired is to avoid the operation of the anti-churning rules of section 197(f)(9) and this paragraph (h). A transaction will be presumed to have a principal purpose of avoidance if it does not effect a significant change in the ownership or use of the intangible. Thus, for example, if section 197(f)(9) intangibles are acquired in a transaction (or series of related transactions) in which an option to acquire stock is issued to a party to the transaction, but the option is not treated as having been exercised for purposes of paragraph (h)(6) of this section, this paragraph (h)(11) may apply to the transaction.

(12) *Additional partnership anti-churning rules—(i) In general.* In determining whether the anti-churning rules of this paragraph (h) apply to any increase in the basis of a section 197(f)(9) intangible under section 732(b), 732(d), 734(b), or 743(b), the determinations are made at the partner level and each partner is treated as having owned and used the partner's proportionate share of partnership property. In determining whether the anti-churning rules of this

paragraph (h) apply to any transaction under another section of the Internal Revenue Code, the determinations are made at the partnership level, unless under § 1.701-2(e) the Commissioner determines that the partner level is more appropriate.

(ii) *Section 732(b) adjustments*—(A) *In general.* The anti-churning rules of this paragraph (h) apply to any increase in the adjusted basis of a section 197(f)(9) intangible under section 732(b) to the extent that the basis increase exceeds the total unrealized appreciation from the intangible allocable to—

(1) Partners other than the distributee partner or persons related to the distributee partner;

(2) The distributee partner and persons related to the distributee partner if the distributed intangible is a section 197(f)(9) intangible acquired by the partnership on or before August 10, 1993, to the extent that—

(i) The distributee partner and related persons acquired an interest or interests in the partnership after August 10, 1993;

(ii) Such interest or interests were held after August 10, 1993, by a person or persons other than either the distributee partner or persons who were related to the distributee partner; and

(iii) The acquisition of such interest or interests by such person or persons was not part of a transaction or series of related transactions in which the distributee partner (or persons related to the distributee partner) subsequently acquired such interest or interests; and

(3) The distributee partner and persons related to the distributee partner if the distributed intangible is a section 197(f)(9) intangible acquired by the partnership after August 10, 1993, that is not amortizable with respect to the partnership, to the extent that—

(i) The distributee partner and persons related to the distributee partner acquired an interest or interests in the partnership after the partnership acquired the distributed intangible;

(ii) Such interest or interests were held after the partnership acquired the distributed intangible, by a person or persons other than either the distributee partner or persons who were related to the distributee partner; and

(iii) The acquisition of such interest or interests by such person or persons was not part of a transaction or series of related transactions in which the distributee partner (or persons related to the distributee partner) subsequently acquired such interest or interests.

(B) *Effect of retroactive elections.* For purposes of paragraph (h)(12)(ii)(A) of this section, references to August 10, 1993, are treated as references to July 25, 1991, if the relevant party made a valid retroactive election under § 1.197-1T.

(C) *Intangible still subject to anti-churning rules.* Notwithstanding paragraph (h)(12)(ii) of this section, in applying the provisions of this paragraph (h) with respect to subsequent transfers, the distributed intangible remains subject to the provisions of this paragraph (h) in proportion to a fraction (determined at the time of the distribution), as follows—

(1) The numerator of which is equal to the sum of—

(i) The amount of the distributed intangible's basis that is nonamortizable under paragraph (g)(2)(ii)(B) of this section; and

(ii) The total unrealized appreciation inherent in the intangible reduced by the amount of the increase in the adjusted basis of the distributed intangible under section 732(b) to which the anti-churning rules do not apply; and

(2) The denominator of which is the fair market value of such intangible.

(D) *Partner's allocable share of unrealized appreciation from the intangible.* The amount of unrealized appreciation from an intangible that is allocable to a partner is the amount of taxable gain that would have been allocated to that partner if the partnership had sold the intangible immediately before the distribution for its fair market value in a fully taxable transaction.

(E) *Acquisition of partnership interest by contribution.* Solely for purposes of paragraphs (h)(12)(ii)(A)(2) and (3) of this section, a partner who acquires an interest in a partnership in exchange for a contribution of property to the partnership is deemed to acquire a pro rata portion of that interest in the partnership from each person who is a partner in the partnership at the time

of the contribution based on each partner's respective proportionate interest in the partnership.

(iii) *Section 732(d) adjustments.* The anti-churning rules of this paragraph (h) do not apply to an increase in the basis of a section 197(f)(9) intangible under section 732(d) if, had an election been in effect under section 754 at the time of the transfer of the partnership interest, the distributee partner would have been able to amortize the basis adjustment made pursuant to section 743(b).

(iv) *Section 734(b) adjustments—(A) In general.* The anti-churning rules of this paragraph (h) do not apply to a continuing partner's share of an increase in the basis of a section 197(f)(9) intangible held by a partnership under section 734(b) to the extent that the continuing partner is an eligible partner.

(B) *Eligible partner.* For purposes of this paragraph (h)(12)(iv), eligible partner means—

(1) A continuing partner that is not the distributee partner or a person related to the distributee partner;

(2) A continuing partner that is the distributee partner or a person related to the distributee partner, with respect to any section 197(f)(9) intangible acquired by the partnership on or before August 10, 1993, to the extent that—

(i) The distributee partner's interest in the partnership was acquired after August 10, 1993;

(ii) Such interest was held after August 10, 1993 by a person or persons who were not related to the distributee partner; and

(iii) The acquisition of such interest by such person or persons was not part of a transaction or series of related transactions in which the distributee partner or persons related to the distributee partner subsequently acquired such interest; or

(3) A continuing partner that is the distributee partner or a person related to the distributee partner, with respect to any section 197(f)(9) intangible acquired by the partnership after August 10, 1993, that is not amortizable with respect to the partnership, to the extent that—

(i) The distributee partner's interest in the partnership was acquired after

the partnership acquired the relevant intangible;

(ii) Such interest was held after the partnership acquired the relevant intangible by a person or persons who were not related to the distributee partner; and

(iii) The acquisition of such interest by such person or persons was not part of a transaction or series of related transactions in which the distributee partner or persons related to the distributee partner subsequently acquired such interest.

(C) *Effect of retroactive elections.* For purposes of paragraph (h)(12)(iv)(A) of this section, references to August 10, 1993, are treated as references to July 25, 1991, if the distributee partner made a valid retroactive election under § 1.197-1T.

(D) *Partner's share of basis increase—*

(1) In general. Except as provided in paragraph (h)(12)(iv)(D)(2) of this section, for purposes of this paragraph (h)(12)(iv), a continuing partner's share of a basis increase under section 734(b) is equal to—

(i) The total basis increase allocable to the intangible; multiplied by

(ii) A fraction the numerator of which is the amount of the continuing partner's post-distribution capital account (determined immediately after the distribution in accordance with the capital accounting rules of § 1.704-1(b)(2)(iv)), and the denominator of which is the total amount of the post-distribution capital accounts (determined immediately after the distribution in accordance with the capital accounting rules of § 1.704-1(b)(2)(iv)) of all continuing partners.

(2) *Exception where partnership does not maintain capital accounts.* If a partnership does not maintain capital accounts in accordance with § 1.704-1(b)(2)(iv), then for purposes of this paragraph (h)(12)(iv), a continuing partner's share of a basis increase is equal to—

(i) The total basis increase allocable to the intangible; multiplied by

(ii) The partner's overall interest in the partnership as determined under § 1.704-1(b)(3) immediately after the distribution.

(E) *Interests acquired by contribution—*

(1) *Application of paragraphs*

(h)(12)(iv)(B) (2) and (3) of this section. Solely for purposes of paragraphs (h)(12)(iv)(B)(2) and (3) of this section, a partner who acquires an interest in a partnership in exchange for a contribution of property to the partnership is deemed to acquire a pro rata portion of that interest in the partnership from each person who is a partner in the partnership at the time of the contribution based on each such partner's proportionate interest in the partnership.

(2) *Special rule with respect to paragraph (h)(12)(iv)(B)(1) of this section.* Solely for purposes of paragraph (h)(12)(iv)(B)(1) of this section, if a distribution that gives rise to an increase in the basis under section 734(b) of a section 197(f)(9) intangible held by the partnership is undertaken as part of a series of related transactions that include a contribution of the intangible to the partnership by a continuing partner, the continuing partner is treated as related to the distributee partner in analyzing the basis adjustment with respect to the contributed section 197(f)(9) intangible.

(F) *Effect of section 734(b) adjustments on partners' capital accounts.* If one or more partners are subject to the anti-churning rules under this paragraph (h) with respect to a section 734(b) adjustment allocable to an intangible asset, taxpayers may use any reasonable method to determine amortization of the asset for book purposes, provided that the method used does not contravene the purposes of the anti-churning rules under section 197 and this paragraph (h). A method will be considered to contravene the purposes of the anti-churning rules if the effect of the book adjustments resulting from the method is such that any portion of the tax deduction for amortization attributable to the section 734 adjustment is allocated, directly or indirectly, to a partner who is subject to the anti-churning rules with respect to such adjustment.

(v) *Section 743(b) adjustments—(A) General rule.* The anti-churning rules of this paragraph (h) do not apply to an increase in the basis of a section 197 intangible under section 743(b) if the person acquiring the partnership interest is not related to the person transfer-

ring the partnership interest. In addition, the anti-churning rules of this paragraph (h) do not apply to an increase in the basis of a section 197 intangible under section 743(b) to the extent that—

(1) The partnership interest being transferred was acquired after August 10, 1993, provided—

(i) The section 197(f)(9) intangible was acquired by the partnership on or before August 10, 1993;

(ii) The partnership interest being transferred was held after August 10, 1993, by a person or persons (the post-1993 person or persons) other than the person transferring the partnership interest or persons who were related to the person transferring the partnership interest; and

(iii) The acquisition of such interest by the post-1993 person or persons was not part of a transaction or series of related transactions in which the person transferring the partnership interest or persons related to the person transferring the partnership interest acquired such interest; or

(2) The partnership interest being transferred was acquired after the partnership acquired the section 197(f)(9) intangible, provided—

(i) The section 197(f)(9) intangible was acquired by the partnership after August 10, 1993, and is not amortizable with respect to the partnership;

(ii) The partnership interest being transferred was held after the partnership acquired the section 197(f)(9) intangible by a person or persons (the post-contribution person or persons) other than the person transferring the partnership interest or persons who were related to the person transferring the partnership interest; and

(iii) The acquisition of such interest by the post-contribution person or persons was not part of a transaction or series of related transactions in which the person transferring the partnership interest or persons related to the person transferring the partnership interest acquired such interest.

(B) *Acquisition of partnership interest by contribution.* Solely for purposes of paragraph (h)(12)(v)(A) (1) and (2) of this section, a partner who acquires an interest in a partnership in exchange for a contribution of property to the

partnership is deemed to acquire a pro rata portion of that interest in the partnership from each person who is a partner in the partnership at the time of the contribution based on each such partner's proportionate interest in the partnership.

(C) *Effect of retroactive elections.* For purposes of paragraph (h)(12)(v)(A) of this section, references to August 10, 1993, are treated as references to July 25, 1991, if the transferee partner made a valid retroactive election under § 1.197-1T.

(vi) *Partner is or becomes a user of partnership intangible*—(A) *General rule.* If, as part of a series of related transactions that includes a transaction described in paragraph (h)(12)(ii), (iii), (iv), or (v) of this section, an anti-churning partner or related person (other than the partnership) becomes (or remains) a direct user of an intangible that is treated as transferred in the transaction (as a result of the partners being treated as having owned their proportionate share of partnership assets), the anti-churning rules of this paragraph (h) apply to the proportionate share of such intangible that is treated as transferred by such anti-churning partner, notwithstanding the application of paragraph (h)(12)(ii), (iii), (iv), or (v) of this section.

(B) *Anti-churning partner.* For purposes of this paragraph (h)(12)(vi), anti-churning partner means—

(1) With respect to all intangibles held by a partnership on or before August 10, 1993, any partner, but only to the extent that

(i) The partner's interest in the partnership was acquired on or before August 10, 1993, or

(ii) The interest was acquired from a person related to the partner on or after August 10, 1993, and such interest was not held by any person other than persons related to such partner at any time after August 10, 1993 (disregarding, for this purpose, a person's holding of an interest if the acquisition of such interest was part of a transaction or series of related transactions in which the partner or persons related to the partner subsequently acquired such interest),

(2) With respect to any section 197(f)(9) intangible acquired by a part-

nership after August 10, 1993, that is not amortizable with respect to the partnership, any partner, but only to the extent that

(i) The partner's interest in the partnership was acquired on or before the date the partnership acquired the section 197(f)(9) intangible, or

(ii) The interest was acquired from a person related to the partner on or after the date the partnership acquired the section 197(f)(9) intangible, and such interest was not held by any person other than persons related to such partner at any time after the date the partnership acquired the section 197(f)(9) intangible (disregarding, for this purpose, a person's holding of an interest if the acquisition of such interest was part of a transaction or series of related transactions in which the partner or persons related to the partner subsequently acquired such interest).

(C) *Effect of retroactive elections.* For purposes of paragraph (h)(12)(vi)(B) of this section, references to August 10, 1993, are treated as references to July 25, 1991, if the relevant party made a valid retroactive election under § 1.197-1T.

(vii) *Section 704(c) allocations*—(A) *Allocations where the intangible is amortizable by the contributor.* The anti-churning rules of this paragraph (h) do not apply to the curative or remedial allocations of amortization with respect to a section 197(f)(9) intangible if the intangible was an amortizable section 197 intangible in the hands of the contributing partner (unless paragraph (h)(10) of this section applies so as to cause the intangible to cease to be an amortizable section 197 intangible in the hands of the partnership).

(B) *Allocations where the intangible is not amortizable by the contributor.* If a section 197(f)(9) intangible was not an amortizable section 197 intangible in the hands of the contributing partner, a non-contributing partner generally may receive remedial allocations of amortization under section 704(c) that are deductible for Federal income tax purposes. However, such a partner may not receive remedial allocations of amortization under section 704(c) if that partner is related to the partner that contributed the intangible or if, as part

of a series of related transactions that includes the contribution of the section 197(f)(9) intangible to the partnership, the contributing partner or related person (other than the partnership) becomes (or remains) a direct user of the contributed intangible. Taxpayers may use any reasonable method to determine amortization of the asset for book purposes, provided that the method used does not contravene the purposes of the anti-churning rules under section 197 and this paragraph (h). A method will be considered to contravene the purposes of the anti-churning rules if the effect of the book adjustments resulting from the method is such that any portion of the tax deduction for amortization attributable to section 704(c) is allocated, directly or indirectly, to a partner who is subject to the anti-churning rules with respect to such adjustment.

(C) [Reserved]. For further guidance, see § 1.197-2T(h)(12)(vii)(C).

(viii) *Operating rule for transfers upon death.* For purposes of this paragraph (h)(12), if the basis of a partner's interest in a partnership is determined under section 1014(a) or 1022, such partner is treated as acquiring such interest from a person who is not related to such partner, and such interest is treated as having previously been held by a person who is not related to such partner.

(i) [Reserved]

(j) *General anti-abuse rule.* The Commissioner will interpret and apply the rules in this section as necessary and appropriate to prevent avoidance of the purposes of section 197. If one of the principal purposes of a transaction is to achieve a tax result that is inconsistent with the purposes of section 197, the Commissioner will recast the transaction for Federal tax purposes as appropriate to achieve tax results that are consistent with the purposes of section 197, in light of the applicable statutory and regulatory provisions and the pertinent facts and circumstances.

(k) *Examples.* The following examples illustrate the application of this section:

Example 1. Advertising costs. (i) Q manufactures and sells consumer products through a series of wholesalers and distributors. In order to increase sales of its products by en-

couraging consumer loyalty to its products and to enhance the value of the goodwill, trademarks, and trade names of the business, Q advertises its products to the consuming public. It regularly incurs costs to develop radio, television, and print advertisements. These costs generally consist of employee costs and amounts paid to independent advertising agencies. Q also incurs costs to run these advertisements in the various media for which they were developed.

(ii) The advertising costs are not chargeable to capital account under paragraph (f)(3) of this section (relating to costs incurred for covenants not to compete, rights granted by governmental units, and contracts for the use of section 197 intangibles) and are currently deductible as ordinary and necessary expenses under section 162. Accordingly, under paragraph (a)(3) of this section, section 197 does not apply to these costs.

Example 2. Computer software. (i) X purchases all of the assets of an existing trade or business from Y. One of the assets acquired is all of Y's rights in certain computer software previously used by Y under the terms of a nonexclusive license from the software developer. The software was developed for use by manufacturers to maintain a comprehensive accounting system, including general and subsidiary ledgers, payroll, accounts receivable and payable, cash receipts and disbursements, fixed asset accounting, and inventory cost accounting and controls. The developer modified the software for use by Y at a cost of \$1,000 and Y made additional modifications at a cost of \$500. The developer does not maintain wholesale or retail outlets but markets the software directly to ultimate users. Y's license of the software is limited to an entity that is actively engaged in business as a manufacturer.

(ii) Notwithstanding these limitations, the software is considered to be readily available to the general public for purposes of paragraph (c)(4)(i) of this section. In addition, the software is not substantially modified because the cost of the modifications by the developer and Y to the version of the software that is readily available to the general public does not exceed \$2,000. Accordingly, the software is not a section 197 intangible.

Example 3. Acquisition of software for internal use. (i) B, the owner and operator of a worldwide package-delivery service, purchases from S all rights to software developed by S. The software will be used by B for the sole purpose of improving its package-tracking operations. B does not purchase any other assets in the transaction or any related transaction.

(ii) Because B acquired the software solely for internal use, it is disregarded in determining for purposes of paragraph (c)(4)(ii) of this section whether the assets acquired in

the transaction or series of related transactions constitute a trade or business or substantial portion thereof. Since no other assets were acquired, the software is not acquired as part of a purchase of a trade or business and under paragraph (c)(4)(ii) of this section is not a section 197 intangible.

Example 4. Governmental rights of fixed duration. (i) City M operates a municipal water system. In order to induce X to locate a new manufacturing business in the city, M grants X the right to purchase water for 16 years at a specified price.

(ii) The right granted by M is a right to receive tangible property or services described in section 197(e)(4)(B) and paragraph (c)(6) of this section and, thus, is not a section 197 intangible. This exclusion applies even though the right does not qualify for exclusion as a right of fixed duration or amount under section 197(e)(4)(D) and paragraph (c)(13) of this section because the duration exceeds 15 years and the right is not fixed as to amount. It is also immaterial that the right would not qualify for exclusion as a self-created intangible under section 197(c)(2) and paragraph (d)(2) of this section because it is granted by a governmental unit.

Example 5. Separate acquisition of franchise.

(i) S is a franchiser of retail outlets for specialty coffees. G enters into a franchise agreement (within the meaning of section 1253(b)(1)) with S pursuant to which G is permitted to acquire and operate a store using the S trademark and trade name at the location specified in the agreement. G agrees to pay S \$100,000 upon execution of the agreement and also agrees to pay, throughout the term of the franchise, additional amounts that are deductible under section 1253(d)(1). The agreement contains detailed specifications for the construction and operation of the business, but G is not required to purchase from S any of the materials necessary to construct the improvements at the location specified in the franchise agreement.

(ii) The franchise is a section 197 intangible within the meaning of paragraph (b)(10) of this section. The franchise does not qualify for the exclusion relating to self-created intangibles described in section 197(c)(2) and paragraph (d)(2) of this section because the franchise is described in section 197(d)(1)(F). In addition, because the acquisition of the franchise constitutes the acquisition of an interest in a trade or business or a substantial portion thereof, the franchise may not be excluded under section 197(e)(4). Thus, the franchise is an amortizable section 197 intangible, the basis of which must be recovered over a 15-year period. However, the amounts that are deductible under section 1253(d)(1) are not subject to the provisions of section 197 by reason of section 197(f)(4)(C) and paragraph (b)(10)(ii) of this section.

Example 6. Acquisition and amortization of covenant not to compete. (i) As part of the ac-

quisition of a trade or business from C, B and C enter into an agreement containing a covenant not to compete. Under this agreement, C agrees that it will not compete with the business acquired by B within a prescribed geographical territory for a period of three years after the date on which the business is sold to B. In exchange for this agreement, B agrees to pay C \$90,000 per year for each year in the term of the agreement. The agreement further provides that, in the event of a breach by C of his obligations under the agreement, B may terminate the agreement, cease making any of the payments due thereafter, and pursue any other legal or equitable remedies available under applicable law. The amounts payable to C under the agreement are not contingent payments for purposes of § 1.1275-4. The present fair market value of B's rights under the agreement is \$225,000. The aggregate consideration paid excluding any amount treated as interest or original issue discount under applicable provisions of the Internal Revenue Code, for all assets acquired in the transaction (including the covenant not to compete) exceeds the sum of the amount of Class I assets and the aggregate fair market value of all Class II, Class III, Class IV, Class V, and Class VI assets by \$50,000. See § 1.338-6(b) for rules for determining the assets in each class.

(ii) Because the covenant is acquired in an applicable asset acquisition (within the meaning of section 1060(c)), paragraph (f)(4)(ii) of this section applies and the basis of B in the covenant is determined pursuant to section 1060(a) and the regulations thereunder. Under §§ 1.1060-1(c)(2) and 1.338-6(c)(1), B's basis in the covenant cannot exceed its fair market value. Thus, B's basis in the covenant immediately after the acquisition is \$225,000. This basis is amortized ratably over the 15-year period beginning on the first day of the month in which the agreement is entered into. All of the remaining consideration after allocation to the covenant and other Class VI assets (\$50,000) is allocated to Class VII assets (goodwill and going concern value). See §§ 1.1060-1(c)(2) and 1.338-6(b).

Example 7. Stand-alone license of technology.

(i) X is a manufacturer of consumer goods that does business throughout the world through subsidiary corporations organized under the laws of each country in which business is conducted. X licenses to Y, its subsidiary organized and conducting business in Country K, all of the patents, formulas, designs, and know-how necessary for Y to manufacture the same products that X manufactures in the United States. Assume that the license is not considered a sale or exchange under the principles of section 1235. The license is for a term of 18 years, and there are no facts to indicate that the license does not have a fixed duration. Y

agrees to pay X a royalty equal to a specified, fixed percentage of the revenues obtained from selling products manufactured using the licensed technology. Assume that the royalty is reasonable and is not subject to adjustment under section 482. The license is not entered into in connection with any other transaction. Y incurs capitalized costs in connection with entering into the license.

(ii) The license is a contract for the use of a section 197 intangible within the meaning of paragraph (b)(11) of this section. It does not qualify for the exception in section 197(e)(4)(D) and paragraph (c)(13) of this section (relating to rights of fixed duration or amount because it does not have a term of less than 15 years, and the other exceptions in section 197(e) and paragraph (c) of this section are also inapplicable. Accordingly, the license is a section 197 intangible.

(iii) The license is not acquired as part of a purchase of a trade or business. Thus, under paragraph (f)(3)(iii) of this section, the license will be closely scrutinized under the principles of section 1235 for purposes of determining whether the transfer is a sale or exchange and, accordingly, whether the payments under the license are chargeable to capital account. Because the license is not a sale or exchange under the principles of section 1235, the royalty payments are not chargeable to capital account for purposes section 197. The capitalized costs of entering into the license are not within the exception under paragraph (d)(2) of this section for self-created intangibles, and thus are amortized under section 197.

Example 8. License of technology and trademarks. (i) The facts are the same as in *Example 7*, except that the license also includes the use of the trademarks and trade names that X uses to manufacture and distribute its products in the United States. Assume that under the principles of section 1253 the transfer is not a sale or exchange of the trademarks and trade names or an undivided interest therein and that the royalty payments are described in section 1253(d)(1)(B).

(ii) As in *Example 7*, the license is a section 197 intangible. Although the license conveys an interest in X's trademarks and trade names to Y, the transfer of the interest is disregarded for purposes of paragraph (e)(2) of this section unless the transfer is considered a sale or exchange of the trademarks and trade names or an undivided interest therein. Accordingly, the licensing of the technology and the trademarks and trade names is not treated as part of a purchase of a trade or business under paragraph (e)(2) of this section.

(iii) Because the technology license is not part of the purchase of a trade or business, it is treated in the manner described in *Example 7*. The royalty payments for the use of the trademarks and trade names are deductible under section 1253(d)(1) and, under sec-

tion 197(f)(4)(C) and paragraph (b)(10)(ii) of this section, are not chargeable to capital account for purposes of section 197. The capitalized costs of entering into the license are treated in the same manner as in *example 7*.

Example 9. Disguised sale. (i) The facts are the same as in *Example 7*, except that Y agrees to pay X, in addition to the contingent royalty, a fixed minimum royalty immediately upon entering into the agreement and there are sufficient facts present to characterize the transaction, for federal tax purposes, as a transfer of ownership of the intellectual property from X to Y.

(ii) The purported license of technology is, in fact, an acquisition of an intangible described in section 197(d)(1)(C)(iii) and paragraph (b)(5) of this section (relating to know-how, etc.). As in *Example 7*, the exceptions in section 197(e) and paragraph (c) of this section do not apply to the transfer. Accordingly, the transferred property is a section 197 intangible. Y's basis in the transferred intangible includes the capitalized costs of entering into the agreement and the fixed minimum royalty payment payable at the time of the transfer. In addition, except to the extent that a portion of any payment will be treated as interest or original issue discount under applicable provisions of the Internal Revenue Code, all of the contingent payments under the purported license are properly chargeable to capital account for purposes of section 197 and this section. The extent to which such payments are treated as payments of principal and the time at which any amount treated as a payment of principal is taken into account in determining basis are determined under the rules of § 1.1275-4(c)(4) or 1.483-4(a), whichever is applicable. Any contingent amount that is included in basis after the month in which the acquisition occurs is amortized under the rules of paragraph (f)(2)(i) or (ii) of this section.

Example 10. License of technology and customer list as part of sale of a trade or business.

(i) X is a computer manufacturer that produces, in separate operating divisions, personal computers, servers, and peripheral equipment. In a transaction that is the purchase of a trade or business for purposes of section 197, Y (who is unrelated to X) purchases from X all assets of the operating division producing personal computers, except for certain patents that are also used in the division manufacturing servers and customer lists that are also used in the division manufacturing peripheral equipment. As part of the transaction, X transfers to Y the right to use the retained patents and customer lists solely in connection with the manufacture and sale of personal computers. The transfer agreement requires annual royalty payments contingent on the use of the patents and also requires a payment for each use of the customer list. In addition, Y incurs capitalized

costs in connection with entering into the licenses.

(ii) The rights to use the retained patents and customer lists are contracts for the use of section 197 intangibles within the meaning of paragraph (b)(11) of this section. The rights do not qualify for the exception in 197(e)(4)(D) and paragraph (c)(13) of this section (relating to rights of fixed duration or amount) because they are transferred as part of a purchase of a trade or business and the other exceptions in section 197(e) and paragraph (c) of this section are also inapplicable. Accordingly, the licenses are section 197 intangibles.

(iii) Because the right to use the retained patents is described in paragraph (b)(11) of this section and the right is transferred as part of a purchase of a trade or business, the treatment of the royalty payments is determined under paragraph (f)(3)(ii) of this section. In addition, however, the retained patents are described in paragraph (b)(5) of this section. Thus, the annual royalty payments are chargeable to capital account under the general rule of paragraph (f)(3)(ii)(A) of this section unless Y establishes that the license is not a sale or exchange under the principles of section 1235 and the royalty payments are an arm's length consideration for the rights transferred. If these facts are established, the exception in paragraph (f)(3)(ii)(B) of this section applies and the royalty payments are not chargeable to capital account for purposes of section 197. The capitalized costs of entering into the license are treated in the same manner as in Example 7.

(iv) The right to use the retained customer list is also described in paragraph (b)(11) of this section and is transferred as part of a purchase of a trade or business. Thus, the treatment of the payments for use of the customer list is also determined under paragraph (f)(3)(ii) of this section. The customer list, although described in paragraph (b)(6) of this section, is a customer-related information base. Thus, the exception in paragraph (f)(3)(ii)(B) of this section does not apply. Accordingly, payments for use of the list are chargeable to capital account under the general rule of paragraph (f)(3)(ii)(A) of this section and are amortized under section 197. In addition, the capitalized costs of entering into the contract for use of the customer list are treated in the same manner as in Example 7.

Example 11. Loss disallowance rules involving related persons. (i) Assume that X and Y are treated as a single taxpayer for purposes of paragraph (g)(1) of this section. In a single transaction, X and Y acquired from Z all of the assets used by Z in a trade or business. Z had operated this business at two locations, and X and Y each acquired the assets used by Z at one of the locations. Three years after the acquisition, X sold all of the assets it acquired, including amortizable sec-

tion 197 intangibles, to an unrelated purchaser. The amortizable section intangibles are sold at a loss of \$120,000.

(ii) Because X and Y are treated as a single taxpayer for purposes of the loss disallowance rules of section 197(f)(1) and paragraph (g)(1) of this section, X's loss on the sale of the amortizable section 197 intangibles is not recognized. Under paragraph (g)(1)(iv)(B) of this section, X's disallowed loss is allowed ratably, as a deduction under section 197, over the remainder of the 15-year period during which the intangibles would have been amortized, and Y may not increase the basis of the amortizable section 197 intangibles that it acquired from Z by the amount of X's disallowed loss.

Example 12. Disposition of retained intangibles by related person. (i) The facts are the same as in Example 11, except that 10 years after the acquisition of the assets by X and Y and 7 years after the sale of the assets by X, Y sells all of the assets acquired from Z, including amortizable section 197 intangibles, to an unrelated purchaser.

(ii) Under paragraph (g)(1)(iv)(B) of this section, X may recognize, on the date of the sale by Y, any loss that has not been allowed as a deduction under section 197. Accordingly, X recognizes a loss of \$50,000, the amount obtained by reducing the loss on the sale of the assets at the end of the third year (\$120,000) by the amount allowed as a deduction under paragraph (g)(1)(iv)(B) of this section during the 7 years following the sale by X (\$70,000).

Example 13. Acquisition of an interest in partnership with no section 754 election. (i) A, B, and C each contribute \$1,500 for equal shares in general partnership P. On January 1, 1998, P acquires as its sole asset an amortizable section 197 intangible for \$4,500. P still holds the intangible on January 1, 2003, at which time the intangible has an adjusted basis to P of \$3,000, and A, B, and C each have an adjusted basis of \$1,000 in their partnership interests. D (who is not related to A) acquires A's interest in P for \$1,600. No section 754 election is in effect for 2003.

(ii) Because there is no change in the basis of the intangible under section 743(b), D merely steps into the shoes of A with respect to the intangible. D's proportionate share of P's adjusted basis in the intangible is \$1,000, which continues to be amortized over the 10 years remaining in the original 15-year amortization period for the intangible.

Example 14. Acquisition of an interest in partnership with a section 754 election. (i) The facts are the same as in Example 13, except that a section 754 election is in effect for 2003.

(ii) Pursuant to paragraph (g)(3) of this section, for purposes of section 197, D is treated as if P owns two assets. D's proportionate share of P's adjusted basis in one asset is \$1,000, which continues to be amortized over the 10 years remaining in the

original 15-year amortization period. For the other asset, D's proportionate share of P's adjusted basis is \$600 (the amount of the basis increase under section 743 as a result of the section 754 election), which is amortized over a new 15-year period beginning January 2003. With respect to B and C, P's remaining \$2,000 adjusted basis in the intangible continues to be amortized over the 10 years remaining in the original 15-year amortization period.

Example 15. Payment to a retiring partner by partnership with a section 754 election. (i) The facts are the same as in *Example 13*, except that a section 754 election is in effect for 2003 and, instead of D acquiring A's interest in P, A retires from P. A, B, and C are not related to each other within the meaning of paragraph (h)(6) of this section. P borrows \$1,600, and A receives a payment under section 736 from P of such amount, all of which is in exchange for A's interest in the intangible asset owned by P. (Assume, for purposes of this example, that the borrowing by P and payment of such funds to A does not give rise to a disguised sale of A's partnership interest under section 707(a)(2)(B).) P makes a positive basis adjustment of \$600 with respect to the section 197 intangible under section 734(b).

(ii) Pursuant to paragraph (g)(3) of this section, because of the section 734 adjustment, P is treated as having two amortizable section 197 intangibles, one with a basis of \$3,000 and a remaining amortization period of 10 years and the other with a basis of \$600 and a new amortization period of 15 years.

Example 16. Termination of partnership under section 708(b)(1)(B). (i) A and B are partners with equal shares in the capital and profits of general partnership P. P's only asset is an amortizable section 197 intangible, which P had acquired on January 1, 1995. On January 1, 2000, the asset had a fair market value of \$100 and a basis to P of \$50. On that date, A sells his entire partnership interest in P to C, who is unrelated to A, for \$50. At the time of the sale, the basis of each of A and B in their respective partnership interests is \$25.

(ii) The sale causes a termination of P under section 708(b)(1)(B). Under section 708, the transaction is treated as if P transfers its sole asset to a new partnership in exchange for the assumption of its liabilities and the receipt of all of the interests in the new partnership. Immediately thereafter, P is treated as if it is liquidated, with B and C each receiving their proportionate share of the interests in the new partnership. The contribution by P of its asset to the new partnership is governed by section 721, and the liquidating distributions by P of the interests in the new partnership are governed by section 731. C does not realize a basis adjustment under section 743 with respect to the amortizable section 197 intangible unless P had a section 754 election in effect for its

taxable year in which the transfer of the partnership interest to C occurred or the taxable year in which the deemed liquidation of P occurred.

(iii) Under section 197, if P had a section 754 election in effect, C is treated as if the new partnership had acquired two assets from P immediately preceding its termination. Even though the adjusted basis of the new partnership in the two assets is determined solely under section 723, because the transfer of assets is a transaction described in section 721, the application of sections 743(b) and 754 to P immediately before its termination causes P to be treated as if it held two assets for purposes of section 197. See paragraph (g)(3) of this section. B's and C's proportionate share of the new partnership's adjusted basis is \$25 each in one asset, which continues to be amortized over the 10 years remaining in the original 15-year amortization period. For the other asset, C's proportionate share of the new partnership's adjusted basis is \$25 (the amount of the basis increase resulting from the application of section 743 to the sale or exchange by A of the interest in P), which is amortized over a new 15-year period beginning in January 2000.

(iv) If P did not have a section 754 election in effect for its taxable year in which the sale of the partnership interest by A to C occurred or the taxable year in which the deemed liquidation of P occurred, the adjusted basis of the new partnership in the amortizable section 197 intangible is determined solely under section 723, because the transfer is a transaction described in section 721, and P does not have a basis increase in the intangible. Under section 197(f)(2) and paragraph (g)(2)(ii) of this section, the new partnership continues to amortize the intangible over the 10 years remaining in the original 15-year amortization period. No additional amortization is allowable with respect to this asset.

Example 17. Disguised sale to partnership. (i) E and F are individuals who are unrelated to each other within the meaning of paragraph (h)(6) of this section. E has been engaged in the active conduct of a trade or business as a sole proprietor since 1990. E and F form EF Partnership. E transfers all of the assets of the business, having a fair market value of \$100, to EF, and F transfers \$40 of cash to EF. E receives a 60 percent interest in EF and the \$40 of cash contributed by F, and F receives a 40 percent interest in EF, under circumstances in which the transfer by E is partially treated as a sale of property to EF under § 1.707-3(b).

(ii) Under § 1.707-3(a)(1), the transaction is treated as if E had sold to EF a 40 percent interest in each asset for \$40 and contributed the remaining 60 percent interest in each

asset to EF in exchange solely for an interest in EF. Because E and EF are related persons within the meaning of paragraph (h)(6) of this section, no portion of any transferred section 197(f)(9) intangible that E held during the transition period (as defined in paragraph (h)(4) of this section) is an amortizable section 197 intangible pursuant to paragraph (h)(2) of this section. Section 197(f)(9)(F) and paragraph (g)(3) of this section do not apply to any portion of the section 197 intangible in the hands of EF because the basis of EF in these assets was not increased under any of sections 732, 734, or 743.

Example 18. Acquisition by related person in nonrecognition transaction. (i) A owns a nonamortizable intangible that A acquired in 1990. In 2000, A sells a one-half interest in the intangible to B for cash. Immediately after the sale, A and B, who are unrelated to each other, form partnership P as equal partners. A and B each contribute their one-half interest in the intangible to P.

(ii) P has a transferred basis in the intangible from A and B under section 723. The nonrecognition transfer rule under paragraph (g)(2)(ii) of this section applies to A's transfer of its one-half interest in the intangible to P, and consequently P steps into A's shoes with respect to A's nonamortizable transferred basis. The anti-churning rules of paragraph (h) of this section apply to B's transfer of its one-half interest in the intangible to P, because A, who is related to P under paragraph (h)(6) of this section immediately after the series of transactions in which the intangible was acquired by P, held B's one-half interest in the intangible during the transition period. Pursuant to paragraph (h)(10) of this section, these rules apply to B's transfer of its one-half interest to P even though the nonrecognition transfer rule under paragraph (g)(2)(ii) of this section would have permitted P to step into B's shoes with respect to B's otherwise amortizable basis. Therefore, P's entire basis in the intangible is nonamortizable. However, if A (not B) elects to recognize gain under paragraph (h)(9) of this section on the transfer of each of the one-half interests in the intangible to B and P, then the intangible would be amortizable by P to the extent provided in section 197(f)(9)(B) and paragraph (h)(9) of this section.

Example 19. Acquisition of partnership interest following formation of partnership. (i) The facts are the same as in *Example 18* except that, in 2000, A formed P with an affiliate, S, and contributed the intangible to the partnership and except that in a subsequent year, in a transaction that is properly characterized as a sale of a partnership interest for Federal tax purposes, B purchases a 50 percent interest in P from A. P has a section 754 election in effect and holds no assets other than the intangible and cash.

(ii) For the reasons set forth in *Example 16* (iii), B is treated as if P owns two assets. B's proportionate share of P's adjusted basis in one asset is the same as A's proportionate share of P's adjusted basis in that asset, which is not amortizable under section 197. For the other asset, B's proportionate share of the remaining adjusted basis of P is amortized over a new 15-year period.

Example 20. Acquisition by related corporation in nonrecognition transaction. (i) The facts are the same as *Example 18*, except that A and B form corporation P as equal owners.

(ii) P has a transferred basis in the intangible from A and B under section 362. Pursuant to paragraph (h)(10) of this section, the application of the nonrecognition transfer rule under paragraph (g)(2)(ii) of this section and the anti-churning rules of paragraph (h) of this section to the facts of this *Example 18* is the same as in *Example 16*. Thus, P's entire basis in the intangible is nonamortizable.

Example 21. Acquisition from corporation related to purchaser through remote indirect interest. (i) X, Y, and Z are each corporations that have only one class of issued and outstanding stock. X owns 25 percent of the stock of Y and Y owns 25 percent of the outstanding stock of Z. No other shareholder of any of these corporations is related to any other shareholder or to any of the corporations. On June 30, 2000, X purchases from Z section 197(f)(9) intangibles that Z owned during the transition period (as defined in paragraph (h)(4) of this section).

(ii) Pursuant to paragraph (h)(6)(iv)(B) of this section, the beneficial ownership interest of X in Z is 6.25 percent, determined by treating X as if it owned a proportionate (25 percent) interest in the stock of Z that is actually owned by Y. Thus, even though X is related to Y and Y is related to Z, X and Z are not considered to be related for purposes of the anti-churning rules of section 197.

Example 22. Gain recognition election. (i) B owns 25 percent of the stock of S, a corporation that uses the calendar year as its taxable year. No other shareholder of B or S is related to each other. S is not a member of a controlled group of corporations within the meaning of section 1563(a). S has section 197(f)(9) intangibles that it owned during the transition period. S has a basis of \$25,000 in the intangibles. In 2001, S sells these intangibles to B for \$75,000. S recognizes a gain of \$50,000 on the sale and has no other items of income, deduction, gain, or loss for the year, except that S also has a net operating loss of \$20,000 from prior years that it would otherwise be entitled to use in 2001 pursuant to section 172(b). S makes a valid gain recognition election pursuant to section 197(f)(9)(B) and paragraph (h)(9) of this section. In 2001, the highest marginal tax rate applicable to S is 35 percent. But for the election, all of S's taxable income would be taxed at a rate of 15 percent.

(ii) If the gain recognition election had not been made, S would have taxable income of \$30,000 for 2001 and a tax liability of \$4,500. If the gain were not taken into account, S would have no tax liability for the taxable year. Thus, the amount of tax (other than the tax imposed under paragraph (h)(9) of this section) imposed on the gain is also \$4,500. The gain on the disposition multiplied by the highest marginal tax rate is \$17,500 (\$50,000 × .35). Accordingly, S's tax liability for the year is \$4,500 plus an additional tax under paragraph (h)(9) of this section of \$13,000 (\$17,500—\$4,500).

(iii) Pursuant to paragraph (h)(9)(x)(A) of this section, S determines the amount of its net operating loss deduction in subsequent years without regard to the gain recognized on the sale of the section 197 intangible to B. Accordingly, the entire \$20,000 net operating loss deduction that would have been available in 2001 but for the gain recognition election may be used in 2002, subject to the limitations of section 172.

(iv) B has a basis of \$75,000 in the section 197(f)(9) intangibles acquired from S. As the result of the gain recognition election by S, B may amortize \$50,000 of its basis under section 197. Under paragraph (h)(9)(ii) of this section, the remaining basis does not qualify for the gain-recognition exception and may not be amortized by B.

Example 23. Section 338 election. (i) Corporation P makes a qualified stock purchase of the stock of T corporation from two shareholders in July 2000, and a section 338 election is made by P. No shareholder of either T or P owns stock in both of these corporations, and no other shareholder is related to any other shareholder of either corporation.

(ii) Pursuant to paragraph (h)(8) of this section, in the case of a qualified stock purchase that is treated as a deemed sale and purchase of assets pursuant to section 338, the corporation treated as purchasing assets as a result of an election thereunder (new target) is not considered the person that held or used the assets during any period in which the assets were held or used by the corporation treated as selling the assets (old target). Because there are no relationships described in paragraph (h)(6) of this section among the parties to the transaction, any nonamortizable section 197(f)(9) intangible held by old target is an amortizable section 197 intangible in the hands of new target.

(iii) Assume the same facts as set forth in paragraph (i) of this *Example 23*, except that one of the selling shareholders is an individual who owns 25 percent of the total value of the stock of each of the T and P corporation.

(iv) Old target and new target (as these terms are defined in § 1.338-2(c)(17)) are members of a controlled group of corporations under section 267(b)(3), as modified by section 197(f)(9)(C)(i), and any nonamortizable

section 197(f)(9) intangible held by old target is not an amortizable section 197 intangible in the hands of new target. However, a gain recognition election under paragraph (h)(9) of this section may be made with respect to this transaction.

Example 24. Relationship created as part of public offering. (i) On January 1, 2001, Corporation X engages in a series of related transactions to discontinue its involvement in one line of business. X forms a new corporation, Y, with a nominal amount of cash. Shortly thereafter, X transfers all the stock of its subsidiary conducting the unwanted business (Target) to Y in exchange for 100 shares of Y common stock and a Y promissory note. Target owns a nonamortizable section 197(f)(9) intangible. Prior to January 1, 2001, X and an underwriter (U) had entered into a binding agreement pursuant to which U would purchase 85 shares of Y common stock from X and then sell those shares in a public offering. On January 6, 2001, the public offering closes. X and Y make a section 338(h)(10) election for Target.

(ii) Pursuant to paragraph (h)(8) of this section, in the case of a qualified stock purchase that is treated as a deemed sale and purchase of assets pursuant to section 338, the corporation treated as purchasing assets as a result of an election thereunder (new target) is not considered the person that held or used the assets during any period in which the assets were held or used by the corporation treated as selling the assets (old target). Further, for purposes of determining whether the nonamortizable section 197(f)(9) intangible is acquired by new target from a related person, because the transactions are a series of related transactions, the relationship between old target and new target must be tested immediately before the first transaction in the series (the formation of Y) and immediately after the last transaction in the series (the sale to U and the public offering). See paragraph (h)(6)(ii)(B) of this section. Because there was no relationship between old target and new target immediately before the formation of Y (because the section 338 election had not been made) and only a 15% relationship between old target and new target immediately after, old target is not related to new target for purposes of applying the anti-churning rules of paragraph (h) of this section. Accordingly, Target may amortize the section 197 intangible.

Example 25. Other transfers to controlled corporations. (i) In 2001, Corporation A transfers a section 197(f)(9) intangible that it held during the transition period to X, a newly formed corporation, in exchange for 15% of X's stock. As part of the same transaction, B transfers property to X in exchange for the remaining 85% of X stock.

(ii) Because the acquisition of the intangible by X is part of a qualifying section 351

exchange, under section 197(f)(2) and paragraph (g)(2)(ii) of this section, X is treated in the same manner as the transferor of the asset. Accordingly, X may not amortize the intangible. If, however, at the time of the exchange, B has a binding commitment to sell 25 percent of the X stock to C, an unrelated third party, the exchange, including A's transfer of the section 197(f)(9) intangible, would fail to qualify as a section 351 exchange. Because the formation of X, the transfers of property to X, and the sale of X stock by B are part of a series of related transactions, the relationship between A and X must be tested immediately before the first transaction in the series (the transfer of property to X) and immediately after the last transaction in the series (the sale of X stock to C). See paragraph (h)(6)(ii)(B) of this section. Because there was no relationship between A and X immediately before and only a 15% relationship immediately after, A is not related to X for purposes of applying the anti-churning rules of paragraph (h) of this section. Accordingly, X may amortize the section 197 intangible.

Example 26. Relationship created as part of stock acquisition followed by liquidation. (i) In 2001, Partnership P purchases 100 percent of the stock of Corporation X. P and X were not related prior to the acquisition. Immediately after acquiring the X stock, and as part of a series of related transactions, P liquidates X under section 331. In the liquidating distribution, P receives a section 197(f)(9) intangible that was held by X during the transition period.

(ii) Because the relationship between P and X was created pursuant to a series of related transactions where P acquires stock (meeting the requirements of section 1504(a)(2)) in a fully taxable transaction followed by a liquidation under section 331, the relationship immediately after the last transaction in the series (the liquidation) is disregarded. See paragraph (h)(6)(iii) of this section. Accordingly, P is entitled to amortize the section 197(f)(9) intangible.

Example 27. Section 743(b) adjustment with no change in user. (i) On January 1, 2001, A forms a partnership (PRS) with B in which A owns a 40-percent, and B owns a 60-percent, interest in profits and capital. A contributes a nonamortizable section 197(f)(9) intangible with a value of \$80 and an adjusted basis of \$0 to PRS in exchange for its PRS interest and B contributes \$120 cash. At the time of the contribution, PRS licenses the section 197(f)(9) intangible to A. On February 1, 2001, A sells its entire interest in PRS to C, an unrelated person, for \$80. PRS has a section 754 election in effect.

(ii) The section 197(f)(9) intangible contributed to PRS by A is not amortizable in the hands of PRS. Pursuant to section (g)(2)(ii) of this section, PRS steps into the shoes of A

with respect to A's nonamortizable transferred basis in the intangible.

(iii) When A sells the PRS interest to C, C will have a basis adjustment in the PRS assets under section 743(b) equal to \$80. The entire basis adjustment will be allocated to the intangible because the only other asset held by PRS is cash. Ordinarily, under paragraph (h)(12)(v) of this section, the anti-churning rules will not apply to an increase in the basis of partnership property under section 743(b) if the person acquiring the partnership interest is not related to the person transferring the partnership interest. However, A is an anti-churning partner under paragraph (h)(12)(vi)(B)(2)(i) of this section. As a result of the license agreement, A remains a direct user of the section 197(f)(9) intangible after the transfer to C. Accordingly, paragraph (h)(12)(vi)(A) of this section will cause the anti-churning rules to apply to the entire basis adjustment under section 743(b).

Example 28. Distribution of section 197(f)(9) intangible to partner who acquired partnership interest prior to the effective date. (i) In 1990, A, B, and C each contribute \$150 cash to form general partnership ABC for the purpose of engaging in a consulting business and a software manufacturing business. The partners agree to share partnership profits and losses equally. In 2000, the partnership distributes the consulting business to A in liquidation of A's entire interest in ABC. The only asset of the consulting business is a nonamortizable intangible, which has a fair market value of \$180 and a basis of \$0. At the time of the distribution, the adjusted basis of A's interest in ABC is \$150. A is not related to B or C. ABC does not have a section 754 election in effect.

(ii) Under section 732(b), A's adjusted basis in the intangible distributed by ABC is \$150, a \$150 increase over the basis of the intangible in ABC's hands. In determining whether the anti-churning rules apply to any portion of the basis increase, A is treated as having owned and used A's proportionate share of partnership property. Thus, A is treated as holding an interest in the intangible during the transition period. Because the intangible was not amortizable prior to the enactment of section 197, the section 732(b) increase in the basis of the intangible may be subject to the anti-churning provisions. Paragraph (h)(12)(ii) of this section provides that the anti-churning provisions apply to the extent that the section 732(b) adjustment exceeds the total unrealized appreciation from the intangible allocable to partners other than A or persons related to A, as well as certain other partners whose purchase of their interests meet certain criteria. Because B and C are not related to A, and A's acquisition of its partnership interest does not satisfy the necessary criteria, the section 732(b) basis increase is subject to the anti-churning provisions to the extent

that it exceeds B and C's proportionate share of the unrealized appreciation from the intangible. B and C's proportionate share of the unrealized appreciation from the intangible is \$120 (2/3 of \$180). This is the amount of gain that would be allocated to B and C if the partnership sold the intangible immediately before the distribution for its fair market value of \$180. Therefore, \$120 of the section 732(b) basis increase is not subject to the anti-churning rules. The remaining \$30 of the section 732(b) basis increase is subject to the anti-churning rules. Accordingly, A is treated as having two intangibles, an amortizable section 197 intangible with an adjusted basis of \$120 and a new amortization period of 15 years and a nonamortizable intangible with an adjusted basis of \$30.

(iii) In applying the anti-churning rules to future transfers of the distributed intangible, under paragraph (h)(12)(ii)(C) of this section, one-third of the intangible will continue to be subject to the anti-churning rules, determined as follows: The sum of the amount of the distributed intangible's basis that is nonamortizable under paragraph (g)(2)(ii)(B) of this section (\$0) and the total unrealized appreciation inherent in the intangible reduced by the amount of the increase in the adjusted basis of the distributed intangible under section 732(b) to which the anti-churning rules do not apply (\$180 - \$120 = \$60), over the fair market value of the distributed intangible (\$180).

Example 29. Distribution of section 197(f)(9) intangible to partner who acquired partnership interest after the effective date. (i) The facts are the same as in *Example 28*, except that B and C form ABC in 1990. A does not acquire an interest in ABC until 1995. In 1995, A contributes \$150 to ABC in exchange for a one-third interest in ABC. At the time of the distribution, the adjusted basis of A's interest in ABC is \$150.

(ii) As in *Example 28*, the anti-churning rules do not apply to the increase in the basis of the intangible distributed to A under section 732(b) to the extent that it does not exceed the unrealized appreciation from the intangible allocable to B and C. Under paragraph (h)(12)(ii) of this section, the anti-churning provisions also do not apply to the section 732(b) basis increase to the extent of A's allocable share of the unrealized appreciation from the intangible because A acquired the ABC interest from an unrelated person after August 10, 1993, and the intangible was acquired by the partnership before A acquired the ABC interest. Under paragraph (h)(12)(ii)(E) of this section, A is deemed to acquire the ABC partnership interest from an unrelated person because A acquired the ABC partnership interest in exchange for a contribution to the partnership of property other than the distributed intangible and, at the time of the contribution, no partner in the partnership was related to A.

Consequently, the increase in the basis of the intangible under section 732(b) is not subject to the anti-churning rules to the extent of the total unrealized appreciation from the intangible allocable to A, B, and C. The total unrealized appreciation from the intangible allocable to A, B, and C is \$180 (the gain the partnership would have recognized if it had sold the intangible for its fair market value immediately before the distribution). Because this amount exceeds the section 732(b) basis increase of \$150, the entire section 732(b) basis increase is amortizable.

(iii) In applying the anti-churning rules to future transfers of the distributed intangible, under paragraph (h)(12)(ii)(C) of this section, one-sixth of the intangible will continue to be subject to the anti-churning rules, determined as follows: The sum of the amount of the distributed intangible's basis that is nonamortizable under paragraph (g)(2)(ii)(B) of this section (\$0) and the total unrealized appreciation inherent in the intangible reduced by the amount of the increase in the adjusted basis of the distributed intangible under section 732(b) to which the anti-churning rules do not apply (\$180 - \$150 = \$30), over the fair market value of the distributed intangible (\$180).

Example 30. Distribution of section 197(f)(9) intangible contributed to the partnership by a partner. (i) The facts are the same as in *Example 29*, except that C purchased the intangible used in the consulting business in 1988 for \$60 and contributed the intangible to ABC in 1990. At that time, the intangible had a fair market value of \$150 and an adjusted tax basis of \$60. When ABC distributes the intangible to A in 2000, the intangible has a fair market value of \$180 and a basis of \$60.

(ii) As in *Examples 28* and *29*, the adjusted basis of the intangible in A's hands is \$150 under section 732(b). However, the increase in the adjusted basis of the intangible under section 732(b) is only \$90 (\$150 adjusted basis after the distribution compared to \$60 basis before the distribution). Pursuant to paragraph (g)(2)(ii)(B) of this section, A steps into the shoes of ABC with respect to the \$60 of A's adjusted basis in the intangible that corresponds to ABC's basis in the intangible and this portion of the basis is nonamortizable. B and C are not related to A, A acquired the ABC interest from an unrelated person after August 10, 1993, and the intangible was acquired by ABC before A acquired the ABC interest. Therefore, under paragraph (h)(12)(ii) of this section, the section 732(b) basis increase is amortizable to the extent of A, B, and C's allocable share of the unrealized appreciation from the intangible. The total unrealized appreciation from the intangible that is allocable to A, B, and C is \$120. If ABC had sold the intangible immediately before the distribution to A for its

fair market value of \$180, it would have recognized gain of \$120, which would have been allocated \$10 to A, \$10 to B, and \$100 to C under section 704(c). Because A, B, and C's allocable share of the unrealized appreciation from the intangible exceeds the section 732(b) basis increase in the intangible, the entire \$90 of basis increase is amortizable by A. Accordingly, after the distribution, A will be treated as having two intangibles, an amortizable section 197 intangible with an adjusted basis of \$90 and a new amortization period of 15 years and a nonamortizable intangible with an adjusted basis of \$60.

(iii) In applying the anti-churning rules to future transfers of the distributed intangible, under paragraph (h)(12)(ii)(C) of this section, one-half of the intangible will continue to be subject to the anti-churning rules, determined as follows: The sum of the amount of the distributed intangible's basis that is nonamortizable under paragraph (g)(2)(ii)(B) of this section (\$60) and the total unrealized appreciation inherent in the intangible reduced by the amount of the increase in the adjusted basis of the distributed intangible under section 732(b) to which the anti-churning rules do not apply (\$120 - \$90 = \$30), over the fair market value of the distributed intangible (\$180).

Example 31. Partnership distribution causing section 734(b) basis adjustment to section 197(f)(9) intangible. (i) On January 1, 2001, A, B, and C form a partnership (ABC) in which each partner shares equally in capital and income, gain, loss, and deductions. On that date, A contributes a section 197(f)(9) intangible with a zero basis and a value of \$150, and B and C each contribute \$150 cash. A and B are related, but neither A nor B is related to C. ABC does not adopt the remedial allocation method for making section 704(c) allocations of amortization expenses with respect to the intangible. On December 1, 2004, when the value of the intangible has increased to \$600, ABC distributes \$300 to B in complete redemption of B's interest in the partnership. ABC has an election under section 754 in effect for the taxable year that includes December 1, 2004. (Assume that, at the time of the distribution, the basis of A's partnership interest remains zero, and the basis of each of B's and C's partnership interest remains \$150.)

(ii) Immediately prior to the distribution, the assets of the partnership are revalued pursuant to § 1.704-1(b)(2)(iv)(f), so that the section 197(f)(9) intangible is reflected on the books of the partnership at a value of \$600. B recognizes \$150 of gain under section 731(a)(1) upon the distribution of \$300 in redemption of B's partnership interest. As a result, the adjusted basis of the intangible held by ABC increases by \$150 under section 734(b). A does not satisfy any of the tests set forth under paragraph (h)(12)(iv)(B) and thus is not an eligible partner. C is not related to B and thus

is an eligible partner under paragraph (h)(12)(iv)(B)(I) of this section. The capital accounts of A and C are equal immediately after the distribution, so, pursuant to paragraph (h)(12)(iv)(D)(I) of this section, each partner's share of the basis increase is equal to \$75. Because A is not an eligible partner, the anti-churning rules apply to A's share of the basis increase. The anti-churning rules do not apply to C's share of the basis increase.

(iii) For book purposes, ABC determines the amortization of the asset as follows: First, the intangible that is subject to adjustment under section 734(b) will be divided into three assets: the first, with a basis and value of \$75 will be amortizable for both book and tax purposes; the second, with a basis and value of \$75 will be amortizable for book, but not tax purposes; and a third asset with a basis of zero and a value of \$450 will not be amortizable for book or tax purposes. Any subsequent revaluation of the intangible pursuant to § 1.704-1(b)(2)(iv)(f) will be made solely with respect to the third asset (which is not amortizable for book purposes). The book and tax attributes from the first asset (i.e., book and tax amortization) will be specially allocated to C. The book and tax attributes from the second asset (i.e., book amortization and non-amortizable tax basis) will be specially allocated to A. Upon disposition of the intangible, each partner's share of gain or loss will be determined first by allocating among the partners an amount realized equal to the book value of the intangible attributable to such partner, with any remaining amount realized being allocated in accordance with the partnership agreement. Each partner then will compare its share of the amount realized with its remaining basis in the intangible to arrive at the gain or loss to be allocated to such partner. This is a reasonable method for amortizing the intangible for book purposes, and the results in allocating the income, gain, loss, and deductions attributable to the intangible do not contravene the purposes of the anti-churning rules under section 197 or paragraph (h) of this section.

(1) *Effective dates*—(1) *In general.* This section applies to property acquired after January 25, 2000, except that paragraph (c)(13) of this section (exception from section 197 for separately acquired rights of fixed duration or amount) applies to property acquired after August 10, 1993 (or July 25, 1991, if a valid retroactive election has been made under § 1.197-1T), and paragraphs (h)(12)(ii), (iii), (iv), (v), (vi)(A), and (vii)(B) of this section (anti-churning rules applicable to partnerships) apply

to partnership transactions occurring on or after November 20, 2000.

(2) *Application to pre-effective date acquisitions.* A taxpayer may choose, on a transaction-by-transaction basis, to apply the provisions of this section and § 1.167(a)-14 to property acquired (or partnership transactions occurring) after August 10, 1993 (or July 25, 1991, if a valid retroactive election has been made under § 1.197-1T) and—

- (i) On or before January 25, 2000; or
- (ii) With respect to paragraphs (h)(12)(ii), (iii), (iv), (v), (vi)(A), and (vii)(B) of this section, before November 20, 2000.

(3) *Application of regulation project REG-209709-94 to pre-effective date acquisitions.* A taxpayer may rely on the provisions of regulation project REG-209709-94 (1997-1 C.B. 731) for property acquired after August 10, 1993 (or July 25, 1991, if a valid retroactive election has been made under § 1.197-1T) and on or before January 25, 2000.

(4) *Change in method of accounting—(i) In general.* For the first taxable year ending after January 25, 2000, a taxpayer that has acquired property to which the exception in § 1.197-2(c)(13) applies is granted consent of the Commissioner to change its method of accounting for such property to comply with the provisions of this section and § 1.167(a)-14 unless the proper treatment of such property is an issue under consideration (within the meaning of Rev. Proc. 97-27 (1997-21 IRB 10)(see § 601.601(d)(2) of this chapter)) in an examination, before an Appeals office, or before a Federal court.

(ii) *Application to pre-effective date acquisitions.* For the first taxable year ending after January 25, 2000, a taxpayer is granted consent of the Commissioner to change its method of accounting for all property acquired in transactions described in paragraph (1)(2) of this section to comply with the provisions of this section and § 1.167(a)-14 unless the proper treatment of any such property is an issue under consideration (within the meaning of Rev. Proc. 97-27 (1997-21 IRB 10)(see § 601.601(d)(2) of this chapter)) in an examination, before an Appeals office, or before a Federal court.

(iii) *Automatic change procedures.* A taxpayer changing its method of ac-

counting in accordance with this paragraph (1)(4) must follow the automatic change in accounting method provisions of Rev. Proc. 99-49 (1999-52 IRB 725)(see § 601.601(d)(2) of this chapter) except, for purposes of this paragraph (1)(4), the scope limitations in section 4.02 of Rev. Proc. 99-49 (1999-52 IRB 725) are not applicable. However, if the taxpayer is under examination, before an appeals office, or before a Federal court, the taxpayer must provide a copy of the application to the examining agent(s), appeals officer, or counsel for the government, as appropriate, at the same time that it files the copy of the application with the National Office. The application must contain the name(s) and telephone number(s) of the examining agent(s), appeals officer, or counsel for the government, as appropriate.

(5) *Application of section 1022.* The provisions of § 1.197-2(h)(5)(i) and (h)(12)(viii) relating to section 1022 are effective on and after January 19, 2017.

[T.D. 8865, 65 FR 3827, Jan. 25, 2000; 65 FR 16318, Mar. 28, 2000; 65 FR 60585, Oct. 12, 2000, as amended by T.D. 8907, 65 FR 69671, Nov. 20, 2000; T.D. 8940, 66 FR 9929, Feb. 13, 2001; 66 FR 17363, Mar. 30, 2001; 67 FR 22286, May 3, 2002; T.D. 9257, 71 FR 17996, Apr. 10, 2006; 73 FR 3869, Jan. 23, 2008; T.D. 9533, 76 FR 39280, July 6, 2011; T.D. 9637, 78 FR 54745, Sept. 6, 2013; T.D. 9811, 82 FR 6237, Jan. 19, 2017; 82 FR 7597, Jan. 19, 2017]

§ 1.197-2T Amortization of goodwill and certain other intangibles.

(a) through (h)(12)(vii)(B) [Reserved]. For further guidance, see § 1.197-2(a) through (h)(12)(vii)(B).

(C) *Rules for section 721(c) partnerships.* See § 1.704-3T(d)(5)(iii) if there is a contribution of a section 197(f)(9) intangible to a section 721(c) partnership (as defined in § 1.721(c)-1T(b)(14)).

(viii) through (1)(4)(iii) [Reserved]. For further guidance, see § 1.197-2(h)(12)(viii) through (1)(4)(iii).

(5) *Rules for section 721(c) partnerships—(i) Applicability dates—(A) In general.* Except as provided in paragraph (1)(5)(i)(B) of this section, paragraph (h)(12)(vii)(C) of this section applies with respect to contributions occurring on or after January 18, 2017, and with respect to contributions occurring before January 18, 2017, resulting from an entity classification election made

under § 301.7701-3 of this chapter that is filed on or after January 18, 2017.

(B) *Election to apply the provisions described in paragraph (l)(5)(i)(A) of this section retroactively.* Paragraph (h)(12)(vii)(C) of this section may, by election, be applied with respect to a contribution occurring on or after August 6, 2015, and to a contribution occurring before August 6, 2015, resulting from an entity classification election made under § 301.7701-3 of this chapter that is filed on or after August 6, 2015. The election is made by applying paragraph (h)(12)(vii)(C) of this section on a timely filed original return (including extensions) or an amended return filed no later than six months after January 18, 2017.

(ii) *Expiration date.* Paragraph (h)(12)(vii)(C) of this section expires on January 17, 2020.

[T.D. 9814, 82 FR 7597, Jan. 19, 2017]

§ 1.199-0 Table of contents.

This section lists the section headings that appear in §§ 1.199-1 through 1.199-9.

§ 1.199-1 *Income attributable to domestic production activities.*

- (a) In general.
- (b) Taxable income and adjusted gross income.
 - (1) In general.
 - (2) Examples.
 - (c) Qualified production activities income.
 - (d) Allocation of gross receipts.
 - (1) In general.
 - (2) Reasonable method of allocation.
 - (3) De minimis rules.
 - (i) DPGR.
 - (ii) Non-DPGR.
 - (4) Example.
 - (e) Certain multiple-year transactions.
 - (1) Use of historical data.
 - (2) Percentage of completion method.
 - (3) Examples.

§ 1.199-2 *Wage limitation.*

- (a) Rules of application.
 - (1) In general.
 - (2) Wages paid by entity other than common law employer.
 - (3) Requirement that wages must be reported on return filed with the Social Security Administration.
 - (i) In general.
 - (ii) Corrected return filed to correct a return that was filed within 60 days of the due date.

(iii) Corrected return filed to correct a return that was filed later than 60 days after the due date.

- (4) Joint return.
- (b) Application in the case of a taxpayer with a short taxable year.
- (c) Acquisitions, dispositions, and short taxable years.
 - (1) Allocation of wages between more than one taxpayer.
 - (2) Short taxable years.
 - (3) Operating rules.
 - (i) Acquisition or disposition.
 - (ii) Trade or business.
 - (d) Non-duplication rule.
 - (e) Definition of W-2 wages.
 - (1) In general.
 - (2) Limitation on W-2 wages for taxable years beginning after May 17, 2006, the enactment date of the Tax Increase Prevention and Reconciliation Act of 2005.
 - (i) In general.
 - (ii) Wage expense safe harbor.
 - (A) In general.
 - (B) Wage expense included in cost of goods sold.

(iii) Small business simplified overall method safe harbor.

- (iv) Examples.
- (3) Methods for calculating W-2 wages.

§ 1.199-3 *Domestic production gross receipts.*

- (a) In general.
- (b) Related persons.
 - (1) In general.
 - (2) Exceptions.
 - (c) Definition of gross receipts.
 - (d) Determining domestic production gross receipts.
 - (1) In general.
 - (2) Special rules.
 - (3) Exception.
 - (4) Examples.
 - (e) Definition of manufactured, produced, grown, or extracted.
 - (1) In general.
 - (2) Packaging, repackaging, labeling, or minor assembly.
 - (3) Installing.
 - (4) Consistency with section 263A.
 - (5) Examples.
 - (f) Definition of by the taxpayer.
 - (1) In general.
 - (2) Special rule for certain government contracts.
 - (3) Subcontractor.
 - (4) Examples.
 - (g) Definition of in whole or in significant part.
 - (1) In general.
 - (2) Substantial in nature.
 - (3) Safe harbor.
 - (i) In general.
 - (ii) Unadjusted depreciable basis.
 - (iii) Computer software and sound recordings.
 - (4) Special rules.

- (i) Contract with unrelated persons.
- (ii) Aggregation.
- (5) Examples.
- (h) Definition of United States.
- (i) Derived from the lease, rental, license, sale, exchange, or other disposition.
- (1) In general.
- (i) Definition.
- (ii) Lease income.
- (iii) Income substitutes.
- (iv) Exchange of property.
- (A) Taxable exchanges.
- (B) Safe harbor.
- (C) Eligible property.
- (2) Examples.
- (3) Hedging transactions.
- (i) In general.
- (ii) Currency fluctuations.
- (iii) Effect of identification and nonidentification.
- (iv) Other rules.
- (4) Allocation of gross receipts.
- (i) Embedded services and non-qualified property.
- (A) In general.
- (B) Exceptions.
- (ii) Non-DPGR.
- (iii) Examples.
- (5) Advertising income.
- (i) In general.
- (ii) Exceptions.
- (A) Tangible personal property.
- (B) Computer software.
- (C) Qualified film.
- (iii) Examples.
- (6) Computer software.
- (i) In general.
- (ii) Gross receipts derived from services.
- (iii) Exceptions.
- (iv) Definitions and special rules.
- (A) Substantially identical software.
- (B) Safe harbor for computer software games.
- (C) Regular and ongoing basis.
- (D) Attribution.
- (E) Qualified computer software maintenance agreements.
- (F) Advertising income and product-placement income.
- (v) Examples.
- (7) Qualifying in-kind partnership for taxable years beginning after May 17, 2006, the enactment date of the Tax Increase Prevention and Reconciliation Act of 2005.
- (i) In general.
- (ii) Definition of qualifying in-kind partnership.
- (iii) Other rules.
- (iv) Example.
- (8) Partnerships owned by members of a single expanded affiliated group for taxable years beginning after May 17, 2006, the enactment date of the Tax Increase Prevention and Reconciliation Act of 2005.
- (i) In general.
- (ii) Attribution of activities.
- (A) In general.
- (B) Attribution between EAG partnerships.
- (C) Exceptions to attribution.
- (iii) Other rules.
- (iv) Examples.
- (9) Non-operating mineral interests.
- (j) Definition of qualifying production property.
- (1) In general.
- (2) Tangible personal property.
- (i) In general.
- (ii) Local law.
- (iii) Intangible property.
- (3) Computer software.
- (i) In general.
- (ii) Incidental and ancillary rights.
- (iii) Exceptions.
- (4) Sound recordings.
- (i) In general.
- (ii) Exception.
- (5) Tangible personal property with computer software or sound recordings.
- (i) Computer software and sound recordings.
- (ii) Tangible personal property.
- (k) Definition of qualified film.
- (1) In general.
- (2) Tangible personal property with a film.
- (i) Film not produced by a taxpayer.
- (ii) Film produced by a taxpayer.
- (A) Qualified film.
- (B) Nonqualified film.
- (3) Derived from a qualified film.
- (i) In general.
- (ii) Exceptions.
- (4) Compensation for services.
- (5) Determination of 50 percent.
- (6) Produced by the taxpayer.
- (7) Qualified film produced by the taxpayer—safe harbor.
- (i) Safe harbor.
- (ii) Determination of 50 percent.
- (8) Production pursuant to a contract.
- (9) Exception.
- (10) Examples.
- (1) Electricity, natural gas, or potable water.
- (i) In general.
- (2) Natural gas.
- (3) Potable water.
- (4) Exceptions.
- (i) Electricity.
- (ii) Natural gas.
- (iii) Potable water.
- (iv) De minimis exception.
- (A) DPGR.
- (B) Non-DPGR.
- (5) Example.
- (m) Definition of construction performed in the United States.
- (1) Construction of real property.
- (i) In general.
- (ii) Regular and ongoing basis.
- (A) In general.
- (B) New trade or business.
- (iii) De minimis exception.
- (A) DPGR.
- (B) Non-DPGR.

Internal Revenue Service, Treasury

§ 1.199-0

- (2) Activities constituting construction.
 - (i) In general.
 - (ii) Tangential services.
 - (iii) Other construction activities.
 - (iv) Administrative support services.
 - (v) Exceptions.
- (3) Definition of real property.
- (4) Definition of infrastructure.
- (5) Definition of substantial renovation.
- (6) Derived from construction.
 - (i) In general.
 - (ii) Qualified construction warranty.
 - (iii) Exceptions.
 - (iv) Land safe harbor.
 - (A) In general.
 - (B) Determining gross receipts and costs.
 - (v) Examples.
- (n) Definition of engineering and architectural services.
 - (1) In general.
 - (2) Engineering services.
 - (3) Architectural services.
 - (4) Administrative support services.
 - (5) Exceptions.
 - (6) De minimis exception for performance of services in the United States.
 - (i) DPGR.
 - (ii) Non-DPGR.
 - (7) Example.
- (o) Sales of certain food and beverages.
 - (1) In general.
 - (2) De minimis exception.
 - (3) Examples.
- (p) Guaranteed payments.

§ 1.199-4 Costs allocable to domestic production gross receipts.

- (a) In general.
- (b) Cost of goods sold allocable to domestic production gross receipts.
 - (1) In general.
 - (2) Allocating cost of goods sold.
- (i) In general.
- (ii) Gross receipts recognized in an earlier taxable year.
- (3) Special rules for imported items or services.
- (4) Rules for inventories valued at market or bona fide selling prices.
- (5) Rules applicable to inventories accounted for under the last-in, first-out (LIFO) inventory method.
 - (i) In general.
 - (ii) LIFO/FIFO ratio method.
 - (iii) Change in relative base-year cost method.
- (6) Taxpayers using the simplified production method or simplified resale method for additional section 263A costs.
- (7) Examples.
- (c) Other deductions properly allocable to domestic production gross receipts or gross income attributable to domestic production gross receipts.
 - (1) In general.
 - (2) Treatment of net operating losses.
 - (3) W-2 wages.

- (d) Section 861 method.
 - (1) In general.
 - (2) Deductions for charitable contributions.
 - (3) Research and experimental expenditures.
 - (4) Deductions allocated or apportioned to gross receipts treated as domestic production gross receipts.
 - (5) Treatment of items from a pass-thru entity reporting qualified production activities income.
 - (6) Examples.
- (e) Simplified deduction method.
 - (1) In general.
 - (2) Eligible taxpayer.
 - (3) Total assets.
 - (i) In general.
 - (ii) Members of an expanded affiliated group.
 - (4) Members of an expanded affiliated group.
 - (i) In general.
 - (ii) Exception.
 - (iii) Examples.
 - (f) Small business simplified overall method.
 - (1) In general.
 - (2) Qualifying small taxpayer.
 - (3) Total costs for the current taxable year.
 - (i) In general.
 - (ii) Land safe harbor.
 - (4) Members of an expanded affiliated group.
 - (i) In general.
 - (ii) Exception.
 - (iii) Examples.
 - (5) Trusts and estates.
 - (g) Average annual gross receipts.
 - (1) In general.
 - (2) Members of an expanded affiliated group.

§ 1.199-5 Application of section 199 to pass-thru entities for taxable years beginning after May 17, 2006, the enactment date of the Tax Increase Prevention and Reconciliation Act of 2005.

- (a) In general.
- (b) Partnerships.
 - (1) In general.
 - (i) Determination at partner level.
 - (ii) Determination at entity level.
- (2) Disallowed losses or deductions.
- (3) Partner's share of paragraph (e)(1) wages.
- (4) Transition rule for definition of W-2 wages and for W-2 wage limitation.
- (5) Partnerships electing out of subchapter K.
- (6) Examples.
- (c) S corporations.
 - (1) In general.
 - (i) Determination at shareholder level.
 - (ii) Determination at entity level.
- (2) Disallowed losses and deductions.
- (3) Shareholder's share of paragraph (e)(1) wages.

§ 1.199-0

- (4) Transition rule for definition of W-2 wages and for W-2 wage limitation.
- (d) Grantor trusts.
- (e) Non-grantor trusts and estates.
- (1) Allocation of costs.
- (2) Allocation among trust or estate and beneficiaries.
- (i) In general.
- (ii) Treatment of items from a trust or estate reporting qualified production activities income.
- (3) Transition rule for definition of W-2 wages and for W-2 wage limitation.
- (4) Example.
- (f) Gain or loss from the disposition of an interest in a pass-thru entity.
- (g) No attribution of qualified activities.

§ 1.199-6 Agricultural and horticultural cooperatives.

- (a) In general.
- (b) Cooperative denied section 1382 deduction for portion of qualified payments.
- (c) Determining cooperative's qualified production activities income and taxable income.
- (d) Special rule for marketing cooperatives.
- (e) Qualified payment.
- (f) Specified agricultural or horticultural cooperative.
- (g) Written notice to patrons.
- (h) Additional rules relating to pass-through of section 199 deduction.
- (i) W-2 wages.
- (j) Recapture of section 199 deduction.
- (k) Section is exclusive.
- (l) No double counting.
- (m) Examples.

§ 1.199-7 Expanded affiliated groups.

- (a) In general.
- (1) Definition of expanded affiliated group.
- (2) Identification of members of an expanded affiliated group.
- (i) In general.
- (ii) Becoming or ceasing to be a member of an expanded affiliated group.
- (3) Attribution of activities.
- (i) In general.
- (ii) Special rule.
- (4) Examples.
- (5) Anti-avoidance rule.
- (b) Computation of expanded affiliated group's section 199 deduction.
- (1) In general.
- (2) Example.
- (3) Net operating loss carrybacks and carryovers.
- (4) Losses used to reduce taxable income of expanded affiliated group.
- (i) In general.
- (ii) Examples.
- (c) Allocation of an expanded affiliated group's section 199 deduction among members of the expanded affiliated group.

26 CFR Ch. I (4-1-17 Edition)

- (1) In general.
- (2) Use of section 199 deduction to create or increase a net operating loss.
- (d) Special rules for members of the same consolidated group.
- (1) Intercompany transactions.
- (2) Attribution of activities in the construction of real property and the performance of engineering and architectural services.
- (3) Application of the simplified deduction method and the small business simplified overall method.
- (4) Determining the section 199 deduction.
- (i) Expanded affiliated group consists of consolidated group and non-consolidated group members.
- (ii) Expanded affiliated group consists only of members of a single consolidated group.
- (5) Allocation of the section 199 deduction of a consolidated group among its members.
- (e) Examples.
- (f) Allocation of income and loss by a corporation that is a member of the expanded affiliated group for only a portion of the year.
- (1) In general.
- (2) Coordination with rules relating to the allocation of income under § 1.1502-76(b).
- (g) Total section 199 deduction for a corporation that is a member of an expanded affiliated group for some or all of its taxable year.
- (1) Member of the same expanded affiliated group for the entire taxable year.
- (2) Member of the expanded affiliated group for a portion of the taxable year.
- (3) Example.
- (h) Computation of section 199 deduction for members of an expanded affiliated group with different taxable years.
- (1) In general.
- (2) Example.

§ 1.199-8 Other rules.

- (a) In general.
- (b) Individuals.
- (c) Trade or business requirement.
- (1) In general.
- (2) Individuals.
- (3) Trusts and estates.
- (d) Coordination with alternative minimum tax.
- (e) Nonrecognition transactions.
- (1) In general.
- (i) Sections 351, 721, and 731.
- (ii) Exceptions.
- (A) Section 708(b)(1)(B).
- (B) Transfers by reason of death.
- (2) Section 1031 exchanges.
- (3) Section 381 transactions.
- (f) Taxpayers with a 52-53 week taxable year.
- (g) Section 481(a) adjustments.
- (h) Disallowed losses or deductions.
- (i) Effective dates.
- (1) In general.

[T.D. 9263, 71 FR 31283, June 1, 2006, as amended by T.D. 9293, 71 FR 61665, Oct. 19, 2006; T.D. 9317, 72 FR 12971, Mar. 20, 2007; T.D. 9381, 73 FR 8800, Feb. 15, 2008; 73 FR 12270, Mar. 7, 2008; T.D. 9731, 80 FR 51941, Aug. 27, 2015]

§ 1.199-1 Income attributable to domestic production activities.

(a) *In general.* A taxpayer may deduct an amount equal to 9 percent (3 percent in the case of taxable years beginning in 2005 or 2006, and 6 percent in the case of taxable years beginning in 2007, 2008, or 2009) of the lesser of the taxpayer's qualified production activities income (QPAI) (as defined in paragraph (c) of this section) for the taxable year, or the taxpayer's taxable income for the taxable year (or, in the case of an individual, adjusted gross income). The amount of the deduction allowable under this paragraph (a) for any taxable year cannot exceed 50 percent of the W-2 wages of the employer for the taxable year (as determined under § 1.199-2). The provisions of this section apply solely for purposes of section 199 of the Internal Revenue Code.

(b) *Taxable income and adjusted gross income—*(1) *In general.* For purposes of paragraph (a) of this section, the definition of taxable income under section 63 applies, except that taxable income (or alternative minimum taxable income, if applicable) is determined without regard to section 199 and without regard to any amount excluded from gross income pursuant to section 114 or pursuant to section 101(d) of the American Jobs Creation Act of 2004, Public Law 108-357 (118 Stat. 1418) (Act). In the case of individuals, adjusted gross income for the taxable year is determined after applying sections 86, 135, 137, 219, 221, 222, and 469, and without regard to section 199 and without regard to any amount excluded from gross income pursuant to section 114 or

pursuant to section 101(d) of the Act. For purposes of determining the tax imposed by section 511, paragraph (a) of this section is applied using unrelated business taxable income. Except as provided in § 1.199-7(c)(2), the deduction under section 199 is not taken into account in computing any net operating loss or the amount of any net operating loss carryback or carryover.

(2) *Examples.* The following examples illustrate the application of this paragraph (b):

Example 1. X, a corporation that is not part of an expanded affiliated group (EAG) (as defined in § 1.199-7), engages in production activities that generate QPAI and taxable income (without taking into account the deduction under this section and an NOL deduction) of \$600 in 2010. During 2010, X incurs W-2 wages as defined in § 1.199-2(e) of \$300. X has an NOL carryover to 2010 of \$500. X's deduction under this section for 2010 is \$9 ($.09 \times$ (lesser of QPAI of \$600 and taxable income of \$100 (\$600 taxable income—\$500 NOL))). Because the wage limitation is \$150 ($50\% \times \300), X's deduction is not limited.

Example 2. (i) *Facts.* X, a corporation that is not part of an EAG, engages in production activities that generate QPAI and taxable income (without taking into account the deduction under this section and an NOL deduction) of \$100 in 2010. X has an NOL carryover to 2010 of \$500 that reduces its taxable income for 2010 to \$0. X's deduction under this section for 2010 is \$0 ($.09 \times$ (lesser of QPAI of \$100 and taxable income of \$0))).

(ii) *Carryover to 2011.* X's taxable income for purposes of determining its NOL carryover to 2011 is \$100. Accordingly, X's NOL carryover to 2011 is \$400 (\$500 NOL carryover to 2010—\$100 NOL used in 2010).

(c) *Qualified production activities income.* QPAI for any taxable year is an amount equal to the excess (if any) of the taxpayer's domestic production gross receipts (DPGR) (as defined in § 1.199-3) over the sum of—

(1) The cost of goods sold (CGS) that is allocable to such receipts; and

(2) Other expenses, losses, or deductions (other than the deduction allowed under this section) that are properly allocable to such receipts. See §§ 1.199-3 and 1.199-4.

(d) *Allocation of gross receipts—(1) In general.* A taxpayer must determine the portion of its gross receipts for the taxable year that is DPGR and the portion of its gross receipts that is non-DPGR. Applicable Federal income tax prin-

ciples apply to determine whether a transaction is, in substance, a lease, rental, license, sale, exchange, or other disposition the gross receipts of which may constitute DPGR (assuming all the other requirements of § 1.199-3 are met), whether it is a service the gross receipts of which may constitute non-DPGR, or some combination thereof. For example, if a taxpayer leases qualifying production property (QPP) (as defined in § 1.199-3(j)(1)) and in connection with that lease, also provides services, the taxpayer must allocate its gross receipts from the transaction using any reasonable method that is satisfactory to the Secretary based on all of the facts and circumstances and that accurately identifies the gross receipts that constitute DPGR and non-DPGR.

(2) *Reasonable method of allocation.* Factors taken into consideration in determining whether the taxpayer's method of allocating gross receipts between DPGR and non-DPGR is reasonable include whether the taxpayer uses the most accurate information available; the relationship between the gross receipts and the method used; the accuracy of the method chosen as compared with other possible methods; whether the method is used by the taxpayer for internal management or other business purposes; whether the method is used for other Federal or state income tax purposes; the time, burden, and cost of using alternative methods; and whether the taxpayer applies the method consistently from year to year. Thus, if a taxpayer has the information readily available and can, without undue burden or expense, specifically identify whether the gross receipts derived from an item are DPGR, then the taxpayer must use that specific identification to determine DPGR. If a taxpayer does not have information readily available to specifically identify whether the gross receipts derived from an item are DPGR or cannot, without undue burden or expense, specifically identify whether the gross receipts derived from an item are DPGR, then the taxpayer is not required to use a method that specifically identifies whether the gross receipts derived from an item are DPGR.

(3) *De minimis rules*—(i) *DPGR*. All of a taxpayer's gross receipts may be treated as DPGR if less than 5 percent of the taxpayer's total gross receipts are non-DPGR (after application of the exceptions provided in § 1.199-3(i)(4)(i)(B), (l)(4)(iv)(A), (m)(1)(iii)(A), (n)(6)(i), and (o)(2) that may result in gross receipts being treated as DPGR). If the amount of the taxpayer's gross receipts that are non-DPGR equals or exceeds 5 percent of the taxpayer's total gross receipts, then, except as provided in paragraph (d)(3)(ii) of this section, the taxpayer is required to allocate all gross receipts between DPGR and non-DPGR in accordance with paragraph (d)(1) of this section. If a corporation is a member of an EAG, but is not a member of a consolidated group, then the determination of whether less than 5 percent of the taxpayer's total gross receipts are non-DPGR is made at the corporation level. If a corporation is a member of a consolidated group, then the determination of whether less than 5 percent of the taxpayer's total gross receipts are non-DPGR is made at the consolidated group level. In the case of an S corporation, partnership, trust (to the extent not described in § 1.199-5(d) or § 1.199-9(d)) or estate, or other pass-thru entity, the determination of whether less than 5 percent of the pass-thru entity's total gross receipts are non-DPGR is made at the pass-thru entity level. In the case of an owner of a pass-thru entity, the determination of whether less than 5 percent of the owner's total gross receipts are non-DPGR is made at the owner level, taking into account all gross receipts of the owner from its other trade or business activities and the owner's share of the gross receipts of the pass-thru entity.

(ii) *Non-DPGR*. All of a taxpayer's gross receipts may be treated as non-DPGR if less than 5 percent of the taxpayer's total gross receipts are DPGR (after application of the exceptions provided in § 1.199-3(i)(4)(ii), (l)(4)(iv)(B), (m)(1)(iii)(B), and (n)(6)(ii) that may result in gross receipts being treated as non-DPGR). If a corporation is a member of an EAG, but is not a member of a consolidated group, then the determination of whether less than 5 percent of the taxpayer's total gross

receipts are DPGR is made at the corporation level. If a corporation is a member of a consolidated group, then the determination of whether less than 5 percent of the taxpayer's total gross receipts are DPGR is made at the consolidated group level. In the case of an S corporation, partnership, trust (to the extent not described in § 1.199-5(d) or § 1.199-9(d)) or estate, or other pass-thru entity, the determination of whether less than 5 percent of the pass-thru entity's total gross receipts are DPGR is made at the pass-thru entity level. In the case of an owner of a pass-thru entity, the determination of whether less than 5 percent of the owner's total gross receipts are DPGR is made at the owner level, taking into account all gross receipts of the owner from its other trade or business activities and the owner's share of the gross receipts of the pass-thru entity.

(4) *Example*. The following example illustrates the application of this paragraph (d):

Example. X derives its gross receipts from the sale of gasoline refined by X within the United States and the sale of refined gasoline that X acquired by purchase from an unrelated person. If at least 5% of X's gross receipts are derived from gasoline refined by X within the United States (that qualify as DPGR if all the other requirements of § 1.199-3 are met) and at least 5% of X's gross receipts are derived from the resale of the acquired gasoline (that do not qualify as DPGR), then X does not qualify for the *de minimis* rules under paragraphs (d)(3)(i) and (ii) of this section, and X must allocate its gross receipts between the gross receipts derived from the sale of gasoline refined by X within the United States and the gross receipts derived from the resale of the acquired gasoline. If less than 5% of X's gross receipts are derived from the resale of the acquired gasoline, then, X may either allocate its gross receipts between the gross receipts derived from the gasoline refined by X within the United States and the gross receipts derived from the resale of the acquired gasoline, or, pursuant to paragraph (d)(3)(i) of this section, X may treat all of its gross receipts derived from the sale of the refined gasoline as DPGR. If X's gross receipts attributable to the gasoline refined by X within the United States constitute less than 5% of X's total gross receipts, then, X may either allocate its gross receipts between the gross receipts derived from the gasoline refined by X within the United States and the gross receipts derived from the resale of the acquired gasoline, or, pursuant to paragraph

(d)(3)(ii) of this section, X may treat all of its gross receipts derived from the sale of the refined gasoline as non-DPGR.

(e) *Certain multiple-year transactions—*

(1) *Use of historical data.* If a taxpayer recognizes and reports gross receipts from advance payments or other similar payments on a Federal income tax return for a taxable year, then the taxpayer's use of historical data in making an allocation of gross receipts from the transaction between DPGR and non-DPGR may constitute a reasonable method. If a taxpayer makes allocations using historical data, and subsequently updates the data, then the taxpayer must use the more recent or updated data, starting in the taxable year in which the update is made.

(2) *Percentage of completion method.* A taxpayer using a percentage of completion method under section 460 must determine the ratio of DPGR and non-DPGR using a reasonable method that is satisfactory to the Secretary based on all of the facts and circumstances that accurately identifies the gross receipts that constitute DPGR. See paragraph (d)(2) of this section for the factors taken into consideration in determining whether the taxpayer's method is reasonable.

(3) *Examples.* The following examples illustrate the application of this paragraph (e):

Example 1. On December 1, 2007, X, a calendar year accrual method taxpayer, sells for \$100 a one-year computer software maintenance agreement that provides for (i) computer software updates that X expects to produce in the United States, and (ii) customer support services. At the end of 2007, X uses a reasonable method that is satisfactory to the Secretary based on all of the facts and circumstances to allocate 60% of the gross receipts (\$60) to the computer software updates and 40% (\$40) to the customer support services. X treats the \$60 as DPGR in 2007. At the expiration of the one-year agreement on November 30, 2008, no computer software updates are provided by X. Pursuant to paragraph (e)(1) of this section, because X used a reasonable method that is satisfactory to the Secretary based on all of the facts and circumstances to identify gross receipts as DPGR, X is not required to make any adjustments to its 2007 Federal income tax return (for example, by amended return) or in 2008 for the \$60 that was properly treated as DPGR in 2007, even though no computer software updates were provided under the contract.

Example 2. X manufactures automobiles within the United States and sells 5-year extended warranties to customers. The sales price of the warranty is based on historical data that determines what repairs and services are performed on an automobile during the 5-year period. X sells the 5-year warranty to Y for \$1,000 in 2007. Under X's method of accounting, X recognizes warranty revenue when received. Using historical data, X concludes that 60% of the gross receipts attributable to a 5-year warranty will be derived from the sale of parts (QPP) that X manufactures within the United States, and 40% will be derived from the sale of purchased parts X did not manufacture and non-qualifying services. X's method of allocating its gross receipts with respect to the 5-year warranty between DPGR and non-DPGR is a reasonable method that is satisfactory to the Secretary based on all of the facts and circumstances. Therefore, X properly treats \$600 as DPGR in 2007.

Example 3. The facts are the same as in *Example 2* except that in 2009 X updates its historical data. The updated historical data show that 50% of the gross receipts attributable to a 5-year warranty will be derived from the sale of parts (QPP) that X manufactures within the United States and 50% will be derived from the sale of purchased parts X did not manufacture and non-qualifying services. In 2009, X sells a 5-year warranty for \$1,000 to Z. Under all of the facts and circumstances, X's method of allocation is still a reasonable method. Relying on its updated historical data, X properly treats \$500 as DPGR in 2009.

Example 4. The facts are the same as in *Example 2* except that Y pays for the 5-year warranty over time (\$200 a year for 5 years). Under X's method of accounting, X recognizes each \$200 payment as it is received. In 2009, X updates its historical data and the updated historical data show that 50% of the gross receipts attributable to a 5-year warranty will be derived from the sale of QPP that X manufactures within the United States and 50% will be derived from the sale of purchased parts X did not manufacture and non-qualifying services. Under all of the facts and circumstances, X's method of allocation is still a reasonable method. When Y makes its \$200 payment for 2009, X, relying on its updated historical data, properly treats \$100 as DPGR in 2009.

[T.D. 9263, 71 FR 31283, June 1, 2006; 72 FR 5, Jan. 3, 2007, as amended by T.D. 9381, 73 FR 8801, Feb. 15, 2008]

§ 1.199-2 Wage limitation.

(a) *Rules of application—*(1) *In general.* The provisions of this section apply solely for purposes of section 199 of the Internal Revenue Code. The amount of

the deduction allowable under § 1.199-1(a) (section 199 deduction) to a taxpayer for any taxable year shall not exceed 50 percent of the W-2 wages (as defined in paragraph (e) of this section) of the taxpayer. For this purpose, except as provided in paragraph (a)(3) of this section and paragraph (b) of this section, the Forms W-2, "Wage and Tax Statement," used in determining the amount of W-2 wages are those issued for the calendar year ending during the taxpayer's taxable year for wages paid to employees (or former employees) of the taxpayer for employment by the taxpayer. For purposes of this section, employees of the taxpayer are limited to employees of the taxpayer as defined in section 3121(d)(1) and (2) (that is, officers of a corporate taxpayer and employees of the taxpayer under the common law rules). See paragraph (a)(3) of this section for the requirement that W-2 wages must have been included in a return filed with the Social Security Administration (SSA) within 60 days after the due date (including extensions) of the return.

(2) *Wages paid by entity other than common law employer.* In determining W-2 wages, a taxpayer may take into account any wages paid by another entity and reported by the other entity on Forms W-2 with the other entity as the employer listed in Box c of the Forms W-2, provided that the wages were paid to employees of the taxpayer for employment by the taxpayer. If the taxpayer is treated as an employer described in section 3401(d)(1) because of control of the payment of wages (that is, the taxpayer is not the common law employer of the payee of the wages), the payment of wages may not be included in determining W-2 wages of the taxpayer. If the taxpayer is paying wages as an agent of another entity to individuals who are not employees of the taxpayer, the wages may not be included in determining the W-2 wages of the taxpayer.

(3) *Requirement that wages must be reported on return filed with the Social Security Administration—(i) In general.* The term W-2 wages shall not include any amount that is not properly included in a return filed with SSA on or before the 60th day after the due date (including extensions) for such return. Under

§ 31.6051-2 of this chapter, each Form W-2 and the transmittal Form W-3, "Transmittal of Wage and Tax Statements," together constitute an information return to be filed with SSA. Similarly, each Form W-2c, "Corrected Wage and Tax Statement," and the transmittal Form W-3 or W-3c, "Transmittal of Corrected Wage and Tax Statements," together constitute an information return to be filed with SSA. In determining whether any amount has been properly included in a return filed with SSA on or before the 60th day after the due date (including extensions) for such return, each Form W-2 together with its accompanying Form W-3 shall be considered a separate information return and each Form W-2c together with its accompanying Form W-3 or Form W-3c shall be considered a separate information return. Section 31.6071(a)-1(a)(3) of this chapter provides that each information return in respect of wages as defined in the Federal Insurance Contributions Act or of income tax withheld from wages which is required to be made under § 31.6051-2 of this chapter shall be filed on or before the last day of February (March 31 if filed electronically) of the year following the calendar year for which it is made, except that if a tax return under § 31.6011(a)-5(a) of this chapter is filed as a final return for a period ending prior to December 31, the information statement shall be filed on or before the last day of the second calendar month following the period for which the tax return is filed. Corrected Forms W-2 are required to be filed with SSA on or before the last day of February (March 31 if filed electronically) of the year following the year in which the correction is made, except that if a tax return under § 31.6011(a)-5(a) is filed as a final return for a period ending prior to December 31 for the period in which the correction is made, the corrected Forms W-2 are required to be filed by the last day of the second calendar month following the period for which the final return is filed.

(ii) *Corrected return filed to correct a return that was filed within 60 days of the due date.* If a corrected information return (Return B) is filed with SSA on or before the 60th day after the due date (including extensions) of Return B to

correct an information return (Return A) that was filed with SSA on or before the 60th day after the due date (including extensions) of the information return (Return A) and paragraph (a)(3)(iii) of this section does not apply, then the wage information on Return B must be included in determining W-2 wages. If a corrected information return (Return D) is filed with SSA later than the 60th day after the due date (including extensions) of Return D to correct an information return (Return C) that was filed with SSA on or before the 60th day after the due date (including extensions) of the information return (Return C), then if Return D reports an increase (or increases) in wages included in determining W-2 wages from the wage amounts reported on Return C, then such increase (or increases) on Return D shall be disregarded in determining W-2 wages (and only the wage amounts on Return C may be included in determining W-2 wages). If Return D reports a decrease (or decreases) in wages included in determining W-2 wages from the amounts reported on Return C, then, in determining W-2 wages, the wages reported on Return C must be reduced by the decrease (or decreases) reflected on Return D.

(iii) *Corrected return filed to correct a return that was filed later than 60 days after the due date.* If an information return (Return F) is filed to correct an information return (Return E) that was not filed with SSA on or before the 60th day after the due date (including extensions) of Return E, then Return F (and any subsequent information returns filed with respect to Return E) will not be considered filed on or before the 60th day after the due date (including extensions) of Return F (or the subsequent corrected information return). Thus, if a Form W-2c (or corrected Form W-2) is filed to correct a Form W-2 that was not filed with SSA on or before the 60th day after the due date (including extensions) of the information return including the Form W-2 (or to correct a Form W-2c relating to an information return including a Form W-2 that had not been filed with SSA on or before the 60th day after the due date (including extensions) of the information return including the Form

W-2), then the information return including this Form W-2c (or corrected Form W-2) shall not be considered to have been filed with SSA on or before the 60th day after the due date (including extensions) for this information return including the Form W-2c (or corrected Form W-2), regardless of when the information return including the Form W-2c (or corrected Form W-2) is filed.

(4) *Joint return.* An individual and his or her spouse are considered one taxpayer for purposes of determining the amount of W-2 wages for a taxable year, provided that they file a joint return for the taxable year. Thus, an individual filing as part of a joint return may include the wages of employees of his or her spouse in determining W-2 wages, provided the employees are employed in a trade or business of the spouse and the other requirements of this section are met. However, a married taxpayer filing a separate return from his or her spouse for the taxable year may not include the wages of employees of the taxpayer's spouse in determining the taxpayer's W-2 wages for the taxable year.

(b) *Application in the case of a taxpayer with a short taxable year.* In the case of a taxpayer with a short taxable year, subject to the rules of paragraph (a) of this section, the W-2 wages of the taxpayer for the short taxable year shall include only those wages paid during the short taxable year to employees of the taxpayer, only those elective deferrals (within the meaning of section 402(g)(3)) made during the short taxable year by employees of the taxpayer and only compensation actually deferred under section 457 during the short taxable year with respect to employees of the taxpayer. The Secretary shall have the authority to issue published guidance setting forth the method that is used to calculate W-2 wages in case of a taxpayer with a short taxable year. See paragraph (e)(3) of this section.

(c) [Reserved]. For further guidance see § 1.199-2T(c).

(d) *Non-duplication rule.* Amounts that are treated as W-2 wages for a taxable year under any method shall not be treated as W-2 wages of any other taxable year. Also, an amount shall not

be treated as W-2 wages by more than one taxpayer.

(e) *Definition of W-2 wages*—(1) *In general.* Under section 199(b)(2), the term *W-2 wages* means, with respect to any person for any taxable year of such person, the sum of the amounts described in section 6051(a)(3) and (8) paid by such person with respect to employment of employees by such person during the calendar year ending during such taxable year. Thus, the term W-2 wages includes the total amount of wages as defined in section 3401(a); the total amount of elective deferrals (within the meaning of section 402(g)(3)); the compensation deferred under section 457; and for taxable years beginning after December 31, 2005, the amount of designated Roth contributions (as defined in section 402A).

(2) *Limitation on W-2 wages for taxable years beginning after May 17, 2006, the enactment date of the Tax Increase Prevention and Reconciliation Act of 2005*—

(i) *In general.* The term *W-2 wages* includes only amounts described in paragraph (e)(1) of this section (paragraph (e)(1) wages) that are properly allocable to domestic production gross receipts (DPGR) (as defined in § 1.199-3) for purposes of section 199(c)(1). A taxpayer may determine the amount of paragraph (e)(1) wages that is properly allocable to DPGR using any reasonable method that is satisfactory to the Secretary based on all of the facts and circumstances.

(ii) *Wage expense safe harbor*—(A) *In general.* A taxpayer using either the section 861 method of cost allocation under § 1.199-4(d) or the simplified deduction method under § 1.199-4(e) may determine the amount of paragraph (e)(1) wages that is properly allocable to DPGR for a taxable year by multiplying the amount of paragraph (e)(1) wages for the taxable year by the ratio of the taxpayer's wage expense included in calculating qualified production activities income (QPAI) (as defined in § 1.199-1(c)) for the taxable year to the taxpayer's total wage expense used in calculating the taxpayer's taxable income (or adjusted gross income, if applicable) for the taxable year, without regard to any wage expense disallowed by section 465, 469, 704(d), or 1366(d). A taxpayer that uses the sec-

tion 861 method of cost allocation under § 1.199-4(d) or the simplified deduction method under § 1.199-4(e) to determine QPAI must use the same expense allocation and apportionment methods that it uses to determine QPAI to allocate and apportion wage expense for purposes of this safe harbor. For purposes of this paragraph (e)(2)(ii), the term *wage expense* means wages (that is, compensation paid by the employer in the active conduct of a trade or business to its employees) that are properly taken into account under the taxpayer's method of accounting.

(B) *Wage expense included in cost of goods sold.* For purposes of paragraph (e)(2)(ii)(A) of this section, a taxpayer may determine its wage expense included in cost of goods sold (CGS) using any reasonable method that is satisfactory to the Secretary based on all of the facts and circumstances, such as using the amount of direct labor included in CGS or using section 263A labor costs (as defined in § 1.263A-1(h)(4)(ii)) included in CGS.

(iii) *Small business simplified overall method safe harbor.* A taxpayer that uses the small business simplified overall method under § 1.199-4(f) may use the small business simplified overall method safe harbor for determining the amount of paragraph (e)(1) wages that is properly allocable to DPGR. Under this safe harbor, the amount of paragraph (e)(1) wages that is properly allocable to DPGR is equal to the same proportion of paragraph (e)(1) wages that the amount of DPGR bears to the taxpayer's total gross receipts.

(iv) *Examples.* The following examples illustrate the application of this paragraph (e)(2). See § 1.199-5(e)(4) for an example of the application of paragraph (e)(2)(ii) of this section to a trust or estate. The examples read as follows:

Example 1. Section 861 method and no EAG (i) *Facts.* X, a United States corporation that is not a member of an expanded affiliated group (EAG) (as defined in § 1.199-7) or an affiliated group as defined in the regulations under section 861, engages in activities that generate both DPGR and non-DPGR. X's taxable year ends on April 30, 2011. For X's taxable year ending April 30, 2011, X has \$3,000 of paragraph (e)(1) wages reported on 2010 Forms W-2. All of X's production activities that generate DPGR are within Standard Industrial Classification (SIC) Industry Group

AAA (SIC AAA). All of X's production activities that generate non-DPGR are within SIC Industry Group BBB (SIC BBB). X is able to specifically identify CGS allocable to DPGR and to non-DPGR. X incurs \$900 of research and experimentation expenses (R&E) that are deductible under section 174, \$300 of which are performed with respect to SIC AAA and \$600 of which are performed with respect to SIC BBB. None of the R&E is legally mandated R&E as described in § 1.861-17(a)(4) and none of the R&E is included in CGS. X incurs section 162 selling expenses that are not includible in CGS and are definitely related to all of X's gross income. For X's taxable year ending April 30, 2011, the adjusted basis of X's assets is \$50,000, \$40,000 of which generate gross income attributable to DPGR and \$10,000 of which generate gross income attributable to non-DPGR. For X's taxable year ending April 30, 2011, the total square footage of X's headquarters is 8,000 square feet, of which 2,000 square feet is set aside for domestic production activities. For its taxable year ending April 30, 2011, X's taxable income is \$1,380 based on the following Federal income tax items:

DPGR (all from sales of products within SIC AAA)	\$3,000
Non-DPGR (all from sales of products within SIC BBB)	3,000
CGS allocable to DPGR (includes \$200 of wage expense)	(600)
CGS allocable to non-DPGR (includes \$600 of wage expense)	(1,800)
Section 162 selling expenses (includes \$600 of wage expense)	(840)
Section 174 R&E-SIC AAA (includes \$100 of wage expense)	(300)
Section 174 R&E-SIC BBB (includes \$200 of wage expense)	(600)
Interest expense (not included in CGS)	(300)
Headquarters overhead expense (includes \$100 of wage expense)	(180)
X's taxable income	1,380

(ii) *X's QPAI*. X allocates and apportions its deductions to gross income attributable to DPGR under the section 861 method in § 1.199-4(d). In this case, the section 162 selling expenses and overhead expense are definitely related to all of X's gross income. Based on the facts and circumstances of this specific case, apportionment of the section 162 selling expenses between DPGR and non-DPGR on the basis of X's gross receipts is appropriate. In addition, based on the facts and circumstances of this specific case, apportionment of the headquarters overhead expense between DPGR and non-DPGR on the basis of the square footage of X's headquarters is appropriate. For purposes of apportioning R&E, X elects to use the sales method as described in § 1.861-17(c). X elects to apportion interest expense under the tax book value method of § 1.861-9T(g). X has \$2,400 of gross income attributable to DPGR (DPGR of \$3,000 - CGS of \$600 allocated

based on X's books and records). X's QPAI for its taxable year ending April 30, 2011, is \$1,395, as shown in the following table:

DPGR (all from sales of products within SIC AAA)	\$3,000
CGS allocable to DPGR	(600)
Section 162 selling expenses (\$840 × (\$3,000 DPGR/\$6,000 total gross receipts))	(420)
Section 174 R&E-SIC AAA	(300)
Interest expense (not included in CGS) (\$300 × (\$40,000 (X's DPGR assets)/\$50,000 (X's total assets)))	(240)
Headquarters overhead expense (\$180 × (2,000 square feet attributable to DPGR activity/total 8,000 square feet))	(45)
X's QPAI	1,395

(iii) *W-2 wages*. X chooses to use the wage expense safe harbor under paragraph (e)(2)(ii) of this section to determine its W-2 wages, as shown in the following steps:

(A) *Step one*. X determines that \$625 of wage expense were taken into account in determining its QPAI in paragraph (ii) of this *Example 1*, as shown in the following table:

CGS wage expense	\$200
Section 162 selling expenses wage expense (\$600 × (\$3,000 DPGR/\$6,000 total gross receipts))	300
Section 174 R&E-SIC AAA wage expense ..	100
Headquarters overhead wage expense (\$100 × (2,000 square feet attributable to DPGR activity/8,000 total square feet))	25
Total wage expense taken into account	625

(B) *Step two*. X determines that \$1,042 of the \$3,000 in paragraph (e)(1) wages are properly allocable to DPGR, and are therefore W-2 wages, as shown in the following calculation:

Step one wage expense/X's total wage expense for taxable year ending April 30, 2011 × X's paragraph (e)(1) wages
 $\$625/\$1,800 \times \$3,000 = \$1,042$

(iv) *Section 199 deduction determination*. X's tentative deduction under § 1.199-1(a) (section 199 deduction) is \$124 (.09 × (lesser of QPAI of \$1,395 or taxable income of \$1,380)) subject to the wage limitation under section 199(b)(1) (W-2 wage limitation) of \$521 (50% × \$1,042). Accordingly, X's section 199 deduction for its taxable year ending April 30, 2011, is \$124.

Example 2. Section 861 method and EAG (i) *Facts*. The facts are the same as in *Example 1* except that X owns stock in Y, a United States corporation, equal to 75% of the total voting power of the stock of Y and 80% of the total value of the stock of Y. X and Y are not members of an affiliated group as defined in section 1504(a). Accordingly, the rules of § 1.861-14T do not apply to X's and Y's selling expenses, R&E, and charitable contributions. X and Y are, however, members of an affiliated group for purposes of allocating and apportioning interest expense (see § 1.861-11T(d)(6)) and are also members of an EAG. Y's taxable year ends April 30, 2011. For Y's taxable year ending April 30, 2011, Y has

\$2,000 of paragraph (e)(1) wages reported on 2010 Forms W-2. For Y's taxable year ending April 30, 2011, the adjusted basis of Y's assets is \$50,000, \$20,000 of which generate gross income attributable to DPGR and \$30,000 of which generate gross income attributable to non-DPGR. All of Y's activities that generate DPGR are within SIC Industry Group AAA (SIC AAA). All of Y's activities that generate non-DPGR are within SIC Industry Group BBB (SIC BBB). None of X's and Y's sales are to each other. Y is not able to specifically identify CGS allocable to DPGR and non-DPGR. In this case, because CGS is definitely related under the facts and circumstances to all of Y's gross receipts, apportionment of CGS between DPGR and non-DPGR based on gross receipts is appropriate. For Y's taxable year ending April 30, 2011, the total square footage of Y's headquarters is 8,000 square feet, of which 2,000 square feet is set aside for domestic production activities. Y incurs section 162 selling expenses that are not includible in CGS and are definitely related to all of Y's gross income. For Y's taxable year ending April 30, 2011, Y's taxable income is \$1,710 based on the following Federal income tax items:

DPGR (all from sales of products within SIC AAA)	\$3,000
Non-DPGR (all from sales of products within SIC BBB)	3,000
CGS allocated to DPGR (includes \$300 of wage expense)	(1,200)
CGS allocated to non-DPGR (includes \$300 of wage expense)	(1,200)
Section 162 selling expenses (includes \$300 of wage expense)	(840)
Section 174 R&E-SIC AAA (includes \$20 of wage expense)	(100)
Section 174 R&E-SIC BBB (includes \$60 of wage expense)	(200)
Interest expense (not included in CGS and not subject to § 1.861-10T)	(500)
Charitable contributions	(50)
Headquarters overhead expense (includes \$40 of wage expense)	(200)
Y's taxable income	1,710

(ii) *QPAI*. (A) *X's QPAI*. Determination of X's QPAI is the same as in *Example 1* except that interest is apportioned to gross income attributable to DPGR based on the combined adjusted bases of X's and Y's assets. See § 1.861-11T(c). Accordingly, X's QPAI for its taxable year ending April 30, 2011, is \$1,455, as shown in the following table:

DPGR (all from sales of products within SIC AAA)	\$3,000
CGS allocated to DPGR	(600)
Section 162 selling expenses (\$840 × (\$3,000 DPGR/\$6,000 total gross receipts))	(420)
Section 174 R&E-SIC AAA	(300)
Interest expense (not included in CGS and not subject to § 1.861-10T) (\$300 × (\$60,000 (tax book value of X's and Y's DPGR assets)/\$100,000 (tax book value of X's and Y's total assets)))	(180)

Headquarters overhead expense (\$180 × (2,000 square feet attributable to DPGR activity/total 8,000 square feet))	(45)
---	------

X's QPAI 1,455

(B) *Y's QPAI*. Y makes the same elections under the section 861 method as does X. Y has \$1,800 of gross income attributable to DPGR (DPGR of \$3,000—CGS of \$1,200 allocated based on Y's gross receipts). Y's QPAI for its taxable year ending April 30, 2011, is \$905, as shown in the following table:

DPGR (all from sales of products within SIC AAA)	\$3,000
CGS allocated to DPGR	(1,200)
Section 162 selling expenses (\$840 × (\$3,000 DPGR/\$6,000 total gross receipts))	(420)
Section 174 R&E-SIC AAA	(100)
Interest expense (not included in CGS and not subject to § 1.861-10T) (\$500 × (\$60,000 (tax book value of X's and Y's DPGR assets)/\$100,000 (tax book value of X's and Y's total assets)))	(300)
Charitable contributions (not included in CGS) (\$50 × (\$1,800 gross income attributable to DPGR/\$3,600 total gross income))	(25)
Headquarters overhead expense (\$200 × (2,000 square feet attributable to DPGR activity/total 8,000 square feet))	(50)
Y's QPAI	905

(iii) *W-2 wages*. (A) *X's W-2 wages*. X's W-2 wages are \$1,042, the same as in *Example 1*.

(B) *Y's W-2 wages*. Y chooses to use the wage expense safe harbor under paragraph (e)(2)(ii) of this section to determine its W-2 wages, as shown in the following steps:

(1) *Step one*. Y determines that \$480 of wage expense were taken into account in determining its QPAI in paragraph (ii)(B) of this *Example 2*, as shown in the following table:

CGS wage expense	\$300
Section 162 selling expenses wage expense (\$300 × (\$3,000 DPGR/\$6,000 total gross receipts))	150
Section 174 R&E-SIC AAA wage expense ..	20
Headquarters overhead wage expense (\$40 × (2,000 square feet attributable to DPGR activity/8,000 total square feet))	10
Total wage expense taken into account	480

(2) *Step two*. Y determines that \$941 of the \$2,000 paragraph (e)(1) wages are properly allocable to DPGR, and are therefore W-2 wages, as shown in the following calculation: Step one wage expense/Y's total wage expense for taxable year ending April 30, 2011 × Y's paragraph (e)(1) wages = \$480/\$1,020 × \$2,000 = \$941

(iv) *Section 199 deduction determination*. The section 199 deduction of the X and Y EAG is determined by aggregating the separately determined taxable income, QPAI, and W-2 wages of X and Y. See § 1.199-7(b). Accordingly, the X and Y EAG's tentative section 199 deduction is \$212 (.09 × (lesser of combined QPAI of X and Y of \$2,360 (X's QPAI of \$1,455

plus Y's QPAI of \$905) or combined taxable incomes of X and Y of \$3,090 (X's taxable income of \$1,380 plus Y's taxable income of \$1,710)) subject to the combined W-2 wage limitation of X and Y of \$992 (50% × (\$1,042 (X's W-2 wages) + \$941 (Y's W-2 wages))). Accordingly, the X and Y EAG's section 199 deduction is \$212. The \$212 is allocated to X and Y in proportion to their QPAI. See § 1.199-7(c).

Example 3. Simplified deduction method (i) Facts. Z, a corporation that is not a member of an EAG, engages in activities that generate both DPGR and non-DPGR. Z is able to specifically identify CGS allocable to DPGR and to non-DPGR. Z's taxable year ends on April 30, 2011. For Z's taxable year ending April 30, 2011, Z has \$3,000 of paragraph (e)(1) wages reported on 2010 Forms W-2, and Z's taxable income is \$1,380 based on the following Federal income tax items:

DPGR	\$3,000
Non-DPGR	3,000
CGS allocable to DPGR (includes \$200 of wage expense)	(600)
CGS allocable to non-DPGR (includes \$600 of wage expense)	(1,800)
Expenses, losses, or deductions (deductions) (includes \$1,000 of wage expense) ...	(2,220)
Z's taxable income	1,380

(ii) **Z's QPAI.** Z uses the simplified deduction method under § 1.199-4(e) to apportion deductions between DPGR and non-DPGR. Z's QPAI for its taxable year ending April 30, 2011, is \$1,290, as shown in the following table:

DPGR	\$3,000
CGS allocable to DPGR	(600)
Deductions apportioned to DPGR (\$2,220 × (\$3,000 DPGR/\$6,000 total gross receipts))	(1,110)
Z's QPAI	1,290

(iii) **W-2 wages.** Z chooses to use the wage expense safe harbor under paragraph (e)(2)(ii) of this section to determine its W-2 wages, as shown in the following steps:

(A) **Step one.** Z determines that \$700 of wage expense were taken into account in determining its QPAI in paragraph (ii) of this *Example 3*, as shown in the following table:

Wage expense included in CGS allocable to DPGR	\$200
Wage expense included in deductions (\$1,000 in wage expense × (\$3,000 DPGR/\$6,000 total gross receipts))	500
Wage expense allocable to DPGR	700

(B) **Step two.** Z determines that \$1,167 of the \$3,000 paragraph (e)(1) wages are properly allocable to DPGR, and are therefore W-2 wages, as shown in the following calculation:

Step one wage expense / Z's total wage expense for taxable year ending April 30, 2011 × Z's paragraph (e)(1) wages
 $\$700 / \$1,800 \times \$3,000 = \$1,167$

(iv) **Section 199 deduction determination.** Z's tentative section 199 deduction is \$116 (.09 ×

(lesser of QPAI of \$1,290 or taxable income of \$1,380)) subject to the W-2 wage limitation of \$584 (50% × \$1,167). Accordingly, Z's section 199 deduction for its taxable year ending April 30, 2011, is \$116.

Example 4. Small business simplified overall method (i) Facts. Z, a corporation that is not a member of an EAG, engages in activities that generate both DPGR and non-DPGR. Z's taxable year ends on April 30, 2011. For Z's taxable year ending April 30, 2011, Z has \$3,000 of paragraph (e)(1) wages reported on 2010 Forms W-2, and Z's taxable income is \$1,380 based on the following Federal income tax items:

DPGR	\$3,000
Non-DPGR	3,000
CGS and deductions	(4,620)
Z's taxable income	1,380

(ii) **Z's QPAI.** Z uses the small business simplified overall method under § 1.199-4(f) to apportion CGS and deductions between DPGR and non-DPGR. Z's QPAI for its taxable year ending April 30, 2011, is \$690, as shown in the following table:

DPGR	\$3,000
CGS and deductions apportioned to DPGR (\$4,620 × (\$3,000 DPGR/\$6,000 total gross receipts))	(2,310)
Z's QPAI	690

(iii) **W-2 wages.** Z's W-2 wages under paragraph (e)(2)(iii) of this section are \$1,500, as shown in the following calculation:

$\$3,000 \text{ in paragraph (e)(1) wages} \times (\$3,000 \text{ DPGR} / \$6,000 \text{ total gross receipts}) = \$1,500$

(iv) **Section 199 deduction determination.** Z's tentative section 199 deduction is \$62 (.09 × (lesser of QPAI of \$690 or taxable income of \$1,380)) subject to the W-2 wage limitation of \$750 (50% × \$1,500). Accordingly, Z's section 199 deduction for its taxable year ending April 30, 2011, is \$62.

Example 5. Corporation uses employees of non-consolidated EAG member (i) Facts. Corporations S and B are the only members of a single EAG but are not members of a consolidated group. S and B are both calendar year taxpayers. All the activities described in this *Example 5* take place during the same taxable year and they are the only activities of S and B. S and B each use the section 861 method described in § 1.199-4(d) for allocating and apportioning their deductions. B is a manufacturer but has only three employees of its own. S employs the remainder of the personnel who perform the manufacturing activities for B. S's only receipts are from supplying employees to B. In 2010, B manufactures qualifying production property (QPP) (as defined in § 1.199-3(j)(1)), using its three employees and S's employees, and sells the QPP for \$10,000,000. B's total CGS and other deductions are \$6,000,000, including \$1,000,000 paid to S for the use of S's employees and

\$100,000 paid to its own employees. B reports the \$100,000 paid to its employees on the 2010 Forms W-2 issued to its employees. S pays its employees \$800,000 that is reported on the 2010 Forms W-2 issued to the employees.

(ii) *B's W-2 wages.* In determining its W-2 wages, B utilizes the wage expense safe harbor described in paragraph (e)(2)(ii) of this section. The entire \$100,000 paid by B to its employees is included in B's wage expense included in calculating its QPAI and is the only wage expense used in calculating B's taxable income. Thus, under the wage expense safe harbor described in paragraph (e)(2)(ii) of this section, B's W-2 wages are \$100,000 (\$100,000 (paragraph (e)(1) wages) × (\$100,000 (wage expense used in calculating B's QPAI)/\$100,000 (wage expense used in calculating B's taxable income))).

(iii) *S's W-2 wages.* In determining its W-2 wages, S utilizes the wage expense safe harbor described in paragraph (e)(2)(ii) of this section. Because S's \$1,000,000 in receipts from B do not qualify as DPGR and are S's only gross receipts, none of the \$800,000 paid by S to its employees is included in S's wage expense included in calculating its QPAI. However, the entire \$800,000 is included in calculating S's taxable income. Thus, under the wage expense safe harbor described in paragraph (e)(2)(ii)(A) of this section, S's W-2 wages are \$0 (\$800,000 (paragraph (e)(1) wages) × (\$0 (wage expense used in calculating S's QPAI)/\$800,000 (wage expense used in calculating S's taxable income))).

(iv) *Determination of EAG's section 199 deduction.* The section 199 deduction of the S and B EAG is determined by aggregating the separately determined taxable income or loss, QPAI, and W-2 wages of S and B. See § 1.199-7(b). B's taxable income and QPAI are each \$4,000,000 (\$10,000,000 DPGR – \$6,000,000 CGS and other deductions). S's taxable income is \$200,000 (\$1,000,000 gross receipts – \$800,000 total deductions). S's QPAI is \$0 (\$0 DPGR – \$0 CGS and other deductions). B's W-2 wages (as calculated in paragraph (ii) of this *Example 5*) are \$100,000 and S's W-2 wages (as calculated in paragraph (iii) of this *Example 5*) are \$0. The EAG's tentative section 199 deduction is \$360,000 (.09 × (lesser of combined QPAI of \$4,000,000 (B's QPAI of \$4,000,000 + S's QPAI of \$0) or combined taxable income of \$4,200,000 (B's taxable income of \$4,000,000 + S's taxable income of \$200,000))) subject to the W-2 wage limitation of \$50,000 (50% × (\$100,000 (B's W-2 wages) + \$0 (S's W-2 wages))). Accordingly, the S and B EAG's section 199 deduction for 2010 is \$50,000. The \$50,000 is allocated to S and B in proportion to their QPAI. See § 1.199-7(c). Because S has no QPAI, the entire \$50,000 is allocated to B.

Example 6. Corporation using employees of consolidated EAG member. The facts are the same as in *Example 5* except that B and S are members of the same consolidated group. Ordinarily, as demonstrated in *Example 5*, S's

\$1,000,000 of receipts would not be DPGR and its \$800,000 paid to its employees would not be W-2 wages (because the \$800,000 would not be properly allocable to DPGR). However, because S and B are members of the same consolidated group, § 1.1502-13(c)(1)(i) provides that the separate entity attributes of S's intercompany items or B's corresponding items, or both, may be redetermined in order to produce the same effect as if S and B were divisions of a single corporation. If S and B were divisions of a single corporation, S and B would have QPAI and taxable income of \$4,200,000 (\$10,000,000 DPGR received from the sale of the QPP – \$5,800,000 CGS and other deductions) and, under the wage expense safe harbor described in paragraph (e)(2)(ii) of this section, would have \$900,000 of W-2 wages (\$900,000 (combined paragraph (e)(1) wages of S and B) × (\$900,000 (wage expense used in calculating QPAI)/\$900,000 (wage expense used in calculating taxable income))). The single corporation would have a tentative section 199 deduction equal to 9% of \$4,200,000, or \$378,000, subject to the W-2 wage limitation of 50% of \$900,000, or \$450,000. Thus, the single corporation would have a section 199 deduction of \$378,000. To obtain this same result for the consolidated group, S's \$1,000,000 of receipts from the intercompany transaction are redetermined as DPGR. Thus, S's \$800,000 paid to its employees are costs properly allocable to DPGR and S's W-2 wages are \$800,000. Accordingly, the consolidated group has QPAI and taxable income of \$4,200,000 (\$11,000,000 DPGR (from the sale of the QPP and the redetermined intercompany transaction) – \$6,800,000 CGS and other deductions) and W-2 wages of \$900,000. The consolidated group's section 199 deduction is \$378,000, the same as the single corporation. However, for purposes of allocating the section 199 deduction between S and B, the redetermination of S's income as DPGR under § 1.1502-13(c)(1)(i) is not taken into account. See § 1.199-7(d)(5). Accordingly, the consolidated group's entire section 199 deduction of \$378,000 is allocated to B.

(3) *Methods for calculating W-2 wages.* The Secretary may provide by publication in the Internal Revenue Bulletin (see § 601.601(d)(2)(ii)(b) of this chapter) for methods to be used in calculating W-2 wages, including W-2 wages for short taxable years. For example, see Rev. Proc. 2006-22 (2006-23 I.R.B. 1033). (see § 601.601(d)(2) of this chapter).

[T.D. 9263, 71 FR 31283, June 1, 2006, as amended by T.D. 9293, 71 FR 61665, Oct. 19, 2006; T.D. 9263, 72 FR 5, Jan. 3, 2007; T.D. 9381, 73 FR 8801, Feb. 15, 2008; T.D. 9731, 80 FR 51941, Aug. 27, 2015]

§ 1.199-2T

26 CFR Ch. I (4-1-17 Edition)

§ 1.199-2T Wage limitation (temporary).

(a) through (b) [Reserved]. For further guidance, see § 1.199-2(a) through (b).

(c) *Acquisitions, dispositions, and short taxable years*—(1) *Allocation of wages between more than one taxpayer.* For purposes of computing the section 199 deduction of a taxpayer, in the case of an *acquisition or disposition* (as defined in paragraph (c)(3)(i) of this section) of a *trade or business* (as defined in paragraph (c)(3)(ii) of this section) that causes more than one taxpayer to be an employer of the employees of the acquired or disposed of trade or business during the calendar year, the W-2 wages of the taxpayer for the calendar year of the acquisition or disposition are allocated between each taxpayer based on the period during which the employees of the acquired or disposed of trade or business were employed by the taxpayer, regardless of which permissible method is used for reporting W-2 wages on Form W-2, “Wage and Tax Statement.” For this purpose, the period of employment is determined consistently with the principles for determining whether an individual is an employee described in § 1.199-2(a)(1).

(2) *Short taxable years.* If a taxpayer has a short taxable year that does not contain a calendar year ending during such short taxable year, wages paid to employees for employment by such taxpayer during the short taxable year are treated as W-2 wages for such short taxable year for purposes of § 1.199-2(a)(1) (if the wages would otherwise meet the requirements to be W-2 wages under § 1.199-2 but for the requirement that a calendar year must end during the short taxable year).

(3) *Operating rules*—(i) *Acquisition or disposition.* For purposes of this paragraph (c), the term *acquisition or disposition* includes an incorporation, a formation, a liquidation, a reorganization, or a purchase or sale of assets.

(ii) *Trade or business.* For purposes of this paragraph (c), the term *trade or business* includes a trade or business, the major portion of a trade or business, or the major portion of a separate unit of a trade or business.

(iii) *Application to section 199 only.* The provisions of this section apply

solely for purposes of section 199 of the Internal Revenue Code.

(d) through (e) [Reserved]. For further guidance, see § 1.199-2(d) through (e).

[T.D. 9731, 80 FR 51941, Aug. 27, 2015]

§ 1.199-3 Domestic production gross receipts.

(a) *In general.* The provisions of this section apply solely for purposes of section 199 of the Internal Revenue Code (Code). Domestic production gross receipts (DPGR) are the gross receipts (as defined in paragraph (c) of this section) of the taxpayer that are—

(1) Derived from any lease, rental, license, sale, exchange, or other disposition (as defined in paragraph (i) of this section) of—

(i) Qualifying production property (QPP) (as defined in paragraph (j)(1) of this section) that is manufactured, produced, grown, or extracted (MPGE) (as defined in paragraph (e) of this section) by the taxpayer (as defined in paragraph (f) of this section) in whole or in significant part (as defined in paragraph (g) of this section) within the United States (as defined in paragraph (h) of this section);

(ii) Any qualified film (as defined in paragraph (k) of this section) produced by the taxpayer; or

(iii) Electricity, natural gas, or potable water (as defined in paragraph (l) of this section) (collectively, utilities) produced by the taxpayer in the United States;

(2) Derived from, in the case of a taxpayer engaged in the active conduct of a construction trade or business, construction of real property (as defined in paragraph (m) of this section) performed in the United States by the taxpayer in the ordinary course of such trade or business; or

(3) Derived from, in the case of a taxpayer engaged in the active conduct of an engineering or architectural services trade or business, engineering or architectural services (as defined in paragraph (n) of this section) performed in the United States by the taxpayer in the ordinary course of such trade or business with respect to the construction of real property in the United States.

(b) *Related persons*—(1) *In general.* DPGR does not include any gross receipts of the taxpayer derived from property leased, licensed, or rented by the taxpayer for use by any related person. A person is treated as related to another person if both persons are treated as a single employer under either section 52(a) or (b) (without regard to section 1563(b)), or section 414(m) or (o). Any other person is an unrelated person for purposes of §§1.199-1 through 1.199-9.

(2) *Exceptions.* Notwithstanding paragraph (b)(1) of this section, gross receipts derived from any QPP or qualified film leased or rented by the taxpayer to a related person may qualify as DPGR if the QPP or qualified film is held for sublease or rent, or is subleased or rented, by the related person to an unrelated person for the ultimate use of the unrelated person. Similarly, notwithstanding paragraph (b)(1) of this section, gross receipts derived from the license of QPP or a qualified film to a related person for reproduction and sale, exchange, lease, rental, or sublicense to an unrelated person for the ultimate use of the unrelated person may qualify as DPGR.

(c) *Definition of gross receipts.* The term *gross receipts* means the taxpayer's receipts for the taxable year that are recognized under the taxpayer's methods of accounting used for Federal income tax purposes for the taxable year. If the gross receipts are recognized in an intercompany transaction within the meaning of §1.1502-13, see also §1.199-7(d). For this purpose, gross receipts include total sales (net of returns and allowances) and all amounts received for services. In addition, gross receipts include any income from investments and from incidental or outside sources. For example, gross receipts include interest (including original issue discount and tax-exempt interest within the meaning of section 103), dividends, rents, royalties, and annuities, regardless of whether the amounts are derived in the ordinary course of the taxpayer's trade of business. Gross receipts are not reduced by cost of goods sold (CGS) or by the cost of property sold if such property is described in section 1221(a)(1), (2), (3), (4), or (5). Gross receipts do not include the

amounts received in repayment of a loan or similar instrument (for example, a repayment of the principal amount of a loan held by a commercial lender) and, except to the extent of gain recognized, do not include gross receipts derived from a non-recognition transaction, such as a section 1031 exchange. Finally, gross receipts do not include amounts received by the taxpayer with respect to sales tax or other similar state and local taxes if, under the applicable state or local law, the tax is legally imposed on the purchaser of the good or service and the taxpayer merely collects and remits the tax to the taxing authority. If, in contrast, the tax is imposed on the taxpayer under the applicable law, then gross receipts include the amounts received that are allocable to the payment of such tax.

(d) *Determining domestic production gross receipts*—(1) *In general.* For purposes of §§1.199-1 through 1.199-9, a taxpayer determines, using any reasonable method that is satisfactory to the Secretary based on all of the facts and circumstances, whether gross receipts qualify as DPGR on an item-by-item basis (and not, for example, on a division-by-division, product line-by-product line, or transaction-by-transaction basis).

(i) The term *item* means the property offered by the taxpayer in the normal course of the taxpayer's business for lease, rental, license, sale, exchange, or other disposition (for purposes of this paragraph (d), collectively referred to as disposition) to customers, if the gross receipts from the disposition of such property qualify as DPGR; or

(ii) If paragraph (d)(1)(i) of this section does not apply to the property, then any component of the property described in paragraph (d)(1)(i) of this section is treated as the item, provided that the gross receipts from the disposition of the property described in paragraph (d)(1)(i) of this section that are attributable to such component qualify as DPGR. Each component that meets the requirements under this paragraph (d)(1)(ii) must be treated as a separate item and a component that meets the requirements under this

paragraph (d)(1)(ii) may not be combined with a component that does not meet these requirements.

(2) *Special rules.* The following special rules apply for purposes of paragraph (d)(1) of this section:

(i) For purposes of paragraph (d)(1)(i) of this section, in no event may a single item consist of two or more properties unless those properties are offered for disposition, in the normal course of the taxpayer's business, as a single item (regardless of how the properties are packaged).

(ii) In the case of property customarily sold by weight or by volume, the item is determined using the custom of the industry (for example, barrels of oil).

(iii) In the case of construction activities and services or engineering and architectural services, a taxpayer may use any reasonable method that is satisfactory to the Secretary based on all of the facts and circumstances to determine what construction activities and services or engineering or architectural services constitute an item.

(3) *Exception.* If a taxpayer MPGE QPP within the United States or produces a qualified film or produces utilities in the United States that it disposes of, and the taxpayer leases, rents, licenses, purchases, or otherwise acquires property that contains or may contain the QPP, qualified film, or the utilities (or a portion thereof), and the taxpayer cannot reasonably determine, without undue burden and expense, whether the acquired property contains any of the original QPP, qualified film, or utilities MPGE or produced by the taxpayer, then the taxpayer is not required to determine whether any portion of the acquired property qualifies as an item for purposes of paragraph (d)(1) of this section. Therefore, the gross receipts derived from the disposition of the acquired property may be treated as non-DPGR. Similarly, the preceding sentences shall apply if the taxpayer can reasonably determine that the acquired property contains QPP, a qualified film, or utilities (or a portion thereof) MPGE or produced by the taxpayer, but cannot reasonably determine, without undue burden or expense, how much, or what type, grade, etc., of the QPP, qualified film,

or utilities MPGE or produced by the taxpayer the acquired property contains.

(4) *Examples.* The following examples illustrate the application of paragraph (d) of this section:

Example 1. Q manufactures leather and rubber shoe soles in the United States. Q imports shoe uppers, which are the parts of the shoe above the sole. Q manufactures shoes for sale by sewing or otherwise attaching the soles to the imported uppers. Q offers the shoes for sale to customers in the normal course of Q's business. If the gross receipts derived from the sale of the shoes do not qualify as DPGR under this section, then under paragraph (d)(1)(ii) of this section, Q must treat the sole as the item if the gross receipts derived from the sale of the sole qualify as DPGR under this section.

Example 2. The facts are the same as in *Example 1* except that Q also buys some finished shoes from unrelated persons and resells them to retail shoe stores. Q offers all shoes (manufactured and purchased) for sale to customers, in the normal course of Q's business, in individual pairs, and requires no minimum quantity order. Q ships the shoes in boxes, each box containing as many as 50 pairs of shoes. A full, or partially full, box may contain some shoes that Q manufactured, and some that Q purchased. Under paragraph (d)(2)(i) of this section, Q cannot treat a box of 50 (or fewer) pairs of shoes as an item, because Q offers the shoes for sale in the normal course of Q's business in individual pairs.

Example 3. R manufactures toy cars in the United States. R also purchases cars that were manufactured by unrelated persons. R offers the cars for sale to customers, in the normal course of R's business, in sets of three, and requires no minimum quantity order. R sells the three-car sets to toy stores. A three-car set may contain some cars manufactured by R and some cars purchased by R. If the gross receipts derived from the sale of the three-car sets do not qualify as DPGR under this section, then, under paragraph (d)(1)(ii) of this section, R must treat a toy car in the three-car set as the item, provided the gross receipts derived from the sale of the toy car qualify as DPGR under this section.

Example 4. The facts are the same as *Example 3* except that R offers the toy cars for sale individually to customers in the normal course of R's business, rather than in sets of three. R's customers resell the individual toy cars at three for \$10. Frequently, this results in retail customers purchasing three individual cars in one transaction. In determining R's DPGR, under paragraph (d)(2)(i) of this section, each toy car is an item and R cannot treat three individual toy cars as

one item, because the individual toy cars are not offered for sale in sets of three by R in the normal course of R's business.

Example 5. The facts are the same as in *Example 3* except that R offers the toy cars for sale to customers in the normal course of R's business both individually and in sets of three. The results are the same as *Example 3* with respect to the three-car sets. The results are the same as in *Example 4* with respect to the individual toy cars that are not included in the three-car sets and offered for sale individually. Thus, R has two items, an individual toy car and a set of three toy cars.

Example 6. S produces television sets in the United States. S also produces the same model of television set outside the United States. In both cases, S packages the sets one to a box. S sells the television sets to large retail consumer electronics stores. S requires that its customers purchase a minimum of 100 television sets per order. With respect to a particular order by a customer of 100 television sets, some were manufactured by S in the United States, and some were manufactured by S outside the United States. Under paragraph (d)(2)(i) of this section, a minimum order of 100 television sets is the item provided that the gross receipts derived from the sale of the 100 television sets qualify as DPGR.

Example 7. T produces in bulk form in the United States the active ingredient for a pharmaceutical product. T sells the active ingredient in bulk form to FX, a foreign corporation. This sale qualifies as DPGR assuming all the other requirements of this section are met. FX uses the active ingredient to produce the finished dosage form drug. FX sells the drug in finished dosage to T, which sells the drug to customers. Assume that T knows how much of the active ingredient is in the finished dosage. Under paragraph (d)(1)(ii) of this section, if T's gross receipts derived from the sale of the finished dosage do not qualify as DPGR under this section, then T must treat the active ingredient component as the item because the gross receipts attributable to the active ingredient qualify as DPGR under this section. The exception in paragraph (d)(3) of this section does not apply because T can reasonably determine without undue burden or expense that the finished dosage contains the active ingredient and the quantity of the active ingredient in the finished dosage.

Example 8. U produces steel within the United States and sells its steel to a variety of customers, including V, an unrelated person, who uses the steel for the manufacture of equipment. V also purchases steel from other steel producers. For its steel operations, U purchases equipment from V that may contain steel produced by U. U sells the equipment after 5 years. If U cannot reasonably determine without undue burden and expense whether the equipment contains any

steel produced by U, then, under paragraph (d)(3) of this section, U may treat the gross receipts derived from sale of the equipment as non-DPGR.

Example 9. The facts are the same as in *Example 8* except that U knows that the equipment purchased from V does contain some amount of steel produced by U. If U cannot reasonably determine without undue burden and expense how much steel produced by U the equipment contains, then, under paragraph (d)(3) of this section, U may treat the gross receipts derived from sale of the equipment as non-DPGR.

Example 10. W manufactures sunroofs, stereos, and tires within the United States. W purchases automobiles from unrelated persons and installs the manufactured components in the automobiles. W, in the normal course of W's business, sells the automobiles with the components to customers. If the gross receipts derived from the sale of the automobiles with the components do not qualify as DPGR under this section, then under paragraph (d)(1)(ii) of this section, W must treat each component (sunroofs, stereos, and tires) that it manufactures as a separate item if the gross receipts derived from the sale of each component qualify as DPGR under this section.

Example 11. X manufactures leather soles within the United States. X purchases shoe uppers, metal eyelets, and laces. X manufactures shoes by sewing or otherwise attaching the soles to the uppers; attaching the metal eyelets to the shoes; and threading the laces through the eyelets. X, in the normal course of X's business, sells the shoes to customers. If the gross receipts derived from the sale of the shoes do not qualify as DPGR under this section, then under paragraph (d)(1)(ii) of this section, X must treat the sole as the item if the gross receipts derived from the sale of the sole qualify as DPGR under this section. X may not treat the shoe upper, metal eyelets or laces as part of the item because under paragraph (d)(1)(ii) of this section the sole is the component that is treated as the item.

Example 12. Y manufactures glass windshields for automobiles within the United States. Y purchases automobiles from unrelated persons and installs the windshields in the automobiles. Y, in the normal course of Y's business, sells the automobiles with the windshields to customers. If the automobiles with the windshields do not meet the requirements for being an item, then, under paragraph (d)(1)(ii) of this section, Y must treat each windshield that it manufactures as an item if the gross receipts derived from the sale of the windshield qualify as DPGR under this section. Y may not treat any other portion of the automobile as part of the item because under paragraph (d)(1)(ii) of this section the windshield is the component.

(e) *Definition of manufactured, produced, grown, or extracted*—(1) *In general.* Except as provided in paragraphs (e)(2) and (3) of this section, the term *MPGE* includes manufacturing, producing, growing, extracting, installing, developing, improving, and creating QPP; making QPP out of scrap, salvage, or junk material as well as from new or raw material by processing, manipulating, refining, or changing the form of an article, or by combining or assembling two or more articles; cultivating soil, raising livestock, fishing, and mining minerals. The term *MPGE* also includes storage, handling, or other processing activities (other than transportation activities) within the United States related to the sale, exchange, or other disposition of agricultural products, provided the products are consumed in connection with or incorporated into the MPGE of QPP, whether or not by the taxpayer. Pursuant to paragraph (f)(1) of this section, the taxpayer must have the benefits and burdens of ownership of the QPP under Federal income tax principles during the period the MPGE activity occurs in order for gross receipts derived from the MPGE of QPP to qualify as DPGR.

(2) *Packaging, repackaging, labeling, or minor assembly.* If a taxpayer packages, repackages, labels, or performs minor assembly of QPP and the taxpayer engages in no other MPGE activity with respect to that QPP, the taxpayer's packaging, repackaging, labeling, or minor assembly does not qualify as MPGE with respect to that QPP.

(3) *Installing.* If a taxpayer installs QPP and engages in no other MPGE activity with respect to the QPP, the taxpayer's installing activity does not qualify as an MPGE activity. Notwithstanding paragraph (i)(4)(i)(B)(4) of this section, if the taxpayer installs QPP MPGE by the taxpayer and, except as provided in paragraph (f)(2) of this section, the taxpayer has the benefits and burdens of ownership of the QPP under Federal income tax principles during the period the installing activity occurs, then the portion of the installing activity that relates to the QPP is an MPGE activity.

(4) *Consistency with section 263A.* A taxpayer that has MPGE QPP for the

taxable year should treat itself as a producer under section 263A with respect to the QPP unless the taxpayer is not subject to section 263A. A taxpayer that currently is not properly accounting for its production activities under section 263A, and wishes to change its method of accounting to comply with the producer requirements of section 263A, must follow the applicable administrative procedures issued under § 1.446-1(e)(3)(ii) for obtaining the Commissioner's consent to a change in accounting method (for further guidance, for example, see Rev. Proc. 97-27 (1997-1 C.B. 680), or Rev. Proc. 2002-9 (2002-1 C.B. 327), whichever applies (see § 601.601(d)(2) of this chapter)).

(5) *Examples.* The following examples illustrate the application of this paragraph (e):

Example 1. A, B, and C are unrelated persons and are not cooperatives to which Part I of subchapter T of the Code applies. B grows agricultural products in the United States and sells them to A, who owns agricultural storage bins in the United States. A stores the agricultural products and has the benefits and burdens of ownership under Federal income tax principles of the agricultural products while they are being stored. A sells the agricultural products to C, who processes them into refined agricultural products in the United States. The gross receipts from A's, B's, and C's activities are DPGR from the MPGE of QPP.

Example 2. The facts are the same as in *Example 1* except that B grows the agricultural products outside the United States and C processes them into refined agricultural products outside the United States. Pursuant to paragraph (e)(1) of this section, the gross receipts derived by A from its sale of the agricultural products to C are DPGR from the MPGE of QPP within the United States. B's and C's respective MPGE activities occur outside the United States and, therefore, their respective gross receipts are non-DPGR.

Example 3. Y is hired to reconstruct and refurbish unrelated customers' tangible personal property. As part of the reconstruction and refurbishment, Y installs purchased replacement parts that constitute QPP in the customers' property. Y's installation of purchased replacement parts does not qualify as MPGE pursuant to paragraph (e)(3) of this section because Y did not MPGE the replacement parts.

Example 4. The facts are the same as in *Example 3* except that Y manufactures the replacement parts it uses for the reconstruction and refurbishment of customers' tangible personal property. Y has the benefits and burdens of ownership under Federal income tax principles of the replacement parts during the reconstruction and refurbishment activity and while installing the parts. Y's gross receipts derived from the MPGE of the replacement parts and Y's gross receipts derived from the installation of the replacement parts, which is an MPGE activity pursuant to paragraph (e)(3) of this section, are DPGR (assuming all the other requirements of this section are met).

Example 5. Z MPGE QPP within the United States. The following activities are performed by Z as part of the MPGE of the QPP while Z has the benefits and burdens of ownership under Federal income tax principles: materials analysis and selection, subcontractor inspections and qualifications, testing of component parts, assisting customers in their review and approval of the QPP, routine production inspections, product documentation, diagnosis and correction of system failure, and packaging for shipment to customers. Because Z MPGE the QPP, these activities performed by Z are part of the MPGE of the QPP.

Example 6. X purchases automobiles from unrelated persons and customizes them by adding ground effects, spoilers, custom wheels, specialized paint and decals, sunroofs, roof racks, and similar accessories. X does not manufacture any of the accessories. X's activity is minor assembly under paragraph (e)(2) of this section which is not an MPGE activity.

Example 7. Y manufactures furniture in the United States that it sells to unrelated persons. Y also engraves customers' names on pens and pencils purchased from unrelated persons and sells the pens and pencils to such customers. Although Y's sales of furniture qualify as DPGR if all the other requirements of this section are met, Y must determine whether its gross receipts derived from the sale of the pens and pencils qualify as DPGR. Y's status as a manufacturer of furniture in the United States does not carry over to its other activities.

Example 8. X produces computer software within the United States. In 2007, X enters into an agreement with Y, an unrelated person, under which X will manage Y's networks using computer software that X produced. Pursuant to the terms of the agreement, X also provides to Y for Y's use on Y's own hardware computer software that X produced (additional computer software). Assume that, based on all of the facts and circumstances, the transaction between X and Y relating to the additional computer software is a lease or sale of the additional computer software. Y pays X monthly fees of \$100

under the agreement during 2007. No separate charge for the additional computer software is stated in the agreement or in the monthly invoices that X provides to Y. The portion of X's gross receipts that is derived from the lease or sale of the additional computer software is DPGR (assuming all the other requirements of this section are met).

(f) *Definition of by the taxpayer*—(1) *In general.* With the exception of the rules applicable to an expanded affiliated group (EAG) under § 1.199-7, qualifying in-kind partnerships under paragraph (i)(7) of this section and § 1.199-9(i), EAG partnerships under paragraph (i)(8) of this section and § 1.199-9(j), and government contracts under paragraph (f)(2) of this section, only one taxpayer may claim the deduction under § 1.199-1(a) with respect to any qualifying activity under paragraphs (e)(1), (k)(1), and (l)(1) of this section performed in connection with the same QPP, or the production of a qualified film or utilities. If one taxpayer performs a qualifying activity under paragraph (e)(1), (k)(1), or (l)(1) of this section pursuant to a contract with another party, then only the taxpayer that has the benefits and burdens of ownership of the QPP, qualified film, or utilities under Federal income tax principles during the period in which the qualifying activity occurs is treated as engaging in the qualifying activity.

(2) *Special rule for certain government contracts.* Gross receipts derived from the MPGE of QPP in whole or in significant part within the United States will be treated as gross receipts derived from the lease, rental, license, sale, exchange, or other disposition of QPP MPGE by the taxpayer in whole or in significant part within the United States notwithstanding the requirements of paragraph (f)(1) of this section if—

(i) The QPP is MPGE by the taxpayer within the United States pursuant to a contract with the Federal government; and

(ii) The Federal Acquisition Regulation (Title 48, Code of Federal Regulations) requires that title or risk of loss with respect to the QPP be transferred to the Federal government before the MPGE of the QPP is completed.

(3) *Subcontractor.* If a taxpayer (subcontractor) enters into a contract or agreement to MPGE QPP on behalf of a

taxpayer to which paragraph (f)(2) of this section applies, and the QPP under the contract or agreement is subject to paragraph (f)(2)(ii) of this section, then, notwithstanding the requirements of paragraph (f)(1) of this section, the subcontractor's gross receipts derived from the MPGE of the QPP in whole or in significant part within the United States will be treated as gross receipts derived from the lease, rental, license, sale, exchange, or other disposition of QPP MPGE by the subcontractor in whole or in significant part within the United States.

(4) *Examples.* The following examples illustrate the application of this paragraph (f):

Example 1. X designs machines that it uses in its trade or business. X contracts with Y, an unrelated person, for the manufacture of the machines. The contract between X and Y is a fixed-price contract. The contract specifies that the machines will be manufactured in the United States using X's design. X owns the intellectual property attributable to the design and provides it to Y with a restriction that Y may only use it during the manufacturing process and has no right to exploit the intellectual property. The contract specifies that Y controls the details of the manufacturing process while the machines are being produced; Y bears the risk of loss or damage during manufacturing of the machines; and Y has the economic loss or gain upon the sale of the machines based on the difference between Y's costs and the fixed price. Y has legal title during the manufacturing process and legal title to the machines is not transferred to X until final manufacturing of the machines has been completed. Based on all of the facts and circumstances, pursuant to paragraph (f)(1) of this section Y has the benefits and burdens of ownership of the machines under Federal income tax principles during the period the manufacturing occurs and, as a result, Y is treated as the manufacturer of the machines.

Example 2. X designs and engineers machines that it sells to customers. X contracts with Y, an unrelated person, for the manufacture of the machines. The contract between X and Y is a cost-reimbursable type contract. Assume that X has the benefits and burdens of ownership of the machines under Federal income tax principles during the period the manufacturing occurs except that legal title to the machines is not transferred to X until final manufacturing of the machines is completed. Based on all of the facts and circumstances, X is treated as the manufacturer of the machines under paragraph (f)(1) of this section.

Example 3. X manufactures machines within the United States pursuant to a contract with the Federal government and the Federal Acquisition Regulation requires that the title or risk of loss with respect to the machines be transferred to the Federal government before X completes manufacture of the machines. X subcontracts with Y, an unrelated person, for the manufacture of components for the machines that Y manufactures within the United States. Assume that the machines manufactured by X, and the components for the machines manufactured by Y, are QPP. Both the machines and components are subject to the Federal Acquisition Regulation that requires title or risk of loss with respect to the machines and components be transferred to the Federal government before manufacturing of the machines and components are complete. Under paragraph (f)(2) of this section, the gross receipts derived by X from the manufacture within the United States of the machines for the Federal government are treated as having been derived from the lease, rental, license, sale, exchange, or other disposition of the machines manufactured by X in whole or in significant part within the United States. Under paragraph (f)(3) of this section, the gross receipts derived by Y from the manufacture within the United States of the components for X are also treated as having been derived from the lease, rental, license, sale, exchange, or other disposition of the components manufactured by Y in whole or in significant part within the United States.

(g) *Definition of in whole or in significant part—(1) In general.* QPP must be MPGE in whole or in significant part by the taxpayer and in whole or in significant part within the United States to qualify under section 199(c)(4)(A)(i)(I). If a taxpayer enters into a contract with an unrelated person for the unrelated person to MPGE QPP for the taxpayer and the taxpayer has the benefits and burdens of ownership of the QPP under applicable Federal income tax principles during the period the MPGE activity occurs, then, pursuant to paragraph (f)(1) of this section, the taxpayer is considered to MPGE the QPP under this section. The unrelated person must perform the MPGE activity on behalf of the taxpayer in whole or in significant part within the United States in order for the taxpayer to satisfy the requirements of this paragraph (g)(1).

(2) *Substantial in nature.* QPP will be treated as MPGE in significant part by the taxpayer within the United States for purposes of paragraph (g)(1) of this

section if the MPGE of the QPP by the taxpayer within the United States is substantial in nature taking into account all of the facts and circumstances, including the relative value added by, and relative cost of, the taxpayer's MPGE activity within the United States, the nature of the QPP, and the nature of the MPGE activity that the taxpayer performs within the United States. The MPGE of a key component of QPP does not, in itself, meet the substantial-in-nature requirement with respect to the QPP under this paragraph (g)(2). In the case of tangible personal property (as defined in paragraph (j)(2) of this section), research and experimental activities under section 174 and the creation of intangible assets are not taken into account in determining whether the MPGE of QPP is substantial in nature for any QPP other than computer software (as defined in paragraph (j)(3) of this section) and sound recordings (as defined in paragraph (j)(4) of this section). Thus, for example, a taxpayer may take into account its design and development activities when determining whether its MPGE of computer software is substantial in nature.

(3) *Safe harbor*—(i) *In general*. A taxpayer will be treated as having MPGE QPP in whole or in significant part within the United States for purposes of paragraph (g)(1) of this section if, in connection with the QPP, the direct labor and overhead of such taxpayer to MPGE the QPP within the United States account for 20 percent or more of the taxpayer's CGS of the QPP, or in a transaction without CGS (for example, a lease, rental, or license) account for 20 percent or more of the taxpayer's *unadjusted depreciable basis* (as defined in paragraph (g)(3)(ii) of this section) in the QPP. For taxpayers subject to section 263A, overhead is all costs required to be capitalized under section 263A except direct materials and direct labor. For taxpayers not subject to section 263A, overhead may be computed using any reasonable method that is satisfactory to the Secretary based on all of the facts and circumstances, but may not include any cost, or amount of any cost, that would not be required to be capitalized under section 263A if the taxpayer were subject to section 263A.

Research and experimental expenditures under section 174 and the costs of creating intangible assets are not taken into account in determining direct labor or overhead for any tangible personal property. However, for a special rule regarding computer software and sound recordings, see paragraph (g)(3)(iii) of this section. In the case of tangible personal property (as defined in paragraph (j)(2) of this section), research and experimental expenditures under section 174 and any other costs incurred in the creation of intangible assets may be excluded from CGS or unadjusted depreciable basis for purposes of determining whether the taxpayer meets the safe harbor under this paragraph (g)(3).

(ii) *Unadjusted depreciable basis*. The term *unadjusted depreciable basis* means the basis of property for purposes of section 1011 without regard to any adjustments described in section 1016(a)(2) and (3). This basis does not reflect the reduction in basis for—

(A) Any portion of the basis the taxpayer properly elects to treat as an expense under section 179 or 179C; or

(B) Any adjustments to basis provided by other provisions of the Code and the regulations under the Code (for example, a reduction in basis by the amount of the disabled access credit pursuant to section 44(d)(7)).

(iii) *Computer software and sound recordings*. In determining direct labor and overhead under paragraph (g)(3)(i) of this section, the costs of direct labor and overhead for developing computer software as described in Rev. Proc. 2000-50 (2000-1 C.B. 601) (see § 601.601(d)(2) of this chapter), research and experimental expenditures under section 174, and any other costs of creating intangible assets for computer software and sound recordings are treated as direct labor and overhead. These costs must be included in the taxpayer's CGS or unadjusted depreciable basis of computer software and sound recordings for purposes of determining whether the taxpayer meets the safe harbor under paragraph (g)(3)(i) of this section. If the taxpayer expects to lease, rent, license, sell, exchange, or otherwise dispose of computer software or sound recordings over more than one taxable year, the costs of developing

computer software as described in Rev. Proc. 2000-50 (2000-1 C.B. 601), research and experimental expenditures under section 174, and any other costs of creating intangible assets for computer software and sound recordings must be allocated over the estimated number of units that the taxpayer expects to lease, rent, license, sell, exchange, or otherwise dispose of.

(4) *Special rules*—(i) *Contract with an unrelated person*. If a taxpayer enters into a contract with an unrelated person for the unrelated person to MPGE QPP within the United States for the taxpayer, and the taxpayer is considered to MPGE the QPP pursuant to paragraph (f)(1) of this section, then, for purposes of the substantial-in-nature requirement under paragraph (g)(2) of this section and the safe harbor under paragraph (g)(3)(i) of this section, the taxpayer's MPGE or production activities or direct labor and overhead shall include both the taxpayer's MPGE or production activities or direct labor and overhead to MPGE the QPP within the United States as well as the MPGE or production activities or direct labor and overhead of the unrelated person to MPGE the QPP within the United States under the contract.

(ii) *Aggregation*. In determining whether the substantial-in-nature requirement under paragraph (g)(2) of this section or the safe harbor under paragraph (g)(3)(i) of this section is met at the time the taxpayer disposes of an item of QPP—

(A) An EAG member must take into account all of the previous MPGE or production activities or direct labor and overhead of the other members of the EAG;

(B) An EAG partnership (as defined in paragraph (i)(8) of this section and § 1.199-9(j)) must take into account all of the previous MPGE or production activities or direct labor and overhead of all members of the EAG in which the partners of the EAG partnership are members (as well as the previous MPGE or production activities of any other EAG partnerships owned by members of the same EAG);

(C) A member of an EAG in which the partners of an EAG partnership are members must take into account all of

the previous MPGE or production activities or direct labor and overhead of the EAG partnership (as well as those of any other members of the EAG and any previous MPGE or production activities of any other EAG partnerships owned by members of the same EAG); and

(D) A partner of a qualifying in-kind partnership (as defined in paragraph (i)(7) of this section and § 1.199-9(i)) must take into account all of the previous MPGE or production activities or direct labor and overhead of the qualifying in-kind partnership.

(5) *Examples*. The following examples illustrate the application of this paragraph (g):

Example 1. X purchases from Y, an unrelated person, unrefined oil extracted outside the United States. X refines the oil in the United States. The refining of the oil by X is an MPGE activity that is substantial in nature.

Example 2. X purchases gemstones and precious metal from outside the United States and then uses these materials to produce jewelry within the United States by cutting and polishing the gemstones, melting and shaping the metal, and combining the finished materials. X's MPGE activities are substantial in nature under paragraph (g)(2) of this section. Therefore, X has MPGE the jewelry in significant part within the United States.

Example 3. (i) *Facts*. X operates an automobile assembly plant in the United States. In connection with such activity, X purchases assembled engines, transmissions, and certain other components from Y, an unrelated person, and X assembles all of the component parts into an automobile. X also conducts stamping, machining, and subassembly operations, and X uses tools, jigs, welding equipment, and other machinery and equipment in the assembly of automobiles. On a per-unit basis, X's selling price and costs of such automobiles are as follows:

Selling price:	\$ 2,500
Cost of goods sold:	
Material—Acquired from Y:	\$ 1,475
Direct labor and overhead:	\$325
Total cost of goods sold:	\$1,800
Gross profit:	\$700
Administrative and selling expenses:	\$300
Taxable income:	\$400

(ii) *Analysis*. Although X's direct labor and overhead are less than 20% of total CGS (\$325/\$1,800, or 18%) and X is not within the safe harbor under paragraph (g)(3)(i) of this section, the activities conducted by X in connection with the assembly of an automobile are substantial in nature under paragraph (g)(2) of this section taking into account the

nature of X's activity and the relative value of X's activity. Therefore, X's automobiles will be treated as MPGE in significant part by X within the United States for purposes of paragraph (g)(1) of this section.

Example 4. X imports into the United States QPP that is partially manufactured. Assume that X completes the manufacture of the QPP within the United States and X's completion of the manufacturing of the QPP within the United States satisfies the in-whole-or-in-significant-part requirement under paragraph (g)(1) of this section. Therefore, X's gross receipts from the lease, rental, license, sale, exchange, or other disposition of the QPP qualify as DPGR if all other applicable requirements under this section are met.

Example 5. X manufactures QPP in significant part within the United States and exports the QPP for further manufacture outside the United States. X retains title to the QPP while the QPP is being further manufactured outside the United States. Assuming X meets all the requirements under this section for the QPP after the further manufacturing, X's gross receipts derived from the lease, rental, license, sale, exchange, or other disposition of the QPP will be considered DPGR, regardless of whether the QPP is imported back into the United States prior to the lease, rental, license, sale, exchange, or other disposition of the QPP.

Example 6. X is a retailer within the United States that sells cigars and pipe tobacco that X purchases from an unrelated person. While being displayed and offered for sale by X, the cigars and pipe tobacco age on X's shelves in a room with controlled temperature and humidity. Although X's cigars and pipe tobacco may become more valuable as they age, the gross receipts derived by X from the sale of the cigars and pipe tobacco are non-DPGR because the aging of the cigars and pipe tobacco while being displayed and offered for sale by X does not qualify as an MPGE activity that is substantial in nature.

Example 7. X incurs \$1,000,000 in computer software development costs in direct labor and overhead to develop computer software. X begins producing the computer software and expects to license one million copies of the computer software. In determining its direct labor and overhead for the computer software under paragraph (g)(3)(i) of this section, X must allocate under paragraph (g)(3)(iii) of this section the \$1,000,000 to the computer software X expects to produce. Thus, for each copy of the computer software produced by X, \$1 (\$1,000,000 in computer software development costs/one million estimated number of units to be licensed) in computer software development costs are treated as direct labor and overhead.

Example 8. X creates computer software for microwave ovens. X also manufactures the electric motors used in the ovens. X pur-

chases the other components of the microwave ovens from unrelated persons. X sells each microwave oven individually to customers. Assume that X's assembly of the finished microwave ovens is not minor assembly. To determine whether the manufacture of the microwave ovens satisfies the safe harbor under paragraph (g)(3)(i) of this section, X's direct labor and overhead include X's direct labor and overhead for creating the computer software, manufacturing the electric motors, and assembling the finished microwave ovens that are offered for sale.

Example 9. X designs shirts within the United States, but X cuts and sews the shirts outside of the United States. Because X's design activity is the creation of an intangible, its design activity is not taken into account in determining whether the manufacture of the shirts is substantial in nature under paragraph (g)(2) of this section, and the costs X incurs in creating the design of the shirts are not direct labor or overhead under paragraph (g)(3)(i) of this section. Therefore, X has not MPGE the shirts in significant part within the United States.

Example 10. X manufactures computer chips within the United States. X installs the computer chips that it manufactures in computers that X purchases from unrelated persons and sells the finished computers individually to customers. The computer chips are key components of the computers and the computers will not operate without them. The manufacture of the computer chips is not, in itself, substantial in nature with respect to the finished computers. Therefore, the taxpayer's MPGE activities must meet either the substantial-in-nature requirement under paragraph (g)(2) of this section, or the safe harbor under paragraph (g)(3) of this section, in order to qualify with respect to the finished computers.

(h) *Definition of United States.* For purposes of this section, the term *United States* includes the 50 states, the District of Columbia, the territorial waters of the United States, and the seabed and subsoil of those submarine areas that are adjacent to the territorial waters of the United States and over which the United States has exclusive rights, in accordance with international law, with respect to the exploration and exploitation of natural resources. The term *United States* does not include possessions and territories of the United States or the airspace or space over the United States and these areas.

(i) *Derived from the lease, rental, license, sale, exchange, or other disposition—(1) In general—(i) Definition.* The

term derived from the lease, rental, license, sale, exchange, or other disposition is defined as, and limited to, the gross receipts directly derived from the lease, rental, license, sale, exchange, or other disposition of QPP, a qualified film, or utilities, even if the taxpayer has already recognized gross receipts from a previous lease, rental, license, sale, exchange, or other disposition of the same QPP, qualified film, or utilities. Applicable Federal income tax principles apply to determine whether a transaction is, in substance, a lease, rental, license, sale, exchange, or other disposition, whether it is a service, or whether it is some combination thereof.

(ii) *Lease income.* The financing and interest components of a lease of QPP or a qualified film are considered to be derived from the lease of such QPP or qualified film. However, any portion of the lease income that is attributable to services or non-qualified property as defined in paragraph (i)(4) of this section is not derived from the lease of QPP or a qualified film.

(iii) *Income substitutes.* The proceeds from business interruption insurance, governmental subsidies, and governmental payments not to produce are treated as gross receipts derived from the lease, rental, license, sale, exchange, or other disposition to the extent that they are substitutes for gross receipts that would qualify as DPGR.

(iv) *Exchange of property—(A) Taxable exchanges.* Except as provided in paragraph (i)(1)(iv)(B) of this section, the value of property received by a taxpayer in a taxable exchange of QPP MPGE in whole or in significant part by the taxpayer within the United States, a qualified film produced by the taxpayer, or utilities produced by the taxpayer within the United States is DPGR for the taxpayer (assuming all the other requirements of this section are met). However, unless the taxpayer meets all of the requirements under this section with respect to any further MPGE by the taxpayer of the QPP or any further production by the taxpayer of the film or utilities received in the taxable exchange, any gross receipts derived from the sale by the taxpayer of the property received in the taxable exchange are non-DPGR, because the

taxpayer did not MPGE or produce such property, even if the property was QPP, a qualified film, or utilities in the hands of the other party to the transaction.

(B) *Safe harbor.* For purposes of paragraph (i)(1)(iv)(A) of this section, the gross receipts derived by the taxpayer from the sale of eligible property (as defined in paragraph (i)(1)(iv)(C) of this section) received in a taxable exchange, net of any adjustments between the parties involved in the taxable exchange to account for differences in the eligible property exchanged (for example, location differentials and product differentials), may be treated as the value of the eligible property received by the taxpayer in the taxable exchange. For purposes of the preceding sentence, the taxable exchange is deemed to occur on the date of the sale of the eligible property received in the taxable exchange by the taxpayer, to the extent the sale occurs no later than the last day of the month following the month in which the exchanged eligible property is received by the taxpayer. In addition, if the taxpayer engages in any further MPGE or production activity with respect to the eligible property received in the taxable exchange, then, unless the taxpayer meets the in-whole-or-in-significant-part requirement under paragraph (g)(1) of this section with respect to the property sold, for purposes of this paragraph (i)(1)(iv)(B), the taxpayer must also value the property sold without taking into account the gross receipts attributable to the further MPGE or production activity.

(C) *Eligible property.* For purposes of paragraph (i)(1)(iv)(B) of this section, eligible property is—

(1) Oil, natural gas (as described in paragraph (1)(2) of this section), or petrochemicals, or products derived from oil, natural gas, or petrochemicals; or

(2) Any other property or product designated by publication in the Internal Revenue Bulletin (see § 601.601(d)(2)(ii)(b) of this chapter).

(2) *Examples.* The following examples illustrate the application of paragraph (i)(1) of this section:

Example 1. X MPGE QPP in whole or in significant part within the United States and uses the QPP in its business. After several

years X sells the QPP that it MPGE to Y. The gross receipts derived from the sale of the QPP to Y are DPGR (assuming all the other requirements of this section are met).

Example 2. X MPGE QPP within the United States and sells the QPP to Y, an unrelated person. Y leases the QPP for 3 years to Z, a taxpayer unrelated to both X and Y, and shortly after Y enters into the lease with Z, X repurchases the QPP from Y subject to the lease. At the end of the lease term, Z purchases the QPP from X. X's proceeds derived from the sale of the QPP to Y, from the lease to Z (including any financing and interest components of the lease), and from the sale of the QPP to Z all qualify as DPGR (assuming all the other requirements of this section are met).

Example 3. X MPGE QPP within the United States and sells the QPP to Y, an unrelated person, for \$25,000. X finances Y's purchase of the QPP and receives total payments of \$35,000, of which \$10,000 relates to interest and finance charges. The \$25,000 qualifies as DPGR, but the \$10,000 in interest and finance charges do not qualify as DPGR because the \$10,000 is not derived from the MPGE of QPP within the United States, but rather from X's lending activity.

Example 4. Cable company X charges subscribers \$15 a month for its basic cable television. Y, an unrelated person, produces a qualified film within the meaning of paragraph (k)(1) of this section that it licenses to X for \$10 per subscriber per month. The gross receipts derived by Y are derived from the license of a qualified film produced by Y and are DPGR (assuming all the other requirements of this section are met).

Example 5. X manufactures cars within the United States. X also manufactures replacement parts within the United States. The replacement parts are QPP under paragraph (j)(1) of this section. X offers extended warranties to its customers. X sells a car to Y. Y purchases an extended warranty and brings the car to X's service department for maintenance. X repairs the car and replaces damaged parts with replacement parts that X manufactured within the United States. The portion of X's gross receipts derived from the sale of the extended warranty relating to the manufactured parts are DPGR.

(3) *Hedging transactions*—(i) *In general.* For purposes of this section, provided that the risk being hedged relates to QPP described in section 1221(a)(1) or relates to property described in section 1221(a)(8) consumed in an activity giving rise to DPGR, and provided that the transaction is a hedging transaction within the meaning of section 1221(b)(2)(A) and § 1.1221-2(b) and is properly identified as a

hedging transaction in accordance with § 1.1221-2(f), then—

(A) In the case of a hedge of purchases of property described in section 1221(a)(1), gain or loss on the hedging transaction must be taken into account in determining CGS;

(B) In the case of a hedge of sales of property described in section 1221(a)(1), gain or loss on the hedging transaction must be taken into account in determining DPGR; and

(C) In the case of a hedge of purchases of property described in section 1221(a)(8), gain or loss on the hedging transaction must be taken into account in determining DPGR.

(ii) *Currency fluctuations.* For purposes of this section, in the case of a transaction that manages the risk of currency fluctuations, the determination of whether the transaction is a hedging transaction within the meaning of § 1.1221-2(b) is made without regard to whether the transaction is a section 988 transaction. See § 1.1221-2(a)(4). The preceding sentence applies only to the extent that § 1.988-5(b) does not apply.

(iii) *Effect of identification and non-identification.* If a taxpayer does not make an identification that satisfies all of the requirements of § 1.1221-2(f) but the taxpayer has no reasonable grounds for treating the transaction as other than a hedging transaction, then a loss from the transaction is taken into account under this paragraph (i)(3). If the inadvertent identification rule of § 1.1221-2(g)(1)(ii) or the inadvertent error rule of § 1.1221-2(g)(2)(ii) applies, then the taxpayer is treated as not having identified the transaction as a hedging transaction or as having identified the transaction as a hedging transaction, as the case may be. If a taxpayer identifies a transaction as a hedging transaction in accordance with § 1.1221-2(f)(1), then—

(A) That identification is binding with respect to loss for purposes of this paragraph (i)(3), whether or not all of the requirements of § 1.1221-2(f) are satisfied and whether or not the transaction is in fact a hedging transaction within the meaning of section 1221(b)(2)(A) and § 1.1221-2(b), and

(B) This paragraph (i)(3) does not apply to require gain to be taken into

account in determining CGS or DPGR, if the transaction is not in fact a hedging transaction within the meaning of section 1221(b)(2)(A) and § 1.1221-2(b).

(iv) *Other rules.* See § 1.1221-2(e) for rules applicable to hedging by members of a consolidated group and § 1.446-4 for rules regarding the timing of income, deductions, gains, or losses with respect to hedging transactions.

(4) *Allocation of gross receipts*—(i) *Embedded services and non-qualified property*—(A) *In general.* Except as otherwise provided in paragraph (i)(4)(i)(B), paragraph (m) (relating to construction), and paragraph (n) (relating to engineering and architectural services) of this section, gross receipts derived from the performance of services do not qualify as DPGR. In the case of an embedded service, that is, a service the price of which, in the normal course of the taxpayer's business, is not separately stated from the amount charged for the lease, rental, license, sale, exchange, or other disposition of QPP, a qualified film, or utilities, DPGR include only the gross receipts derived from the lease, rental, license, sale, exchange, or other disposition of QPP, a qualified film, or utilities (assuming all the other requirements of this section are met) and not any receipts attributable to the embedded service. In addition, DPGR does not include the gross receipts derived from the lease, rental, license, sale, exchange, or other disposition of property that does not meet all of the requirements under this section (non-qualified property). The allocation of the gross receipts attributable to the embedded services or non-qualified property will be deemed to be reasonable if the allocation reflects the fair market value of the embedded services or non-qualified property. For example, gross receipts derived from the lease, rental, license, sale, exchange, or other disposition of a replacement part that is non-qualified property does not qualify as DPGR. In addition, see § 1.199-1(e) for other instances when an allocation of gross receipts attributable to embedded services or non-qualified property will be deemed reasonable.

(B) *Exceptions.* There are six exceptions to the rules under paragraph (i)(4)(i)(A) of this section regarding em-

bedded services and non-qualified property. A taxpayer may include in DPGR, if all the other requirements of this section are met with respect to the underlying item of QPP, qualified films, or utilities to which the embedded services or non-qualified property relate, the gross receipts derived from—

(1) A qualified warranty, that is, a warranty (other than a computer software maintenance agreement described in paragraph (i)(4)(i)(B)(5) of this section) that is provided in connection with the lease, rental, license, sale, exchange, or other disposition of QPP, a qualified film, or utilities if, in the normal course of the taxpayer's business—

(i) The price for the warranty is not separately stated from the amount charged for the lease, rental, license, sale, exchange, or other disposition of the QPP, qualified film, or utilities; and

(ii) The warranty is neither separately offered by the taxpayer nor separately bargained for with customers (that is, a customer cannot purchase the QPP, qualified film, or utilities without the warranty);

(2) A qualified delivery, that is, a delivery or distribution service that is provided in connection with the lease, rental, license, sale, exchange, or other disposition of QPP if, in the normal course of the taxpayer's business—

(i) The price for the delivery or distribution service is not separately stated from the amount charged for the lease, rental, license, sale, exchange, or other disposition of the QPP; and

(ii) The delivery or distribution service is neither separately offered by the taxpayer nor separately bargained for with customers (that is, a customer cannot purchase the QPP without the delivery or distribution service);

(3) A qualified operating manual, that is, a manual of instructions (including electronic instructions) that is provided in connection with the lease, rental, license, sale, exchange, or other disposition of QPP, a qualified film or utilities if, in the normal course of the taxpayer's business—

(i) The price for the manual is not separately stated from the amount charged for the lease, rental, license,

sale, exchange, or other disposition of the QPP, qualified film, or utilities;

(ii) The manual is neither separately offered by the taxpayer nor separately bargained for with customers (that is, a customer cannot purchase the QPP, qualified film, or utilities without the manual); and

(iii) The manual is not provided in connection with a training course for customers;

(4) A qualified installation, that is, an installation service (including minor assembly) for tangible personal property that is provided in connection with the lease, rental, license, sale, exchange, or other disposition of the tangible personal property if, in the normal course of the taxpayer's business—

(i) The price for the installation service is not separately stated from the amount charged for the lease, rental, license, sale, exchange, or other disposition of the tangible personal property; and

(ii) The installation is neither separately offered by the taxpayer nor separately bargained for with customers (that is, a customer cannot purchase the tangible personal property without the installation service);

(5) Services performed pursuant to a qualified computer software maintenance agreement. A qualified computer software maintenance agreement is an agreement provided in connection with the lease, rental, license, sale, exchange, or other disposition of the computer software that entitles the customer to receive future updates, cyclical releases, rewrites of the underlying software, or customer support services for the computer software if, in the normal course of the taxpayer's business—

(i) The price for the agreement is not separately stated from the amount charged for the lease, rental, license, sale, exchange, or other disposition of the computer software; and

(ii) The agreement is neither separately offered by the taxpayer nor separately bargained for with customers (that is, a customer cannot purchase the computer software without the agreement); and

(6) A de minimis amount of gross receipts from embedded services and non-qualified property for each item of

QPP, qualified films, or utilities. For purposes of the preceding sentence, a de minimis amount of gross receipts from embedded services and non-qualified property is less than 5 percent of the total gross receipts derived from the lease, rental, license, sale, exchange, or other disposition of each item of QPP, qualified films, or utilities. In the case of gross receipts derived from the lease, rental, license, sale, exchange, or other disposition of QPP, a qualified film, or utilities that are received over a period of time (for example, a multi-year lease or installment sale), this de minimis exception is applied by taking into account the total gross receipts for the entire period derived (and to be derived) from the lease, rental, license, sale, exchange, or other disposition of the item of QPP, qualified films, or utilities. For purposes of the preceding sentence, if a taxpayer treats gross receipts as DPGR under this de minimis exception, then the taxpayer must treat the gross receipts recognized in each taxable year consistently as DPGR. The gross receipts that the taxpayer treats as DPGR under paragraphs (i)(4)(i)(B)(I), (2), (3), (4), and (5) and (1)(4)(iv)(A) of this section are treated as DPGR for purposes of applying this de minimis exception. This de minimis exception does not apply if the price of a service or non-qualified property is separately stated by the taxpayer, or if the service or non-qualified property is separately offered or separately bargained for with the customer (that is, the customer can purchase the QPP, qualified film, or utilities without the service or non-qualified property).

(ii) *Non-DPGR.* All of a taxpayer's gross receipts derived from the lease, rental, license, sale, exchange or other disposition of an item of QPP, qualified films, or utilities may be treated as non-DPGR if less than 5 percent of the taxpayer's total gross receipts derived from the lease, rental, license, sale, exchange or other disposition of that item are DPGR. In the case of gross receipts derived from the lease, rental, license, sale, exchange, or other disposition of QPP, a qualified film, and utilities that are received over a period of time (for example, a multi-year lease or installment sale), this paragraph

(i)(4)(ii) is applied by taking into account the total gross receipts for the entire period derived (and to be derived) from the lease, rental, license, sale, exchange, or other disposition of the item of QPP, qualified films, or utilities. For purposes of the preceding sentence, if a taxpayer treats gross receipts as non-DPGR under this de minimis exception, then the taxpayer must treat the gross receipts recognized in each taxable year consistently as non-DPGR.

(iii) *Examples.* The following examples illustrate the application of this paragraph (i)(4):

Example 1. X MPGE QPP within the United States. As part of the sale of the QPP to Z, X trains Z's employees on how to use and operate the QPP. No other services or property are provided to Z in connection with the sale of the QPP to Z. In the normal course of X's business, the QPP and training services are separately stated in the sales contract. Because, in the normal course of the X's business, the training services are separately stated, the training services are not treated as embedded services under the de minimis exception in paragraph (i)(4)(i)(B)(6) of this section.

Example 2. The facts are the same as in *Example 1* except that, in the normal course of X's business, the training services are not separately stated in the sales contract and the customer cannot purchase the QPP without the training services. If the gross receipts for the embedded training services are less than 5% of the gross receipts derived from the sale of X's QPP to Z, after applying the exceptions under paragraphs (i)(4)(i)(B)(1) through (5) of this section, then the gross receipts may be included in DPGR under the de minimis exception in paragraph (i)(4)(i)(B)(6) of this section.

Example 3. X MPGE QPP within the United States. As part of the sale of the QPP to retailers, X charges a fee for delivering the QPP. In the normal course of X's business, the price of the QPP and the delivery fee are separately stated in X's sales contracts. Because, in the normal course of X's business, the delivery fee is separately stated, the delivery fee does not qualify as DPGR under the qualified delivery exception in paragraph (i)(4)(i)(B)(2) of this section or the de minimis exception under paragraph (i)(4)(i)(B)(6) of this section. The result would be the same even if the retailer's customers cannot purchase the QPP without paying the delivery fee.

Example 4. (i) *Facts.* X manufactures industrial sewing machines within the United States that X offers for sale individually to customers. X enters into a single, lump-sum

priced contract with Y, an unrelated person, and the contract has the following terms: X will manufacture industrial sewing machines within the United States for Y; X will deliver the industrial sewing machines to Y; X will provide a one-year warranty on the industrial sewing machines; X will provide operating manuals with the industrial sewing machines; X will provide 100 hours of training and training manuals to Y's employees on the use and maintenance of the industrial sewing machines; X will provide purchased spare parts for the industrial sewing machines; and X will provide a 3-year service agreement for the industrial sewing machines. In the normal course of X's business, none of the services or property described above are separately stated, separately offered or separately bargained for.

(ii) *Analysis.* The receipts for the manufacture of the industrial sewing machines are DPGR under paragraphs (e)(1) and (g) of this section (assuming all the other requirements of this section are met). X may include in DPGR the gross receipts derived from delivering the industrial sewing machines, which is a qualified delivery under paragraph (i)(4)(i)(B)(2) of this section; the gross receipts derived from the one-year warranty, which is a qualified warranty under paragraph (i)(4)(i)(B)(1) of this section; and the gross receipts derived from the operating manuals, which is a qualified operating manual under paragraph (i)(4)(i)(B)(3) of this section. If the gross receipts allocable to each industrial sewing machine for the embedded services consisting of the employee training and 3-year service agreement, and for the non-qualified property consisting of the purchased spare parts and the employee training manuals, which are not qualified operating manuals, are in total less than 5% of the gross receipts derived from the sale of each industrial sewing machine to Y (after applying the exceptions under paragraphs (i)(4)(i)(B)(1) through (5) of this section), then those gross receipts may be included in DPGR under the de minimis exception in paragraph (i)(4)(i)(B)(6) of this section. If, however, the gross receipts allocable to each industrial sewing machine for the embedded services and non-qualified property consisting of employee training, the 3-year service agreement, purchased spare parts, and employee training manuals equal or exceed, in total, 5% of the gross receipts derived from the sale of each industrial sewing machine to Y (after applying the exceptions under paragraphs (i)(4)(i)(B)(1) through (5) of this section), then those gross receipts do not qualify as DPGR under the de minimis exception in paragraph (i)(4)(i)(B)(6) of this section (and X must allocate gross receipts between DPGR and non-DPGR under § 1.199-1(d)(1)).

(5) *Advertising income*—(i) *In general.* Except as provided in paragraph (i)(5)(ii) of this section, gross receipts derived from the lease, rental, license, sale, exchange, or other disposition of QPP, a qualified film, or utilities do not include advertising income and product-placement income.

(ii) *Exceptions*—(A) *Tangible personal property.* A taxpayer's gross receipts that are derived from the lease, rental, license, sale, exchange, or other disposition of newspapers, magazines, telephone directories, periodicals, and other similar printed publications that are MPGE in whole or in significant part within the United States include advertising income from advertisements placed in those media, but only if the gross receipts, if any, derived from the lease, rental, license, sale, exchange, or other disposition of the newspapers, magazines, telephone directories, or periodicals are (or would be) DPGR.

(B) *Computer software.* A taxpayer's gross receipts that are derived from the lease, rental, license, sale, exchange, or other disposition of computer software that is MPGE in whole or in significant part within the United States include advertising income and product-placement income with respect to that computer software, but only if the gross receipts, if any, derived from the lease, rental, license, sale, exchange, or other disposition of computer software are (or would be) DPGR. For this purpose, advertising income and product-placement income mean compensation for placing or integrating advertising or a product into the computer software. This paragraph (i)(5)(ii)(B) does not extend to the exceptions provided in paragraph (i)(6)(iii) of this section. See paragraph (i)(6)(iv)(F) of this section.

(C) *Qualified film.* A taxpayer's gross receipts that are derived from the lease, rental, license, sale, exchange, or other disposition of a qualified film include advertising income and product-placement income with respect to that qualified film, but only if the gross receipts, if any, derived from the lease, rental, license, sale, exchange, or other disposition of a qualified film are (or would be) DPGR. For this purpose, advertising income and product-placement income mean compensation for

placing or integrating advertising or a product into the qualified film.

(iii) *Examples.* The following examples illustrate the application of this paragraph (i)(5):

Example 1. X MPGE, and sells, newspapers within the United States. X's gross receipts from the newspapers include gross receipts derived from the sale of newspapers to customers and payments from advertisers to publish display advertising or classified advertisements in X's newspapers. X's gross receipts described above are DPGR derived from the sale of X's newspapers.

Example 2. The facts are the same as in *Example 1* except that X disposes of the newspapers free of charge to customers, rather than selling them. X's gross receipts from the display advertising or classified advertisements are DPGR.

Example 3. X produces two live television programs that are qualified films. X licenses the first television program to Y's television station and X licenses the second television program to Z's television station. Z broadcasts the second television program on its station. Both television programs contain product placements and advertising for which X received compensation. X and Y are unrelated persons. X and Z are non-consolidated members of an EAG. The gross receipts derived by X from licensing the first television program to Y are DPGR. As a result, pursuant to paragraph (i)(5)(ii)(C) of this section, all of X's product placement and advertising income for the first television program is treated as gross receipts that are derived from the license of the qualified film. The gross receipts derived by X from licensing the second television program to Z are non-DPGR under paragraph (b)(1) of this section. Paragraph (b)(2) of this section does not apply because Z's broadcast of the second television program on Z's television station is not a lease, rental, license, sale, exchange, or other disposition of the second television program. As a result, pursuant to paragraph (i)(5)(ii)(C) of this section, none of X's product placement and advertising income for the second television program is treated as gross receipts derived from the qualified film.

Example 4. The facts are the same as in *Example 3* except that Z sublicenses to an unrelated person the television program instead of broadcasting the television program on its station. The gross receipts derived by X from licensing the television program to Z are DPGR under paragraph (b)(2) of this section. As a result, pursuant to paragraph (i)(5)(ii)(C) of this section, X's product placement and advertising income for the television program licensed to Z is treated as gross receipts derived from the qualified

film. In addition, Z's receipts from the sublicense of the qualified film are DPGR under § 1.199-7(a)(3)(i).

Example 5. X produces television programs that are qualified films. X licenses the qualified films to Y, an unrelated person, and the license agreement provides that X will receive advertising time slots as part of its payments from Y under the license agreement. X's gross receipts derived from the license of the qualified films to Y include income attributable to the advertising time slots and are DPGR under paragraph (b)(2) of this section.

(6) *Computer software*—(i) *In general.* DPGR include the gross receipts of the taxpayer that are derived from the lease, rental, license, sale, exchange, or other disposition of computer software MPGE by the taxpayer in whole or in significant part within the United States. Such gross receipts qualify as DPGR even if the customer provides the computer software to its employees or others over the Internet.

(ii) *Gross receipts derived from services.* Gross receipts derived from customer and technical support, telephone and other telecommunication services, online services (such as Internet access services, online banking services, providing access to online electronic books, newspapers, and journals), and other similar services do not constitute gross receipts derived from a lease, rental, license, sale, exchange, or other disposition of computer software.

(iii) *Exceptions.* Notwithstanding paragraph (i)(6)(ii) of this section, if a taxpayer derives gross receipts from providing customers access to computer software MPGE in whole or in significant part by the taxpayer within the United States for the customers' direct use while connected to the Internet or any other public or private communications network (online software), then such gross receipts will be treated as being derived from the lease, rental, license, sale, exchange, or other disposition of computer software only if—

(A) The taxpayer also derives, on a regular and ongoing basis in the taxpayer's business, gross receipts from the lease, rental, license, sale, exchange, or other disposition to customers that are not related persons (as defined in paragraph (b)(1) of this section) of computer software that—

(1) Has only minor or immaterial differences from the online software;

(2) Has been MPGE by the taxpayer in whole or in significant part within the United States; and

(3) Has been provided to such customers either affixed to a tangible medium (for example, a disk or DVD) or by allowing them to download the computer software from the Internet; or

(B) Another person derives, on a regular and ongoing basis in its business, gross receipts from the lease, rental, license, sale, exchange, or other disposition of substantially identical software (as described in paragraph (i)(6)(iv)(A) of this section) (as compared to the taxpayer's online software) to its customers pursuant to an activity described in paragraph (i)(6)(iii)(A)(3) of this section.

(iv) *Definitions and special rules*—(A) *Substantially identical software.* For purposes of paragraph (i)(6)(iii)(B) of this section, *substantially identical software* is computer software that—

(1) From a customer's perspective, has the same functional result as the online software described in paragraph (i)(6)(iii) of this section; and

(2) Has a significant overlap of features or purpose with the online software described in paragraph (i)(6)(iii) of this section.

(B) *Safe harbor for computer software games.* For purposes of paragraph (i)(6)(iv)(A) of this section, all computer software games are deemed to be substantially identical software. For example, computer software sports games are deemed to be substantially identical to computer software card games.

(C) *Regular and ongoing basis.* For purposes of paragraph (i)(6)(iii) of this section, in the case of a newly-formed trade or business or a taxpayer in its first taxable year, the taxpayer is considered to be engaged in an activity described in paragraph (i)(6)(iii) of this section on a regular and ongoing basis if the taxpayer reasonably expects that it will engage in the activity on a regular and ongoing basis.

(D) *Attribution.* For purposes of paragraph (i)(6)(iii)(A) of this section—

(1) All members of an expanded affiliated group (as defined in § 1.199-7(a)(1)) are treated as a single taxpayer; and

(2) In the case of an EAG partnership (as defined in § 1.199-3T(i)(8)), the EAG partnership and all members of the EAG to which the EAG partnership's partners belong are treated as a single taxpayer.

(E) *Qualified computer software maintenance agreements.* Paragraph (i)(4)(i)(B)(5) of this section does not apply if the computer software is online software under paragraph (i)(6)(iii) of this section.

(F) *Advertising income and product-placement income.* Paragraph (i)(5)(ii)(B) of this section does not apply if the computer software is online software under paragraph (i)(6)(iii) of this section. If a taxpayer provides a customer with access to online software in conjunction with providing computer software to such customer either affixed to a tangible medium or by download, paragraph (i)(5)(ii)(B) of this section will only apply to compensation for the placement or integration of advertising or a product into the computer software transferred to such customer either affixed to the tangible medium or by download.

(v) *Examples.* The following examples illustrate the application of this paragraph (i)(6):

Example 1. L is a bank and produces computer software within the United States that enables its customers to receive online banking services for a fee. Under paragraph (i)(6)(ii) of this section, gross receipts derived from online banking services are attributable to a service and do not constitute gross receipts derived from a lease, rental, license, sale, exchange, or other disposition of computer software. Therefore, L's gross receipts derived from the online banking services are non-DPGR.

Example 2. M is an Internet auction company that produces computer software within the United States that enables its customers to participate in Internet auctions for a fee. Under paragraph (i)(6)(ii) of this section, gross receipts derived from online auction services are attributable to a service and do not constitute gross receipts derived from a lease, rental, license, sale, exchange, or other disposition of computer software. M's activities constitute the provision of online services. Therefore, M's gross receipts derived from the Internet auction services are non-DPGR.

Example 3. N provides telephone services, voicemail services, and e-mail services. N produces computer software within the United States that runs all of these services.

Under paragraph (i)(6)(ii) of this section, gross receipts derived from telephone and related telecommunication services are attributable to a service and do not constitute gross receipts derived from a lease, rental, license, sale, exchange, or other disposition of computer software. Therefore, N's gross receipts derived from the telephone and other telecommunication services are non-DPGR.

Example 4. O produces tax preparation computer software within the United States. O derives, on a regular and ongoing basis in its business, gross receipts from both the sale to customers that are unrelated persons of O's computer software that has been affixed to a compact disc as well as from the sale to customers of O's computer software that customers have downloaded from the Internet. O also derives gross receipts from providing customers access to the computer software for the customers' direct use while connected to the Internet. The computer software sold on compact disc or by download has only minor or immaterial differences from the online software, and O does not provide any other goods or services in connection with the online software. Under paragraph (i)(6)(iii)(A) of this section, O's gross receipts derived from providing access to the online software will be treated as derived from the lease, rental, license, sale, exchange, or other disposition of computer software and are DPGR (assuming all the other requirements of this section are met).

Example 5. The facts are the same as in *Example 4*, except that O does not sell the tax preparation computer software to customers affixed to a compact disc or by download. In addition, one of O's competitors, P, derives, on a regular and ongoing basis in its business, gross receipts from the sale to customers of P's substantially identical tax preparation computer software that has been affixed to a compact disc as well as from the sale to customers of P's substantially identical tax preparation computer software that customers have downloaded from the Internet. Under paragraph (i)(6)(iii)(B) of this section, O's gross receipts derived from providing access to its tax preparation online software will be treated as derived from the lease, rental, license, sale, exchange, or other disposition of computer software and are DPGR (assuming all the other requirements of this section are met).

Example 6. Q produces payroll management computer software within the United States. For a fee, Q provides customers access to the payroll management computer software for the customers' direct use while connected to the Internet. This is Q's sole method of providing access to its payroll management computer software to customers. In conjunction with the payroll management computer software, Q provides storage of customers' data and telephone support. One of Q's competitors, R, derives, on a regular and ongoing

basis in its business, gross receipts from the sale to customers of R's substantially identical payroll management software that has been affixed to a compact disc as well as from the sale to customers of R's substantially identical payroll management software that customers have downloaded from the Internet. Under paragraph (i)(6)(iii)(B) of this section, Q's gross receipts derived from providing access to its payroll management online software will be treated as derived from the lease, rental, license, sale, exchange, or other disposition of computer software and are DPGR (assuming all the other requirements of this section are met). However, Q's gross receipts derived from the fees that are properly allocable to the storage of customers' data and telephone support are non-DPGR.

Example 7. The facts are the same as in *Example 6*, except that R produces inventory computer software, not payroll management computer software. R's inventory computer software is not substantially identical software as defined in paragraph (i)(6)(iv)(A) of this section because R's inventory software, from a customer's perspective, does not have the same functional result as Q's payroll management computer software and does not have significant overlap of features or purpose with Q's payroll management computer software. No other person provides substantially identical software to customers affixed to a compact disc or by download. Under paragraph (i)(6)(ii) of this section, gross receipts derived from providing access to Q's payroll online software do not constitute gross receipts derived from a lease, rental, license, sale, exchange or other disposition of payroll computer software. Therefore, Q's gross receipts derived from the payroll management computer software are non-DPGR.

Example 8. S produces computer software games within the United States. S derives, on a regular and ongoing basis in its business, gross receipts from both the sale to customers that are not related to S of S's computer software games that have been affixed to a compact disc as well as from the sale to customers of S's computer software games that customers have downloaded from the Internet. S also derives gross receipts from providing customers access to the computer software games for the customers' direct use while connected to the Internet (online software games). The computer software games sold on compact disc or by download have only minor or immaterial differences from the online software games, and S does not provide any other goods or services in connection with the online software games. Under paragraph (i)(6)(iii)(A) of this section, S's gross receipts derived from providing customers access to its online software games will be treated as derived from the lease, rental, license, sale, exchange, or other disposition of computer software and

are DPGR (assuming all the other requirements of this section are met).

Example 9. The facts are the same as in *Example 8*, except S's gross receipts also include advertising income from integrating advertisers' logos into the computer software games. Under paragraph (i)(5)(ii)(B) of this section, for S's computer software games sold affixed to a compact disc or by download, S's advertising income is treated as gross receipts derived from the sale of the computer software games and, therefore, is DPGR (assuming all the other requirements of this section are met). However, under paragraphs (i)(5)(i) and (i)(6)(iv)(F) of this section, for S's online software games, S's advertising income is not derived from the lease, rental, license, sale, exchange, or other disposition of computer software and, therefore, is non-DPGR.

(7) *Qualifying in-kind partnership for taxable years beginning after May 17, 2006, the enactment date of the Tax Increase Prevention and Reconciliation Act of 2005—(i) In general.* If a partnership is a qualifying in-kind partnership described in paragraph (i)(7)(ii) of this section, then each partner is treated as having MPGE or produced the property MPGE or produced by the partnership that is distributed to that partner. If a partner of a qualifying in-kind partnership derives gross receipts from the lease, rental, license, sale, exchange, or other disposition of the property that was MPGE or produced by the qualifying in-kind partnership and distributed to that partner, then, provided such partner is a partner of the qualifying in-kind partnership at the time the partner disposes of the property, the partner is treated as conducting the MPGE or production activities previously conducted by the qualifying in-kind partnership with respect to that property. With respect to a lease, rental, or license, the partner is treated as having disposed of the property on the date or dates on which it takes into account its gross receipts derived from the lease, rental, or license under its method of accounting. With respect to a sale, exchange, or other disposition, the partner is treated as having disposed of the property on the date it ceases to own the property for Federal income tax purposes, even if no gain or loss is taken into account.

(ii) *Definition of qualifying in-kind partnership.* For purposes of this paragraph (i)(7), a *qualifying in-kind partnership* is a partnership engaged solely in—

(A) The extraction, refining, or processing of oil, natural gas (as described in paragraph (1)(2) of this section), petrochemicals, or products derived from oil, natural gas, or petrochemicals in whole or in significant part within the United States;

(B) The production or generation of electricity in the United States; or

(C) An activity or industry designated by the Secretary by publication in the Internal Revenue Bulletin (see § 601.601(d)(2)(ii)(b) of this chapter).

(iii) *Other rules.* Except as provided in this paragraph (i)(7), a qualifying in-kind partnership is treated the same as other partnerships for purposes of section 199. Accordingly, a qualifying in-kind partnership is subject to the rules of this section regarding the application of section 199 to pass-thru entities, including application of the section 199(d)(1)(A)(iii) rule for determining a partner's share of the amounts described in § 1.199-2(e)(1) (paragraph (e)(1) wages) from the partnership under § 1.199-5(b)(3). In determining whether a qualifying in-kind partnership or its partners MPGE QPP in whole or in significant part within the United States, see paragraphs (g)(2) and (3) of this section.

(iv) *Example.* The following example illustrates the application of this paragraph (i)(7). Assume that PRS and X are calendar year taxpayers. The example reads as follows:

Example. X, Y, and Z are partners in PRS, a qualifying in-kind partnership described in paragraph (i)(7)(ii) of this section. X, Y, and Z are corporations. In 2007, PRS distributes oil to X that PRS derived from its oil extraction. PRS incurred \$600 of CGS extracting the oil distributed to X, and X's adjusted basis in the distributed oil is \$600. X incurs \$200 of CGS in refining the oil within the United States. In 2007, X, while it is a partner in PRS, sells the oil to a customer for \$1,500. X is treated as having disposed of the property on the date it ceases to own the property for Federal income tax purposes. Under paragraph (i)(7)(i) of this section, X is treated as having extracted the oil. The extraction and refining of the oil each qualify as an MPGE activity under paragraph (e)(1) of this section. Therefore, X's \$1,500 of gross

receipts qualify as DPGR. X subtracts from the \$1,500 of DPGR the \$600 of CGS incurred by PRS and the \$200 of refining costs it incurred. Thus, X's QPAI is \$700 for 2007.

(8) *Partnerships owned by members of a single expanded affiliated group for taxable years beginning after May 17, 2006, the enactment date of the Tax Increase Prevention and Reconciliation Act of 2005—(i) In general.* For purposes of this section, if all of the interests in the capital and profits of a partnership are owned by members of a single EAG at all times during the taxable year of the partnership (EAG partnership), then the EAG partnership and all members of that EAG are treated as a single taxpayer for purposes of section 199(c)(4) during that taxable year.

(ii) *Attribution of activities—(A) In general.* If a member of an EAG (disposing member) derives gross receipts from the lease, rental, license, sale, exchange, or other disposition of property that was MPGE or produced by an EAG partnership, all the partners of which are members of the same EAG to which the disposing member belongs at the time that the disposing member disposes of such property, then the disposing member is treated as conducting the MPGE or production activities previously conducted by the EAG partnership with respect to that property. The previous sentence applies only for those taxable years in which the disposing member is a member of the EAG of which all the partners of the EAG partnership are members for the entire taxable year of the EAG partnership. With respect to a lease, rental, or license, the disposing member is treated as having disposed of the property on the date or dates on which it takes into account its gross receipts from the lease, rental, or license under its method of accounting. With respect to a sale, exchange, or other disposition, the disposing member is treated as having disposed of the property on the date it ceases to own the property for Federal income tax purposes, even if no gain or loss is taken into account. Likewise, if an EAG partnership derives gross receipts from the lease, rental, license, sale, exchange, or other disposition of property that was MPGE or produced by a member (or members)

of the same EAG (the producing member) to which all the partners of the EAG partnership belong at the time that the EAG partnership disposes of such property, then the EAG partnership is treated as conducting the MPGE or production activities previously conducted by the producing member with respect to that property. The previous sentence applies only for those taxable years in which the producing member is a member of the EAG of which all the partners of the EAG partnership are members for the entire taxable year of the EAG partnership. With respect to a lease, rental, or license, the EAG partnership is treated as having disposed of the property on the date or dates on which it takes into account its gross receipts derived from the lease, rental, or license under its method of accounting. With respect to a sale, exchange, or other disposition, the EAG partnership is treated as having disposed of the property on the date it ceases to own the property for Federal income tax purposes, even if no gain or loss is taken into account. See paragraph (i)(8)(iv) *Example 3* of this section.

(B) *Attribution between EAG partnerships.* If an EAG partnership (disposing partnership) derives gross receipts from the lease, rental, license, sale, exchange, or other disposition of property that was MPGE or produced by another EAG partnership (producing partnership), then the disposing partnership is treated as conducting the MPGE or production activities previously conducted by the producing partnership with respect to that property, provided that each of these partnerships (the producing partnership and the disposing partnership) is owned for its entire taxable year in which the disposing partnership disposes of such property by members of the same EAG. With respect to a lease, rental, or license, the disposing partnership is treated as having disposed of the property on the date or dates on which it takes into account its gross receipts from the lease, rental, or license under its method of accounting. With respect to a sale, exchange, or other disposition, the disposing partnership is treated as having disposed of the property on the date it ceases to own the prop-

erty for Federal income tax purposes, even if no gain or loss is taken into account.

(C) *Exceptions to attribution.* Attribution of activities does not apply for purposes of the construction of real property under paragraph (m)(1) of this section and the performance of engineering and architectural services under paragraphs (n)(2) and (3) of this section, respectively.

(iii) *Other rules.* Except as provided in this paragraph (i)(8), an EAG partnership is treated the same as other partnerships for purposes of section 199. Accordingly, an EAG partnership is subject to the rules of this section regarding the application of section 199 to pass-thru entities, including the section 199(d)(1)(A)(iii) rule under § 1.199-5(b)(3). In determining whether a member of an EAG or an EAG partnership MPGE QPP in whole or in significant part within the United States or produced a qualified film or produced utilities within the United States, see paragraphs (g)(2) and (3) of this section and *Example 5* of paragraph (i)(8)(iv) of this section.

(iv) *Examples.* The following examples illustrate the rules of this paragraph (i)(8). Assume that PRS, X, Y, and Z all are calendar year taxpayers. The examples read as follows:

Example 1. Contribution. X and Y are the only partners in PRS, a partnership, for PRS's entire 2007 taxable year. X and Y are both members of a single EAG for the entire 2007 year. In 2007, X MPGE QPP within the United States and contributes the QPP to PRS. In 2007, PRS sells the QPP for \$1,000. Under this paragraph (i)(8), PRS is treated as having MPGE the QPP within the United States, and PRS's \$1,000 gross receipts constitute DPGR. PRS, X, and Y must apply the rules of this section regarding the application of section 199 to pass-thru entities with respect to the activity of PRS, including the section 199(d)(1)(A)(iii) rule for determining a partner's share of the paragraph (e)(1) wages from the partnership under § 1.199-5(b)(3).

Example 2. Sale. X, Y, and Z are the only members of a single EAG for the entire 2007 year. X and Y each own 50% of the capital and profits interests in PRS, a partnership, for PRS's entire 2007 taxable year. In 2007, PRS MPGE QPP within the United States and then sells the QPP to X for \$6,000, its fair market value at the time of the sale. PRS's gross receipts of \$6,000 qualify as DPGR. In 2007, X sells the QPP to customers for \$10,000, incurring selling expenses of \$2,000. Under

paragraph (i)(8)(ii)(A) of this section, X is treated as having MPGE the QPP within the United States, and X's \$10,000 of gross receipts qualify as DPGR. PRS, X and Y must apply the rules of this section regarding the application of section 199 to pass-thru entities with respect to the activity of PRS, including application of the section 199(d)(1)(A)(iii) rule for determining a partner's share of the paragraph (e)(1) wages from the partnership under § 1.199-5(b)(3). The results would be the same if PRS sold the QPP to Z rather than to X. However, if PRS did sell the QPP to Z, and Z was not a member of the EAG for PRS's entire taxable year, the activities previously conducted by PRS with respect to the QPP would not be attributed to Z, and none of Z's \$10,000 of gross receipts would qualify as DPGR.

Example 3. Lease X, Y, and Z are the only members of a single EAG for the entire 2007 year. X and Y each own 50% of the capital and profits interests in PRS, a partnership, for PRS's entire 2007 taxable year. In 2007, PRS MPGE QPP within the United States and then sells the QPP to X for \$6,000, its fair market value at the time of the sale. PRS's gross receipts of \$6,000 qualify as DPGR. In 2007, X rents the QPP it acquired from PRS to customers unrelated to X. X takes the gross receipts attributable to the rental of the QPP into account under its method of accounting in 2007 and 2008. On July 1, 2008, X ceases to be a member of the same EAG to which Y, the other partner in PRS, belongs. For 2007, X is treated as having MPGE the QPP within the United States under paragraph (i)(8)(ii)(A) of this section, and its gross receipts derived from the rental of the QPP qualify as DPGR. For 2008, however, because X and Y, partners in PRS, are no longer members of the same EAG for the entire year, the gross rental receipts X takes into account in 2008 do not qualify as DPGR.

Example 4. Distribution X and Y are the only partners in PRS, a partnership, for PRS's entire 2007 taxable year. X and Y are both members of a single EAG for the entire 2007 year. In 2007, PRS MPGE QPP within the United States, incurring \$600 of CGS, and then distributes the QPP to X. X's adjusted basis in the QPP is \$600. X incurs \$200 of CGS to further MPGE the QPP within the United States. In 2007, X sells the QPP for \$1,500 to an unrelated customer. X is treated as having disposed of the QPP on the date it ceases to own the QPP for Federal income tax purposes. Under paragraph (i)(8)(ii)(A) of this section, X is treated as having MPGE the QPP within the United States, and X's \$1,500 of gross receipts qualify as DPGR.

Example 5. Multiple sales (i) *Facts.* X and Y are the only partners in PRS, a partnership, for PRS's entire 2007 taxable year. X and Y are both non-consolidated members of a single EAG for the entire 2007 year. PRS produces in bulk form in the United States the

active ingredient for a drug. Assume that PRS's own MPGE activity with respect to the active ingredient is not substantial in nature, taking into account all of the facts and circumstances, and PRS's direct labor and overhead to MPGE the active ingredient within the United States are \$15 and account for 15% of PRS's \$100 CGS of the active ingredient. In 2007, PRS sells the active ingredient in bulk form to X. X uses the active ingredient to produce the finished dosage form drug. Assume that X's own MPGE activity with respect to the finished dosage form drug is not substantial in nature, taking into account all of the facts and circumstances, and X's direct labor and overhead to MPGE the finished dosage form drug within the United States are \$12 and account for 10% of X's \$120 CGS of the drug. In 2007, X sells the finished dosage form drug to Y and Y sells the finished dosage form drug to customers. Assume that Y's own MPGE activity with respect to the finished dosage form drug is not substantial in nature, taking into account all of the facts and circumstances, and Y incurs \$2 of direct labor and overhead and Y's CGS in selling the finished dosage form drug to customers is \$130.

(ii) *Analysis.* PRS's gross receipts from the sale of the active ingredient to X are non-DPGR because PRS's MPGE activity is not substantial in nature and PRS does not satisfy the safe harbor described in paragraph (g)(3) of this section because PRS's direct labor and overhead account for less than 20% of PRS's CGS of the active ingredient. X's gross receipts from the sale of the finished dosage form drug to Y are DPGR because X is considered to have MPGE the finished dosage form drug in significant part in the United States pursuant to the safe harbor described in paragraph (g)(3) of this section because the \$27 (\$15 + \$12) of direct labor and overhead incurred by PRS and X equals or exceeds 20% of X's total CGS (\$120) of the finished dosage form drug at the time X disposes of the finished dosage form drug to Y. Similarly, Y's gross receipts from the sale of the finished dosage form drug to customers are DPGR because Y is considered to have MPGE the finished dosage form drug in significant part in the United States pursuant to the safe harbor described in paragraph (g)(3) of this section because the \$29 (\$15 + \$12 + \$2) of direct labor and overhead incurred by PRS, X, and Y equals or exceeds 20% of Y's total CGS (\$130) of the finished dosage form drug at the time Y disposes of the finished dosage form drug to Y's customers.

(9) *Non-operating mineral interests.* DPGR does not include gross receipts derived from non-operating mineral interests (for example, interests other than operating mineral interests within the meaning of § 1.614-2(b)).

(j) *Definition of qualifying production property*—(1) *In general.* QPP means—

(i) Tangible personal property (as defined in paragraph (j)(2) of this section);

(ii) Computer software (as defined in paragraph (j)(3) of this section); and

(iii) Sound recordings (as defined in paragraph (j)(4) of this section).

(2) *Tangible personal property*—(i) *In general.* The term *tangible personal property* is any tangible property other than land, real property described in paragraph (m)(3) of this section, and any property described in paragraph (j)(3), (j)(4), (k)(1), or (l) of this section. For purposes of the preceding sentence, tangible personal property also includes any gas (other than natural gas described in paragraph (l)(2) of this section), chemical, and similar property, for example, steam, oxygen, hydrogen, and nitrogen. Property such as machinery, printing presses, transportation and office equipment, refrigerators, grocery counters, testing equipment, display racks and shelves, and neon and other signs that are contained in or attached to a building constitutes tangible personal property for purposes of this paragraph (j)(2)(i). Except as provided in paragraphs (j)(5)(ii) and (k)(2)(i) of this section, computer software, sound recordings, and qualified films are not treated as tangible personal property regardless of whether they are affixed to a tangible medium. However, the tangible medium to which such property may be affixed (for example, a videocassette, a computer diskette, or other similar tangible item) is tangible personal property.

(ii) *Local law.* In determining whether property is tangible personal property, local law is not controlling.

(iii) *Intangible property.* The term *tangible personal property* does not include property in a form other than in a tangible medium. For example, mass-produced books are tangible personal property, but neither the rights to the underlying manuscript nor an online version of the book is tangible personal property.

(3) *Computer software*—(i) *In general.* The term *computer software* means any program or routine or any sequence of machine-readable code that is designed

to cause a computer to perform a desired function or set of functions, and the documentation required to describe and maintain that program or routine. Thus, for example, an electronic book available online or for download is not computer software. For purposes of this paragraph (j)(3), computer software also includes the machine-readable code for video games and similar programs, for equipment that is an integral part of other property, and for typewriters, calculators, adding and accounting machines, copiers, duplicating equipment, and similar equipment, regardless of whether the code is designed to operate on a computer (as defined in section 168(i)(2)(B)). Computer programs of all classes, for example, operating systems, executive systems, monitors, compilers and translators, assembly routines, and utility programs, as well as application programs, are included. Except as provided in paragraph (j)(5) of this section, if the medium in which the software is contained, whether written, magnetic, or otherwise, is tangible, then such medium is considered tangible personal property for purposes of this section.

(ii) *Incidental and ancillary rights.* Computer software also includes any incidental and ancillary rights that are necessary to effect the acquisition of the title to, the ownership of, or the right to use the computer software, and that are used only in connection with that specific computer software. Such incidental and ancillary rights are not included in the definition of trademark or trade name under § 1.197-2(b)(10)(i). For example, a trademark or trade name that is ancillary to the ownership or use of a specific computer software program in the taxpayer's trade or business and is not acquired for the purpose of marketing the computer software is included in the definition of computer software and is not included in the definition of trademark or trade name.

(iii) *Exceptions.* Computer software does not include any data or information base unless the data or information base is in the public domain and is incidental to a computer program. For

this purpose, a copyrighted or proprietary data or information base is treated as in the public domain if its availability through the computer program does not contribute significantly to the cost of the program. For example, if a word-processing program includes a dictionary feature that may be used to spell-check a document or any portion thereof, then the entire program (including the dictionary feature) is computer software regardless of the form in which the dictionary feature is maintained or stored.

(4) *Sound recordings*—(i) *In general.* The term *sound recordings* means any works that result from the fixation of a series of musical, spoken, or other sounds under section 168(f)(4). The definition of sound recordings is limited to the master copy of the recordings (or other copy from which the holder is licensed to make and produce copies), and, except as provided in paragraph (j)(5) of this section, if the medium (such as compact discs, tapes, or other phonorecordings) in which the sounds may be embodied is tangible, then the medium is considered tangible personal property for purposes of paragraph (j)(2) of this section.

(ii) *Exception.* The term *sound recordings* does not include the creation of copyrighted material in a form other than a sound recording, such as lyrics or music composition.

(5) *Tangible personal property with computer software or sound recordings*—(i) *Computer software and sound recordings.* If a taxpayer MPGE in whole or in significant part computer software or sound recordings within the United States that is affixed or added to tangible personal property (for example, a computer diskette, or an appliance), whether or not the taxpayer MPGE such tangible personal property in whole or in significant part within the United States, then for purposes of this section—

(A) The computer software and the tangible personal property may be treated by the taxpayer as computer software. If the taxpayer treats the computer software and the tangible personal property as computer software, activities the cost of which are described in Rev. Proc. 2000-50 (2000-1 C.B. 601), activities giving rise to re-

search and experimental expenditures under section 174, and the creation of intangible assets for computer software are considered in determining whether the taxpayer's MPGE activity is substantial in nature under paragraph (g)(2) of this section. In determining direct labor and overhead under paragraph (g)(3)(i) of this section, the costs of direct labor and overhead for developing the computer software as described in Rev. Proc. 2000-50 (2000-1 C.B. 601), research and experimental expenditures under section 174, and any other costs of creating intangible assets for the computer software are treated as direct labor and overhead. These costs must be included in the taxpayer's CGS of the computer software for purposes of determining whether the taxpayer meets the safe harbor under paragraph (g)(3)(i) of this section. However, any costs under section 174, and the costs to create intangible assets, attributable to the tangible personal property are not considered in determining whether the taxpayer's activity is substantial in nature under paragraph (g)(2) of this section and are not direct labor and overhead under paragraph (g)(3)(i) of this section; and

(B) The sound recordings and the tangible personal property with the sound recordings may be treated by the taxpayer as sound recordings. If the taxpayer treats the sound recordings and the tangible personal property as sound recordings, activities giving rise to research and experimental expenditures under section 174 and the creation of intangible assets for sound recordings are considered in determining whether the taxpayer's MPGE activity is substantial in nature under paragraph (g)(2) of this section. In determining direct labor and overhead under paragraph (g)(3)(i) of this section, research and experimental expenditures under section 174 and any other costs of creating intangible assets for sound recordings are treated as direct labor and overhead. These costs must be included in the taxpayer's CGS of sound recordings for purposes of determining whether the taxpayer meets the safe harbor under paragraph (g)(3)(i) of this

section. However, any costs under section 174, and the costs to create intangible assets, attributable to the tangible personal property are not considered in determining whether the taxpayer's activity is substantial in nature under paragraph (g)(2) of this section and are not direct labor and overhead under paragraph (g)(3)(i) of this section.

(ii) *Tangible personal property.* If a taxpayer MPGE tangible personal property (for example, a computer diskette or an appliance) in whole or in significant part within the United States but not the computer software or sound recordings that is affixed or added to such tangible personal property, then for purposes of this section the tangible personal property with the computer software or sound recordings may be treated by the taxpayer as tangible personal property under paragraph (j)(2) of this section. Any costs under section 174, and the costs to create intangible assets, attributable to the tangible personal property are not considered in determining whether the taxpayer's activity is substantial in nature under paragraph (g)(2) of this section and are not direct labor or overhead under paragraph (g)(3)(i) of this section. For purposes of paragraph (g)(3) of this section, the taxpayer's CGS (or unadjusted depreciable basis, if applicable) for each item of tangible personal property includes the taxpayer's cost of leasing, renting, licensing, buying, or otherwise acquiring the computer software or sound recordings.

(k) *Definition of qualified film*—(1) *In general.* The term *qualified film* means any motion picture film or video tape under section 168(f)(3), or live or delayed television programming (film), if not less than 50 percent of the total compensation relating to the production of such film is compensation for services performed in the United States by actors, production personnel, directors, and producers. For purposes of this paragraph (k), the term *actors* includes players, newscasters, or any other persons who are compensated for their performance or appearance in a film. For purposes of this paragraph (k), the term *production personnel* includes writers, choreographers and composers who are compensated for

providing services during the production of a film, as well as casting agents, camera operators, set designers, lighting technicians, make-up artists, and other persons who are compensated for providing services that are directly related to the production of the film. Except as provided in paragraph (k)(2) of this section, the definition of a qualified film does not include tangible personal property embodying the qualified film, such as DVDs or videocassettes.

(2) *Tangible personal property with a film*—(i) *Film not produced by a taxpayer.* If a taxpayer MPGE tangible personal property (for example, a DVD) in whole or in significant part in the United States and a film not produced by a taxpayer is affixed to the tangible personal property, then the taxpayer may treat the tangible personal property with the affixed film as tangible personal property, regardless of whether the film is a qualified film. The determination of whether the gross receipts of such a taxpayer derived from the lease, rental, license, sale, exchange, or other disposition of the tangible personal property with the affixed film are DPGR is made under the rules of this section. For purposes of paragraph (g)(2) of this section, in determining whether the taxpayer's MPGE activity is substantial in nature, the taxpayer must consider the value of the licensed film. For purposes of paragraph (g)(3) of this section, the taxpayer's CGS (or unadjusted depreciable basis, as applicable) for each item of tangible personal property includes the taxpayer's cost of leasing, renting, licensing, buying, or otherwise acquiring the film.

(ii) *Film produced by a taxpayer.* If a taxpayer produces a film and the film is affixed to tangible personal property (for example, a DVD), then for purposes of this section—

(A) *Qualified film.* If the film is a qualified film, the taxpayer may treat the tangible personal property, whether or not the taxpayer MPGE such tangible personal property, to which the qualified film is affixed as part of the qualified film; and

(B) *Nonqualified film.* If the film is not a qualified film (nonqualified film), a

taxpayer cannot treat the tangible personal property to which the nonqualified film is affixed as part of the nonqualified film.

(3) *Derived from a qualified film*—(i) *In general.* DPGR include the gross receipts of a taxpayer that are derived from any lease, rental, license, sale, exchange, or other disposition of any qualified film produced by such taxpayer.

(ii) *Exceptions.* The showing of a qualified film (for example, in a movie theater or by broadcast on a television station) by a taxpayer is not a lease, rental, license, sale, exchange, or other disposition of the qualified film by such taxpayer. Ticket sales for viewing a qualified film do not constitute DPGR because the gross receipts are not derived from the lease, rental, license, sale, exchange, or other disposition of a qualified film. Because a taxpayer that merely writes a screenplay or other similar material is not considered to have produced a qualified film under paragraph (k)(1) of this section, the amounts that the taxpayer receives from the sale of the script or screenplay, even if the script is developed into a qualified film, are not gross receipts derived from a qualified film. In addition, revenue from the sale of film-themed merchandise is revenue from the sale of tangible personal property and not gross receipts derived from a qualified film. Gross receipts derived from a license of the right to use or exploit the film characters are not gross receipts derived from a qualified film.

(4) *Compensation for services.* For purposes of this paragraph (k), the term *compensation for services* means all payments for services performed by actors, production personnel, directors, and producers relating to the production of the film, including participations and residuals. Payments for services include all elements of compensation as provided for in § 1.263A-1(e)(2)(i)(B) and (3)(ii)(D). Compensation for services is not limited to W-2 wages and includes compensation paid to independent contractors. In the case of a taxpayer that uses the income forecast method of section 167(g) and capitalizes participations and residuals into the adjusted basis of the qualified film, the taxpayer must use the same estimate of partici-

pations and residuals in determining compensation for services. In the case of a taxpayer that excludes participations and residuals from the adjusted basis of the qualified film under section 167(g)(7)(D)(i), the taxpayer must use the amount expected to be paid as participations and residuals based on the total forecasted income used in determining income forecast depreciation in determining compensation for services.

(5) *Determination of 50 percent.* The not-less-than-50-percent-of-the-total-compensation requirement under paragraph (k)(1) of this section is calculated using a fraction. The numerator of the fraction is the compensation for services performed in the United States and the denominator is the total compensation for services regardless of where the production activities are performed. A taxpayer may use any reasonable method that is satisfactory to the Secretary based on all of the facts and circumstances, including all historic information available, to determine the compensation for services performed in the United States and the total compensation for services regardless of where the production activities are performed. Among the factors to be considered in determining whether a taxpayer's method of allocating compensation is reasonable is whether the taxpayer uses that method consistently from one taxable year to another.

(6) *Produced by the taxpayer.* A qualified film will be treated as produced by the taxpayer for purposes of § 199(c)(4)(A)(i)(II) if the production activity performed by the taxpayer is substantial in nature within the meaning of paragraph (g)(2) of this section. The special rules of paragraph (g)(4) of this section regarding a contract with an unrelated person and aggregation apply in determining whether the taxpayer's production activity is substantial in nature. Paragraphs (g)(2) and (4) of this section are applied by substituting the term *qualified film* for QPP and disregarding the requirement that the production activity must be within the United States. The production activity of the taxpayer must consist of more than the minor or immaterial combination or assembly of two or

more components of a film. For purposes of paragraph (g)(2) of this section, the relative value added by affixing trademarks or trade names as defined in § 1.197-2(b)(10)(i) will be treated as zero.

(7) *Qualified film produced by the taxpayer—safe harbor.* A film will be treated as a qualified film under paragraph (k)(1) of this section and produced by the taxpayer under paragraph (k)(6) of this section (qualified film produced by the taxpayer) if the taxpayer meets the requirements of paragraphs (k)(7)(i) and (ii) of this section. A taxpayer that chooses to use this safe harbor must apply all the provisions of this paragraph (k)(7).

(i) *Safe harbor.* A film will be treated as a qualified film produced by the taxpayer if not less than 50 percent of the total compensation for services paid by the taxpayer is compensation for services performed in the United States and the taxpayer satisfies the safe harbor in paragraph (g)(3) of this section. The special rules of paragraph (g)(4) of this section regarding a contract with an unrelated person and aggregation apply in determining whether the taxpayer satisfies paragraph (g)(3) of this section. Paragraphs (g)(3) and (4) of this section are applied by substituting the term *qualified film* for QPP but not disregarding the requirement that the direct labor and overhead of the taxpayer to produce the qualified film must be within the United States. Paragraph (g)(3)(ii)(A) of this section includes any election under section 181.

(ii) *Determination of 50 percent.* The not-less-than-50-percent-of-the-total-compensation requirement under paragraph (k)(7)(i) of this section is calculated using a fraction. The numerator of the fraction is the compensation for services paid by the taxpayer for services performed in the United States and the denominator is the total compensation for services paid by the taxpayer regardless of where the production activities are performed. For purposes of this paragraph (k)(7)(ii), the term *paid by the taxpayer* includes amounts that are treated as paid by the taxpayer under paragraph (g)(4) of this section. A taxpayer may use any reasonable method that is satisfactory to the Secretary based on all

of the facts and circumstances, including all historic information available, to determine the compensation for services paid by the taxpayer for services performed in the United States and the total compensation for services paid by the taxpayer regardless of where the production activities are performed. Among the factors to be considered in determining whether a taxpayer's method of allocating compensation is reasonable is whether the taxpayer uses that method consistently from one taxable year to another.

(8) *Production pursuant to a contract.* With the exception of the rules applicable to an expanded affiliated group (EAG) under § 1.199-7 and EAG partnerships under § 1.199-3(i)(8), only one taxpayer may claim the deduction under § 1.199-1(a) with respect to any activity related to the production of a qualified film performed in connection with the same qualified film. If one taxpayer performs a production activity pursuant to a contract with another party, then only the taxpayer that has the benefits and burdens of ownership of the qualified film under Federal income tax principles during the period in which the production activity occurs is treated as engaging in the production activity.

(9) *Exception.* A *qualified film* does not include property with respect to which records are required to be maintained under 18 U.S.C. 2257. Section 2257 of title 18 requires maintenance of certain records with respect to any book, magazine, periodical, film, videotape, or other matter that—

(i) Contains one or more visual depictions made after November 1, 1990, of actual sexually explicit conduct; and

(ii) Is produced in whole or in part with materials that have been mailed or shipped in interstate or foreign commerce, or is shipped or transported or is intended for shipment or transportation in interstate or foreign commerce.

(10) *Examples.* The following examples illustrate the application of this paragraph (k):

Example 1. X produces a qualified film and duplicates the film onto purchased DVDs. X sells the DVDs with the qualified film to customers. Under paragraph (k)(2)(ii)(A) of this section, X treats the DVD with the qualified

film as a qualified film. Accordingly, X's gross receipts derived from the sale of the qualified film to customers are DPGR (assuming all the other requirements of this section are met).

Example 2. The facts are the same as in *Example 1* except that the film is a nonqualified film because the film does not satisfy the not-less-than-50-percent-of-the-total-compensation requirement under (k)(1) of this section and X manufactures the DVDs in the United States. Under paragraph (k)(2)(ii)(B) of this section, X cannot treat the DVD as part of the nonqualified film. X's gross receipts (not including the gross receipts attributable to the nonqualified film) derived from the sale of the tangible personal property are DPGR (assuming all the other requirements of this section are met).

Example 3. X produces live television programs that are qualified films. X shows the programs on its own television station. X sells advertising time slots to advertisers for the television programs. Because showing a qualified film on a television station is not a lease, rental, license, sale, exchange, or other disposition pursuant to paragraph (k)(3)(ii) of this section, the advertising income X receives from advertisers is not derived from the lease, rental, license, sale, exchange, or other disposition of the qualified films and is non-DPGR.

Example 4. The facts are the same as in *Example 3* except that X also licenses the qualified films to Y, an unrelated cable company that broadcasts X's qualified films. As part of the license agreement, X can sell advertising time slots. Because X's gross receipts from Y are derived from the licensing of qualified films pursuant to paragraph (k)(3)(i) of this section, X's gross receipts derived from licensing the qualified film are DPGR. In addition, the gross receipts derived from the advertising income X receives that is related to the qualified films licensed to Y is DPGR pursuant to paragraph (i)(5)(ii) of this section. Because showing a qualified film on a television station is not a lease, rental, license, sale, exchange, or other disposition pursuant to paragraph (k)(3)(ii) of this section, the portion of the advertising income X derives from advertisers for the qualified films it broadcasts on its own television station is not derived from the lease, rental, license, sale, exchange, or other disposition of the qualified films and is non-DPGR.

Example 5. X produces a qualified film and contracts with Y, an unrelated person, to duplicate the film onto DVDs. Y manufactures blank DVDs within the United States, duplicates X's film onto the DVDs in the United States, and sells the DVDs with the qualified film to X who then sells them to customers. Y has all of the benefits and burdens of ownership under Federal income tax principles of the DVDs during the MPGE and duplica-

tion process. Assume Y's activities relating to manufacture of the blank DVDs and duplicating the film onto the DVDs collectively satisfy the safe harbor under paragraph (g)(3) of this section. Y's gross receipts from manufacturing the DVDs and duplicating the film onto the DVDs are DPGR (assuming all the other requirements of this section are met). X's gross receipts from the sale of the DVDs to customers are DPGR (assuming all the other requirements of this section are met).

Example 6. X creates a television program in the United States that includes scenes from films licensed by X from unrelated persons Y and Z. Assume that Y and Z produced the films licensed by X. The not-less-than-50-percent-of-the-total-compensation requirement under paragraph (k)(1) of this section is determined by reference to all compensation for services paid in the production of the television program, including the films licensed by X from Y and Z, and is calculated using a fraction as described in paragraph (k)(5) of this section. The numerator of the fraction is the compensation for services performed in the United States and the denominator is the total compensation for services regardless of where the production activities are performed. However, for purposes of calculating the denominator, in determining the total compensation paid by Y and Z, X need only include the total compensation paid by Y and Z to actors, production personnel, directors, and producers for the production of the scenes used by X in creating its television program.

(1) *Electricity, natural gas, or potable water*—(1) *In general.* DPGR include gross receipts derived from any lease, rental, license, sale, exchange, or other disposition of utilities produced by the taxpayer in the United States if all other requirements of this section are met. In the case of an integrated producer that both produces and delivers utilities, see paragraph (l)(4) of this section that describes certain gross receipts that do not qualify as DPGR.

(2) *Natural gas.* The term *natural gas* includes only natural gas extracted from a natural deposit and does not include, for example, methane gas extracted from a landfill. In the case of natural gas, production activities include all activities involved in extracting natural gas from the ground and processing the gas into pipeline quality gas.

(3) *Potable water.* The term *potable water* means unbottled drinking water. In the case of potable water, production activities include the acquisition, collection, and storage of raw water

(untreated water), transportation of raw water to a water treatment facility, and treatment of raw water at such a facility. Gross receipts attributable to any of these activities are included in DPGR if all other requirements of this section are met.

(4) *Exceptions*—(i) *Electricity*. Gross receipts attributable to the transmission of electricity from the generating facility to a point of local distribution and gross receipts attributable to the distribution of electricity to customers are non-DPGR.

(ii) *Natural gas*. Gross receipts attributable to the transmission of pipeline quality gas from a natural gas field (or, if treatment at a natural gas processing plant is necessary to produce pipeline quality gas, from a natural gas processing plant) to a local distribution company's citygate (or to another customer) are non-DPGR. Likewise, gross receipts of a local gas distribution company attributable to distribution from the citygate to the local customers are non-DPGR.

(iii) *Potable water*. Gross receipts attributable to the storage of potable water after completion of treatment of the potable water, as well as gross receipts attributable to the transmission and distribution of potable water, are non-DPGR.

(iv) *De minimis exception*—(A) *DPGR*. Notwithstanding paragraphs (1)(4)(i), (ii), and (iii) of this section, if less than 5 percent of a taxpayer's gross receipts derived from a sale, exchange, or other disposition of utilities are attributable to the transmission or distribution of the utilities and the storage of potable water after completion of treatment of the potable water, then the gross receipts derived from the lease, rental, license, sale, exchange, or other disposition of the utilities that are attributable to the transmission and distribution of the utilities and the storage of potable water after completion of treatment of the potable water may be treated as being DPGR (assuming all other requirements of this section are met). In the case of gross receipts derived from the lease, rental, license, sale, exchange, or other disposition of utilities that are received over a period of time (for example, a multi-year lease or installment sale), this de minimis

exception is applied by taking into account the total gross receipts for the entire period derived (and to be derived) from the lease, rental, license, sale, exchange, or other disposition of the utilities. For purposes of the preceding sentence, if a taxpayer treats gross receipts as DPGR under this de minimis exception, then the taxpayer must treat the gross receipts recognized in each taxable year consistently as DPGR.

(B) *Non-DPGR*. If less than 5 percent of a taxpayer's gross receipts derived from a sale, exchange, or other disposition of utilities are DPGR, then the gross receipts derived from the sale, exchange, or other disposition of the utilities may be treated as non-DPGR. In the case of gross receipts derived from the lease, rental, license, sale, exchange, or other disposition of utilities that are received over a period of time (for example, a multi-year lease or installment sale), this de minimis exception is applied by taking into account the total gross receipts for the entire period derived (and to be derived) from the lease, rental, license, sale, exchange, or other disposition of the utilities. For purposes of the preceding sentence, if a taxpayer treats gross receipts as non-DPGR under this de minimis exception, then the taxpayer must treat the gross receipts recognized in each taxable year consistently as non-DPGR.

(5) *Example*. The following example illustrates the application of this paragraph (1):

Example. X owns a wind turbine in the United States that generates electricity and Y owns a high voltage transmission line that passes near X's wind turbine and ends near the system of local distribution lines of Z. X sells the electricity produced at the wind turbine to Z and contracts with Y to transmit the electricity produced at the wind turbine to Z who sells the electricity to customers using Z's distribution network. The gross receipts received by X from the sale of electricity produced at the wind turbine are DPGR. The gross receipts of Y derived from transporting X's electricity to Z are non-DPGR under paragraph (1)(4)(i) of this section. Likewise, the gross receipts of Z derived from distributing the electricity are non-DPGR under paragraph (1)(4)(i) of this section. If X made direct sales of electricity to customers in Z's service area and Z receives remuneration for the distribution of

electricity, the gross receipts of Z are non-DPGR under paragraph (l)(4)(i) of this section. If X, Y, and Z are related persons (as defined in paragraph (b) of this section), then X, Y, and Z must allocate gross receipts among the production activities (that are DPGR), and the transmission and distribution activities (that are non-DPGR).

(m) *Definition of construction performed in the United States*—(1) *Construction of real property*—(i) *In general*. The term *construction* means activities and services relating to the construction or erection of real property (as defined in paragraph (m)(3) of this section) in the United States by a taxpayer that, at the time the taxpayer constructs the real property, is engaged in a trade or business (but not necessarily its primary, or only, trade or business) that is considered construction for purposes of the North American Industry Classification System (NAICS) on a regular and ongoing basis. A trade or business that is considered construction under the NAICS means a construction activity under the two-digit NAICS code of 23 and any other construction activity in any other NAICS code provided the construction activity relates to the construction of real property such as NAICS code 213111 (drilling oil and gas wells) and 213112 (support activities for oil and gas operations). For purposes of this paragraph (m), the term *construction project* means the construction activities and services treated as the item under paragraph (d)(2)(iii) of this section. Tangible personal property (for example, appliances, furniture, and fixtures) that is sold as part of a construction project is not considered real property for purposes of this paragraph (m)(1)(i). In determining whether property is real property, the fact that property is real property under local law is not controlling. Conversely, property may be real property for purposes of this paragraph (m)(1)(i) even though under local law the property is considered tangible personal property.

(ii) *Regular and ongoing basis*—(A) *In general*. For purposes of paragraph (m)(1)(i) of this section, a taxpayer engaged in a construction trade or business will be considered to be engaged in such trade or business on a regular and ongoing basis if the taxpayer derives gross receipts from an unrelated person by selling or exchanging the con-

structed real property described in paragraph (m)(3) of this section within 60 months of the date on which construction is complete (for example, on the date a certificate of occupancy is issued for the property).

(B) *New trade or business*. In the case of a newly-formed trade or business or a taxpayer in its first taxable year, the taxpayer is considered to be engaged in a trade or business on a regular and ongoing basis if the taxpayer reasonably expects that it will engage in a trade or business on a regular and ongoing basis.

(iii) *De minimis exception*—(A) *DPGR*. For purposes of paragraph (m)(1)(i) of this section, if less than 5 percent of the total gross receipts derived by a taxpayer from a construction project (as described in paragraph (m)(1)(i) of this section) are derived from activities other than the construction of real property in the United States (for example, from non-construction activities or the sale of tangible personal property or land), then the total gross receipts derived by the taxpayer from the project may be treated as DPGR from construction. If a taxpayer applies the land safe harbor under paragraph (m)(6)(iv) of this section, for a construction project (as described in paragraph (m)(1)(i) of this section), then the gross receipts excluded under the land safe harbor are excluded in determining total gross receipts under this paragraph (m)(1)(iii)(A). If a taxpayer does not apply the land safe harbor and uses any reasonable method (for example, an appraisal of the land) to allocate gross receipts attributable to the land to non-DPGR, then a taxpayer applies this paragraph (m)(1)(iii)(A) by excluding such gross receipts derived from the sale, exchange, or other disposition of the land from total gross receipts. In the case of gross receipts derived from construction that are received over a period of time (for example, an installment sale), this de minimis exception is applied by taking into account the total gross receipts for the entire period derived (and to be derived) from construction. For purposes of the preceding sentence, if a taxpayer treats gross receipts as DPGR under this de minimis exception, then the taxpayer

must treat the gross receipts recognized in each taxable year consistently as DPGR.

(B) *Non-DPGR.* For purposes of paragraph (m)(1)(i) of this section, if less than 5 percent of the total gross receipts derived by a taxpayer from a construction project qualify as DPGR, then the total gross receipts derived by the taxpayer from the construction project may be treated as non-DPGR. In the case of gross receipts derived from construction that are received over a period of time (for example, an installment sale), this de minimis exception is applied by taking into account the total gross receipts for the entire period derived (and to be derived) from construction. For purposes of the preceding sentence, if a taxpayer treats gross receipts as non-DPGR under this de minimis exception, then the taxpayer must treat the gross receipts recognized in each taxable year consistently as non-DPGR.

(2) *Activities constituting construction—*
(i) *In general.*

Activities constituting construction are activities performed in connection with a project to erect or substantially renovate real property, including activities performed by a general contractor or that constitute activities typically performed by a general contractor, for example, activities relating to management and oversight of the construction process such as approvals, periodic inspection of the progress of the construction project, and required job modifications.

(ii) *Tangential services.* Activities constituting construction do not include tangential services such as hauling trash and debris, and delivering materials, even if the tangential services are essential for construction. However, if the taxpayer performing construction also, in connection with the construction project, provides tangential services such as delivering materials to the construction site and removing its construction debris, then the gross receipts derived from the tangential services are DPGR.

(iii) *Other construction activities.* Improvements to land that are not capitalizable to the land (for example, landscaping) and painting are activities constituting construction only if

these activities are performed in connection with other activities (whether or not by the same taxpayer) that constitute the erection or substantial renovation of real property and provided the taxpayer meets the requirements under paragraph (m)(1) of this section. Services such as grading, demolition (including demolition of structures under section 280B), clearing, excavating, and any other activities that physically transform the land are activities constituting construction only if these services are performed in connection with other activities (whether or not by the same taxpayer) that constitute the erection or substantial renovation of real property and provided the taxpayer meets the requirements under paragraph (m)(1) of this section. A taxpayer engaged in these activities must make a reasonable inquiry or a reasonable determination as to whether the activity relates to the erection or substantial renovation of real property in the United States. Construction activities also include activities relating to drilling an oil or gas well and mining and include any activities the cost of which are intangible drilling and development costs within the meaning of § 1.612-4 or development expenditures for a mine or natural deposit under section 616.

(iv) *Administrative support services.* If the taxpayer performing construction activities also provides, in connection with the construction project, administrative support services (for example, billing and secretarial services) incidental and necessary to such construction project, then these administrative support services are considered construction activities.

(v) *Exceptions.* The lease, license, or rental of equipment, for example, bulldozers, generators, or computers, for use in the construction of real property is not a construction activity under this paragraph (m)(2). The term construction does not include any activity that is within the definition of engineering and architectural services under paragraph (n) of this section.

(3) *Definition of real property.* The term *real property* means buildings (including items that are structural components of such buildings), inherently permanent structures (as defined in

§ 1.263A-8(c)(3)) other than machinery (as defined in § 1.263A-8(c)(4)) (including items that are structural components of such inherently permanent structures), inherently permanent land improvements, oil and gas wells, and infrastructure (as defined in paragraph (m)(4) of this section). For purposes of the preceding sentence, an entire utility plant including both the shell and the interior will be treated as an inherently permanent structure. Property produced by a taxpayer that is not real property in the hands of that taxpayer, but that may be incorporated into real property by another taxpayer, is not treated as real property by the producing taxpayer (for example, bricks, nails, paint, and windowpanes). For purposes of this paragraph (m)(3), structural components of buildings and inherently permanent structures include property such as walls, partitions, doors, wiring, plumbing, central air conditioning and heating systems, pipes and ducts, elevators and escalators, and other similar property.

(4) *Definition of infrastructure.* The term *infrastructure* includes roads, power lines, water systems, railroad spurs, communications facilities, sewers, sidewalks, cable, and wiring. The term also includes inherently permanent oil and gas platforms.

(5) *Definition of substantial renovation.* The term *substantial renovation* means the renovation of a major component or substantial structural part of real property that materially increases the value of the property, substantially prolongs the useful life of the property, or adapts the property to a new or different use.

(6) *Derived from construction—(i) In general.* Assuming all the requirements of this section are met, DPGR derived from the construction of real property performed in the United States includes the proceeds from the sale, exchange, or other disposition of real property constructed by the taxpayer in the United States (whether or not the property is sold immediately after construction is completed and whether or not the construction project is completed). DPGR derived from the construction of real property includes compensation for the performance of construction services by the taxpayer

in the United States. DPGR derived from the construction of real property includes gross receipts derived from materials and supplies consumed in the construction project or that become part of the constructed real property, assuming all the requirements of this section are met.

(ii) *Qualified construction warranty.* DPGR derived from the construction of real property includes gross receipts from any qualified construction warranty, that is, a warranty that is provided in connection with the constructed real property if, in the normal course of the taxpayer's business—

(A) The price for the construction warranty is not separately stated from the amount charged for the constructed real property; and

(B) The construction warranty is neither separately offered by the taxpayer nor separately bargained for with customers (that is, the customer cannot purchase the constructed real property without the construction warranty).

(iii) *Exceptions.* DPGR derived from the construction of real property performed in the United States does not include gross receipts derived from the sale, exchange, or other disposition of real property acquired by the taxpayer even if the taxpayer originally constructed the property. In addition, DPGR derived from the construction of real property does not include gross receipts from the lease or rental of real property constructed by the taxpayer or, except as provided in paragraph (m)(2)(iii) of this section, gross receipts derived from the sale or other disposition of land (including zoning, planning, entitlement costs, and other costs capitalized to the land).

(iv) *Land safe harbor—(A) In general.* For purposes of paragraph (m)(6)(i) of this section, a taxpayer may allocate gross receipts between the gross receipts derived from the sale, exchange, or other disposition of real property constructed by the taxpayer and the gross receipts derived from the sale, exchange, or other disposition of land by reducing its costs related to DPGR under § 1.199-4 by the costs of the land and any other costs capitalized to the land (collectively, land costs) (including zoning, planning, entitlement costs, and other costs capitalized to

the land (except costs for activities listed in paragraph (m)(2)(iii) of this section) and land costs in any common improvements as defined in section 2.01 of Rev. Proc. 92-29 (1992-1 C.B. 748) (see § 601.601(d)(2) of this chapter)) and by reducing its DPGR by those land costs plus a percentage. Generally, the percentage is based on the number of months that elapse between the date the taxpayer acquires the land (not including any options to acquire the land) and ends on the date the taxpayer sells each item of real property on the land. However, a taxpayer will be deemed, for purposes of this paragraph (m)(6)(iv)(A), to acquire the land on the date the taxpayer entered into an option agreement to acquire the land if the taxpayer acquired the land pursuant to such option agreement and the purchase price of the land under the option agreement does not approximate the fair market value of the land. In the case of a sale or disposition of land between related persons (as defined in paragraph (b)(1) of this section) for less than fair market value, for purposes of determining the percentage, the purchaser or transferee of the land must include the months during which the land was held by the seller or transferor. The percentage is 5 percent for land held not more than 60 months, 10 percent for land held more than 60 months but not more than 120 months, and 15 percent for land held more than 120 months but not more than 180 months. Land held by a taxpayer for more than 180 months is not eligible for the safe harbor under this paragraph (m)(6)(iv)(A).

(B) *Determining gross receipts and costs.* In the case of a taxpayer that uses the small business simplified overall method of cost allocation under § 1.199-4(f), gross receipts derived from the sale, exchange, or other disposition of land, and costs attributable to the land, pursuant to the land safe harbor under paragraph (m)(6)(iv)(A) of this section, are not taken into account for purposes of computing QPAI under §§ 1.199-1 through 1.199-9 except that the gross receipts are taken into account for determining eligibility for that method of cost allocation. All other taxpayers must treat the gross receipts derived from the sale, ex-

change, or other disposition of land, pursuant to the land safe harbor under paragraph (m)(6)(iv)(A) of this section, as non-DPGR. In the case of a pass-thru entity, if the pass-thru entity would be eligible to use the small business simplified overall method of cost allocation if the method were applied at the pass-thru entity level, then the gross receipts derived from the sale, exchange, or other disposition of land, and costs allocated to the land, pursuant to the land safe harbor under paragraph (m)(6)(iv)(A) of this section, are not taken into account by the pass-thru entity or its owner or owners for purposes of computing QPAI under §§ 1.199-1 through 1.199-9. For purposes of the preceding sentence, in determining whether the pass-thru entity would be eligible for the small business simplified overall method of cost allocation, the gross receipts excluded pursuant to the land safe harbor under paragraph (m)(6)(iv)(A) of this section are taken into account for determining eligibility for that method of cost allocation. All other pass-thru entities (including all trusts and estates described in §§ 1.199-5(e) and 1.199-9(e)) must treat the gross receipts attributable to the sale, exchange, or other disposition of land, pursuant to the land safe harbor under paragraph (m)(6)(iv)(A) of this section, as non-DPGR.

(v) *Examples.* The following examples illustrate the application of this paragraph (m)(6):

Example 1. A, who is in the trade or business of construction under NAICS code 23 on a regular and ongoing basis, purchases a building in the United States and retains B, an unrelated person, to oversee a substantial renovation of the building (within the meaning of paragraph (m)(5) of this section). Although not licensed as a general contractor, B performs general contractor level work and activities relating to management and oversight of the construction process such as approvals, periodic inspection of the progress of the construction project, and required job modifications. B retains C (a general contractor) to oversee day-to-day operations and hire subcontractors. C hires D (a subcontractor) to install a new electrical system in the building as part of that substantial renovation. The amounts that B receives from A for construction services, the amounts that C receives from B for construction services, and the amounts that D receives from C for construction services qualify as DPGR under

paragraph (m)(6)(i) of this section provided B, C, and D meet all of the requirements of paragraph (m)(1) of this section. The gross receipts that A receives from the subsequent sale of the building do not qualify as DPGR because A did not engage in any activity constituting construction under paragraph (m)(2) of this section even though A is in the trade or business of construction. The results would be the same if A, B, C, and D were members of the same EAG under § 1.199-7(a). However, if A, B, C, and D were members of the same consolidated group, see § 1.199-7(d)(2).

Example 2. X is engaged as an electrical contractor under NAICS code 238210 on a regular and ongoing basis. X purchases the wires, conduits, and other electrical materials that it installs in construction projects in the United States. In a particular construction project, all of the wires, conduits, and other electrical materials installed by X for the operation of that building are considered structural components of the building. X's gross receipts derived from installing that property are derived from the construction of real property under paragraph (m)(1) of this section. In addition, pursuant to paragraph (m)(6)(i) of this section, X's gross receipts derived from the purchased materials qualify as DPGR because the wires, conduits, and other electrical materials are consumed during the construction of the building or become structural components of the building.

Example 3. X is engaged in a trade or business on a regular and ongoing basis that is considered construction under the two-digit NAICS code of 23. X buys unimproved land in the United States. X gets the land zoned for residential housing through an entitlement process. X grades the land and sells the land to home builders who construct houses on the land. The gross receipts that X derives from the sale of the land that are attributable to the grading qualify as DPGR under paragraphs (m)(2)(iii) and (6)(i) of this section because those services are undertaken in connection with a construction project in the United States. X's gross receipts derived from the land including capitalized costs of entitlements (including zoning) do not qualify as DPGR under paragraph (m)(6)(i) of this section because the gross receipts are not derived from the construction of real property.

Example 4. The facts are the same as in *Example 3* except that X constructs roads, sewers, and sidewalks, and installs power and water lines on the land. X conveys the roads, sewers, sidewalks, and power and water lines to the local government and utilities. The gross receipts that X derives from the sale of lots that are attributable to grading, and the construction of the roads, sewers, sidewalks, and power and water lines (that qualify as infrastructure under paragraph (m)(4) of this section) are DPGR. X's gross receipts derived

from the land including capitalized costs of entitlements (including zoning) do not qualify as DPGR under paragraph (m)(6)(i) of this section because the gross receipts are not derived from the construction of real property.

Example 5. (i) *Facts.* X, who is engaged in the trade or business of construction under NAICS code 23 on a regular and ongoing basis, constructs housing that is real property under paragraph (m)(3) of this section. On June 1, 2007, X pays \$50,000,000 and acquires 1,000 acres of land that X will develop as a new housing development. In November 2007, after the expenditure of \$10,000,000 for entitlement costs, X receives permits to begin construction. After this expenditure, X's land costs total \$60,000,000. The development consists of 1,000 houses to be built on half-acre lots over 5 years. On January 31, 2012, the first house is sold for \$300,000. Construction costs for each house are \$170,000. Common improvements consisting of streets, sidewalks, sewer lines, playgrounds, clubhouses, tennis courts, and swimming pools that X is contractually obligated or required by law to provide cost \$55,000 per lot. The common improvements of \$55,000 per lot include \$30,000 in land costs underlying the common improvements.

(ii) *Land safe harbor.* Pursuant to the land safe harbor under paragraph (m)(6)(iv) of this section, X calculates the basis for each house sold as \$195,000 (total costs of \$255,000 (\$170,000 in construction costs plus \$55,000 in common improvements (including \$30,000 in land costs) plus \$30,000 in land costs for the lot), which are reduced by land costs of \$60,000). X calculates the DPGR for each house sold by taking the gross receipts of \$300,000 and reducing that amount by land costs of \$60,000 plus a percentage of \$60,000. As X acquired the land on June 1, 2007, for each house sold on the land between January 31, 2012, and June 1, 2012, the percentage reduction for X is 5% because X has held the land for not more than 60 months from the date of acquisition. Thus, X's DPGR for each house is \$237,000 (\$300,000 - \$60,000 - \$3,000) with costs for each house of \$195,000 (\$255,000 - \$60,000). For each house sold on the land between June 2, 2012 and June 1, 2017, the percentage reduction for X is 10% because X has held the land for more than 60 months but not more than 120 months from the date of acquisition. Thus, of the \$300,000 of gross receipts, X's DPGR for each house is \$234,000 (\$300,000 - \$60,000 - \$6,000) with costs for each house of \$195,000 (\$255,000 - \$60,000).

Example 6. The facts are the same as in *Example 5* except that on December 31, 2007, after X received the permits to begin construction, X sold the entitled land to Y, an unrelated corporation, for \$75,000,000. Y is engaged in a trade or business on a regular and ongoing basis that is considered construction under NAICS code 23. Y subsequently incurred the construction costs and the costs

of the common improvements, and Y sold the houses. Because X did not perform any construction activities, none of X's \$75,000,000 in gross receipts derived from Y are DPGR and none of X's costs are allocable to DPGR. Pursuant to the land safe harbor under paragraph (m)(6)(iv) of this section, Y calculates the basis for each house sold as \$195,000 (total costs of \$270,000 (\$170,000 in construction costs plus \$62,500 in common improvements (including \$37,500 in land costs) plus \$37,500 in land costs for the lot), which are reduced by land costs of \$75,000). Y calculates the DPGR for each house sold by taking the gross receipts of \$300,000 and reducing that amount by land costs of \$75,000 plus a percentage of \$75,000. As Y acquired the land on December 31, 2007, for the houses sold on the land between January 31, 2012, and December 31, 2012, the percentage reduction for Y is 5% because Y held the land for not more than 60 months from the date of acquisition. Thus, of the \$300,000 of gross receipts, the DPGR for each house is \$221,250 (\$300,000 - \$75,000 - \$3,750) with costs for each house of \$195,000. For the houses sold on the land between January 1, 2013, and December 31, 2017, the percentage reduction for Y is 10% because Y held the land for more than 60 months but not more than 120 months from the date of acquisition. Thus, of the \$300,000 of gross receipts, the DPGR for each house is \$217,500 (\$300,000 - \$75,000 - \$7,500) with costs for each house of \$195,000. The results would be the same if X and Y were members of the same EAG, provided X and Y were not members of the same consolidated group.

Example 7. The facts are the same as in *Example 6* except that Y is a member of the same consolidated group as X. Pursuant to § 1.1502-13(c)(1)(ii), Y's holding period in the land includes the period of time X held the land. In order to produce the same effect as if X and Y were divisions of a single corporation (see § 1.1502-13(c)(1)(i)), for each house sold between January 31, 2012, and June 1, 2012, Y's DPGR are redetermined to be \$237,000, the same as X's DPGR for houses sold between January 31, 2012, and June 1, 2012, in *Example 5*. Y's costs for each house do not have to be redetermined because Y's costs are \$195,000, the same as the costs would be if X and Y were divisions of a single corporation. For each house sold between June 2, 2012, and June 1, 2017, Y's DPGR are redetermined to be \$234,000, the same as X's DPGR for each house sold between June 2, 2012, and June 1, 2017, in *Example 5*. Y's costs for each house do not have to be redetermined because Y's costs are \$195,000, the same as the costs would be if X and Y were divisions of a single corporation.

Example 8. X, who is engaged in the trade or business of construction under NAICS code 23 on a regular and ongoing basis, purchases land for development and builds an office building on the land. Y enters into a

contract with X to purchase the office building. As part of the contract, X is required to furnish the office space with desks, chairs, and lamps. Upon completion of the sale of the building, X uses the land safe harbor under paragraph (m)(6)(iv) of this section to account for the land. After application of the land safe harbor, X uses the *de minimis* exception under paragraph (m)(1)(iii)(A) of this section in determining whether the gross receipts derived from the sale of the desks, chairs, and lamps qualify as DPGR. If the gross receipts derived from the sale of the desks, chairs, and lamps are less than 5% of the total gross receipts derived by X from the sale of the furnished office building (excluding any gross receipts taken into account under the land safe harbor pursuant to paragraph (m)(6)(iv)(B) of this section), then all of the gross receipts derived from the sale of the furnished office building, after the reduction under the land safe harbor, may be treated as DPGR.

(n) *Definition of engineering and architectural services*—(1) *In general.* DPGR include gross receipts derived from engineering or architectural services performed in the United States for a construction project described in paragraph (m)(1)(i) of this section. At the time the taxpayer performs the engineering or architectural services, the taxpayer must be engaged in a trade or business (but not necessarily its primary, or only, trade or business) that is considered engineering or architectural services for purposes of the NAICS, for example NAICS codes 541330 (engineering services) or 541310 (architectural services), on a regular and ongoing basis. In the case of a newly-formed trade or business or a taxpayer in its first taxable year, a taxpayer is considered to be engaged in a trade or business on a regular and ongoing basis if the taxpayer reasonably expects that it will engage in a trade or business on a regular and ongoing basis. DPGR include gross receipts derived from engineering or architectural services, including feasibility studies for a construction project in the United States, even if the planned construction project is not undertaken or is not completed.

(2) *Engineering services.* Engineering services in connection with any construction project include any professional services requiring engineering education, training, and experience and the application of special knowledge of

the mathematical, physical, or engineering sciences to those professional services such as consultation, investigation, evaluation, planning, design, or responsible supervision of construction (for the purpose of assuring compliance with plans, specifications, and design) or erection, in connection with any construction project.

(3) *Architectural services.* Architectural services in connection with any construction project include the offering or furnishing of any professional services such as consultation, planning, aesthetic and structural design, drawings and specifications, or responsible supervision of construction (for the purpose of assuring compliance with plans, specifications, and design) or erection, in connection with any construction project.

(4) *Administrative support services.* If the taxpayer performing engineering or architectural services also provides administrative support services (for example, billing and secretarial services) incidental and necessary to such engineering or architectural services, then these administrative support services are considered engineering or architectural services.

(5) *Exceptions.* Engineering or architectural services do not include post-construction services such as annual audits and inspections.

(6) *De minimis exception for performance of services in the United States—(i) DPGR.* If less than 5 percent of the total gross receipts derived by a taxpayer from engineering or architectural services performed in the United States for a construction project (described in paragraph (m)(1)(i) of this section) are derived from services not relating to a construction project (for example, the services are performed outside the United States or in connection with property other than real property), then the total gross receipts derived by the taxpayer may be treated as DPGR from engineering or architectural services performed in the United States for the construction project. In the case of gross receipts derived from engineering or architectural services that are received over a period of time (for example, an installment sale), this de minimis exception is applied by taking into account the total gross re-

ceipts for the entire period derived (and to be derived) from engineering or architectural services. For purposes of the preceding sentence, if a taxpayer treats gross receipts as DPGR under this de minimis exception, then the taxpayer must treat the gross receipts recognized in each taxable year consistently as DPGR.

(ii) *Non-DPGR.* If less than 5 percent of the total gross receipts derived by a taxpayer from engineering or architectural services performed in the United States for a construction project qualify as DPGR, then the total gross receipts derived by the taxpayer from engineering or architectural services performed in the United States for the construction project may be treated as non-DPGR. In the case of gross receipts derived from engineering or architectural services that are received over a period of time (for example, an installment sale), this de minimis exception is applied by taking into account the total gross receipts for the entire period derived (and to be derived) from engineering or architectural services. For purposes of the preceding sentence, if a taxpayer treats gross receipts as non-DPGR under this de minimis exception, then the taxpayer must treat the gross receipts recognized in each taxable year consistently as non-DPGR.

(7) *Example.* The following example illustrates the application of this paragraph (n):

Example. X is engaged in the trade or business of providing engineering services under NAICS code 541330 on a regular and ongoing basis. Y buys unimproved land. Y hires X to provide engineering services for roads, sewers, sidewalks, and power and water lines that qualify as infrastructure under paragraph (m)(4) of this section and that will be constructed on Y's land. X's gross receipts from engineering services for the infrastructure are DPGR. X's gross receipts from engineering services relating to land (except as provided in paragraph (m)(2)(iii) of this section) do not qualify as DPGR under paragraph (n)(1) of this section because the gross receipts are not derived from engineering services for a construction project described in paragraph (m)(1)(i) of this section.

(o) *Sales of certain food and beverages—(1) In general.* DPGR does not include gross receipts of the taxpayer that are derived from the sale of food

or beverages prepared by the taxpayer at a retail establishment. A retail establishment is defined as tangible property (both real and personal) owned, leased, occupied, or otherwise used by the taxpayer in its trade or business of selling food or beverages to the public at which retail sales are made. In addition, a facility that prepares food and beverages for take out service or delivery is a retail establishment (for example, a caterer). If a taxpayer's facility is a retail establishment, then, for purposes of this section, the taxpayer may allocate its gross receipts between the gross receipts derived from the retail sale of the food and beverages prepared and sold at the retail establishment (that are non-DPGR) and gross receipts derived from the wholesale sale of the food and beverages prepared and sold at the retail establishment (that are DPGR assuming all the other requirements of section 199 are met). Wholesale sales are defined as food and beverages held for resale by the purchaser. The exception for sales of certain food and beverages also applies to food and beverages for non-human consumption. A retail establishment does not include the bonded premises of a distilled spirits plant or wine cellar, or the premises of a brewery (other than a tavern on the brewery premises). See Chapter 51 of title 26 of the United States Code and the implementing regulations thereunder.

(2) *De minimis exception.* A taxpayer may treat a facility at which food or beverages are prepared as not being a retail establishment if less than 5 percent of the gross receipts derived from the sale of food or beverages at that facility during the taxable year are attributable to retail sales.

(3) *Examples.* The following examples illustrate the application of this paragraph (o):

Example 1. X buys coffee beans and roasts those beans at a facility in the United States, the only activity of which is the roasting and packaging of coffee beans. X sells the roasted coffee beans through a variety of unrelated third-party vendors and also sells roasted coffee beans at X's retail establishments. At X's retail establishments, X prepares brewed coffee and other foods. To the extent that the gross receipts of X's retail establishments are derived from the sale

of coffee beans roasted at the facility, the receipts are DPGR (assuming all the other requirements of this section are met). To the extent the gross receipts of X's retail establishments are derived from the retail sale of brewed coffee or food prepared at the retail establishments, the receipts are non-DPGR. However, pursuant to § 1.199-1(d)(1)(ii), X must allocate part of the receipts from the retail sale of the brewed coffee as DPGR to the extent of the value of the coffee beans that were roasted at the facility and that were used to brew coffee.

Example 2. Y operates a bonded winery within the United States. Bottles of wine produced by Y at the bonded winery are sold to consumers at the taxpaid premises. Pursuant to paragraph (o)(1) of this section, the bonded premises is not considered a retail establishment and is treated as separate and apart from the taxpaid premises, which is considered a retail establishment for purposes of paragraph (o)(1) of this section. Accordingly, the wine produced by Y in the bonded premises and sold by Y from the taxpaid premises is not considered to have been produced at a retail establishment, and the gross receipts derived from the sales of the wine are DPGR (assuming all the other requirements of this section are met).

(p) *Guaranteed payments.* DPGR does not include guaranteed payments under section 707(c). Thus, partners, including partners in partnerships described in paragraphs (i)(7) and (8) of this section and § 1.199-9(i) and (j), may not treat guaranteed payments as DPGR. See §§ 1.199-5(b)(6) *Example 5* and 1.199-9(b)(6) *Example 5*.

[T.D. 9263, 71 FR 31283, June 1, 2006, as amended by T.D. 9293, 71 FR 61669, Oct. 19, 2006; T.D. 9263, 72 FR 5, Jan. 3, 2007; T.D. 9317, 72 FR 12971, Mar. 20, 2007; T.D. 9381, 73 FR 8804, Feb. 15, 2008; T.D. 9384, 73 FR 12270, Mar. 7, 2008]

§ 1.199-4 Costs allocable to domestic production gross receipts.

(a) *In general.* The provisions of this section apply solely for purposes of section 199 of the Internal Revenue Code (Code). To determine its qualified production activities income (QPAI) (as defined in § 1.199-1(c)) for a taxable year, a taxpayer must subtract from its domestic production gross receipts (DPGR) (as defined in § 1.199-3(a)) the cost of goods sold (CGS) allocable to DPGR and other expenses, losses, or deductions (deductions), other than the deduction allowed under section 199,

that are properly allocable to such receipts. Paragraph (b) of this section provides rules for determining CGS allocable to DPGR. Paragraph (c) of this section provides rules for determining the deductions that are properly allocable to DPGR. Paragraph (d) of this section provides that a taxpayer generally must determine deductions allocable to DPGR or to gross income attributable to DPGR using §§ 1.861-8 through 1.861-17 and §§ 1.861-8T through 1.861-14T (the section 861 regulations), subject to the rules in paragraph (d) of this section (the section 861 method). Paragraph (e) of this section provides that certain taxpayers may apportion deductions to DPGR using the simplified deduction method. Paragraph (f) of this section provides a small business simplified overall method that a qualifying small taxpayer may use to apportion CGS and deductions to DPGR.

(b) *Cost of goods sold allocable to domestic production gross receipts*—(1) *In general.* When determining its QPAI, a taxpayer must subtract from DPGR the CGS allocable to DPGR. A taxpayer determines its CGS allocable to DPGR in accordance with this paragraph (b) or, if applicable, paragraph (f) of this section. In the case of a sale, exchange, or other disposition of inventory, CGS is equal to beginning inventory plus purchases and production costs incurred during the taxable year and included in inventory costs, less ending inventory. CGS is determined under the methods of accounting that the taxpayer uses to compute taxable income. See sections 263A, 471, and 472. If section 263A requires a taxpayer to include additional section 263A costs (as defined in § 1.263A-1(d)(3)) in inventory, additional section 263A costs must be included in determining CGS. CGS allocable to DPGR also includes inventory valuation adjustments such as writedowns under the lower of cost or market method. In the case of a sale, exchange, or other disposition (including, for example, theft, casualty, or abandonment) of non-inventory property, CGS for purposes of this section includes the adjusted basis of the property. CGS allocable to DPGR for a taxable year may include the inventory cost and adjusted basis of qualifying

production property (QPP) (as defined in § 1.199-3(j)(1)), a qualified film (as defined in § 1.199-3(k)(1)), or electricity, natural gas, and potable water (as defined in § 1.199-3(l)) (collectively, utilities) that will generate (or have generated) DPGR notwithstanding that the gross receipts attributable to the sale, lease, rental, license, exchange, or other disposition of the QPP, qualified film, or utilities will be, or have been, included in the computation of gross income for a different taxable year. For example, advance payments that are DPGR may be included in gross income under § 1.451-5(b)(1)(i) in a different taxable year than the related CGS allocable to that DPGR. If gross receipts are treated as DPGR pursuant to § 1.199-1(d)(3)(i) or § 1.199-3(i)(4)(i)(B)(6), (1)(4)(iv)(A), (m)(1)(iii)(A), (n)(6)(i), or (o)(2), then CGS must be allocated to such DPGR. Similarly, if gross receipts are treated as non-DPGR pursuant to § 1.199-1(d)(3)(ii) or § 1.199-3(i)(4)(ii), (1)(4)(iv)(B), (m)(1)(iii)(B), or (n)(6)(ii), then CGS must be allocated to such non-DPGR. See § 1.199-3(m)(6)(iv) for rules relating to treatment of certain costs in the case of a taxpayer that uses the land safe harbor under that paragraph.

(2) *Allocating cost of goods sold*—(i) *In general.* A taxpayer must use a reasonable method that is satisfactory to the Secretary based on all of the facts and circumstances to allocate CGS between DPGR and non-DPGR. Whether an allocation method is reasonable is based on all of the facts and circumstances including whether the taxpayer uses the most accurate information available; the relationship between CGS and the method used; the accuracy of the method chosen as compared with other possible methods; whether the method is used by the taxpayer for internal management or other business purposes; whether the method is used for other Federal or state income tax purposes; the availability of costing information; the time, burden, and cost of using alternative methods; and whether the taxpayer applies the method consistently from year to year. Depending on the facts and circumstances, reasonable methods may include methods based on gross receipts, number of

units sold, number of units produced, or total production costs. Ordinarily, if a taxpayer uses a method to allocate gross receipts between DPGR and non-DPGR, then the use of a different method to allocate CGS that is not demonstrably more accurate than the method used to allocate gross receipts will not be considered reasonable. However, if a taxpayer has information readily available to specifically identify CGS allocable to DPGR and can specifically identify that amount without undue burden or expense, CGS allocable to DPGR is that amount irrespective of whether the taxpayer uses another allocation method to allocate gross receipts between DPGR and non-DPGR. A taxpayer that does not have information readily available to specifically identify CGS allocable to DPGR and that cannot, without undue burden or expense, specifically identify that amount is not required to use a method that specifically identifies CGS allocable to DPGR.

(ii) *Gross receipts recognized in an earlier taxable year.* If a taxpayer (other than a taxpayer that uses the small business simplified overall method of paragraph (f) of this section) recognizes and reports gross receipts on a Federal income tax return for a taxable year, and incurs CGS related to such gross receipts in a subsequent taxable year, then regardless of whether the gross receipts ultimately qualify as DPGR, the taxpayer must allocate the CGS to—

(A) DPGR if the taxpayer identified the related gross receipts as DPGR in the prior taxable year; or

(B) Non-DPGR if the taxpayer identified the related gross receipts as non-DPGR in the prior taxable year or if the taxpayer recognized under the taxpayer's methods of accounting those gross receipts in a taxable year to which section 199 does not apply.

(3) *Special rules for imported items or services.* The cost of any item or service brought into the United States (as defined in § 1.199-3(h)) without an arm's length transfer price may not be treated as less than its value immediately after it entered the United States for purposes of determining the CGS to be used in the computation of QPAI. Similarly, the adjusted basis of leased or rented property that gives rise to

DPGR that has been brought into the United States (as defined in § 1.199-3(h)) without an arm's length transfer price may not be treated as less than its value immediately after it entered the United States. When an item or service is imported into the United States that had been exported by the taxpayer for further manufacture, the increase in cost may not exceed the difference between the value of the property when exported and the value of the property when imported back into the United States after further manufacture. For this purpose, the value of property is its customs value as defined in section 1059A(b)(1).

(4) *Rules for inventories valued at market or bona fide selling prices.* If part of CGS is attributable to inventory valuation adjustments, then CGS allocable to DPGR includes inventory adjustments to QPP that is MPGE in whole or in significant part within the United States, a qualified film produced by the taxpayer, or utilities produced by the taxpayer in the United States. Accordingly, taxpayers that value inventory under § 1.471-4 (inventories at cost or market, whichever is lower) or § 1.471-2(c) (subnormal goods at bona fide selling prices) must allocate a proper share of such adjustments (for example, writedowns) to DPGR based on a reasonable method that is satisfactory to the Secretary based on all of the facts and circumstances. Factors taken into account in determining whether the method is reasonable include whether the taxpayer uses the most accurate information available; the relationship between the adjustment and the allocation base chosen; the accuracy of the method chosen as compared with other possible methods; whether the method is used by the taxpayer for internal management or other business purposes; whether the method is used for other Federal or state income tax purposes; the time, burden, and cost of using alternative methods; and whether the taxpayer applies the method consistently from year to year. If a taxpayer has information readily available to specifically identify the proper amount of inventory valuation adjustments allocable to DPGR, then the taxpayer must allocate that amount to DPGR. A taxpayer that does not have

information readily available to specifically identify the proper amount of inventory valuation adjustments allocable to DPGR and that cannot, without undue burden or expense, specifically identify the proper amount of inventory valuation adjustments allocable to DPGR, is not required to use a method that specifically identifies inventory valuations adjustments to DPGR.

(5) *Rules applicable to inventories accounted for under the last-in, first-out (LIFO) inventory method*—(i) *In general.* This paragraph applies to inventories accounted for using the specific goods last-in, first-out (LIFO) method or the dollar-value LIFO method. Whenever a specific goods grouping or a dollar-value pool contains QPP, qualified films, or utilities that produces DPGR and goods that do not, the taxpayer must allocate CGS attributable to that grouping or pool between DPGR and non-DPGR using a reasonable method that is satisfactory to the Secretary based on all of the facts and circumstances. Whether a method of allocating CGS between DPGR and non-DPGR is reasonable must be determined in accordance with paragraph (b)(2) of this section. In addition, this paragraph (b)(5) provides methods that a taxpayer may use to allocate CGS for inventories accounted for using the LIFO method. If a taxpayer uses the LIFO/FIFO ratio method provided in paragraph (b)(5)(ii) of this section or the change in relative base-year cost method provided in paragraph (b)(5)(iii) of this section, then the taxpayer must use that method for all inventory accounted for under the LIFO method.

(ii) *LIFO/FIFO ratio method.* A taxpayer using the specific goods LIFO method or the dollar-value LIFO method may use the LIFO/FIFO ratio method. The LIFO/FIFO ratio method is applied with respect to all LIFO inventory of a taxpayer on a grouping-by-grouping or pool-by-pool basis. Under the LIFO/FIFO ratio method, a taxpayer computes the CGS of a grouping or pool allocable to DPGR by multiplying the CGS of QPP, qualified films, or utilities in the grouping or pool that produced DPGR computed using the first-in, first-out (FIFO) method by the LIFO/FIFO ratio of the grouping or

pool. The LIFO/FIFO ratio of a grouping or pool is equal to the total CGS of the grouping or pool computed using the LIFO method over the total CGS of the grouping or pool computed using the FIFO method.

(iii) *Change in relative base-year cost method.* A taxpayer using the dollar-value LIFO method may use the change in relative base-year cost method. The change in relative base-year cost method is applied with respect to all LIFO inventory of a taxpayer on a pool-by-pool basis. The change in relative base-year cost method determines the CGS allocable to DPGR by increasing or decreasing the total production costs (section 471 costs and additional section 263A costs) of QPP, a qualified film, or utilities that generate DPGR by a portion of any increment or liquidation of the dollar-value pool. The portion of an increment or liquidation allocable to DPGR is determined by multiplying the LIFO value of the increment or liquidation (expressed as a positive number) by the ratio of the change in total base-year cost (expressed as a positive number) of the QPP, qualified film, or utilities that will generate DPGR in ending inventory to the change in total base-year cost (expressed as a positive number) of all goods in the ending inventory. The portion of an increment or liquidation allocable to DPGR may be zero but cannot exceed the amount of the increment or liquidation. Thus, a ratio in excess of 1.0 must be treated as 1.0.

(6) *Taxpayers using the simplified production method or simplified resale method for additional section 263A costs.* A taxpayer that uses the simplified production method or simplified resale method to allocate additional section 263A costs, as defined in § 1.263A-1(d)(3), to ending inventory must follow the rules in paragraph (b)(2) of this section to determine the amount of additional section 263A costs allocable to DPGR. Allocable additional section 263A costs include additional section 263A costs included in beginning inventory as well as additional section 263A costs incurred during the taxable year. Ordinarily, if a taxpayer uses the simplified production method or the simplified resale method, the additional section

§ 1.199-4

26 CFR Ch. I (4-1-17 Edition)

263A costs should be allocated in the same proportion as section 471 costs are allocated.

(7) *Examples.* The following examples illustrate the application of this paragraph (b) and assume that the taxpayer does not use the small business simplified overall method provided in paragraph (f) of this section:

Example 1. Advance payments. T, a calendar year taxpayer, is a manufacturer of furniture in the United States. Under its method of accounting, T includes advance payments and other gross receipts derived from the sale of furniture in gross income when the payments are received. In December 2007, T receives an advance payment of \$5,000 from X with respect to an order of furniture to be manufactured for a total price of \$20,000. In 2008, T produces and sells the furniture to X. In 2008, T incurs \$14,000 of section 471 and additional section 263A costs to produce the furniture ordered by X. T receives the remaining \$15,000 of the contract price from X in 2008. Assuming that in 2007, T can reasonably determine that all the requirements of §§ 1.199-1 and 1.199-3 will be met with respect to the furniture, the advance payment qualifies as DPGR in 2007. Assuming further that all the requirements of §§ 1.199-1 and 1.199-3 are met with respect to the furniture in 2008, the remaining \$15,000 of the contract price must be included in income and DPGR when received by T in 2008. T must include the \$14,000 it incurred to produce the furniture in CGS and CGS allocable to DPGR in 2008. See § 1.199-4(b)(2)(ii) for rules regarding gross receipts and costs recognized in different taxable years.

Example 2. Use of standard cost method. X, a calendar year taxpayer, manufactures item A in a factory located in the United States and item B in a factory located in Country Y. Item A is produced by X within the United States and the sale of A generates DPGR. X uses the FIFO inventory method to account for its inventory and determines the cost of item A using a standard cost method. At the beginning of its 2007 taxable year, X's inventory contains 2,000 units of item A at a standard cost of \$5 per unit. X did not incur significant cost variances in previous taxable years. During the 2007 taxable year, X produces 8,000 units of item A at a standard cost of \$6 per unit. X determines that with regard to its production of item A it has incurred a significant cost variance. When X reallocates the cost variance to the units of item A that it has produced, the production cost of item A is \$7 per unit. X sells 7,000 units of item A during the taxable year. X can identify from its books and records that CGS related to the sales of item A during the taxable year are \$45,000 $((2,000 \times \$5) + (5,000 \times \$7))$. Accordingly, X has CGS allocable to DPGR of \$45,000.

Example 3. Change in relative base-year cost method. (i) Y elects, beginning with the calendar year 2007, to compute its inventories using the dollar-value, LIFO method under section 472. Y establishes a pool for items A and B. Y produces item A within the United States and the sales of item A generate DPGR. Y does not produce item B within the United States and the sale of item B does not generate DPGR. The composition of the inventory for the pool at the base date, January 1, 2007, is as follows:

Item	Unit	Unit cost	Total cost
A	2,000	\$5.00	\$10,000
B	1,250	4.00	5,000
Total			15,000

(ii) Y uses a standard cost method to allocate all direct and indirect costs (section 471 and additional section 263A costs) to the units of item A and item B that it produces. During 2007, Y incurs \$52,500 of section 471 costs and additional section 263A costs to produce 10,000 units of item A and \$114,000 of

section 471 costs and additional section 263A costs to produce 20,000 units of item B.

(iii) The closing inventory of the pool at December 31, 2007, contains 3,000 units of item A and 2,500 units of item B. The closing inventory of the pool at December 31, 2007, shown at base-year and current-year cost is as follows:

Item	Quantity	Base-year cost	Amount	Current-year cost	Amount
A	3,000	\$5.00	\$15,000	\$5.25	\$15,750
B	2,500	4.00	10,000	5.70	14,250
Totals			25,000		30,000

Internal Revenue Service, Treasury

§ 1.199-4

(iv) The base-year cost of the closing LIFO inventory at December 31, 2007, amounts to \$25,000, and exceeds the \$15,000 base-year cost of the opening inventory for the taxable year by \$10,000 (the increment stated at base-year cost). The increment valued at current-year cost is computed by multiplying the increment stated at base-year cost by the ratio of the current-year cost of the pool to total base-year cost of the pool (that is, \$30,000/\$25,000, or 120%). The increment stated at current-year cost is \$12,000 (\$10,000 × 120%).

(v) The change in relative base-year cost of item A is \$5,000 (\$15,000 – \$10,000). The change in relative base-year cost (the increment stated at base-year cost) of the total inventory is \$10,000 (\$25,000 – \$15,000). The ratio of the change in base-year cost of item A to the change in base-year cost of the total inventory is 50% (\$5,000/\$10,000).

(vi) CGS allocable to DPGR is \$46,500, computed as follows:

Current-year production costs related to DPGR	\$52,500
Less:		
Increment stated at current-year cost	\$12,000	
Ratio	50%	
Total	(6,000)
Total	46,500

Example 4. Change in relative base-year cost method. (i) The facts are the same as in *Example 3* except that, during the calendar year 2008, Y experiences an inventory decrement. During 2008, Y incurs \$66,000 of section 471 costs and additional section 263A costs to produce 12,000 units of item A and \$150,000 of

section 471 costs and additional section 263A costs to produce 25,000 units of item B.

(ii) The closing inventory of the pool at December 31, 2008, contains 2,000 units of item A and 2,500 units of item B. The closing inventory of the pool at December 31, 2008, shown at base-year and current-year cost is as follows:

Item	Quantity	Base-year cost	Amount	Current-year cost	Amount
A	2,000	\$5.00	\$10,000	\$5.50	\$11,000
B	2,500	4.00	10,000	6.00	15,000
Totals	20,000	26,000

(iii) The base-year cost of the closing LIFO inventory at December 31, 2008, amounts to \$20,000, and is less than the \$25,000 base-year cost of the opening inventory for that taxable year by \$5,000 (the decrement stated at

base-year cost). This liquidation is reflected by reducing the most recent layer of increment. The LIFO value of the inventory at December 31, 2008 is:

	Base cost	Index	LIFO value
January 1, 2008, base cost	\$15,000	1.00	\$15,000
December 31, 2008, increment	5,000	1.20	6,000
Total	21,000

(iv) The change in relative base-year cost of item A is \$5,000 (\$15,000 – \$10,000). The change in relative base-year cost of the total inventory is \$5,000 (\$25,000 – \$20,000). The ratio of the change in base-year cost of item A to

the change in base-year cost of the total inventory is 100% (\$5,000/\$5,000).

(v) CGS allocable to DPGR is \$72,000, computed as follows:

Current-year production costs related to DPGR	\$66,000
Plus:		
LIFO value of decrement	\$6,000	
Ratio	100%	

Total	6,000
Total	72,000

Example 5. LIFO/FIFO ratio method. (i) The facts are the same as in *Example 3* except that Y uses the LIFO/FIFO ratio method to determine its CGS allocable to DPGR.

(ii) Y's CGS related to item A on a FIFO basis is \$46,750 ((2,000 units at \$5) + (7,000 units at \$5.25)).

(iii) Y's total CGS computed on a LIFO basis is \$154,500 (beginning inventory of \$15,000 plus total production costs of \$166,500 less ending inventory of \$27,000).

(iv) Y's total CGS computed on a FIFO basis is \$151,500 (beginning inventory of \$15,000 plus total production costs of \$166,500 less ending inventory of \$30,000).

(v) The ratio of Y's CGS computed using the LIFO method to its CGS computed using the FIFO method is 102% (\$154,500/\$151,500). Y's CGS related to DPGR computed using the LIFO/FIFO ratio method is \$47,685 (\$46,750 × 102%).

Example 6. LIFO/FIFO ratio method. (i) The facts are the same as in *Example 4* except that Y uses the LIFO/FIFO ratio method to compute CGS allocable to DPGR.

(ii) Y's CGS related to item A on a FIFO basis is \$70,750 ((3,000 units at \$5.25) + (10,000 units at \$5.50)).

(iii) Y's total CGS computed on a LIFO basis is \$222,000 (beginning inventory of \$27,000 plus total production costs of \$216,000 less ending inventory of \$21,000).

(iv) Y's total CGS computed on a FIFO basis is \$220,000 (beginning inventory of \$30,000 plus total production costs of \$216,000 less ending inventory of \$26,000).

(v) The ratio of Y's CGS computed using the LIFO method to its CGS computed using the FIFO method is 101% (\$222,000/\$220,000). Y's CGS related to DPGR computed using the LIFO/FIFO ratio method is \$71,457 (\$70,750 × 101%).

(c) *Other deductions properly allocable to domestic production gross receipts or gross income attributable to domestic production gross receipts—(1) In general.* In determining its QPAI, a taxpayer must subtract from its DPGR, in addition to its CGS allocable to DPGR, the deductions that are properly allocable to DPGR. A taxpayer generally must allocate and apportion these deductions using the rules of the section 861 method. In lieu of the section 861 method, certain taxpayers may apportion these deductions using the simplified deduction method provided in paragraph (e) of this section. Paragraph (f) of this

section provides a small business simplified overall method that may be used by a qualifying small taxpayer, as defined in that paragraph. A taxpayer using the simplified deduction method or the small business simplified overall method must use that method for all deductions. A taxpayer eligible to use the small business simplified overall method may choose at any time for any taxable year to use the small business simplified overall method, the simplified deduction method, or the section 861 method for a taxable year. A taxpayer eligible to use the simplified deduction method may choose at any time for any taxable year to use the simplified deduction method or the section 861 method for a taxable year.

(2) *Treatment of net operating losses.* A deduction under section 172 for a net operating loss is not allocated or apportioned to DPGR or gross income attributable to DPGR.

(3) *W-2 wages.* Although only W-2 wages as described in § 1.199-2 are taken into account in computing the W-2 wage limitation, all wages paid (or incurred in the case of an accrual method taxpayer) in a taxpayer's trade or business during the taxable year are taken into account in computing QPAI for that taxable year.

(d) *Section 861 method—(1) In general.* Under the section 861 method, a taxpayer must allocate and apportion its deductions using the allocation and apportionment rules provided under the section 861 regulations under which section 199 is treated as an operative section described in § 1.861-8(f). Accordingly, the taxpayer applies the rules of the section 861 regulations to allocate and apportion deductions (including, if applicable, its distributive share of deductions from pass-thru entities) to gross income attributable to DPGR. Gross receipts that are allocable to land under the safe harbor provided in § 1.199-3(m)(6)(iv) are treated as non-DPGR. See § 1.199-3(m)(6)(iv)(B). If the taxpayer applies the allocation and apportionment rules of the section 861 regulations for section 199 and another

operative section, then the taxpayer must use the same method of allocation and the same principles of apportionment for purposes of all operative sections (subject to the rules provided in paragraphs (c)(2) and (d)(2) and (3) of this section). See § 1.861-8(f)(2)(i).

(2) *Deductions for charitable contributions.* Deductions for charitable contributions (as allowed under section 170 and section 873(b)(2) or 882(c)(1)(B)) must be ratably apportioned between gross income attributable to DPGR and gross income attributable to non-DPGR based on the relative amounts of gross income.

(3) *Research and experimental expenditures.* Research and experimental expenditures must be allocated and apportioned in accordance with § 1.861-17 without taking into account the exclusive apportionment rule of § 1.861-17(b).

(4) *Deductions allocated or apportioned to gross receipts treated as domestic production gross receipts.* If gross receipts are treated as DPGR pursuant to § 1.199-1(d)(3)(i) or § 1.199-3(i)(4)(i)(B)(6), (1)(4)(iv)(A), (m)(1)(iii)(A), (n)(6)(i), or (o)(2), then deductions must be allocated or apportioned to the gross income attributable to such DPGR. Similarly, if gross receipts are treated as non-DPGR pursuant to § 1.199-1(d)(3)(ii) or § 1.199-3(i)(4)(ii), (1)(4)(iv)(B), (m)(1)(iii)(B), or (n)(6)(ii), then deductions must be allocated or apportioned to the gross income attributable to such non-DPGR.

(5) *Treatment of items from a pass-thru entity reporting qualified production activities income.* If, pursuant to § 1.199-5(e)(2) or § 1.199-9(e)(2), or to the authority granted in § 1.199-5(b)(1)(ii) or (c)(1)(ii), or § 1.199-9(b)(1)(ii) or (c)(1)(ii), a taxpayer must combine QPAI and W-2 wages from a partnership, S corporation, trust (to the extent not described in § 1.199-5(d) or § 1.199-9(d)) or estate with the taxpayer's total QPAI and W-

2 wages from other sources, then for purposes of apportioning the taxpayer's interest expense under this paragraph (d), the taxpayer's interest in such partnership (and, where relevant in apportioning the taxpayer's interest expense, the partnership's assets), the taxpayer's shares in such S corporation, or the taxpayer's interest in such trust shall be disregarded.

(6) *Examples.* The following examples illustrate the operation of the section 861 method. Assume in the following examples that all corporations are calendar year taxpayers, that all taxpayers have sufficient W-2 wages as defined in § 1.199-2(e) so that the section 199 deduction is not limited under section 199(b)(1), and that, with respect to the allocation and apportionment of interest expense, § 1.861-10T does not apply.

Example 1. Section 861 method and no EAG.

(i) *Facts.* X, a United States corporation that is not a member of an expanded affiliated group (EAG) (as defined in § 1.199-7), engages in activities that generate both DPGR and non-DPGR. All of X's production activities that generate DPGR are within Standard Industrial Classification (SIC) Industry Group AAA (SIC AAA). All of X's production activities that generate non-DPGR are within SIC Industry Group BBB (SIC BBB). X is able to specifically identify CGS allocable to DPGR and to non-DPGR. X incurs \$900 of research and experimentation expenses (R&E) that are deductible under section 174, \$300 of which are performed with respect to SIC AAA and \$600 of which are performed with respect to SIC BBB. None of the R&E is legally mandated R&E as described in § 1.861-17(a)(4) and none of the R&E is included in CGS. X incurs section 162 selling expenses that are not includible in CGS and are definitely related to all of X's gross income. For 2010, the adjusted basis of X's assets is \$5,000, \$4,000 of which generates gross income attributable to DPGR and \$1,000 of which generates gross income attributable to non-DPGR. For 2010, X's taxable income is \$1,380 based on the following Federal income tax items:

DPGR (all from sales of products within SIC AAA)	\$3,000
Non-DPGR (all from sales of products within SIC BBB)	3,000
CGS allocable to DPGR	(600)
CGS allocable to non-DPGR	(1,800)
Section 162 selling expenses	(840)
Section 174 R&E-SIC AAA	(300)
Section 174 R&E-SIC BBB	(600)
Interest expense (not included in CGS)	(300)

§ 1.199-4

26 CFR Ch. I (4-1-17 Edition)

Charitable contributions	(180)
X's taxable income	1,380

(ii) *X's QPAI.* X allocates and apportions its deductions to gross income attributable to DPGR under the section 861 method of this paragraph (d). In this case, the section 162 selling expenses are definitely related to all of X's gross income. Based on the facts and circumstances of this specific case, apportionment of those expenses between DPGR and non-DPGR on the basis of X's

gross receipts is appropriate. For purposes of apportioning R&E, X elects to use the sales method as described in § 1.861-17(c). X elects to apportion interest expense under the tax book value method of § 1.861-9T(g). X has \$2,400 of gross income attributable to DPGR (DPGR of \$3,000—CGS of \$600 allocated based on X's books and records). X's QPAI for 2010 is \$1,320, as shown below:

DPGR (all from sales of products within SIC AAA)	\$3,000
CGS allocable to DPGR	(600)
Section 162 selling expenses ($\$840 \times (\$3,000 \text{ DPGR} / \$6,000 \text{ total gross receipts})$)	(420)
Interest expense (not included in CGS) ($\$300 \times (\$4,000 \text{ (X's DPGR assets)} / \$5,000 \text{ (X's total assets)})$)	(240)
Charitable contributions (not included in CGS) ($\$180 \times (\$2,400 \text{ gross income attributable to DPGR} / \$3,600 \text{ total gross income})$)	(120)
Section 174 R&E—SIC AAA	(300)
X's QPAI	1,320

(iii) *Section 199 deduction determination.* X's tentative deduction under § 1.199-1(a) is \$119 ($.09 \times$ (lesser of QPAI of \$1,320 and taxable income of \$1,380)). Because the facts of this example assume that X's W-2 wages as defined in § 1.199-2(e) are sufficient to avoid a limitation on the section 199 deduction, X's section 199 deduction for 2010 is \$119.

Example 2. Section 861 method and EAG. (i) *Facts.* The facts are the same as in *Example 1* except that X owns stock in Y, a United States corporation, equal to 75% of the total voting power of stock of Y and 80% of the total value of stock in Y. X and Y are not members of an affiliated group as defined in section 1504(a). Accordingly, the rules of § 1.861-14T do not apply to X's and Y's selling expenses, R&E, and charitable contributions. X and Y are, however, members of an affiliated group for purposes of allocating and ap-

portioning interest expense (see § 1.861-11T(d)(6)) and are also members of an EAG. For 2010, the adjusted basis of Y's assets is \$45,000, \$21,000 of which generates gross income attributable to DPGR and \$24,000 of which generates gross income attributable to non-DPGR. All of Y's activities that generate DPGR are within SIC Industry Group AAA (SIC AAA). All of Y's activities that generate non-DPGR are within SIC Industry Group BBB (SIC BBB). None of X's and Y's sales are to each other. Y is not able to specifically identify CGS allocable to DPGR and non-DPGR. In this case, because CGS is definitely related under the facts and circumstances to all of Y's gross receipts, apportionment of CGS between DPGR and non-DPGR based on gross receipts is appropriate. For 2010, Y's taxable income is \$1,910 based on the following Federal income tax items:

DPGR (all from sales of products within SIC AAA)	\$3,000
Non-DPGR (all from sales of products within SIC BBB)	3,000
CGS allocated to DPGR	(1,200)
CGS allocated to non-DPGR	(1,200)
Section 162 selling expenses	(840)
Section 174 R&E—SIC AAA	(100)
Section 174 R&E—SIC BBB	(200)
Interest expense (not included in CGS and not subject to § 1.861-10T)	(500)
Charitable contributions	(50)
Y's taxable income	1,910

Internal Revenue Service, Treasury

§ 1.199-4

(ii) *QPAI*. (A) *X's QPAI*. Determination of X's QPAI is the same as in *Example 1* except that interest is apportioned to gross income attributable to DPGR based on the combined

adjusted bases of X's and Y's assets. See § 1.861-11T(c). Accordingly, X's QPAI for 2010 is \$1,410, as shown below:

DPGR (all from sales of products within SIC AAA)	\$3,000
CGS allocated to DPGR	(600)
Section 162 selling expenses (\$840 × (\$3,000 DPGR/\$6,000 total gross receipts))	(420)
Interest expense (not included in CGS and not subject to § 1.861-10T) (\$300 × (\$25,000 (tax book value of X's and Y's DPGR assets)/\$50,000 (tax book value of X's and Y's total assets)))	(150)
Charitable contributions (not included in CGS) (\$180 × (\$2,400 gross income attributable to DPGR/\$3,600 total gross income))	(120)
Section 174 R&E-SIC AAA	(300)
X's QPAI	1,410

(B) *Y's QPAI*. Y makes the same elections under the section 861 method as does X. Y has \$1,800 of gross income attributable to

DPGR (DPGR of \$3,000—CGS of \$1,200 allocated based on Y's gross receipts). Y's QPAI for 2010 is \$1,005, as shown below:

DPGR (all from sales of products within SIC AAA)	\$3,000
CGS allocated to DPGR	(1,200)
Section 162 selling expenses (\$840 × (\$3,000 DPGR/\$6,000 total gross receipts))	(420)
Interest expense (not included in CGS and not subject to § 1.861-10T) (\$500 × (\$25,000 (tax book value of X's and Y's DPGR assets)/\$50,000 (tax book value of X's and Y's total assets)))	(250)
Charitable contributions (not included in CGS) (\$50 × (\$1,800 gross income attributable to DPGR/\$3,600 total gross income))	(25)
Section 174 R&E-SIC AAA	(100)
Y's QPAI	1,005

(iii) *Section 199 deduction determination*. The section 199 deduction of the X and Y EAG is determined by aggregating the separately determined QPAI, taxable income, and W-2 wages of X and Y. See § 1.199-7(b). Accordingly, the X and Y EAG's tentative section 199 deduction is \$217 (.09 × (lesser of combined taxable incomes of X and Y of \$3,290 (X's taxable income of \$1,380 plus Y's taxable income of \$1,910) and combined QPAI of \$2,415 (X's QPAI of \$1,410 plus Y's QPAI of \$1,005)). Because the facts of this example assume that the W-2 wages of X and Y are sufficient to avoid a limitation on the section 199 deduction, X and Y EAG's section 199 deduction for 2010 is \$217. The \$217 is allocated to X and Y in proportion to their QPAI. See § 1.199-7(c).

(e) *Simplified deduction method*—(1) *In general*. An eligible taxpayer may use the simplified deduction method to apportion deductions between DPGR and non-DPGR. The simplified deduction method does not apply to CGS. Under

the simplified deduction method, a taxpayer's deductions (except the net operating loss deduction as provided in paragraph (c)(2) of this section) are ratably apportioned between DPGR and non-DPGR based on relative gross receipts. Accordingly, the amount of deductions for the current taxable year apportioned to DPGR is equal to the same proportion of the total deductions for the current taxable year that the amount of DPGR bears to total gross receipts. Gross receipts that are allocable to land under the safe harbor provided in § 1.199-3(m)(6)(iv) are treated as non-DPGR. See § 1.199-3(m)(6)(iv)(B). Whether a trust (to the extent not described in § 1.199-5(d) or § 1.199-9(d)) or an estate may use the simplified deduction method is determined at the trust or estate level. If a

trust or estate qualifies to use the simplified deduction method, the simplified deduction method must be applied at the trust or estate level, taking into account the trust's or estate's DPGR, non-DPGR, and other items from all sources, including its distributive or allocable share of those items of any lower-tier entity, prior to any charitable or distribution deduction. Whether the owner of a pass-thru entity may use the simplified deduction method is determined at the level of the entity's owner. If the owner of a pass-thru entity qualifies and uses the simplified deduction method, then the simplified deduction method is applied at the level of the owner of the pass-thru entity taking into account the owner's DPGR, non-DPGR, and other items from all sources including its distributive or allocable share of those items of the pass-thru entity.

(2) *Eligible taxpayer.* For purposes of this paragraph (e), an eligible taxpayer is—

(i) A taxpayer that has average annual gross receipts (as defined in paragraph (g) of this section) of \$100,000,000 or less; or

(ii) A taxpayer that has total assets (as defined in paragraph (e)(3) of this section) of \$10,000,000 or less.

(3) *Total assets*—(i) *In general.* For purposes of the simplified deduction method, total assets means the total assets the taxpayer has at the end of the taxable year. In the case of a C corporation, the corporation's total assets at the end of the taxable year is the amount required to be reported on Schedule L of Form 1120, "United States Corporation Income Tax Return," in accordance with the Form 1120 instructions.

(ii) *Members of an expanded affiliated group.* To compute the total assets of an EAG, the total assets at the end of the taxable year of each corporation that is a member of the EAG at the end of the taxable year that ends with or within the taxable year of the computing member (as described in § 1.199-7(h)) are aggregated. For purposes of this paragraph, a consolidated group is treated as one member of the EAG.

(4) *Members of an expanded affiliated group*—(i) *In general.* Whether the members of an EAG may use the simplified

deduction method is determined by reference to all the members of the EAG. If the average annual gross receipts of the EAG are less than or equal to \$100,000,000 or the total assets of the EAG are less than or equal to \$10,000,000, then each member of the EAG may individually determine whether to use the simplified deduction method, regardless of the cost allocation method used by the other members.

(ii) *Exception.* Notwithstanding paragraph (e)(4)(i) of this section, all members of the same consolidated group must use the same cost allocation method.

(iii) *Examples.* The following examples illustrate the application of paragraph (e) of this section:

Example 1. Corporations X, Y, and Z are the only three members of an EAG. Neither X, Y, nor Z is a member of a consolidated group. X, Y, and Z have average annual gross receipts of \$20,000,000, \$70,000,000, and \$5,000,000, respectively. X, Y, and Z each have total assets at the end of the taxable year of \$5,000,000. Because the average annual gross receipts of the EAG are less than or equal to \$100,000,000, each of X, Y, and Z may use either the simplified deduction method or the section 861 method.

Example 2. The facts are the same as in *Example 1* except that X and Y are members of the same consolidated group. X, Y, and Z may use either the simplified deduction method or the section 861 method. However, X and Y must use the same cost allocation method.

Example 3. The facts are the same as in *Example 1* except that Z's average annual gross receipts are \$15,000,000. Because the average annual gross receipts of the EAG are greater than \$100,000,000 and the total assets of the EAG at the end of the taxable year are greater than \$10,000,000, X, Y, and Z must each use the section 861 method.

(f) *Small business simplified overall method*—(1) *In general.* A qualifying small taxpayer may use the small business simplified overall method to apportion CGS and deductions between DPGR and non-DPGR. Under the small business simplified overall method, a taxpayer's total costs for the current taxable year (as defined in paragraph (f)(3) of this section) are apportioned between DPGR and non-DPGR based on relative gross receipts. Accordingly, the amount of total costs for the current taxable year apportioned to DPGR

is equal to the same proportion of total costs for the current taxable year that the amount of DPGR bears to total gross receipts. Total gross receipts for this purpose do not include gross receipts that are allocated to land under the land safe harbor provided in § 1.199-3(m)(6)(iv). See § 1.199-3(m)(6)(iv)(B).

(2) *Qualifying small taxpayer.* Except as provided in paragraph (f)(5), for purposes of this paragraph (f), a *qualifying small taxpayer* is—

(i) A taxpayer that has average annual gross receipts (as defined in paragraph (g) of this section) of \$5,000,000 or less;

(ii) A taxpayer that is engaged in the trade or business of farming that is not required to use the accrual method of accounting under section 447; or

(iii) A taxpayer that is eligible to use the cash method as provided in Rev. Proc. 2002-28 (2002-1 C.B. 815) (that is, certain taxpayers with average annual gross receipts of \$10,000,000 or less that are not prohibited from using the cash method under section 448, including partnerships, S corporations, C corporations, or individuals). See § 601.601(d)(2) of this chapter.

(3) *Total costs for the current taxable year*—(i) *In general.* For purposes of the small business simplified overall method, total costs for the current taxable year means the total CGS and deductions (excluding the net operating loss deduction as provided in paragraph (c)(2) of this section) for the current taxable year. Total costs for the current taxable year are determined under the methods of accounting that the taxpayer uses to compute taxable income.

(ii) *Land safe harbor.* A taxpayer that uses the land safe harbor provided in § 1.199-3(m)(6)(iv) must reduce total costs for the current taxable year by the costs of land and any other costs capitalized to the land (except costs for activities listed in § 1.199-3(m)(2)(iii)) prior to applying the small business simplified overall method. See § 1.199-3(m)(6)(iv)(B). For example, if a taxpayer has \$1,000 of total costs for the current taxable year and \$600 of such costs is attributable to land under the land safe harbor, then only \$400 of such costs is apportioned between DPGR

and non-DPGR under the small business simplified overall method.

(4) *Members of an expanded affiliated group*—(i) *In general.* Whether the members of an EAG may use the small business simplified overall method is determined by reference to all the members of the EAG. If the average annual gross receipts of the EAG are less than or equal to \$5,000,000, the EAG (viewed as a single corporation) is engaged in the trade or business of farming that is not required to use the accrual method of accounting under section 447, or the EAG (viewed as a single corporation) is eligible to use the cash method as provided in Rev. Proc. 2002-28, then each member of the EAG may individually determine whether to use the small business simplified overall method, regardless of the cost allocation method used by the other members.

(ii) *Exception.* Notwithstanding paragraph (f)(4)(i) of this section, all members of the same consolidated group must use the same cost allocation method.

(iii) *Examples.* The following examples illustrate the application of paragraph (f) of this section:

Example 1. Corporations L, M, and N are the only three members of an EAG. Neither L, M, nor N is a member of a consolidated group. L, M, and N have average annual gross receipts for the current taxable year of \$1,000,000, \$1,500,000, and \$2,000,000, respectively. Because the average annual gross receipts of the EAG are less than or equal to \$5,000,000, each of L, M, and N may use the small business simplified overall method, the simplified deduction method, or the section 861 method.

Example 2. The facts are the same as in *Example 1* except that M and N are members of the same consolidated group. L, M, and N may use the small business simplified overall method, the simplified deduction method, or the section 861 method. However, M and N must use the same cost allocation method.

Example 3. The facts are the same as in *Example 1* except that N has average annual gross receipts of \$4,000,000. Unless the EAG, viewed as a single corporation, is engaged in the trade or business of farming that is not required to use the accrual method of accounting under section 447, or the EAG, viewed as a single corporation, is eligible to use the cash method as provided in Rev. Proc. 2002-28, because the average annual gross receipts of the EAG are greater than \$5,000,000, L, M, and N are all ineligible to

use the small business simplified overall method.

(5) *Trusts and estates.* Trusts and estates under §§ 1.199-5(e) and 1.199-9(e) may not use the small business simplified overall method.

(g) *Average annual gross receipts*—(1) *In general.* For purposes of the simplified deduction method and the small business simplified overall method, average annual gross receipts means the average annual gross receipts of the taxpayer (including gross receipts attributable to the sale, exchange, or other disposition of land under the land safe harbor provided in § 1.199-3(m)(6)(iv)) for the 3 taxable years (or, if fewer, the taxable years during which the taxpayer was in existence) preceding the current taxable year, even if one or more of such taxable years began before the effective date of section 199. In the case of any taxable year of less than 12 months (a short taxable year), the gross receipts shall be annualized by multiplying the gross receipts for the short period by 12 and dividing the result by the number of months in the short period.

(2) *Members of an expanded affiliated group.* To compute the average annual gross receipts of an EAG, the gross receipts, for the entire taxable year, of each corporation that is a member of the EAG at the end of its taxable year that ends with or within the taxable year of the computing member are aggregated. For purposes of this paragraph, a consolidated group is treated as one member of the EAG.

[T.D. 9263, 71 FR 31283, June 1, 2006; 72 FR 5, Jan. 3, 2007, as amended by T.D. 9381, 73 FR 8806, Feb. 15, 2008]

§ 1.199-5 Application of section 199 to pass-thru entities for taxable years beginning after May 17, 2006, the enactment date of the Tax Increase Prevention and Reconciliation Act of 2005.

(a) *In general.* The provisions of this section apply solely for purposes of section 199 of the Internal Revenue Code (Code).

(b) *Partnerships*—(1) *In general*—(i) *Determination at partner level.* The deduction with respect to the qualified production activities of the partnership allowable under § 1.199-1(a) (section 199

deduction) is determined at the partner level. As a result, each partner must compute its deduction separately. The section 199 deduction has no effect on the adjusted basis of the partner's interest in the partnership. Except as provided by publication pursuant to paragraph (b)(1)(ii) of this section, for purposes of this section, each partner is allocated, in accordance with sections 702 and 704, its share of partnership items (including items of income, gain, loss, and deduction), cost of goods sold (CGS) allocated to such items of income, and gross receipts that are included in such items of income, even if the partner's share of CGS and other deductions and losses exceeds domestic production gross receipts (DPGR) (as defined in § 1.199-3(a)). A partnership may specially allocate items of income, gain, loss, or deduction to its partners, subject to the rules of section 704(b) and the supporting regulations. Guaranteed payments under section 707(c) are not considered allocations of partnership income for purposes of this section. Guaranteed payments under section 707(c) are deductions by the partnership that must be taken into account under the rules of § 1.199-4. See § 1.199-3(p) and paragraph (b)(6) *Example 5* of this section. Except as provided in paragraph (b)(1)(ii) of this section, to determine its section 199 deduction for the taxable year, a partner aggregates its distributive share of such items, to the extent they are not otherwise disallowed by the Code, with those items it incurs outside the partnership (whether directly or indirectly) for purposes of allocating and apportioning deductions to DPGR and computing its qualified production activities income (QPAI) (as defined in § 1.199-1(c)).

(ii) *Determination at entity level.* The Secretary may, by publication in the Internal Revenue Bulletin (see § 601.601(d)(2)(ii)(b) of this chapter), permit a partnership to calculate a partner's share of QPAI and W-2 wages as defined in § 1.199-2(e)(2) (W-2 wages) at the entity level, instead of allocating to the partner, in accordance with sections 702 and 704, the partner's share of partnership items (including items of income, gain, loss, and deduction) and amounts described in § 1.199-2(e)(1)

(paragraph (e)(1) wages). If a partnership does calculate QPAI at the entity level—

(A) Each partner is allocated its share of QPAI (subject to the limitations of paragraph (b)(2) of this section) and W-2 wages from the partnership, which are combined with the partner's QPAI and W-2 wages from other sources, if any;

(B) For purposes of computing the partner's QPAI under §§ 1.199-1 through 1.199-8, a partner does not take into account the items from the partnership (for example, a partner does not take into account items from the partnership in determining whether a threshold or *de minimis* rule applies or in allocating and apportioning deductions) in calculating its QPAI from other sources;

(C) A partner generally does not recompute its share of QPAI from the partnership using another method; however, the partner might have to adjust its share of QPAI from the partnership to take into account certain disallowed losses or deductions, or the allowance of suspended losses or deductions; and

(D) A partner's distributive share of QPAI from a partnership may be less than zero.

(2) *Disallowed losses or deductions.* Except as provided by publication in the Internal Revenue Bulletin (see § 601.601(d)(2)(ii)(b) of this chapter), losses or deductions of a partnership are taken into account in computing the partner's QPAI for a taxable year only if, and to the extent that, the partner's distributive share of those losses or deductions from all of the partnership's activities is not disallowed by section 465, 469, or 704(d), or any other provision of the Code. If only a portion of the partner's distributive share of the losses or deductions from a partnership is allowed for a taxable year, a proportionate share of those allowed losses or deductions that are allocated to the partnership's qualified production activities, determined in a manner consistent with sections 465, 469, and 704(d), and any other applicable provision of the Code, is taken into account in computing QPAI for that taxable year. To the extent that any of the disallowed losses or deductions are

allowed in a later taxable year under section 465, 469, or 704(d), or any other provision of the Code, the partner takes into account a proportionate share of those allowed losses or deductions that are allocated to the partnership's qualified production activities in computing the partner's QPAI for that later taxable year. Losses or deductions of the partnership that are disallowed for taxable years beginning on or before December 31, 2004, however, are not taken into account in a later taxable year for purposes of computing the partner's QPAI for that later taxable year, whether or not the losses or deductions are allowed for other purposes.

(3) *Partner's share of paragraph (e)(1) wages.* Under section 199(d)(1)(A)(iii), a partner's share of paragraph (e)(1) wages of a partnership for purposes of determining the partner's wage limitation under section 199(b)(1) (W-2 wage limitation) equals the partner's allocable share of those wages. Except as provided by publication in the Internal Revenue Bulletin (see § 601.601(d)(2)(ii)(b) of this chapter), the partnership must allocate the amount of paragraph (e)(1) wages among the partners in the same manner it allocates wage expense among those partners. The partner must add its share of the paragraph (e)(1) wages from the partnership to the partner's paragraph (e)(1) wages from other sources, if any. The partner (other than a partner that itself is a partnership or S corporation) then must calculate its W-2 wages by determining the amount of the partner's total paragraph (e)(1) wages properly allocable to DPGR. If the partner is a partnership or S corporation, the partner must allocate its paragraph (e)(1) wages (including the paragraph (e)(1) wages from a lower-tier partnership) among its partners or shareholders in the same manner it allocates wage expense among those partners or shareholders. See § 1.199-2(e)(2) for the computation of W-2 wages and for the proper allocation of any such wages to DPGR.

(4) *Transition rule for definition of W-2 wages and for W-2 wage limitation.* If a partnership and any partner in that partnership have different taxable years, only one of which begins after

§ 1.199-5

May 17, 2006, the definition of W-2 wages of the partnership and the section 199(d)(1)(A)(iii) rule for determining a partner's share of wages from that partnership is determined under the law applicable to partnerships based on the beginning date of the partnership's taxable year. Thus, for example, for the taxable year of a partnership beginning on or before May 17, 2006, a partner's share of W-2 wages from the partnership is determined under section 199(d)(1)(A)(iii) as in effect for taxable years beginning on or before May 17, 2006, even if the taxable year of that partner in which those wages are taken into account begins after May 17, 2006.

(5) *Partnerships electing out of subchapter K.* For purposes of §§ 1.199-1 through 1.199-8, the rules of this paragraph (b) apply to all partnerships, including those partnerships electing under section 761(a) to be excluded, in whole or in part, from the application of subchapter K of chapter 1 of the Code.

(6) *Examples.* The following examples illustrate the application of this paragraph (b). Assume that each partner has sufficient adjusted gross income or taxable income so that the section 199 deduction is not limited under section 199(a)(1)(B). Assume also that the partnership and each of its partners (whether individual or corporate) are calendar year taxpayers. The examples read as follows:

Example 1. Section 861 method with interest expense. (i) *Partnership Federal income tax items.* X and Y, unrelated United States corporations, are each 50% partners in PRS, a partnership that engages in production activities that generate both DPGR and non-DPGR. X and Y share all items of income, gain, loss, deduction, and credit equally. Both X and Y are engaged in a trade or business. PRS is not able to identify from its books and records CGS allocable to DPGR and non-DPGR. In this case, because CGS is definitely related under the facts and circumstances to all of PRS's gross receipts, apportionment of CGS between DPGR and non-DPGR based on gross receipts is appropriate. For 2010, the adjusted basis of PRS's business assets is \$5,000, \$4,000 of which generate gross income attributable to DPGR and \$1,000 of which generate gross income attributable to non-DPGR. For 2010, PRS has the following Federal income tax items:

DPGR	\$3,000
------------	---------

26 CFR Ch. I (4-1-17 Edition)

Non-DPGR	3,000
CGS	3,240
Section 162 selling expenses	1,200
Interest expense (not included in CGS)	300

(ii) *Allocation of PRS's Federal income tax items.* X and Y each receive the following distributive share of PRS's Federal income tax items, as determined under the principles of § 1.704-1(b)(1)(vii):

Gross income attributable to DPGR (\$1,500 (DPGR) - \$810 (allocable CGS))	\$690
Gross income attributable to non-DPGR (\$1,500 (non-DPGR) - \$810 (allocable CGS))	690
Section 162 selling expenses	600
Interest expense (not included in CGS)	150

(iii) *Determination of QPAI.* (A) *X's QPAI.* Because the section 199 deduction is determined at the partner level, X determines its QPAI by aggregating its distributive share of PRS's Federal income tax items with all other such items from all other, non-PRS-related activities. For 2010, X does not have any other such items. For 2010, the adjusted basis of X's non-PRS assets, all of which are investment assets, is \$10,000. X's only gross receipts for 2010 are those attributable to the allocation of gross income from PRS. X allocates and apportions its deductible items to gross income attributable to DPGR under the section 861 method of § 1.199-4(d). In this case, the section 162 selling expenses are not included in CGS and are definitely related to all of PRS's gross income. Based on the facts and circumstances of this specific case, apportionment of those expenses between DPGR and non-DPGR on the basis of PRS's gross receipts is appropriate. X elects to apportion its distributive share of interest expense under the tax book value method of § 1.861-9T(g). X's QPAI for 2010 is \$366, as shown in the following table:

DPGR	\$1,500
CGS allocable to DPGR	(810)
Section 162 selling expenses (\$600 × (\$1,500 DPGR/\$3,000 total gross receipts))	(300)
Interest expense (not included in CGS) (\$150 × (\$2,000 (X's share of PRS's DPGR assets)/\$12,500 (X's non-PRS assets (\$10,000) + X's share of PRS assets (\$2,500))))	(24)
X's QPAI	366

(B) *Y's QPAI.* (i) For 2010, in addition to the activities of PRS, Y engages in production activities that generate both DPGR and non-DPGR. Y is able to identify from its books and records CGS allocable to DPGR and to non-DPGR. For 2010, the adjusted basis of Y's non-PRS assets attributable to its production activities that generate DPGR is \$8,000 and to other production activities that generate non-DPGR is \$2,000. Y has no

Internal Revenue Service, Treasury

§ 1.199-5

other assets. Y has the following Federal income tax items relating to its non-PRS activities:

Gross income attributable to DPGR (\$1,500 (DPGR) – \$900 (allocable CGS))	\$600
Gross income attributable to non-DPGR (\$3,000 (other gross receipts) – \$1,620 (allocable CGS)) ..	1,380
Section 162 selling expenses	540
Interest expense (not included in CGS)	90

(2) Y determines its QPAI in the same general manner as X. However, because Y has other trade or business activities outside of PRS, Y must aggregate its distributive share of PRS's Federal income tax items with its own such items. Y allocates and apportions its deductible items to gross income attributable to DPGR under the section 861 method of § 1.199-4(d). In this case, Y's distributive share of PRS's section 162 selling expenses, as well as those selling expenses from Y's non-PRS activities, are definitely related to all of its gross income. Based on the facts and circumstances of this specific case, apportionment of those expenses between DPGR and non-DPGR on the basis of Y's gross receipts (including Y's share of PRS's gross receipts) is appropriate. Y elects to apportion its distributive share of interest expense under the tax book value method of § 1.861-9T(g). Y has \$1,290 of gross income attributable to DPGR (\$3,000 DPGR (\$1,500 from PRS and \$1,500 from non-PRS activities) – \$1,710 CGS (\$810 from PRS and \$900 from non-PRS activities)). Y's QPAI for 2010 is \$642, as shown in the following table:

DPGR (\$1,500 from PRS and \$1,500 from non-PRS activities)	\$3,000
CGS allocable to DPGR (\$810 from PRS and \$900 from non-PRS activities)	(1,710)
Section 162 selling expenses (\$1,140 (\$600 from PRS and \$540 from non-PRS activities) × \$3,000 (\$1,500 PRS DPGR + \$1,500 non-PRS DPGR)/\$7,500 (\$3,000 PRS total gross receipts + \$4,500 non-PRS total gross receipts))	(456)
Interest expense (not included in CGS) (\$240 (\$150 from PRS and \$90 from non-PRS activities) × \$10,000 (Y's non-PRS DPGR assets (\$8,000) + Y's share of PRS DPGR assets (\$2,000))/ \$12,500 (Y's non-PRS assets (\$10,000) + Y's share of PRS assets (\$2,500)))	(192)
Y's QPAI	642

(iv) *Determination of section 199 deduction.* X's tentative section 199 deduction is \$33 (.09 × \$366, that is, QPAI determined at the partner level) subject to the W-2 wage limitation (50% of W-2 wages). Y's tentative section 199

deduction is \$58 (.09 × \$642) subject to the W-2 wage limitation.

Example 2. Section 861 method with R&E expense (i) Partnership Federal income tax items. X and Y, unrelated United States corporations each of which is engaged in a trade or business, are partners in PRS, a partnership that engages in production activities that generate both DPGR and non-DPGR. Neither X nor Y is a member of an affiliated group. X and Y share all items of income, gain, loss, deduction, and credit equally. All of PRS's domestic production activities that generate DPGR are within Standard Industrial Classification (SIC) Industry Group AAA (SIC AAA). All of PRS's production activities that generate non-DPGR are within SIC Industry Group BBB (SIC BBB). PRS is not able to identify from its books and records CGS allocable to DPGR and to non-DPGR. In this case, because CGS is definitely related under the facts and circumstances to all of PRS's gross receipts, apportionment of CGS between DPGR and non-DPGR based on gross receipts is appropriate. PRS incurs \$900 of research and experimentation expenses (R&E) that are deductible under section 174, \$300 of which are performed with respect to SIC AAA and \$600 of which are performed with respect to SIC BBB. None of the R&E is legally mandated R&E as described in § 1.861-17(a)(4) and none is included in CGS. For 2010, PRS has the following Federal income tax items:

DPGR (all from sales of products within SIC AAA)	\$3,000
Non-DPGR (all from sales of products within SIC BBB)	3,000
CGS	2,400
Section 162 selling expenses	840
Section 174 R&E–SIC AAA	300
Section 174 R&E–SIC BBB	600

(ii) *Allocation of PRS's Federal income tax items.* X and Y each receive the following distributive share of PRS's Federal income tax items, as determined under the principles of § 1.704-1(b)(1)(vii):

Gross income attributable to DPGR (\$1,500 (DPGR) – \$600 (CGS))	\$900
Gross income attributable to non-DPGR (\$1,500 (other gross receipts) – \$600 (CGS))	900
Section 162 selling expenses	420
Section 174 R&E–SIC AAA	150
Section 174 R&E–SIC BBB	300

(iii) *Determination of QPAI.* (A) *X's QPAI.* Because the section 199 deduction is determined at the partner level, X determines its QPAI by aggregating its distributive share of PRS's Federal income tax items with all other such items from all other, non-PRS-related activities. For 2010, X does not have any other such tax items. X's only gross receipts for 2010 are those attributable to the

allocation of gross income from PRS. As stated, all of PRS's domestic production activities that generate DPGR are within SIC AAA. X allocates and apportions its deductible items to gross income attributable to DPGR under the section 861 method of § 1.199-4(d). In this case, the section 162 selling expenses are definitely related to all of PRS's gross income. Based on the facts and circumstances of this specific case, apportionment of those expenses between DPGR and non-DPGR on the basis of PRS's gross receipts is appropriate. For purposes of apportioning R&E, X elects to use the sales method as described in § 1.861-17(c). Because X has no direct sales of products, and because all of PRS's SIC AAA sales attributable to X's share of PRS's gross income generate DPGR, all of X's share of PRS's section 174 R&E attributable to SIC AAA is taken into account for purposes of determining X's QPAI. Thus, X's total QPAI for 2010 is \$540, as shown in the following table:

DPGR (all from sales of products within SIC AAA)	\$1,500
CGS	(600)
Section 162 selling expenses (\$420) × (\$1,500 DPGR/\$3,000 total gross receipts)	(210)
Section 174 R&E-SIC AAA	(150)
X's QPAI	540

(B) *Y's QPAI.* (1) For 2010, in addition to the activities of PRS, Y engages in domestic production activities that generate both DPGR and non-DPGR. With respect to those non-PRS activities, Y is not able to identify from its books and records CGS allocable to DPGR and to non-DPGR. In this case, because non-PRS CGS is definitely related under the facts and circumstances to all of Y's non-PRS gross receipts, apportionment of non-PRS CGS between DPGR and non-DPGR based on Y's non-PRS gross receipts is appropriate. For 2010, Y has the following non-PRS Federal income tax items:

DPGR (from sales of products within SIC AAA)	\$1,500
DPGR (from sales of products within SIC BBB)	1,500
Non-DPGR (from sales of products within SIC BBB)	3,000
CGS (allocated to DPGR within SIC AAA)	750
CGS (allocated to DPGR within SIC BBB)	750
CGS (allocated to non-DPGR within SIC BBB)	1,500
Section 162 selling expenses	540
Section 174 R&E-SIC AAA	300
Section 174 R&E-SIC BBB	450

(2) Because Y has DPGR as a result of activities outside PRS, Y must aggregate its distributive share of PRS's Federal income tax items with such items from all its other,

non-PRS-related activities. Y allocates and apportions its deductible items to gross income attributable to DPGR under the section 861 method of § 1.199-4(d). In this case, the section 162 selling expenses are definitely related to all of Y's gross income. Based on the facts and circumstances of the specific case, apportionment of such expenses between DPGR and non-DPGR on the basis of Y's gross receipts (including Y's share of PRS's gross receipts) is appropriate. For purposes of apportioning R&E, Y elects to use the sales method as described in § 1.861-17(c).

(3) With respect to sales that generate DPGR, Y has gross income of \$2,400 (\$4,500 DPGR (\$1,500 from PRS and \$3,000 from non-PRS activities) – \$2,100 CGS (\$600 from sales of products by PRS and \$1,500 from non-PRS activities)). Because all of the sales in SIC AAA generate DPGR, all of Y's share of PRS's section 174 R&E attributable to SIC AAA and the section 174 R&E attributable to SIC AAA that Y incurs in its non-PRS activities are taken into account for purposes of determining Y's QPAI. Because only a portion of the sales within SIC BBB generate DPGR, only a portion of the section 174 R&E attributable to SIC BBB is taken into account in determining Y's QPAI. Thus, Y's QPAI for 2010 is \$1,282, as shown in the following table:

DPGR (\$4,500 DPGR (\$1,500 from PRS and \$3,000 from non-PRS activities))	\$4,500
CGS (\$600 from sales of products by PRS and \$1,500 from non-PRS activities)	(2,100)
Section 162 selling expenses (\$960 (\$420 from PRS + \$540 from non-PRS activities) × (\$4,500 DPGR/\$9,000 total gross receipts))	(480)
Section 174 R&E-SIC AAA (\$150 from PRS and \$300 from non-PRS activities)	(450)
Section 174 R&E-SIC BBB (\$750 (\$300 from PRS + \$450 from non-PRS activities) × (\$1,500 DPGR/\$6,000 total gross receipts allocated to SIC BBB (\$1,500 from PRS + \$4,500 from non-PRS activities))	(188)
Y's QPAI	1,282

(iv) *Determination of section 199 deduction.* X's tentative section 199 deduction is \$49 (.09 × \$540, that is, QPAI determined at the partner level) subject to the W-2 wage limitation (50% of W-2 wages). Y's tentative section 199 deduction is \$115 (.09 × \$1,282) subject to the W-2 wage limitation.

Example 3. Partnership with special allocations. (i) *In general.* X and Y are unrelated corporate partners in PRS and each is engaged in a trade or business. PRS is a partnership that engages in a domestic production activity and other activities. In general,

X and Y share all partnership items of income, gain, loss, deduction, and credit equally, except that 80% of the wage expense of PRS and 20% of PRS's other expenses are specially allocated to X. Under all the facts and circumstances, these special allocations have substantial economic effect under section 704(b). In the 2010 taxable year, PRS's only wage expense is \$2,000 for marketing, which is not included in CGS. PRS has \$8,000 of gross receipts (\$6,000 of which is DPGR), \$4,000 of CGS (\$3,500 of which is allocable to DPGR), and \$3,000 of deductions (comprised of \$2,000 of wage expense for marketing and \$1,000 of other expenses). X qualifies for and uses the simplified deduction method under § 1.199-4(e). Y does not qualify to use that method and, therefore, must use the section 861 method under § 1.199-4(d). In the 2010 taxable year, X has gross receipts attributable to non-partnership trade or business activities of \$1,000 and wage expense of \$200. None of X's non-PRS gross receipts is DPGR. For purposes of this *Example 3*, with regard to both X and PRS, paragraph (e)(1) wages equal wage expense for the 2010 taxable year.

(ii) *Allocation and apportionment of costs.* Under the partnership agreement, X's distributive share of the Federal income tax items of PRS is \$1,250 of gross income attributable to DPGR (\$3,000 DPGR - \$1,750 allocable CGS), \$750 of gross income attributable to non-DPGR (\$1,000 non-DPGR - \$250 allocable CGS), and \$1,800 of deductions (comprised of X's special allocations of \$1,600 of wage expense ($\$2,000 \times 80\%$) for marketing and \$200 of other expenses ($\$1,000 \times 20\%$)). Under the simplified deduction method, X apportions \$1,200 of other deductions to DPGR (\$2,000 (\$1,800 from the partnership and \$200 from non-partnership activities) \times (\$3,000 DPGR/\$5,000 total gross receipts)). Accordingly, X's QPAI is \$50 (\$3,000 DPGR - \$1,750 CGS - \$1,200 of deductions). X has \$1,800 of paragraph (e)(1) wages (\$1,600 (X's 80% share) from PRS + \$200 (X's own non-PRS paragraph (e)(1) wages)). To calculate its W-2 wages, X must determine how much of this \$1,800 is properly allocable under § 1.199-2(e)(2) to X's total DPGR (including X's share of DPGR from PRS). Thus, X's tentative section 199 deduction for the 2010 taxable year is \$5 ($\$.09 \times \50), subject to the W-2 wage limitation (50% of X's W-2 wages).

Example 4. Partnership with no paragraph (e)(1) wages. (i) *Facts.* A and B, both individuals, are partners in PRS. PRS is a partnership that engages in manufacturing activities that generate both DPGR and non-DPGR. A and B share all items of income, gain, loss, deduction, and credit equally. For the 2010 taxable year, PRS has total gross receipts of \$2,000 (\$1,000 of which is DPGR), CGS of \$400 and deductions of \$800. PRS has no paragraph (e)(1) wages. Each partner's distributive share of PRS's Federal income tax items is \$500 DPGR, \$500 non-DPGR,

CGS, and \$400 of deductions. A has trade or business activities outside of PRS (non-PRS activities). With respect to those activities, A has total gross receipts of \$1,000 (\$500 of which is DPGR), CGS of \$400 (including \$50 of paragraph (e)(1) wages), and deductions of \$200 for the 2010 taxable year. B has no trade or business activities outside of PRS. A and B each use the small business simplified overall method under § 1.199-4(f).

(ii) *A's QPAI.* A's total CGS and deductions apportioned to DPGR equal \$600 ($(\$1,200 (\$200 \text{ PRS CGS} + \$400 \text{ non-PRS CGS} + \$400 \text{ PRS deductions} + \$200 \text{ non-PRS trade or business deductions}) \times (\$1,000 \text{ total DPGR} (\$500 \text{ from PRS} + \$500 \text{ from non-PRS activities}) / \$2,000 \text{ total gross receipts} (\$1,000 \text{ from PRS} + \$1,000 \text{ from non-PRS activities}))$). Accordingly, A's QPAI is \$400 ($\$1,000 \text{ DPGR} (\$500 \text{ from PRS} + \$500 \text{ from non-PRS activities}) - \$600 \text{ CGS and deductions}$).

(iii) *A's W-2 wages and section 199 deduction.* A has \$50 of paragraph (e)(1) wages (\$0 from PRS + \$50 from A's non-PRS activities). To calculate A's W-2 wages, A determines, under a reasonable method satisfactory to the Secretary, that \$40 of this \$50 is properly allocable under § 1.199-2(e)(2) to A's DPGR from PRS and non-PRS activities. A's tentative section 199 deduction is \$36 ($\$.09 \times \400), subject to the W-2 wage limitation of \$20 (50% of W-2 wages of \$40). Thus, A's section 199 deduction is \$20.

(iv) *B's QPAI and section 199 deduction.* B's CGS and deductions apportioned to DPGR equal \$300 ($(\$200 \text{ PRS CGS} + \$400 \text{ PRS deductions}) \times (\$500 \text{ DPGR from PRS} / \$1,000 \text{ total gross receipts from PRS})$). Accordingly, B's QPAI is \$200 ($\$500 \text{ DPGR} - \$300 \text{ CGS and deductions}$). B's tentative section 199 deduction is \$18 ($\$.09 \times \200), subject to the W-2 wage limitation. In this case, however, the limitation is \$0, because B has no paragraph (e)(1) wages. Thus, B's section 199 deduction is \$0.

Example 5. Guaranteed payment. (i) *Facts.* The facts are the same as in *Example 4*, except that in 2010 PRS also makes a guaranteed payment of \$200 to A for services rendered by A (see section 707(c)), and PRS incurs \$200 of wage expense for employees' salary, which is included within the \$400 of CGS (in this case the wage expense of \$200 equals PRS's paragraph (e)(1) wages). The guaranteed payment is taxable to A as ordinary income and is properly deducted by PRS under section 162. Pursuant to § 1.199-3(p), A may not treat any part of this payment as DPGR. Accordingly, PRS has total gross receipts of \$2,000 (\$1,000 of which is DPGR), CGS of \$400 (including \$200 of wage expense) and deductions of \$1,000 (including the \$200 guaranteed payment) for the 2010 taxable year. Each partner's distributive share of the items of the partnership is \$500 DPGR, \$500 non-DPGR, \$200 CGS (including \$100 of wage expense), and \$500 of deductions.

(ii) *A's QPAI and W-2 wages.* A's total CGS and deductions apportioned to DPGR equal \$591 (\$1,300 (\$200 PRS CGS + \$400 non-PRS CGS + \$500 PRS deductions + \$200 non-PRS trade or business deductions) × (\$1,000 total DPGR (\$500 from PRS + \$500 from non-PRS activities)/\$2,200 total gross receipts (\$1,000 from PRS + \$200 guaranteed payment + \$1,000 from non-PRS activities))). Accordingly, A's QPAI is \$409 (\$1,000 DPGR - \$591 CGS and other deductions). A's total paragraph (e)(1) wages are \$150 (\$100 from PRS + \$50 from non-PRS activities). To calculate its W-2 wages, A must determine how much of this \$150 is properly allocable under § 1.199-2(e)(2) to A's total DPGR from PRS and non-PRS activities. A's tentative section 199 deduction is \$37 (.09 × \$409), subject to the W-2 wage limitation (50% of W-2 wages).

(iii) *B's QPAI and W-2 wages.* B's QPAI is \$150 (\$500 DPGR - \$350 CGS and other deductions). B has \$100 of paragraph (e)(1) wages (all from PRS). To calculate its W-2 wages, B must determine how much of this \$100 is properly allocable under § 1.199-2(e)(2) to B's total DPGR. B's tentative section 199 deduction is \$14 (.09 × \$150), subject to the W-2 wage limitation (50% of B's W-2 wages).

(c) *S corporations*—(1) *In general*—(i) *Determination at shareholder level.* The section 199 deduction with respect to the qualified production activities of an S corporation is determined at the shareholder level. As a result, each shareholder must compute its deduction separately. The section 199 deduction has no effect on the adjusted basis of a shareholder's stock in an S corporation. Except as provided by publication pursuant to paragraph (c)(1)(ii) of this section, for purposes of this section, each shareholder is allocated, in accordance with section 1366, its pro rata share of S corporation items (including items of income, gain, loss, and deduction), CGS allocated to such items of income, and gross receipts included in such items of income, even if the shareholder's share of CGS and other deductions and losses exceeds DPGR. Except as provided by publication under paragraph (c)(1)(ii) of this section, to determine its section 199 deduction for the taxable year, the shareholder aggregates its pro rata share of such items, to the extent they are not otherwise disallowed by the Code, with those items it incurs outside the S corporation (whether directly or indirectly) for purposes of allocating and apportioning deductions to DPGR and computing its QPAI.

(ii) *Determination at entity level.* The Secretary may, by publication in the Internal Revenue Bulletin (see § 601.601(d)(2)(ii)(b) of this chapter), permit an S corporation to calculate a shareholder's share of QPAI and W-2 wages at the entity level, instead of allocating to the shareholder, in accordance with section 1366, the shareholder's pro rata share of S corporation items (including items of income, gain, loss, and deduction) and paragraph (e)(1) wages. If an S corporation does calculate QPAI at the entity level—

(A) Each shareholder is allocated its share of QPAI (subject to the limitations of paragraph (c)(2) of this section) and W-2 wages from the S corporation, which are combined with the shareholder's QPAI and W-2 wages from other sources, if any;

(B) For purposes of computing the shareholder's QPAI under §§ 1.199-1 through 1.199-8, a shareholder does not take into account the items from the S corporation (for example, a shareholder does not take into account items from the S corporation in determining whether a threshold or *de minimis* rule applies or in allocating and apportioning deductions) in calculating its QPAI from other sources;

(C) A shareholder generally does not recompute its share of QPAI from the S corporation using another method; however, the shareholder might have to adjust its share of QPAI from the S corporation to take into account certain disallowed losses or deductions, or the allowance of suspended losses or deductions; and

(D) A shareholder's share of QPAI from an S corporation may be less than zero.

(2) *Disallowed losses or deductions.* Except as provided by publication in the Internal Revenue Bulletin (see § 601.601(d)(2)(ii)(b) of this chapter), losses or deductions of the S corporation are taken into account in computing the shareholder's QPAI for a taxable year only if, and to the extent that, the shareholder's pro rata share of the losses or deductions from all of the S corporation's activities is not disallowed by section 465, 469, or 1366(d), or any other provision of the

Code. If only a portion of the shareholder's share of the losses or deductions from an S corporation is allowed for a taxable year, a proportionate share of those allowed losses or deductions that are allocated to the S corporation's qualified production activities, determined in a manner consistent with sections 465, 469, and 1366(d), and any other applicable provision of the Code, is taken into account in computing QPAI for that taxable year. To the extent that any of the disallowed losses or deductions are allowed in a later taxable year under section 465, 469, or 1366(d), or any other provision of the Code, the shareholder takes into account a proportionate share of those allowed losses or deductions that are allocated to the S corporation's qualified production activities in computing the shareholder's QPAI for that later taxable year. Losses or deductions of the S corporation that are disallowed for taxable years beginning on or before December 31, 2004, however, are not taken into account in a later taxable year for purposes of computing the shareholder's QPAI for that later taxable year, whether or not the losses or deductions are allowed for other purposes.

(3) *Shareholder's share of paragraph (e)(1) wages.* Under section 199(d)(1)(A)(iii), an S corporation shareholder's share of the paragraph (e)(1) wages of the S corporation for purposes of determining the shareholder's W-2 wage limitation equals the shareholder's allocable share of those wages. Except as provided by publication in the Internal Revenue Bulletin (see § 601.601(d)(2)(ii)(b) of this chapter), the S corporation must allocate the paragraph (e)(1) wages among the shareholders in the same manner it allocates wage expense among those shareholders. The shareholder then must add its share of the paragraph (e)(1) wages from the S corporation to the shareholder's paragraph (e)(1) wages from other sources, if any, and then must determine the portion of those total paragraph (e)(1) wages allocable to DPGR to compute the shareholder's W-2 wages. See § 1.199-2(e)(2) for the computation of W-2 wages and for the proper allocation of such wages to DPGR.

(4) *Transition rule for definition of W-2 wages and for W-2 wage limitation.* If an S corporation and any of its shareholders have different taxable years, only one of which begins after May 17, 2006, the definition of W-2 wages of the S corporation and the section 199(d)(1)(A)(iii) rule for determining a shareholder's share of wages from that S corporation is determined under the law applicable to S corporations based on the beginning date of the S corporation's taxable year. Thus, for example, for the short taxable year of an S corporation beginning after May 17, 2006, and ending in 2006, a shareholder's share of W-2 wages from the S corporation is determined under section 199(d)(1)(A)(iii) for taxable years beginning after May 17, 2006, even if that shareholder's taxable year began on or before May 17, 2006.

(d) *Grantor trusts.* To the extent that the grantor or another person is treated as owning all or part (the owned portion) of a trust under sections 671 through 679, such person (owner) computes its QPAI with respect to the owned portion of the trust as if that QPAI had been generated by activities performed directly by the owner. Similarly, for purposes of the W-2 wage limitation, the owner of the trust takes into account the owner's share of the paragraph (e)(1) wages of the trust that are attributable to the owned portion of the trust. The provisions of paragraph (e) of this section do not apply to the owned portion of a trust.

(e) *Non-grantor trusts and estates—(1) Allocation of costs.* The trust or estate calculates each beneficiary's share (as well as the trust's or estate's own share, if any) of QPAI and W-2 wages from the trust or estate at the trust or estate level. The beneficiary of a trust or estate may not recompute its share of QPAI or W-2 wages from the trust or estate by using another method to reallocate the trust's or estate's qualified production costs or paragraph (e)(1) wages, or otherwise. Except as provided in paragraph (d) of this section, the QPAI of a trust or estate must be computed by allocating expenses described in section 199(d)(5) in one of two ways, depending on the classification of those expenses under § 1.652(b)-3. Specifically, directly attributable expenses within

the meaning of § 1.652(b)-3 are allocated pursuant to § 1.652(b)-3, and expenses not directly attributable within the meaning of § 1.652(b)-3 (other expenses) are allocated under the simplified deduction method of § 1.199-4(e) (unless the trust or estate does not qualify to use the simplified deduction method, in which case it must use the section 861 method of § 1.199-4(d) with respect to such other expenses). For this purpose, depletion and depreciation deductions described in section 642(e) and amortization deductions described in section 642(f) are treated as other expenses described in section 199(d)(5). Also for this purpose, the trust's or estate's share of other expenses from a lower-tier pass-thru entity is not directly attributable to any class of income (whether or not those other expenses are directly attributable to the aggregate pass-thru gross income as a class for purposes other than section 199). A trust or estate may not use the small business simplified overall method for computing its QPAI. See § 1.199-4(f)(5).

(2) *Allocation among trust or estate and beneficiaries*—(i) *In general.* The QPAI of a trust or estate (which will be less than zero if the CGS and deductions allocated and apportioned to DPGR exceed the trust's or estate's DPGR) and W-2 wages of a trust or estate are allocated to each beneficiary and to the trust or estate based on the relative proportion of the trust's or estate's distributable net income (DNI), as defined by section 643(a), for the taxable year that is distributed or required to be distributed to the beneficiary or is retained by the trust or estate. For this purpose, the trust or estate's DNI is determined with regard to the separate share rule of section 663(c), but without regard to section 199. To the extent that the trust or estate has no DNI for the taxable year, any QPAI and W-2 wages are allocated entirely to the trust or estate. A trust or estate is allowed the section 199 deduction in computing its taxable income to the extent that QPAI and W-2 wages are allocated to the trust or estate. A beneficiary of a trust or estate is allowed the section 199 deduction in computing its taxable income based on its share of QPAI and W-2 wages from the trust or estate, which are aggregated with the bene-

ficiary's QPAI and W-2 wages from other sources, if any.

(ii) *Treatment of items from a trust or estate reporting qualified production activities income.* When, pursuant to this paragraph (e), a taxpayer must combine QPAI and W-2 wages from a trust or estate with the taxpayer's total QPAI and W-2 wages from other sources, the taxpayer, when applying §§ 1.199-1 through 1.199-8 to determine the taxpayer's total QPAI and W-2 wages from such other sources, does not take into account the items from such trust or estate. Thus, for example, a beneficiary of an estate that receives QPAI from the estate does not take into account the beneficiary's distributive share of the estate's gross receipts, gross income, or deductions when the beneficiary determines whether a threshold or *de minimis* rule applies or when the beneficiary allocates and apports deductions in calculating its QPAI from other sources. Similarly, in determining the portion of the beneficiary's paragraph (e)(1) wages from other sources that is attributable to DPGR (thus, the W-2 wages from other sources), the beneficiary does not take into account DPGR and non-DPGR from the trust or estate.

(3) *Transition rule for definition of W-2 wages and for W-2 wage limitation.* The definition of W-2 wages of a trust or estate and the section 199(d)(1)(A)(iii) rule for determining the respective shares of wages from that trust or estate, and thus the beneficiary's share of W-2 wages from that trust or estate, is determined under the law applicable to pass-thru entities based on the beginning date of the taxable year of the trust or estate, regardless of the beginning date of the taxable year of the beneficiary.

(4) *Example.* The following example illustrates the application of this paragraph (e). Assume that the partnership, trust, and trust beneficiary all are calendar year taxpayers. The example reads as follows:

Example. (i) *Computation of DNI and inclusion and deduction amounts.* (A) *Trust's distributive share of partnership items.* Trust, a complex trust, is a partner in PRS, a partnership that engages in activities that generate DPGR and non-DPGR. In 2010, PRS distributes \$10,000 cash to Trust. PRS properly

allocates (in the same manner as wage expense) paragraph (e)(1) wages of \$3,000 to Trust. Trust's distributive share of PRS items, which are properly included in Trust's DNI, is as follows:

Gross income attributable to DPGR (\$15,000 DPGR—\$5,000 CGS (including wage expense of \$1,000))	\$10,000
Gross income attributable to non-DPGR (\$5,000 other gross receipts—\$0 CGS)	5,000
Selling expenses attributable to DPGR (includes wage expense of \$2,000)	3,000
Other expenses (includes wage expense of \$1,000)	2,000

(B) *Trust's direct activities.* In addition to its cash distribution in 2010 from PRS, Trust directly has the following items which are properly included in Trust's DNI:

Dividends	\$10,000
Tax-exempt interest	10,000
Rents from commercial real property operated by Trust as a business	10,000
Real estate taxes	1,000
Trustee commissions	3,000
State income and personal property taxes	5,000
Wage expense for rental business (direct paragraph (e)(1) wages)	2,000
Other business expenses	1,000

(C) *Allocation of deductions under § 1.652(b)-3.* (1) *Directly attributable expenses.* In computing Trust's DNI for the taxable year, the distributive share of expenses of PRS are directly attributable under § 1.652(b)-3(a) to the distributive share of income of PRS. Accordingly, the \$5,000 of CGS, \$3,000 of selling expenses, and \$2,000 of other expenses are subtracted from the gross receipts from PRS (\$20,000), resulting in net income from PRS of \$10,000. With respect to the Trust's direct expenses, \$1,000 of the trustee commissions, the \$1,000 of real estate taxes, and the \$2,000 of wage expense are directly attributable under § 1.652(b)-3(a) to the rental income.

(2) *Non-directly attributable expenses.* Under § 1.652(b)-3(b), the trustee must allocate a portion of the sum of the balance of the trustee commissions (\$2,000), state income and personal property taxes (\$5,000), and the other business expenses (\$1,000) to the \$10,000 of tax-exempt interest. The portion to be attributed to tax-exempt interest is \$2,222 ($\$8,000 \times (\$10,000 \text{ tax exempt interest} / \$36,000 \text{ gross receipts net of direct expenses})$), resulting in \$7,778 ($\$10,000 - \$2,222$) of net tax-exempt interest. Pursuant to its authority recognized under § 1.652(b)-3(b), the trustee allocates the entire amount of the remaining \$5,778 of trustee commissions, state income and personal property taxes, and other business expenses to the \$6,000 of net rental in-

come, resulting in \$222 ($\$6,000 - \$5,778$) of net rental income.

(D) *Amounts included in taxable income.* For 2010, Trust has DNI of \$28,000 (net dividend income of \$10,000 + net PRS income of \$10,000 + net rental income of \$222 + net tax-exempt income of \$7,778). Pursuant to Trust's governing instrument, Trustee distributes 50%, or \$14,000, of that DNI to B, an individual who is a discretionary beneficiary of Trust. Assume that there are no separate shares under Trust, and no distributions are made to any other beneficiary that year. Consequently, with respect to the \$14,000 distribution B receives from Trust, B properly includes in B's gross income \$5,000 of income from PRS, \$111 of rents, and \$5,000 of dividends, and properly excludes from B's gross income \$3,889 of tax-exempt interest. Trust includes \$20,222 in its adjusted total income and deducts \$10,111 under section 661(a) in computing its taxable income.

(ii) *Section 199 deduction.* (A) *Simplified deduction method.* For purposes of computing the section 199 deduction for the taxable year, assume Trust qualifies for the simplified deduction method under § 1.199-4(e). The determination of Trust's QPAI under the simplified deduction method requires multiple steps to allocate costs. First, the Trust's expenses directly attributable to DPGR under § 1.652(b)-3(a) are subtracted from the Trust's DPGR. In this step, the directly attributable \$5,000 of CGS and selling expenses of \$3,000 are subtracted from the \$15,000 of DPGR from PRS. Second, the Trust's expenses directly attributable under § 1.652(b)-3(a) to non-DPGR from a trade or business are subtracted from the Trust's trade or business non-DPGR. In this step, \$4,000 of Trust expenses directly allocable to the real property rental activity (\$1,000 of real estate taxes, \$1,000 of Trustee commissions, and \$2,000 of wages) are subtracted from the \$10,000 of rental income. Third, Trust must identify the portion of its other expenses that is attributable to Trust's trade or business activities, if any, because expenses not attributable to trade or business activities are not taken into account in computing QPAI. In this step, in this example, the portion of the trustee commissions not directly attributable to the rental operation (\$2,000) is directly attributable to non-trade or business activities. In addition, the state income and personal property taxes are not directly attributable under § 1.652(b)-3(a) to either trade or business or non-trade or business activities, so the portion of those taxes not attributable to either the PRS interests or the rental operation is not a trade or business expense and, thus, is not taken into account in computing QPAI. The portion of the state income and personal property taxes that is treated as an other trade or business expense is \$3,000 ($\$5,000 \times \$30,000 \text{ total trade or business gross receipts} / \$50,000 \text{ total gross}$

receipts). Fourth, Trust then allocates its other trade or business expenses (not directly attributable under § 1.652(b)-3(a)) between DPGR and non-DPGR on the basis of its total gross receipts from the conduct of a trade or business (\$20,000 from PRS + \$10,000 rental income). Thus, Trust combines its non-directly attributable (other) business expenses (\$2,000 from PRS + \$4,000 (\$1,000 of other business expenses + \$3,000 of income and property taxes allocated to a trade or business) from its own activities) and then apportions this total (\$6,000) between DPGR and other receipts on the basis of Trust's total trade or business gross receipts (\$6,000 of such expenses \times \$15,000 DPGR/\$30,000 total trade or business gross receipts = \$3,000). Thus, for purposes of computing Trust's and B's section 199 deduction, Trust's QPAI is \$4,000 (\$7,000 (\$15,000 DPGR - \$5,000 CGS - \$3,000 selling expenses) - \$3,000). Because the distribution of Trust's DNI to B equals one-half of Trust's DNI, Trust and B each has QPAI from PRS for purposes of the section 199 deduction of \$2,000. B has \$1,000 of QPAI from non-Trust activities that is added to the \$2,000 QPAI from Trust for a total of \$3,000 of QPAI.

(B) *W-2 wages.* For the 2010 taxable year, Trust chooses to use the wage expense safe harbor under § 1.199-2(e)(2)(ii) to determine its W-2 wages. For its taxable year ending December 31, 2010, Trust has \$5,000 (\$3,000 from PRS + \$2,000 of Trust) of paragraph (e)(1) wages reported on 2010 Forms W-2. Trust's W-2 wages are \$2,917, as shown in the following table:

Wage expense included in CGS directly attributable to DPGR	\$1,000
Wage expense included in selling expense directly attributable to DPGR	2,000
Wage expense included in non-directly attributable deductions (\$1,000 in wage expense \times (\$15,000 DPGR/\$30,000 total trade or business gross receipts))	500
Wage expense allocable to DPGR	3,500
W-2 wages ((\$3,500 of wage expense allocable to DPGR/\$6,000 of total wage expense) \times \$5,000 in paragraph (e)(1) wages)	\$2,917

(C) *Section 199 deduction computation.* (1) *B's computation.* B is eligible to use the small business simplified overall method. Assume that B has sufficient adjusted gross income so that the section 199 deduction is not limited under section 199(a)(1)(B). Because the \$14,000 Trust distribution to B equals one-half of Trust's DNI, B has W-2 wages from Trust of \$1,459 (50% \times \$2,917). B has W-2 wages of \$100 from trade or business activities outside of Trust and attributable to DPGR

(computed without regard to B's interest in Trust pursuant to § 1.199-2(e)) for a total of \$1,559 of W-2 wages. B has \$1,000 of QPAI from non-Trust activities that is added to the \$2,000 QPAI from Trust for a total of \$3,000 of QPAI. B's tentative deduction is \$270 (.09 \times \$3,000), limited under the W-2 wage limitation to \$780 (50% \times \$1,559 W-2 wages). Accordingly, B's section 199 deduction for 2010 is \$270.

(2) *Trust's computation.* Trust has sufficient adjusted gross income so that the section 199 deduction is not limited under section 199(a)(1)(B). Because the \$14,000 Trust distribution to B equals one-half of Trust's DNI, Trust has W-2 wages of \$1,459 (50% \times \$2,917). Trust's tentative deduction is \$180 (.09 \times \$2,000 QPAI), limited under the W-2 wage limitation to \$730 (50% \times \$1,459 W-2 wages). Accordingly, Trust's section 199 deduction for 2010 is \$180.

(f) *Gain or loss from the disposition of an interest in a pass-thru entity.* DPGR generally does not include gain or loss recognized on the sale, exchange, or other disposition of an interest in a pass-thru entity. However, with respect to a partnership, if section 751(a) or (b) applies, then gain or loss attributable to assets of the partnership giving rise to ordinary income under section 751(a) or (b), the sale, exchange, or other disposition of which would give rise to DPGR, is taken into account in computing the partner's section 199 deduction. Accordingly, to the extent that cash or property received by a partner in a sale or exchange of all or part of its partnership interest is attributable to unrealized receivables or inventory items within the meaning of section 751(c) or (d), respectively, and the sale or exchange of the unrealized receivable or inventory items would give rise to DPGR if sold, exchanged, or otherwise disposed of by the partnership, the cash or property received by the partner is taken into account by the partner in determining its DPGR for the taxable year. Likewise, to the extent that a distribution of property to a partner is treated under section 751(b) as a sale or exchange of property between the partnership and the distributee partner, and any property deemed sold or exchanged would give rise to DPGR if sold, exchanged, or otherwise disposed of by the partnership, the deemed sale or exchange of the property must be taken into account in determining the partnership's

and distributee partner's DPGR to the extent not taken into account under the qualifying in-kind partnership rules. See §§ 1.751-1(b) and 1.199-3(i)(7).

(g) *No attribution of qualified activities.* Except as provided in § 1.199-3(i)(7) regarding qualifying in-kind partnerships and § 1.199-3(i)(8) regarding EAG partnerships, an owner of a pass-thru entity is not treated as conducting the qualified production activities of the pass-thru entity, and vice versa. This rule applies to all partnerships, including partnerships that have elected out of subchapter K under section 761(a). Accordingly, if a partnership manufactures QPP within the United States, or produces a qualified film or produces utilities in the United States, and distributes or leases, rents, licenses, sells, exchanges, or otherwise disposes of such property to a partner who then, without performing its own qualifying activity, leases, rents, licenses, sells, exchanges, or otherwise disposes of such property, then the partner's gross receipts from this latter lease, rental, license, sale, exchange, or other disposition are treated as non-DPGR. In addition, if a partner manufactures QPP within the United States, or produces a qualified film or produces utilities in the United States, and contributes or leases, rents, licenses, sells, exchanges, or otherwise disposes of such property to a partnership which then, without performing its own qualifying activity, leases, rents, licenses, sells, exchanges, or otherwise disposes of such property, then the partnership's gross receipts from this latter disposition are treated as non-DPGR.

[T.D. 9381, 73 FR 8806, Feb. 15, 2008]

§ 1.199-6 Agricultural and horticultural cooperatives.

(a) *In general.* A patron who receives a qualified payment (as defined in paragraph (e) of this section) from a specified agricultural or horticultural cooperative (cooperative) (as defined in paragraph (f) of this section) is allowed a deduction under § 1.199-1(a) (section 199 deduction) for the taxable year the qualified payment is received for the portion of the cooperative's section 199 deduction passed through to the patron and identified by the cooperative in a written notice mailed to the person

during the payment period described in section 1382(d). The provisions of this section apply solely for purposes of section 199 of the Internal Revenue Code (Code).

(b) *Cooperative denied section 1382 deduction for portion of qualified payments.* A cooperative must reduce its section 1382 deduction by an amount equal to the portion of any qualified payment that is attributable to the cooperative's section 199 deduction passed through to the patron.

(c) *Determining cooperative's qualified production activities income and taxable income.* For purposes of determining its section 199 deduction, the cooperative's qualified production activities income (QPAI) (as defined in § 1.199-1(c)) and taxable income are computed without taking into account any deduction allowable under section 1382(b) or (c) (relating to patronage dividends, per-unit retain allocations, and nonpatronage distributions).

(d) *Special rule for marketing cooperatives.* In the case of a cooperative engaged in the marketing of agricultural and/or horticultural products described in paragraph (f) of this section, the cooperative is treated as having manufactured, produced, grown, or extracted (MPGE) (as defined in § 1.199-3(e)) in whole or in significant part (as defined in § 1.199-3(g)) within the United States (as defined in § 1.199-3(h)) any agricultural or horticultural products marketed by the cooperative that its patrons have MPGE.

(e) *Qualified payment.* The term *qualified payment* means any amount of a patronage dividend or per-unit retain allocation, as described in section 1385(a)(1) or (3) received by a patron from a cooperative, that is attributable to the portion of the cooperative's QPAI, for which the cooperative is allowed a section 199 deduction. For this purpose, patronage dividends and per-unit retain allocations include any advances on patronage and per-unit retains paid in money during the taxable year.

(f) *Specified agricultural or horticultural cooperative.* A *specified agricultural or horticultural cooperative* means a cooperative to which Part I of subchapter T of the Code applies and the

cooperative has MPGE in whole or significant part within the United States any agricultural or horticultural product, or has marketed agricultural or horticultural products. For this purpose, agricultural or horticultural products also include fertilizer, diesel fuel, and other supplies used in agricultural or horticultural production.

(g) *Written notice to patrons.* In order for a patron to qualify for the section 199 deduction, paragraph (a) of this section requires that the cooperative identify in a written notice the patron's portion of the section 199 deduction that is attributable to the portion of the cooperative's QPAI for which the cooperative is allowed a section 199 deduction. This written notice must be mailed by the cooperative to its patrons no later than the 15th day of the ninth month following the close of the taxable year. The cooperative may use the same written notice, if any, that it uses to notify patrons of their respective allocations of patronage dividends, or may use a separate timely written notice(s) to comply with this section. The cooperative must report the amount of the patron's section 199 deduction on Form 1099-PATR, "Taxable Distributions Received From Cooperatives," issued to the patron.

(h) *Additional rules relating to pass-through of section 199 deduction.* The cooperative may, at its discretion, pass through all, some, or none of the section 199 deduction to its patrons. A cooperative member of a federated cooperative may pass through the section 199 deduction it receives from the federated cooperative to its member patrons. Patrons may claim the section 199 deduction for the taxable year in which they receive the written notice from the cooperative informing them of the section 199 amount without regard to the taxable income limitation under § 1.199-1(a) and (b).

(i) *W-2 wages.* The W-2 wage limitation described in § 1.199-2 shall be applied at the cooperative level whether or not the cooperative chooses to pass through some or all of the section 199 deduction. Any section 199 deduction that has been passed through by a cooperative to its patrons is not subject to the W-2 wage limitation a second time at the patron level.

(j) *Recapture of section 199 deduction.* If the amount of the section 199 deduction that was passed through to patrons exceeds the amount allowable as a section 199 deduction as determined on audit or reported on an amended return, then recapture of the excess will occur at the cooperative level in the taxable year the cooperative took the excess section 199 deduction amount into account.

(k) *Section is exclusive.* This section is the exclusive method for cooperatives and their patrons to compute the amount of the section 199 deduction. Thus, a patron may not deduct any amount with respect to a patronage dividend or a per-unit retain allocation unless the requirements of this section are satisfied.

(l) *No double counting.* A qualified payment received by a patron of a cooperative is not taken into account by the patron for purposes of section 199.

(m) *Examples.* The following examples illustrate the application of this section:

Example 1. (i) Cooperative X markets corn grown by its members within the United States for sale to retail grocers. For its calendar year ended December 31, 2007, Cooperative X has gross receipts of \$1,500,000, all derived from the sale of corn grown by its members within the United States. Cooperative X pays \$370,000 for its members' corn and its W-2 wages (as defined in § 1.199-2(e)) for 2007 total \$130,000. Cooperative X has no other costs. Patron A is a member of Cooperative X. Patron A is a cash basis taxpayer and files Federal income tax returns on a calendar year basis. All corn grown by Patron A in 2007 is sold through Cooperative X and Patron A is eligible to share in patronage dividends paid by Cooperative X for that year.

(ii) Cooperative X is a cooperative described in paragraph (f) of this section. Accordingly, this section applies to Cooperative X and its patrons and all of Cooperative X's gross receipts from the sale of its patrons' corn qualify as domestic production gross receipts (as defined § 1.199-3(a)). Cooperative X's QPAI is \$1,000,000. Cooperative X's section 199 deduction for its taxable year 2007 is \$60,000 ($.06 \times \$1,000,000$). Because this amount is less than 50% of Cooperative X's W-2 wages, the entire amount is allowed as a section 199 deduction subject to the rules of section 199(d)(3) and this section.

Example 2. (i) The facts are the same as in *Example 1* except that Cooperative X decides to pass its entire section 199 deduction

through to its members. Cooperative X declares a patronage dividend for its 2007 taxable year of \$1,000,000, which it pays on March 15, 2008. Pursuant to paragraph (g) of this section, Cooperative X notifies members in written notices that accompany the patronage dividend notification that it is allocating to them the section 199 deduction it is entitled to claim in the taxable year 2007. On March 15, 2008, Patron A receives a \$10,000 patronage dividend that is a qualified payment under paragraph (e) of this section from Cooperative X. In the notice that accompanies the patronage dividend, Patron A is designated a \$600 section 199 deduction. Under paragraph (a) of this section, Patron A must claim a \$600 section 199 deduction for the taxable year ending December 31, 2008, without regard to the taxable income limitation under § 1.199-1(a) and (b). Cooperative X must report the amount of Patron A's section 199 deduction on Form 1099-PATR, "Taxable Distributions Received From Cooperatives," issued to Patron A for the calendar year 2008.

(ii) Under paragraph (b) of this section, Cooperative X is required to reduce its patronage dividend deduction of \$1,000,000 by the \$60,000 section 199 deduction passed through to members (whether or not Cooperative X pays patronage on book or Federal income tax net earnings). As a consequence, Cooperative X is entitled to a patronage dividend deduction for the taxable year ending December 31, 2007, in the amount of \$940,000 (\$1,000,000 - \$60,000) and to a section 199 deduction in the amount of \$60,000 (\$1,000,000 × .06). Its taxable income for 2007 is \$0.

Example 3. (i) The facts are the same as in *Example 1* except that Cooperative X paid out \$500,000 to its patrons as advances on expected patronage net earnings. In 2007, Cooperative X pays its patrons a \$500,000 (\$1,000,000 - \$500,000 already paid) patronage dividend in cash or a combination of cash and qualified written notices of allocation. Under paragraph (b) of this section and section 1382, Cooperative X is allowed a patronage dividend deduction of \$440,000 (\$500,000 - \$60,000 section 199 deduction), whether patronage net earnings are distributed on book or Federal income tax net earnings.

(ii) The patrons will have received a gross amount of \$1,000,000 in qualified payments under paragraph (e) of this section from Cooperative X (\$500,000 paid during the taxable year as advances and the additional \$500,000 paid as patronage dividends). If Cooperative X passes through its entire section 199 deduction to its members by providing the notice required by paragraph (g) of this section, then the patrons will be allowed a \$60,000 section 199 deduction, resulting in a net \$940,000 taxable distribution from Cooperative X. Pursuant to paragraph (l) of this section, the \$1,000,000 received by the patrons from Cooperative X is not taken into account for pur-

poses of section 199 in the hands of the patrons.

[T.D. 9263, 71 FR 31283, June 1, 2006; 72 FR 6, Jan. 3, 2007; T.D. 9317, 72 FR 12973, Mar. 20, 2007]

§ 1.199-7 Expanded affiliated groups.

(a) *In general.* The provisions of this section apply solely for purposes of section 199 of the Internal Revenue Code (Code). All members of an expanded affiliated group (EAG) are treated as a single corporation for purposes of section 199. Notwithstanding the preceding sentence, except as otherwise provided in the Code and regulations (see, for example, sections 199(c)(7) and 267, § 1.199-3(b), paragraph (a)(3) of this section, and the consolidated return regulations), each member of an EAG is a separate taxpayer that computes its own taxable income or loss, qualified production activities income (QPAI) (as defined in § 1.199-1(c)), and W-2 wages (as defined in § 1.199-2(e)). If members of an EAG are also members of a consolidated group, see paragraph (d) of this section.

(1) *Definition of expanded affiliated group.* An EAG is an affiliated group as defined in section 1504(a), determined by substituting *more than 50 percent* for *at least 80 percent* each place it appears and without regard to section 1504(b)(2) and (4).

(2) *Identification of members of an expanded affiliated group—(i) In general.* A corporation must determine if it is a member of an EAG on a daily basis.

(ii) *Becoming or ceasing to be a member of an expanded affiliated group.* If a corporation becomes or ceases to be a member of an EAG, the corporation is treated as becoming or ceasing to be a member of the EAG at the end of the day on which its status as a member changes.

(3) *Attribution of activities—(i) In general.* If a member of an EAG (the disposing member) derives gross receipts (as defined in § 1.199-3(c)) from the lease, rental, license, sale, exchange, or other disposition (as defined in § 1.199-3(i)) of qualifying production property (QPP) (as defined in § 1.199-3(j)) that was manufactured, produced, grown or extracted (MPGE) (as defined in § 1.199-3(e)), in whole or in significant part (as defined in § 1.199-3(g)) in the United

States (as defined in § 1.199-3(h)), a qualified film (as defined in § 1.199-3(k)), or electricity, natural gas, or potable water (as defined in § 1.199-3(l)) (collectively, utilities) that was produced in the United States, such property was MPGE or produced by another corporation (or corporations), and the disposing member is a member of the same EAG as the other corporation (or corporations) at the time that the disposing member disposes of the QPP, qualified film, or utilities, then the disposing member is treated as conducting the previous activities conducted by such other corporation (or corporations) with respect to the QPP, qualified film, or utilities in determining whether its gross receipts are domestic production gross receipts (DPGR) (as defined in § 1.199-3(a)). With respect to a lease, rental, or license, the disposing member is treated as having disposed of the QPP, qualified film, or utilities on the date or dates on which it takes into account the gross receipts derived from the lease, rental, or license under its methods of accounting. With respect to a sale, exchange, or other disposition, the disposing member is treated as having disposed of the QPP, qualified film, or utilities on the date on which it ceases to own the QPP, qualified film, or utilities for Federal income tax purposes, even if no gain or loss is taken into account.

(ii) *Special rule.* Attribution of activities does not apply for purposes of the construction of real property under § 1.199-3(m) or the performance of engineering and architectural services under § 1.199-3(n). A member of an EAG must engage in a construction activity under § 1.199-3(m)(2), provide engineering services under § 1.199-3(n)(2), or provide architectural services under § 1.199-3(n)(3) in order for the member's gross receipts to be derived from construction, engineering, or architectural services.

(4) *Examples.* The following examples illustrate the application of paragraph (a)(3) of this section. Assume that all taxpayers are calendar year taxpayers. The examples are as follows:

Example 1. Corporations M and N are members of the same EAG. M is engaged solely in the trade or business of manufacturing fur-

niture in the United States that it sells to unrelated persons. N is engaged solely in the trade or business of engraving companies' names on pens and pencils purchased from unrelated persons and then selling the pens and pencils to such companies. For purposes of this example, assume that if N was not a member of an EAG, its activities would not qualify as MPGE. Accordingly, although M's sales of the furniture qualify as DPGR (assuming all the other requirements of § 1.199-3 are met), N's sales of the engraved pens and pencils do not qualify as DPGR because neither N nor another member of the EAG MPGE the pens and pencils.

Example 2. For the entire 2007 year, Corporations A and B are members of the same EAG. A is engaged solely in the trade or business of MPGE machinery in the United States. A and B each own 45% of partnership C and unrelated persons own the remaining 10%. C is engaged solely in the trade or business of MPGE the same type of machinery in the United States as A. In 2007, B purchases and then resells the machinery MPGE in 2007 by A and C. B also resells machinery it purchases from unrelated persons. If only B's activities were considered, B would not qualify for the deduction under § 1.199-1(a) (section 199 deduction). However, because at the time B disposes of the machinery B is a member of the EAG that includes A, B is treated as conducting A's previous MPGE activities in determining whether B's gross receipts from the sale of the machinery MPGE by A are DPGR. C is not a member of the EAG and thus C's MPGE activities are not attributed to B in determining whether B's gross receipts from the sale of the machinery MPGE by C are DPGR. Accordingly, B's gross receipts attributable to its sale of the machinery it purchases from A are DPGR (assuming all the other requirements of § 1.199-3 are met). B's gross receipts attributable to its sale of the machinery it purchases from C and from the unrelated persons are non-DPGR because no member of the EAG MPGE the machinery and because C does not qualify as an EAG partnership.

Example 3. The facts are the same as in *Example 2* except that rather than reselling the machinery, B rents the machinery to unrelated persons and B takes the gross receipts attributable to the rental of the machinery into account under its methods of accounting in 2007, 2008, and 2009. In addition, as of the close of business on December 31, 2008, A and B cease to be members of the same EAG. With respect to the machinery acquired from C and the unrelated persons, B's gross receipts attributable to the rental of the machinery in 2007, 2008, and 2009 are non-DPGR because no member of the EAG MPGE the machinery and because C does not qualify as an EAG partnership. With respect to machinery acquired from A, B's gross receipts in 2007 and 2008 attributable to the rental of the

machinery are DPGR because at the time B takes into account the gross receipts derived from the rental of the machinery under its methods of accounting, B is a member of the same EAG as A and B is treated as conducting A's previous MPGE activities. However, with respect to the rental receipts in 2009, because A and B are not members of the same EAG in 2009, B's rental receipts are non-DPGR.

Example 4. For the entire 2007 year, Corporation P owns over 50% of the stock of Corporation S. In 2007, P MPGE QPP in the United States and transfers the QPP to S. On February 28, 2008, P disposes of stock of S, reducing P's ownership of S below 50% and P and S cease to be members of the same EAG. On June 30, 2008, S sells the QPP to an unrelated person. Unless P's transfer of the QPP to S took place in a transaction to which section 381(a) applies (see § 1.199-8(e)(3)), because S is not a member of the same EAG as P on June 30, 2008, S is not treated as conducting the activities conducted by P in determining if S's receipts are DPGR, notwithstanding that P and S were members of the same EAG when P MPGE the QPP and when P transferred the QPP to S.

Example 5. For the entire 2007 year, Corporations X and Y are unrelated corporations. In 2007, X MPGE QPP in the United States and sells the QPP to Y. On August 31, 2008, X acquires over 50% of the stock of Y, thus making X and Y members of the same EAG. On November 30, 2008, Y sells the QPP to an unrelated person. Because X and Y are members of the same EAG on November 30, 2008, Y is treated as conducting the activities conducted by X in 2007 in determining if Y's receipts are DPGR, notwithstanding that X and Y were not members of the same EAG when X MPGE the QPP nor when X sold the QPP to Y.

(5) *Anti-avoidance rule.* If a transaction between members of an EAG is engaged in or structured with a principal purpose of qualifying for, or increasing the amount of, the section 199 deduction of the EAG or the portion of the section 199 deduction allocated to one or more members of the EAG, adjustments must be made to eliminate the effect of the transaction on the computation of the section 199 deduction.

(b) *Computation of expanded affiliated group's section 199 deduction—(1) In general.* The section 199 deduction for an EAG is determined by the EAG by aggregating each member's taxable income or loss, QPAI, and W-2 wages, if any. For purposes of this determination, a member's QPAI may be positive or negative. A member's taxable in-

come or loss and QPAI shall be determined by reference to the member's methods of accounting.

(2) *Example.* The following example illustrates the application of paragraph (b)(1) of this section:

Example. Corporations X, Y, and Z, calendar year taxpayers, are the only members of an EAG and are not members of a consolidated group. X has taxable income of \$50,000, QPAI of \$15,000, and W-2 wages of \$1,000. Y has taxable income of (\$20,000), QPAI of (\$1,000), and W-2 wages of \$750. Z has \$0 taxable income and \$0 QPAI, but has W-2 wages of \$2,000. In determining the EAG's section 199 deduction, the EAG aggregates each member's taxable income or loss, QPAI, and W-2 wages. Accordingly, the EAG has taxable income of \$30,000 (\$50,000 + (\$20,000) + \$0), QPAI of \$14,000 (\$15,000 + (\$1,000) + \$0), and W-2 wages of \$3,750 (\$1,000 + \$750 + \$2,000).

(3) *Net operating loss carrybacks and carryovers.* In determining the taxable income of an EAG, if a member of an EAG has a net operating loss (NOL) carryback or carryover to the taxable year, then the amount of the NOL used to offset taxable income cannot exceed the taxable income of that member.

(4) *Losses used to reduce taxable income of expanded affiliated group—(i) In general.* The amount of an NOL sustained by any member of an EAG that is used in the year sustained in determining an EAG's taxable income limitation under section 199(a)(1)(B) is not treated as an NOL carryover or NOL carryback to any taxable year in determining the taxable income limitation under section 199(a)(1)(B). For purposes of this paragraph (b)(4), an NOL is considered to be used if it reduces an EAG's aggregate taxable income, regardless of whether the use of the NOL actually reduces the amount of the section 199 deduction that the EAG would otherwise derive. An NOL is not considered to be used to the extent that it reduces an EAG's aggregate taxable income to an amount less than zero. If more than one member of an EAG has an NOL used in the same taxable year to reduce the EAG's taxable income, the members' respective NOLs are deemed used in proportion to the amount of their NOLs.

(ii) *Examples.* The following examples illustrate the application of this paragraph (b)(4). For purposes of these examples, assume that all relevant parties have sufficient W-2 wages so that the section 199 deduction is not limited under section 199(b)(1). The examples read as follows:

Example 1. (i) *Facts.* Corporations A and B are the only two members of an EAG. A and B are both calendar year taxpayers, and they do not join in the filing of a consolidated Federal income tax return. Neither A nor B had taxable income or loss prior to 2010. In 2010, A has QPAI and taxable income of \$1,000, and B has QPAI of \$1,000 and an NOL of \$1,500. In 2011, A has QPAI of \$2,000 and taxable income of \$1,000 and B has QPAI of \$2,000 and taxable income prior to the NOL deduction allowed under section 172 of \$2,000.

(ii) *Section 199 deduction for 2010.* In determining the EAG's section 199 deduction for 2010, A's \$1,000 of QPAI and B's \$1,000 of QPAI are aggregated, as are A's \$1,000 of taxable income and B's \$1,500 NOL. Thus, for 2010, the EAG has QPAI of \$2,000 and taxable income of (\$500). The EAG's section 199 deduction for 2010 is 9% of the lesser of its QPAI or its taxable income. Because the EAG has a taxable loss in 2010, the EAG's section 199 deduction is \$0.

(iii) *Section 199 deduction for 2011.* In determining the EAG's section 199 deduction for 2011, A's \$2,000 of QPAI and B's \$2,000 of QPAI are aggregated, giving the EAG QPAI of \$4,000. Also, \$1,000 of B's NOL from 2010 was used in 2010 to reduce the EAG's taxable income to \$0. The remaining \$500 of B's 2010 NOL is not considered to have been used in 2010 because it reduced the EAG's taxable income below \$0. Accordingly, for purposes of determining the EAG's taxable income limitation under section 199(a)(1)(B) in 2011, B is deemed to have only a \$500 NOL carryover from 2010 to offset a portion of its 2011 taxable income. Thus, B's taxable income in 2011 is \$1,500 which is aggregated with A's \$1,000 of taxable income. The EAG's taxable income limitation in 2011 is \$2,500. The EAG's section 199 deduction is 9% of the lesser of its QPAI of \$4,000 or its taxable income of \$2,500. Thus, the EAG's section 199 deduction in 2011 is 9% of \$2,500, or \$225. The results would be the same if neither A nor B had QPAI in 2010.

Example 2. The facts are the same as in *Example 1* except that in 2010 B was not a member of the same EAG as A, but instead was a member of an EAG with Corporation X, which had QPAI and taxable income of \$1,000 in 2010, and had neither taxable income nor loss in any other year. There were no other members of the EAG in 2010 besides B and X, and B and X did not file a consolidated Federal income tax return. As \$1,000 of B's NOL

was used in 2010 to reduce the B and X EAG's taxable income to \$0, B is considered to have only a \$500 NOL carryover from 2010 to offset a portion of its 2011 taxable income for purposes of the taxable income limitation under section 199(a)(1)(B), just as in *Example 1*. Accordingly, the results for the A and B EAG in 2011 are the same as in *Example 1*.

Example 3. The facts are the same as in *Example 1* except that B is not a member of any EAG in 2011. Because \$1,000 of B's NOL was used in 2010 to reduce the EAG's taxable income to \$0, B is considered to have only a \$500 NOL carryover from 2010 to offset a portion of its 2011 taxable income for purposes of the taxable income limitation under section 199(a)(1)(B), just as in *Example 1*. Thus, for purposes of determining B's taxable income limitation in 2011, B is considered to have taxable income of \$1,500, and B has a section 199 deduction of 9% of \$1,500, or \$135.

Example 4. Corporations A, B, and C are the only members of an EAG. A, B, and C are all calendar year taxpayers, and they do not join in the filing of a consolidated Federal income tax return. None of the EAG members (A, B, or C) had taxable income or loss prior to 2010. In 2010, A has QPAI of \$2,000 and taxable income of \$1,000, B has QPAI of \$1,000 and an NOL of \$1,000, and C has QPAI of \$1,000 and an NOL of \$3,000. In 2011, prior to the NOL deduction allowed under section 172, A and B each has taxable income of \$200 and C has taxable income of \$5,000. In determining the EAG's section 199 deduction for 2010, A's QPAI of \$2,000, B's QPAI of \$1,000, and C's QPAI of \$1,000 are aggregated, as are A's taxable income of \$1,000, B's NOL of \$1,000, and C's NOL of \$3,000. Thus, for 2010, the EAG has QPAI of \$4,000 and taxable income of (\$3,000). In determining the EAG's taxable income limitation under section 199(a)(1)(B) in 2011, \$1,000 of B's and C's aggregate NOLs in 2010 of \$4,000 are considered to have been used in 2010 to reduce the EAG's taxable income to \$0, in proportion to their NOLs. Thus, \$250 of B's NOL from 2010 ($\$1,000 \times \$1,000/\$4,000$) and \$750 of C's NOL from 2010 ($\$1,000 \times \$3,000/\$4,000$) are deemed to have been used in 2010. The remaining \$750 of B's NOL and the remaining \$2,250 of C's NOL are not deemed to have been used because so doing would have reduced the EAG's taxable income in 2010 below \$0. Accordingly, for purposes of determining the EAG's taxable income limitation in 2011, B is deemed to have a \$750 NOL carryover from 2010 and C is deemed to have a \$2,250 NOL carryover from 2010. Thus, for purposes of determining the EAG's taxable income limitation, B's taxable income in 2011 is \$0 and C's taxable income in 2011 is \$2,750, which are aggregated with A's \$200 taxable income. B's unused NOL carryover from 2010 cannot be used to reduce either A's or C's 2011 taxable income. Thus, the EAG's taxable income limitation in 2011 is \$2,950, A's taxable income of \$200

plus B's taxable income of \$0 plus C's taxable income of \$2,750.

(c) *Allocation of an expanded affiliated group's section 199 deduction among members of the expanded affiliated group*—(1) *In general.* An EAG's section 199 deduction as determined in paragraph (b)(1) of this section is allocated among the members of the EAG in proportion to each member's QPAI, regardless of whether the EAG member has taxable income or loss or W-2 wages for the taxable year. For this purpose, if a member has negative QPAI, the QPAI of the member shall be treated as zero.

(2) *Use of section 199 deduction to create or increase a net operating loss.* Notwithstanding § 1.199-1(b), if a member of an EAG has some or all of the EAG's section 199 deduction allocated to it under paragraph (c)(1) of this section and the amount allocated exceeds the member's taxable income (determined prior to allocation of the section 199 deduction), the section 199 deduction will create an NOL for the member. Similarly, if a member of an EAG, prior to the allocation of some or all of the EAG's section 199 deduction to the member, has an NOL for the taxable year, the portion of the EAG's section 199 deduction allocated to the member will increase the member's NOL.

(d) *Special rules for members of the same consolidated group*—(1) *Intercompany transactions.* In the case of an intercompany transaction between consolidated group members S and B (as the terms intercompany transaction, S, and B are defined in § 1.1502-13(b)(1)), S takes the intercompany transaction into account in computing the section 199 deduction at the same time and in the same proportion as S takes into account the income, gain, deduction, or loss from the intercompany transaction under § 1.1502-13.

(2) *Attribution of activities in the construction of real property and the performance of engineering and architectural services.* Notwithstanding paragraph (a)(3)(ii) of this section, a disposing member (as described in paragraph (a)(3)(i) of this section) is treated as conducting the previous activities conducted by each other member of its consolidated group with respect to the construction of real property under § 1.199-3(m) and the performance of en-

gineering and architectural services under § 1.199-3(n), but only with respect to activities performed during the period of consolidation.

(3) *Application of the simplified deduction method and the small business simplified overall method.* For purposes of applying the simplified deduction method under § 1.199-4(e) and the small business simplified overall method under § 1.199-4(f), a consolidated group determines its QPAI using its members' DPGR, non-DPGR, cost of goods sold (CGS), and all other deductions, expenses, or losses (deductions), determined after application of § 1.1502-13.

(4) *Determining the section 199 deduction*—(i) *Expanded affiliated group consists of consolidated group and non-consolidated group members.* In determining the section 199 deduction, if an EAG includes corporations that are members of the same consolidated group and corporations that are not members of the same consolidated group, the consolidated taxable income or loss, QPAI, and W-2 wages, if any, of the consolidated group (and not the separate taxable income or loss, QPAI, and W-2 wages of the members of the consolidated group), are aggregated with the taxable income or loss, QPAI, and W-2 wages, if any, of the non-consolidated group members. For example, if A, B, C, S1, and S2 are members of the same EAG, and A, S1, and S2 are members of the same consolidated group (the A consolidated group), then the A consolidated group is treated as one member of the EAG. Accordingly, the EAG is considered to have three members, the A consolidated group, B, and C. The consolidated taxable income or loss, QPAI, and W-2 wages, if any, of the A consolidated group are aggregated with the taxable income or loss, QPAI, and W-2 wages, if any, of B and C in determining the EAG's section 199 deduction.

(ii) *Expanded affiliated group consists only of members of a single consolidated group.* If all the members of an EAG are members of the same consolidated group, the consolidated group's section 199 deduction is determined using the consolidated group's consolidated taxable income or loss, QPAI, and W-2

wages, rather than the separate taxable income or loss, QPAI, and W-2 wages of its members.

(5) *Allocation of the section 199 deduction of a consolidated group among its members.* The section 199 deduction of a consolidated group (or the section 199 deduction allocated to a consolidated group that is a member of an EAG) is allocated to the members of the consolidated group in proportion to each consolidated group member's QPAI, regardless of whether the consolidated group member has separate taxable income or loss or W-2 wages for the taxable year. In allocating the section 199 deduction of a consolidated group among its members, any redetermination of a corporation's receipts, CGS, or other deductions from an intercompany transaction under § 1.1502-13(c)(1)(i) or (c)(4) for purposes of section 199 is not taken into account. Also, for purposes of this allocation, if a consolidated group member has negative QPAI, the QPAI of the member shall be treated as zero.

(e) *Examples.* The following examples illustrate the application of paragraphs (a) through (d) of this section:

Example 1. Corporations X and Y are members of the same EAG but are not members of a consolidated group. All the activities described in this example take place during the same taxable year. X and Y each use the section 861 method described in § 1.199-4(d) for allocating and apportioning their deductions. X incurs \$5,000 in costs in manufacturing a machine, all of which are capitalized. X is entitled to a \$1,000 depreciation deduction for the machine in the current taxable year. X rents the machine to Y for \$1,500. Y uses the machine in manufacturing QPP within the United States. Y incurs \$1,400 of CGS in manufacturing the QPP. Y sells the QPP to unrelated persons for \$7,500. Pursuant to section 199(c)(7) and § 1.199-3(b), X's rental income is non-DPGR (and its related costs are not attributable to DPGR). Accordingly, Y has \$4,600 of QPAI (Y's \$7,500 DPGR received from unrelated persons—Y's \$1,400 CGS allocable to such receipts—Y's \$1,500 of rental expense), X has \$0 of QPAI, and the EAG has \$4,600 of QPAI.

Example 2. The facts are the same as in *Example 1* except that X and Y are members of the same consolidated group. Pursuant to section 199(c)(7) and § 1.199-3(b), X's rental income ordinarily would not be DPGR (and its related costs would not be allocable to DPGR). However, because X and Y are members of the same consolidated group, § 1.1502-

13(c)(1)(i) provides that the separate entity attributes of X's intercompany items or Y's corresponding items, or both, may be redetermined in order to produce the same effect as if X and Y were divisions of a single corporation. If X and Y were divisions of a single corporation, X and Y would have QPAI of \$5,100 (\$7,500 DPGR received from unrelated persons—\$1,400 CGS allocable to such receipts—\$1,000 depreciation deduction). To obtain this same result for the consolidated group, X's rental income is redetermined as DPGR, which results in the consolidated group having \$9,000 of DPGR (the sum of Y's DPGR of \$7,500 + X's DPGR of \$1,500) and \$3,900 of costs allocable to DPGR (the sum of Y's \$1,400 CGS + Y's \$1,500 rental expense + X's \$1,000 depreciation expense). For purposes of determining how much of the consolidated group's section 199 deduction is allocated to X and Y, pursuant to paragraph (d)(5) of this section, the redetermination of X's rental income as DPGR under § 1.1502-13(c)(1)(i) is not taken into account (X's costs are considered to be allocable to DPGR because they are allocable to the consolidated group deriving DPGR). Accordingly, for this purpose, X is deemed to have (\$1,000) of QPAI (X's \$0 DPGR—X's \$1,000 depreciation deduction). Because X is deemed to have negative QPAI, also pursuant to paragraph (d)(5) of this section, X's QPAI is treated as zero. Y has \$4,600 of QPAI (Y's \$7,500 DPGR—Y's \$1,400 CGS allocable to such receipts—Y's \$1,500 of rental expense). Accordingly, X is allocated \$0/(\$0 + \$4,600) of the consolidated group's section 199 deduction and Y is allocated \$4,600/(\$0 + \$4,600) of the consolidated group's section 199 deduction.

Example 3. Corporations P and S are members of the same EAG but are not members of a consolidated group. P and S each use the section 861 method for allocating and apportioning their deductions and are both calendar year taxpayers. In 2007, P incurs \$1,000 in research and development expenses in creating an intangible asset and deducts these expenses in 2007. P anticipates that it will license the intangible asset to S. On January 1, 2008, P licenses the intangible asset to S for \$2,500. S uses the intangible asset in manufacturing QPP within the United States. S incurs \$2,000 of additional costs in manufacturing the QPP. On December 31, 2008, S sells the QPP to unrelated persons for \$10,000. Because on December 31, 2007, P anticipates that it will license the intangible asset to S, a related person, and also because the intangible asset is not QPP, P's license receipts from S will be non-DPGR. Accordingly, P's research and development expenses in 2007 are not attributable to DPGR. In 2008, S has \$5,500 of QPAI (S's \$10,000 DPGR received from unrelated persons—S's \$2,000 additional costs in manufacturing the QPP—S's \$2,500 of license expense), P has \$0 of QPAI, and the EAG has \$5,500 of QPAI.

Example 4. (i) Determination of consolidated group's QPAI. The facts are the same as in *Example 3* except that P and S are members of the same consolidated group. Pursuant to section 199(c)(7) and § 1.199-3(b), and also because the intangible asset is not QPP, P's license income ordinarily would not be DPGR (and its related costs would not be allocable to DPGR). However, because P and S are members of the same consolidated group, § 1.1502-13(c)(1)(i) provides that the separate entity attributes of P's intercompany items or S's corresponding items, or both, may be redetermined in order to produce the same effect as if P and S were divisions of a single corporation. If P and S were divisions of a single corporation, in 2007 the single corporation would have \$1,000 of expenses allocable to the anticipated DPGR from the sale of the QPP to unrelated persons, resulting in a negative QPAI (from this individual item) of \$1,000. In 2008, the single corporation would have QPAI of \$8,000 (\$10,000 DPGR received from unrelated persons - \$2,000 additional costs in manufacturing the QPP). To obtain this same result for the consolidated group, P's license income from S is redetermined as DPGR. P's research and development expenses are allocable to DPGR. This results in the consolidated group having negative QPAI in 2007 (from the research and development expense) of \$1,000. In 2008, the consolidated group has \$12,500 of DPGR (the sum of S's DPGR of \$10,000 + P's DPGR of \$2,500) and \$4,500 of costs allocable to DPGR (the sum of S's \$2,000 additional costs + S's \$2,500 license expense), resulting in \$8,000 of QPAI in 2008.

(ii) Allocation of deduction. Since the consolidated group has no QPAI in 2007, there is no section 199 deduction to be allocated between P and S in 2007. In 2008, the consolidated group has \$8,000 of QPAI and, assuming that the group has positive taxable income and W-2 wages, the consolidated group will have a section 199 deduction. For purposes of determining how much of the consolidated group's section 199 deduction is allocated to P and S, pursuant to paragraph (d)(5) of this section, the redetermination of P's license income as DPGR under § 1.1502-13(c)(1)(i) is not taken into account. Accordingly, for purposes of allocating the consolidated group's section 199 deduction between P and S, P is deemed to have \$0 DPGR and \$0 QPAI in 2008. S has \$5,500 of QPAI (S's \$10,000 DPGR - S's \$2,000 in additional costs allocable to such receipts - S's \$2,500 of license expense). Accordingly, P is allocated \$0/(\$0 + \$5,500) of the consolidated group's section 199 deduction in 2008 and S is allocated \$5,500/(\$0 + \$5,500) of the consolidated group's section 199 deduction.

Example 5. (i) Facts. Corporations A and B are the only two members of an EAG but are not members of a consolidated group. A and B each file Federal income tax returns on a calendar year basis. The average annual

gross receipts of the EAG are less than or equal to \$100,000,000 and A and B each use the simplified deduction method under § 1.199-4(e). In 2007, A MPGE televisions within the United States. A has \$10,000,000 of DPGR from sales of televisions to unrelated persons and \$2,000,000 of DPGR from sales of televisions to B. In addition, A has gross receipts from computer consulting services with unrelated persons of \$3,000,000. A has CGS of \$6,000,000. A is able to determine from its books and records that \$4,500,000 of its CGS are attributable to televisions sold to unrelated persons and \$1,500,000 are attributable to televisions sold to B (see § 1.199-4(b)(2)). A has other deductions of \$4,000,000. A has no other items of income, gain, or deductions. In 2007, B sells the televisions it purchased from A to unrelated persons for \$4,100,000. B also pays \$100,000 for administrative services performed in 2007. B has no other items of income, gain, or deductions.

(ii) QPAI. (A) A's QPAI. In order to determine A's QPAI, A subtracts its \$6,000,000 CGS from its \$12,000,000 DPGR. Under the simplified deduction method, A then apportions its remaining \$4,000,000 of deductions to DPGR in proportion to the ratio of its DPGR to total gross receipts. Thus, of A's \$4,000,000 of deductions, \$3,200,000 is apportioned to DPGR ($\$4,000,000 \times \$12,000,000/\$15,000,000$). Accordingly, A's QPAI is \$2,800,000 (\$12,000,000 DPGR - \$6,000,000 CGS - \$3,200,000 deductions apportioned to its DPGR).

(B) B's QPAI. Although B did not MPGE the televisions it sold, pursuant to paragraph (a)(3) of this section, B is treated as conducting A's MPGE of the televisions in determining whether B's gross receipts are DPGR. Thus, B has \$4,100,000 of DPGR. In order to determine B's QPAI, B subtracts its \$2,000,000 CGS from its \$4,100,000 DPGR. Under the simplified deduction method, B then apportions its remaining \$100,000 of deductions to DPGR in proportion to the ratio of its DPGR to total gross receipts. Thus, because B has no other gross receipts, all of B's \$100,000 of deductions is apportioned to DPGR ($\$100,000 \times \$4,100,000/\$4,100,000$). Accordingly, B's QPAI is \$2,000,000 (\$4,100,000 DPGR - \$2,000,000 CGS - \$100,000 deductions apportioned to its DPGR).

Example 6. (i) Facts. The facts are the same as in *Example 5* except that A and B are members of the same consolidated group. B does not sell the televisions purchased from A until 2008, and B's \$100,000 paid for administrative services are paid in 2008 for services performed in 2008. In addition, in 2008, A has \$3,000,000 in gross receipts from computer consulting services with unrelated persons and \$1,000,000 in related deductions.

(ii) Consolidated group's 2007 QPAI. The consolidated group's DPGR and total gross receipts in 2007 are \$10,000,000 and \$13,000,000, respectively, because, pursuant to paragraph (d)(1) of this section and § 1.1502-13, the sale

of the televisions from A to B is not taken into account in 2007. In order to determine the consolidated group's QPAI, the consolidated group subtracts its \$4,500,000 CGS from the televisions sold to unrelated persons from its \$10,000,000 DPGR. Under the simplified deduction method, the consolidated group apportions its remaining \$4,000,000 of deductions to DPGR in proportion to the ratio of its DPGR to total gross receipts. Thus, $\$3,076,923$ ($\$4,000,000 \times \$10,000,000 / \$13,000,000$) is allocated to DPGR. Accordingly, the consolidated group's QPAI for 2007 is $\$2,423,077$ ($\$10,000,000$ DPGR - $\$4,500,000$ CGS - $\$3,076,923$ deductions apportioned to its DPGR).

(iii) *Allocation of consolidated group's 2007 section 199 deduction to its members.* Because B's only activity during 2007 is the purchase of televisions from A, B has no DPGR or deductions and thus, no QPAI, in 2007. Accordingly, the entire section 199 deduction in 2007 for the consolidated group will be allocated to A.

(iv) *Consolidated group's 2008 QPAI.* Pursuant to paragraph (d)(1) of this section and § 1.1502-13(c), A's sale of televisions to B in 2007 is taken into account in 2008 when B sells the televisions to unrelated persons. However, because A and B are members of a consolidated group, § 1.1502-13(c)(1)(i) provides that the separate entity attributes of A's intercompany items or B's corresponding items, or both, may be redetermined in order to produce the same effect as if A and B were divisions of a single corporation. Accordingly, A's \$2,000,000 of gross receipts are redetermined to be non-DPGR and as not being gross receipts for purposes of allocating costs between DPGR and non-DPGR, and B's \$2,000,000 CGS are redetermined to be not allocable to DPGR. Notwithstanding that A's receipts are redetermined to be non-DPGR and as not being gross receipts for purposes of allocating costs between DPGR and non-DPGR, A's CGS are still considered to be allocable to DPGR because they are allocable to the consolidated group deriving DPGR. Accordingly, the consolidated group's DPGR in 2008 is \$4,100,000 from B's sales of televisions, and its total receipts are \$7,100,000 (\$4,100,000 DPGR plus \$3,000,000 non-DPGR from A's computer consulting services). To determine the consolidated group's QPAI, the consolidated group subtracts A's \$1,500,000 CGS from the televisions sold to B from its \$4,100,000 DPGR. Under the simplified deduction method, the consolidated group apportions its remaining \$1,100,000 of deductions (\$1,000,000 from A and \$100,000 from B) to DPGR in proportion to the consolidated group's ratio of its DPGR to total gross receipts. Thus, $\$635,211$ ($\$1,100,000 \times \$4,100,000 / \$7,100,000$) is allocated to DPGR. Accordingly, the consolidated group's QPAI for 2008 is $\$1,964,789$ ($\$4,100,000$ DPGR - $\$1,500,000$ CGS - $\$635,211$ deductions apportioned to its

DPGR), the same QPAI that would result if A and B were divisions of a single corporation.

(v) *Allocation of consolidated group's 2008 section 199 deduction to its members.* (A) *A's QPAI.* For purposes of allocating the consolidated group's section 199 deduction to its members, pursuant to paragraph (d)(5) of this section, the redetermination of A's \$2,000,000 in receipts is disregarded. Accordingly, for this purpose, A's DPGR are \$2,000,000 (receipts from the sale of televisions to B taken into account in 2008) and its total receipts are \$5,000,000 (\$2,000,000 DPGR + \$3,000,000 non-DPGR from its computer consulting services). In determining A's QPAI, A subtracts its \$1,500,000 CGS from the televisions sold to B from its \$2,000,000 DPGR. Under the simplified deduction method, A apportions its remaining \$1,000,000 of deductions in proportion to the ratio of its DPGR to total receipts. Thus, $\$400,000$ ($\$1,000,000 \times \$2,000,000 / \$5,000,000$) is allocated to DPGR. Thus, A's QPAI is \$100,000 (\$2,000,000 DPGR - \$1,500,000 CGS - \$400,000 deductions allocated to its DPGR).

(B) *B's QPAI.* B's DPGR and its total gross receipts are each \$4,100,000. For purposes of allocating the consolidated group's section 199 deduction to its members, pursuant to paragraph (d)(5) of this section, the redetermination of B's \$2,000,000 CGS as not allocable to DPGR is disregarded. In determining B's QPAI, B subtracts its \$2,000,000 CGS from the televisions purchased from A from its \$4,100,000 DPGR. Under the simplified deduction method, B apportions its remaining \$100,000 deductions in proportion to the ratio of its DPGR to total receipts. Thus, all \$100,000 ($\$100,000 \times \$4,100,000 / \$4,100,000$) is allocated to DPGR. Thus, B's QPAI is \$2,000,000 (\$4,100,000 DPGR - \$2,000,000 CGS - \$100,000 deductions allocated to its DPGR).

(C) *Allocation to A and B.* Pursuant to paragraph (d)(5) of this section, the consolidated group's section 199 deduction for 2008 is allocated $\$100,000 / (\$100,000 + \$2,000,000)$ to A and $\$2,000,000 / (\$100,000 + \$2,000,000)$ to B.

Example 7. Corporations S and B are members of the same consolidated group that files its Federal income tax returns on a calendar year basis. In 2007, S manufactures office furniture for B to use in B's corporate headquarters and S sells the office furniture to B. S and B have no other activities in the taxable year. If S and B were not members of a consolidated group, S's gross receipts from the sale of the office furniture to B would be DPGR (assuming all the other requirements of § 1.199-3 are met) and S's CGS or other deductions, expenses, or losses from the sale to B would be allocable to S's DPGR. However, because S and B are members of a consolidated group, the separate entity attributes

of S's intercompany items or B's corresponding items, or both, may be redetermined under § 1.1502-13(c)(1)(i) or (c)(4) in order to produce the same effect as if S and B were divisions of a single corporation. If S and B were divisions of a single corporation, there would be no DPGR with respect to the office furniture because there would be no lease, rental, license, sale, exchange, or other disposition of the furniture by the single corporation (and no CGS or other deductions allocable to DPGR). Thus, in order to produce the same effect as if S and B were divisions of a single corporation, S's gross receipts are redetermined as non-DPGR. Accordingly, the consolidated group has no DPGR (and no CGS or other deductions allocated or apportioned to DPGR) and receives no section 199 deduction in 2007.

Example 8. (i) *Facts.* A and B are members of the same consolidated group that files its Federal income tax returns on a calendar year basis. On January 1, 2007, A MPGE QPP which is 10-year recovery property for \$100 and depreciates it under the straight-line method. On January 1, 2009, A sells the property to B for \$130. Under section 168(i)(7), B is treated as A for purposes of section 168 to the extent B's \$130 basis does not exceed A's adjusted basis at the time of the sale. B's additional basis is treated as new 10-year recovery property for which B elects the straight-line method of recovery. (To simplify the example, the half-year convention is disregarded.)

(ii) *Depreciation; intercompany gain.* A claims \$10 of depreciation for each taxable year 2007 and 2008 and has an \$80 basis at the time of the sale to B. Thus, A has a \$50 intercompany gain from its sale to B. For each taxable year 2009 through 2016, B has \$10 of depreciation with respect to \$80 of its basis (the portion of its \$130 basis not exceeding A's adjusted basis) and \$5 of depreciation with respect to the \$50 of its additional basis that exceeds A's adjusted basis. For each taxable year 2017 and 2018, B has \$5 of depreciation with respect to the \$50 of its additional basis that exceeds A's adjusted basis.

(iii) *Timing.* A's \$50 gain is taken into account to reflect the difference for each consolidated return year between B's depreciation taken into account with respect to the property and the depreciation that would have been taken into account if A and B were divisions of a single corporation. For each taxable year 2009 through 2016, B takes into account \$15 of depreciation rather than the \$10 of depreciation that would have been taken into account if A and B were divisions of a single corporation. For each taxable year 2017 and 2018, B takes into account \$5 of depreciation rather than the \$0 of depreciation that would have been taken into account if A and B were divisions of a single corporation (the QPP would have been fully depreciated after the 2016 taxable year if A

and B were divisions of a single corporation). Thus, A takes \$5 of gain into account in each of the 2009 through 2018 taxable years (10% of its \$50 gain). Pursuant to § 1.199-7(d)(1), A takes its sale to B into account in computing the section 199 deduction at the same time and in the same proportion as A takes into account the income, gain, deduction, or loss from the intercompany transaction under § 1.1502-13. Thus, in each taxable year 2009 through 2018, A takes into account \$13 of gross receipts (10% of its \$130 gross receipts) from the sale to B. The group's income in each taxable year 2009 through 2016 is a \$10 loss (\$5 gain—\$15 depreciation), the same net amount it would have been if A and B were divisions of a single corporation. The group's income in each taxable year 2017 and 2018 is \$0 (\$5 gain—\$5 depreciation), the same net amount it would have been if A and B were divisions of a single corporation.

(iv) *Attributes.* If A and B were not members of a consolidated group, A's gross receipts on the sale of the QPP to B would be DPGR (assuming all the other requirements of § 1.199-3 are met). However, because A and B are members of a consolidated group, the separate entity attributes of A's DPGR may be redetermined under § 1.1502-13(c)(1)(i) or (c)(4) in order to produce the same effect as if A and B were divisions of a single corporation. If A and B were divisions of a single corporation, there would be no DPGR with respect to the QPP because there would be no lease, rental, license, sale, exchange, or other disposition of the QPP by the single corporation (and no CGS or other deductions allocable to DPGR). Thus, in order to produce the same effect as if A and B were divisions of a single corporation, A's \$13 of gross receipts taken into account in each year is redetermined as non-DPGR. Accordingly, the consolidated group has no DPGR (and no CGS or other deductions allocable or apportioned to DPGR) and receives no section 199 deduction.

Example 9. Corporations X, Y, and Z are members of the same EAG but are not members of a consolidated group. X, Y, and Z each files Federal income tax returns on a calendar year basis. Assume that the EAG has W-2 wages in excess of the section 199(b) wage limitation. Prior to 2007, X had no taxable income or loss. In 2007, X has \$0 of taxable income and \$2,000 of QPAI, Y has \$4,000 of taxable income and \$3,000 of QPAI, and Z has \$4,000 of taxable income and \$5,000 of QPAI. Accordingly, the EAG has taxable income of \$8,000, the sum of X's taxable income of \$0, Y's taxable income of \$4,000, and Z's taxable income of \$4,000. The EAG has QPAI of \$10,000, the sum of X's QPAI of \$2,000, Y's QPAI of \$3,000, and Z's QPAI of \$5,000. Because X's, Y's, and Z's taxable years all began in 2007, the transition percentage under section 199(a)(2) is 6%. Thus, the EAG's section 199 deduction for 2007 is \$480 (6% of

the lesser of the EAG's taxable income of \$8,000 or the EAG's QPAI of \$10,000). Pursuant to paragraph (c)(1) of this section, the \$480 section 199 deduction is allocated to X, Y, and Z in proportion to their respective amounts of QPAI, that is \$96 to X ($\$480 \times \$2,000/\$10,000$), \$144 to Y ($\$480 \times \$3,000/\$10,000$), and \$240 to Z ($\$480 \times \$5,000/\$10,000$). Although X's taxable income for 2007 determined prior to allocation of a portion of the EAG's section 199 deduction to it was \$0, pursuant to paragraph (c)(2) of this section X will have an NOL for 2007 equal to \$96. Because X's NOL for 2007 cannot be carried back to a previous taxable year, X's NOL carryover to 2008 will be \$96.

Example 10. (i) *Facts.* Corporation P owns all of the stock of Corporations S and B. P, S, and B file a consolidated Federal income tax return on a calendar year basis. P, S, and B each uses the section 861 method for allocating and apportioning their deductions. In 2010, S MPGE QPP in the United States at a cost of \$1,000. On November 30, 2010, S sells the QPP to B for \$2,500. On February 28, 2011, P sells 60% of the stock of B to X, an unrelated person. On June 30, 2011, B sells the QPP to U, another unrelated person, for \$3,000.

(ii) *Consolidated group's 2010 QPAI.* Because S and B are members of a consolidated group in 2010, pursuant to § 1.199-7(d)(1) and § 1.1502-13, neither S's \$1,500 of gain on the sale of QPP to B nor S's \$2,500 gross receipts from the sale are taken into account in 2010. Accordingly, neither S nor B has QPAI in 2010.

(iii) *Consolidated group's 2011 QPAI.* B becomes a nonmember of the consolidated group at the end of the day on February 28, 2011, the date on which P sells 60% of the B stock to X. Under § 1.199-7(d)(1) and § 1.1502-13(d), S takes the intercompany transaction into account immediately before B becomes a nonmember of the consolidated group. Pursuant to § 1.1502-13(d)(1)(ii)(A)(I), because the QPP is owned by B, a nonmember of the consolidated group immediately after S's gain is taken into account, B is treated as selling the QPP to a nonmember for \$2,500, B's adjusted basis in the property, immediately before B becomes a nonmember of the consolidated group. Accordingly, immediately before B becomes a nonmember of the consolidated group, S takes into account \$1,500 of QPAI (S's \$2,500 DPGR received from B—S's \$1,000 cost of MPGE the QPP).

(iv) *B's 2011 QPAI.* Pursuant to § 1.1502-13(d)(2)(i)(B), the attributes of B's corresponding item, that is, its sale of the QPP to U, are determined as if the S division (but not the B division) were transferred by the P, S, and B consolidated group (treated as a single corporation) to an unrelated person. Thus, S's activities in MPGE the QPP before the intercompany sale of the QPP to B continue to affect the attributes of B's sale of the QPP. As such, B is treated as having

MPGE the QPP. Accordingly, upon its sale of the QPP, B has \$500 of QPAI (B's \$3,000 DPGR received from U minus B's \$2,500 cost of MPGE the QPP).

Example 11. Corporation X is the common parent of a consolidated group, consisting of X and Y, which has filed a consolidated Federal income tax return for many years. Corporation P is the common parent of a consolidated group, consisting of P and S, which has filed a consolidated Federal income tax return for many years. The X and P consolidated groups each file their consolidated Federal income tax returns on a calendar year basis. X, Y, P and S are members of the same EAG in 2008. In 2007, the X consolidated group incurred a consolidated net operating loss (CNOL) of \$25,000, none of which was carried back and used to offset taxable income of prior taxable years. Neither P nor S (nor the P consolidated group) has ever incurred an NOL. In 2008, the X consolidated group has (prior to the deduction under section 172) taxable income of \$8,000 and the P consolidated group has taxable income of \$20,000. The X consolidated group uses \$8,000 of its CNOL from 2007 to offset the X consolidated group's taxable income in 2008. None of the X consolidated group's remaining CNOL may be used to offset taxable income of the P consolidated group under paragraph (b)(3) of this section. Accordingly, for purposes of determining the EAG's section 199 deduction, the EAG has taxable income of \$20,000 (the X consolidated group's taxable income (after the deduction under section 172) of \$0 plus the P consolidated group's taxable income of \$20,000).

(f) *Allocation of income and loss by a corporation that is a member of the expanded affiliated group for only a portion of the year—(1) In general.* A corporation that becomes or ceases to be a member of an EAG during its taxable year must allocate its taxable income or loss, QPAI, and W-2 wages between the portion of the taxable year that it is a member of the EAG and the portion of the taxable year that it is not a member of the EAG. This allocation of items is made by using the pro rata allocation method described in this paragraph (f)(1). Under the pro rata allocation method, an equal portion of a corporation's taxable income or loss, QPAI, and W-2 wages for the taxable year is assigned to each day of the corporation's taxable year. Those items assigned to those days that the corporation was a member of the EAG are then aggregated.

(2) *Coordination with rules relating to the allocation of income under § 1.1502-*

76(b). If § 1.1502-76(b) (relating to items included in a consolidated return) applies to a corporation that is a member of an EAG, then any allocation of items required under this paragraph (f) is made only after the allocation of the corporation's items pursuant to § 1.1502-76(b).

(g) *Total section 199 deduction for a corporation that is a member of an expanded affiliated group for some or all of its taxable year*—(1) *Member of the same expanded affiliated group for the entire taxable year.* If a corporation is a member of the same EAG for its entire taxable year, the corporation's section 199 deduction for the taxable year is the amount of the section 199 deduction allocated to the corporation by the EAG under paragraph (c)(1) of this section.

(2) *Member of the expanded affiliated group for a portion of the taxable year.* If a corporation is a member of an EAG only for a portion of its taxable year and is either not a member of any EAG or is a member of another EAG, or both, for another portion of the taxable year, the corporation's section 199 deduction for the taxable year is the sum of its section 199 deductions for each portion of the taxable year.

(3) *Example.* The following example illustrates the application of paragraphs (f) and (g) of this section:

Example. (i) *Facts.* Corporations X and Y, calendar year corporations, are members of the same EAG for the entire 2010 taxable year. Corporation Z, also a calendar year corporation, is a member of the EAG of which X and Y are members for the first half of 2010 and not a member of any EAG for the second half of 2010. During the 2010 taxable year, neither X, Y, nor Z joins in the filing of a consolidated Federal income tax return. Assume that X, Y, and Z each has W-2 wages in excess of the section 199(b) wage limitation for all relevant periods. In 2010, X has taxable income of \$2,000 and QPAI of \$600, Y has a taxable loss of \$400 and QPAI of (\$200), and Z has taxable income of \$1,400 and QPAI of \$2,400.

(ii) *Analysis.* Pursuant to the pro rata allocation method, \$700 of Z's 2010 taxable income and \$1,200 of Z's 2010 QPAI are allocated to the first half of the 2010 taxable year (the period in which Z is a member of the EAG) and \$700 of Z's 2010 taxable income and \$1,200 of Z's 2010 QPAI are allocated to the second half of the 2010 taxable year (the period in which Z is not a member of any EAG). Accordingly, in 2010, the EAG has taxable income of \$2,300 (X's \$2,000 + Y's (\$400) +

Z's \$700) and QPAI of \$1,600 (X's \$600 + Y's (\$200) + Z's \$1,200). The EAG's section 199 deduction for 2010 is therefore \$144 (9% of the lesser of the EAG's \$2,300 of taxable income or \$1,600 of QPAI). Pursuant to § 1.199-7(c)(1), this \$144 deduction is allocated to X, Y, and Z in proportion to their respective QPAI. Accordingly, X is allocated \$48 of the EAG's section 199 deduction, Y is allocated \$0 of the EAG's section 199 deduction, and Z is allocated \$96 of the EAG's section 199 deduction. For the second half of 2010, Z has taxable income of \$700 and QPAI of \$1,200. Therefore, for the second half of 2010, Z has a section 199 deduction of \$63 (9% of the lesser of its \$700 taxable income or \$1,200 QPAI for the second half of 2010). Accordingly, X's 2010 section 199 deduction is \$48, Y's 2010 section 199 deduction is \$0, and Z's 2010 section 199 deduction is \$159, the sum of the \$96 section 199 deduction of the EAG allocated to Z for the first half of 2010 and Z's \$63 section 199 deduction for the second half of 2010.

(h) *Computation of section 199 deduction for members of an expanded affiliated group with different taxable years*—(1) *In general.* If members of an EAG have different taxable years, in determining the section 199 deduction of a member (the computing member), the computing member is required to take into account the taxable income or loss, determined without regard to the section 199 deduction, QPAI, and W-2 wages of each other group member that are both—

(i) Attributable to the period that each other member of the EAG and the computing member are members of the EAG; and

(ii) Taken into account in a taxable year that begins after the effective date of section 199 and such taxable year ends with or within the taxable year of the computing member with respect to which the section 199 deduction is computed.

(2) *Example.* The following example illustrates the application of this paragraph (h):

Example. (i) Corporations X, Y, and Z are members of the same EAG. Neither X, Y, nor Z is a member of a consolidated group. X and Y are calendar year taxpayers and Z is a June 30 fiscal year taxpayer. Z came into existence on July 1, 2007. Each corporation has taxable income that exceeds its QPAI and has sufficient W-2 wages to avoid the limitation under section 199(b). For the taxable year ending December 31, 2007, X's QPAI is \$8,000 and Y's QPAI is (\$6,000). For its taxable year ending June 30, 2008, Z's QPAI is \$2,000.

(ii) In computing X's and Y's respective section 199 deductions for their taxable years ending December 31, 2007, X's and Y's taxable income, QPAI, and W-2 wages from their respective taxable years ending December 31, 2007, are aggregated. The EAG's QPAI for this purpose is \$2,000 (X's QPAI of \$8,000 + Y's QPAI of (\$6,000)). Because the taxable years of the computing members, X and Y, began in 2007, the transition percentage under section 199(a)(2) is 6%. Accordingly, the EAG's section 199 deduction is \$120 ($\$2,000 \times .06$). The \$120 deduction is allocated to each of X and Y in proportion to their respective QPAI as a percentage of the QPAI of each member of the EAG that was taken into account in computing the EAG's section 199 deduction. Pursuant to paragraph (c)(1) of this section, in allocating the section 199 deduction between X and Y, because Y's QPAI is negative, Y's QPAI is treated as being \$0. Accordingly, X's section 199 deduction for its taxable year ending December 31, 2007, is \$120 ($\$120 \times \$8,000 / (\$8,000 + \$0)$). Y's section 199 deduction for its taxable year ending December 31, 2007, is \$0 ($\$120 \times \$0 / (\$8,000 + \$0)$).

(iii) In computing Z's section 199 deduction for its taxable year ending June 30, 2008, X's and Y's items from their respective taxable years ending December 31, 2007, are taken into account. Therefore, X's and Y's taxable income or loss, determined without regard to the section 199 deduction, QPAI, and W-2 wages from their taxable years ending December 31, 2007, are aggregated with Z's taxable income or loss, QPAI, and W-2 wages from its taxable year ending June 30, 2008. The EAG's QPAI is \$4,000 (X's QPAI of \$8,000 + Y's QPAI of (\$6,000) + Z's QPAI of \$2,000). Because the taxable year of the computing member, Z, began in 2007, the transition percentage under section 199(a)(2) is 6%. Accordingly, the EAG's section 199 deduction is \$240 ($\$4,000 \times .06$). A portion of the \$240 deduction is allocated to Z in proportion to its QPAI as a percentage of the QPAI of each member of the EAG that was taken into account in computing the EAG's section 199 deduction. Pursuant to paragraph (c)(1) of this section, in allocating a portion of the \$240 deduction to Z, because Y's QPAI is negative, Y's QPAI is treated as being \$0. Z's section 199 deduction for its taxable year ending June 30, 2008, is \$48 ($\$240 \times \$2,000 / (\$8,000 + \$0 + \$2,000)$).

[T.D. 9263, 71 FR 31283, June 1, 2006, as amended by T.D. 9293, 71 FR 61679, Oct. 19, 2006; 72 FR 6, Jan. 3, 2007; T.D. 9381, 73 FR 8813, Feb. 15, 2008; T.D. 9384, 73 FR 12271, Mar. 7, 2008]

§ 1.199-8 Other rules.

(a) *In general.* The provisions of this section apply solely for purposes of section 199 of the Internal Revenue Code (Code). When calculating the deduction

under § 1.199-1(a) (section 199 deduction), taxpayers are required to make numerous allocations under §§ 1.199-1 through 1.199-9. In making these allocations, taxpayers may use any reasonable method that is satisfactory to the Secretary based on all of the facts and circumstances, unless the regulations under §§ 1.199-1 through 1.199-9 specify a method. A change in a taxpayer's method of allocating or apportioning gross receipts, cost of goods sold (CGS), expenses, losses, or deductions (deductions) does not constitute a change in method of accounting to which the provisions of sections 446 and 481 and the regulations thereunder apply. For purposes of §§ 1.199-1 through 1.199-9, use of terms such as *payment*, *paid*, *incurred*, or *paid or incurred* is not intended to provide any specific rule based upon the use of one term versus another. In general, the use of the term *payment*, *paid*, *incurred*, or *paid or incurred* is intended to convey the appropriate standard under the taxpayer's method of accounting.

(b) *Individuals.* In the case of an individual, the section 199 deduction is equal to the applicable percentage of the lesser of the taxpayer's qualified production activities income (QPAI) (as defined in § 1.199-1(c)) for the taxable year, or adjusted gross income (AGI) for the taxable year determined after applying sections 86, 135, 137, 219, 221, 222, and 469, and without regard to section 199.

(c) *Trade or business requirement—(1) In general.* Sections 1.199-1 through 1.199-9 are applied by taking into account only items that are attributable to the actual conduct of a trade or business.

(2) *Individuals.* An individual engaged in the actual conduct of a trade or business must apply §§ 1.199-1 through 1.199-9 by taking into account in computing QPAI only items that are attributable to that trade or business (or trades or businesses) and any items allocated from a pass-thru entity engaged in a trade or business. Compensation received by an individual employee for services performed as an employee is not considered gross receipts for purposes of computing QPAI

under §§1.199-1 through 1.199-9. Similarly, any costs or expenses paid or incurred by an individual employee with respect to those services performed as an employee are not considered CGS or deductions of that employee for purposes of computing QPAI under §§1.199-1 through 1.199-9.

(3) *Trusts and estates.* For purposes of this paragraph (c), a trust or estate is treated as an individual.

(d) *Coordination with alternative minimum tax.* For purposes of determining alternative minimum taxable income (AMTI) under section 55, a taxpayer that is not a corporation must deduct an amount equal to 9 percent (3 percent in the case of taxable years beginning in 2005 or 2006, and 6 percent in the case of taxable years beginning in 2007, 2008, or 2009) of the lesser of the taxpayer's QPAI for the taxable year, or the taxpayer's taxable income for the taxable year, determined without regard to the section 199 deduction (or in the case of an individual, AGI). For purposes of determining AMTI in the case of a corporation (including a corporation subject to tax under section 511(a)), a taxpayer must deduct an amount equal to 9 percent (3 percent in the case of taxable years beginning in 2005 or 2006, and 6 percent in the case of taxable years beginning in 2007, 2008, or 2009) of the lesser of the taxpayer's QPAI for the taxable year, or the taxpayer's AMTI for the taxable year, determined without regard to the section 199 deduction. For purposes of computing AMTI, QPAI is determined without regard to any adjustments under sections 56 through 59. In the case of an individual or a non-grantor trust or estate, AGI and taxable income are also determined without regard to any adjustments under sections 56 through 59. The amount of the deduction allowable under this paragraph (d) for any taxable year cannot exceed 50 percent of the W-2 wages of the employer for the taxable year (as determined under §1.199-2). The section 199 deduction is not taken into account in determining the amount of the alternative tax net operating loss deduction (ATNOL) allowed under section 56(a)(4). For example, assume that for the calendar year 2007, a corporation has both AMTI (before the NOL deduction and before the

section 199 deduction) and QPAI of \$1,000,000, and has an ATNOL carryover to 2007 of \$5,000,000. Assume that the taxpayer has W-2 wages in excess of the section 199(b) wage limitation. Under section 56(d), the ATNOL deduction for 2007 is \$900,000 (90 percent of \$1,000,000), reducing AMTI to \$100,000. The taxpayer must then further reduce the AMTI by the section 199 deduction of \$6,000 (six percent of the lesser of \$1,000,000 or \$100,000) to \$94,000. The ATNOL carryover to 2008 is \$4,100,000.

(e) *Nonrecognition transactions*—(1) *In general*—(i) *Sections 351, 721, and 731.* Except as provided for an EAG partnership (as defined in §§1.199-3(i)(8) and 1.199-9(j)) and an expanded affiliated group (EAG) (as defined in §1.199-7), if property is transferred by the taxpayer to an entity in a transaction to which section 351 or 721 applies, then whether the gross receipts derived by the entity are domestic production gross receipts (DPGR) (as defined in §1.199-3) shall be determined based solely on the activities performed by the entity without regard to the activities performed by the taxpayer prior to the contribution of the property to the entity. Except as provided for a qualifying in-kind partnership (as defined in §§1.199-3(i)(7) and 1.199-9(i)) and an EAG partnership, if property is transferred by a partnership to a partner in a transaction to which section 731 applies, then whether gross receipts derived by the partner are DPGR shall be determined based on the activities performed by the partner without regard to the activities performed by the partnership before the distribution of the property to the partner.

(ii) *Exceptions*—(A) *Section 708(b)(1)(B).* If property is deemed to be contributed by a partnership (transferor partnership) to another partnership (transferee partnership) as a result of a termination under section 708(b)(1)(B), then the transferee partnership shall be treated as performing those activities performed by the transferor partnership with respect to the transferred property of the transferor partnership.

(B) *Transfers by reason of death.* If property is transferred upon or by reason of the death of an individual (decedent), then the decedent's successor(s)

in interest shall be treated as having performed those activities performed by or deemed to have been performed (pursuant to § 1.199-3(i)(7) or § 1.199-9(i)) by the decedent with respect to the transferred property. For this purpose, a transfer shall include without limitation the passing of the property by bequest, contractual provision, beneficiary designation, or operation of law, and successor in interest shall include without limitation the decedent's heirs or legatees, the decedent's estate or trust, or the beneficiary or beneficiaries of the decedent's estate or trust.

(2) *Section 1031 exchanges.* If a taxpayer exchanges property for replacement property in a transaction to which section 1031 applies, then whether the gross receipts derived from the lease, rental, license, sale, exchange, or other disposition of the replacement property are DPGR shall be determined based solely on the activities performed by the taxpayer with respect to the replacement property.

(3) *Section 381 transactions.* If a corporation (the acquiring corporation) acquires the assets of another corporation (the target corporation) in a transaction to which section 381(a) applies, then the acquiring corporation shall be treated as performing those activities of the target corporation with respect to the acquired assets of the target corporation. Therefore, to the extent that the acquired assets of the target corporation would have given rise to DPGR if leased, rented, licensed, sold, exchanged, or otherwise disposed of by the target corporation, such assets will give rise to DPGR if leased, rented, licensed, sold, exchanged, or otherwise disposed of by the acquiring corporation (assuming all the other requirements of § 1.199-3 are met).

(f) *Taxpayers with a 52-53 week taxable year.* For purposes of applying § 1.441-2(c)(1) in the case of a taxpayer using a 52-53 week taxable year, any reference in section 199(a)(2) (the phase-in rule), §§ 1.199-1 through 1.199-9 to a taxable year beginning after a particular calendar year means a taxable year beginning after December 31st of that year. Similarly, any reference to a taxable year beginning in a particular calendar

year means a taxable year beginning after December 31st of the preceding calendar year. For example, a 52-53 week taxable year that begins on December 26, 2006, is deemed to begin on January 1, 2007, and the transition percentage for that taxable year is 6 percent.

(g) *Section 481(a) adjustments.* For purposes of determining QPAI, a section 481(a) adjustment, whether positive or negative, taken into account by a taxpayer during the taxable year that is solely attributable to either the taxpayer's gross receipts, CGS, or deductions must be allocated or apportioned between DPGR and non-DPGR using the methods used by a taxpayer to allocate or apportion gross receipts, CGS, and deductions between DPGR and non-DPGR for the current taxable year. See §§ 1.199-1 and 1.199-4 for rules related to the allocation and apportionment of gross receipts, CGS, and deductions, respectively. For example, if a taxpayer changes its method of accounting for inventories from the last-in, first-out (LIFO) method to the first-in, first-out (FIFO) method and the taxpayer uses the small business simplified overall method to apportion CGS between DPGR and non-DPGR, the taxpayer is required to apportion the resulting section 481(a) adjustment, whether positive or negative, between DPGR and non-DPGR using the small business simplified overall method. If a section 481(a) adjustment is not solely attributable to either gross receipts, CGS, or deductions (for example, the taxpayer changes its overall method of accounting from an accrual method to the cash method) and the section 481(a) adjustment cannot be specifically identified with either gross receipts, CGS, or deductions, then the section 481(a) adjustment, whether positive or negative, must be attributed to, or among, gross receipts, CGS, or deductions using any reasonable method that is satisfactory to the Secretary based on all of the facts and circumstances, and then allocated or apportioned between DPGR and non-DPGR using the same methods the taxpayer uses to allocate or apportion gross receipts, CGS, or deductions between DPGR and non-DPGR for the taxable year or taxable years that the section 481(a) adjustment is

taken into account. Factors taken into consideration in determining whether the method is reasonable include whether the taxpayer uses the most accurate information available; the relationship between the section 481(a) adjustment and the apportionment base chosen; the accuracy of the method chosen as compared with other possible methods; and the time, burden, and cost of using alternative methods. If a section 481(a) adjustment is spread over more than one taxable year, then a taxpayer must attribute the section 481(a) adjustment among gross receipts, CGS, or deductions, as applicable, in the same amount for each taxable year within the spread period. For example, if a taxpayer, using a reasonable method that is satisfactory to the Secretary based on all of the facts and circumstances, determines that a section 481(a) adjustment that is required to be spread over four taxable years should be attributed half to gross receipts and half to deductions, then the taxpayer must attribute the section 481(a) adjustment half to gross receipts and half to deductions in each of the four taxable years of the spread period. Further, if such taxpayer uses the simplified deduction method to apportion deductions between DPGR and non-DPGR in the first taxable year of the spread period, then the taxpayer must use the simplified deduction method to apportion half the section 481(a) adjustment for that taxable year between DPGR and non-DPGR for that taxable year. Similarly, if in the second taxable year of the spread period the taxpayer uses the section 861 method to apportion and allocate costs between DPGR and non-DPGR, then the taxpayer must use the section 861 method to allocate and apportion half the section 481(a) adjustment for that taxable year between DPGR and non-DPGR for that taxable year.

(h) *Disallowed losses or deductions.* Except as provided by publication in the Internal Revenue Bulletin (see § 601.601(d)(2)(ii)(b) of this chapter), losses or deductions of a taxpayer that otherwise would be taken into account in computing the taxpayer's section 199 deduction are taken into account only if and to the extent the deductions are not disallowed by section 465 or 469, or

any other provision of the Code. If only a portion of the taxpayer's share of the losses or deductions is allowed for a taxable year, the proportionate share of those allowable losses or deductions that are allocated to the taxpayer's qualified production activities, determined in a manner consistent with sections 465 and 469, and any other applicable provision of the Code, is taken into account in computing QPAI for purposes of the section 199 deduction for that taxable year. To the extent that any of the disallowed losses or deductions are allowed in a later year, the taxpayer takes into account a proportionate share of those losses or deductions in computing it QPAI for that later taxable year. Losses or deductions of the taxpayer that are disallowed for taxable years beginning on or before December 31, 2004, are not taken into account in a later year for purposes of computing the taxpayer's QPAI and the wage limitation of section 199(d)(1)(A)(iii) under § 1.199-9 for that taxable year, regardless of whether the losses or deductions are allowed for other purposes. For taxpayers that are partners in partnerships, see §§ 1.199-5(b)(2) and 1.199-9(b)(2). For taxpayers that are shareholders in S corporations, see §§ 1.199-5(c)(2) and 1.199(c)(2).

(i) *Effective dates—(1) In general.* Section 199 applies to taxable years beginning after December 31, 2004. Sections 1.199-1 through 1.199-8 are applicable for taxable years beginning on or after June 1, 2006. For a taxable year beginning on or before May 17, 2006, the enactment date of the Tax Increase Prevention and Reconciliation Act of 2005 (Pub. L. 109-222, 120 Stat. 345), a taxpayer may apply §§ 1.199-1 through 1.199-9 provided that the taxpayer applies all provisions in §§ 1.199-1 through 1.199-9 to the taxable year. For a taxable year beginning after May 17, 2006, and before June 1, 2006, a taxpayer may apply §§ 1.199-1 through 1.199-8 provided that the taxpayer applies all provisions in §§ 1.199-1 through 1.199-8 to the taxable year. For a taxpayer who chooses not to rely on these final regulations for a taxable year beginning before June 1, 2006, the guidance under section 199 that applies to such taxable year is contained in Notice 2005-14 (2005-1 C.B.

498) (see § 601.601(d)(2) of this chapter). In addition, a taxpayer also may rely on the provisions of REG-105847-05 (2005-47 I.R.B. 987) (see § 601.601(d)(2) of this chapter) for a taxable year beginning before June 1, 2006. If Notice 2005-14 and REG-105847-05 include different rules for the same particular issue, then a taxpayer may rely on either the rule set forth in Notice 2005-14 or the rule set forth in REG-105847-05. However, if REG-105847-05 includes a rule that was not included in Notice 2005-14, then a taxpayer is not permitted to rely on the absence of a rule in Notice 2005-14 to apply a rule contrary to REG-105847-05. For taxable years beginning after May 17, 2006, and before June 1, 2006, a taxpayer may not apply Notice 2005-14, REG-105847-05, or any other guidance under section 199 in a manner inconsistent with amendments made to section 199 by section 514 of the Tax Increase Prevention and Reconciliation Act of 2005.

(2) *Pass-thru entities.* In determining the deduction under section 199, items arising from a taxable year of a partnership, S corporation, estate, or trust beginning before January 1, 2005, shall not be taken into account for purposes of section 199(d)(1).

(3) *Non-consolidated EAG members.* A member of an EAG that is not a member of a consolidated group may apply paragraph (i)(1) of this section without regard to how other members of the EAG apply paragraph (i)(1) of this section.

(4) *Computer software.* Section 1.199-3(i)(5)(ii)(B) and (i)(6)(ii) through (v) are applicable for taxable years beginning on or after March 20, 2007. A taxpayer may apply § 1.199-3(i)(5)(ii)(B) and (i)(6)(ii) through (v) to taxable years beginning after December 31, 2004, and before March 20, 2007.

(5) *Tax Increase Prevention and Reconciliation Act of 2005.* Sections 1.199-2(e)(2), 1.199-3(i)(7) and (8), and 1.199-5 are applicable for taxable years beginning on or after October 19, 2006. A taxpayer may apply §§ 1.199-2(e)(2), 1.199-3(i)(7) and (8), and 1.199-5 to taxable years beginning after May 17, 2006, and before October 19, 2006, regardless of whether the taxpayer otherwise relied upon Notice 2005-14 (2005-1 CB 498) (see § 601.601(d)(2)(ii)(b) of this chapter), the

provisions of REG-105847-05 (2005-2 CB 987), or §§ 1.199-1 through 1.199-8.

(6) *Losses used to reduce taxable income of expanded affiliated group.* Section 1.199-7(b)(4) is applicable for taxable years beginning on or after February 15, 2008. For taxable years beginning on or after October 19, 2006, and before February 15, 2008, see § 1.199-7T(b)(4) (see 26 CFR part 1 revised as of April 1, 2007).

(7) *Agricultural and horticultural cooperatives.* Section 1.199-6(c) is applicable for taxable years beginning on or after March 20, 2007. A taxpayer may apply § 1.199-6(c) to taxable years beginning after December 31, 2004, and before March 20, 2007.

(8) *Qualified film produced by the taxpayer.* Section 1.199-3(k) is applicable to taxable years beginning on or after March 7, 2008. A taxpayer may apply § 1.199-3(k) to taxable years beginning after December 31, 2004, and before March 7, 2008. However, for taxable years beginning before June 1, 2006, a taxpayer may rely on § 1.199-3(k) only if the taxpayer does not apply Notice 2005-14 (2005-1 CB 498) (see § 601.601(d)(2)(ii)(b) of this chapter) or REG-105847-05 (2005-2 CB 987) (see § 601.601(d)(2)(ii)(b) of this chapter) to the taxable year.

(9) *Expanded affiliated groups.* Section 1.199-7(e), *Example 10*, (f)(1), and (g)(3) are applicable to taxable years beginning on or after March 7, 2008. A taxpayer may apply § 1.199-7(e), *Example 10*, to taxable years beginning after December 31, 2004, and before March 7, 2008.

(10) *Acquisitions, dispositions, and short taxable years.* [Reserved]. For further guidance, see § 1.199-8T(i)(10).

[T.D. 9263, 71 FR 31283, June 1, 2006, as amended by T.D. 9293, 71 FR 61680, Oct. 19, 2006; T.D. 9263, 72 FR 6, Jan. 3, 2007; T.D. 9317, 72 FR 12973, Mar. 20, 2007; T.D. 9381, 73 FR 8814, Feb. 15, 2008; T.D. 9384, 73 FR 12272, Mar. 7, 2008; T.D. 9381, 73 FR 16519, Mar. 28, 2008; T.D. 9731, 80 FR 51941, Aug. 27, 2015]

§ 1.199-8T Other rules (temporary).

(a) through (h) [Reserved]. For further guidance, see § 1.199-8(a) through (h).

(i) *Effective/applicability dates.* (1) through (9) [Reserved]. For further guidance, see § 1.199-8(i)(1) through (9).

(10) *Acquisitions, dispositions, and short taxable years.* Section 1.199-2T(c) is applicable for taxable years beginning on or after August 27, 2015. A taxpayer may apply § 1.199-2T(c) to taxable years for which the limitations for assessment of tax has not expired beginning before August 27, 2015.

(11) *Expiration date.* The applicability of § 1.199-2T(c) expires on August 24, 2018.

[T.D. 9731, 80 FR 51941, Aug. 27, 2015]

§ 1.199-9 Application of section 199 to pass-thru entities for taxable years beginning on or before May 17, 2006, the enactment date of the Tax Increase Prevention and Reconciliation Act of 2005.

(a) *In general.* The provisions of this section apply solely for purposes of section 199 of the Internal Revenue Code (Code).

(b) *Partnerships—(1) In general—(i) Determination at partner level.* The deduction with respect to the qualified production activities of the partnership allowable under § 1.199-1(a) (section 199 deduction) is determined at the partner level. As a result, each partner must compute its deduction separately. The section 199 deduction has no effect on the adjusted basis of the partner's interest in the partnership. Except as provided by publication pursuant to paragraph (b)(1)(ii) of this section, for purposes of this section, each partner is allocated, in accordance with sections 702 and 704, its share of partnership items (including items of income, gain, loss, and deduction), cost of goods sold (CGS) allocated to such items of income, and gross receipts that are included in such items of income, even if the partner's share of CGS and other deductions and losses exceeds domestic production gross receipts (DPGR) (as defined in § 1.199-3(a)) and regardless of the amount of the partner's share of W-2 wages (as defined in § 1.199-2(e)) of the partnership for the taxable year. A partnership may specially allocate items of income, gain, loss, or deduction to its partners, subject to the rules of section 704(b) and the supporting regulations. Guaranteed payments under section 707(c) are not considered allocations of partnership income for purposes of this section.

Guaranteed payments under section 707(c) are deductions by the partnership that must be taken into account under the rules of § 1.199-4. See § 1.199-3(p) and paragraph (b)(6) *Example 5* of this section. Except as provided in paragraph (b)(1)(ii) of this section, to determine its section 199 deduction for the taxable year, a partner aggregates its distributive share of such items, to the extent they are not otherwise disallowed by the Code, with those items it incurs outside the partnership (whether directly or indirectly) for purposes of allocating and apportioning deductions to DPGR and computing its qualified production activities income (QPAI) (as defined in § 1.199-1(c)).

(ii) *Determination at entity level.* The Secretary may, by publication in the Internal Revenue Bulletin (see § 601.601(d)(2)(ii)(b) of this chapter), permit a partnership to calculate a partner's share of QPAI at the entity level, instead of allocating, in accordance with sections 702 and 704, the partner's share of partnership items (including items of income, gain, loss, and deduction). If a partnership does calculate QPAI at the entity level—

(A) The partner is allocated its share of QPAI and W-2 wages (as defined in § 1.199-2(e)), which (subject to the limitations of paragraph (b)(2) of this section and section 199(d)(1)(A)(iii), respectively) are combined with the partner's QPAI and W-2 wages from other sources;

(B) For purposes of computing the partner's QPAI under §§ 1.199-1 through 1.199-9, a partner does not take into account the items from the partnership (for example, a partner does not take into account items from the partnership in determining whether a threshold or de minimis rule applies or in allocating and apportioning deductions) in calculating its QPAI from other sources;

(C) A partner generally does not recompute its share of QPAI from the partnership using another method; however, the partner might have to adjust its share of QPAI from the partnership to take into account certain disallowed losses or deductions, or the allowance of suspended losses or deductions; and

(D) A partner's distributive share of QPAI from a partnership may be less than zero.

(2) *Disallowed losses or deductions.* Except as provided by publication in the Internal Revenue Bulletin (see § 601.601(d)(2)(ii)(b) of this chapter), losses or deductions of a partnership that otherwise would be taken into account in computing the partner's section 199 deduction for a taxable year are taken into account in that year only if and to the extent the partner's distributive share of those losses or deductions from all of the partnership's activities is not disallowed by section 465, 469, or 704(d), or any other provision of the Code. If only a portion of the partner's distributive share of the losses or deductions is allowed for a taxable year, a proportionate share of those allowable losses or deductions that are allocated to the partnership's qualified production activities, determined in a manner consistent with sections 465, 469, and 704(d), and any other applicable provision of the Code, is taken into account in computing QPAI and the wage limitation of section 199(d)(1)(A)(iii) for that taxable year. To the extent that any of the disallowed losses or deductions are allowed in a later taxable year, the partner takes into account a proportionate share of those losses or deductions in computing its QPAI for that later taxable year. Losses or deductions of the partnership that are disallowed for taxable years beginning on or before December 31, 2004, are not taken into account in a later taxable year for purposes of computing the partner's QPAI or the wage limitation of section 199(d)(1)(A)(iii) for that taxable year, regardless of whether the losses or deductions are allowed for other purposes.

(3) *Partner's share of W-2 wages.* Under section 199(d)(1)(A)(iii), a partner's share of W-2 wages of a partnership for purposes of determining the partner's section 199(b) wage limitation is the lesser of the partner's allocable share of those wages (without regard to section 199(d)(1)(A)(iii)), or 2 times 3 percent of the QPAI computed by taking into account only the items of the partnership allocated to the partner for the taxable year of the partnership. Ex-

cept as provided by publication in the Internal Revenue Bulletin (see § 601.601(d)(2)(ii)(b) of this chapter), this QPAI calculation is performed by the partner using the same cost allocation method that the partner uses in calculating the partner's section 199 deduction. The partnership must allocate W-2 wages (prior to the application of the wage limitation) among the partners in the same manner as wage expense. The partner must add the partner's share of the W-2 wages from the partnership, as limited by section 199(d)(1)(A)(iii), to the partner's W-2 wages from other sources, if any. If QPAI, computed by taking into account only the items of the partnership allocated to the partner for the taxable year (as required by the wage limitation of section 199(d)(1)(A)(iii)) is not greater than zero, then the partner may not take into account any W-2 wages of the partnership in applying the wage limitation of § 1.199-2 (but the partner will, nevertheless, aggregate its distributive share of partnership items including wage expense with those items not from the partnership in computing its QPAI when determining its section 199 deduction). See § 1.199-2 for the computation of W-2 wages, and paragraph (g) of this section for rules regarding pass-thru entities in a tiered structure.

(4) *Transition percentage rule for W-2 wages.* With regard to partnerships, for purposes of section 199(d)(1)(A)(iii)(II) the transition percentages determined under section 199(a)(2) shall be determined by reference to the partnership's taxable year. Thus, if a partner uses a calendar year taxable year, and owns an interest in a partnership that has a taxable year ending on April 30, the partner's section 199(d)(1)(A)(iii) wage limitation for the partnership's taxable year beginning on May 1, 2006, would be calculated using 3 percent, even though the partner includes the partner's distributive share of partnership items from that taxable year on the partner's 2007 Federal income tax return.

(5) *Partnerships electing out of subchapter K.* For purposes of §§ 1.199-1 through 1.199-9, the rules of this paragraph (b) apply to all partnerships, including those partnerships electing under section 761(a) to be excluded, in whole or in part, from the application

Internal Revenue Service, Treasury

§ 1.199-9

of subchapter K of chapter 1 of the Code.

(6) *Examples.* The following examples illustrate the application of this paragraph (b). Assume that each partner has sufficient adjusted gross income or taxable income so that the section 199 deduction is not limited under section 199(a)(1)(B); that the partnership and each of its partners (whether individual or corporate) are calendar year taxpayers; and that the amount of the partnership's W-2 wages equals wage expense for each taxable year. The examples are as follows:

Example 1. Section 861 method with interest expense. (i) *Partnership Federal income tax*

DPGR	\$3,000
Non-DPGR	3,000
CGS (includes \$200 of W-2 wages)	3,240
Section 162 selling expenses (includes \$300 of W-2 wages)	1,200
Interest expense (not included in CGS)	300

(ii) *Allocation of PRS's items of income, gain, loss, deduction, or credit.* X and Y each receive the following distributive share of PRS's

items. X and Y, unrelated United States corporations, are each 50% partners in PRS, a partnership that engages in production activities that generate both DPGR and non-DPGR. X and Y share all items of income, gain, loss, deduction, and credit 50% each. Both X and Y are engaged in a trade or business. PRS is not able to specifically identify CGS allocable to DPGR and non-DPGR. In this case, because CGS is definitely related under the facts and circumstances to all of PRS's gross income, apportionment of CGS between DPGR and non-DPGR based on gross receipts is appropriate. For 2006, the adjusted basis of PRS's business assets is \$5,000, \$4,000 of which generate gross income attributable to DPGR and \$1,000 of which generate gross income attributable to non-DPGR. For 2006, PRS has the following Federal income items:

items of income, gain, loss, deduction or credit, as determined under the principles of § 1.704-1(b)(1)(vii):

Gross income attributable to DPGR (\$1,500 (DPGR) – \$810 (allocable CGS, includes \$50 of W-2 wages))	\$690
Gross income attributable to non-DPGR (\$1,500 (non-DPGR) – \$810 (allocable CGS, includes \$50 of W-2 wages))	690
Section 162 selling expenses (includes \$150 of W-2 wages)	600
Interest expense (not included in CGS)	150

(iii) *Determination of QPAI.* (A) *X's QPAI.* Because the section 199 deduction is determined at the partner level, X determines its QPAI by aggregating, to the extent necessary, its distributive share of PRS's Federal income tax items with all other such items from all other, non-PRS-related activities. For 2006, X does not have any other such items. For 2006, the adjusted basis of X's non-PRS assets, all of which are investment assets, is \$10,000. X's only gross receipts for 2006 are those attributable to the allocation of gross income from PRS. X allocates and apportions its deductible items to

gross income attributable to DPGR under the section 861 method of § 1.199-4(d). In this case, the section 162 selling expenses (including W-2 wages) are definitely related to all of PRS's gross receipts. Based on the facts and circumstances of this specific case, apportionment of those expenses between DPGR and non-DPGR on the basis of PRS's gross receipts is appropriate. X elects to apportion its distributive share of interest expense under the tax book value method of § 1.861-9T(g). X's QPAI for 2006 is \$366, as shown below:

DPGR	\$1,500
CGS allocable to DPGR (includes \$50 of W-2 wages)	(810)
Section 162 selling expenses (includes \$75 of W-2 wages) (\$600 × \$1,500/\$3,000)	(300)

Interest expense (not included in CGS) (\$150 × \$2,000 (X's share of PRS's DPGR assets)/\$12,500 (X's non-PRS assets (\$10,000) and X's share of PRS assets (\$2,500)))	(24)
X's QPAI	366

(B) Y's QPAI. (1) For 2006, in addition to the activities of PRS, Y engages in production activities that generate both DPGR and non-DPGR. Y is able to specifically identify CGS allocable to DPGR and to non-DPGR. For 2006, the adjusted basis of Y's non-PRS

assets attributable to its production activities that generate DPGR is \$8,000 and to other production activities that generate non-DPGR is \$2,000. Y has no other assets. Y has the following Federal income tax items relating to its non-PRS activities:

Gross income attributable to DPGR (\$1,500 (DPGR) – \$900 (allocable CGS, includes \$70 of W-2 wages))	\$600
Gross income attributable to non-DPGR (\$3,000 (other gross receipts) – \$1,620 (allocable CGS, includes \$150 of W-2 wages))	1,380
Section 162 selling expenses (includes \$30 of W-2 wages)	540
Interest expense (not included in CGS)	90

(2) Y determines its QPAI in the same general manner as X. However, because Y has other trade or business activities outside of PRS, Y must aggregate its distributive share of PRS's Federal income tax items with its own such items. Y allocates and apports its deductible items to gross income attributable to DPGR under the section 861 method of § 1.199-4(d). In this case, Y's distributive share of PRS's section 162 selling expenses (including W-2 wages), as well as those selling expenses from Y's non-PRS activities, are definitely related to all of its gross in-

come. Based on the facts and circumstances of this specific case, apportionment of those expenses between DPGR and non-DPGR on the basis of Y's gross receipts is appropriate. Y elects to apportion its distributive share of interest expense under the tax book value method of § 1.861-9T(g). Y has \$1,290 of gross income attributable to DPGR (\$3,000 DPGR (\$1,500 from PRS and \$1,500 from non-PRS activities)—\$1,710 CGS (\$810 from PRS and \$900 from non-PRS activities)). Y's QPAI for 2006 is \$642, as shown below:

DPGR (\$1,500 from PRS and \$1,500 from non-PRS activities)	\$3,000
CGS allocable to DPGR (\$810 from PRS and \$900 from non-PRS activities) (includes \$120 of W-2 wages)	(1,710)
Section 162 selling expenses (includes \$180 of W-2 wages) (\$1,140 (\$600 from PRS and \$540 from non-PRS activities) × (\$1,500 PRS DPGR + \$1,500 non-PRS DPGR)/(\$3,000 PRS total gross receipts + \$4,500 non-PRS total gross receipts))	(456)
Interest expense (not included in CGS) (\$240 (\$150 from PRS and \$90 from non-PRS activities) × \$10,000 (Y's non-PRS DPGR assets (\$8,000) and Y's share of PRS DPGR assets (\$2,000))/ \$12,500 (Y's non-PRS assets (\$10,000) and Y's share of PRS assets (\$2,500)))	(192)
Y's QPAI	642

(iv) PRS W-2 wages allocated to X and Y under section 199(d)(1)(A)(iii). Solely for purposes of calculating the PRS W-2 wages that are allocated to them under section 199(d)(1)(A)(iii) for purposes of the wage limitation of section 199(b), X and Y must separately determine QPAI taking into account only the items of PRS allocated to them. X and Y must use the same methods of alloca-

tion and apportionment that they use to determine their QPAI in paragraphs (iii)(A) and (B) of this *Example 1*, respectively. Accordingly, X and Y must apportion deductible section 162 selling expenses that include W-2 wage expense on the basis of gross receipts, and must apportion interest expense according to the tax book value method of § 1.861-9T(g).

Internal Revenue Service, Treasury

§ 1.199-9

(A) QPAI of X and Y, solely for this purpose, is determined by allocating and apportioning each partner's share of PRS expenses to each partner's share of PRS gross income

of \$690 attributable to DPGR (\$1,500 DPGR – \$810 CGS, apportioned based on gross receipts). Thus, QPAI of X and Y solely for this purpose is \$270, as shown below:

DPGR	\$1,500
CGS allocable to DPGR	(810)
Section 162 selling expenses (including W-2 wages) ($\$600 \times (\$1,500/\$3,000)$)	(300)
Interest expense (not included in CGS) ($\$150 \times \$2,000$ (partner's share of adjusted basis of PRS's DPGR assets)/\$2,500 (partner's share of adjusted basis of total PRS assets))	(120)
QPAI	270

(B) X's and Y's shares of PRS's W-2 wages determined under section 199(d)(1)(A)(iii) for purposes of the wage limitation of section 199(b) are \$16, the lesser of \$250 (partner's allocable share of PRS's W-2 wages (\$100 included in total CGS, and \$150 included in selling expenses) and $\$16 (2 \times (\$270 \times .03))$.

(v) *Section 199 deduction determination.* (A) X's tentative section 199 deduction is \$11 ($.03 \times \366 (that is, QPAI determined at partner level)) subject to the wage limitation of \$8 ($50\% \times \16). Accordingly, X's section 199 deduction for 2006 is \$8.

(B) Y's tentative section 199 deduction is \$19 ($.03 \times \642 (that is, QPAI determined at the partner level) subject to the wage limitation of \$133 ($50\% \times (\16 from PRS and \$250 from non-PRS activities)). Accordingly, Y's section 199 deduction for 2006 is \$19.

Example 2. Section 861 method with R&E expense. (i) *Partnership items of income, gain, loss, deduction or credit.* X and Y, unrelated United States corporations each of which is engaged in a trade or business, are partners in PRS, a partnership that engages in production activities that generate both DPGR

and non-DPGR. Neither X nor Y is a member of an affiliated group. X and Y share all items of income, gain, loss, deduction, and credit 50% each. All of PRS's domestic production activities that generate DPGR are within Standard Industrial Classification (SIC) Industry Group AAA (SIC AAA). All of PRS's production activities that generate non-DPGR are within SIC Industry Group BBB (SIC BBB). PRS is not able to specifically identify CGS allocable to DPGR and to non-DPGR and, therefore, apportions CGS to DPGR and non-DPGR based on its gross receipts. PRS incurs \$900 of research and experimentation expenses (R&E) that are deductible under section 174, \$300 of which are performed with respect to SIC AAA and \$600 of which are performed with respect to SIC BBB. None of the R&E is legally mandated R&E as described in §1.861-17(a)(4) and none is included in CGS. PRS incurs section 162 selling expenses (that include W-2 wage expense) that are not includible in CGS and are definitely related to all of PRS's gross income. For 2006, PRS has the following Federal income tax items:

DPGR (all from sales of products within SIC AAA)	\$3,000
Non-DPGR (all from sales of products within SIC BBB)	3,000
CGS (includes \$200 of W-2 wages)	2,400
Section 162 selling expenses (includes \$100 of W-2 wages)	840
Section 174 R&E-SIC AAA	300
Section 174 R&E-SIC BBB	600

(ii) *Allocation of PRS's items of income, gain, loss, deduction, or credit.* X and Y each receive the following distributive share of PRS's

items of income, gain, loss, deduction, or credit, as determined under the principles of §1.704-1(b)(1)(vii):

Gross income attributable to DPGR (\$1,500 (DPGR) – \$600 (CGS, includes \$50 of W-2 wages))	\$900
Gross income attributable to non-DPGR (\$1,500 (other gross receipts) – \$600 (CGS, includes \$50 of W-2 wages))	900
Section 162 selling expenses (includes \$50 of W-2 wages)	420
Section 174 R&E-SIC AAA	150

Section 174 R&E-SIC BBB	300
-------------------------------	-----

(iii) *Determination of QPAI.* (A) *X's QPAI.* Because the section 199 deduction is determined at the partner level, X determines its QPAI by aggregating, to the extent necessary, its distributive shares of PRS's Federal income tax items with all other such items from all other, non-PRS-related activities. For 2006, X does not have any other such tax items. X's only gross receipts for 2006 are those attributable to the allocation of gross income from PRS. As stated, all of PRS's domestic production activities that generate DPGR are within SIC AAA. X allocates and apports its deductible items to gross income attributable to DPGR under the section 861 method of § 1.199-4(d). In this case, the section 162 selling expenses (includ-

ing W-2 wages) are definitely related to all of PRS's gross income. Based on the facts and circumstances of this specific case, apportionment of those expenses between DPGR and non-DPGR on the basis of PRS's gross receipts is appropriate. For purposes of apportioning R&E, X elects to use the sales method as described in § 1.861-17(c). Because X has no direct sales of products, and because all of PRS's SIC AAA sales attributable to X's share of PRS's gross income generate DPGR, all of X's share of PRS's section 174 R&E attributable to SIC AAA is taken into account for purposes of determining X's QPAI. Thus, X's total QPAI for 2006 is \$540, as shown below:

DPGR (all from sales of products within SIC AAA)	\$1,500
CGS (includes \$50 of W-2 wages)	(600)
Section 162 selling expenses (including W-2 wages) (\$420 × (\$1,500 DPGR/ \$3,000 total gross receipts))	(210)
Section 174 R&E-SIC AAA	(150)
X's QPAI	540

(B) *Y's QPAI.* (I) For 2006, in addition to the activities of PRS, Y engages in domestic production activities that generate both DPGR and non-DPGR. With respect to those non-PRS activities, Y is not able to specifically identify CGS allocable to DPGR and to non-DPGR. In this case, because CGS is defi-

nately related under the facts and circumstances to all of Y's non-PRS gross receipts, apportionment of CGS between DPGR and non-DPGR based on Y's non-PRS gross receipts is appropriate. For 2006, Y has the following non-PRS Federal income tax items:

DPGR (from sales of products within SIC AAA)	\$1,500
DPGR (from sales of products within SIC BBB)	1,500
Non-DPGR (from sales of products within SIC BBB)	3,000
CGS (allocated to DPGR within SIC AAA) (includes \$56 of W-2 wages)	750
CGS (allocated to DPGR within SIC BBB) (includes \$56 of W-2 wages)	750
CGS (allocated to non-DPGR within SIC BBB) (includes \$113 of W-2 wages) ..	1,500
Section 162 selling expenses (includes \$30 of W-2 wages)	540
Section 174 R&E-SIC AAA	300
Section 174 R&E-SIC BBB	450

(2) Because Y has DPGR as a result of activities outside PRS, Y must aggregate its distributive share of PRS's Federal income tax items with such items from all its other, non-PRS-related activities. Y allocates and apports its deductible items to gross income attributable to DPGR under the section 861 method of § 1.199-4(d). In this case, the section 162 selling expenses (including W-2 wages) are definitely related to all of Y's gross income. Based on the facts and circumstances of the specific case, apportion-

ment of such expenses between DPGR and non-DPGR on the basis of Y's gross receipts is appropriate. For purposes of apportioning R&E, Y elects to use the sales method as described in § 1.861-17(c).

(3) With respect to sales that generate DPGR, Y has gross income of \$2,400 (\$4,500 DPGR (\$1,500 from PRS and \$3,000 from non-PRS activities) – \$2,100 CGS (\$600 from sales of products by PRS and \$1,500 from non-PRS activities)). Because all of the sales in SIC AAA generate DPGR, all of Y's share of

Internal Revenue Service, Treasury

§ 1.199-9

PRS's section 174 R&E attributable to SIC AAA and the section 174 R&E attributable to SIC AAA that Y incurs in its non-PRS activities are taken into account for purposes of determining Y's QPAI. Because only a por-

tion of the sales within SIC BBB generate DPGR, only a portion of the section 174 R&E attributable to SIC BBB is taken into account in determining Y's QPAI. Thus, Y's QPAI for 2006 is \$1,282, as shown below:

DPGR (\$4,500 DPGR (\$1,500 from PRS and \$3,000 from non-PRS activities))	\$4,500
CGS (\$600 from sales of products by PRS and \$1,500 from non-PRS activities)	(2,100)
Section 162 selling expenses (including W-2 wages) (\$420 from PRS + \$540 from non-PRS activities) \times (\$4,500 DPGR/\$9,000 total gross receipts)	(480)
Section 174 R&E-SIC AAA (\$150 from PRS and \$300 from non-PRS activities)	(450)
Section 174 R&E-SIC BBB (\$300 from PRS + \$450 from non-PRS activities) \times (\$1,500 DPGR/\$6,000 total gross receipts allocated to SIC BBB (\$1,500 from PRS and \$4,500 from non-PRS activities))	(188)
Y's QPAI	1,282

(iv) *PRS W-2 wages allocated to X and Y under section 199(d)(1)(A)(iii).* Solely for purposes of calculating the PRS W-2 wages that are allocated to X and Y under section 199(d)(1)(A)(iii) for purposes of the wage limitation of section 199(b), X and Y must separately determine QPAI taking into account only the items of PRS allocated to them. X and Y must use the same methods of allocation and apportionment that they use to determine their QPAI in paragraphs (iii)(A) and (B) of this *Example 2*, respectively. Accordingly, X and Y must apportion section 162 selling expenses that include W-2 wage expense on the basis of gross receipts, and apportion section 174 R&E expense under the sales method as described in § 1.861-17(c).

(A) QPAI of X and Y, solely for this purpose, is determined by allocating and apportioning each partner's share of PRS expenses to each partner's share of PRS gross income of \$900 attributable to DPGR (\$1,500 DPGR—\$600 CGS, allocated based on PRS's gross receipts). Because all of PRS's SIC AAA sales generate DPGR, all of X's and Y's shares of PRS's section 174 R&E attributable to SIC AAA is taken into account for purposes of determining X's and Y's QPAI. None of PRS's section 174 R&E attributable to SIC BBB is taken into account because PRS has no DPGR within SIC BBB. Thus, X and Y each has QPAI, solely for this purpose, of \$540, as shown below:

DPGR (all from sales of products within SIC AAA)	\$1,500
CGS (includes \$50 of W-2 wages)	(600)
Section 162 selling expenses (including W-2 wages) ($\$420 \times \$1,500/\$3,000$)	(210)
Section 174 R&E-SIC AAA	(150)
QPAI	540

(B) X's and Y's shares of PRS's W-2 wages determined under section 199(d)(1)(A)(iii) for purposes of the wage limitation of section 199(b) are \$32, the lesser of \$150 (partner's allocable share of PRS's W-2 wages (\$100 included in CGS, and \$50 included in selling expenses)) and $\$32 (2 \times (\$540 \times .03))$.

(v) *Section 199 deduction determination.* (A) X's tentative section 199 deduction is $\$16 (.03 \times \$540)$ (QPAI determined at partner level) subject to the wage limitation of $\$16 (50\% \times \$32)$. Accordingly, X's section 199 deduction for 2006 is \$16.

(B) Y's tentative section 199 deduction is $\$38 (.03 \times \$1,282)$ (QPAI determined at partner

level) subject to the wage limitation of \$144 ($50\% \times \287 (\$32 from PRS + \$255 from non-PRS activities)). Accordingly, Y's section 199 deduction for 2006 is \$38.

Example 3. Partnership with special allocations. (i) *In general.* X and Y are unrelated corporate partners in PRS and each is engaged in a trade or business. PRS is a partnership that engages in a domestic production activity and other activities. In general, X and Y share all partnership items of income, gain, loss, deduction, and credit equally, except that 80% of the wage expense of PRS and 20% of PRS's other expenses are

specially allocated to X (substantial economic effect under section 704(b) is presumed). In the 2006 taxable year, PRS's only wage expense is \$2,000 for marketing, which is not included in CGS. PRS has \$8,000 of gross receipts (\$6,000 of which is DPGR), \$4,000 of CGS (\$3,500 of which is allocable to DPGR), and \$3,000 of deductions (comprised of \$2,000 of wages for marketing and \$1,000 of other expenses). X qualifies for and uses the simplified deduction method under § 1.199-4(e). Y does not qualify to use that method and, therefore, must use the section 861 method under § 1.199-4(d). In the 2006 taxable year, X has gross receipts attributable to non-partnership trade or business activities of \$1,000 and wages of \$200. None of X's non-PRS gross receipts is DPGR.

(i) *Allocation and apportionment of costs.* Under the partnership agreement, X's distributive share of the items of PRS is \$1,250 of gross income attributable to DPGR (\$3,000 DPGR \times \$1,750 allocable CGS), \$750 of gross income attributable to non-DPGR (\$1,000 non-DPGR \times \$250 allocable CGS), and \$1,800 of deductions (comprised of X's special allocations of \$1,600 of wage expense (\$2,000 \times 80%) for marketing and \$200 of other expenses (\$1,000 \times 20%)). Under the simplified deduction method, X apportions \$1,200 of other deductions to DPGR (\$2,000 (\$1,800 from the partnership and \$200 from non-partnership activities) \times (\$3,000 DPGR/\$5,000 total gross receipts)). Accordingly, X's QPAI is \$50 (\$3,000 DPGR \times \$1,750 CGS \times \$1,200 of deductions). However, in determining the section 199(d)(1)(A)(iii) wage limitation, QPAI is computed taking into account only the items of PRS allocated to X for the taxable year of PRS. Thus, X apportions \$1,350 of deductions to DPGR (\$1,800 \times (\$3,000 DPGR/\$4,000 total gross receipts from PRS)). Accordingly, X's QPAI for purposes of the section 199(d)(1)(A)(iii) wage limitation is \$0 (\$3,000 DPGR \times \$1,750 CGS \times \$1,350 of deductions). X's share of PRS's W-2 wages is \$0, the lesser of \$1,600 (X's 80% allocable share of \$2,000 of wage expense for marketing) and \$0 (2 \times (\$0 QPAI \times .03)). X's tentative deduction is \$2 (\$50 QPAI \times .03), subject to the section 199(b)(1) wage limitation of \$100 (50% \times \$200 (\$0 of PRS-related W-2 wages + \$200 of non-PRS W-2 wages)). Accordingly, X's section 199 deduction for the 2006 taxable year is \$2.

Example 4. Partnership with no W-2 wages.

(i) *Facts.* A, an individual, and B, an individual, are partners in PRS. PRS is a partnership that engages in manufacturing activities that generate both DPGR and non-DPGR. A and B share all items of income, gain, loss, deduction, and credit equally. In the 2006 taxable year, PRS has total gross receipts of \$2,000 (\$1,000 of which is DPGR), CGS of \$400 and deductions of \$800. PRS has no W-2 wages. A and B each use the small business simplified overall method under § 1.199-4(f). A has trade or business activities

outside of PRS. With respect to those activities, A has total gross receipts of \$1,000 (\$500 of which is DPGR), CGS of \$400 (including \$50 of W-2 wages) and deductions of \$200 for the 2006 taxable year. B has no trade or business activities outside of PRS and pays \$0 of W-2 wages directly for the 2006 taxable year. A's distributive share of the items of the partnership is \$500 DPGR, \$500 non-DPGR, \$200 CGS, and \$400 of deductions.

(ii) *Section 199(d)(1)(A)(iii) wage limitation.* A's CGS and deductions apportioned to DPGR from PRS equal \$300 ((\$200 CGS + \$400 of other deductions) \times (\$500 DPGR/\$1,000 total gross receipts)). Accordingly, for purposes of the wage limitation of section 199(d)(1)(A)(iii), A's QPAI is \$200 (\$500 DPGR \times \$300 CGS and other deductions). A's share of partnership W-2 wages after application of the section 199(d)(1)(A)(iii) limitation is \$0, the lesser of \$0 (A's 50% allocable share of PRS's \$0 of W-2 wages) or \$12 (2 \times (\$200 QPAI \times .03)). B's share of PRS's W-2 wages also is \$0.

(iii) *Section 199 deduction computation.* A's total CGS and deductions apportioned to DPGR equal \$600 ((\$200 PRS CGS + \$400 outside trade or business CGS + \$400 PRS deductions + \$200 outside trade or business deductions) \times (\$1,000 total DPGR (\$500 from PRS + \$500 from outside trade or business)/\$2,000 total gross receipts (\$1,000 from PRS + \$1,000 from outside trade or business)). Accordingly, A's QPAI is \$400 (\$1,000 DPGR \times \$600 CGS and deductions). A's tentative deduction is \$12 (\$400 QPAI \times .03), subject to the section 199(b)(1) wage limitation of \$25 (50% \times \$50 total W-2 wages). A's section 199 deduction for the 2006 taxable year is \$12. B's total section 199 deduction for the 2006 taxable year is \$0 because B has no W-2 wages for the 2006 taxable year.

Example 5. Guaranteed payment. (i) *Facts.* The facts are the same as *Example 4* except that in 2006 PRS also makes a guaranteed payment of \$200 to A for services, and PRS pays \$200 of W-2 wages to PRS employees, which is included within the \$400 of CGS. See section 707(c). This guaranteed payment is taxable to A as ordinary income and is properly deducted by PRS under section 162. Pursuant to § 1.199-3(p), A may not treat any part of this payment as DPGR. Accordingly, PRS has total gross receipts of \$2,000 (\$1,000 of which is DPGR), CGS of \$400 (including \$200 of W-2 wages) and deductions of \$1,000 (including the \$200 guaranteed payment) for the 2006 taxable year. A's distributive share of the items of the partnership is \$500 DPGR, \$500 non-DPGR, \$200 CGS, and \$500 of deductions.

(ii) *Section 199(d)(1)(A)(iii) wage limitation.* A's CGS and deductions apportioned to DPGR from PRS equal \$350 ((\$200 CGS + \$500 of other deductions) \times (\$500 DPGR/\$1,000 total gross receipts)). Accordingly, for purposes of the wage limitation of section

199(d)(1)(A)(iii), A's QPAI is \$150 (\$500 DPGR \times \$350 CGS and other deductions). A's share of partnership W-2 wages after application of the section 199(d)(1)(A)(iii) limitation is \$9, the lesser of \$100 (A's 50% allocable share of PRS's \$200 of W-2 wages) or \$9 ($2 \times (\$150 \text{ QPAI} \times .03)$). B's share of PRS's W-2 wages after application of section 199(d)(1)(A)(iii) also is \$9.

(iii) *A's section 199 deduction computation.* A's total CGS and deductions apportioned to DPGR equal \$591 ($(\$200 \text{ PRS CGS} + \$400 \text{ outside trade or business CGS} + \$500 \text{ PRS deductions} + \$200 \text{ outside trade or business deductions}) \times (\$1,000 \text{ total DPGR} (\$500 \text{ from PRS} + \$500 \text{ from outside trade or business}) / \$2,200 \text{ total gross receipts} (\$1,000 \text{ from PRS} + \$200 \text{ guaranteed payment} + \$1,000 \text{ from outside trade or business}))$). Accordingly, A's QPAI is \$409 ($\$1,000 \text{ DPGR} \times \$591 \text{ CGS and other deductions}$). A's tentative deduction is \$12 ($\$409 \text{ QPAI} \times .03$), subject to the section 199(b)(1) wage limitation of \$30 ($50\% \times \$59 (\$9 \text{ PRS W-2 wages } \$50 + \text{W-2 wages from A's trade or business activities outside of PRS})$). A's section 199 deduction for the 2006 taxable year is \$12.

(iv) *B's section 199 deduction computation.* B's QPAI is \$150 ($\$500 \text{ DPGR} \times \$350 \text{ CGS and other deductions}$). B's tentative deduction is \$5 ($\$150 \text{ QPAI} \times .03$), subject to the section 199(b)(1) wage limitation of \$5 ($50\% \times \9). Assuming that B engages in no other activities generating DPGR, B's section 199 deduction for the 2006 taxable year is \$5.

(c) *S corporations*—(1) *In general*—(i) *Determination at shareholder level.* The section 199 deduction with respect to the qualified production activities of an S corporation is determined at the shareholder level. As a result, each shareholder must compute its deduction separately. The section 199 deduction will have no effect on the basis of a shareholder's stock in an S corporation. Except as provided by publication pursuant to paragraph (c)(1)(ii) of this section, for purposes of this section, each shareholder is allocated, in accordance with section 1366, its pro rata share of S corporation items (including items of income, gain, loss, and deduction), CGS allocated to such items of income, and gross receipts included in such items of income, even if the shareholder's share of CGS and other deductions and losses exceeds DPGR, and regardless of the amount of the shareholder's share of the W-2 wages of the S corporation for the taxable year. Except as provided by publication under paragraph (c)(1)(ii) of this section, to determine its section 199 deduction for the taxable year, the shareholder ag-

gregates its pro rata share of such items, to the extent they are not otherwise disallowed by the Code, with those items it incurs outside the S corporation (whether directly or indirectly) for purposes of allocating and apportioning deductions to DPGR and computing its QPAI.

(ii) *Determination at entity level.* The Secretary may, by publication in the Internal Revenue Bulletin (see § 601.601(d)(2)(ii)(b) of this chapter), permit an S corporation to calculate a shareholder's share of QPAI at the entity level, instead of allocating, in accordance with section 1366, the shareholder's pro rata share of S corporation items (including items of income, gain, loss, and deduction). If an S corporation does calculate QPAI at the entity level—

(A) Each shareholder is allocated its share of QPAI and W-2 wages, which (subject to the limitations under paragraph (c)(2) of this section and section 199(d)(1)(A)(iii), respectively) are combined with the shareholder's QPAI and W-2 wages from other sources;

(B) For purposes of computing the shareholder's QPAI under §§ 1.199-1 through 1.199-9, a shareholder does not take into account the items from the S corporation (for example, a shareholder does not take into account items from the S corporation in determining whether a threshold or de minimis rule applies or in allocating and apportioning deductions) in calculating its QPAI from other sources;

(C) A shareholder generally does not recompute its share of QPAI from the S corporation using another method; however, the shareholder might have to adjust its share of QPAI from the S corporation to take into account certain disallowed losses or deductions, or the allowance of suspended losses or deductions; and

(D) A shareholder's share of QPAI from an S corporation may be less than zero.

(2) *Disallowed losses or deductions.* Except as provided by publication in the Internal Revenue Bulletin (see § 601.601(d)(2)(ii)(b) of this chapter), losses or deductions of the S corporation that otherwise would be taken

into account in computing the shareholder's section 199 deduction for a taxable year are taken into account in that year only if and to the extent the shareholder's pro rata share of the losses or deductions from all of the S corporation's activities is not disallowed by section 465, 469, or 1366(d), or any other provision of the Code. If only a portion of the shareholder's share of the losses or deductions is allowed for a taxable year, a proportionate share of those allowable losses or deductions that are allocated to the S corporation's qualified production activities, determined in a manner consistent with sections 465, 469, and 1366(d), and any other applicable provision of the Code, is taken into account in computing the QPAI and the wage limitation of section 199(d)(1)(A)(iii) for that taxable year. To the extent that any of the disallowed losses or deductions are allowed in a later taxable year, the shareholder takes into account a proportionate share of those losses or deductions in computing its QPAI for that later taxable year. Losses or deductions of the S corporation that are disallowed for taxable years beginning on or before December 31, 2004, are not taken into account in a later taxable year for purposes of computing the shareholder's QPAI or the wage limitation of section 199(d)(1)(A)(iii) for that taxable year, regardless of whether the losses or deductions are allowed for other purposes.

(3) *Shareholder's share of W-2 wages.* Under section 199(d)(1)(A)(iii), an S corporation shareholder's share of the W-2 wages of the S corporation for purposes of determining the shareholder's section 199(b) limitation is the lesser of the shareholder's allocable share of those wages (without regard to section 199(d)(1)(A)(iii)), or 2 times 3 percent of the QPAI computed by taking into account only the items of the S corporation allocated to the shareholder for the taxable year of the S corporation. Except as provided by publication in the Internal Revenue Bulletin (see § 601.601(d)(2)(ii)(b) of this chapter), this QPAI calculation is performed by the shareholder using the same cost allocation method that the shareholder uses in calculating the shareholder's section

199 deduction. The S corporation must allocate W-2 wages (prior to the application of the wage limitation) among the shareholders in the same manner as wage expense. The shareholder must add the shareholder's share of W-2 wages from the S corporation, as limited by section 199(d)(1)(A)(iii), to the shareholder's W-2 wages from other sources, if any. If QPAI, computed by taking into account only the items of the S corporation allocated to the shareholder for the taxable year (as required by the wage limitation of section 199(d)(1)(A)(iii)), is not greater than zero, then the shareholder may not take into account any W-2 wages of the S corporation in applying the wage limitation of § 1.199-2 (but the shareholder will, nevertheless, aggregate its distributive share of S corporation items including wage expense with those items not from the S corporation in computing its QPAI when determining its section 199 deduction). See § 1.199-2 for the computation of W-2 wages, and paragraph (g) of this section for rules regarding pass-thru entities in a tiered structure.

(4) *Transition percentage rule for W-2 wages.* With regard to S corporations, for purposes of section 199(d)(1)(A)(iii)(II) the transition percentages determined under section 199(a)(2) shall be determined by reference to the S corporation's taxable year. Thus, if an S corporation shareholder uses a calendar year taxable year, and owns stock in an S corporation that has a taxable year ending on April 30, the shareholder's section 199(d)(1)(A)(iii) wage limitation for the S corporation's taxable year beginning on May 1, 2006, would be calculated using 3 percent, even though the shareholder includes the shareholder's pro rata share of S corporation items from that taxable year on the shareholder's 2007 Federal income tax return.

(d) *Grantor trusts.* To the extent that the grantor or another person is treated as owning all or part (the owned portion) of a trust under sections 671 through 679, such person (owner) computes its QPAI with respect to the owned portion of the trust as if that QPAI had been generated by activities performed directly by the owner. Similarly, for purposes of the section 199(b)

wage limitation, the owner of the trust takes into account the owner's share of the W-2 wages of the trust that are attributable to the owned portion of the trust. The section 199(d)(1)(A)(iii) wage limitation is not applicable to the owned portion of the trust. The provisions of paragraph (e) of this section do not apply to the owned portion of a trust.

(e) *Non-grantor trusts and estates*—(1) *Allocation of costs.* The trust or estate calculates each beneficiary's share (as well as the trust's or estate's own share, if any) of QPAI and W-2 wages from the trust or estate at the trust or estate level. The beneficiary of a trust or estate is not permitted to use another cost allocation method to recompute its share of QPAI from the trust or estate or to reallocate the costs of the trust or estate. Except as provided in paragraph (d) of this section, the QPAI of a trust or estate must be computed by allocating expenses described in section 199(d)(5) in one of two ways, depending on the classification of those expenses under § 1.652(b)-3. Specifically, directly attributable expenses within the meaning of § 1.652(b)-3 are allocated pursuant to § 1.652(b)-3, and expenses not directly attributable within the meaning of § 1.652(b)-3 (other expenses) are allocated under the simplified deduction method of § 1.199-4(e) (unless the trust or estate does not qualify to use the simplified deduction method, in which case it must use the section 861 method of § 1.199-4(d) with respect to such other expenses). For this purpose, depletion and depreciation deductions described in section 642(e) and amortization deductions described in section 642(f) are treated as other expenses described in section 199(d)(5). Also for this purpose, the trust's or estate's share of other expenses from a lower-tier pass-thru entity is not directly attributable to any class of income (whether or not those other expenses are directly attributable to the aggregate pass-thru gross income as a class for purposes other than section 199). A trust or estate may not use the small business simplified overall method for computing its QPAI. See § 1.199-4(f)(5).

(2) *Allocation among trust or estate and beneficiaries*—(i) *In general.* The QPAI of a trust or estate (which will be less

than zero if the CGS and deductions allocated and apportioned to DPGR exceed the trust's or estate's DPGR) and W-2 wages of a trust or estate are allocated to each beneficiary and to the trust or estate based on the relative proportion of the trust's or estate's distributable net income (DNI), as defined by section 643(a), for the taxable year that is distributed or required to be distributed to the beneficiary or is retained by the trust or estate. For this purpose, the trust or estate's DNI is determined with regard to the separate share rule of section 663(c), but without regard to section 199. To the extent that the trust or estate has no DNI for the taxable year, any QPAI and W-2 wages are allocated entirely to the trust or estate. A trust or estate is allowed the section 199 deduction in computing its taxable income to the extent that QPAI and W-2 wages are allocated to the trust or estate. A beneficiary of a trust or estate is allowed the section 199 deduction in computing its taxable income based on its share of QPAI and W-2 wages from the trust or estate, which (subject to the wage limitation as described in paragraph (e)(3) of this section) are aggregated with the beneficiary's QPAI and W-2 wages from other sources, if any.

(ii) *Treatment of items from a trust or estate reporting qualified production activities income.* When, pursuant to this paragraph (e), a taxpayer must combine QPAI and W-2 wages from a trust or estate with the taxpayer's total QPAI and W-2 wages from other sources, the taxpayer, when applying §§ 1.199-1 through 1.199-9 to determine the taxpayer's total QPAI and W-2 wages from such other sources, does not take into account the items from such trust or estate. Thus, for example, a beneficiary of an estate that receives QPAI from the estate does not take into account the beneficiary's distributive share of the estate's gross receipts, gross income, or deductions when the beneficiary determines whether a threshold or de minimis rule applies or when the beneficiary allocates and apportions deductions in calculating its QPAI from other sources.

(3) *Beneficiary's share of W-2 wages.* The trust or estate must compute each beneficiary's share of W-2 wages from

§ 1.199-9

26 CFR Ch. I (4-1-17 Edition)

the trust or estate in accordance with section 199(d)(1)(A)(iii), as if the beneficiary were a partner in a partnership. The application of section 199(d)(1)(A)(iii) to each trust and estate therefore means that if QPAI, computed by taking into account only the items of the trust or estate allocated to the beneficiary for the taxable year, is not greater than zero, then the beneficiary may not take into account any W-2 wages of the trust or estate in applying the wage limitation of §1.199-2 (but the beneficiary will, nevertheless, aggregate its QPAI from the trust or estate with its QPAI from other sources when determining the beneficiary's section 199 deduction). See paragraph (g) of this section for rules applicable to pass-thru entities in a tiered structure.

(4) *Transition percentage rule for W-2 wages.* With regard to trusts and es-

tates, for purposes of section 199(d)(1)(A)(iii)(II), the transition percentages determined under section 199(a)(2) shall be determined by reference to the taxable year of the trust or estate.

(5) *Example.* The following example illustrates the application of this paragraph (e) and paragraph (g) of this section. Assume that the partnership, trust, and trust beneficiary all are calendar year taxpayers.

Example. (i) *Computation of DNI and inclusion and deduction amounts.* (A) *Trust's distributive share of partnership items.* Trust, a complex trust, is a partner in PRS, a partnership that engages in activities that generate DPGR and non-DPGR. In 2006, PRS distributes \$10,000 cash to Trust. Trust's distributive share of PRS items, which are properly included in Trust's DNI, is as follows:

Gross income attributable to DPGR (\$15,000 DPGR – \$5,000 CGS (including W-2 wages of \$1,000))	\$10,000
Gross income attributable to non-DPGR (\$5,000 other gross receipts – \$0 CGS)	5,000
Selling expenses (includes W-2 wages of \$2,000)	3,000
Other expenses (includes W-2 wages of \$1,000)	2,000

(B) *Trust's direct activities.* In addition to its cash distribution in 2006 from PRS, Trust

also directly has the following items which are properly included in Trust's DNI:

Dividends	\$10,000
Tax-exempt interest	10,000
Rents from commercial real property operated by Trust as a business	10,000
Real estate taxes	1,000
Trustee commissions	3,000
State income and personal property taxes	5,000
W-2 wages for rental business	2,000
Other business expenses	1,000

(C) *Allocation of deductions under §1.652(b)-3—(1) Directly attributable expenses.* In computing Trust's DNI for the taxable year, the distributive share of expenses of PRS are directly attributable under §1.652(b)-3(a) to the distributive share of income of PRS. Accordingly, the \$5,000 of CGS, \$3,000 of selling expenses, and \$2,000 of other expenses are subtracted from the gross receipts from PRS (\$20,000), resulting in net income from PRS of \$10,000. With respect to the Trust's direct expenses, \$1,000 of the trustee commissions, the \$1,000 of real estate taxes, and the \$2,000

of W-2 wages are directly attributable under §1.652(b)-3(a) to the rental income.

(2) *Non-directly attributable expenses.* Under §1.652(b)-3(b), the trustee must allocate a portion of the sum of the balance of the trustee commissions (\$2,000), state income and personal property taxes (\$5,000), and the other business expenses (\$1,000) to the \$10,000 of tax-exempt interest. The portion to be attributed to tax-exempt interest is \$2,222 (\$8,000 × (\$10,000 tax exempt interest/\$36,000

gross receipts net of direct expenses)), resulting in \$7,778 (\$10,000 - \$2,222) of net tax-exempt interest. Pursuant to its authority recognized under § 1.652(b)-3(b), the trustee allocates the entire amount of the remaining \$5,778 of trustee commissions, state income and personal property taxes, and other business expenses to the \$6,000 of net rental income, resulting in \$222 (\$6,000 - \$5,778) of net rental income.

(D) *Amounts included in taxable income.* For 2006, Trust has DNI of \$28,000 (net dividend income of \$10,000 + net PRS income of \$10,000 + net rental income of \$222 + net tax-exempt income of \$7,778). Pursuant to Trust's governing instrument, Trustee distributes 50%, or \$14,000, of that DNI to B, an individual who is a discretionary beneficiary of Trust. Assume that there are no separate shares under Trust, and no distributions are made to any other beneficiary that year. Consequently, with respect to the \$14,000 distribution B receives from Trust, B properly includes in B's gross income \$5,000 of income from PRS, \$111 of rents, and \$5,000 of dividends, and properly excludes from B's gross income \$3,889 of tax-exempt interest. Trust includes \$20,222 in its adjusted total income and deducts \$10,111 under section 661(a) in computing its taxable income.

(ii) *Section 199 deduction.* (A) *Simplified deduction method.* For purposes of computing the section 199 deduction for the taxable year, assume Trust qualifies for the simplified deduction method under § 1.199-4(e). The determination of Trust's QPAI under the simplified deduction method requires multiple steps to allocate costs. First, the Trust's expenses directly attributable to DPGR under § 1.652(b)-3(a) are subtracted from the Trust's DPGR. In this step, the directly attributable \$5,000 of CGS and selling expenses of \$3,000 are subtracted from the \$15,000 of DPGR from PRS. Next, Trust must identify its other trade or business expenses directly related to non-DPGR trade or business income. In this example, the portion of the trustee commissions not directly attributable to the rental operation (\$2,000), as well as the portion of the state income and personal property taxes not directly attributable to either the PRS interests or the rental operation, are not trade or business expenses and, thus, are ignored in computing QPAI. The portion of the state income and personal property taxes that is treated as other trade or business expenses is \$3,000 (\$5,000 × \$30,000 total trade or business gross receipts/\$50,000 total gross receipts). Trust then allocates its other trade or business expenses on the basis of its total gross receipts from the conduct of a trade or business (\$20,000 from PRS + \$10,000 rental income). Trust then combines its non-directly attributable (other) business expenses (\$2,000 from PRS + \$4,000 (\$1,000 of other expenses + \$3,000 of income and property taxes) from its own

activities) and then apportions this total between DPGR and other receipts on the basis of Trust's total trade or business gross receipts (\$6,000 × \$15,000 DPGR/\$30,000 total trade or business gross receipts = \$3,000). Thus, for purposes of computing Trust's and B's section 199 deduction, Trust's QPAI is \$4,000 (\$7,000 - \$3,000). Because the distribution of Trust's DNI to B equals one-half of Trust's DNI, Trust and B each has QPAI from PRS for purposes of the section 199 deduction of \$2,000.

(B) *Section 199(d)(1)(A)(iii) wage limitation.* The wage limitation under section 199(d)(1)(A)(iii) must be applied both at the Trust level and at B's level. After applying this limitation to the Trust's share of PRS's W-2 wages, Trust is allocated \$330 of W-2 wages from PRS (the lesser of Trust's allocable share of PRS's W-2 wages (\$4,000) or $2 \times 3\%$ of Trust's QPAI from PRS (\$5,500)). Trust's QPAI from PRS for purposes of the section 199(d)(1)(A)(iii) limitation is determined by taking into account only the items of PRS allocated to Trust (\$15,000 DPGR - (\$5,000 of CGS + \$3,000 selling expenses + \$1,500 of other expenses)). For this purpose, the \$1,500 of other expenses is determined by multiplying \$2,000 of other expenses from PRS by \$15,000 of DPGR from PRS, divided by \$20,000 of total gross receipts from PRS. Trust adds this \$330 of W-2 wages to Trust's own \$2,000 of W-2 wages (thus, \$2,330). Because the \$14,000 Trust distribution to B equals one-half of Trust's DNI, Trust and B each has W-2 wages of \$1,165. After applying the section 199(d)(1)(A)(iii) wage limitation to B's share of the W-2 wages allocated from Trust, B has W-2 wages of \$120 from Trust (lesser of \$1,165 (allocable share of W-2 wages) or $2 \times .03 \times \$2,000$ (B's share of Trust's QPAI)). B has W-2 wages of \$100 from non-Trust activities for a total of \$220 of W-2 wages.

(C) *Section 199 deduction computation.* (1) *B's computation.* B is eligible to use the small business simplified overall method. Assume that B has sufficient adjusted gross income so that the section 199 deduction is not limited under section 199(a)(1)(B). B has \$1,000 of QPAI from non-Trust activities that is added to the \$2,000 QPAI from Trust for a total of \$3,000 of QPAI. B's tentative deduction is \$90 ($.03 \times \$3,000$), but it is limited under section 199(b) to \$110 ($50\% \times \220 W-2 wages). Accordingly, B's section 199 deduction for 2006 is \$90.

(2) *Trust's computation.* Trust has sufficient adjusted gross income so that the section 199 deduction is not limited under section 199(a)(1)(B). Trust's tentative deduction is \$60 ($.03 \times \$2,000$ QPAI), but it is limited under section 199(b) to \$583 ($50\% \times \$1,165$ W-2 wages). Accordingly, Trust's section 199 deduction for 2006 is \$60.

(f) *Gain or loss from the disposition of an interest in a pass-thru entity.* DPGR

generally does not include gain or loss recognized on the sale, exchange, or other disposition of an interest in a pass-thru entity. However, with respect to a partnership, if section 751(a) or (b) applies, then gain or loss attributable to assets of the partnership giving rise to ordinary income under section 751(a) or (b), the sale, exchange, or other disposition of which would give rise to DPGR, is taken into account in computing the partner's section 199 deduction. Accordingly, to the extent that cash or property received by a partner in a sale or exchange for all or part of its partnership interest is attributable to unrealized receivables or inventory items within the meaning of section 751(c) or (d), respectively, and the sale or exchange of the unrealized receivable or inventory items would give rise to DPGR if sold, exchanged, or otherwise disposed of by the partnership, the cash or property received by the partner is taken into account by the partner in determining its DPGR for the taxable year. Likewise, to the extent that a distribution of property to a partner is treated under section 751(b) as a sale or exchange of property between the partnership and the distributee partner, and any property deemed sold or exchanged would give rise to DPGR if sold, exchanged, or otherwise disposed of by the partnership, the deemed sale or exchange of the property must be taken into account in determining the partnership's and distributee partner's DPGR to the extent not taken into account under the qualifying in-kind partnership rules. See § 1.751-1(b) and paragraph (i) of this section.

(g) *Section 199(d)(1)(A)(iii) wage limitation and tiered structures*—(1) *In general.* If a pass-thru entity owns an interest, directly or indirectly, in one or more pass-thru entities, then the wage limitation of section 199(d)(1)(A)(iii) must be applied at each tier (that is, separately for each entity). For purposes of this wage limitation, references to pass-thru entities includes partnerships, S corporations, trusts (to the extent not described in paragraph (d) of this section) and estates. Thus, at each tier, the owner of a pass-thru entity (or the entity on behalf of the owner) calculates the amounts described in sec-

tions 199(d)(1)(A)(iii)(I) (owner's allocable share) and 199(d)(1)(A)(iii)(II) (twice the applicable percentage of the owner's QPAI from that entity) separately with regard to its interest in that pass-thru entity.

(2) *Share of W-2 wages.* For purposes of section 199(d)(1)(A)(iii) and section 199(b), the W-2 wages of the owner of an interest in a pass-thru entity (upper-tier entity) that owns an interest in one or more pass-thru entities (lower-tier entities) are equal to the sum of the owner's allocable share of W-2 wages of the upper-tier entity, as limited in accordance with section 199(d)(1)(A)(iii), and the owner's own W-2 wages. The upper-tier entity's W-2 wages are equal to the sum of the upper-tier entity's allocable share of W-2 wages of the next lower-tier entity, as limited in accordance with section 199(d)(1)(A)(iii), and the upper-tier entity's own W-2 wages. The W-2 wages of each lower-tier entity in a tiered structure, in turn, is computed as described in the preceding sentence. Except as provided by publication in the Internal Revenue Bulletin (see § 601.601(d)(2)(ii)(b) of this chapter)—

(i) An upper-tier entity may compute its share of QPAI attributable to items from a lower-tier entity solely for purposes of section 199(d)(1)(A)(iii)(II) by applying either the section 861 method described in § 1.199-4(d) or the simplified deduction method described in § 1.199-4(e), provided the upper tier entity would otherwise qualify to use such method.
